KEY NOTE ON THE DRAFT 2018-2019 IDP DEVELOPMENT

This 2018-2019 Integrated Development Plan review is the 1st review of the developed 5 year IDP of the Govan Mbeki Municipality for the period 2017/18 – 2021 /2022 which was adopted by Council on 28 May 2017.

In terms of the Municipal Systems Act 2000 (Act No 32 of 2000), municipalities need to annually review their IDP's in order to assess their performance and changing circumstances. The following are the reasons to review an IDP:

- ❖ To inform other components of the municipality's processes including institutional financial planning and budgeting;
- ❖ To ensure proper integration and alignment; and
- ❖ To reflect on internal and external changes that might have an impact on priority issues, objectives, strategies, projects and programmes

The outcomes of the aforementioned process may lead to:

- ❖ Revised or new strategies, including strategies to improve implementation;
- ❖ Revised or new projects; and
- ❖ Reflection of the above in the revised Integrated Plans and programmes including a revised Medium Term Expenditure Framework.

GOVAN MBEKI MUNICIPALITY'S STRATEGIC DIRECTIVE

Vision Statement

To be a Model City and Centre of Excellence

Mission Statement

To serve our community by:

- Providing sustainable, quality services
- Enabling diversified local economic development and job creation
- Ensuring the financial sustainability of the Municipality
- Working together with our stakeholders
- Empowering our workforce
- Ensuring sound corporate governance

Values

Teamwork	Collectivism, Synergies, Integration, Support
Integrity	Honesty, Professionalism, Trustworthy, Ubuntu
Accessibility	Decentralisation, Closer to Customer, Contactable, Reachable
Responsiveness	Reduced Turnaround Times, Acknowledgement, Feedback, Redress
Accountability	Taking Responsibility, Scrutiny, Compliance, Public Confidence
Transparency	Openness, Communication
Creativity	Innovation, Resourcefulness

The Vision, Mission and Values are informed by the following Six (6) Key Strategic objectives, which the municipality intend to achieve and to be realised over the course of the 5-year term (and potentially continued beyond) :

Strategic Objective 1: To enhance revenue & secure financial sustainability

Strategic Objective 2: To provide sustainable services, optimise operations and improve customer care

Strategic Objective 3: To facilitate and create an enabling environment for diversified local economic development, social cohesion and job creation

Strategic Objective 4: To enhance the capacity of human capital and deliver institutional transformation

Strategic Objective 5: To develop spatially integrated, safe communities and a protected environment

Strategic Objective 6: To promote good corporate governance and effective stakeholder engagement

Municipal Key Performance areas (KPA's) and Strategic Objectives of Govan Mbeki Municipality

To give effect to the objectives as set out in Sections 152 and 153 of the Constitution and to ensure that there is synergy between municipal planning instruments and the strategic development plans referenced above, the Govan Mbeki Municipal Council has aligned its overarching strategic development focus areas to best respond to its constitutional and developmental mandate.

The Municipal Key Performance Areas (KPA'S) and Strategic Objectives informed and guide service delivery and development over the next five years.

GOVAN MBEKI MUNICIPAL STRATEGIC OBJECTIVES

MUNICIPAL KEY PERFORMANCE AREAS	STRATEGIC OBJECTIVE	PRE DETERMINED OBJECTIVE (PDO'S)	ROLE OF MUNICIPALITY
KPA 1: Financial Viability	To enhance revenue & secure financial sustainability	<ul style="list-style-type: none"> ❖ To protect and enhance revenue ❖ To reduce operational expenditure ❖ Ensure sound asset management. ❖ Ensure value-for-money capital expenditure ❖ Review and streamline SCM processes ❖ Develop and implement a funding model. 	<ul style="list-style-type: none"> ❖ Adopt IDP planning processes appropriate to the capacity and sophistication of the municipality ❖ Implement the community work programme ❖ Ensure ward committees are representative and fully involved in the municipality's community consultation processes ❖ Improve municipal financial and administrative capacity by implementing competency norms and standards and acting against incompetence and corruption
KPA 2: Sustainable Physical Infrastructure and Improve Customer Care Services	To provide sustainable services, optimise operations and improve customer care	<ul style="list-style-type: none"> ❖ Improve energy efficiency ❖ Plan, construct and maintain roads and storm water ❖ Plan, construct and maintain water and sanitation ❖ Plan, construct and maintain waste infrastructure ❖ Plan, construct and maintain public facilities 	<ul style="list-style-type: none"> ❖ Ring-fence water, electricity and sanitation functions so as to facilitate cost-reflecting pricing of these services ❖ Ensure urban spatial plans provide for commuter, rail corridors, as well as other modes of public transport ❖ Maintain and expand water purification works and waste water treatment works in line with growing demand ❖ Cities to prepare to receive the devolved public transport function. ❖ Improve maintenance of municipal road networks

	To provide sustainable services, optimise operations and improve customer care	<ul style="list-style-type: none"> ❖ Provide sustainable, reliable, affordable water, sanitation services to all ❖ Provide sustainable, reliable, affordable electricity to all residents ❖ Provide sustainable, reliable, affordable waste disposal to all residents ❖ Develop, implement maintain sound relations with all customers ❖ Ensure access to safe and affordable public transport ❖ Develop, implement a branding plan ❖ Develop effective efficient building plan development application 	<ul style="list-style-type: none"> ❖ Ring-fence water, electricity and sanitation functions so as to facilitate cost-reflecting pricing of these services ❖ Ensure urban spatial plans provide for commuter rail corridors, as well as other modes of public transport ❖ Maintain and expand water purification works and waste water treatment works in line with growing demand ❖ Cities to prepare to receive the devolved public transport function. ❖ Improve maintenance of municipal road networks ❖ Continue to improve community health service ❖ infrastructure by providing clean water, sanitation and waste removal services ❖ ❖
KPA 3: Economic Growth and Development	To facilitate and create an enabling environment for diversified local economic development, social cohesion and job creation	<ul style="list-style-type: none"> ❖ To plan, execute enterprise development ❖ To plan, execute tourism enhancement ❖ To plan execute green economy projects ❖ To plan, execute skills development ❖ To plan, execute rural and agricultural ❖ To plan, execute urban renewal projects ❖ To plan, execute rural agricultural development 	<ul style="list-style-type: none"> ❖ Create an enabling environment for investment by streamlining planning application processes ❖ Ensure proper maintenance and rehabilitation of essential services infrastructure ❖ Ensure proper implementation of the EPWP ❖ Design service delivery processes to be labour intensive ❖ Improve procurement systems to eliminate corruption and ensure value for money ❖ Utilise community structures to provide service
KPA 4: Institutional Transformation	To enhance the capacity of human capital and deliver institutional transformation	<ul style="list-style-type: none"> ❖ Assess, review, and address the human capital and skills ❖ Establish an effective, efficient PMU , develop PM skills ❖ Develop, implement an effective, efficient PMS ❖ Review processes procedures for effective IT service ❖ Review processes procedures - effective service ❖ Review, provide the required municipal facilities ❖ Review, plan provide for the required equipment vehicle 	<ul style="list-style-type: none"> ❖ Develop and extend intern and work experience programmes in municipalities ❖ Link municipal procurement to skills development initiatives
KPA 5: Spatial Integration and Safe Protected Environment	To develop spatially integrated, safe communities and a protected environment	<ul style="list-style-type: none"> ❖ Ensure a safe secure environment ❖ Ensure a sustainable environment ❖ Review, implement the disaster management ❖ Provide reliable emergency services to all residents ❖ Ensure effective efficient traffic control , law ❖ Provide well-maintained parks, open spaces 	<ul style="list-style-type: none"> ❖ Facilitate the development of safer communities through better planning and enforcement of municipal by-laws ❖ Direct the traffic control function towards policing ❖ high risk violations – rather than revenue collection ❖ Metro police services should contribute by: ❖ Increasing police personnel and improving collaboration with SAPS ❖ Ensuring rapid response to reported crimes

			<ul style="list-style-type: none"> ❖ Develop and implement water management plans to reduce water losses ❖ Ensure effective maintenance and rehabilitation of infrastructure ❖ Run water and electricity saving awareness campaigns ❖ Ensure proper management of municipal commonage and open spaces
	To develop spatially integrated, safe communities and a protected environment	<ul style="list-style-type: none"> ❖ Develop integrated, sustainable human settlements ❖ Promote, develop sport, recreation ❖ Develop, conserve protect craft culture ❖ Ensure an effective and efficient library service ❖ Plan, construct, and maintain cemeteries 	<ul style="list-style-type: none"> ❖ Cities must prepare to be accredited for the housing function ❖ Develop spatial plans to ensure new housing developments are in line with national policy on integrated human settlements ❖ Participate in the identification of suitable land for social housing ❖ Ensure capital budgets are appropriately prioritised to maintain and extend existing services. ❖ Ring-fence water, electricity and sanitation functions so as to facilitate cost-reflecting pricing of these services ❖ Ensure urban spatial plans provide for commuter ❖ rail corridors, as well as other modes of public transport ❖ Maintain and expand water purification works and waste water treatment works in line with growing demand ❖ Cities to prepare to receive the devolved public transport function. ❖ Improve maintenance of municipal road networks
KPA 6 : Governance and Stakeholder Participation	To promote good corporate governance and effective stakeholder engagement	<ul style="list-style-type: none"> ❖ Promote sound and sustainable governance ❖ Pro-actively manage and mitigate risks ❖ Review and streamline policies and procedures ❖ Review by-laws and enforce ❖ Monitor and evaluate performance ❖ Improve internal and external communication. 	<ul style="list-style-type: none"> ❖ Continue to develop performance monitoring and management systems ❖ Comply with legal financial reporting requirements ❖ Review municipal expenditures to eliminate wastage ❖ Ensure councils behave in ways to restore ❖ community trust in local government

FOREWORD BY THE EXECUTIVE MAYOR

When we took office in August 2016 after the local government elections, as guided by section 28 of the Local Government Municipal Systems Act No 32 of 2000 we adopted a five year integrated development plan (IDP) starting from 2017 and ending in 2022.

In drafting this five year plan we ensured that it is firstly responding to the objects of local government outlined in section 152 of the constitution of the Republic of South Africa 1996 secondly inclusive of the community inputs as recipient of service delivery, thirdly it is aligned with the manifesto of the government of the day guided by its constituencies, fourthly it also respond to the National Development Plan, Provincial Growth Development Strategy and Mpumalanga vision 2030.

Imperatively was the alignment of the key strategic objectives with the back to basics principles as the tool of monitoring and evaluation of effectiveness of service delivering by local government and thus we have a sound IDP which is now a year old.

This is the first review of the 2017 -2022 IDP of which the process started in September 2017 for the drafting purpose and consultation component and later concluded in May 2018 for budgetary alignment purpose.

I am mandated by section 56 of the Local Government Municipal Structures Act to identify the needs of the community, review and evaluate those needs in order of priority thus the issue of sewer spillages, Electricity, repairs and maintains of our roads have taken centre stage of my priorities as the Executive Mayor.

In terms of chapter 5 of the IDP we have projected a budget of R1, 7 billion for the 2018/19 financial year which should respond directly to these needs in the order of priority while I am also exploring partnerships with other stakeholders like National and Provincial Government and private sector for commitments on additional funding to deal with these needs.

As I conclude, it is imperative that we take cognisance of our challenges, weaknesses and strength while noting very seriously the need to improve our revenue generation which in turn will enable us to give full meaning to our needs as identified within our IDP and this requires both the community and the municipality to pull towards the same direction.

When I took office on the 05th of March 2018, I declared my term the era in which we **Rebuilding a United, effective, efficient and Self Sustainable Municipality**.

This can only be achieved if we all do what is expected from us, council to lead, administration to manage and community to pay for its service charges as prescribed.

I thank you.

Yours Faithfully

MRS YT NGXONONO
EXECUTIVE MAYOR

FOREWORD BY THE ACTING MUNICIPAL MANAGER

This IDP Review of 2018/2019 will be used as a strategic plan that will guide and inform planning and development of the Govan Mbeki Municipality since Integrated development planning (IDP) is critical for sustainable development within the Govan Mbeki municipality and the surrounding rural areas.

The IDP review 2018/2019 will further allow us to ensure that the needs of the Govan Mbeki Community and its challenges are being addressed by the 5 year Strategic Plan, back to basics and vision 2030 which is a long term strategic plan.

We have continued in consulting our Stakeholders in ensuring that their revised needs are contained by the IDP as expressed during our IDP public participation priority engagements meetings.

Although the municipality is unable to attend to all demands, expectations and pressure it still continue to implement and fulfil our commitment and mandate to the people of Govan Mbeki Municipality in ensuring that Govan Mbeki Municipality strive to live up to its Mission Statement to serve our community by:

- ❖ **Providing sustainable, quality services**
- ❖ **Enabling diversified local economic development and job creation**
- ❖ **Ensuring the financial sustainability of the Municipality**
- ❖ **Working together with our stakeholders**
- ❖ **Empowering our workforce**
- ❖ **Ensuring sound corporate governance**

As strategic planning instrument which guides and informs all planning, budgeting, management and decision making in the Municipality, this **2018/2019 Integrated development planning (IDP)** is critical for sustainable development within the Govan Mbeki municipality and the surrounding rural areas.

In conclusion, I would like to thank the Executive Mayor, the Speaker, and Members of the Mayoral Committee and the IDP team for their overview, support, enthusiasm, commitment and dedication to ensure an effective and successful IDP review process.

Yours Faithfully

A handwritten signature in black ink, appearing to read 'Mb Mhlanga', written over a circular stamp or seal.

**ACTING MUNICIPAL MANAGER
MB MHLANGA**

CHAPTER 1: EXECUTIVE SUMMARY

1.1 INTRODUCTION AND BACKGROUND

In terms of legislation, a Municipality is required to review its Integrated development planning, herein refers to the IDP annually. This annual review cycle undertaken during the 2017/2018 financial year marks the **First (1st) review of the adopted (5) -year IDP 2017/2018-2021-2022 by Council on 28 May 2017.**

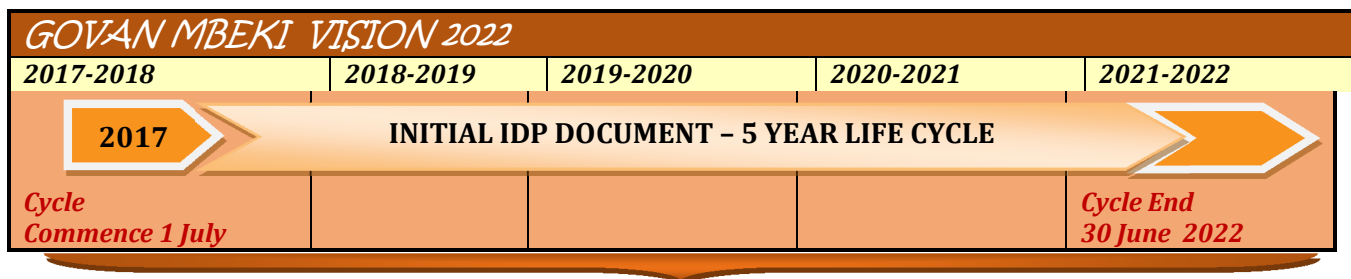

The Integrated development planning, herein refers to the IDP is the principal strategic planning instrument which guides and informs all planning; budgeting; and development within Govan Mbeki Municipality.

It is a process whereby a municipality prepares its strategic development plan for a five year cycle directly linked to the term of office of its Council. IDP.

The main aim of IDP is to facilitate improved quality of life for the people living, learning, playing or working in the area as it is at the centre of the system of developmental local government in South Africa, representing the driving force for making municipalities more strategic, inclusive, responsive and performance-driven in character.

The IDP therefore allows for synergy between the efforts of all spheres of government to improve the combined developmental impact of the state, translating national, provincial and district objectives into practical interventions within a defined municipal space.

FIVE (5) YEAR IDP CYCLE

Annual Reviews

Previously adopted versions of the Municipal IDP's are available on the municipal website www.govanmbeki.gov.za

1.2 LEGAL CONTEXT DEVELOPMENTAL LOCAL GOVERNMENT

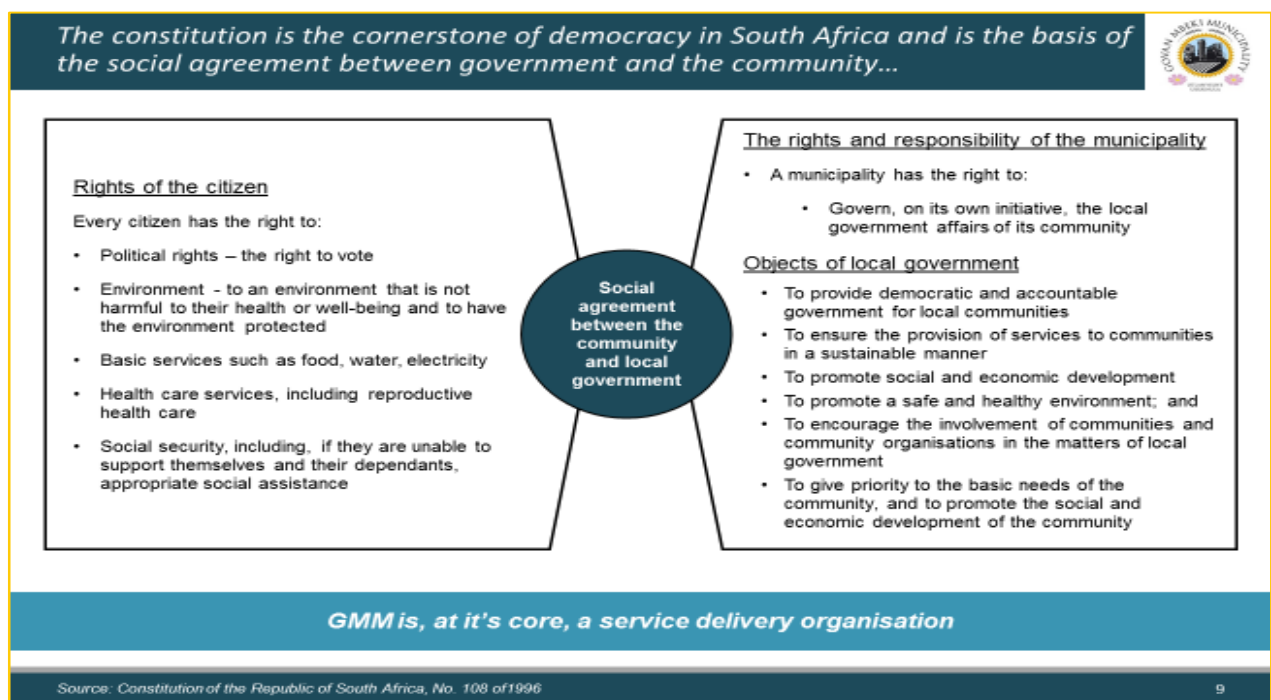

Municipalities function within an extensive legislative and policy framework that provides prescripts and guidelines for municipal actions according to constitutional obligations. In this regard, all municipalities must align their budget and programmes with national developmental and institutional policy directives that are mainly being guided by the Constitution.

1.2.1 VISION FOR LOCAL GOVERNMENT: CONSTITUTION OF RSA (1996)

The character of the current system of local government is informed by the Constitution of the Republic of South Africa, Act 108 of 1996 which defined five objects for local government and made provisions for all municipalities to strive for the realisation of these objectives within their financial and administrative capacity.

(S152) The objects of local government are to:

- ❖ provide democratic and accountable government for local communities;
- ❖ ensure the provision of services to communities in a sustainable manner;
- ❖ promote social and economic development;
- ❖ promote a safe and healthy environment; and
- ❖ encourage the involvement of communities and community organizations in the matters of local government.

The Constitution supersedes all legislative frameworks as the following legislation has been developed to guide municipalities as to its mandate, function and mechanisms to implement its constitutional mandate. The drafting, implementation and review of the IDP on an annual basis is mandatory for all municipalities in terms of the relevant legislation, and it is therefore important to briefly outline this legal framework.

1.2.2 DEVELOPMENTAL VISION: WHITE PAPER ON LOCAL GOVERNMENT (1998)

The White Paper on Local Government (1998) clarified what the developmental vision for local government should mean in practice. Essentially, the White Paper indicates that developmental local government means two things: a new approach of doing things and a set of new tools which local government can use to build this approach.

The White Paper proposes that municipalities must focus their energies on a clear set of developmental outcomes that will meaningfully address the impact of apartheid on human settlements. These outcomes are:

- ❖ provision of household infrastructure and services;
- ❖ creation of livable and integrated cities, towns and rural areas;
- ❖ local economic development; and
- ❖ community empowerment and redistribution.

In order to orientate itself with these developmental outcomes, local government is constitutionally required to structure and manage its administration, planning and budgeting processes differently.

The White Paper proposed some of the new administrative systems that municipalities needed to adopt to build a developmental approach. These systems are the pillars which concretely support a developmental orientation and are enshrined in the Municipal Systems Act. These are:

- ❖ integrated development planning;
- ❖ performance measurement and management; and
- ❖ structures and systems to enable active involvement of citizens and communities in the affairs of municipalities.

1.2.3 DEVELOPMENTAL APPROACH : MUNICIPAL SYSTEMS ACT (2000)

The Municipal Systems Act, Act 32 of 2000 obligates all municipalities to undertake a process of preparing and implementing IDPs.

- ❖ MSA, No. 32 of 2000, S25 (1) (a) requires the municipal council...after the start of its elected term, adopt a single, inclusive and strategic plan for the development of the municipality (Integrated Development Plan). The IDP has a 5 years lifespan linked directly to the municipal council term of office;
- ❖ The executive mayor of the municipality have to manage the IDP and may assign this responsibility to the municipal manager.
- ❖ MSA Section 28 and MFMA S21 mandates the municipal council to adopt a process plan which will guide the planning, drafting, adoption and review of its IDP at least 10 months before the start of the financial year. This must be in consultation will all affected stakeholders such as the community, traditional leaders, NGOs, private sector, other spheres of government, etc.
- ❖ S27 (1) of the MSA mandates the district municipality, after a consultative process with the local municipalities within its area, must adopt a framework for integrated development planning in the area as a whole.
- ❖ (2) A framework binds both the district municipality and the local municipalities in the area of the district municipality, and must at least –(d) determine procedures –
- ❖ for consultation between the district municipality and the local municipalities during the process of drafting their respective integrated development plans.
- ❖ The Framework gives direction which the municipalities IDPs should follow and drive integrated development planning within the district area of jurisdiction.

- ❖ The plan must identify the plans and planning requirements binding in terms of national and provincial legislation on the district and identify matters that require alignment in the IDPs and also specify principles and approach for coordination.

ACCORDING TO SECTION 25 (1) OF THE MSA,

Each municipal council must, within a prescribed period after the start of its elected term, adopt a single, all-inclusive and strategic plan for the development of the municipality which;

- Links integrates and coordinates plans and takes into account proposals for the development of the municipality;*
- Aligns the resources and capacity of the municipality with the implementation of the plan*
- Complies with the provisions of this Chapter; and*
- Is compatible with national and provincial development plans and planning requirements binding on the municipality in terms of legislation.*

Mainly guided by various legislations, policies and guides which have to be carefully considered when the document is compiled, the Integrated Development Plan (IDP) of Govan Mbeki Municipality (GMM), provides the strategic framework that guides the municipality’s planning and budgeting over the course of each political term.

Legislative frameworks, guidelines and policies are set out and included amongst others as per the below illustration:

1.3 KEY PLANNING AND POLICY DIRECTIVES INFORMING THE 5 YEAR DEVELOPMENT OF THE IDP

The 2018/2019 IDP Review is guided by strategic planning and policy directives from both National and Provincial Spheres of government.

This section reflects on the relationship between Govan Mbeki Integrated Development Plan and the other key planning and policy instruments from the national, provincial and the district government levels.

These relationships can assist in enhancing Governments services to the communities of Govan Mbeki.

One of the key objectives of the IDP is to ensure alignment between national and provincial priorities, policies and strategies (as listed below):

- ❖ Millennium Development Goals
- ❖ National Development Plan Priorities(2030 Vision)
- ❖ National Key Performance Areas
- ❖ Medium Term Strategic Framework
- ❖ Back to basics strategy
- ❖ The new growth path
- ❖ National Spatial Development Perspective
- ❖ National government’s outcomes –based approach to delivery
- ❖ Provincial Strategic Objectives / Mpumalanga Provincial Strategic Plan (2014-2019)
- ❖ District Strategic Objectives

The municipality acknowledge and take highly note of the implications of the NDP, MTSF, B2BStrategy and IMSP policy directives in terms of service delivery planning, budgeting, implementation, reporting and accountability.

The municipality fosters relations with other spheres of government and participates in various intergovernmental activities to promote a closer working relationship between the various spheres of government.

1.3.1 MILLENNIUM DEVELOPMENT GOALS

In September 2000 the Republic of South Africa together with 189 other countries, committed to the Millennium Declaration. This declaration sets out clear targets which are intended to be met by the year 2015. The municipality is committed to the goals and will plan accordingly, in terms of significantly addressing the plight of poor people and broader development objectives.

The South African agenda and the objectives set out in its development path embed the objectives of the Millennium Development Goals (MDGs) as listed below:

The Millennium Development Goals	
1. To eradicate extreme poverty and hunger 2. To promote universal primary education 3. To promote gender equality and empower women 4. To reduce child mortality	5. To improve maternal health 6. To combat HIV/AIDS, malaria and other diseases 7. To ensure environmental sustainability 8. To develop a global partnership for the development.

1.3.2 NATIONAL DEVELOPMENT PLAN (NDP) VISION 2030

In 2012, the National Cabinet adopted the National Development Plan (NDP), to serve as a blueprint for the work that is still required in order to achieve the desired results in terms of socio-economic development and the growth throughout South Africa by 2030.

The NDP is a step in the process of charting a new path for the Republic of South Africa. The broad goal of this plan is to eliminate poverty and reduce inequality by 2030. The key focus areas of this plan are illustrated in the figure below: Govan Mbeki Municipality endorses the thrust of the National Development Plan and has aligned its development strategies and resources to bring about optimal growth hand development at all levels within the virtuous cycle.

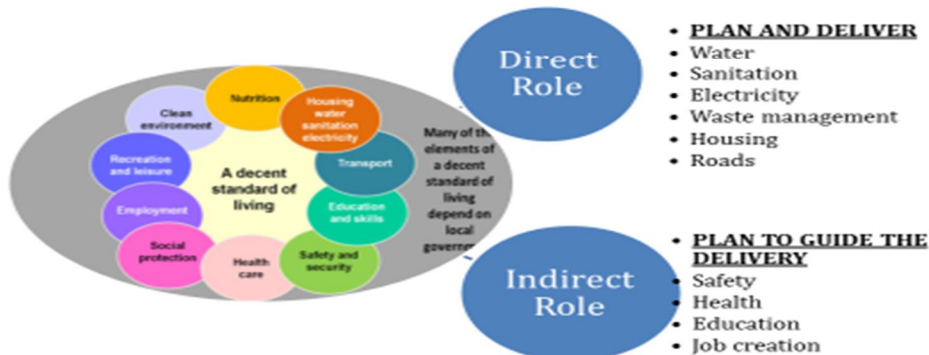

NATIONAL DEVELOPMENT PLAN "DECENT STANDARD OF LIVING" FOR ALL SOUTH AFRICANS BY 2030

A decent standard of living consists of the following core elements:

- Housing, water, electricity and sanitation
- Employment
- Recreation and leisure
- Clean environment
- Adequate nutrition.

Role of Local Government

- Safe and reliable public transport
- Quality education and skills development
- Safety and security
- Quality health care
- Social protection

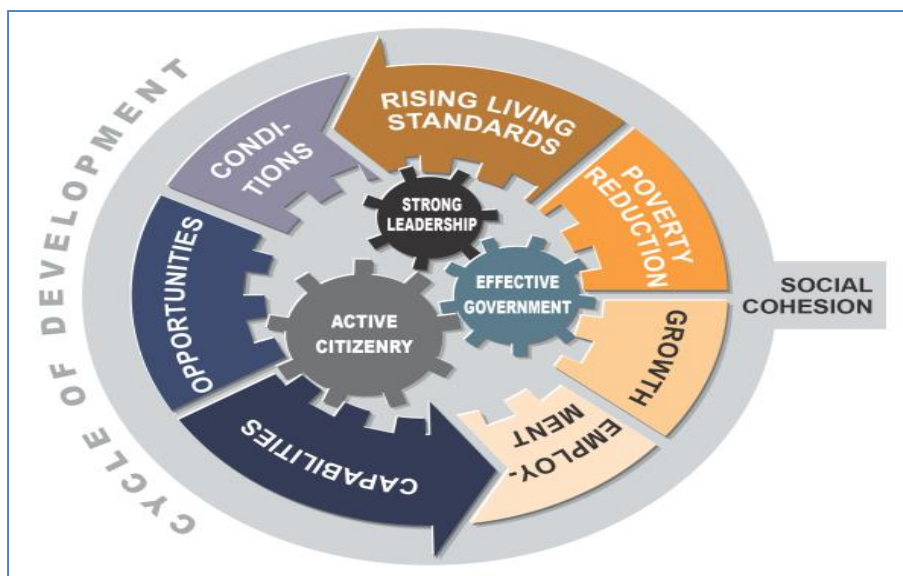

The broad goal of this plan is to reduce unemployment, alleviate poverty and reduce inequality by 2030. The key focus areas of this plan are illustrated in the figure below:

The National Development Plan's (NDP) Cycle of Development presupposes that the ultimate goal for development in South Africa is social cohesion through formulation and implementation of clear policies and sets of planned actions around:

- Poverty reduction
- Economic growth
- Employment creation
- Rising living standards
-

The following figure summarizes the Cycle of Development concept as enunciated by the National Development Plan

1.3.3 NATIONAL KEY PERFORMANCE AREAS FOR MUNICIPALITIES

CoGTA assess the progress made by municipalities against five Key Performance Areas (KPA) and cross-cutting interventions adopted in the 5-Year Local Government Strategic Agenda. The five KPAs that form the basis of the assessments are:

- ❖ Municipal Transformation and Organisational Development;
- ❖ Basic Service Delivery;
- ❖ Local Economic Development (LED);
- ❖ Municipal Financial Viability and Management; and
- ❖ Good Governance and Public Participation.

The above allow CoGTA to determine how well each municipality is performing, compare its performance to targeted goals, create measures to improve performance, identify the municipalities that have under-performed and propose remedial action to be taken to improve performance of municipalities.

1.3.4 THE MEDIUM TERM STRATEGIC FRAMEWORK (2014 -2019)

The MTSF is meant to guide planning and resource allocation across all the spheres of government. National and provincial departments in particular need to develop their five-year strategic plans and budget requirements, taking into account the medium-term imperatives. Similarly, municipalities are expected to adapt their IDPs in line with the national medium-term priorities. The Medium Term Strategic Framework lists 10 priorities:

- ❖ Speed up economic growth and transform the economy to create decent work and sustainable livelihoods;
- ❖ Massive programme to build economic and social infrastructure;
- ❖ Comprehensive rural development strategy linked to land and agrarian reform and food security;
- ❖ Strengthen the skills and human resource base;
- ❖ Improve the health profile of society;
- ❖ Intensify the fight against crime and corruption;
- ❖ Build cohesive, caring and sustainable communities;
- ❖ Pursue regional development, African advancement and enhanced international co-operation;
- ❖ Sustainable resource management and use; and
- ❖ Build a developmental state including improvement of public services and strengthening democratic institutions

1.3.5 BACK TO BASICS STRATEGY

The National Development Plan makes it clear that meeting the developmental local government agenda requires functional municipalities and a capable machinery at a local level can create safe, healthy and economically sustainable areas where citizens and people can work, live and socialise.

The overall objective of the “Back to basics” strategy is to improve the functioning of municipalities to better serve communities by getting the basics right.

1.3.6 THE NEW GROWTH PATH

This National Policy Framework deals specifically with issues such as creating decent work, reducing inequality and defeating poverty through “a restructuring of the South African economy to improve its performance in terms of labour absorption as well as the composition and rate of growth”.

Important and of practical consequence to local government, are the specific job drivers that have been identified:

- ❖ Substantial public investment in infrastructure both to create employment directly, in construction, operation and maintenance as well as the production of inputs, and indirectly by improving efficiency across the economy;
- ❖ Targeting more labour-absorbing activities across the main economic sectors – the agricultural and mining value chains, manufacturing and services;
- ❖ Taking advantage of new opportunities in the knowledge and green economies;
- ❖ Leveraging social capital in the social economy and the public services; and
- ❖ Fostering rural development and regional integration.

1.3.7 NATIONAL SPATIAL DEVELOPMENT PERSPECTIVE

The vision of the NSDP is that South Africa will become a nation in which investment in infrastructure and in development programmes will support Governments growth and development objectives.

The guidelines put forward by the NSDP are: (1) prioritise investment and development spending in line with Government’s objectives, and investment and expenditure should maximise and achieve sustainable outcomes. (2) Spatial forms and arrangements must be conducive to achieving social and economic inclusion and strengthening nation-building.

The National Spatial Development Perspective (NSDP) is a critical instrument for policy coordination, with regard to the spatial implications of infrastructure programmes in national, provincial and local spheres of government.

The NSDP provides:

- ❖ A set of principles and mechanisms for guiding infrastructure investment and development decisions;
- ❖ A description of the spatial manifestations of the main social, economic and environmental trends that should form the basis for a shared understanding of the national space economy; and
- ❖ An interpretation of the spatial realities and the implications for government intervention.

The NSDP principles and perspective informing the basis for robust analysis for the three spheres of government are diagrammatically illustrated as follow:

1.3.8 NATIONAL GOVERNMENT'S OUTCOMES-BASED APPROACH TO DELIVERY.

National Government has agreed on 12 outcomes as a key focus of work between now and 2014. These outcomes have been expanded into high-level outputs and activities, which in turn formed the basis of a series of performance agreements between the President and relevant Ministers.

Whilst all of the outcomes can to some extent be supported through the work of local government, Outcome 9 (A responsive, accountable, effective and efficient local government system) and its 7 outputs are specifically directed at local government:

NATIONAL GOVERNMENT'S OUTCOMES FOR LOCAL GOVERNMENT	
Output 1: Implement a differentiated approach to municipal financing, planning and support;	Output 5: Deepen democracy through a refined Ward Committee model;
Output 2: Improving access to basic services;	Output 6: Administrative and financial capability; and
Output 3: Implementation of the Community Work Programme;	Output 7: Single window of coordination.
Output 4: Actions supportive of the human settlement outcome;	

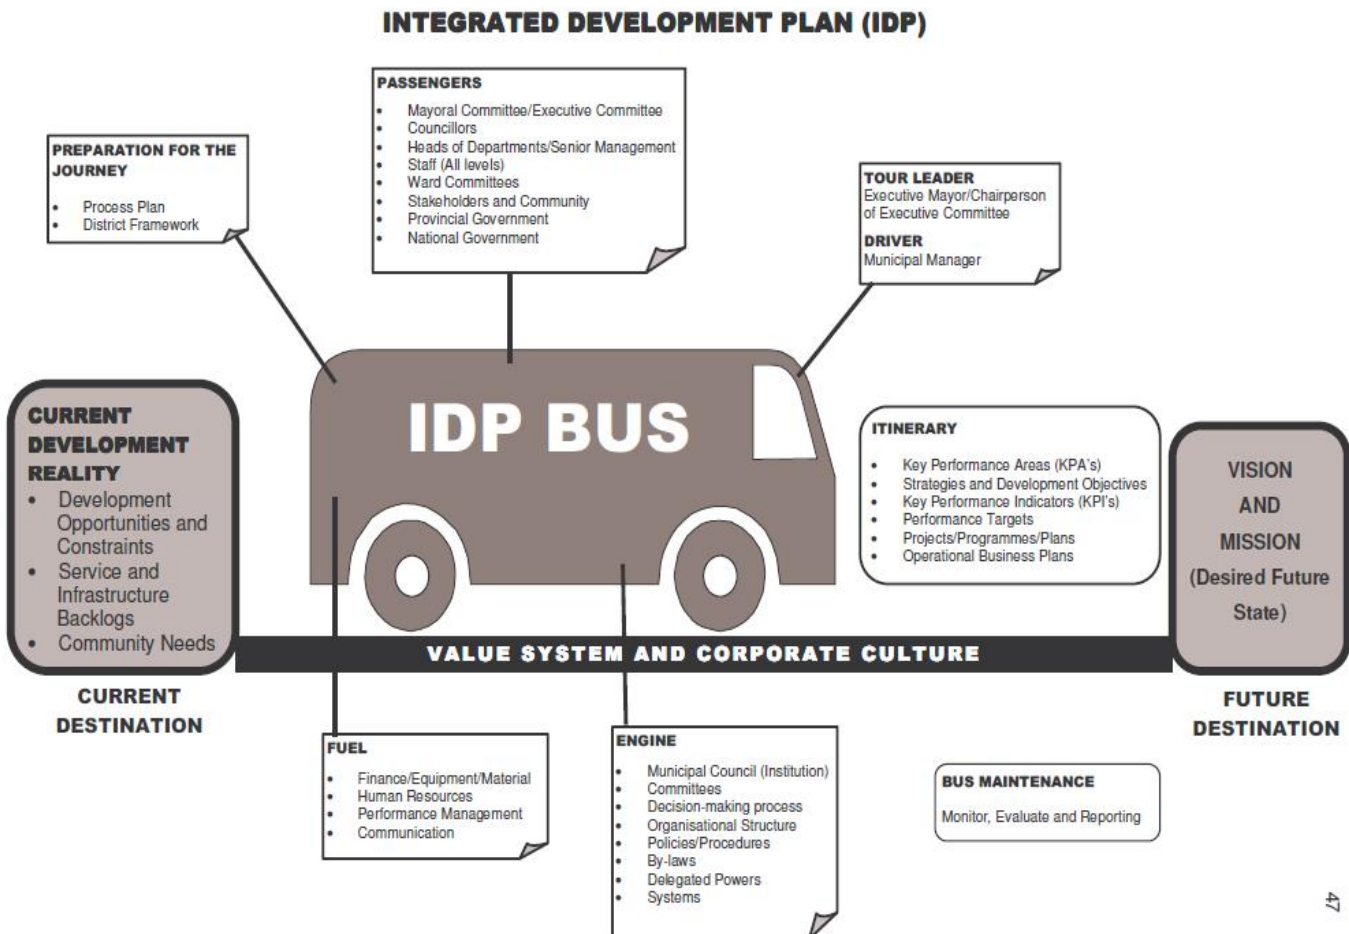

CHAPTER 2: INTEGRATED DEVELOPMENT PLANNING PROCESS

2.1 WHAT IS AN IDP?

The IDP is a principal strategic planning instrument which guides and informs all planning, budgeting, management and decision-making processes in a municipality. (It gives effect to the mandate of local government).

A participatory approach to integrate economic, sectoral, spatial, social, institutional, environmental and fiscal strategies in order to support to optimal allocation of scarce resources between sectors and geographical areas and across the population in a manner that provides sustainable growth, equity and the empowerment of the poor and the marginalised” – National IDP Guideline.

The IDP aligns resources and capacity of the municipality with the implementation of the sector plans if properly integrated in the IDP.

47

2.2 PHASES OF IDP DRAFTING AND ANNUAL REVIEW PROCESS

FIVE (5) PHASES

The phases in the IDP & Budget process which guide the annual review and the important activities, deliverables to be considered during the different five (5) phases of the IDP and Budget process are discussed as follows:

PHASE 1: ANALYSIS

During this phase information is collected on the existing conditions within the municipality. It focuses on the types of problems faced by people in the area and the causes of these problems. The identified problems are assessed and prioritised in terms of what is urgent and what needs to be done first.

Information on availability of resources is also collected during this phase. At the end of this phase, the municipality will be able to provide:

- An assessment of the existing level of development
- Details on priority issues and problems and their causes
- Information on available resources.

PHASE 2: STRATEGIES

During this phase, the municipality works on finding solutions to the problems assessed in phase one. The Mayoral Committee and Management discuss strategic issues such as vision, mission, future directions, strategic outcomes and outputs as well as measures and targets for each strategic output.

PHASE 3: PROJECTS, PROGRAMMES and CAPITAL BUDGET

During this phase the municipality works on the design and content of projects/programmes identified during Phase 2.

Clear details for each project have to be worked out and budget provision needs to be made for the next 3 years with updated cost estimates.

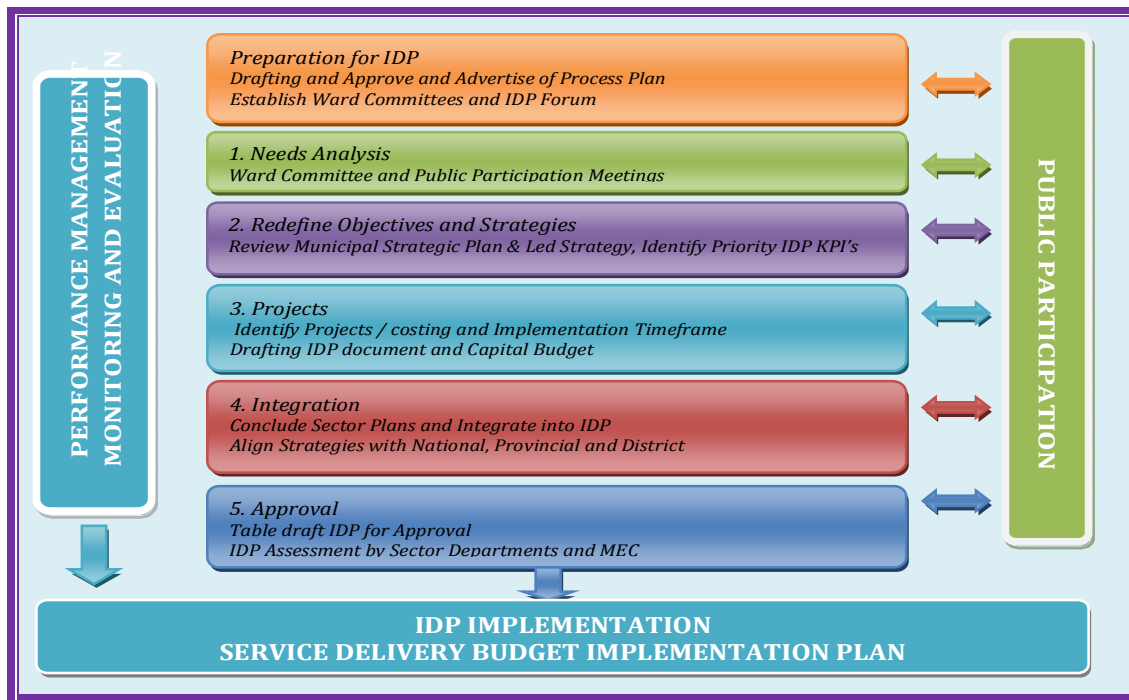

PHASE 4: INTEGRATION

Once all projects have been identified, the municipality has to check again that they contribute to meeting the objectives outlined in Phase 2. These projects will provide an overall picture of the development plans. All the development plans must now be integrated. The municipality should also have overall strategies for issues like dealing with poverty alleviation and disaster management. These strategies should be integrated with the overall IDP.

PHASE 5: APPROVAL

Finalisation and approval of draft IDP and draft annual budget by end March annually. Make public the draft IDP and draft budget for comments and submissions. Consultation with communities and stakeholders and then final approval by Council by end May annually.

The phases of the process of drafting and annual review of the IDP demonstrated as per the following two figures:

2.3 ANNUAL REVISION OF THE IDP

According to Section 34 of the Municipal System Act, No 32 of 2000

A municipal council;

- (a) must review its integrated development plan-*
 - (i) annually in accordance with an assessment of its performance measurements in terms of section 41;*
 - and*
 - (ii) to the extent that changing circumstances so demand; and*
- (b) may amend its integrated development plan in accordance with a prescribed process.*

The IDP has to be reviewed annually in order to:

- ❖ *Ensure its relevance as the municipality's strategic plan;*
- ❖ *inform other components of the municipal business process including institutional and financial*
- ❖ *planning and budgeting; and*
- ❖ *inform the cyclical inter-governmental planning and budgeting cycle.*

The purpose of the annual review is therefore to;

- ❖ *reflect and report on progress made with respect to the strategy in the 5 year IDP;*
- ❖ *make adjustments to the strategy if necessitated by changing internal and external circumstances that impact on the appropriateness of the IDP;*

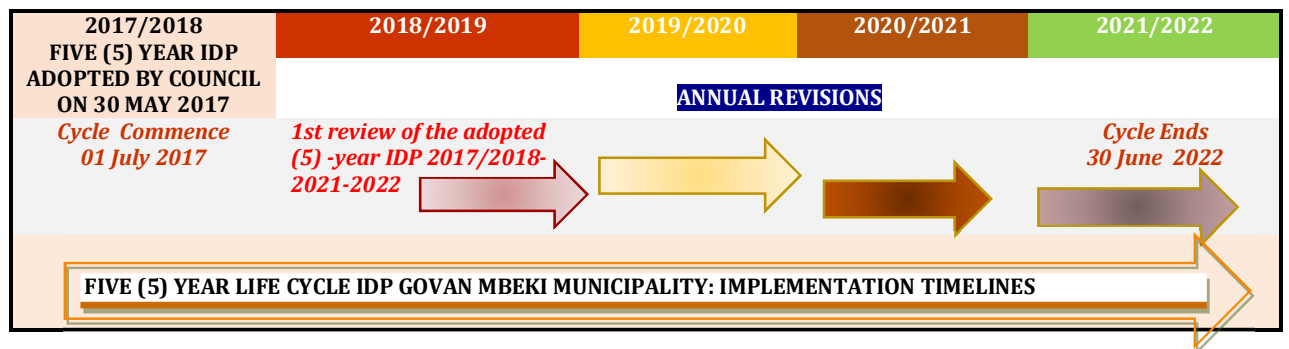

- ❖ determine annual targets and activities for the next financial year in line with the 5 year strategy; and
- ❖ inform the municipality's financial and institutional planning and most importantly, the drafting of the annual budget.

WHAT THE IDP REVIEW IS NOT

It is imperative to document and note that:

- ❖ The **Review of the IDP is Not** a replacement or amendment of the 5-year IDP 2017/2018-2021/2022,.
- ❖ The **Review of the IDP is Not** meant to interfere with the 5-year strategic orientation of the municipality.
- ❖ During the Five (5) Year Cycle **any version of the IDP Review should always be read in conjunction with the approved Five (5) Year IDP 2017/2018-2021/ 2022 document.**

IDP LIFE CYCLE

2.4. IDP AND BUDGET PROCESS PLAN

The Drafting and Preparation of The **2018/19 IDP Review and Budget Process Plan / Time Schedule** and its activities of Govan Mbeki Municipality is guided in terms of the following legal framework:

Section 21 (1) (a) and (b) of the Municipal Finance Management Act, No 56 of 2003 states the following;

The Mayor of a municipality must; (a) Co-ordinate the processes for preparing the annual budget and for reviewing the municipality's integrated development plan and budget-related policies to ensure that the tabled budget and any revisions of the integrated development plan and budget-related policies are mutually consistent and credible;

(b) At least 10 months before the start of the budget year, table in the municipal council a time schedule outlining key deadlines for-

i. The preparation, tabling and approval of the annual budget;

ii. The annual review of-

(aa) the integrated development plan in terms of section 34 of the Municipal Systems Act; and
(bb) the budget related policies.

iii. the tabling and adoption of any amendments to the integrated development plan and the budget-related policies; and

iv. any consultative processes forming part of the processes referred to in subparagraphs (i), (ii) and (iii).

Section 28(1) of the Municipal System Act, No 32 of 2000

In order to ensure certain minimum quality standards of the IDP process and a proper coordination between and within the spheres of government, the preparation of the planning process is regulated by the Municipal Systems Act, No 32 of 2000, Section 28 of the Systems Act stipulates that;

- ❖ Each Municipal Council must adopt a process set out in writing to guide the planning, drafting, adoption and review of the IDP.
- ❖ The municipality must through appropriate mechanisms, processes and procedures established in terms of Chapter 4, consult the local community before adopting the process.
- ❖ A municipality must give notice to the local community of particulars of the process it intends to follow.

Section 29(1) of the Municipal Systems Act stipulates the following:

The process followed by a municipality to draft its integrated development plan, including its consideration and adoption of the draft plan, must –

- ❖ be in accordance with a predetermined programme specifying timeframes for the different steps;
- ❖ through appropriate mechanisms, processes and procedures established in terms of Chapter 4 allow for (i) the local community to be consulted on its development needs and priorities; (ii) the local community to participate in the drafting of the IDP; and (iii) organs of state, including traditional authorities, and other role players to be identified and consulted on the drafting of the integrated development plan;
- ❖ provide for the identification of all plans and planning requirements binding on the municipality in terms of national and provincial legislation; and
- ❖ be consistent with any other matters that may be prescribed by regulation

The 2018/2019 Budget Process Plan was adopted by Council on August 2017 in terms of Section 28 (1) of the MSA, 32 of 2000 and is attached hereto as **annexure A**.

2.5 GOVAN MBEKI MUNICIPAL COMMUNICATION STRATEGY

Govan Mbeki Municipality's Communication Strategy confirm that the marketing and communications activities take place in an organised and structured way.

The Communication Strategy clarifies the methods and frequency of public communication and engagement which is indicative of the municipality's commitment and willingness to strengthen community participation. The Communication Strategy places strong emphasise on the importance of community participation and involvement in municipal planning, service delivery and performance management processes.

The implementation of the communication strategy culminates into an annual public participation programme which is aligned to the IDP and Budget Process Plan.

2.6 ACTIVITIES AND MILESTONES IN THE IDP AND BUDGET PLANNING PROCESS OF 2018/2019 IDP/BUDGET REVIEW

The table below summarises the key activities and milestones in IDP and Budget Planning Process 2018/2019 IDP/Budget review, with particular reference to community participation and stakeholder engagements.

A	M	KEY ACTIVITIES AND MILESTONES IN IDP AND BUDGET PLANNING PROCESS 2018/2019	JUN 17	JUL 17	AUG 17	SEP 17	OCT 17	NOV 17	DEC 17	JAN 18	FEB 18	MAR 18	APR 18	MAY 18	JUN 18
		Mayor approves SDBIP 2018/2019 within 28 days after approval of Budget													M
		Council approve 2018/2019 IDP and Budget													M
		Council Considers comments on 2018/2019 Draft IDP and Budget												A	
		Ward Committee Meetings: Consultation/ Input on 2018/2019 Draft IDP and Budget											A		
		Council consider 2018/2019 Draft IDP and Budget										M			
		Workshop Draft IDP and Budget 2018/2019 with full Council										A			
		Council approve 2017/2018 Adjustment Budget: Amend SDBIP accordingly									A				
		IDP Sector Engagements : Sector Departments conclude investments for 2018/2019 Budget cycle									A				
		Ward Committee Meetings: Share outcome of Strategic Planning Session									A				
		Budget Steering Committee Meeting: Consider Table Draft 2018/2019 Capital Budget and adjustment budget 2017/2018 Inputs								A					
		Directors submit departmental capital budget to budget office to compile draft budget								A					
		Council approve resolutions of Strategic Planning Session								M					
		High level Strategic Planning Session with IDP & Budget Steering Committee						A							
		Council Approves 2016/2017 Annual Financial Statements						M							
		Attend Provincial IDP Engagements (Intergovernmental Planning and Strategy Alignment)						A							
		Ward Committee Meetings: Priorities Service Delivery Needs for 2018/2019 IDP and Budget Cycle													
		Public Engagement Sessions in all Ward: Review Service Delivery and Development Needs 2018/2019				A									
		Council approves 2018/2019 IDP & Budget Process Plan		M											
		Signing of new performance Contracts for Section 56 Managers	A												

2.7 PUBLIC PARTICIPATION AND STAKEHOLDER INVOLVEMENT

The Local Government Municipal Systems Act, 32 of 2000 – Chapter 4 requires that all Municipalities develop a culture of participatory governance and to ensure the institutionalisation of this participatory process. To address this, Council has set up the following structures to promote a culture of participatory governance:

- ✓ Ward Committees structures
- ✓ IDP Representative Forum
- ✓ IDP Steering Committee.

The Constitution and MSA encourages municipalities to engage with communities and community organisations in the matters related to local government. Public Participation enables the municipality to undertake development plans and render services that are more relevant to the needs and conditions of local communities.

Public engagement sessions present the opportunity and platform to all citizens and those who have vested interest in Govan Mbeki to review the service delivery needs and priorities of the ward in which they reside, ultimately shaping the IDP according to their needs and interests.

The involved of Council is also achieved through the participation of Ward Committee System, Community Participation through various development planning processes, regular communication with the community through public meetings, community newsletters, radio and various other print media and electronic media including the Municipal Website within Govan Mbeki Municipality.

The municipality directly consult, inform and engage with its communities by means of the following mediums/ methods of communication on the IDP /Budget processes:

<ul style="list-style-type: none"> ❖ Ward Committee meetings ❖ Public ward meetings ❖ IDP Representative Forum ❖ IDP Steering Committee ❖ Radio Talk Shows and Announcements 	<ul style="list-style-type: none"> ❖ Newspaper/ Municipal Publications ❖ Social media ❖ SMS ❖ Hailing ❖ Road shows and meetings
---	--

Ward Committees

The role of Ward Committees with respect to the IDP is to participate in the

- Preparation, implementation and review of the IDP,
- Establishment, implementation and review of a Performance Management System (PMS); and
- Preparation of the budget.

The functions of ward committees are specified in the Ward Committee Rules for Govan Mbeki Municipality

Municipal IDP Representative Forum

The forum has been established in order to engage with the draft IDP. By engaging these forum it is considered that the IDP will be comprehensive, transparent and inclusive.

The forum consist of:

- ❖ The Mayor as chairperson
- ❖ All Councillors
- ❖ The Municipal Manager
- ❖ The Senior Managers
- ❖ Representatives of various municipal departments
- ❖ Ward Committee members
- ❖ Representatives from the District Municipality
- ❖ Representatives from National and provincial sector departments
- ❖ Local sector representatives; Organised Business, registered NGO`

The draft, reviewed or amended Integrated Development Plan as well as the budget of the municipality must be discussed at a meeting of the forum. The forum will be the official body with which the Municipality will liaise regarding matters affecting the entire municipal area.

2.8 ROLES AND RESPONSIBILITIES IN THE IDP PROCESS

The implementation of the IDP process plan involves the municipal officials and Council (internal) as well as other municipal stakeholders and the community (external). The responsibilities of the role-players can be summarised and brief described as per the following table :

Role players within the municipality.

ROLE PLAYER	ROLES AND RESPONSIBILITIES
Municipal Council	<ul style="list-style-type: none"> ❖ Consider and approve the IDP. ❖ Consider and approve the Budget.
Executive Mayor and Mayoral Committee	<ul style="list-style-type: none"> ❖ Responsible for the overall management, co-ordination and monitoring of the process and drafting of the IDP. ❖ Assign and delegate responsibilities in this regard to the municipal manager. ❖ Approve nominated persons to be in charge of the different roles, activities and responsibilities of the process and drafting. ❖ Submit the draft IDP to the Council for adoption.
Ward Councillors	<ul style="list-style-type: none"> ❖ Form a link between the municipal government and the residents. ❖ Link the IDP process to their constituencies and/or wards. ❖ Assist in organising public consultation and participation (with particular reference to the functioning of ward committees). ❖ Monitor the implementation of the IDP with respect to their particular wards.
Municipal Manager and/Directors and Managers	<ul style="list-style-type: none"> ❖ Prepare the IDP Process Plan. ❖ Undertake the day to day management and co-ordination of the IDP process. ❖ Ensure that all relevant stakeholders are appropriately involved and timeously informed. ❖ Nominate persons in charge of different roles.

ROLE PLAYER	ROLES AND RESPONSIBILITIES
	<ul style="list-style-type: none"> ❖ Ensure that the IDP process is participatory, strategic and implementation orientated and is aligned with and satisfies sector planning requirements. ❖ Respond to comments on the draft IDP. ❖ Ensure proper IDP documentation. ❖ Adjust the IDP in accordance with the proposals of the Provincial Minister of Local Government. ❖ Provide relevant technical, sector and financial information for analysis for determining priority issues. ❖ Contribute technical expertise in the consideration and finalisation of strategies and identification of projects. ❖ Provide departmental operational and capital budgetary information. ❖ Responsible for the preparation of project proposals, the integration of projects and sector programmes.

Between Municipality and External role-players

ROLE PLAYER	ROLES AND RESPONSIBILITIES
Govan Mbeki Municipality	<ul style="list-style-type: none"> ❖ Prepare and adopt the IDP Process Plan. ❖ Undertake the overall management and co-ordination of the IDP process which includes ensuring that : ❖ all relevant role-players are appropriately involved; ❖ appropriate mechanisms and procedures for community participation are applied; ❖ events are undertaken in accordance with the approved time schedule; ❖ the IDP relates to the real burning issues in the municipality; and ❖ The sector planning requirements are satisfied. ❖ Prepare and adopt the IDP. ❖ Adjust the IDP in accordance with the MEC of Local Government's Proposal. ❖ Ensure that the annual business plans, budget and performance management system are linked to and based on the IDP.
Local residents, communities and stakeholders	<ul style="list-style-type: none"> ❖ Represent interests and contribute knowledge and ideas in the IDP process by participating in and through the Ward Committees or OMAF to ❖ analyse issues, determine priorities, and provide input; ❖ keep their constituencies informed on IDP activities and their outcomes; and ❖ Discuss and comment on the draft IDP.
District Municipality	<ul style="list-style-type: none"> ❖ Same roles and responsibilities as local municipalities but related to the preparation of a District IDP. The District Municipality must also prepare a District Framework (Sec 27 of the MSA).
National and provincial sector departments	<ul style="list-style-type: none"> ❖ Many government services are delivered by provincial and account the programmes and policies of these departments. ❖ The departments should participate in the IDP process so that they can be guided how to use their resources to address local needs. ❖ Contribute relevant information on the provincial sector departments' plans, programmes, budgets, objectives, strategies and projects in a concise and accessible manner.

CHAPTER 3: MUNICIPAL PROFILE / SITUATIONAL ANALYSIS

This chapter provides a status quo of the existing trends and conditions that impact on the Govan Mbeki Municipal Area. Acknowledgement is given to the data of STATSA which assisted the municipality in the planning and strategic decision-making process. Statistical information in this Chapter is derived from:

- ❖ The Community Profiles of the past three (3) Census Counts of 1996, 2001 & 2011
- ❖ The Two (2) Community Surveys (sample based): Community Survey 2007 & Community Survey 2016) conducted from 1996 until 2016 .
- ❖ Community Surveys 2016 data has been adjusted to new municipal boundaries of 2016.
- ❖ Data was compared across all community profiles at local municipality level to show changes over time.
- ❖ Presentation excludes analysis of the reasons behind presented situation and what will happen in future

3.1 GEOGRAPHIC LOCATION: GREATER GOVAN MBEKI AT A GLANCE

Govan Mbeki Local Municipality is situated in the south-eastern part of Mpumalanga Province, abutting Gauteng Province in the south-west; approximately 150km east of Johannesburg and 300km south-west of Nelspruit (capital city of Mpumalanga).

Govan Mbeki Municipality is one of the 7 local municipalities under the jurisdiction of Gert Sibande District (the other districts being Ehlanzeni and Nkangala) and one of the 18 local municipalities within Mpumalanga. The Govan Mbeki area is mainly agricultural / rural with 3 urban conglomerates, namely; Leandra (Leslie, Lebohang and Eendracht) in the western edge, The Greater Secunda (Trichardt, Evander, Kinross and Secunda / Embalenhle) conurbation in the central part and Bethal / Emzinoni in the east.

Figure 3.1 below provides a graphic representation of the Govan Mbeki municipal jurisdiction and physical boundaries.

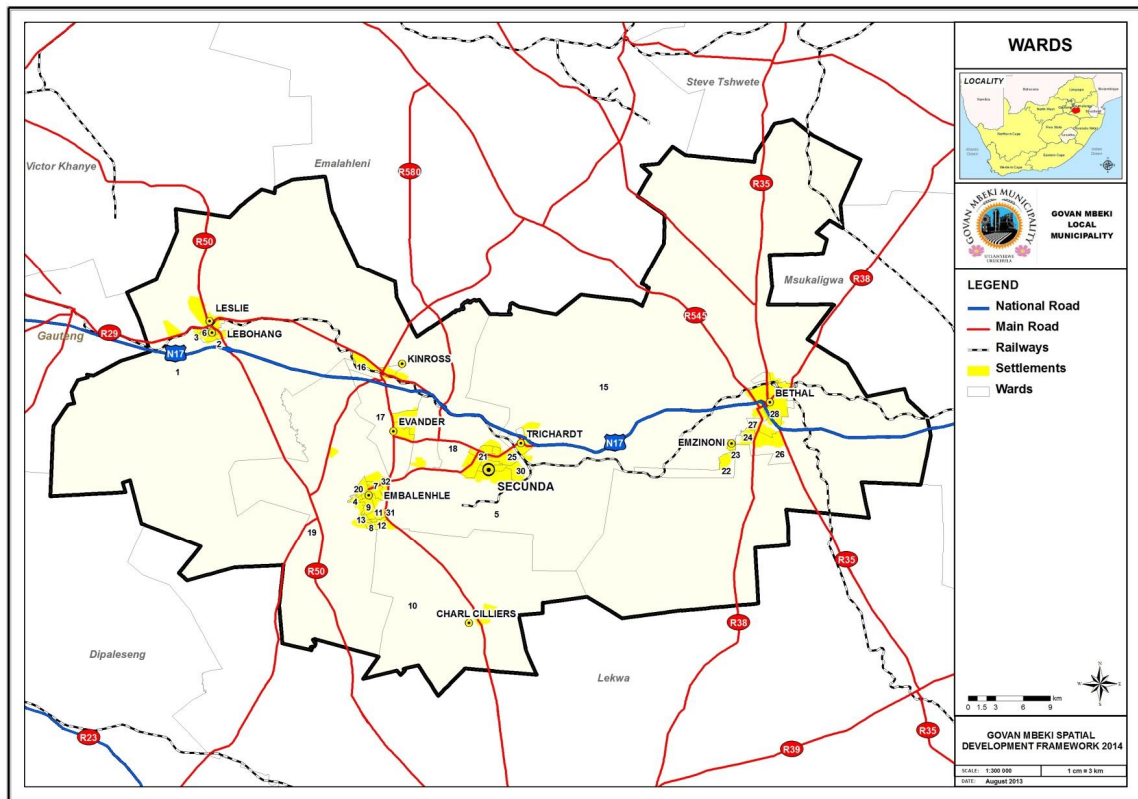

Before 1995 all the above mentioned towns were separate local authorities. As far as its regional context is concerned, Govan Mbeki is situated on the Gauteng/Richards Bay Corridor formed by the National Road N17 and the Richards Bay rail line running through the area in an east-west direction.

Govan Mbeki has the most diversified economy within the Gert Sibande District, dominated by the petrochemical industry (the SASOL II and III complexes) and coal and gold mining. Govan Mbeki has the largest underground coal mining complex in the world which makes it an important strategic area within the national context.

3.1.1 Municipal Wards

The municipality comprises of 8 towns and structured into 32 electoral wards which cover an area of 2 958m².

The breakdown of wards details are as follows:

WARD INFORMATION	
WARD NAME/ AREA	WARD NAME/ AREA
1 Leandra and part of Kinross	17 Evander and farms
2 Lebohang	18 Evander and Secunda
3 Lebohang	19 Embalenhle and farms
4 Embalenhle	20 Embalenhle
5 Secunda	21 Secunda
6 Lebohang	22 Emzinoni
7 Embalenhle	23 Emzinoni
8 Embalenhle	24 Emzinoni
9 Embalenhle	25 Secunda and Trichardt
10 Embalenhle and Charl Cilliers	26 Emzinoni
11 Embalenhle	27 Emzinoni
12 Embalenhle	28 Bethal and Emzinoni
13 Embalenhle	29 Embalenhle
14 Embalenhle	30 Secunda
15 Bethal	31 Embalenhle
16 Kinross	32 Embalenhle

3.2 SWOT Analysis

The SWOT Analysis intent to outline the major strengths and weaknesses, opportunities and threats within the municipal geographical region.

INTERNAL FACTORS	<p>STRENGTHS </p> <ul style="list-style-type: none"> • Close Proximity to airport and National Road • Petro-Chemical and synthetic fuels plant • Moderate climate • High Rainfalls • Good tourism potential • Good infrastructure • Good sports facilities • Good medical facilities • Good schools • Rail Network • Mining Area • University /satellite campus 	<p>WEAKNESSES </p> <ul style="list-style-type: none"> • Rural areas and some poor communities still have gravel roads • Most roads not in good condition; potholes • Inadequate storm water drainage in some areas; • Frequent sewerage blockages • Ageing electricity infrastructure • Pressure on energy sources • Lack of available land for Integrated Human Settlements • Backyard dwellers / Housing shortage • Relatively far from major ports (Durban/Richards Bay/Maputo) • Growing Informal Settlements
EXTERNAL FACTORS	<p>OPPORTUNITIES </p> <ul style="list-style-type: none"> • Many development opportunities • Marathon Activities • Institutionalisation of Annual Cultural and Sport Events • Capitalising on the Extended Public Works Programme • SMME Development • Industrial Park West of Secunda 	<p>THREATS </p> <ul style="list-style-type: none"> • Eskom Price increases • Increase in crime • HIV/AIDS • Unemployment and Poverty • Government Grant Dependency Increasing • Climate change, Air pollution, Droughts • Water shortage • Limited lifespan of mines • Increasing population (informal settlements, pressure on housing, unemployment, infrastructure and municipal services) • Decline of central business district • Immigration from other provinces • Illegal occupying of Municipal Land (Squatting) • Non affordability of Houses influences the attracting of suitable candidates • Closure of Mining and Petro Chemical industry

3.3 DEMOGRAPHIC OVERVIEW GOVAN MBEKI MUNICIPALITY

An overview of the demographic situation in the municipality provides an understanding of the current scale of the population and allows for the calculation of future population growth trends.

It is contended that the population and household statistics provided hereto will assist municipalities to set accurate and credible service delivery targets across the new 5-year integrated development cycle. The distribution and characteristics of the population of a municipality plays a significant role in the ability of the municipality to deliver basic services.

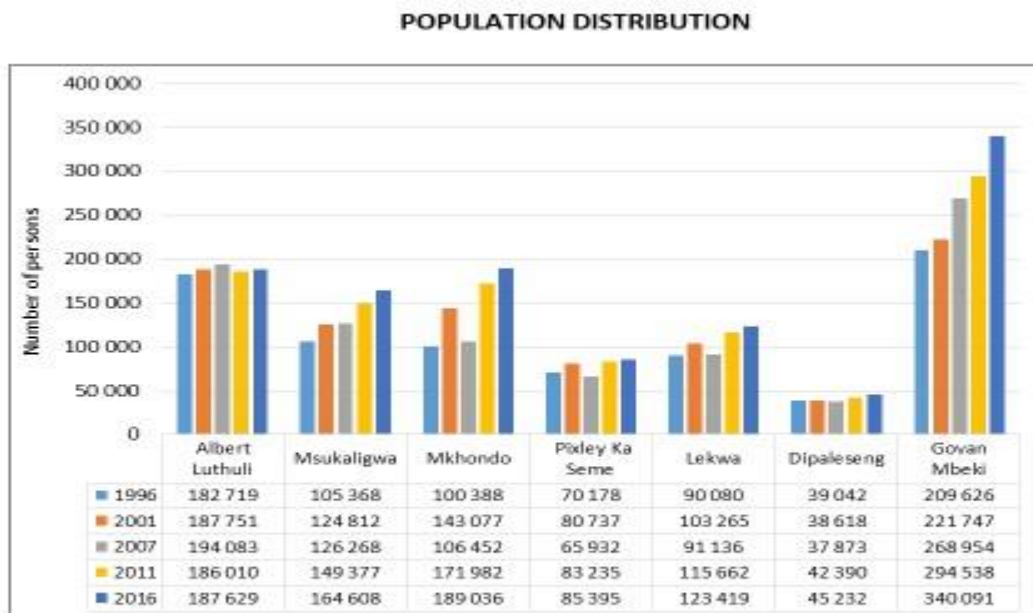

3.3.1 POPULATION PROFILE AND SIZE

The latest Community Survey 2016 as issued by STATSSA , indicated Govan Mbeki has the 1st largest population in the Gert Sibande District with a population size of 340091 in 2016 compared to 294538 in 2011. The population grew on average by 3.1 % between 2011 and 2016 as compared to the district wide growth of 1.88 %.

This could be the result of people migrating to the municipality seeking job opportunities as Govan Mbeki is considered to be one of the economical hub of Mpumalanga for job seekers .

Figure 3.3.1 below indicate the population distribution of Govan Mbeki in comparison to the Gert Sibande district and it is clearly that Govan Mbeki is under increasingly pressure due to increase in population growth.

Figure 3.3.1 Population Distribution

Source: Stats SA Community Profile (1996, 2001, 2007, 2011 & 2016)

Govan Mbeki is the most prominently 2nd fastest growing population with an annual population growth rate of 3.10% in the whole of the Mpumalanga Province after Steve Tshwete with a population growth of 4.29%

A population growth of this proportion is likely to place strain on existing backlogs and the municipality's ability to effectively service the community. Because of the increase in households which directly demand services.

2011 Census Population Size				2016 Community Survey Population Size			
Age	Male	Female	Grand Total	Age	Male	Female	Grand Total
0 - 4	15129	15176	30305	00-04	14866	14931	29796

Grand Total	152211	142326	294538	Grand Total	176939	163152	340091

Population Growth Rate (%)

The existing population within the developed areas of Govan Mbeki (urban and rural) totals 340 091 representing 108 894 households, at an average of 3.3 people per household and a population growth rate of 3.1

3.3.2 AGE AND GENDER DISTRIBUTION

Age and gender of the population are the key determinant of population dynamic and can influence the current and future needs and spending of the municipality.

The analysis of the age and gender distribution of Govan Mbeki Municipality will particularly highlight growth trends, the gender ratio, and functional age categorisation and how the age distribution impacts dependency on the working population. These statistics provide important insights into the age groups, where the bulk of the population is located and to target government, civil society and non-governmental programmes more effectively.

Figure 3.3.2 illustrates changes in Govan Mbeki's distribution by age and gender over the period 2011 to 2016. The Source for the illustration is based on the Stats SA census 2011 and Stats SA, Community Survey 2016. The figures shows the composition of the age groups between 0 and 14, 15 to 64 and persons 65 and older. The 0 to 14 age group provides an indication of those persons still dependent on their parents and that are thus not economically active, whilst the 15 to 64 year age group shows persons potentially economically active within the population.

The 65 year and older age group gives an indication of persons that have retired and are elderly and potentially no longer economically active. It highlights the gender distribution for the GMM, based on the differentiation between male and female according to age groups. The age and gender distribution for Govan Mbeki is predominantly evenly spread out with males (52%) dominating females (48%) as can see from the below figure 3.2.2 comparison between 2011 and 2016.

Figure 3.3.2 Age in completed years by Gender Census 2011

3.4 SEX RATIO MALE PER 100 FEMALES

The male population in Govan Mbeki is higher than female population in Govan Mbeki. The gender ratio in 2011 was 106.95 males per 100 females, which had changed to 108.45 males per 100 females in 2016.

SEX RATIO (MALES PER 100 FEMALES)

Source: Stats SA Community Profile (1996, 2001, 2007, 2011 & 2016)

THE SOUTH AFRICA I KNOW, THE HOME I UNDERSTAND

Such high sex ratio towards man are mainly due to a due to beneficial employment opportunities as more men living in Govan Mbeki seeking for job opportunities in the various industries across the district which are manufacturing, industrial and mining companies.

Although the sex ratio is most favorable to reap a demographic dividend. If people are not able to work other potential threats will developed such as an increase in poverty, high unemployment rates, pressure on the infrastructure and basic service delivery.

It is also worth mentioning that the older population is increase and this will result into older people dependent on specialized housing and care.

3.5 HOUSEHOLD PROFILE AND SERVICES

This section also provides information on the household profile and services for residents living within the Govan Mbeki municipal area.

To ensure basic service delivery to all, municipal budget allocations should be informed by credible and accurate assumption regarding the number of households within a municipal area. According to Census 2011 and the recent 2016 Community Survey done by Stats SA.

The number of households for the Govan Mbeki Municipal Area increased from 83874 in 2011 to 108894 in 2016 as can see per figure 3.5.1

The statistical data offers insight into the fact that Govan Mbeki has experienced the highest population and household growth annually.

An annual growth increase of 5.80% in the total number of households within the municipal area and rank Govan Mbeki as the fastest growing population in Gert Sibande district with an Average Household size of 3.12%.

Figure 3.5.1 Number of Households

3.6 SOCIO-ECONOMIC DEVELOPMENT

The Socio-Economic Development Indicators of Govan Mbeki Local Municipality are recorded as per below table.

The table illustrates the distribution of average monthly household income within the GMM. Households in this instance can be classified as poor, when their average monthly household income equates to anything between the margins of no income to R3 200 per month.

When taking this into consideration with the information provided in the table above the majority of employed persons in the municipality earn a low income. Approximately 62% of the employed population earn a salary between R1 and R38 400 annually, which sets the basis for a low paid labour force and high poverty rates in GMM.

The afore captured information on the table depicts a state of affair that deprives the youth to be absorbed in any employment opportunities that are availed by the surrounding

	Matric only		21	21	26
	Matric+		4	4	6

(Source for the illustration is based on the Stats SA census 2011 and Stats SA, Community Survey 2016)

3.8 HEALTH STATUS GOVAN MBEKI

In analysing the population growth, it is important to also take into account the HIV/Aids prevalence for the municipality, as the incidence of HIV/Aids will have a distinct effect on the population totals in the future.

HEALTH STATUS GOVAN MBEKI LOCAL MUNICIPALITY		
Causes of death	Year	Percentage
Anti-natal HIV prevalence rate (%)	2009	40
	2010	33

(Source for the illustration is based on the Stats SA census 2011)

The Following Ten causes of death in Govan Mbeki Municipality (2009) were cited in social development departmental report. :

- ✓ Influenza and pneumonia
- ✓ Tuberculosis
- ✓ Other external causes of accidental injury
- ✓ Intestinal infectious diseases
- ✓ Certain disorders involving the immune mechanism
- ✓ Other forms of heart disease
- ✓ Human immunodeficiency Virus (HIV)
- ✓ Diabetes Mellitus
- ✓ Cerebrovascular diseases
- ✓ Respiratory and cardiovascular diseases
- ✓ Chronic lower respiratory diseases

In order to gain a greater understanding of the prevalence and severity of HIV and AIDS in the area, the District Health Barometer (DHB) was consulted.

The DHB provides an overview of the delivery of primary health care in the public health sector across all the provinces and districts and draws data from StatsSA, the antenatal HIV prevalence survey and other relevant sources.

The table below reflect on the status of HIV prevalence as recorded in 2011 and it is revealed that approximately 43.5% of women were tested for HIV within GSDM, of which 34% were tested positive.

Overview of HIV Prevalence, 2011		
Indicator	Gert Sibande DM	Mpumalanga Province
Antenatal clients tested for HIV	43.5%	39.0%
Antenatal Clients HIV 1st test positive	34.0%	28.9%
Estimated number of infants born to HIV positive women	93.7%	88.9%
HIV positive infants (tested at 6 weeks)	3.2%	4.6%
HIV pre-test counselled (excluding antenatal)	91.8%	93.4%

(Source for the illustration is based on the Stats SA census 2011)

When looking at the figures for Mpumalanga Province 39% of women were tested for HIV and 28.9% were tested positive. An alarming estimated 93.7% of infants are born to HIV positive women in GSDM, compared to 88.9% for the Mpumalanga Province.

Only 3.2% of babies tested for HIV at 6 weeks of age within GSDM are tested positive compared to 4.6% for the province. The table further shows that 91.8% of individuals who under-went HIV

3.9 EMPLOYMENT BY INDUSTRIES

The main economic attraction towards GMM is the dominant presence of mining and manufacturing activities. From the table below it is clear that the mining sector (39%) and manufacturing sector (24%) contributes the most in terms of GDP, and as a result the economy is concentrated with a Tress of 62.5.

The table below is an indication of each sector's GDP contribution for the Govan Mbeki LM, the sector share it has in the total economy and the rank of the sector in the economy according to the Tress Index.

Govan Mbeki's sector GDP contributions, percentage shares of the economy and Tress Index ranking per sector

Economic Sector	GDP (Rands)	% Share	Tress Index Ranking
Mining	10 574 495 600	39%	9
Manufacturing	6 590 891 943	24%	8
Wholesale and trade	4 168 093 454	15%	7
Government and community service	2 396 477 705	9%	6

3.12. SUMMARY OF DEVELOPMENT PRIORITIES AS PER ANALYSES TRENDS OF DEMOGRAPHIC STATISTICS

As seen from the analysis , the current population trends are expected to continue brining about dramatic changes in the age structure not only for the Mpumalanga’s population as whole but Govan Mbeki in particular.

This poses a potential opportunity to reap a demographic dividend or it could threaten the achievement of sustainable human development during the next 30 years.

The following critical trends are of great concern

- ✓ Increase in older persons who are dependent as the burden of care” for older persons can limit the opportunities of family members to be educated and work – particularly women.
- ✓ The municipality should see the need to invest in the care for older persons should be seen as an integral part of socio-economic development
- ✓ For the demographic dividend to materialise, there must be in place sufficient flexibility in the labour market to allow its expansion through creation of adequate employment opportunities for youth, since there are an increase of youth in “working ages”
- ✓ Provision of Bulk Infrastructure development across the entire municipal area which includes amongst others the following:
 - Construction of Electrical Substations,
 - Refurbishment and upgrading of Waste Water Treatment Plant all affected areas, Leandra, Kinross, eMzinoni,
 - Upgrading of Sewerage Reticulation network in eMbalenhle,
 - Bulk water supply to eMzinoni,
 - Upgrading of Sewerage pump stations,
 - Replacement of AC pipes in eMzinoni.

CHAPTER 4: INSTITUTIONAL ARRANGEMENTS: POLITICAL AND ADMINISTRATIVE GOVERNANCE STRUCTURES WITH GOVAN MBEKI MUNICIPALITY

Govan Mbeki Municipality is a category B municipality with a Mayoral Executive System and is established in terms of the Local Government Municipal Structures Act No: 117 of 1998.

The Municipality consist of 32 wards as promulgated by the Mpumalanga Demarcation Board. The Core business of the Municipality is to render Services efficiently and effectively to its community.

The full Council consists of 63 Councillors.

4.1 POLITICAL GOVERNANCE STRUCTURE OF GOVAN MBEKI MUNICIPALITY

The council performs both legislative and executive functions. They focus on legislative, oversight and participatory roles, and have delegated its executive function to the Executive Mayor and the Mayoral Committee.

Their primary role is to debate issues publicly and to facilitate political debate and discussion. Apart from their functions as decision makers, Councillors are also actively involved in community work and the various social programmes in the municipal area. The Council of the GMM Municipality comprises of 63 elected Councillors, chaired by the Speaker.

The Mayoral Committee is established in terms of Section 43 of the Structures act, they act as political heads of departments with delegated functions and powers and they are chairpersons of their Port Folio Committees.

Following the local government elections in August 2016, the composition of council are as follows:

COMPOSITION OF COUNCIL						
Political Party	Number of Councillors	Gender		Council Executive	Name of Councillor	Political Party
		Male	Female			
ANC	36	12	24	Executive Mayor	Cllr NF Maboaboltman	ANC
DA	15	7	8	Speaker	Cllr NG Zuma	ANC
EFF	9	7	2	Chief Whip	Cllr PD Mtshali	ANC
SAPROMO	1	1	0	Chairperson MPAC	Cllr CV Gwiji	ANC
FF PLUS	2	1	1			
Total	63	28	35			

The roles of the Council, Mayoral Committee and the Executive Mayor are summarised as follows:

4.1.1 Council

The Council's primary role is to govern the municipality in a democratic and accountable manner, to perform legislative and executive functions and generally to fulfil its roles and responsibilities as set out in the Constitution of the Republic of South Africa, 1996 (Act 108 of 1996).

It focuses on legislative, decision-making, oversight and participatory roles, and has delegated executive functions to the Executive Mayor.

4.1.2 Executive Mayor

The Executive Mayor assisted by the Mayoral Committee, heads the political executive arm of the Municipality. The Executive Mayor is at the centre of the system of governance, since executive powers are vested in her to manage the day-to-day affairs. This means that she has an overarching strategic and political responsibility.

The key element of the executive model is that executive power is vested in the Executive Mayor, delegated by the Council, as well as the powers assigned by legislation. Although she is accountable for the strategic direction and performance of the Municipality, the Executive Mayor operates in conjunction with the Executive Mayoral Committee.

As per Council resolution, **A76/09/2016, section 79 and 80 committees** have been established. that are aimed at intensifying service delivery.

4.1.3 MMCs report to the Executive Mayor

Section 80 committees known as Portfolio Committees. The MMCs reports to the Executive Mayor. The Council has a Mayoral system, and the Speaker is the Chairperson of the Council. Council conducts.

4.1.4 MPAC

Section 79 committees are permanent committees appointed to advise the municipal Council.

Council established the Municipal Public Accounts Committee (MPAC) to perform an oversight function on behalf of Council over the executive functionaries of the Council. The MPAC inter alia serves as an oversight committee to make recommendations to the Council when it adopts the Oversight Report on the Annual Report in terms of Section 129 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003) (MFMA).

4.1.5 Audit Committee

In compliance with Section 166(2) of the MFMA, Council has an Audit Committee which is an independent body advising the municipal Council, the political office-bearers, the accounting officer and the management staff of the municipality, on matters relating to:

- ❖ Internal financial control;
- ❖ Risk management;
- ❖ Performance management; and
- ❖ Effective governance.

4.1.6 Mayoral/Portfolio Committees

Five (5) Section 80 committees are established, i.e. Corporate Services, Planning and Development, Technical Services, Financial Services and Community Services, to advise the Executive Mayor on policy matters and any other matter to be considered by the Executive Mayor.

Portfolio Committees are assigned to focus on specific functional areas of the Municipality and can only make decisions on specific functional issues if delegations have been granted to them.

The members are appointed by Council. The chairpersons appointed by the Executive Mayor are full-time Councillors and form part of the Mayoral Committee.

Its functional responsibility area is linked to that of the Executive Mayor to the extent that he must operate together with the members of the mayoral committee.

Its primary task is to assist the Executive Mayor in the execution of his powers - it is in fact an extension of the office of Executive Mayor. The committee has no powers on its own – decision making remains that of the Executive Mayor.

4.2 COMMITTEES ESTABLISHED IN TERMS OF SECTION 79 OF THE LOCAL GOVERNMENT MUNICIPAL STRUCTURES ACT, ACT 117 OF 1998

That the following committees has been established in terms of Section 79 of the Local Government: Municipal Structures Act, Act 117 of 1998:

4.5. INSTITUTIONAL DEVELOPMENT AND TRANSFORMATION

4.5.1 Human Capital and Skills Development

Govan Mbeki Local Municipality recognises the value of investing in its workforce through the implementation of a carefully planned training and development initiatives and activities.

The Municipality views the skilling of its workforce as key towards the realisation of the process of service delivery and the implementation of its Integrated Development Plan. A Draft Human Resources Strategy has been drafted and will be approved by June 2018.

Each year, the Municipality reviews its skills priorities and implements learning programs on that basis. A Workplace Skills Plan (WSP) has been compiled based on the departmental needs as identified by the relevant directorates and is implemented. The Work Place Skills Plan describes the skills needed and the range of skills development interventions that an organization will use to address these needs. A WSP is developed annually – May to April and is submitted to Local Government Sector Education Training Authority (LGSETA) by 30 April every year.

The WSP facilitates access to the LGSETA mandatory grants for skills training. The municipality is required to provide an Annually Training Report (ATR) as to how needs are addressed as defined in the WSP. The WSP also provides sector information to the LGSETA specifically. Priorities are considered to determine the most critical skills development needs before training can be arranged within the limits of budgetary provisions. The training needs are received from all Departments and incorporated into the WSP, it has to be indicated that needs are aligned to the strategic plan of the Municipality, the IDP and SDBIP.

The training intervention outcomes are to enhance employee's performance in their respective work. In order to recruit, develop and retain critical and scarce skills, the Municipality has developed the following policies: Recruitment and Selection Policy, Training and Development Policy as well as a Succession and Retention Planning Policy.

4.5.2 Employment Equity

Govan Mbeki Municipality strives to promote the constitutional right of equality and eliminate unfair discrimination in employment and ensure the implementation of employment equity to redress the effects of discrimination. The Municipality remains committed to providing equal employment opportunities and endorses the philosophy of affirmative action and employment equity to achieve a diverse workforce broadly representative of our people.

The purpose of Govan Mbeki Municipality's Employment Equity plan is the eradication of discrimination in relation to race, gender and disability that has denied access to opportunities for education, employment, promotion and wealth creation to South Africans within the work place.

The Employment Equity plan of Govan Mbeki Municipality plan strives to:

- ❖ To ensure that our workplace is free of discrimination.
- ❖ To ensure the right of equality and opportunities in employment and ensure the right of every person is protected against employment discrimination on the grounds of race, gender, ethnicity or social origin, colour, sexual orientation, disability, religion, culture and or political affiliation.

4.5.3 Workforce Profile

The following table reflects on the municipality's internal capacity to implement this IDP. The total number of employees (including employees with disabilities) in each of the following occupational levels equals 1358 employees.

Note: A=Africans, C=Coloureds, I=Indians and W=White.

WORKFORCE PROFILE

Total Employees, including people with disabilities

OCCUPATIONAL LEVELS	Male				Female				TOTAL
	A	C	I	W	A	C	I	W	
Top management	6				2				8
Senior management	22		1	1	4			1	29
Professionally qualified and experienced specialist and mid-management	35	2		4	19	2	1	1	64
Skilled technical academically qualified workers, junior management, supervisors, foremen, and superintendents	161	1		13	91	2	1	10	279
Semi-skilled and discretionary decision making	262	1		1	148	4	1	12	429

Unskilled and defined decision making	350	2			174				526
TOTAL PERMANENT	836	6	1	19	438	8	3	24	1335
Temporary employees	10	-	-	-	13	-	-	-	23
GRAND TOTAL	846	6	1	19	451	8	3	24	1358

The senior management team is supported by a municipal workforce of permanent employees and non-permanent employees, who work in the various departments to implement the IDP strategic objectives.

4.5.4 VACANCY RATE IN MUNICIPALITY:

Name of Municipality	Total No. of Posts	No. of filled funded posts	No. of vacant Posts	Vacancy Rate (%)	Male	Female	No of employees with disabilities	No of officials employed under age of 35
Govan Mbeki Municipality	2 171	1 260	911	41.96%	802	458	21	194

4.7 BY-LAWS

Municipal by-laws are laws made by local government. A by-law is a law that is passed by the Council of a municipality to regulate the affairs and the services it provides within its area of jurisdiction. They must be passed by a majority vote of a municipal council.

In terms of the Constitution the executive and legislative authority of a municipality is exercised by the municipal council, and one of the methods by which this is done is by passing by-laws.

A municipality may only make by- laws on matters that it has the right to administer.

The Local Government Systems Act No. 32 of 2000 provides the system by which a Municipal Council may adopt a by-law, after a process of public participation and proclamation in the Government Gazette.

The table below reflects the status of by-laws introduced by Govan Mbeki Municipality:

STATUS ON MUNICIPAL BY-LAWS		
No.	Name of By-law	By-Laws Gazetted* (Yes/No)
1	Electricity By-law	Yes
2	Fire Brigade By-law	Yes
3	Public Participation By-law	Yes
4	Regulation of Storm water Management By-law	Yes
5	Informal Trading By-law	Yes
6	Liquefied Petroleum By-law	Yes
7	Nuisance By-law	Yes
8	Parks and Open Spaces By-law	Yes
9	Privately owned swimming pools By-law	Yes
10	Public Swimming Pools By-law	Yes
11	Public Amenities By-law	Yes
12	Municipal Taxi Ranks By-law	Yes
13	Water Supply By-law	Yes
14	Advertising Signs By-law	Yes
15	By-law related to the keeping of animals, birds and poultry	Yes
16	Cemeteries By-law	Yes

17	Disposal of Contaminated and Infectious Waste By-law	Yes
18	By-laws relating to the control of Car watchers and Car washers	Yes
19	Standard Drainage By-law	Yes
20	Cleansing By-law	Yes

23	Spatial Planning and Land Use Management By-law	Yes
24	Cleansing Services and Solid Waste Management By-law	Yes
25	Traffic By-laws	Yes

4.8 MUNICIPAL CORPORATE GOVERNANCE ICT POLICY FRAMEWORK

4.8.1 Overall intent of the IT strategy

The Govan Mbeki Municipality (GMM) is a business driven and Service centric municipality with visions and goals to develop itself and its residence into a model city of excellence through its implementation of a smart city concept.

As an Enabler ICT is key to the realisation of this vision, goals and objectives. This ICT Strategy is not a technology strategy but a business strategy to achieve the business goals and objectives.

IT plays a pivotal role in enabling public service delivery through achieving stakeholder value and enabling the Public Service to achieve its strategic outcomes.

The overall intent of the IT strategy is to use IT as an enabler in the achievement of the municipality's Integrated Development Plan (IDP) goals, and to promote and enhance municipal service delivery.

This strategy is aimed at assisting the municipality in transforming its internal organisation to ensure the following is achieved:

- ❖ That there is a single business strategy to service delivery powered by ICT
- ❖ That there is an integrated systems approach to improve efficiency of Service Delivery.
- ❖ That key business drivers are the key focus of the ICT service strategy
- ❖ ICT service plan is aligned with the strategic goals of the municipality;
- ❖ That current and future ICT capabilities are planned to maximize and sustain business goals
- ❖ ICT investment outcomes can be quantified in revenue protection, revenue enhancement, good governance and efficient expenditure.
- ❖ Ensures that ICT enables the municipality's economic growth and development by being flexible and pro-active, leading the cause of business growth, built into the growth plan and not existing besides it for support.
- ❖ ICT facilitates financial sustainability by supporting the performance framework, providing efficient delivery of services to customers; ensure accurate billing and revenue collection; and
- ❖ That ICT is structured to lead GMM's ERP program, that business clusters are structured around ICT's integrated systems plan as opposed to ICT being structured around business cluster to support applications

4.8.2 ICT Objectives

The following are strategic ICT objectives identified for the GMM:

- ❖ ICT Operating Model and Service Delivery - To ensure that ICT is properly structured and managed to minimise operational and business risk;
- ❖ ICT Operating Model and Service Delivery - To ensure that effective systems and technologies are implemented to create a customer centric working environment;
- ❖ ICT Governance - To ensure that Business is appropriately governed and a framework is implemented to ensure policies and procedures are being adhered to;
- ❖ Enterprise Architecture - To ensure that appropriate ICT Infrastructure and solutions are put in place to sustain the overall business capabilities and needs and in turn improving productivity and enhancing service delivery;
- ❖ ICT Structure – To ensure that ICT is appropriately structured and capacitated with the appropriate number of appropriately skilled personnel to support business in delivering services to its residence and customers
- ❖ ICT Investment – To ensure that ICT appropriately plans and budgets for ICT investments and that investment spending aligns with the municipality’s business priorities and that current ICT investments are maintained to maximize their business value.

4.8.3 GMM ICT Pillars

The ICT Strategy depicts a Strategic Framework that describes how the ICT Strategy through three key aspects of consideration operate to formulate the core of the Municipality’s business model which are illustrated as per the following figure:

The 3 GMM ICT Pillars serves the common goal of a sustainable economic business model and is described as follows:

- ❖ ICT Operations - The first aspect of the framework addresses the quality of planning, systems and technology innovation and advancement, in a changing business (public sector) operating environment. The impact of ICT Operations and strategy on the municipality and in turn the implications of these influences for the Business Objective. ICT Operations must be informed by business capabilities and business drivers to formulate an effective ICT Strategy.
- ❖ ICT Governance and Business Intelligence - The second aspect of the framework addresses regulatory compliance. Contrary to ICT Governance being an operational impediment, GMM utilises effective policies and procedures to improve efficiency and revenues, reduce unaccountability and to comply with regulation and legislative frameworks. For example; good Change Management plans: improved data quality, improved service delivery, improved reconciliations, and improved Customer/Municipal relations which translate to good revenue.
- ❖ ICT Services - The third aspect of the framework addresses the complete inventory of ICT Infrastructure design and architect required to respond to the Business demands while planning for business growth. It is critical in delivering the Single Point of Service for Business Applications, ICT Equipment and ensuring real time Disaster Recovery management.

4.8.4 Addressing the requirements of CGICT

We have analysed the CGICT and determined the requirements that are immediately applicable (mandated to be in place by Mar 2014). It should be noted that further requirements are highlighted for Mar 2015. The table below highlights our understanding of the CGICT requirements, their due dates and their reference in terms of tasks to the COBIT 5 framework.

	COBIT 5 Control Objective	Completed	to be completed
1	Approved and implemented ICT Management Framework	✓	<input type="checkbox"/>
2	Approved and implemented departmental Portfolio Management Framework that includes ICT portfolio/programme and project management	✓	<input type="checkbox"/>
3	Approved and implemented ICT Security Policy	✓	<input type="checkbox"/>
4	Approved ICT Continuity Plan informed by Departmental Business Continuity Plan and Strategy	✓	<input type="checkbox"/>
5	Define the ICT strategic plan and road map	✓	<input type="checkbox"/>
6	Define architecture implementation.	✓	<input type="checkbox"/>
8	Governance Champion designated and responsibilities allocated	<input type="checkbox"/>	✓
9	Capacity created to fulfil the role of the Enterprise Architect	<input type="checkbox"/>	✓

10	A proficient Government Information Technology Officer (GITO) appointed and functioning at strategic level;	<input type="checkbox"/>	<input checked="" type="checkbox"/>
11	A proficient ICT Manager appointed	<input checked="" type="checkbox"/>	<input type="checkbox"/>
12	Approve and implement a Risk Management Policy that includes the management of business-related ICT risks	<input checked="" type="checkbox"/>	<input type="checkbox"/>
13	Approved ICT Migration Plan with annual milestones linked to an enabling budget	<input checked="" type="checkbox"/>	<input type="checkbox"/>
14	Approved ICT Annual Performance Plan for 2015 to 2016 with a description of how it will be monitored	<input checked="" type="checkbox"/>	<input type="checkbox"/>
15	Approved and implemented Internal Audit Plan that includes ICT audits	<input checked="" type="checkbox"/>	<input type="checkbox"/>
16	Corporate Governance of ICT Policy Framework and Governance of ICT Framework approved and implemented;	<input checked="" type="checkbox"/>	<input type="checkbox"/>
17	Governance of ICT Steering Committee Charter approved and implemented;	<input checked="" type="checkbox"/>	<input type="checkbox"/>

COMMENTARY AND FEEDBACK ON COMPLIANCE TO CGICT

Key activities have been mapped in terms of the CGICT framework to ensure compliance with the CGICT directives. The state of each has been included to ensure that the remaining activities are a point of focus going forward to ensure GMM compliance.

- ❖ ICT Management Framework – In place
- ❖ Portfolio Management Framework (including Project Management Framework)
- ❖ ICT Security Policy – in place
- ❖ Business Continuity Plan – in place
- ❖ ICT Strategic Plan and Roadmap - In place
- ❖ Architecture Implementation - In progress
- ❖ ICT Procurement Strategy – Business Procurement Strategy In Place (Supply Chain Policy)
- ❖ Governance Champion appointed and responsibilities allocated – Not In Place
- ❖ Enterprise Architecture Role created – Not in Place
- ❖ GITO appointment - ICT Manager
- ❖ ICT Manager appointed – Not in structure
- ❖ ICT Risk Management Policy – GMM Risk management Policy – In place but not reviewed
- ❖ ICT Migration Plan (including budgets and milestones)
- ❖ ICT Annual Performance Plan
- ❖ Internal Audit Plan
- ❖ CGICT and ICT Governance Frameworks
- ❖ Governance of ICT Charter in place – Draft Provided

SHORT TERM, MEDIUM TERM AND LONG TERM OBJECTIVES

The following projects and company strategic objectives are core to the strategic direction of the Municipality and are therefore also the responsibility of ICT section and Corporate Services to implement on behalf of the Municipality.

NO	KPI	OBJECTIVES CATEGORY	TIME FRAME TO BE COMPLETED
1	Implementation of the MSCOA ERP Solution	Long Term Goal	July 2017
2	Conduct the ICT policies reviews	Medium Long Goal	May 2017
3	Implement an Optic Fibre network connectivity for Technical Services Water section offices	Medium Term Goal	March 2017
4	Develop a Municipal Intranet and Revamp the Municipal website	Medium Term Goal	April 2017
5	Decentralise the ICT LAN Network and Install Switches and Cabinets to create a better working environment in the server room	Long Term Goal	June 2018
6	Procure Laptops and 3Gs for Councillors and implement a paperless council.	Long Term Goal	Sept 2016
8	Procure ISP services: Appoint an Internet Service Provider for the Municipality through a tender process for a 36 months duration.	Medium Term Goal	Feb 2017
9	Implement an Integrated Customer Care Centre	Long Term Goal	June 2018
10	Implement and workshop the EFT Policy/Plan (Workshop Employees, Review User Access and Activities)	Short Term Goal	March 2017
16	Implement Corporate Governance ICT Framework and ICT Steering Committee Charter implementation.	Long Term Goals	June 2017
17	Procure and Install new Servers in order to insure that servers are used only while under warranty or maintenance contract (AD, EDMS, Payroll, ERP)	Medium Term Goals	May 2017
18	Install an Optic Fibre backbone to Kinross Water Tower and offices	Long Term	June 2019
19	Migrate the Active Directory to Windows 2016 Server	Long Term	June 2018

4.9 ANTI- FRAUD AND CORRUPTION

The municipal approved Anti- Corruption and Fraud policy deals with issues of fraud and corruption. This policy applies to all employees, stakeholders, contractors, vendors/supplies doing business with the municipality.

The policy prohibits all acts of fraud and corruption or any dishonest activity of similar nature impacting or having potential prejudice to the municipality or members of the public.

CHAPTER 5 FINANCIAL MANAGEMENT

5.1 MULTI YEAR FINANCIAL PLAN

The purpose of this chapter is to outline the comprehensive multi-year financial plan that will ensure long term financial sustainability for the municipality.

A multi-year financial plan is essential to ensure that the municipality continues to implement its mandate effectively without impairing its capital base.

It will also enable the municipality to move towards self-sufficiency in meeting the growing demands of service delivery.

This plan is a tool that is generally used by **municipalities** to influence the contents of the IDP so as to ensure that the IDP is actually funded and that Cash is actually available to implement projects in terms of **Municipal IDP objectives**

A multi-year financial plan is prepared for a period of five years to ensure financial sustainability of the municipality, paying particular attention to the municipality's infrastructure requirements.

This is also an important component of the IDP. A prudent multiyear financial plan identifies and prioritizes expected needs based on the municipalities Five Year IDP and details estimated amounts of funding from various sources.

This plan will also ensure that the municipality has greater financial health and sustainability making it easier to collaborate on projects with other levels of governments and various public and private stake holders.

This will further enhance the ability of the municipality to have access to more financing, funding and grants.

5.1.1 FINANCIAL STRATEGY FRAMEWORK

Govan Mbeki Local Municipality is a developing and growing municipality striving for service delivery excellence. Therefore many challenges are faced with regards to financial planning and are ever changing due to the dynamic setting of local government.

The priority for the municipality, from the financial perspective is to ensure viability and sustainability of the municipality.

The multi-year financial plan and related strategies will therefore need to address a number of key areas in order to achieve this priority.

These strategies are detailed below:

Revenue enhancement strategy

- ❖ To seek alternative sources of funding;
- ❖ Expand income base through update of the valuation roll;
- ❖ The ability of the community to pay for services;
- ❖ Identification and pursuance of government grants;
- ❖ Tightening credit control measures and debt collection targets;
- ❖ Improve customer relations and promote a culture of payment;
- ❖ Realistic revenue estimates;
- ❖ The impact of inflation, the municipal cost index and other cost increases; and
- ❖ The creation of an environment which enhances growth, development and service delivery.

Asset management Strategy

- ❖ The implementation of a GRAP compliant asset management system;
- ❖ Adequate budget provision for asset maintenance over the economic lifespan;
- ❖ Maintenance of asset according to an infrastructural asset maintenance plan;
- ❖ Maintain a system of internal control of assets to safeguard assets; and
- ❖ Ensure all assets owned and/or controlled except specific exclusions are covered by insurance.

Financial management Strategies

- ❖ To maintain an effective system of expenditure control including procedures for the approval, authorisation, withdrawal and payment of funds.
- ❖ Preparation of the risk register and application of risk control;
- ❖ Implement controls, procedures, policies and by-laws to regulate fair, just and transparent transactions;
- ❖ Training and development of senior financial staff to comply with prescribed minimum competency level;
- ❖ Implement grap standards as gazette by National Treasury; and
- ❖ Prepare annual financial statements timeously and review performance and achievements for the past three financial years.

Operation Financing Strategies

- ❖ Effective cash flow management to ensure continuous, sufficient and sustainable cash position;
- ❖ Enhance budgetary controls and financial reporting;
- ❖ Direct available financial resources towards meeting the projects as identified in the IDP; and
- ❖ To improve Supply Chain Management processes in line with regulations.

Capital Financing Strategies

- ❖ Ensure service delivery needs are in line with multi-year financial plan;
- ❖ Careful consideration/prioritization on utilizing available resources in line with the IDP;
- ❖ Analyse feasibility and impact on operating budget before capital projects are approved;
- ❖ Determine affordable limits for borrowing;
- ❖ Source external funding in accordance with affordability;
- ❖ Improve capital budget spending; and
- ❖ Maximizing of infrastructural development through the utilisation of all available resource.

Cost effective strategies

- ❖ Invest surplus cash not immediately required at the best available rates;
- ❖ Restrict capital and operating expenditure increases in relation to the inflation rate taking into consideration the macro economic growth limit guideline and municipal cost increases.
- ❖ To remain as far as possible within the following selected key budget assumptions:
- ❖ Provision of bad debts of at least 2%;
- ❖ Overall cost escalation to be linked to the average inflation rate;
- ❖ Tariff increases to be in line with inflation plus municipal growth except when regulated;
- ❖ Maintenance of assets of at least 8% of total operating expenditure;
- ❖ Capital cost to be in line with the acceptable norm of 18%;
- ❖ Outstanding external debt not to be more than 50% of total operating revenue less government grants; and
- ❖ Utilisation of Equitable Share for indigent support through Free Basic Services

Measurable Performance Objectives for Revenue

- ❖ To maintain the debtors to revenue ratio below 10%;
- ❖ To maintain a debtors payment rate of above 90%;
- ❖ To ensure that the debtors return remain under 40 days; and
- ❖ To keep the capital cost on the Operating Budget less than 18%.

5.1.2 REVENUE FRAMEWORK

In order to serve the community and to render the services needed, revenue generation is fundamental to financial sustainability of every municipality; the reality is that we are faced with developmental backlogs and poverty, challenging our revenue generation capacity.

The requests always exceed the available funds. This becomes more obvious when compiling the municipality's annual budget.

Municipalities must table a balanced and more credible budget, based on realistic estimation of revenue that is consistent with their budgetary resources and collection experience. The revenue strategy is a function of key components such as:

- ❖ Growth in town and economic development;
- ❖ Revenue enhancement;
- ❖ Achievement of above 90% annualized collection rate for consumer revenue;
- ❖ National Treasury guidelines;
- ❖ Electricity tariff increases within National Electrification Regulator of South Africa (NERSA) approval;
- ❖ Approval of full cost recovery of specific department;
- ❖ Determining tariff escalation rate by establishing/calculating revenue requirement; and
- ❖ Ensuring ability to extent new services and recovering of costs thereof

The South African economy is slowly recovering from the economic downturn and it will still take some time for municipal revenues to increase through local economic growth.

Consequently cash flows are expected to remain under pressure for the 2018/19 financial year and a conservative approach is followed to project expected revenues and cash receipts.

5.2 CONSOLIDATED OVERVIEW 2018/2019 BUDGET AND MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK (MTREF)

5.2.1 2018/2019 MTREF POLICY STATEMENTS AND GUIDELINES

The IDP is the primary point of reference for preparation of the MTREF. Accordingly the budget addresses the following strategic objectives:

- ❖ Provide basic services, roads and storm water.
- ❖ Economic growth and development and job creation.
- ❖ Sustainable communities with clean, healthy and safe environments and integrated social services.
- ❖ Participatory democracy and Batho Pele.
- ❖ Promote sound governance.
- ❖ Ensure financial sustainability.
- ❖ Organisational development and transformation.

The 2018/19 MTREF reflects the reality of the current budgetary pressures. The following budget guidelines directly informed the compilation of the budget;

- ❖ Scale down on baseline allocation as indicated by National Government.
- ❖ Approve a balanced budget and create cash surplus over the Medium-term.
- ❖ The budget must be funded in accordance with the funding compliance procedure set out in MFMA Circular 42 and the Funding Compliance Guideline.
- ❖ Reprioritise competing needs within the allocations.
- ❖ Ensure the timely delivery of the capital programmes (eliminate under spending of capital budget).
- ❖ Tariff and Property Rate increases should take into account the need to address infrastructure backlogs and other strategies and affordability of services.
- ❖ The percentage salary increase according Main Collective Agreement signed in 2015 are as follows:

- ✓ 2016/17 Financial Year – 6.9%
- ✓ 2017/18 Financial Year – CPI + 1%
- ✓ 2018/19 Financial Year - CPI + 1%

- ❖ Special attention needs to be given to efficiency gains and the principle of value for money.
- ❖ Filling of vacancies should be reviewed within the available budget.

5.2.2 CONSOLIDATED OVERVIEW 2018/2019 BUDGET AND MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK (MTREF)

The budget has been prepared in terms of guidelines as contained in Circular 89 and 91 of the MFMA. The contents and format of the budget are in line with the requirements of the Municipal Budget and Reporting Regulations and any applicable legislation.

The 2018/2019 final budget comprises of R1.9 billion for operating expenditure and R153 million for capital investment programs. The total operating income budget is R1.7 billion resulting in an operating Deficit of R 201 million.

Municipal revenues and cash flows are expected to remain under pressure as we still continue to have low income revenue growth with a continued increase in expenditure. The operating budget deals with day to day operations of the municipality to ensure that service delivery is sustained.

The final operating budget remained to R1.7 billion compared to the current adjusted budget of R1, 7 billion.

The trend is that the operating expenditure has been increasing over the years driven by:

- salary increments
- the need to repair infrastructure
- the need to adequately budget for debt impairment and depreciation,
- Inflation

An amount of R153 million has been allocated for the capital investment program for 2018/2019 financial year. This is an increase from the R104 million budget for 2017/18.

Consolidated overview of the 2018/2019 Draft Budget

Description	Audited	Original	Adjusted	Budget	Budget	Budget
	Outcome	Budget	Budget	2018/2019	2019/2020	2020/2021
	2016/2017	2017/2018	2017/2018	R'000	R'000	R'000
Total Operating Revenue	1 451 396	1 7602 268	1 7602 268	1 764 051	1 872 491	1 994 957
Total Operating Expenditure	2 368 137	1 655 807	1 655 807	1 965 947	1 803 635	1 904 201
Surplus / (Deficit) for the year before grant capital revenue	(916 741)	104 461	104 461	(201 896)	68 856	90 756
Grant capital revenue		72 796	72 796	74 651	73 803	60 900
Surplus / (Deficit) for the year		31 665	31 665	(127 245)	(4 947)	29 856
Total Capital Expenditure	61 207	104 461	104 461	153 366	73 803	73 90

5.2.3 DETAILED OVERVIEW OF BUDGET

The following tables is a detailed overview of the 2018/2019 Budget for the municipality over the medium term:

Financial performance (revenue and expenditure)

Description	Ref	2018/19 Medium Term Revenue & Expenditure Framework		
		Budget Year 2018/19	Budget Year +1 2019/20	Budget Year +2 2020/21
R thousand	1			
Revenue By Source				
Property rates	2	304,920	320,166	336,174
Service charges - electricity revenue	2	473,377	497,046	521,898
Service charges - water revenue	2	359,666	377,649	396,532
Service charges - sanitation revenue	2	106,030	111,331	116,898
Service charges - refuse revenue	2	108,226	113,638	119,319
Rental of facilities and equipment		5,444	5,716	6,002
Interest earned - external investments		1,217	1,278	1,342
Dividends received		58	61	64
Fines, penalties and forfeits		31,624	33,206	34,866
Transfers and subsidies		289,452	303,925	319,121
Other revenue	2	82,417	10,003	10,503
Gains on disposal of PPE		1,620	1,701	1,786
Total Revenue (excluding capital transfers and contributions)		1,764,051	1,775,719	1,864,505
Expenditure By Type				
Employee related costs	2	487,967	517,245	548,279
Remuneration of councillors		16,678	17,512	18,387
Debt impairment	3	90,336	94,853	99,596
Depreciation & asset impairment	2	170,598	179,127	188,084
Finance charges		3,608	3,788	3,978

Total Expenditure		1,965,948	2,012,190	2,117,972
Surplus/(Deficit)		(201,896)	(236,471)	(253,467)
Transfers and subsidies - capital (monetary allocations) (National / Provincial and District)		74,651	73,803	60,900
Surplus/(Deficit) after capital transfers & contributions		(127,245)	(162,668)	(192,567)
Taxation		-	-	-
Surplus/(Deficit) after taxation		(127,245)	(162,668)	(192,567)
Attributable to minorities		-	-	-
Surplus/(Deficit) attributable to municipality		(127,245)	(162,668)	(192,567)
Surplus/(Deficit) for the year		(127,245)	(162,668)	(192,567)

5.2.4 OVERVIEW OF BUDGET ASSUMPTIONS

The budget assumptions are determined before the budget process, guided by the economic outlook, movements in terms of the markets and by the national treasury guidelines.

The assumptions are devised in such a way that they support the short and long-term finances and strategy of the municipality.

Key Financial indicators

The growth parameters set by National treasury are set between 3 and 6 percent which are also target range for the inflation rate.

All steps have been taken to be in line with these National Treasury guidelines however the following factors affect the municipal operations and the budget accordingly:

- ❖ Anticipated high fuel prices
- ❖ Higher salaries
- ❖ Increase by Eskom and Rand water
- ❖ Job creation and protecting the poor

The 2018/2019 has been developed guided by the following inflation forecast:

Fiscal Year	2017 Actual	2018 Estimate	2019 Forecast	2020 Forecast	2021 Forecast
Real GDP Growth	0.5%	1.0%	1.5%	1.8%	2.1%
CPI Inflation	6.3%	5.3%	5.3%	5.5%	5.5%

Credit Rating

The municipality has not had a credit rating and with National Treasury support, the municipality will have to undertake it.

Borrowing and Investment of funds

The MFMA permits the borrowing for long term if it is for the acquisition of capital goods such plant and equipment and infrastructure. The municipality will consider the unsecured loan in the medium term, as this is backed up by the acknowledgement from the lender, that the municipality is showing sound financial management and an ability to meet short term obligations.

The municipality has a total amount of R 5.5 million external loans.

The investments amount to R33 million, R10.3 million of these investments are securities for the DBSA loans and due to negative cash flow the municipality is unable to build more reserves.

Rates, tariffs, charges and timing of revenue collection

Accounts for rates, refuse, electricity, water and sanitation are issued on a monthly basis and are due and payable before the 7th of the month. Recovery procedures for non-payment may be

commenced within 7 days of payment default. The electricity supply is cut and water supply is restricted when a client defaults. The municipality is committed in ensuring that collection levels are improved and that credit control will be enforced on those who can afford and not honouring their municipal accounts.

Collection rates for each revenue source

The collection rate for all the services is expected to be 87% average throughout; this is due to credit control actions that are taken against the defaulters. Where Eskom is a service delivery agent, consumers who are not paying will be restricted water.

Price movements on specifics

The cost of bulk purchases amounts to R804.9 million for both electricity and water. The projections are informed by the increases from the Rand water and Eskom. Eskom has advised there will be an increase across the board of 7.32% on the bulk purchases of electricity.

The increase on both electricity and water tariff has been pegged at 6.84% and 12.2% respectively per NERSA and Rand Water.

Average salary increases

Circular issued by National Treasury was taken into account in budgeting for employee related costs it recommends an increase of average CPI + 1%

Changing Demand characteristics

The demand for services is increasing yearly as the municipality is expected to deliver services to the indigent and pressure to reduce poverty.

Ability to the municipality to spend and deliver on programs

The 2017/2018 operating budget will be spent 100% by year end looking at the projected actual by year end. The challenges are still there in terms of maintaining the infrastructure and managing the breakaways of vehicles especially revenue generating.

5.2.5 SUMMARY AND ANALYSIS OF THE PROJECTED REVENUE

The following graph is a high level summary of the revenue for the municipality over the medium term:

REVENUE

ANALYSIS ON OPERATING REVENUE

The property rates

The property rates amounts to R 304.9 million for the 2018/2019 financial year. This revenue stream has been increased by 5.4%. An amount of R 28 million is budgeted for the income forgone in terms of rebates and discounts that are offered by the municipality for the indigents, pensioners and the areas where the municipality is not providing services. This revenue stream contributes 17% of the total revenue.

Service charges

Service charges include electricity, refuse, sewer and water. The service charges for 2018/2019 amount to R 1 058 billion, 2019/2020 R 1 115 billion and 2020/2021 amounts to R 1 175 billion. The R 1 058 billion is made up of the following, water R 359 million, Refuse R 119 million, Sewerage R 106 million and electricity R473 million. The service charges contribute 60% of the operating revenue.

Rental income

The rental income amounts to R5.4 million. The stream contributes 0.2% of the total revenue.

Fines

The revenue estimates for the fines have been increased from R 30 million to R 31.6 million, this was done to make a provision as required by iGRAP1.

Administration and Cut-off fees

The estimates for this revenue stream has been increased from R11.6 million to R12.2 million, it contributes 1% to the total operating revenue streams.

Grants and Subsidies - operating

The grants subsidies refer to the Division of Revenue Act allocations in the 2017/18 financial year, the operational grants allocations are as follows:

DESCRIPTION	2018/19	2019/20	2020/21
Equitable share	257,245,000	284,504,000	315,700,000
Finance Management Grant	1,770,000	1,770,000	2,202,000
Extended Public Works Program	1,937,000		
Infrastructure Development Grant	22,500,000	23,935,000	24,720,000
Energy Efficiency and Demand Management	6,000,000	6,000,000	6,000,000
TOTAL	289,452,000	316,209,000	348,622,000

5.2.6 OPERATING EXPENDITURE FRAMEWORK

The following graph is a high level summary of the expenditure for the municipality over the medium term:

ANALYSIS OF OPERATING EXPENDITURE

Employee related costs

The employee related costs and remuneration of councillors indicate a percentage of 25% of the total operating budget. The average salary increase 6.5%. The overtime will have to be controlled and filling of vacant positions will have to be fast tracked.

General expenditure

In a bid to cut cost and ensure the funding of the overall budget was increased to R85.8 million. The transport cost still needs to be controlled. General expenditure takes 4% of the total operating expenditure.

Contracted services

In a bid to cut cost and ensure the funding of the overall budget, contracted services budget have increased from to the current adjusted budget. Contracted services constitute 4% of total operating expenditure.

The contract management and monitoring will have to be improved on the contracted services. The outsourcing of work will need to be controlled to ensure skill transfer.

Bulk purchases

The bulk purchases for electricity and water amounts to R 804.9 million, which contributes 41% of the operating budget. The Eskom will increase the bulk purchases to the municipality by 7.32% and Rand Water is estimated to be 12.2%.

Repairs and maintenance

The repairs and maintenance plan for the departments must be aligned with their budget and monthly reports should indicate how the departments are progressing. The repairs and maintenance contributes 7% of the operating budget. The revenue generating assets should be to an adequate level ensuring that quality services are sustained.

Transfers and grants

Transfers and grants (Indigent support) constitutes 2% of total operating budget. The budget was based on current year forecast increased with inflation.

Depreciation

Depreciation constitutes 9% of the budget. The budget increase was informed by historical trends as well as budgeted and forecasted additions.

5.2.7 CAPITAL BUDGET 2018/2019:

CAPITAL EXPENDITURE PER SOURCE

The following table indicates the Capital Expenditure per source.

Description	2016/17 Approved Budget	Total Adjusted Budget	Actual Year to Date	2018/19 Budget	2019/20 Budget	2020/21 Budget
DME	14,000,000	14,000,000	3,795,867	8,000,000	16,000,000	-
MIG	58,796,000	58,796,000	26,407,756	56,651,000	57,803,000	60,900,000
Revenue	72,230,000	72,230,000	2,302,653	78,715,000	-	-
Water Service Infrastructure	-	-	-	10,000,000	-	-
Grand Total	145,026,000	145,026,000	32,506,276	153,366,000	73,803,000	60,900,000

The capital budget amount to R153 million. The capital program is funded mainly through Municipal Infrastructure Grant as can see as per the following graph.

5.2.8 CAPITAL REQUIREMENT: CAPITAL AND OPERATION PROJECTS

The following table reflect all capital requirements per department.

DEPARTMENT	DESCRIPTION	BUDGET
EXECUTIVE & COUNCIL		
Office of the speaker	Hailing system	100 000.00
Office of the speaker	Furniture and Equipment's	100 000.00

5.2.9 ALIGNMENT OF BUDGET TO THE INTEGRATED DEVELOPMENT PLAN

IDP Review and stakeholder participation

The IDP has been prepared for the medium term to 2018/19. In the current financial year, the IDP has undergone the review as required by the Municipal Systems Act and MFMA. Community needs and inputs were sought and the stake holders were consulted.

The IDP takes cognizance of the National, provincial and district priorities. The key focus and IDP priorities are:

- ❖ To provide, improve and sustain infrastructure
- ❖ To promote socio economic development in rural and urban areas
- ❖ To enable and speed up institutional transformation
- ❖ To strengthen democracy and good governance
- ❖ To improve and sustain financial management

IDP link to the budget

In compliance with Systems Act of 2000 and the Municipal Finance Management Act the budget is informed and aligned to the IDP priorities. The budget will be fully aligned to the IDP.

5.2.10

CONCLUSION

The continued improvement and development of an effective financial planning process aids the actualization of fulfilling its facilitating role to capacitate the community to build a prosperous future for all

The Financial planning imperatives contribute to ensuring that the Municipality remains financially viable and that municipal services are provided economically to all communities.

The Multi-year Financial Plan contains realistic and credible revenue and expenditure forecasts which should provide a sound basis for improved financial management and institutional development as well as service delivery improvements and implementation.

The strategy towards cash backing will certainly ensure the sustainability of the Municipality over the medium-to long-term

5.3 FINANCIAL STRATEGIES, POLICIES AND PROGRAMMES

The purpose of financial policies is to provide a sound environment to manage the financial affairs of the municipality. The following are key budget related policies:

- ❖ **Tariff Policy** – the policy prescribes the procedures for calculating tariffs. This policy is required in terms of Section 74 of the Local Government Municipal System Act, Act 32 of 2000;
- ❖ **Rates Policy** – a policy required by the Municipal Property Rates Act, Act 6 of 2004. This policy provides the framework for the determination of rates;
- ❖ **Indigent Support Policy** – to provide access to and regulate free basic services to all indigents;
- ❖ **Budget Policy** – this policy set out the principles which must be followed in preparing a Medium-Term Revenue and Expenditure Framework Budget. It further ensures that the budget reflects the strategic outcomes embodied in the IDP and related strategic policies.
- ❖ **Asset Management Policy** – the objective of the policy is to prescribe the accounting and administrative procedures relating to property, plant and equipment;
- ❖ **Accounting Policy** – the policy prescribes the basis of presentation of the Annual Financial Statements in accordance with the Generally Recognized Accounting Practices and Accounting Standards;
- ❖ **Supply Chain Management Policy** – this policy is developed in terms of Section 11 of the Municipal Finance Management Act, Act 56 of 2003. The principles of this policy is to give effect to a fair, equitable, transparent, competitive and cost effective system for the procuring of goods and services, disposing of goods and selecting of contractors in the provision of municipal services
- ❖ **Subsistence and Travel Policy** – this policy regulates the reimbursement of travelling and subsistence cost to officials and councillors attending official business
- ❖ **Credit Control and Debt Collection Policy** – this policy provides for credit and debt collection procedures and mechanisms to ensure that all consumers pay for the services that are supplied.
- ❖ **Investment Policy** – this policy was compiled in accordance with the Municipal Investment Regulation R308 and ensures that cash resources are managed in the most efficient and effective manner possible
- ❖ **Short-term Insurance Policy** – the objective of the policy is to ensure the safeguarding of Council's assets

5.4 MUNICIPAL SCOA

5.4.1 Legislative Background

Constitutional Requirements

Section 216(1) of the Constitution states that:

National legislation must establish a National Treasury and prescribe measures to ensure both transparency and expenditure control in each sphere of government, by introducing -

- ❖ Generally recognized accounting practice (*GRAP – OAG*)
- ❖ Uniform expenditure classifications (*Standard Chart of Accounts / General Ledger*)
- ❖ Uniform treasury norms and standards (*MFMA, Regulations, Circulars and Guidelines*)

Municipal Regulations on Standard Chart of Accounts (Gazette No. 37577)

National Treasury issued Government Gazette No 37577, Municipal Regulations on Standard Chart of Accounts, which is effective 01 July 2017.

Key Objectives:

- ❖ To improve data quality and credibility;
- ❖ To achieve greater level of standardisation;
- ❖ To develop uniform data sets for 'whole-of-government' reporting;
- ❖ To standardise and align the 'local government accountability cycle'
 - ❖ including the budget and in-year reporting formats
 - ❖ the annual report and
 - ❖ annual financial statement formats;
- ❖ improved transparency, accountability and governance through uniform recording of transactions at posting account level detail;
- ❖ enabling deeper data analysis and sector comparisons to improve financial performance.

The objective is to have a National Standard for uniform recording and classification of municipal budget and financial information at a transactional level by providing a Standardized Chart of Accounts which is:

- ❖ aligned to budget formats and accounting standards;
- ❖ enable uniform information sets across the whole of government to better inform national policy coordination and reporting, benchmarking and performance measurement.

5.4.2 What is MSCOA

MSCOA = MUNICIPAL STANDARD CHART OF ACCOUNTS

- ❖ "standard chart of accounts" means a multi-dimensional classification framework providing the method and format for recording and classifying financial transaction information in the general ledger.

5.4.3 mSCOA objective

- ❖ To provide uniform classification and recording of budget and financial information at a **transaction level**
- ❖ Ensure proper alignment between budgeting, recording, reporting and accountability cycle to improve
 - Credibility, Sustainability, Transparency, Reliability, Relevance; and
 - Comparability of budgets and in year reports of municipalities and entities
 - Fair presentation of AFS

5.4.4 Benefits of SCOA

Benefits from standardising:

- ❖ **Transparency** – reporting and comparative analytical purposes
- ❖ **Reporting flexibility** – extraction of information populating various reporting systems
- ❖ **Comparability** – Benchmarking, standards and measures
- ❖ **Consolidation** – meaningful consolidation and extraction at different levels of detail
- ❖ **Single version of the truth** – consistency in financial information disseminated into the public domain

5.4.5 Seven (7) Reporting Segments

MSCOA is not a system change it is a business process/reform change! There are Seven (7) segments that are to be complied with on a transaction (posting) level and no further breakdown is needed subsequent to transaction posting.

The seven segments are:

- ❖ Project
- ❖ Function
- ❖ Item segment: Assets, Liabilities and Net assets; Expenditure; Revenue; Gains and Losses
- ❖ Fund
- ❖ Regional Indicator
- ❖ Costing
- ❖ Municipal Standard Classification – No standardisation

The municipality is on the verge of implementing a new financial system that will be mSCOA compliant.

5.5 MUNICIPAL INTERNAL AUDIT

The Internal Audit Unit was established in terms of section 165 of the Municipal Finance Management Act, Act 73 of 2003. The Municipality has its own in-house Internal Audit Activity which comprises of 4 fulltime employees.

The scope of internal audit covers the following functions:

Prepare a risk-based audit plan and internal audit program for each financial year and advise the accounting officer and report to the audit committee on the implementation of the internal audit plan and matters relating to: Internal audit

- ❖ Internal controls
- ❖ Accounting procedures and practices,
- ❖ Risk and risk management,
- ❖ Performance management
- ❖ Loss control, and
- ❖ Compliance with laws and regulations

The provision of professional advice and consulting services to the Accounting Officer in the discharge of their responsibilities pertaining to the establishment and maintenance of effective, efficient and transparent systems of financial and risk management, internal control and good corporate governance.

Govan Mbeki Internal Audit consist of a number of specialist components which are, Risk Audit, Computer Audit and Performance Audit. Risk audit evaluates a municipality's level of compliance with legislation, regulations, plans and procedures and compliance to the accounting framework.

Computer Audit is responsible for providing management with an independent assurance on the adequacy of controls within the information technology environment.

Performance audit is responsible for ensuring that satisfactorily management measures have been instituted to ensure that resources are acquired economically and are utilised effectively and efficiently in the achievements of the objectives of the respective departments.

5.5.1 MUNICIPAL INTERNAL AUDIT STRATEGIC PLAN

The internal audit process provides oversight to obtain reasonable assurance regarding management’s assertions that objectives outlined in the IDP and SDBIP are achieved especially for effectiveness and efficiency of operations, reliability of financial information, and compliance with laws and regulations.

The Internal audit unit of the municipality will proactively partner with management in undertaking financial, compliance, information technology, operational and performance audits, as well as consulting reviews, to maximise value added contributions from the process.

The Internal Audit plan for the municipality sets out the scope of the planned internal audit work to be undertaken for the financial year for consideration as approval by the Audit Committee. The plan incorporates:

- ❖ The Three-year strategic rolling Internal Audit plan; and
- ❖ The Annual Internal Audit Plan for the current financial year which has 28 audit activities.

The Internal operational plan includes the following reviews which will be implemented during the year and reported to the Audit Committee on a quarterly basis:

Type of Review	Main Objective
Financial Review	Validation of internal controls to facilitate the integrity and reliability of financial information and safeguarding of assets.
Compliance Review	To verify the level of compliance with policies, procedures, standards and relevant legislation.
Operational Review	To review the activities in relation to the adherence to or achievement of the relevant control and business objectives.
Pre-determined objective Review	To verify that the targets as per the high level score of the Municipality is SMART (specific, measureable, accurate, reliable and time-bound. To review the consistency between the high level score card and the departmental SDBIP. To verify that standard operational procedures and technical data definitions have been documented. And to verify the port-folio of evidence to reported targets. To ensure the completeness, accuracy, validity and timely reporting of the entity performance achievements against the KPI and strategic plan.
Governance Review	To review and evaluate the adherence to corporate governance practices and principles.
Follow up Reviews	To determine the progress made by management with the implementation of the action plans agreed upon with the internal audit activity and report on a quarterly basis to the audit committee
Annual Financial Statements Review	Review of the Municipality’s Annual Financial Statements at year end before submission to the Audit Committee and Municipal Council

The internal audit unit reports administratively to the Municipal Manager and functionally to the Audit Committee. The internal audit report is discussed with senior management prior submission to the audit committee. A risk based strategic approach is adopted which takes into account the results of the risk assessment, subsequent discussions with management.

This approach involves a focus on understanding the work of each focus area and identifying risks associated with that focus area.

It further includes a process of linking risk analysis to assigned planning and audit program development. The strategic approach is a risk based plan aligning the priorities of internal audit work with the objectives and goals of the Municipality and the related risks as identified for the municipality.

The following reflect on the three year rolling internal audit plan as implemented and approved:

6.2 DEVELOPMENT PRIORITIES: MUNICIPAL MANDATE

This chapter gives a list of priorities raised by communities in the different wards during the IDP public engagement sessions. These issues are raised for consideration in the planning and budgeting process.

Community participation is central in the development of the IDP and communities are legislatively encouraged to participate in the affairs of local government. They are also encouraged to demand services and be part of all municipal decision making processes.

Community participation took place in all phases of the IDP drafting process. The 2017/2018-2021/2022 IDP/Budget Process Plan which was adopted by Council on August 2015 in terms of Section 28 (1) of the MSA, 32 of 2000 and is attached hereto as **annexure A** give a full account of how communities were encouraged to participate in the IDP drafting process.

6.2.1 CORE SERVICE DELIVERY ISSUES PER WARD

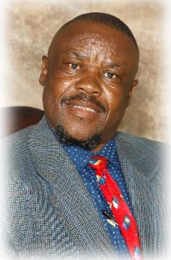

In terms of the IDP Process Plan public consultation is key in determining the development priorities of communities. An intensive public participation process took place whereby all the input received during this process was captured and ensured that it was covered within the IDP.

Various service delivery and community development needs were stated by the communities during the IDP public engagement process conducted.

Below is the various priority needs of the community as raised during these participation meetings.

WARD COUNCILLOR	WARD NEEDS 2018/2019
<p style="text-align: center;">WARD 1</p>  <p style="text-align: center;">WARD COUNCILLOR: LINDIWE MARIA MBONANI</p>	<p>COMMUNITY CONSULTATION NEEDS</p> <ul style="list-style-type: none"> ❖ Allocation of residential stands – township establishment ❖ Public lighting – maintenance of high mast lights and street lights. The installation of street lights in Leandra town and Eendracht ❖ Electricity issues at Eendracht ❖ Sewer network in Eendracht – Upgrade of roads ❖ Paving or tarring of roads in Leandra town and Eendracht ❖ It was also mentioned that the clinic is understaffed and that a new clinic is needed for people from RDP (extension 16, 18, 19, 20, 21, 23). The community is expanding and in great need of a clinic. The clinic also caters for patients from Devon ❖ Roads should be maintained – grading and regravelling. Street lights should be maintained. ❖ Housing
<p style="text-align: center;">WARD2</p>  <p style="text-align: center;">WARD COUNCILLOR: THEMBA ABRAM MORAJANE</p>	<p>COMMUNITY CONSULTATION NEEDS</p> <ul style="list-style-type: none"> ❖ Construction of a Clinic ❖ Distribution of outstanding title deeds ❖ Sewer maintenance ❖ Construction of a multi-purpose centre ❖ High mast light installation ❖ Paving of roads ❖ Speed Humps ❖ High school ❖ Allocation of a MIG Project ❖ Paving along Mbana Masilela
<p style="text-align: center;">WARD 3</p>  <p style="text-align: center;">WARD COUNCILLOR: MAKHAYE SIPHO ANTHONY</p>	<p>COMMUNITY CONSULTATION NEEDS</p> <ul style="list-style-type: none"> ❖ Stands to be availed ❖ Roads to be maintained and also be constructed ❖ Street light for the benefit of safety and prevention criminal activities in the dark. (in extension 5, 9, 12 more especially) ❖ Sanitation must be reconstructed and maintained as the infrastructure in Leslie/Lebohang is old. ❖ Job creation ❖ Construction community recreation centre ❖ The community also made emphasis on the center to care for elderly people. ❖ It was also submitted by the community that the SLP project must be allocated equally between regions for the benefit of the entire community of Govan Mbeki Municipality.

WARD COUNCILLOR	WARD NEEDS 2018/2019
<p style="text-align: center;">WARD 4</p>  <p style="text-align: center;">WARD COUNCILLOR THANDI RUTH MNISI</p>	<p style="text-align: center;">COMMUNITY CONSULTATION NEEDS</p> <ul style="list-style-type: none"> ❖ Sewer pipes to be changed ❖ RDP houses to be availed ❖ High mast light none functional ❖ Paving of Nkosi Street, Mthuphi street, and Velabahleka Street Phase 3 ❖ Re graveling in Ext D and E ❖ Maintenance of Sewer network Ext 25 ❖ Provision of houses ❖ Clinic to be built, the clinic that is in existence does not have facilities for the elders ❖ provision for parks and its equipment and for parks to be fenced ❖ Housing ❖ Unemployment of youth, ❖ High billing system ❖ Uncovered electric meter boxes.
<p style="text-align: center;">WARD 5</p>  <p style="text-align: center;">WARD COUNCILLOR: MARIAAN CHAMBERLAIN</p>	<p style="text-align: center;">COMMUNITY CONSULTATION NEEDS</p> <ul style="list-style-type: none"> ❖ Sewer pipes to be Upgrading/tar ❖ paving of airport road ❖ The realigning and re-leveling of the sewerage system, running along Lebombo and Magaliesberg streets, in the ward ❖ Nelson Mandela drive as main road has no streetlights, so does 90% of the ward's streets ❖ Lamp posts hanging over, in fact some already fallen over, of bad maintenance. Rusted through ❖ Pedestrian robots not working ❖ Robots been run over by car accidents does NOT get replaced ❖ Covers for street drains are broken or missing, as well as storm water covers ❖ Electric boxes not maintained, rusted and doors hanging open or broken off completely ❖ Speed humps not painted ❖ Speed humps to be installed in Nelson Mandela as this has become a raceway ❖ Maintenance of street lights ❖ Cutting of trees ❖ Revamp -Taxi rank Ext to Mall ❖ Cleaning next to post offices
<p style="text-align: center;">WARD 6</p>	<p style="text-align: center;">COMMUNITY CONSULTATION NEEDS</p> <ul style="list-style-type: none"> ❖ Stands for residential purposes ❖ Cemetery fencing ❖ Provision of Stands ❖ Installation of High mast light ExtT 9, Ext 10 ❖ Paving of roads ExtT 9

WARD COUNCILLOR	WARD NEEDS 2018/2019
 <p>WARD COUNCILLOR: SIFISO ISAAC SIBANYONI</p>	<ul style="list-style-type: none"> ❖ Pegging of stands ❖ Renovation of Difa Nkosi Hall ❖ Water and sanitation Ext 9 ❖ Storm water drainage Ext 9 and Ext 10
<p>WARD 7</p>  <p>WARD COUNCILLOR: VILAKAZI ELPHUS ALBERT</p>	<p>COMMUNITY CONSULTATION NEEDS</p> <ul style="list-style-type: none"> ❖ Paving of streets especially Ext.9 ❖ Street lights Ext. (Ingwempisi) ❖ 3 Highmust lights ❖ 3 Way Stop Ext. 15 Road ❖ Storm water channel Ext 11 ❖ Robots at Ext. 12 4 way stop and at 4 way Ext. 11 at eMbalenhle ❖ Speed humps Ext. 4 and 9 ❖ Community Hall ❖ Renovation of Fluor Daniel Stadium ❖ Billing system not accurate ❖ Speed humps next to schools ❖ High mast light not working ❖ Unemployment of youth ❖ Recreational facility centre.
<p>WARD 8</p>  <p>WARD COUNCILLOR: NDHLANI PHILEMON MAHLANGU</p>	<p>COMMUNITY CONSULTATION NEEDS</p> <ul style="list-style-type: none"> ❖ Albert Luthuli Drive to be tarred ❖ RDP to be allocated ❖ Stands allocation ❖ Paving of roads in Ext 1 ❖ Construction of a Library in EXT 14 ❖ Construction of a Police station
<p>WARD 9</p>	<p>COMMUNITY CONSULTATION NEEDS</p> <ul style="list-style-type: none"> ❖ Indigent registration ❖ Electricity maintenance ❖ Sewer maintenance

WARD COUNCILLOR	WARD NEEDS 2018/2019
 <p>WARD COUNCILLOR: MAHLANGU BUTI DOUGLAS</p>	<ul style="list-style-type: none"> ❖ Roads not trafficable ❖ Construction of roads ❖ Construction of a bridge between cross road and Ext 22 ❖ Construction of a Library Ext 22 ❖ Application of a primary school Ext 22 ❖ Construction of a multipurpose centre ❖ Land invasion ❖ High mast lights not working ❖ Unemployment, crime <p>Farms (KwaSlevana, Roodebank, Leeuwpan, KwaSmith(klipdrift), Rhino Lodge, Kubo Mtsweni, Kwamfundisi)</p> <ul style="list-style-type: none"> ❖ Upgrading of School (70 years old) built by the community ❖ Owner of the farm is refusing access to the school ❖ Crèche ❖ Mobile Tanker 5000 litres ❖ Vehicle Bridge ❖ Job creation projects ❖ Provision of low costs houses ❖ Water and Electricity upgrade ❖ Water Reticulation Pipes (installation) ❖ Provision of water tanks in the farms ❖ Construction of a primary school and library for the community in the farms
<p>WARD 10</p>  <p>WARD COUNCILLOR: SIMANGELE RITTA NTULI</p>	<p>COMMUNITY CONSULTATION NEEDS</p> <ul style="list-style-type: none"> ❖ RDP houses ❖ The municipality is bringing another service provider to monitor electricity why not take back electricity to Eskom ❖ Cutting off electrical cables for residents. ❖ Every weekend residents don't have water ❖ The people of other section makes extension 16 a dumping site as there no dumping site in Govan Mbeki Municipality ❖ Sport grounds regravelling ❖ Construction of Speed Humps on the main road (Standerton road) due to high volume of accidents ❖ Construction of Speed humps in Charl Cilliers ❖ Installation of High mast lights Charl Cilliers ❖ Re gravelling of roads Ext 15 and Ext 17 ❖ Re gravelling of road in Charl Cilliers Cemetery ❖ Paving next to sunrise structure , Cheap corner, Maphala gulube
<p>WARD 11</p>	<p>COMMUNITY CONSULTATION NEEDS</p> <ul style="list-style-type: none"> ❖ Maintenance of storm water drainage

WARD COUNCILLOR	WARD NEEDS 2018/2019
 <p>WARD COUNCILLOR: EUNICE DUDU MAHLANGU</p>	<ul style="list-style-type: none"> ❖ Sewer maintenance ❖ Construction of High mast lights ❖ Construction of Speed humps Ext 4 drive ❖ Re gravelling of roads Ext 2 ❖ Provision of Low cost Houses
<p>WARD 12</p>  <p>WARD COUNCILLOR: MANTOA EMMAH MOTLOUNG</p>	<p>COMMUNITY CONSULTATION NEEDS</p> <ul style="list-style-type: none"> ❖ The change of ownership stands ❖ They are potholes on the road ❖ The electrical poles are damage ❖ The sewer is piling on the streets ❖ Municipality must create job opportunities ❖ Indigent
<p>WARD 13</p>  <p>WARD COUNCILLOR: INNOCENT MANDLA THABETHE</p>	<p>COMMUNITY CONSULTATION NEEDS</p> <ul style="list-style-type: none"> ❖ Human settlement, housing issue.(Status of RDPs 1, 2 and the 3rd ones are in bad condition) ❖ RDP's at gate 7, registration for the RDP's ❖ Electricity problem, there is only one sub-station catering for the whole Embalenhle. ❖ Potholes and unemployment. ❖ Stands are a struggle to get in Govan Mbeki. ❖ Sewer is a serious issue, still it has not yet been fixed ❖ Roads should be fixed. ❖ Billing issue ❖ People that come to take meter readings are never seen nor are they visible ❖ Emergency vehicles are not responding to the call outs, houses have burned down to the ground due to late responses. ❖ Sports Centre construction ❖ Shelters on public transport spots
<p>WARD 14</p>	<p>COMMUNITY CONSULTATION NEEDS</p>

WARD COUNCILLOR	WARD NEEDS 2018/2019
 <p>WARD COUNCILLOR: ZULU THANDIWE SESIKY</p>	<ul style="list-style-type: none"> ❖ Sewer maintenance ❖ Substation (Emba South) to be upgraded ❖ Road re-graveling and paving (road 21 and road 18 and roads Ext 14 along(Xololwethu bakery) ❖ High mast light Ext 18 maintenance ❖ Provision of Stands ❖ Jobs creation projects ❖ Provision of a Library ❖ Allocation of pay points for the elders ❖ Application for a High School Ext 18 ❖ Construction of a Storm water drainage Ext 14 , 18 and Welas ❖ Allocation of Space for farming purposes ❖ Day Care centre
<p>WARD 15</p>  <p>WARD COUNCILLOR: MTSWENI MABUSA JOSEPH</p>	<p>COMMUNITY CONSULTATION NEEDS</p> <ul style="list-style-type: none"> ❖ Sucking of toilets ❖ Building of new toilets ❖ Boreholes and wind mills not working. (Water is a main problem) ❖ Allocation of low costs houses ❖ Roads not trafficable during rainy seasons ❖ Allocation of low costs houses ❖ Maintenance of toilets ❖ Electrification of houses ❖ Employment opportunities ❖ Allocation of low costs houses ❖ LED projects

6.2.2 HIGH LEVEL SUMMARY SITUATIONAL ANALYSIS OF KEY SERVICE DELIVERY CHALLENGES AND DEVELOPMENTS OF COMMUNITIES

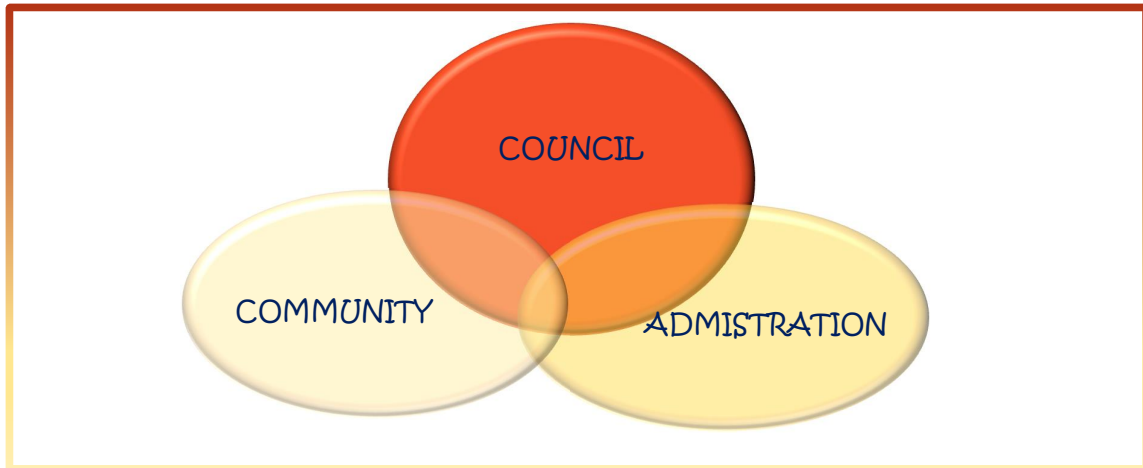

The following table reflect on the key service delivery challenges and development needs per municipal key performance areas raised by communities during the participation meetings conducted.

MUNICIPAL KEY PERFORMANCE AREAS	KEY SERVICE DELIVERY CHALLENGES / DEVELOPMENT NEEDS
KPA 1: Financial Viability	<ul style="list-style-type: none"> ❖ The community requested an explanation on the spending of the maintenance budget. ❖ A concern was expressed regarding the service provider maintaining the robots who are not paid on time ❖ Community members wanted to know, if the Municipality has no money then why are there so many projects ❖ Billing is very confusing and high, community members want to know who exactly the people that are not paying their services are ❖ What is the next step for cutting electricity, how does the Municipality reprimand those who connect illegally ❖ Concerns was expressed about Billing system not accurate ❖ Concerns was expressed about meter readers who come to take meter readings are never seen nor are they visible ❖ The community requested an allocation of pay points for the elders.
KPA 2: Sustainable Physical Infrastructure and Improve Customer Care Services	<ul style="list-style-type: none"> ❖ Construction of Speed humps across all wards ❖ Upgrading of all gravel roads across all wards ❖ Paving of Sidewalks across all wards ❖ Resealing of Roads where road surface and potholes are very bad. ❖ Re gravelling of untarred roads ❖ Re gravelling of roads ❖ Potholes fixing ❖ Speed Humps across all wards ❖ Upgrading of sewerage network, regular cleaning of blocked drains ❖ Upgrading of Storm water network ❖ Construction of Storm water Drainage Infrastructure throughout the wards. ❖ Replacement of main sewerage lines ❖ Electrification of new houses ❖ Provision of high mast lighting throughout the wards to lighten dark areas. ❖ Replacement of ageing electrical network ❖ Upgrading of the electrical infrastructure network ❖ Upgrading of substations ❖ Provision of Electricity to Informal Settlements ❖ Installation of High mast lights ❖ Street lights needed ❖ Fixing of Electrical sub-stations

	<ul style="list-style-type: none"> ❖ Sucking of toilets ❖ Building of new toilets
KPA 3: Economic Growth and Development	<ul style="list-style-type: none"> ❖ Employment opportunities ❖ Jobs creation projects ❖ Youth development and job creation projects needed for unemployed youth. ❖ Municipal Infrastructure Development projects must create jobs
KPA 4: Institutional Transformation	<ul style="list-style-type: none"> ❖ By-Law enforcers to be stationed central
KPA 5: Spatial Integration and Safe Protected Environment	<ul style="list-style-type: none"> ❖ Grass cutting, cleaning and maintenance of paved road, sweeping of paved road in order to avoid blockages of storm water ❖ Need for residential land ❖ Construction of a multi-purpose centre ❖ The Municipal Council must identify the Land for all future housing projects and inform the community accordingly. ❖ All Informal Settlements must be formalised by the allocation of individual erven/stands with access to basic municipal services ❖ Building of houses ❖ Identifying of Land for housing development ❖ Municipality must identify and allocate land to beneficiaries of the middle income housing project. ❖ Fencing of cemeteries ❖ Building of Recreational facility centres ❖ Provision of infrastructure in new stands ❖ Rectification of double packing stands ❖ Concerns raised about dumping sites that are everywhere, people just dump their waste and it ends up causing health issues ❖ Sport grounds regravelling ❖ The building next to Netball court to be renovated for youth development project ❖ Allocation of low costs houses ❖ Concerns raised about emergency vehicles that are not responding to the call out, houses have burned down to the ground due to late responses ❖ Refuse dumping and waste management at informal settlement in ward needs to be improved. ❖ Renovation of the stadium ❖ Concerns about land invasion
KPA 6 : Governance and Stakeholder Participation	<ul style="list-style-type: none"> ❖ Distribution of outstanding title deeds ❖ A need for regular community feedback meetings and communication is needed. ❖ Help with land claims ❖ Transfers of title deeds ❖ A need for assistance from the Financial Services Department with Indigent Registration

CHAPTER 7: MUNICIPAL DEVELOPMENT AGENDA/ VISION AND STRATEGIES

7.1 MUNICIPAL VISION, MISSION, STRATEGIC OBJECTIVES AND KEY PERFORMANCE AREAS

The municipality is at the coalface of development in its area of jurisdiction and the dynamics, needs and priorities of its people change constantly. That is why the IDP of the municipality must be reviewed on an annual basis to keep track of such ever changing circumstances.

The 5-year IDP maps out the strategic direction of the municipality as part of an integrated system of planning and delivery as it remains the principal strategic planning instrument of the municipality.

This Chapter sets out the strategic direction of our Municipality over the IDP cycle. It became necessary for the Municipality to review and simplify its vision and mission as well as the wording of its goals and strategic objectives to facilitate better alignment to the Key Performance Areas of local Government, the National Development Plan (2030) and the Constitutional Objectives of Local Government.

Furthermore it summarise outline the status of sector plans and what it contributes towards the achieving the Municipal Strategic Development Objectives as encapsulated in this drafted 5 year IDP.

The newly elected Municipal Council acknowledges its constitutional responsibility and understands the importance that strong political leadership, sound administration and financial management plays in the effective functioning of a municipality. To create an ideal situation the Municipality must adopt a vision to work towards establishing that ideal environment that will eradicate the development challenges which are facing the municipality.

The leadership of Govan Mbeki Municipality embarked on an intensive Strategic Workshop conference which was held from the 9th to the 11th of November 2016, aimed on critical review municipal plans and strategies which resulted in a number of outcomes to be implemented as part of the new 5 year IDP. The revision of the municipal vision, mission, strategic goals and organisational values constitute inter alia the key drivers of Govan Mbeki Municipality’s IDP that were affected.

The revised strategic thrust of Govan Mbeki Municipality was developed and is diagrammatically represented below:

Themes contained within the Mission Statement were agreed on. The “themes” agreed on were as follows:

- ❖ Service delivery
- ❖ Local economic development
- ❖ Financial sustainability
- ❖ Working together with the community
- ❖ Staff development
- ❖ Sound corporate governance

7.2 MUNICIPAL STRATEGIC OBJECTIVES AND DEVELOPMENT PRIORITIES

As a municipality that is committed to enhance the characteristics of a developmental state, the following six (6) key strategic objectives, which would be realised over the course of the 5-year term (and potentially continued beyond) have been developed to address the challenges identified during the IDP development process.

7.3 MUNICIPAL KEY PERFORMANCE AREAS (KPA'S)

The revised Key Performance Areas in line with the strategic objectives of Govan Mbeki Municipality was developed and is represented as per below table:

MUNICIPAL KEY PERFORMANCE AREAS (KPA'S)	STRATEGIC OBJECTIVES
KPA 1: FINANCIAL SUSTAINABILITY	To enhance revenue & secure financial sustainability
KPA 2: SUSTAINABLE PHYSICAL INFRASTRUCTURE AND IMPROVE CUSTOMER CARE SERVICES	To provide sustainable services, optimise operations and improve customer care
KPA 3: ECONOMIC GROWTH AND DEVELOPMENT	To facilitate and create an enabling environment for diversified local economic development, social cohesion and job creation
KPA 4: INSTITUTIONAL TRANSFORMATION	To enhance the capacity of human capital and deliver institutional transformation
KPA 5: SPATIAL INTEGRATION AND SAFE PROTECTED ENVIRONMENT	To develop spatially integrated, safe communities and a protected environment
KPA 6: GOVERNANCE AND STAKEHOLDER PARTICIPATION	To promote good corporate governance and effective stakeholder engagement

7.4 SECTOR AND OPERATION PLANS / INTEGRATION

A range of sector plans that addresses specific sector inputs to address the Strategic development Agenda of the Municipality augments the IDP. Since the inception of the IDP's in 2002 the Municipality made a concerted effort to prepare these sectoral plans to strengthen the alignment with national and provincial priorities and to give effect to achieving its IDP Objectives.

The sector plans and key policy documents required of a municipality to support the delivering of services in providing strategic and policy direction. The sector plans focus on specific sectors within the context of local government.

The Table below gives a summary of these sector plans, its status and what it contributes towards the achieving the IDP Objectives.

SECTOR / OPERATIONAL PLAN	CURRENT STATUS	IMPLEMENTATING DIRECTORATE
SECTOR PLANS		
Spatial Development Framework	Approved	Planning and Development
Integrated Transport Plan	Not developed	Community Services
Land Use Macro Plan	Not developed	Planning and Development
Water and Sanitation Services Master Plan	Not developed	Technical Services
Electrical Services Master Plan	Not developed	Technical Services
LED Strategy	Review A46/02/2015	Planning and Development
Tourism Development Plan	Not developed	Planning and Development
Human Settlement Development Plan	Review	Planning and Development
Safety and Security Plan	Not developed	Community Services
Rural Development Plan	Not developed	Planning and Development
Roads and Storm Water Master Plan	Review	Technical Services
Integrated Waste Management Plan	Developed	Community Services
Public Facilities Master Plan	Not developed	Community Services
Environmental Management Plan (EMP)	Developed	Community Services

SECTOR / OPERATIONAL PLAN	CURRENT STATUS	IMPLEMENTATING DIRECTORATE
Disaster Management Plan (DMP)	Developed	Community Services
Rural Development plan/Strategy	New	Planning and Development
Greenfield township establishment	Not developed	Planning and Development
Bulk Engineering Infrastructure Alignment Plan involving Eskom, RWB etc.	Not developed	Technical Services
Alternative Energy Plan	Not developed	Technical Services
Special Economic Zone Development Plan	Not developed	Planning and Development
Urban Regeneration and Renewal Plan	Not developed	Planning and Development
Detailed Development Plan for Priority Infill Zone	Not developed	Planning and Development
Infrastructure Master Plan	Not developed	Technical Services
Cemetery Master plan	Not Developed	Community services
Spatial Development Framework	A21/03/2014	Planning and Development
Integrated Transport Plan	Developed but not reviewed	Community services
Integrated Human Settlement Plan	Reviewed	Planning and Development

All Mandatory Sectoral Plans as listed above, as Annexures to the this Five year IDP 2017/2018-2021-2022 and are available on request.

7.5 Proposed IDP Projects and Programmes

The below Strategic Initiatives which would form part of the Strategic Objectives has been developed for consideration by council and implementation as part of the five (5) YEAR Developed IDP 2017/ 2018-2021/2022.

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS	
							2017/2018	2018/2019	2019/2020	2020/2021	2021/2022
<p>MUNICIPAL KPA :FINANCIAL SUSTAINABILITY Priorities: Revenue Enhancement & Secure Financial Sustainability</p>											
1.Tariff Based Revenue Model	Strategic Objective 1: To enhance revenue & secure financial sustainability		CFO		Draft Tariff Book and Strategy	Develop or update to cost / market related tariffs and implementation strategy	Feb-17				
2.Enhance Revenue Collection			All Directors		Reviewed processes aligned to strategic objectives of GMM	Address gaps within Revenue Collection related policies	Feb-17				
			CFO / Director: Technical		Number of meters unbridged	Elimination of Bridged Meters				2021	
			CFO / Director: Technical / Director: Planning & Development		Number of new accounts	Reconciliation of accounts and valuation roll			2019		
			Manager: Revenue / CFO		Clean Billing Database	Billing Information - Data Cleansing	May-17				
			CFO / Director: Technical		Number of meters replaced	Addressing Dormant / inactive / faulty meters		2018	(continuous)	2021	(continuous)

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS	
							2017/2018	2018/2019	2019/2020	2020/2021	2021/2022
			CFO / Director: Planning & Development		Number of proclaimed extensions	Proclamation of Extensions (un-proclaimed land)					
			CFO & Director: Planning & Development		Accurate Valuations Roll	Elimination of omitted households		2018			
			Comms / Office of the Speaker / Ward Councillors / Regional Managers		Behavioural change (increased number of payments received)	Enhancement of community awareness (increasing meeting frequency / means of communication)	2017	(continuous)	(continuous)	(continuous)	(continuous)
			CFO / Director: Technical		10% growth in revenue	Cut-offs (low-hanging fruit & ongoing cut-offs)	2017	(continuous)	(continuous)	(continuous)	(continuous)
3. Collection of Outstanding Debts			CFO		Audited cut-off lists	Increased control on cut-offs	Feb-17	(continuous)	(continuous)	(continuous)	(continuous)
			CFO		Audited cut-off lists	Payment Arrangement Monitoring (Physical & System)	Jun-17	(continuous)	(continuous)	(continuous)	(continuous)
			Director: Corporate Services / CFO		Full staff complement within CC	Resourcing of structures (internal credit control / metering)	Jun-17	(continuous)	(continuous)	(continuous)	(continuous)

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS	
							2017/2018	2018/2019	2019/2020	2020/2021	2021/2022
			Ward Councillors / Office of the Speaker		Standing item in monthly engagements	Community awareness around cut-offs / revenue related issues	Jan-17	(continuous)	(continuous)	(continuous)	(continuous)
4.Reduce distribution losses (water & energy)			Director: Technical Services		Number of meters installed	Community awareness around cut-offs / revenue related issues	Jun-17	(continuous)	(continuous)	(continuous)	(continuous)
			Director: Technical Services		% reduction in distribution losses	Reduce illegal connections	Jun-17	(continuous)	(continuous)	(continuous)	(continuous)
5. Cost curtailment			CFO		Finalised Priority List within Procurement Plan	Prioritise spending on Revenue or Service Delivery related elements (i.e. Meters, Asphalt, etc.)	Feb-17	(continuous)	(continuous)	(continuous)	(continuous)
			All Directors		Reduced Restricted Expenditure Patterns (Section 71 Report)	Compliance with MFMA Circular 82 and Council Resolution	(continuous)	(continuous)	(continuous)	(continuous)	(continuous)
6. Reduction in outsourcing / contracted services			All Directors		Reduction in number of contracted services	Strengthen internal capacity				2021	
			All Directors		Reduction in number of contracted services	Elimination of existing inefficient contracts			2019		

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS	
							2017/2018	2018/2019	2019/2020	2020/2021	2021/2022
7. Roll-out of Household Bins to increase billing accuracy			Director: Community Services		Roll-out of wheelie bins to GMM	Development of implementation plan Provision of 240litre wheelie bin for each household				2021	

MUNICIPAL KPA: PHYSICAL INFRASTRUCTURE AND ENERGY EFFICIENCY
Priorities: Sustainable services, Optimise Operations and Improve Customer Care

1. Optimisation of processes and systems	Strategic Objective 2: To provide sustainable services, optimise operations and improve customer care		All Directors		Documented processes	Documentation of processes		Jun-18			
					Approved SOPs	Analyse and improve processes					
		All Directors		mSCOA Compliance	mSCOA Compliance (systems)	30-Jun-17					
2. Call Centre / Customer Service			All Directors		Number of functioning walk-in centres	Establishment of walk-in centres (integrated customer service)	Jun-17				
3. Green (renewable) energy & energy efficiency			Director: Technical Services		Number of households with solar panels	Installation of solar panels	Jun-21				
			Director: Technical Services		Approved feasibility report	Conduct solar plant feasibility study	30-Jun-18	30-Jun-18			
		MM		Approved funding	Source funding for solar plant	31-Dec-18	31-Dec-18				

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS	
							2017/2018	2018/2019	2019/2020	2020/2021	2021/2022
4. Access to electricity			Director: Technical Services		Energy efficient street lights and high mast lights installed	Replace conventional public lighting with energy efficient lighting			31-Dec-19		
					Electrified households	Electrification of households			30-Dec-19		
					Upgraded energy infrastructure	Upgrading / expansion of energy infrastructure				31-Dec-21	
					Reduction in unplanned maintenance	Protection of infrastructure (transformers, etc.)			30-Jun-19		
					Reduction of interrupted supply						
5. Access to water					No drop status	Implementation of water conservation and demand management				30-Jun-21	
					Reduction in losses						
6. Asset maintenance			Director: Technical / Director: Corporate Services / CFO		Development and Implementation of Maintenance Plans	Implementation of Final Maintenance Plan	Draft: February 2017	Final: July 2018			
7. Available and reliable fleet			Director: Technical Services		Allocation of sufficient funding for fleet	Budget allocation	31-May-17				
					Procure and allocate fleet to key departments	Delivery of fleet	31-Dec-17				

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS	
							2017/2018	2018/2019	2019/2020	2020/2021	2021/2022
					Timeous repairs and maintenance of fleet	Maintenance and repairs according to service standards	Ongoing	Ongoing	Ongoing	Ongoing	Ongoing
8. Provision of trafficable roads and effective storm water system			Director: Technical Services / PMU		Eradication of gravel roads	Kilometres of eradicated gravel roads				30-Jun-21	
			Director: Technical Services / PMU		Rehabilitation of paved roads	Kilometres of rehabilitated roads				30-Jun-21	
			Director: Technical Services / PMU		Installation of storm water systems on main roads	Installed storm water systems				30-Jun-21	
			Director: Technical Services		Upgrade of Road P185-2 (Secunda to Trichardt) from a single carriage way to a dual carriage way road	Road from Secunda to Trichardt – P185-2		30-Jun-18	Ongoing	Ongoing	Ongoing
			Director: Technical Services		Upgrade of road P216-1 - Nelson Mandela Drive (Secunda to Emba) from a single carriage way to a dual carriage way road	Road from Secunda to Emba – Nelson Mandela Drive – P216-1		30-Jun-18	Ongoing	Ongoing	Ongoing
			Director: Technical Services		Review and update pavement management system	Reviewed and approved pavement management system		30-Jun-18			
			Director: Technical Services		Review and update storm water management system	Reviewed and approved storm water management system	30-Jun-21			30-Jun-21	

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS		
							2017/2018	2018/2019	2019/2020	2020/2021	2021/2022	
9. Waste Management			Director: Community Services		Rolling out waste removal services to all households	Number of households with access to waste removal services	31-Dec-17					
					Refurbishment of landfill sites	Final Waste Characterisation Study / Sourced Funding for Refurbishment				2021		
					Waste separation at source	Implementation of Household Separation at Source activities				2021		
10. Access to proper sanitation services				Director: Technical Services / PMU		Refurbishment and upgrading of Waste Water Treatment Works (WWTW)	Kilometres of eradicated gravel roads				30-Jun-21	
						Eradication of gravel roads	Kilometres of rehabilitated roads				30-Jun-21	
						Rehabilitation of paved roads	Installed storm water systems				30-Jun-21	
					Installation of storm water systems on main roads	Reviewed and approved pavement management system		30-Jun-18				
	Review and update pavement management system		Reviewed and approved storm water management system					30-Jun-21				

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS	
							2017/2018	2018/2019	2019/2020	2020/2021	2021/2022
MUNICIPAL KPA: ECONOMIC GROWTH AND DEVELOPMENT											
Priorities: Create an enabling environment for diversified local economic development, social cohesion and job creation											
1. Establishment of an industrial park	Strategic Objective 3: To facilitate and create an enabling environment for diversified local economic development, social cohesion and job creation		Director: Planning & Development		Approved feasibility report	Finalisation of a feasibility study	31-Jan-17				
			PMU		Final designs	Finalise the designs of the industrial park		30-Jun-18			
			Director: Planning & Development		Approved policy	Develop an investment incentive policy	31-May-17				
			MM		Approved funding	Source funding for infrastructure		31-Dec-18			
			PMU		Operational industrial park	Construction of the industrial park				31-Dec-21	
2. Establishment of the tourism hub			Director: Planning & Development		Approved feasibility report	Conducting of a feasibility study	30-Jun-17				
					Approved tourism policy	Development of tourism policy	30-Sep-17				
3. Establishment of the warehouse and logistics hub					Approved feasibility report	Conducting of a feasibility study	30-Jun-17				
4. Establishment of the educational hub			MM		Provincial EXCO decision	Advocate for faculty of science and technology for the University of	30-Jun-17				

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS	
							2017/2018	2018/2019	2019/2020	2020/2021	2021/2022
						Mpumalanga to be in GMM					
5. Youth empowerment			CFO		Database of commodities to be procured from youth	Identify and ring-fence services and products that will be sourced from youth	28-Feb-17				
					SCM indaba	Enterprise development for youth	31-Dec-17				
					Approved budget	Set aside R10 million for procurement to local youth	31-May-17				
6. Cooperative empowerment					SCM indaba	Enterprise development for cooperatives	31-Dec-17				
					Approved budget	Set aside R10 million for procurement to local cooperatives	31-May-17				
7. Facilitation of previously disadvantaged SMMEs by private sector			Director: Planning & Development		Functional LED forum	Revive the LED forum	31-Jan-17				
			MM		MOU between private sector and Municipality	Engagement with private sector for set asides	31-Mar-17				
8. Township economy development			Director: Planning & Development		Benchmarking report	Benchmark with progressive municipalities	30-Jun-17				

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS	
							2017/2018	2018/2019	2019/2020	2020/2021	2021/2022
					Reviewed and approved spatial plan	Spatial planning to accommodate township economy		30-Jun-18			
MUNICIPAL KPA: INSTITUTIONAL TRANSFORMATION Priorities: Enhance the capacity of human capital and deliver institutional transformation											
1. Skills Development	Strategic Objective 4: To enhance the capacity of human capital and deliver institutional transformation		Director: Corporate Services		Implemented PDPs	Analyse competency assessment information		30-Jun-18			
					% of training requirements met	Identify skills gaps					
						Personal development plans (PDPs) to be put in place					
						Put in place skills development programme					
						Focussed training for the "coal face" workers to enhance service delivery					
2. Performance Management			MM / All Directors		Signed JDs	Finalisation of job descriptions	30-Jun-17				

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS	
							2017/2018	2018/2019	2019/2020	2020/2021	2021/2022
			Director: Planning & Development		Reviewed and Approved PMS	Review Performance Management Policy	30-Jun-17				
			All Directors		Signed performance agreements	Cascading down of PMS to Level 3		30-Jun-18			
3. Recruitment & Retention			Director: Corporate Services		Approved succession plans	Identify where succession plans are required and develop such		30-Jun-18			
4. Organisational Structure (to support Strategy)			All Directors	% of critical positions filled		Identify and fill critical positions	Sep-17				
5. Employment Equity			MM	Council resolution		Review organisational structure and align to strategy	Mar-17				
			MM / All Directors	% increase of designated groups		Adherence to EE Plan				Jun-21	
6. Organisational Culture				Established baseline		Establish baseline culture	Jun-17				
				Change management interventions		Change management to address shortcomings & create awareness	Jun-17				

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS	
							2017/2018	2018/2019	2019/2020	2020/2021	2021/2022
				Reduction in disciplinary es / grievances		Implement consequence management	Jun-17				

**MUNICIPAL KPA:
Priorities: Spatially integrated, safe communities and a protected environment**

1. SPLUMS	Strategic Objective 5: To develop spatially integrated, safe communities and a protected environment		Director: Planning & Development		Council approved schemes	Roll-out of SPLUMA (Spatial Planning and Land Use Management) initiatives		Jun-18				
2. Environmental Management			Director: Technical Services		Report from DWA	Improve Green & Blue Drop status				Jun-21		
3. Integrated Human Settlements					Submission of Blue & Green Drop files							
				Director: Community Services		Approved MOSS	Development of Municipal Open Space System (MOSS)		Jun-18			
				Director: Community Services / Director: Technical Services		Approved strategy	Development of Climate Change Response Strategy			Jun-19		
				All Directors		Approved sector plans	Review and development of sector plans				Jun-21	

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS	
							2017/2018	2018/2019	2019/2020	2020/2021	2021/2022
			Director: Community Services		Licensed landfill sites	Compliance with license conditions at landfill sites		Jun-18			
			Director: Technical / PMU		Hectares of land services	Service available land		Jun-18			
			Director: Planning & Development		Identified suitable land	Identify and acquire land for future development				Jun-21	
					Number of townships established	Township establishment		Jun-18			
<p>MUNICIPAL KPA: GOVERNANCE AND STAKEHOLDER PARTICIPATION Priorities: Promote good corporate governance and effective stakeholder engagement</p>											
1. Effective and functional governance structures	Strategic Objective 6: To promote good corporate governance and effective stakeholder engagement		MM		% training intervention met	Adequately resource/capacitate Internal Audit	30-Jun-17				
					% of vacancies filled						

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS	
							2017/2018	2018/2019	2019/2020	2020/2021	2021/2022
2. Improved public participation			MM / Director: Planning & Development		Approved risk and audit charter	Review and align the risk and audit charters	31-Mar-17				
			MM		Appointments through council resolution	Appointment of new audit committee	31-Jan-17				
			Speaker		% training intervention met	Adequately capacitate section 79 and 80 committees	31-Mar-17				
			Director: Corporate Services		% training intervention met	Capacitation of risk champions	31-Mar-17				
			Speaker / Executive Mayor		frequency of consultations conducted as per calendar or circular	Conduct public consultations IDP Imbizo/awareness campaigns Budget	As per MFMA schedule	As per MFMA schedule	As per MFMA schedule	As per MFMA schedule	As per MFMA schedule
			Speaker / Councillors		Number of reports submitted	Monitor the functioning of the ward committees, OVS and CDW	Monthly	Monthly	Monthly	Monthly	Monthly
			Director: Corporate Services		Level of participation on social media platforms	Create effective social media platforms e.g. Facebook and WhatsApp	30-Nov-16				
3. Improved enforcement of municipal bylaws			Director: Corporate Services		Live community radio station	Facilitate the creation of a community radio station		30-Dec-18			
			Director: Community Services		Tools of trade for the unit available	Resource the bylaw enforcement unit	30-Jun-17				

STRATEGIC INITIATIVES 5 YEAR IDP 2017/2018-2021/2022

Strategic Goals	Strategic Objectives	Baseline	Responsibility	Budget (Optional)	5 Year target	Strategic Initiatives	MTEF TARGETS			OUTER YEARS	
							2017/ 2018	2018/2 019	2019/ 2020	2020/2 021	2021/ 2022
			Director: Corporate Services		Approved fine book	Develop fine book	31-Mar-17				
			Director: Corporate Services		Functioning municipal court	Establish municipal court				30-Jun- 20	

7.5 SPATIAL PLANNING AND LAND USE MANAGEMENT ACT, 2013 (SPLUMA)

The new Spatial Planning and Land Use Management Act, 2013 (Act No. 16 of 2013) (SPLUMA) was promulgated on 5 August 2013. SPLUMA further intends to address the failures of the “old order” planning ordinances and legislation, the majority of which predate 1994.

SPLUMA intends to create a coherent regulatory framework for spatial planning and land use management, amongst others by legislating actions to ensure justice and equity in the application of spatial development planning and land use management systems. Amongst others SPLUMA requires Spatial Development Frameworks (SDF's) to be completed by all three spheres of government for respectively, the country, a province or a municipal area.

The process of compiling SDF's becomes an involved process in which local government places a central role, primarily because it must provide the data / information for the planning.

SDF's will form the basis of all future decisions in terms of the SPLUMA and they will be taken by tribunals, which are non-political / technical bodies, established in terms of Section 35 of SPLUMA. It broadly determines that a municipality or municipalities jointly, must constitute a Planning Tribunal to consider all land use planning applications.

The SPLUMA prescribes the membership of tribunals, which consists of no less than five members, with no councillors in attendance. Councils now become the appeal authorities. These tribunals are the sole responsibility of the municipalities, who must bear the cost of the meetings and the administration relevant thereto.

Every municipality must develop and/or adopt a Municipal Planning By-Law, which can be a unique document specific to the municipality. One of the consequences of the new planning legislation and processes is that a municipality now becomes legally accountable for decisions, i.e. an applicant or aggrieved party will no longer sue the MEC and add the municipality as a respondent. Instead, the municipality will be sued and it must provide for the costs and administration of such legal cases.

Financial Implications of SPLUMA

- Tribunal operational costs;
- Legal costs;
- Planning and Land use management bylaws;
- Human resources.

Development Principles:

One of the main objectives of this act is to provide a framework for spatial planning and land use management to address past spatial and regulatory imbalances. The act sets out the following 5 main development principles applicable to spatial planning, land use management and land development:

- Spatial justice (improved access to and use of land with an emphasis on informal settlements and disadvantaged communities);
- Spatial sustainability (protection of prime and unique agricultural land, development in locations that are sustainable, limit urban sprawl and creation of viable communities);
- Efficiency (optimizing the use of existing resources and infrastructure)
- Spatial resilience (allow for flexibility in spatial plans)
- Good administration

7.6 SPATIAL PLANNING

7.6.1 Synopsis Spatial Planning

Spatial planning refers to the methods used by the public sector to influence the distribution of people and activities in spaces of various scales. Discrete professional disciplines which involve spatial planning include land use, urban, regional, transport and environmental planning.

Other related areas are also important, including economic and community planning. Spatial planning takes place on local, regional, national and inter-national levels and often result in the creation of a spatial development framework.

Thus, Spatial Planning is about anticipating long-term change (and the pressures and opportunities that emerge from it) and articulating a logical and flexible development path for a more sustainable and equitable future.

Thus, the Govan Mbeki Municipality Spatial Development Division takes a strategic view of planning across the Municipal Area of Jurisdiction. It is responsible for the development of the Spatial Development Framework (SDF) for the Municipality and its related strategies like Urban Boundary Study, Growth Management Strategy, Density Policy, Nodal Policy, Urban Designs, Environmental Management, etc.

As a framework, the SDF addresses the following deliverables: appropriate densities, support of public transport, clustering and focus of economic activities, growth management, the enhancement and protection of residential environments, support of viable service and infrastructure provision, guiding and directing affordable housing developments, environmental management and provision of a framework for the upgrading and development of historic townships.

At a local level, the Division is responsible for development of local spatial development frameworks (LSDFs). The primary aim of an LSDF is the arrangement of land use and infrastructure associated with the needs of specific communities within administrative regions.

It integrates transportation, environment, education, economic development, social, residential development and other developmental requirements. Development needs, opportunities and priorities are identified. It is a process that is community, Towns and regionally based.

The Spatial Development Division also takes a lead in ensuring that the allocation of the Municipal capital budget is in line with the Municipal needs and priorities as defined in the SDF, cascaded down into the Municipal IDP and as well as to Spatial reference each capital project.

This is done through the development and management of the Capital Investment Framework. Other mechanisms and processes utilised are policies, initiation of appropriate developments, co-ordination of processes and specific precinct plans. Urban design management plans assess the environment and determine which areas need special attention, such as better service delivery.

They also identify areas that are in decline or are not performing at their best: these need specific project and capital intervention.

Thus the role of the Assistant Manager: Spatial Development will be to focus on urban management in specific areas within each region, depending on what is highlighted in the urban design management plans.

Public participation is vital to the Town and Regional Planning Sections aim, as this ensures that the needs of a community are fully understood. The individual regions have to play an important role in building relationships, in building the image of the Municipality through improving communication with residents and in improving residents' access to local government.

The Division will also tackle specific zones, such as business nodes or places of urban decay, providing dedicated attention to the target area. It will also participate in and support specific urban projects, such as development west of Secunda; urban designs for all towns within Govan Mbeki Municipality and other regeneration projects.

The following diagram demonstrates the sequence and interrelation of the sector plans with the municipal Spatial Development Framework (SDF).

The ultimate objective of this one holistic planning approach which commence with development of an SDF (that is inclusive of all current and future developments) is to inform and align operational plans ensuring planning is streamlined across sector departments.

This approach eliminates duplication in the planning and budgeting processes ensuring that development transpires in a coordinated manner.

7.6.2 Holistic planning approach toward spatial planning:

The table reflect on the holistic planning approach toward spatial planning:

Spatial Planning	
Spatial Development Planning	Transport Planning
<ul style="list-style-type: none"> ❖ To provide a framework for Spatial Planning. ❖ Specify relationship between Spatial Planning and Land Use management. ❖ To provide for inclusive, developmental, equitable and efficient spatial planning. ❖ To provide for a framework for the monitoring, coordination and review of spatial planning system. ❖ To address past spatial imbalances. ❖ To provide for the facilitation and enforcement of spatial development measures 	<ul style="list-style-type: none"> ❖ Transport planning must be integrated with the land development and land use planning. -Integrated transport plans must be designed to give structure to the function of municipal planning. -Form an essential part of integrated plans.

7.6.3 Priority Technical Projects

Sector Planning within Govan Mbeki is lagging, restricting the implementation of the IDP, which requires integration as well as alignment of projects.

Integrated development planning requires the alignment and integration of the different sector plans into one integrated development plan providing integrated development programmes.

The following priority technical projects are required for the period 2014-2019 to ensure sectoral integration:

PRIORITY TECHNICAL PROJECTS 2014-2019			
PLANNING		TYPE	STATUS
Govan Mbeki Municipal area Sector and related planning		Integrated Transport and Land Use Macro Plan	New
		Water and Sanitation Services Master Plan	New
		Electrical Services Master Plan	New
		LED Strategy	Review
		Tourism Development Plan	New
		Human Settlement Development Plan	Review
		Safety and Security Plan	New
		Roads and Storm Water Master Plan	Review
		Waste Management Master Plan	New
		Public Facilities Master Plan	New
		Environmental Management Plan	New
		Disaster Management Plan (DMP)	Review
		Alignment of the Urban Edge:	New

7.6.4.1 Housing Demand Analysis

The settlement of people within Govan Mbeki needs to be distributed to and structured within the definite development nodes, provide for a residential mix satisfying the needs of all income groups.

The future demand for housing is based on the following:

- ❖ Base Population: 2011:294,539 (StatSA)
- ❖ Average household size: 3.5
- ❖ Growth 2011-2018: 3% p.a.
- ❖ Growth 2018-2033: 2% p.a.

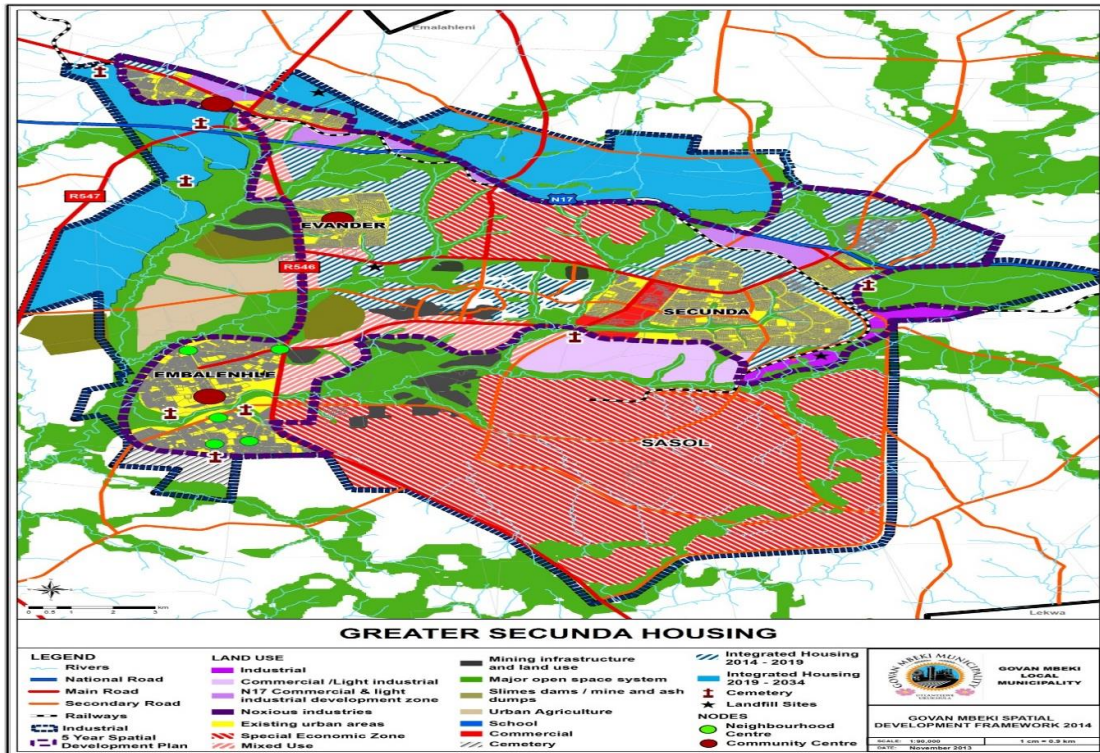

The provision of housing in for the 5 year periods spanning over the next 20 years is based on:

- ❖ A base population:294,539 in 2011 (StatSA)
- ❖ An average household size: 3.5
- ❖ A growth of 3% p.a. for the period 2011-2019
- ❖ A growth of 2% p.a. for the period 2019-2034

The distribution of integrated housing in the different development nodes for a 20 year planning period up to 2034 and the period 2014-2019 and are illustrated on:

7.7 SPATIAL DEVELOPMENT FRAMEWORK (SDF)

The purpose of the Spatial Development Framework (SDF) for Govan Mbeki Local municipality is to provide a contextual spatial frame work for future developments and to give direction to all.

The management of future growth and associated change is guided by Development Strategies that will manage the Spatial Development Concept and Strategic Focus Areas that enhances the efficient utilisation of land and infrastructure, supported by management decisions over ad-hoc and dispersed forms of development resulting in a highly sustainable pattern of development.

The Development Strategies provides for Strategic Objectives, each providing for a set of Spatial Development Strategies and Strategic Focus Areas

Six (6) strategic objectives were identified providing Spatial Strategic Focus Areas (areas of intervention at local level):

- Strategic Objective 1: Economic development and job creation supporting and guiding development.
- Strategic Objective 2: Promoting education, training and innovation
- Strategic Objective 3: Accommodating urbanisation and transforming human settlements
- Strategic Objective 4: Promote the development of the rural areas within Govan Mbeki that can support sustainable economic, social and engineering infrastructure
- Strategic Objective 5: Protect biodiversity, water and agricultural resources
- Strategic Objective 6: Infrastructure Investment

7.7.1 THE SPATIAL DEVELOPMENT FRAMEWORK STRATEGIES OF GOVAN MBEKI MUNICIPALITY

Strategic Objective 1: Economic development and job creation supporting and guiding development

The integration of regional and sub regional spatial development initiatives, with the aim of leveraging investments to have an overall greater regional impact.

Within Govan Mbeki the objectives of these initiatives add to sustainable economic development. The objectives thereof form the broad framework for spatial development within Govan Mbeki

The advantages provided by the following regional and sub regional development nodes and corridors in support of the Govan Mbeki Municipality need to be exploited:

- ❖ The N17/ N2 Transportation Corridor supported by the Richards Bay railway line providing
- ❖ Regional access and mobility to Swaziland and to Northern KZN
- ❖ The primary coal haulage links to Richards Bay
- ❖ The Maputo Development Corridor linking Gauteng with the Maputo Harbour incorporating the R35 Bethal to Middelburg Petrochemical Link, linking the N17/ N2 Transportation Corridor with the Maputo Development Corridor
- ❖ The status of the Secunda Development Node as primary regional development node within Mpumalanga province
- ❖ The proximity of:
 - ✓ The Gauteng Competiveness Node
 - ✓ The Regional Development Nodes of eMalahleni and Middelburg
- ❖ The Delmas - Leandra emerging link

Regional Strategic Investment Initiatives and Projects

The advantages provided by following Regional Strategic Investment Projects in support of the Govan Mbeki Municipality need to be exploited:

- ❖ The development of a Special Economic Zone at Secunda diversifying and supporting the local economy providing for logistics and manufacturing
- ❖ Partnership Agreements between Mpumalanga provincial Government, Municipalities and Private Enterprise (SASOL)
- ❖ The linking of the rail systems unlocking the northern mineral belt with Waterberg (SIP1) and making coal available to the Gert Sibande District and Nkangala District
- ❖ Increasing rail capacity to Richards Bay.
- ❖ Shifting from road to rail in Govan Mbeki and the province alleviating the congestion caused by road freight on the roads system
- ❖ The continuous upgrading of the N17 route as high mobility regional route and upgrading of the link between Ermelo and the Swaziland Oshoek border post opening up economic opportunities within the region
- ❖ The provision of a passenger rail system along the N17 over the long term (NATMAP)
- ❖ Increasing accessibility to the proposed regional cargo airport facility at Victor Khanye

Diversifying and strengthening the Govan Mbeki Economy

Mining

The optimal exploitation of the Govan Mbeki minerals providing a long term advantage to the creation of sustainable economies, communities and jobs within Govan Mbeki without compromising biodiversity, water quality and availability, agriculture and tourism.

- ❖ The expansion and improvement of the railway freight and passenger network supporting mining and synfuels production
- ❖ The expansion and improvement of the railway passenger network
- ❖ The utilisation of the advantage of the proposed railway link between the Waterberg coal fields, the Mpumalanga power stations and Richards Bay port including the upgrading of the Ermelo Richards Bay Coal haulage line and the Lothair Swaziland link to Richards Bay rail link supporting the exporting of coal from Mpumalanga
- ❖ The phasing in of renewable energy options, which include concentrated solar power, wind and natural gas, reducing dependence on coal resources
- ❖ Alleviate the negative impact of mine closures on the socio economic welfare of the communities affected thereby, consolidating the mining communities into main concentrations and existing towns

Manufacturing and Synfuels production

- ❖ The competitive advantage of the manufacturing sector within Govan Mbeki needs to be expanded through the provision of a Special Economic Zone providing for the broadening of the economic base:
 - ✓ Exploit specific business opportunities with Sasol
 - ✓ Developing an Industrial cum Logistics park
- ❖ Enable the synergistic development of agriculture, manufacturing and beneficiation, transportation, industries as economic drivers
- ❖ Minimise the spatial conflicts between the manufacturing activities and biodiversity

Trade

- ❖ Provide for the development and regeneration of existing activity nodes, reverse urban decay within all, towns and villages promoting investors confidence
- ❖ Accommodate the distribution of economic activities as part of development nodes, activity corridors and activity nodes
- ❖ The provision of tourism activities and tourism routes with the focus on Bethal as cultural and heritage tourism node

Agriculture

- ❖ The exploitation of the competitive advantages of the agricultural sector incorporating an Agricultural Hub in Bethal supporting the Comprehensive Rural Development Programme
- ❖ The provision of Urban Agriculture providing for local produce markets
- ❖ The roll out of the Comprehensive Rural Development Programme must assist in expanding the agriculture potential over large parts of Govan Mbeki to ensure food security and provide for agro processing.
- ❖ The land owned by government needs to be targeted for such purposes.
- ❖ The application of sources of water for irrigation and water technology to provide sustainable agricultural products for agro processing, commercial farming and food security
- ❖ The settlement of land claims and assurance of access to land in order to get individual, community and smallholder farmers established.
- ❖ Effective training and mentorship programmes are essential to the successful establishment of farmers
- ❖ Minimise the spatial conflicts between the mining activities, agriculture and biodiversity
- ❖ Existing productive farmland must be protected and developed
- ❖ The degradation of agricultural land through overgrazing needs to be managed

Strategic Objective 2: Promoting education, training and innovation

Spatial Development Strategies

- ❖ The provision of the full spectrum of educational facilities within Govan Mbeki providing for the local as well as regional needs, including:
 - ✓ The development of Govan Mbeki as Tertiary Educational Hub building on the Mpumalanga Math, Science and Technology Academy by providing:
 - A Provincial Skills Hub
 - An Engineering faculty for Mpumalanga University
 - A Science Centre
 - ITC Centres
- ❖ Reasonable access to educational facilities and the equitable and optimal distribution of pre-primary, primary, secondary and ABET facilities in all neighbourhoods of Govan Mbeki providing for an efficient and effective pre primary, primary and secondary educational network
- ❖ The rationalisation of the distribution and number of schools in accordance with acceptable standards

Strategic Objective 3: Accommodating urbanisation and transforming human settlements

The provision of a Spatial Development Concept providing for an integrated system of development and activity nodes and corridors to accommodate regional and sub-regional growth

Spatial Development Concept

The Spatial Development Concept was formulated as a first step towards a spatial development strategy for Govan Mbeki. This Spatial Development Concept models spatial direction and context to future developments.

This Development Concept promotes, clarifies and refines the spatial development principles and development priorities supported by relevant policies and legislation and define the desired spatial form of Govan Mbeki.

The Spatial Development Concept is, by its very nature, broad and seeks to interpret the various development principles and objectives in a concise way. The concept provides a rational framework within which future development can be optimised by promoting a system of activity nodes, corridors and functional areas.

The Spatial Development Concept provides for the integration of the following:

Urban Nodes

1st Order Regional Node: Secunda, Evander, Kinross, Lebohang and Trichardt

- ❖ The primary urban node in the municipality will remain the Greater Secunda conurbation. Greater Secunda will remain the hub of economic activity in the area, with SASOL and the mines predominating

2nd Order Regional Node : Bethal/eMzinoni

- ❖ Bethal/eMzinoni will remain a secondary node supporting Greater Secunda and serving the surrounding rural areas.

3rd Order Regional Node : Leandra (Leslie, Lebohang and Eendracht)

- ❖ Leandra will remain a tertiary node supporting Greater Secunda and serving the surrounding rural areas.

The N17 Transportation Corridor

- ❖ The N17 is a high-order mobility corridor in the Gert Sibande District, running east-west through Govan Mbeki and linking the three urban nodes. The continuous upgrading of the N17 improves the connectivity between the three main urban nodes and to the East Rand and Johannesburg in Gauteng.

The Regional Open Space System

It must be noted that a detailed strategic environmental assessment must still be conducted for the municipality. The results of this exercise will serve to enhance the detail pertaining to the regional open space system to be conserved and developed in future.

The proposed open space system is predicated on the major watercourses and other natural features within the study area and the biodiversity corridors of the Mpumalanga Biodiversity Sector Plan 2013.

Transportation

The land use framework as discussed above must be supported by a transportation network and services in order to materialise. The following is a summary of the main proposals in this regard.

Rail.

The Johannesburg/Richards Bay freight rail line traverses the study area in an east-west direction and links the three urban nodes with each other and with the wider region. No extensions to the existing freight rail system and services are foreseen at this stage.

The future passenger rail from Gauteng to Swaziland will add to the provision of an effective passenger rail system within Govan Mbeki and local economic development. Migrant mine workers can utilise such a system and a station such as Kinross station can be utilised for such purpose.

Road

National road N17 ensures good regional accessibility for the municipality and links it to Gauteng to the west and to Kwa Zulu Natal and Swaziland to the east and southeast.

The regional road network in the municipality is also depicted. The main objectives of this network are to:

- ❖ serve the municipality in north-south and east-west directions of movement
- ❖ link residential areas to one another and to the core areas of economic activity
- ❖ link areas of economic activity to one another
- ❖ promote mixed use and high density development adjacent to these routes, subject to road access management requirements, and
- ❖ promote transport along these routes as a priority
- ❖ address the problems associated with coal haulage on roads
- ❖ accommodate supporting facilities such as a truck stop and weighbridge.

The development of a Smart City directed by smart growth

The revitalisation of and expansion to the existing built environments to accommodate the future integrated growth of in an efficient and sustainable Govan Mbeki consisting of a system of vibrant urban development nodes requires the integration of a set of development strategies, focused at concentrating and densifying development, the incremental upgrading of existing infrastructure and integrating communities.

This requires the strategic directing of growth to The Greater Secunda node of Secunda, Trichardt, SASOL, eMbalenhle, Evander and Kinross including :

- ❖ The Special Economic Zone
- ❖ Integrated human settlement development between Secunda and eMbalenhle
- ❖ The Bethal Emzinoni Node
- ❖ The Leslie Lebohang Eendracht Node
- ❖ The Charl Cilliers Node

Strategic Objective 4: Promote the development of the rural areas within Govan Mbeki that can support sustainable economic, social and engineering infrastructure

Govan Mbeki needs to ensure sustainable use and development of its rural areas based on the following:

- ❖ A rural economic base, particularly agriculture and mining, which strengthens, offering opportunities for economic empowerment, and adopts sustainable business practices.
 - ✓ Rural amenities and economic opportunities accessible to the residents, particularly poor communities with limited mobility
 - ✓ Facilitating the establishment of business initiatives, rural and agro industries, co-operatives, cultural initiatives and vibrant local markets.
 - ✓ Empowerment of rural communities to be self reliant
 - ✓ Increased production and sustainable use of natural resources
 - ✓ Livestock farming and related value chain development
 - ✓ Cropping and related value chain development
 - ✓ Strengthening rural livelihoods for vibrant local economic development
 - ✓ Use of appropriate technology, modern approaches, and indigenous knowledge systems
 - ✓ Ensuring food security, dignity and quality of life.
 - ✓ Integrating rural development with existing regional and sub-regional movement routes.
- ❖ The optimal utilisation of agricultural land based on Land Capability
- ❖ The natural and agricultural landscapes should enjoy adequate protection:
 - ✓ The destroyed landscapes should be rehabilitated sufficiently
 - ✓ Safeguard the protected, critical biodiversity areas and ecological support areas against mining and agriculture
 - ✓ The protection of high potential and unique agriculture land against development
 - ✓ Minimise the conflict between agricultural resources and coal mining and ensure food security
 - ✓ Development of mitigation and adaptation strategies to reduce vulnerabilities with special reference to climate change, erosion , flooding and natural disasters
 - ✓ Provide sufficient water to agriculture needs
 - ✓ Address the scarcity of water and emerging negative water balances within the catchment areas caused by mining
 - ✓ The protection of ecological corridors
 - ✓ The conservation of wetlands and grasslands for conservation need to be high priority.
- ❖ A clear distinction should be made between the urban and rural landscapes, and there is a legible and logical structure of human settlements.
 - ✓ Human settlements and surrounding rural areas functioning as interconnected systems.
 - ✓ Rural development reinforcing a logical network of human settlements of varying sizes and functions.
- ❖ National, provincial and local government collaborate and align their efforts to plan, manage and sustainably develop the Govan Mbeki rural areas providing for:
 - ✓ Improvement and development of social and economic infrastructure supporting agriculture development
 - ✓ Developing rural development nodes providing sustainable economic and social infrastructure including
 - ✓ Enhancing and maintaining road and transportation linkages to higher order urban nodes as markets of produce and economic and social services providers
 - ✓ Enhancing distribution networks, access to ports and railways
 - ✓ Electrification
 - ✓ Improving communication connectivity (including ICT)
 - ✓ Small scale farming development
 - ✓ Establishment of fresh produce markets at appropriate locations
 - ✓ Construction of dams and water harvesting
 - ✓ Alignment of municipal rural land use planning with the rural spatial plans prepared by other institutions (e.g. Biodiversity Plans)

- ❖ Land Reform needs to take place through:
 - ✓ Expediting redistribution of land to historically disadvantaged people and provide access to funding (and mentoring) for commercial farming
 - ✓ Increasing the rate of land tenure reform, securing access to land, protecting land rights
 - ✓ Establishing agri villages for local economic development on farms
 - ✓ Providing in basic needs of farm dwellers including water, sanitation, electricity, housing
 - ✓ Providing for security of tenure.
 - ✓ Increasing the pace of settling of Land Restitution claims
 - ✓ Effectively supporting the development of skills and competencies of rural people to utilise land in an effective manner (mentoring).

Strategic Objective 5: Protect biodiversity, water and agricultural resources

The protection of the biodiversity, water and agricultural resources involves the following actions:

- ❖ The Mpumalanga Biodiversity Sector Plan Guidelines should be made applicable to all land use zones
- ❖ Safeguard the protected, critical biodiversity areas and ecological support areas against mining, agriculture and urban development
- ❖ The protection of high potential and unique agriculture land against development
- ❖ Minimise the conflict between agricultural resources and coal mining and ensure food security
- ❖ Minimise the consumption of scarce environmental resources, particularly water, fuel, building materials, mineral resources, electricity and land. In the latter case especially pristine and other rural land
- ❖ Address water backlogs within communities and provide sufficient water to manufacturing, agriculture needs
- ❖ Address the scarcity of water and emerging negative water balances within the catchment areas attending to the following actions:
 - ✓ Increase return flows through treatment of urban and mining effluent and desalination
 - ✓ Water conservation
 - ✓ Recycling
 - ✓ Further development of surface water resources
 - ✓ Development of groundwater

The following environmental aspects need to be urgently attended to:

- ❖ Seepage from ash dumps
- ❖ Seepage from gold mining tail water dams
- ❖ Slime Dam breakage lines that have a negative influence to environment and human settlements
- ❖ Dust pollution from ash dumps and slime dams
- ❖ Environmental damage not attended to by rehabilitation
- ❖ Power line restrictions to future development

Strategic Objective 6: Infrastructure Investment

To maintain a balance between investment aimed at meeting social needs of communities, and investment aimed at promoting economic development and job creation and to reduce investment aimed at social upliftment over time

Basic Infrastructure

- ❖ Ensure efficient supply of water, electricity and waste management services to sustain additional industry growth.
- ❖ Eradicate backlogs in water and sanitation, electricity, housing Improve basic services and provide free water and electricity to poor households
- ❖ Provide green infrastructure e.g. water tanks, renewable energy (e.g. solar)
- ❖ Eradicate backlogs and maintain basic services

Social Infrastructure

- ❖ Social infrastructure/facilities includes education, health and emergency services, social and cultural facilities, social services, civil services, and recreational infrastructure
- ❖ Eliminate inequalities among and within communities
- ❖ Improve the quality of life especially of poor communities, provide for law and order, and enhance the stability of a community
- ❖ Promote equitable access to social services for all communities and contribute to the development of integrated and sustainable human settlements through the application of norms and standards for social infrastructure requirements.
- ❖ Ensure that sufficient land is reserved for these essential facilities.

Economic Infrastructure

- ❖ Focus on projects identified as Strategic Infrastructure Projects
- ❖ Concentrate investment in areas with potential for sustainable economic development.

Strategic Focus Areas:

- ❖ Meeting the social needs of communities
- ❖ To provide basic infrastructure in support of the social needs of communities
- ❖ Eradicate backlogs and improve water and sanitation, electricity, housing in all areas
- ❖ Provide green infrastructure in rural areas
- ❖ To enhance human capital development Improve and maintain education, health, sport facilities, etc. To enhance human capital development:
- ❖ Eradicate backlogs and improve social infrastructure in all areas
- ❖ Provide public and non-motorised transport and facilities to improve accessibility to urban functions and job opportunities
- ❖ Implement norms and standards for the provision of education facilities
- ❖ To eradicate backlogs and improve education
- ❖ Distribute the provision of other tertiary education and artisan training facilities to all primary and secondary nodes
- ❖ Initiate the alternative utilisation of facilities e.g. underutilised schools
- ❖ To eradicate backlogs and improve health
- ❖

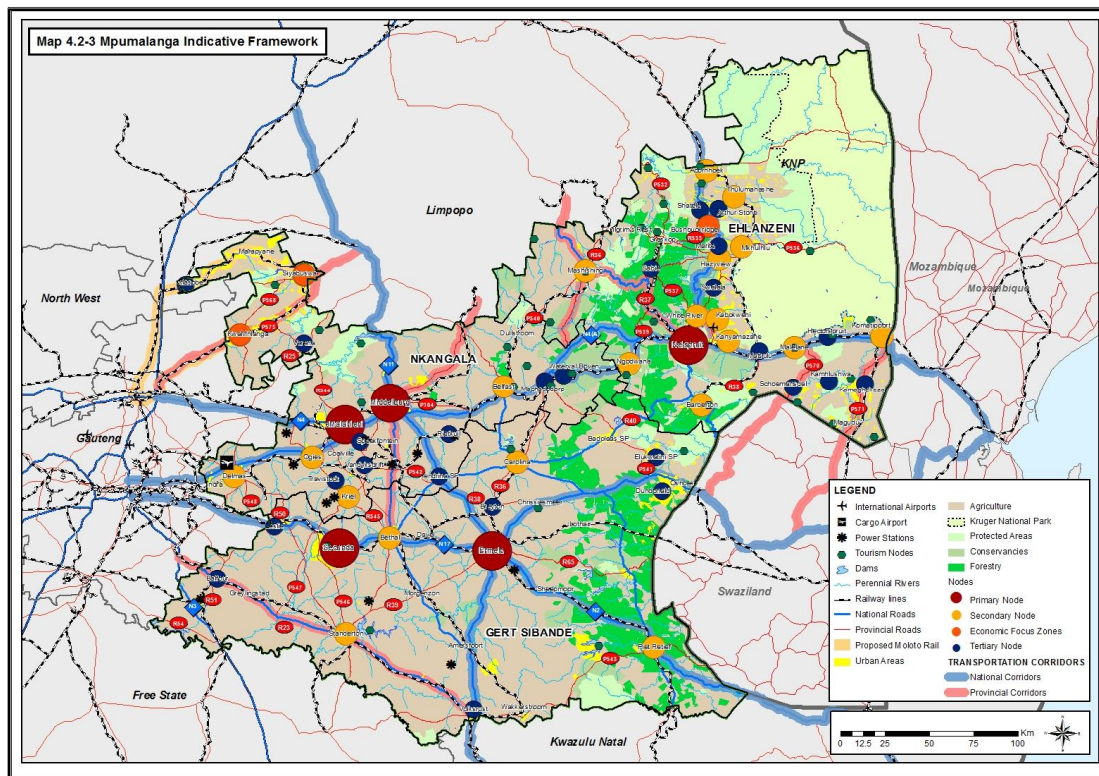

Focusing investment on economic infrastructure:

- ❖ Supporting the Secunda Embalenhle Development Corridor
- ❖ Supporting the Embalenhle Kinross Development Corridor
- ❖ Supporting the secondary regional development node of Bethal
- ❖ Supporting the tertiary development node of Leandra
- ❖ Enhancing the functional diversity of economic activity of these nodes in order to broaden the economic base of the province and to enhance service delivery to local and surrounding rural communities.

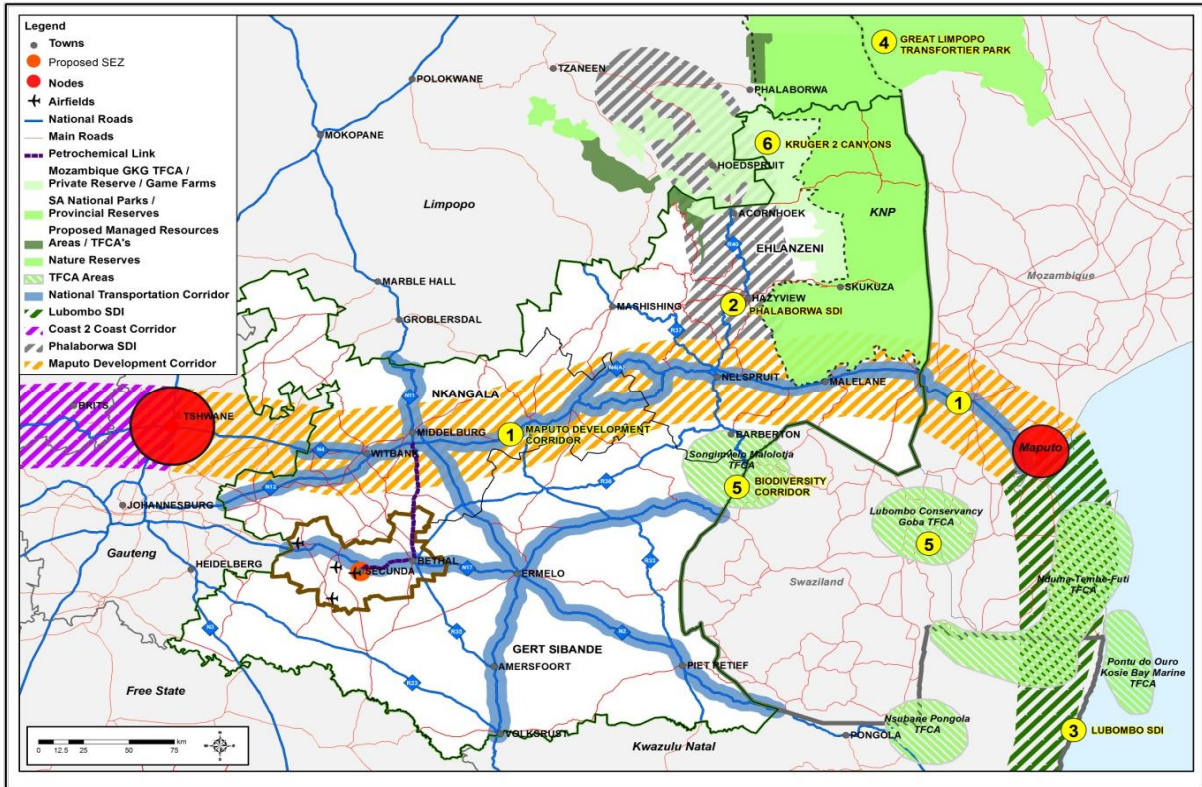

- ❖ Typical actions in this regard would include investment in agro industries, forestry related industries (where applicable), commercial and light industrial activity, business activity (office and retail) in well-managed Central Business Districts (CBDs), and government services
- ❖ Tourism related investment should be focused on Bethal
- ❖ Agriculture related investment should focus on supporting and maintaining existing commercial farming activities in the province in the areas where extensive commercial farming and large scale food production currently occurs in line with the objectives of the Comprehensive Rural Development Programme (CRDP). Typical investment in these areas should include:
 - ❖ Farming equipment, irrigation systems, agricultural training facilities (colleges) and the establishment of small local fresh produce markets which could lead to the establishment of small scale agro industries focusing on processing and/or packaging of local products before exporting it to larger centres
 - ❖ Artisan and other skills training initiatives and facilities
 - ❖ Social infrastructure in the form of centrally-located Thusong centres serving each of the CRDP areas, and which provide a comprehensive range of community facilities at a one-stop destination among these rural communities
 - ❖ Rural housing programmes are also to be consolidated around these Thusong centres which will not only improve the utilisation of the community facilities located here, but also create the “critical mass” required to enhance the potential for local economic development – including the fresh produce market and associated agro-processing activities.

7.7.2 THE FOLLOWING MAPS INFORM THE SIX (6) STRATEGIC OBJECTIVES AS TO PROVIDING SPATIAL STRATEGIC FOCUS

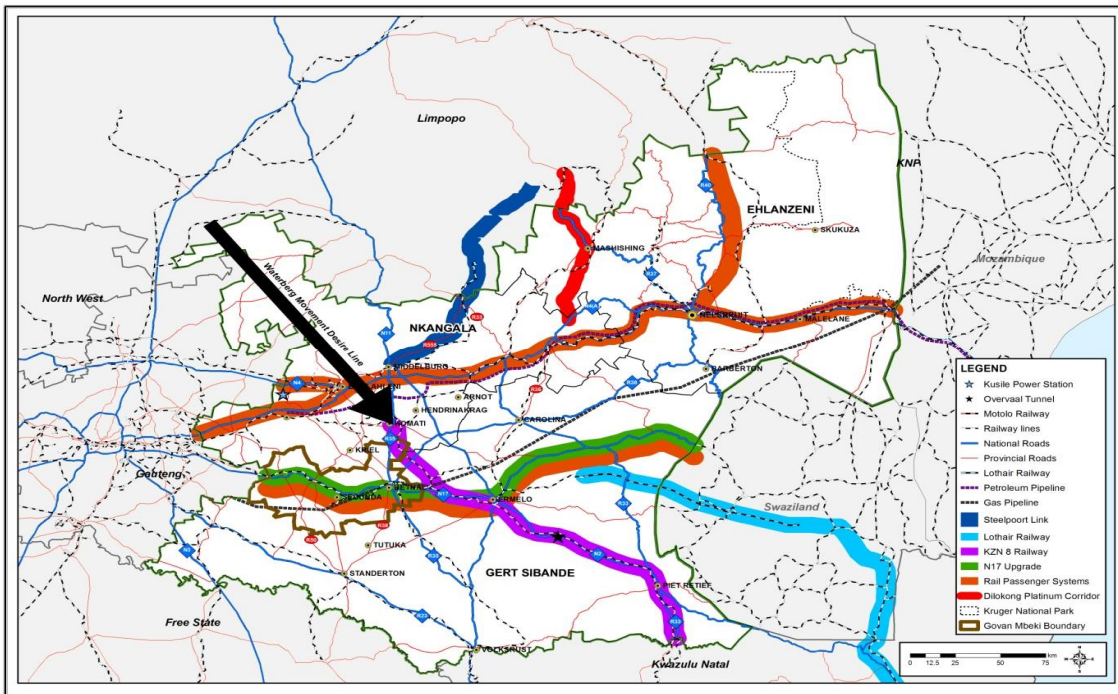

Map: Nodal and Corridor Development

Map: Regional Strategic Investment Initiatives

Map : Regional Strategic Investment Projects

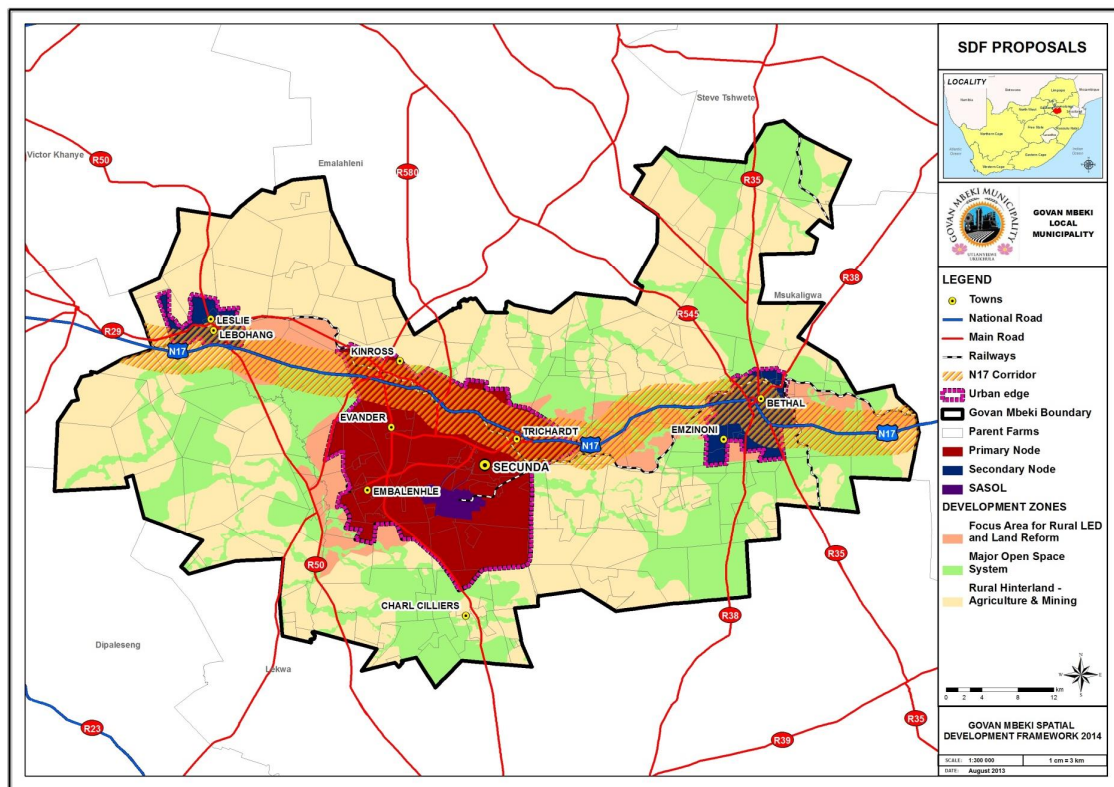

7.7.3 SPATIAL DEVELOPMENT CONCEPT

The Spatial Development Concept was formulated as a first step towards a spatial development strategy for Govan Mbeki. This Spatial Development Concept models spatial direction and context to future developments.

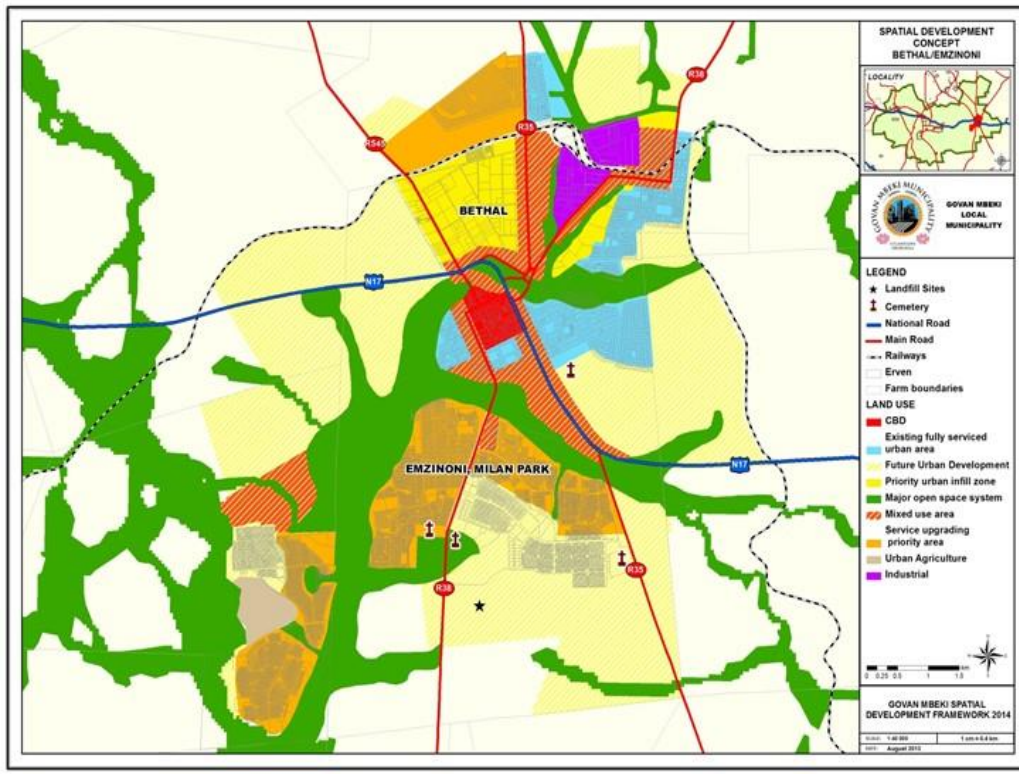

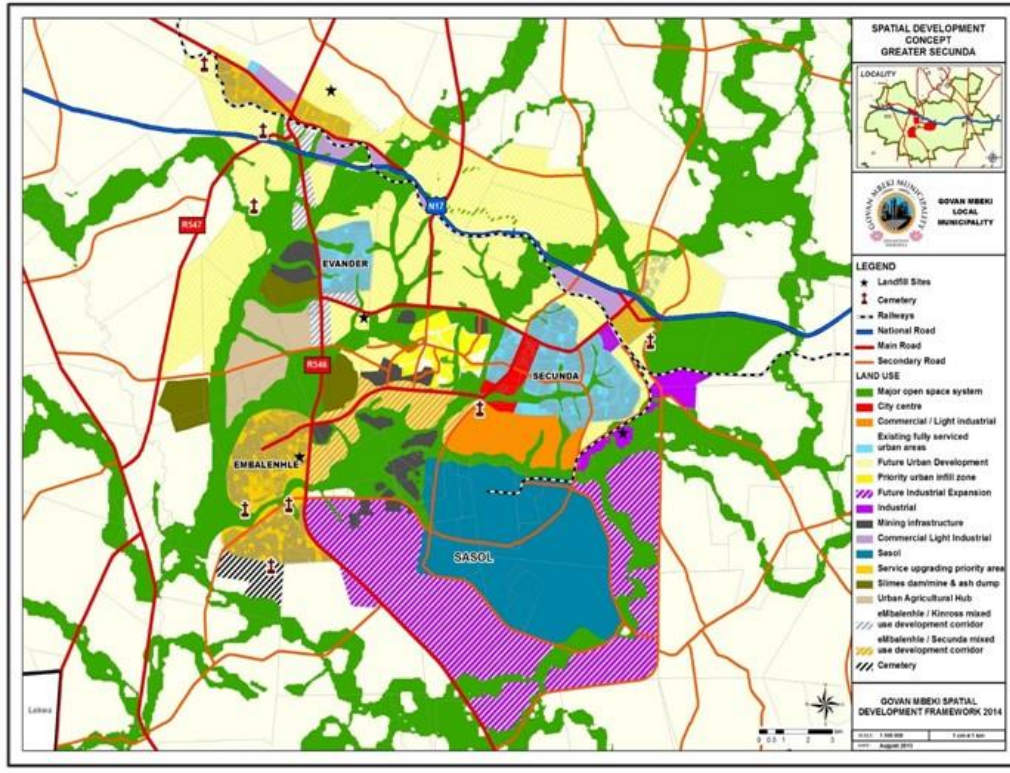

This Development Concept promotes, clarifies and refines the spatial development principles and development priorities supported by relevant policies and legislation and define the desired spatial form of Govan Mbeki.

The municipal-wide development concept are illustrated as per the following Maps:

MAPS SPATIAL DEVELOPMENT CONCEPT

MAPS SPATIAL DEVELOPMENT CONCEPT

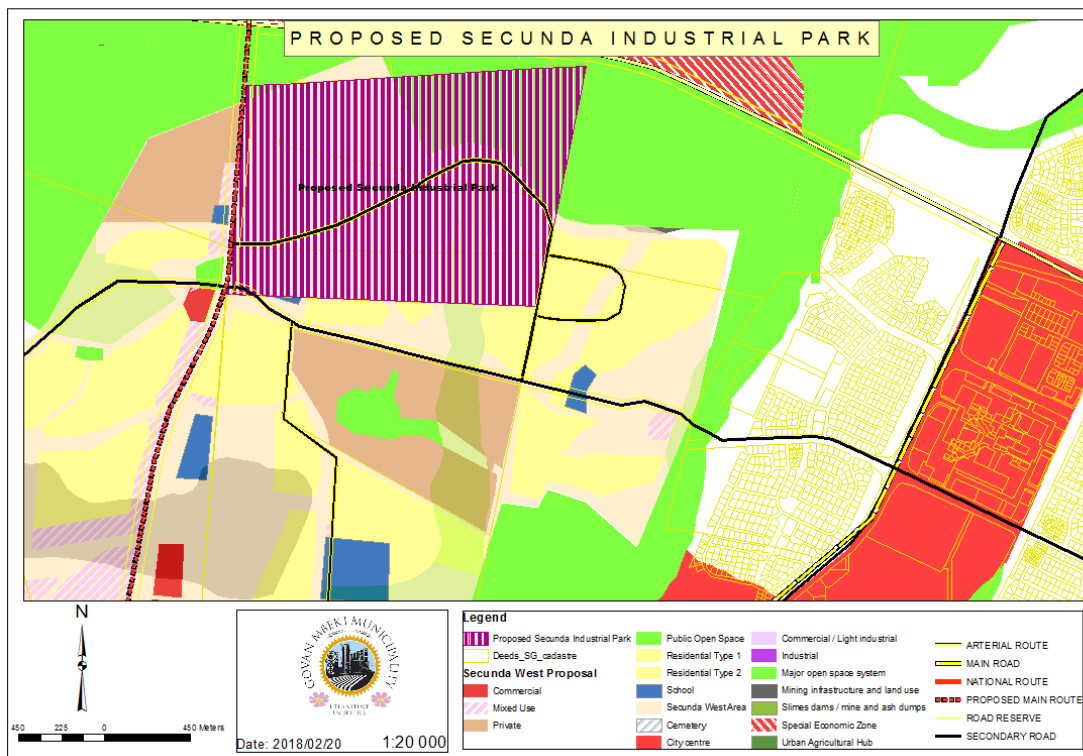

7.7.4 INDUSTRIAL PARK

Special Economic Zone (SEZ) is considered in Govan Mbeki Municipality. Consistent with the establishment of a Special Economic Zone in the municipality, an industrial park has been proposed. The proposed Industrial Park is to be located on an identified portion of land north west of Secunda. The land has been secured by Govan Mbeki Municipality, where the municipality is expected to contribute the land for the development of the industrial park.

The site comprises of approximately 200ha. The proposed site is linked by the R580 to the N17 (3.8 KM north of the proposed site). The R580 and R546 are provincial roads that appear to be in good condition based on the visual assessment. Both roads link the proposed site to the N17 that leads to Johannesburg in the west and Swaziland in the east.

An informal road connects the proposed site to Trichardt and Bethal via the N17.

7.7.5 Geographic Information Science

The current Municipal Geographic Information System (GIS) environment is a result of an initiative implemented by Gert Sibande District Municipality (GSDM) in 2005, to assist Local Municipalities with an operational GIS.

This initiative resulted in a Memorandum of Understanding between GSDM and Govan Mbeki Municipality (GMM), which provides a cooperative arrangement for the coordination and sharing of GIS data between these organizations. The Esri ArcGIS Geographic Information System (GIS) was introduced to the municipality as part of this initiative.

The GIS component is necessary for all aspects of municipal operations: integrated town and spatial planning, LED, backlog management, billing, management of the municipality's buildings, facilities, services and infrastructure assets, traffic planning, environmental management, revenue management, deeds and valuation role management, project and contractor management, a responsive and effective TOC/Call Centre, emergency response, etc.

A Geographic Information System (GIS) provides access to data through a map-based interface. It is an inherently horizontal technology, across all parts of the Municipality, with the benefit of providing a 'single source of information' platform for all spatial data..

The Maintenance to the GIS cadaster information is an ongoing process and is informed mainly from the valuation roll and SG registrations of land parcels.

The total number of Land Parcels on the cadaster on 01 July 2016 were 73 246, on 31 June 2017 were 71 898 and on 01 February 2018 were 72 072. This represent to show the fluctuation due to corrections made on the existing cadaster as a result of an investigation of 3 973 Land Parcels for correctness.

The investigation is informed by the inclusions on Valuation roll that is not on the cadaster and SG Diagrams received through Town and Regional planning section, which includes new developments, consolidation of land parcels, subdivisions and removal of duplications. Through this process we achieved a Linkage of 98% between GIS and Valuation roll and 94% between GIS and Billing data entries.

The GIS section also plays an important role in the street naming and numbering exercise. Various streets lack names and numbers which is necessary to assist in the drive to provide formal addresses and restore dignity to the residents of affected areas.

Overall integration of these systems is key to improved management of the organization and its resources, since the GIS supports the integration of spatial data from various sources, as well as enabling advanced spatial data analysis.

7.8 LOCAL ECONOMIC DEVELOPEMT (LED)

The concept of Local Economic Development (LED) "has been gaining prominence in development theory and practice over the last decade. As a result, numerous concepts and definitions on LED have emerged; partially overlapping, partially complementary and partially contradictory." As a concept, LED has gone through three phases as follows:

7.8.1 LED PHASES

Phase One

Focused strongly on the marketing of locations to external investors, often linked with incentive systems such as tax breaks, reduced costs of public services and infrastructure development.

Phase Two

Focus changed to endogenous economic potentials, striving to support the competitiveness of existing firms, promoting entrepreneurship and business start-ups, usually through entrepreneurship development and training programmes, business support and linkage mechanisms, providing access to finance, skills and rural development and sector development and support.

Phase Three

Is a more holistic approach which focuses on enhancing the individual business support and sector development approaches of the second phase. Its aim is to ensure that the entire business and community environment is more conducive to economic growth and development by providing a competitive local business environment, encouraging and supporting networking and collaboration between business and public / private and community partnership, facilitating workforce development and education, focusing inward investment to support cluster growth and, supporting quality of life improvements through decent jobs and business ventures.

7.8.2 Definition: Local Economic Development (LED) is defined as “an outcome based on local initiatives and driven by local stakeholders.” It involves identifying and using local resources, ideas and skills to stimulate economic growth and development.

The aim of LED is to create employment opportunities to the best of all local residents. The concept of LED is premised on two fundamental concepts, namely economic growth and, economic development. Economic growth is traditionally defined as the annual rate of increase in the total production or income in the economy.

Economic growth requires an expansion of the production capacity of the local economy, as well as an expansion of the demand of goods and services produced in the economy. Both the supply and demand factors are necessary for sustained economic growth. On the other hand, economic development refers to the improvement of the people’s living conditions. It entails an improvement in the quality of life of the majority of the population as a result of economic growth, the creation of employment opportunities, the reduction of inequality and the eradication of poverty.

The LED Strategy for Govan Mbeki Local Municipality is guided by the following LED characteristics;

- ❖ LED entails stakeholders in a locality being involved in different activities aimed at addressing a variety of socio-economic needs of the community.
- ❖ LED is implemented based on local competitiveness in the context of local, provincial, national and global economic dynamics.
- ❖ The facilitation approach is at the heart of municipal LED planning, implementation, monitoring and evaluation; supported by systemic thinking principles.

7.8.3 Principles underpinning the LED Strategy and Cycle of Development

- ❖ Local Economic Development (LED) will not be successful in the absence of an appropriate asset base, infrastructure and delivery of basic services to business, rural and urban communities
- ❖ Local Economic Development will not be successful in the absence of appropriate, synergistic and integrating mechanisms at local, district, provincial and national levels;
- ❖ Local Economic Development success is positively related to the extent to which a location is able to equitably distribute benefits and proceeds from economic activity thereby addressing the community's socio-economic challenges;
- ❖ In under-developed areas (particularly rural and farming communities), value creation and generative growth are important to kick-start Local Economic Development;
- ❖ Local Economic Development success is positively related to the embeddedness of the location in value chain networks, within and across sectors and spaces;

There are systemic relationships affecting LED between assets and infrastructure, value chain embeddedness, distributive capacity, rent accrual and integrating mechanisms.

In the South African context, Local Economic Development seeks to achieve social cohesion.

The National Development Plan's (NDP) Cycle of Development presupposes the ultimate goal for development in South Africa is social cohesion through formulation and implementation of clear policies and planned action around poverty reduction, economic growth, job creation and rising living standards.

The above development objectives are best achieved in the context of active citizenry, good leadership and effective government that in turn produces capabilities, opportunities and conditions for development within communities as captured in the National Development Plan (NDP).

7.8.4 PROPOSED LED INITIATIVES OVER 5 YEAR IDP 2017-2022

LED Strategy Implementation

❖ Industrialisation programme

Industrialisation of Govan Mbeki will focus on manufacturing of a number of products from the SASOL petro-chemical activities (thought to be around 75). In addition, mining and agriculture sectors as well as SASOL activities use and require machinery, equipment and consumables in their everyday operations. The industrial park project seeks to establish a hub for production of these and other manufacturing related products.

❖ Tourism Development Programme

The Bethal-Potato-Festival has both historical and political connotations and stands out as a reminder to the ills of Apartheid. This project focuses on reviving the once popular festival which was abandoned. However, project implementation must consider the past in the context of current political, economic and social realities, i.e. it should not be implemented in its old previous form.

❖ **Logistics and Warehousing Programme**

This project seeks to establish facilities or warehouses for a number of commodities that are in high demand within Govan Mbeki Local Municipality

❖ **Education and Training Programme**

Mining and SASOL petro-chemical manufacturing activities within Govan Mbeki require engineering and other technical skills. The project focuses on establishment of Mpumalanga University Satellite Campus on engineering related programmes

❖ **SMME/COOPS Incubation**

This project seeks to establish a “farming community” housing animal rearing, crop production and related agro-processing activities. It is a learning centre of excellence with many services offered to emerging SMME and cooperative enterprises. Acquisition of a sizeable farm is critical for the establishment of this ‘Centre of Excellence’

❖ **Accelerated Local Economic Development Framework**

This programme is aimed at providing SMME’S access to tools and services that will enhance their performance and therefore enable them to access local and national procurement opportunities. It include the following programmes:

❖ **The enterprise and supplier development programme**

The programme is relevant to the municipality’s efforts towards job creation. Note should be taken that SMME’s contribute 60% towards employment, hence the need to develop more to enable a production linked training to unemployed.

❖ **The Business Development Hub**

The programme will focus on extending the value chain of CSI programmes emanating from local big business.

The hub will be to locally work with the community to serve as an extension of the operations of the LED Forum by engaging the industries to ensure that employment is coordinated from the community to service the industries.

❖ **The contractor support and development programme(BBBEE Initiative)**

There is a compelling need to elevate development of previously disadvantaged individuals and enterprise, and leadership is required to establish the framework for the development of previously disadvantaged individuals and enterprises to stimulate the role of industry and stakeholders for meaningful empowerment and improved contractor performance.

Capacity building to small business

- ❖ skills training in collaboration with other agencies

Coordination of citizen participation to promote developmental local government

- ❖ LED FORUMS
- ❖ Working Groups

7.9 SLP PROJECTS 2018/2019

Mineral and Petroleum Resources Development Act, Act 28 of 2002 requires that the mining houses must invest in communities where they operate and their labour sending areas through projects that attempts to address socio-economic challenges, poverty, underdevelopment and local economic development in general. The identified projects are listed below:

SLP PROJECTS 2018/2019							
No	Project Name	FY	Approval status	Ward	Funding Source	Amounts	Estimated Completion date
1	Enterprise Development(Bakery and confectionery)	2016-2017	Approved	12- Ext 14	Pan African Resources	R500 000	Support is ongoing
2	Internship Programme	2016-2017	Approved	All	Pan African Resources	R 300 000	Internal processes to be completed by January 2018.
3	Phase 2 construction of storm water channel in Leandra.	2016-2017	Approved	3 -Ext. 10-12	Sasol	R 1 200 000	By March 2018
4	Maths and Science project	2016-2019	Agreed	all	Anglo Coal	R 5 000 000	December 2017
5	Construction of a multi-purpose centre	2016-2017	Approved	10 -Charl-Cilliers	Sasol	R 4 000 000	End of November 2017
6	Sakhisizwe bridge	2016-2017	Approved	17-Sakhisizwe Farm.	Sasol	R 4 000 000	March 2018
7	Houses EXT.13 Emzinoni	2016-2017	Approved	26- Ext 13	Sudor Coal	R 4 400 000	Completed December 2016
8	Construction of a Community Hall Emzinoni	2016-2017	Approved	Ward 26 Ext 23	Shanduka Coal	R1 500 000	Date will be determined by work plan program
9	Energy efficiency lights	2016-2017	Approved	Emba-Ward 04-09-11-19. Emzinoni 223-24-26-27-28	Sasol	R6 000 000	N/A
10	Storm water channel and roads /electricity upgrade embalenhle	2016-2019	Agreed	31-Ext 17	Anglo Coal	R11 000 000	N/A

SLP PROJECTS 2018/2019							
No	Project Name	FY	Approval status	Ward	Funding Source	Amounts	Estimated Completion date
11	Upgrade Bethal Dam	2016-2019	Agreed	28- Ext 5	Anglo Coal	R 3 500 000	N/A
12	Leandra Sewer Network	2016-2019	Agreed	1 -Ext 1	Anglo Coal	R 5 000 000	N/A
13	Emba Ext15 reservoir	2016-2019	Agreed	26- Ext. 24	Overlook Colliery	R 4 104 000 00	N/A
14.	Construction of storage tank and re-sealing of leaking Bethal East reservoir	2017-2020	Agreed	Bethal East	Exxarro	R3 000 000	Project to commence in 2018, project life cycle will indicated after the scope is finalised.
15.	Charl Cilliers Water pipe and housing connections	2015-2019	Agreed	Charl Cilliers	Sasol	R11 800 000	N/A

7.10 Expanded Public Works Programme (EPWP)

The Expanded Public Works Programme (EPWP) has its origins in Growth and Development Summit (GDS) of 2003. At the Summit, four themes were adopted, one of which was 'More jobs, better jobs, decent work for all'. The GDS agreed that public works programmes 'can provide poverty and income relief through temporary work for the unemployed to carry out socially useful activities'.

The Programme is a key government initiative, which contributes to Governments Policy Priorities in terms of decent work and sustainable livelihoods, education, health; rural development; food security and land reform and the fight against crime & corruption.

EPWP subscribes to Outcome 4 which states "Decent employment through inclusive economic growth. "In 2004, the EPWP was launched and is currently still being implemented.

The EPWP is a nationwide programme covering all spheres of government and state-owned enterprises.

The Programme provides an important avenue for labour absorption and income transfers to poor households in the short to medium-term. It is also a deliberate attempt by the public sector bodies to use expenditure on goods and services to create work opportunities for the unemployed.

EPWP Projects employ workers on a temporary or on-going basis either by government, by contractors, or by other non-governmental organisations under the Ministerial Conditions of the EPWP or learnership employment conditions.

7.11 HUMAN SETTLEMENT DEVELOPMENT PLAN

The Govan Mbeki Municipality (GMM) Municipal Human Sector Plan (MHSP), contains the development plan well, to ensure an integrated approach to human sector development.

This comprehensive document, incorporates elements from the Municipal IDP, Local Economic Development Strategy, GMM business plan, GMM Spatial Development Framework, GMM Land Use Management, as well as the National Upgrade of Informal Settlements Programme (NUSP)

“Every municipality must, as part of the municipality’s process of integrated development planning, take all reasonable and necessary steps within the framework of national and provincial housing legislation and policy to initiate, plan, co-ordinate, facilitate, promote and enable appropriate housing development in its area of jurisdiction”.

Importantly, this planning should include a local housing strategy and delivery targets.

Whilst housing is a concurrent legislative competence of national and provincial government in terms of Schedule 4, Part A of the Constitution (1996), the pivotal role of the local sphere in ensuring horizontal and vertical integration of human settlement delivery is acknowledged in housing-related legislation and policy.

The intention is to locate all national housing instruments at municipal level. As a result, the national accreditation and assignment framework sets out the Constitutional and legislative mechanisms for the decentralisation of the administration of national housing programmes.

Municipalities are required to take the lead role in negotiating the location of housing supply to facilitate spatial restructuring; facilitate a match between demand and supply of different state-assisted housing typologies; and ensure alignment of housing delivery, spatial planning, infrastructure investment, land use planning and management, transportation systems and social services provision. Municipalities are accredited or assigned responsibilities by provinces for the administration of national housing programmes in order to facilitate such integrated planning and delivery.

The GMM MHSP demonstrates the municipality’s plans, budget and organisational capacity to deliver on this mandate, in a progressive and value-adding manner.

7.11 .1 OBJECTIVES OF THE MHSP

The objectives of the Govan Mbeki Municipal MHSP are as follows:

- That human settlements planning reflects a broad range of community level needs and concerns and is based on credible data;
- The alignment of the municipality's plans with national and provincial human settlements plans and priorities
- To undertake human settlements planning as part of a broader, integrated and proactive urban management strategy of the municipality;
- To provide detailed human settlements projects plans within a clear implementation and funding strategy;
- To develop an institutional structure and unpack clear roles and responsibilities of relevant stakeholders critical to achieving integrated human settlements planning;
- To incorporate concepts of migration, local economic development, in the overall development of human settlements
- To provide a clear monitoring and evaluation framework for the human settlements function; and
- To develop a clear communications plan.

7.11.2 HUMAN SETTLEMENT PROJECT TO BE IMPLEMENT 2017-2022

The below table reflect on The Human Settlement Projects for implementation over the next 5 year period:

GOVAN MBEKI MUNICIPALITY HUMAN SETTLEMENTS: PROPOSED IDP PROJECTS AND PROGRAMMES FOR IMPLEMENTATION FOR THE FINANCIAL YEAR 2017/18- 2021/2022								
EMZINONI								
Area/region	Settlement	Ward	Programme/Instrument Required	Availability of prioritized list of potential beneficiaries	Estimated sites	EIA approval	Township Establishment	Remarks by Municipality
Outlying (rural/periurban)	Holfontein	18	Require the relocation program intervention as the land is privately owned	280	1500	No application	No proposal	Municipality request to be assisted with the Relocation Programme as this land is privately owned
Outlying (rural/periurban)	Mazakhele	17	Require rural subsidy programme intervention	48	50	No application	No proposal	Municipality request assistance with funding to undergo land development preparation and provision of Rural Subsidy Programme
Outlying (rural/periurban)	Informal Settlement 3	18	Relocation subsidy	0	30	No application	No proposal	municipality request assistance with funding to undergo land development preparation and provision of Rural Subsidy Programme

EMbalehlehle ext 13 mixed housing development situated in ward 7								

7.12 RURAL DEVELOPMENT

Govan Mbeki Municipality is considered to be peri-urban, hence the municipality is not part of the Comprehensive Rural Development Programme (CRDP) project roll out phases within Mpumalanga. It however needs to spatially accommodate the execution of the CRDP by promoting agrarian transformation, rural development and land reform.

7.13 INTEGRATED WASTE MANAGEMENT PLAN

The Govan Mbeki Municipality has jurisdiction over eight waste disposal sites namely the operational Secunda, Bethal, Evander, Leandra, Kinross, Bethal-Morenzon, eMbalenhle and Lebohang waste disposal sites.

Integrated waste management plan For Govan Mbeki Municipality was developed by Gert Sibande District Municipality 2014 and it was adopted by Council in October 2015. The Integrated Waste Management Plan (IWMP) is approved by Council in terms of resolution A83/10/2015 and is included as a sector plan in the 2016/2017 IDP.

In terms of one of the activities within the IWMP, a feasibility study was done during March 2016 on waste management facilities, specifically with the aim of developing a regional landfill site in Leandra with a central transfer station in Evander and mini-transfer stations (public drop off facilities) in all the regions.

The rationale behind the study is that the Secunda and Kinross landfill sites is running out of airspace with a remaining life between 2 and 8 years. The outcome of the feasibility study revealed and recommended the following:

- ❖ To maintain the status quo of the Bethal, Leandra Secunda and Kinross landfill.
- ❖ Since the feasibility study was concluded, the Department of Agriculture, Rural Development, Land and Environmental Affairs (DARDLEA) issued a closure license to the Kinross landfill and the municipality is granted a three year period to stop operations and to close and rehabilitate the site.
- ❖ The construction of a main transfer station in Evander (along the Secunda eMbalenhle road) and diverting all the waste from eMbalenhle, via the transfer station to Leandra in order to increase the lifespan of the Secunda landfill site.
- ❖ As Kinross landfill need to close within three years, the waste from Kinross can be diverted via the same transfer station to Leandra.
- ❖ Various public drop off facilities in all the regions is identified. The purpose of these facilities is to allow communities a safe disposal area close to their area and to minimize the rate of illegal dumping as no waste disposal facilities is available; example eMbalenhle.

In order to apply for external funding to develop waste management infrastructure, projects need to be included into the IDP.

7.14 DISASTER MANAGEMENT PLAN (DMP)

INSTITUTIONAL ARRANGEMENT

The ultimate responsibility for disaster management in the GMLM belongs with the Council in terms of section 55 (1) of the Disaster Management Act, Act 57 of 2002, while the Council under Council resolution PS20/2001 has delegated authority to the Executive Mayor to deal with disasters.

The Executive Mayor will decide whether or not to declare a disaster. The Head of the Disaster Management Centre and the Director Community Services provide support and coordination for all GMLM disaster operations. The Director Community Services will report to the Municipal Manager in the form of situational reports.

GMLM will exercise full authority over disaster operations, when the disaster situation exists entirely within the boundaries of its jurisdiction unless the disaster is reclassified as a provincial or national disaster. In this instance the Govan Mbeki Joint Operations Centre (JOC) will be established as per the instructions of the Head of the Disaster Management Centre.

The establishment of the municipal Disaster Management Centre is a legislative requirement.

The Govan Mbeki Local Municipal Disaster Management Centre is situated at Secunda Fire Station. A Manager with the title: Manager: Disaster Management Centre is responsible for all the activities of the Centre on a corporate level. The Manager reports directly to the Head of the Department.

The Centre deals mainly with the following:

- ❖ Implementation of a Geographical Information System
- ❖ Volunteers training and Administration
- ❖ Research
- ❖ Corporate disaster response
- ❖ Corporate risk reduction
- ❖ Corporate early warning systems
- ❖ Disaster financing
- ❖ Managing of disasters, which include resource lists and logistical arrangements.

If more than one municipality is affected or if there is a very serious disaster, the District disaster management centre, provincial disaster management centre (PDMC) and the national disaster management centre will be notified; but it will not necessarily assume control of all functions. The DDMC and PDMC may decide not to take full control of the activities relative to the affected area.

In case of the threat or actual impact of a very destructive, widespread disaster in the GMLM, which covers an extended time period, the entire disaster management centre may be activated.

7.14.1 POLICY STATEMENT DISASTER MANAGEMENT

The GMLM is committed to maintaining a vigilant state of disaster preparedness, response, rehabilitation and reconstruction within a safe and sustainable framework for the residents, staff, stakeholders and neighbours, because all are susceptible to disasters. Enlightened self-interest tells us that to be prepared is the greatest weapon against disaster.

In recognition of the possibility of both small and large disasters, the Disaster Management Centre devised the following plan to ensure that appropriate actions are taken in the event of a disaster. This plan provides stakeholders with a set of disaster priorities, emergency procedure guidelines, lists of personnel and geographical information (GIS). It will be updated annually to ensure accuracy and currency.

7.14.2 THE MUNICIPAL DISASTER RISK MANAGEMENT PLAN

The Municipal Disaster Risk Management Plan is designed to establish the framework for implementation of the provisions of the Disaster Management Act, 57 of 2002, as well as the related provisions of the Municipal Systems Act, 32 of 2000.

The purpose of the Municipal DRM Plan is to outline policy and procedures for both the pro-active hazard and risk assessment, followed by disaster prevention (if possible), risk reduction, preparedness and the re-active disaster response, relief and rehabilitation phases of Disaster Risk Management. The Municipal DRM Plan is intended to facilitate multi-agency and multi-jurisdictional co-ordination in both pro-active and re-active related programs.

The key issues facing the disaster management unit include the lack of fully operational disaster management centre and vast rural areas which make the provision of effective services difficult, concentration of industries surrounded by residential suburbs, climate change, large number of informal settlements and insufficient of safety awareness and education.

The Climate change already causes and will continue to cause a number of challenges which are linked to global impact such as increased temperatures, extreme weather events (flooding and draught) and climate vulnerability.

The location of the municipality and its large manufacturing and mining sectors makes it vulnerable to various forms of disasters. Ensuring the safety of citizens it is therefore utmost important that the municipality must develop a disaster risk management plan that will protect its citizens.

7.14.3 DISASTER MANAGEMENT STRATEGY

The main strategy of all disaster management activities will be disaster risk reduction. A risk reduction strategy will ensure alignment with the strategies adopted internationally.

CHAPTER 8 INTERGOVERNMENTAL ALIGNMENT AND SECTOR DEPARTMENTS INVESTMENTS IN MUNICIPAL SPACE

The municipality fosters relations with other spheres of government and participates in various intergovernmental activities to promote a closer working relationship between the various spheres of government.

Intergovernmental Relations takes place in terms of our Constitutional Mandate and other relevant legislation, most importantly the Intergovernmental Relations Framework Act.

The main purpose of IGR in the Municipality is to co-ordinate, facilitate and intervene between the various functions and responsibilities of the different spheres of government as well as interactions with parastatals and other stakeholders within our functional sphere in order to influence the effective delivery of our mandate.

These various intergovernmental structures contribute towards finding solutions for service delivery challenges through reaching agreements between municipalities and sector departments on service delivery.

Council is of the view that these relationships can assist in enhancing government's services to the communities of the Municipal Area. Govan Mbeki municipality also participates in the Back 2 Basics programme of the Department of Co-operative Governance & Traditional Affairs and diligently submit its monthly report in this regard.

The Municipality strives to uphold its legislative authority and co-operative governance as required by the Constitution and other relevant legislation.

In doing so, the municipality maintains good co-operative and intergovernmental relations with its district and neighbouring municipalities, provincial authority, national government and intergovernmental agencies.

The Municipality participates in various Intergovernmental Relations activities in the district and at provincial level. Municipal officials and Councillors are delegated to serve on the various forums as listed per below table:

INTERGOVERNMENTAL RELATIONS FORUMS:		
Forum	Frequency	Department
Municipal Managers Forum	Quarterly	Office of the Municipal Manager
SALGA Working Groups, NCOP, FFC	Quarterly	Relevant Department and Portfolio Councillor
Premiers Co-ordinating Forum (PCF)	Quarterly	Office of the Executive Mayor and Office of the Municipal Manager
MinMay	Quarterly	Executive Mayor

INTERGOVERNMENTAL RELATIONS FORUMS:		
Forum	Frequency	Department
MinMay-tech	Quarterly	Municipal Manager
Communication Forum	Quarterly	Office of the Municipal Manager
Monitoring and Evaluation Forum	Quarterly	Planning and Development
Provincial Skills Development Forum	Quarterly	Corporate Services
Disaster Management Forum	Quarterly	Community Services
Local Economic Development Forum	Quarterly	Planning and Development
DISTRICT INTERGOVERNMENTAL STRUCTURES		
District Co-ordinating Forum (DFC)	Quarterly	Office of the Mayor, Speaker ,MMC's, Office of the Municipal Manager and Directors
District IDP Managers Forum	Quarterly	Planning and Development

The development agenda of Govan Mbeki Municipality is to be understood and carried into the ambit of the broader international, national, provincial and district agenda. Section 24 (1) and (2) of the Municipal Systems Act provides the legislative framework for the enhancement of co-operative governance in municipal planning.

The Act states the following:

“(1) The planning undertaken by a municipality must be aligned with, and complement, the development plans and strategies of other affected municipalities and other organs of state so as to give effect to the principles of co-operative government contained in section 41 of the Constitution.

(2) Municipalities must participate in national and provincial development programmes as required in Section 153(b) of the Constitution.”

It is, therefore, of paramount importance that municipal, provincial and national strategies which spearhead development and budgets (*financial resources*) need to be aligned and rationalised to support integration, coordination, planning and implementation across spheres of government with regard to intergovernmental priorities. This chapter outlines the alignment of the Strategic Development Objectives and Strategies of Govan Mbeki Municipality with those of National and Provincial Government.

The short and long term investment commitments of National and Provincial Government Departments on infrastructure development and service improvements within our municipal space are also reflected. One of the key objectives of IDP is to ensure alignment between national and provincial priorities, policies and strategies (as listed per below alignment table)

8.1 ALIGNMENT TABLE OF MUNICIPAL, PROVINCIAL AND NATIONAL AND STRATEGIC OBJECTIVES

The below alignment table summarises the integration the strategic objectives of Govan Mbeki Municipality with the objectives of key national, provincial and regional strategies as follows:

HORIZONTAL ALIGNMENT TABLE OF MUNICIPAL, PROVINCIAL AND NATIONAL AND STRATEGIC OBJECTIVES

GOVAN MBEKI MUNICIPAL STRATEGIC OBJECTIVES			PROVINCIAL GOVERNMENT MPUMALANGA PROV-(DPLG)STRATEGIC OBJECTIVES	CABINET LEKGOTLA (2010) NATIONAL OUTCOMES	NATIONAL DEVELOPMENT PLAN (VISION 2030)	
MUNICIPAL KEY PERFORMANCE AREAS	STRATEGIC OBJECTIVE	PRE DETERMINED OBJECTIVE (PDO'S)				
KPA 1: Financial Viability	To enhance revenue & secure financial sustainability	<ul style="list-style-type: none"> ▪ To protect and enhance revenue ▪ To reduce operational expenditure ▪ Ensure sound asset management. ▪ Ensure value-for-money capital expenditure ▪ Review and streamline SCM processes ▪ Develop and implement a funding model. 	Key Priority Area 5: Good Governance Strategic Thrust: <ul style="list-style-type: none"> ▪ Enhance and develop the institutional capacity of the public sector to ensure effective and efficient service delivery ▪ Promote and enhance cooperative governance for integrated service delivery ▪ Promote a culture of accountability and transparency in the public sector ▪ Improve integrated service delivery through innovative and proactive practices ▪ Strengthening of social partnerships and community participation in development and service delivery 	OUTCOME 9 Response and accountable, effective and efficient local government system	ROLE OF MUNICIPALITY <ul style="list-style-type: none"> ▪ Adopt IDP planning processes appropriate to the capacity and sophistication of the municipality ▪ Implement the community work programme ▪ Ensure ward committees are representative and fully involved in the municipality's community consultation processes ▪ Improve municipal financial and administrative capacity by implementing competency norms and standards and acting against incompetence and corruption 	FIGHT CORRUPTION <ul style="list-style-type: none"> ▪ Centralise the awarding of large tenders or tenders that run for a long time ▪ Take political and legal steps to stop political interference in agencies fighting corruption ▪ Set up dedicated prosecution teams, specialist courts and judges

KPA 2: Sustainable Physical Infrastructure and Improve Customer Care Services	To provide sustainable services, optimise operations and improve customer care	<ul style="list-style-type: none"> Improve energy efficiency Plan, construct and maintain roads and stormwater Plan, construct and maintain water and sanitation Plan, construct and maintain waste infrastructure Plan, construct and maintain public facilities 	Key Priority Area 2: Development Infrastructure Strategic Thrust: <ul style="list-style-type: none"> The development of multi-faceted infrastructure to address basic needs and improve the quality of life 	OUTCOME 6 An efficient, competitive and responsive economic infrastructure network.	ROLE OF MUNICIPALITY <ul style="list-style-type: none"> Ring-fence water, electricity and sanitation functions so as to facilitate cost-reflecting pricing of these services Ensure urban spatial plans provide for commuter, rail corridors, as well as other modes of public transport Maintain and expand water purification works and waste water treatment works in line with growing demand Cities to prepare to receive the devolved public transport function. Improve maintenance of municipal road networks 	EXPAND INFRASTRUCTURE <ul style="list-style-type: none"> Enable exploratory drilling to see whether there are viable coal seam and shale gas reserves, while investigations continue to make sure that operations do not damage the environment Move Eskom's system operator, planning, power procurement, power purchasing and power contracting functions to the independent system and market operator Closely regulate the electricity maintenance plans of large cities Set up an investment programme for water resource development, bulk water supply and wastewater management this year, with reviews every five years Improve and cut the cost of internet broadband by changing the regulatory framework
	To provide sustainable services, optimise operations and improve customer care	<ul style="list-style-type: none"> Provide sustainable, reliable, affordable water, sanitation services to all Provide sustainable, reliable, affordable electricity to all residents Provide sustainable, reliable, affordable waste disposal to all residents Develop, implement maintain sound relations with all customers Ensure access to safe and affordable public transport Develop, implement a branding plan Develop effective efficient building plan development application 	Key Priority Area 2: Development Infrastructure Strategic Thrust: <ul style="list-style-type: none"> The development of multi-faceted infrastructure to address basic needs and improve the quality of life 	OUTCOME 6 An efficient, competitive and responsive economic infrastructure network. OUTCOME 2 A long and healthy life for all South Africans	ROLE OF MUNICIPALITY <ul style="list-style-type: none"> Ring-fence water, electricity and sanitation functions so as to facilitate cost-reflecting pricing of these services Ensure urban spatial plans provide for commuter rail corridors, as well as other modes of public transport Maintain and expand water purification works and waste water treatment works in line with growing demand Cities to prepare to receive the devolved public transport function. Improve maintenance of municipal road networks Continue to improve community health service infrastructure by providing clean water, sanitation and waste removal services 	EXPAND INFRASTRUCTURE <ul style="list-style-type: none"> Enable exploratory drilling to see whether there are viable coal seam and shale gas reserves, while investigations continue to make sure that operations do not damage the environment Move Eskom's system operator, planning, power procurement, power purchasing and power contracting functions to the independent system and market operator Closely regulate the electricity maintenance plans of large cities Set up an investment programme for water resource development, bulk water supply and wastewater management this year, with reviews every five years Fix and build transport links, in these key areas:

						<ul style="list-style-type: none"> Expand the coal, iron ore and manganese lines. Build the N2 road through the Eastern Cape Improve and cut the cost of internet broadband by changing the regulatory framework
KPA 3: Economic Growth and Development	<p>To facilitate and create an enabling environment for diversified local economic development, social cohesion and job creation</p>	<ul style="list-style-type: none"> To plan, execute enterprise development To plan, execute tourism enhancement To plan execute green economy projects To plan, execute skills development To plan, execute rural and agricultural To plan, execute urban renewal projects To plan, execute rural agricultural development 	Key Priority Area 1: Economic Development Strategic Thrust: <ul style="list-style-type: none"> Enhance Provincial economic development to improve the quality of life for all 	OUTCOME 4 Decent employment through inclusive economic growth	ROLE OF MUNICIPALITY <ul style="list-style-type: none"> Create an enabling environment for investment by streamlining planning application processes Ensure proper maintenance and rehabilitation of essential services infrastructure Ensure proper implementation of the EPWP Design service delivery processes to be labour intensive Improve procurement systems to eliminate corruption and ensure value for money Utilise community structures to provide service 	CREATE JOBS <ul style="list-style-type: none"> Create 11 million more jobs by 2030 and Expand the public works programme Lower the cost of doing business and costs for households Help match unemployed workers to jobs Provide tax subsidy to businesses to reduce cost of hiring young people Help employers and unions agree on starting salaries Make it possible for very skilled immigrants to work in South Africa Make sure that probationary periods are managed properly Simplify dismissal procedures for performance or misconduct Take managers earning above R300, 000 out of the CCMA process Reward the setting up of new businesses, including partnering with companies Increase value for money for tourists by selling regional packages that meet all pocket sizes. Consider a single visa for SADC visitors Deal with confusion over policies to do with transport, water, energy, labour and communications

<p>KPA 4: Institutional Transformation</p>	<p>To enhance the capacity of human capital and deliver institutional transformation</p>	<ul style="list-style-type: none"> ▪ Assess, review, and address the human capital and skills ▪ Establish an effective, efficient PMU , develop PM skills ▪ Develop, implement an effective, efficient PMS ▪ Review processes procedures for effective IT service ▪ Review processes procedures - effective service ▪ Review, provide the required municipal facilities ▪ Review, plan provide for the required equipment vehicle 	<p>Key Priority Area 6: Human Resource Development Strategic Thrust:</p> <ul style="list-style-type: none"> ▪ Invest in people’s skills to promote service delivery economic growth and development ▪ To position higher education institutions to meet the skills demand of the Province ▪ Improve access to and ensure quality education 	<p>OUTCOME 5 A skilled and capable workforce to support an inclusive growth path.</p>	<p>ROLE OF MUNICIPALITY</p> <ul style="list-style-type: none"> ▪ Develop and extend intern and work experience programmes in municipalities ▪ Link municipal procurement to skills development initiatives 	<p>TRANSFORMATION AND UNITY</p> <ul style="list-style-type: none"> ▪ The Bill of Responsibility, developed by the Department of Basic Education and others, should be popularised and used as a pledge by all South Africans to live the values of the Constitution ▪ Encourage all South Africans to learn at least one African language ▪ Employment equity and other redress measures should continue and be made more effective.
---	--	--	---	--	---	--

CHAPTER 9: IMPLEMENTATION AND MONITORING OF THE IDP

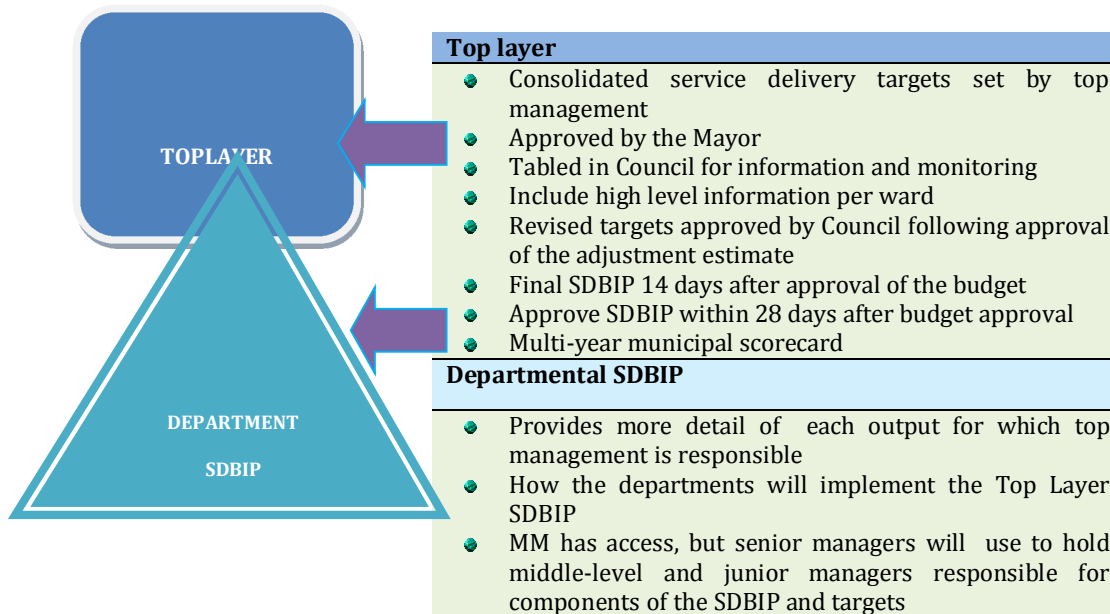

The SDBIP is one element of the continuous planning, implementation and reporting cycle that aims to achieve Council's Vision and Mission as well as the strategic objectives contained in the Integrated Development Plan (IDP).

The Service Delivery Budget Implementation Plan (SDBIP) is a management, monitoring and implementation tool for all stakeholders. It assists the Municipal Manager to monitor the performance of Senior Managers, the Mayor to monitor the performance of the Municipal Manager, and the community to monitor the performance of the Municipality as a whole. One key function of the SDBIP is that it holds management responsible and accountable to its objectives.

The overall performance of the municipality is managed and evaluated by a Municipal scorecard (Top Level SDBIP) at organisational level and through the detailed Departmental Service Delivery Budget Implementation Plan (SDBIP) at Departmental levels through which the organisational performance will be evaluated.

The municipal scorecard is of a high-level nature, as it's dealing with consolidated service delivery targets set by Council and linking such targets to top management. It therefore provides an overall picture of performance for the municipality as a whole, reflecting performance on its strategic priorities and also facilitates the oversight over financial and non-financial performance of the municipality

9.1 The SDBIP Concept: A Practical Perspective

The SDBIP therefore serves as a contract between the administration, council and community. The SDBIP is a key management, implementation, and monitoring tool, which provides operational content to the end-of-year service delivery targets set in the budget and IDP. It determines the Performance agreements for the municipal manager and all top managers, whose performance can then be monitored through section 71 monthly reports, and evaluated through the annual report process.

The development of the Service Delivery and Budget Implementation Plans (SDBIPs) is a requirement under the Municipal Finance Management Act (MFMA) and gives effect to the Municipality's Integrated Development Plan (IDP) and annual budget.

The SDBIP is an expression of the objectives of the Municipality, in quantifiable outcomes, that will be implemented by the administration for the municipal financial year. The SDBIP includes the service delivery targets and performance indicators for each quarter that should be linked to the performance agreements of senior management.

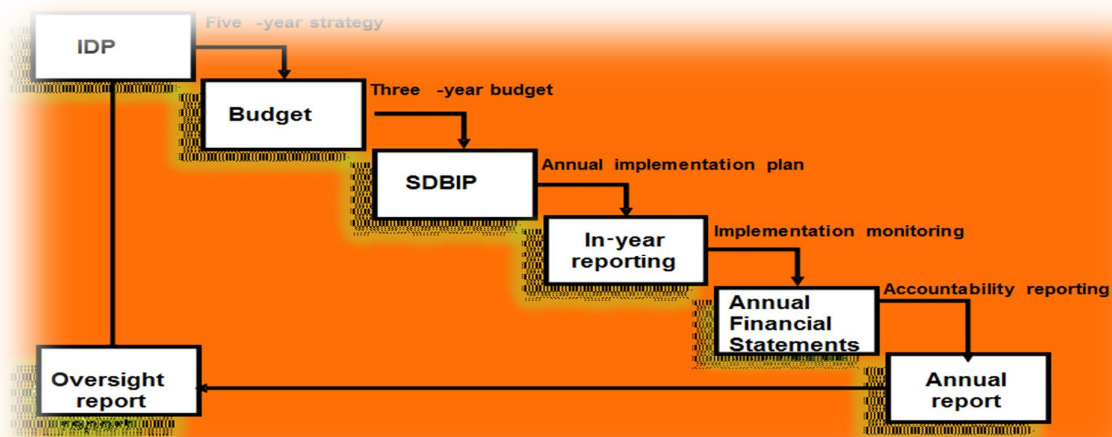

These are integral to the implementation and entrenchment of our performance management system. The SDBIP facilitates accountability and transparency of municipal administration and managers to the Council, and of Councillors to the community. It also fosters the management, implementation, and monitoring of the budget, the performance of top management, and the achievement of the strategic objectives as laid out in the IDP.

The SDBIP enables the Municipal Manager to monitor the performance of senior managers, the mayor to monitor the performance of the municipal manager, and for the community to monitor the performance of the Municipality, as each activity contains outputs, outcomes, and timeframes. The SDBIP is compiled on an annual basis, and is linked to the 5 year and 1 year organizational scorecards that are contained in the approved SDBIP. The SDBIP is yet another step forward to increasing the principle of democratic and accountable government at local level.

Development objectives are measured through key performance indicators at every level, and continuously monitored throughout the year. The SDBIP is in essence the management and implementation tool which sets in year information such as quarterly service delivery and monthly budget targets, and links each service delivery output to the budget of the Municipality. It further indicates the responsibilities and outputs for each of the senior managers and the top management team, the resources to be used, and the deadlines set for the relevant activities.

9.2 LINKING PLANNING, BUDGETING, IMPLEMENTATION

The process for linking planning, budgeting, implementation, monitoring and reporting are illustrated as per the below diagram:

9.3 ORGANISATIONAL AND INDIVIDUAL PERFORMANCE MONITORING

9.3.1 ORGANISATIONAL PERFORMANCE MANAGEMENT

The Performance Management System (PMS) serves as primary mechanism to monitor, review and improve the implementation of the municipal IDP and eventually the budget. As the focus shifts more and more to the performance of Local Government it remains a Challenge to implement and comply with changes to Legislation and Regulations that in many cases follow a singular approach, while neglecting the fact that Municipalities operate within vastly different environments with a varying amount of resources.

Despite facing these challenges the Municipality has improved its organisational performance system in the following manner:

- Implementation of Performance Management System by creating an organisational culture of performance monitoring and evaluation
- Setting Key Performance Indicators (KPI's) that are Reliable, Well-defined, Verifiable, Cost-effective, Appropriate and Relevant
- The developing and setting of targets that comply with the SMART principle by being Specific, Measurable, Achievable, Relevant as well as being Time-bound
- Regular reporting on organisational performance, to aid in the monitoring of performance and to identify instances where corrective actions may be needed
- On a strategic level the overall performance of the Municipality is managed and evaluated by a municipal scorecard (Top-Level SDBIP) at organisational level
- Operationally, performance is monitored via the Departmental Service Delivery Budget Implementation Plan (SDBIP) at departmental level

9.3.2 INDIVIDUAL PERFORMANCE MANAGEMENT

The performance of a municipality is integrally linked to that of its staff. It is therefore important to link organisational performance to individual performance and to manage both simultaneously.

MONITORING OF THE SERVICE DELIVERY BUDGET IMPLEMENTATION PLAN (SDBIP)

Performance is reported on a regular basis and it includes the evaluation of performance, the identification of poor performance and corrective actions to improve performance.

QUARTERLY REPORTS

Reports on the performance in terms of the Top Level SDBIP are generated and submitted to Council. This report is published on the municipal website on a quarterly basis.

MID-YEAR ASSESSMENT

The performance of the first 6 months of the financial year assessed and reported on in terms of section 72 of the MFMA. This assessment must include the measurement of performance, the identification of corrective actions and recommendations for the adjustments of PI's, if necessary.

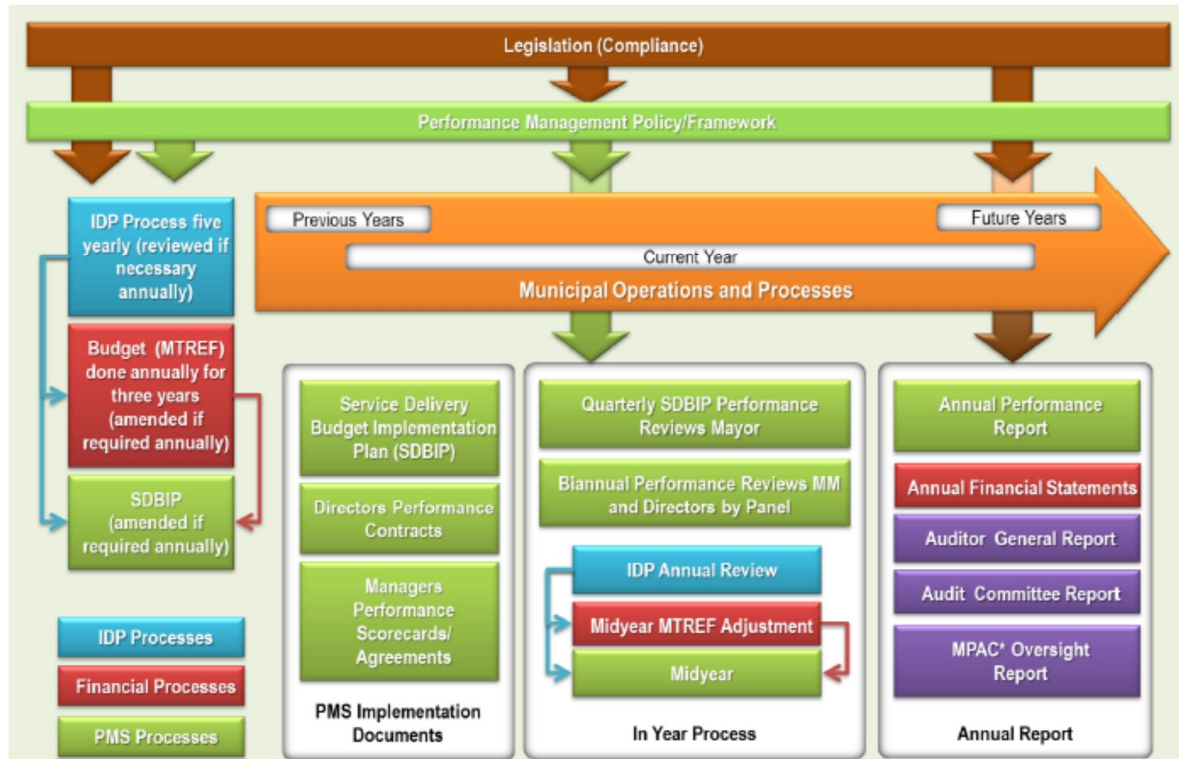

The format of the report complies with the section 72 requirements. This report is submitted to Council for approval before the end of January of each year and published on the municipal website.

ANNUAL PERFORMANCE REPORT

The municipal Council consider the annual report within nine months after the end of the financial year and adopt an oversight report containing the council's comments on the annual report.

9.3.3 LINK BETWEEN THE ORGANIZATIONAL AND INDIVIDUAL PERFORMANCE

The role and impact of the Performance Management of the Municipality is reflected in the diagram below:

The departmental SDBIP capture the performance of each defined department which reflects on the strategic priorities of the municipality.

The SDBIP provides detail of each outcome for which the senior management is responsible for, in other words a comprehensive picture of the performance of that department/sub-section.

9.4 DRAFT SDBIP 2018/2019

The SDBIP is one element of the continuous planning, implementation and reporting cycle that aims to achieve Council's Vision and Mission as well as the strategic objectives contained in the Integrated Development Plan (IDP).

Adoption of the Service Delivery and Budget Implementation Plan is a legislative prerequisite that requires the Executive Mayor to approve the SDBIP within 28 days after the final approval of the budget. Herewith as follows the Draft Municipal High-level 2018/2019 indicators and Targets:

CHAPTER 10 RISK MANAGEMENT IMPLEMENTATION STRATEGY

Risk management is an integral part of the Municipality as its main objective is to ensure that all challenges that may hamper the Municipality in achieving its objective are timeously identified and managed, the Municipality uses the following processes in the management of risk;

10.1 IDENTIFICATION OF RISK

The identification of risk is broken down into four components

Strategic risk

- ❖ Strategic risk is identified as per key performance areas found in the Integrated Development Plan

Operational risk

- ❖ Operational risk is identified as per key performance areas found in the Service Delivery Budget and Implementation Plan

Fraud risk

- ❖ Fraud risk is identified by analysing the Municipality environment as a whole

IT risk

- ❖ IT risk is identified by analysing the ITC environment of the Municipality

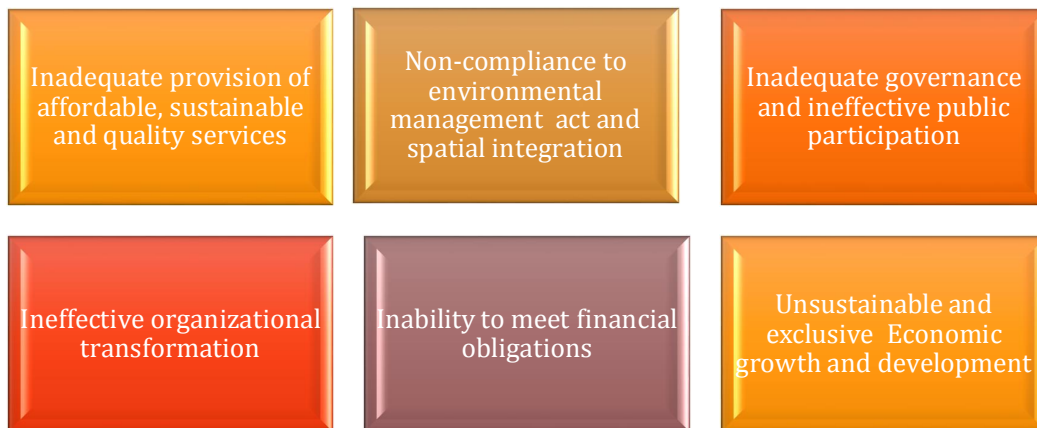

Risk is further identified through the analyses of the following documents;

- ❖ Auditor General Report
- ❖ MPAC Report
- ❖ Internal Audit report and
- ❖ IRMSA Report

10.2 RISK MANAGEMENT ROLE-PLAYERS

10.3 STRATEGIC RISK FACING THE MUNICIPALITY

When properly executed risk management provides reasonable, but not absolute assurance, that the Municipality will be successful in achieving its goals and objectives.

STRATEGIC RISK REGISTER

Risk No.	KPA	Strategic Objectives - Planned Output	Risk - Threat to achieving Objectives -Planned Output	Root Cause/Contributing Factors	Consequences	Risk Assessment		Inherent Risk	Current Controls	Control Effectiveness	Risk Assessment		Residual Risk	Future Action - Treatment Plan	Risk Owner	Action Owner
						Impact	Likelihood				Impact	Likelihood				
SR 1	Financial sustainability	To enhance revenue and secure financial sustainability	Inability to meet financial obligations	1.Insufficient cash flow 2.Ineffective cost management 3.Ineffective implementation of the Revenue enhancement strategy 4.Inadequate implementation of credit and debt control policy 6. Inaccurate billing system. 7. High water distribution losses 8 High energy distribution losses	1. Inability to provide services 2. Non compliance 3. Possible administration 4. Service delivery protests	5	5	25	> Revenue enhancement strategy > Financial policies and procedures in place >Infrastructure related by-laws > Sec 71 reports > Data cleansing > >Indigent policy and register >Revenue enhancement Committee >Installation of split meters >Appointed the service provider to disconnect the illegal connections	20 %	5	5	25	1. & 3. Implement the revenue enhancement strategy 1.2 Revenue correction 2.1 Conduct cost analysis of Council activities 3 Identify key non-compliance component of the credit and debt control policy and enforce corrective measures 4. Ensure effective implementation of the debt management policy. 5. Audit the consumer information and continuously update information on the financial system 6. Reduce debt book	1.Municipal Manager	1. Directors/CFO 1.2 Director Technical Services and CFO 2.1 Chief Financial Officer 3. Chief Audit Executive and CFO 4. Chief Financial Officer 5. Chief Financial Officer 6. Chief Financial Officer 7.Director Technical Services
