

# **THEMBISILE HANI LOCAL MUNICIPALITY**

**2018-2019  
FINAL  
INTEGRATED DEVELOPMENT PLAN  
(2017-2022)**

## TABLE OF CONTENTS

1.1.	INTRODUCTION AND OVERVIEW .....	1
1.2.	GUIDING PARAMETERS .....	2
1.2.1.	National Development Plan .....	2
1.2.2.	Mpumalanga Vision 2030 (Provincial Development Plan) .....	2
1.2.3.	The 2016 Local Government Manifesto .....	4
1.2.4.	Government Outcomes .....	10
1.2.5.	Integrated Support Plan for accelerated Municipal Services Delivery .....	10
1.2.5.1.	Task for the next phase of transformation .....	11
1.2.5.2.	Back to basics.....	11
1.3.	MUNICIPAL VISION AND MISSION.....	12
1.3.1.	Vision Statement .....	12
1.3.2.	Mission Statement .....	12
1.3.3.	Municipal Values and Principles .....	13
1.4.	SWOT ANALYSIS.....	13
1.5.	KEY DEVELOPMENT CHALLENGES.....	14
1.6.	KEY DEVELOPMENT PRIORITIES.....	14
1.7.	STRATEGIC OBJECTIVES .....	15
2.1.	LEGAL FRAMEWORK .....	16
2.1.1.	Constitution of the Republic of South Africa (Act 108 of 1996).....	16
2.1.2.	Municipal Systems Act (Act 32 of 2000).....	16
2.1.3.	Municipal Finance Management Act (Act 56 of 2003) .....	17
2.1.4.	White Paper on Local Government (1998).....	17
2.1.5.	Performance Management Systems .....	18
2.2.	ESTABLISHMENT IN TERMS OF LEGISLATION .....	18
2.3.	POWERS AND FUNCTIONS .....	18
2.4.	IDP PROCESS OVERVIEW .....	20
2.4.1.	IDP Organisational Arrangements.....	20
2.4.2.	IDP and Budget Time Table .....	20
2.5.	STRATEGIC OVERVIEW.....	22
2.5.1.	Key Statistics .....	22
2.5.2.	Key Service Delivery Gaps and Backlogs .....	22
2.5.3.	Audit Outcomes.....	23
2.5.4.	Achievements of the last 5 years.....	24
3.1.	MUNICIPAL LOCATION AND DESCRIPTION .....	30
3.1.1.	Main Roads.....	30
3.1.2.	Main Areas.....	32

3.2.	DEMOGRAPHIC PROFILE .....	33
3.2.1.	Population Size.....	33
3.2.2.	Population Composition .....	33
3.2.2.1.	The gender composition .....	33
3.2.2.2.	The age structure .....	34
3.2.3.	Socio-Economic Development.....	34
3.2.3.1.	Employment and unemployment indicators .....	34
3.2.3.2.	Poverty rate .....	36
3.2.3.3.	Individual Income .....	36
3.2.3.4.	Education Indicators .....	36
3.2.3.5.	Blue Drop and Green Drop Performance.....	37
4.1.	SPATIAL RATIONALE AND DEVELOPMENT.....	39
4.1.1.	Legislative and Policy Context.....	39
4.1.2.	Spatial Location and Description .....	43
4.1.3.	Settlement Pattern.....	44
4.1.4.	Land Ownership and Land Use Composition.....	44
4.1.5.	Land Ownership in Traditional Areas.....	45
4.1.6.	Land Claims .....	47
4.1.7.	Illegal Land Occupation and Informal Settlements.....	50
4.1.8.	Transport Networks .....	52
4.1.9.	Strategic Development Areas .....	52
4.1.10.	Areas of Consolidation and In-suite Development.....	53
4.2.	ENVIRONMENTAL ANALYSIS.....	56
4.2.1.	Topography, Hydrology and Climate .....	56
4.2.2.	Vegetation .....	56
4.2.3.	Geology and Mineral Potential .....	56
4.2.4.	Biodiversity, Conservation Areas and Nature Reserves .....	56
4.3.	SOCIO-ECONOMIC ANALYSIS.....	57
4.3.1.	Integrated and Sustainable Human Settlements and Housing .....	57
4.3.2.	Health .....	58
4.3.3.	Educational Facilities .....	58
4.3.4.	Safety and Security .....	58
4.3.5.	Sports, Arts and Culture .....	59
4.3.6.	Municipal Libraries .....	60
4.3.7.	Telecommunication and Postal Services .....	60
4.3.7.1.	Public Transport and Traffic Services.....	60
4.3.7.2.	Moloto Development Corridor .....	61
4.3.7.3.	Moloto rail corridor proposed route .....	61

4.3.7.4. Moloto Road upgrading.....	61
5.1. BASIC SERVICE DELIVERY AND INFRASTRUCTURE DEVELOPMENT.....	62
5.1.1. Water.....	62
5.1.1.1. Bulk Water Supply.....	62
5.1.1.2. Current Water Service Backlogs.....	62
5.1.1.3. Ground Water.....	64
5.1.2. Sanitation.....	64
5.1.2.1. Current Sanitation Service Levels.....	64
5.1.2.2. Waste Water Treatment Plants.....	65
5.1.2.3. Current Sanitation Service Backlogs.....	66
5.1.3. Electricity.....	67
5.1.3.1. Household Electrification Backlog.....	68
5.1.4. Roads and Storm Water.....	68
5.1.5. Waste Management and Environmental Health.....	69
5.1.5.1. Cemeteries.....	70
<b>5.1.6. Service Delivery and Infrastructure Development.....</b>	<b>71</b>
5.2. LOCAL ECONOMIC DEVELOPMENT.....	72
5.2.1. Economic Analysis.....	72
5.2.2. Employment Status.....	73
5.2.3. Economic Sectors and Activities.....	73
5.2.3.1. Industrial Activities.....	74
5.2.3.2. Agriculture.....	74
5.2.3.3. Mining.....	74
5.2.3.4. Tourism.....	75
5.2.3.5. Trade and local Business.....	76
5.2.4. Job Creation Initiatives.....	76
5.3. GOOD GOVERNANCE AND PUBLIC PARTICIPATION.....	77
5.3.1. Background.....	77
5.3.2. Governance Structures.....	77
5.3.2.1. Internal Audit Function.....	77
5.3.2.2. Audit Committee.....	77
5.3.2.3. Oversight Committees.....	77
5.3.2.4. Ward Committees.....	77
5.3.2.5. Supply Chain Committees.....	78
5.3.3. Participation Structures.....	78
5.3.3.1. Communication and Public Participation Strategy.....	78
5.3.3.2. Mayoral Outreach Programme and IDP Participation.....	78
5.3.3.3. 2017-2022 Draft IDP and 2018/2018 Budget Consultation.....	92

5.3.3.4. Other Public Communication and Participation Mechanisms .....	96
5.3.4. Summary Public Participation and Good Governance.....	97
5.4. INSTITUTIONAL TRANSFORMATION AND ORGANISATIONAL DEVELOPMENT.....	98
5.4.1. Organisational Structure .....	98
5.4.2. Institutional Capacity .....	108
5.4.2.1. Council .....	108
5.4.2.2. Administration .....	108
5.4.3. Human Resources Management.....	111
5.4.3.1. Employment Equity .....	111
5.4.3.2. Capacity Building and Skills Development .....	111
5.4.3.3. Recruitment and Filling of Vacancies.....	111
5.4.3.4. Occupational Health and Safety.....	111
5.4.4. Information Technology .....	111
5.4.5. Council Secretariat .....	112
5.4.6. Performance Management.....	112
5.5. FINANCIAL VIABILITY.....	113
5.5.1. Background.....	113
5.5.2. Financial Management System .....	113
5.5.3. Municipal Revenue Sources.....	113
5.5.4. Budget and Treasury Management.....	113
5.5.5. Revenue Management.....	114
5.5.6. Expenditure Management.....	114
5.5.7. Revenue Enhancement .....	114
5.5.8. Supply Chain Management and Procurment process.....	114

OLS	Operating Licence Strategy	SEAM	Strategic Engagement and Agreement Matrix
PA	Protected Area	SEDA	Small Enterprise Development Agency
PGDS	Provincial Growth and Development Strategy	SEMP	Strategic Environmental Management Plan
PHC	Primary Health Care	SETA	Sector Education Training Authority
SLA	Service Level Agreement	SERO	Socio-Economic Report and Outlook for MP

SMART	Specific - Measurable - Accurate - Realistic - Time-Based
SMME	Small Medium and Micro Enterprises
SoER	State of the Environment Report
SUPA	Service Upgrading Priority Area
SWOT	Strength, Weaknesses. Opportunities and Threats Analysis
TLC	Transitional Local Council
TOD	Transit Orientated Development
TRC	Transitional Regional Council
UN	United Nations
URDP	Urban and Rural Development Programme
VIP	Ventilated Improved Pit Latrine
WMAs	Water Management Areas
WMP	Waste Management Plan
WSA	Water Services Authority
WSDP	Water Services Development Plan

### 1.1. INTRODUCTION AND OVERVIEW

The advent of integrated development planning has constituted a major watershed for local authorities in South Africa, being regarded by the national legislature as the key tool to re-orientate and refocus the vision and mission of local authorities as they prepare to manage a new developmental role.

During the apartheid era, local government planning was characterised by the following:

<ul style="list-style-type: none"><li>• It was a technically-driven process without meaningful community participation.</li></ul>
<ul style="list-style-type: none"><li>• It focused on regulation and control of land use through a web of restrictions aimed at entrenching racial segregation spatially, socially and economically.</li></ul>
<ul style="list-style-type: none"><li>• It served the demands of the privileged groups in society, at the expense of the disenfranchised and the urban and rural poor.</li></ul>
<ul style="list-style-type: none"><li>• It was largely sectoral, with little integration between transport, land use and infrastructure plans.</li></ul>
<ul style="list-style-type: none"><li>• It was neglectful of issues relating to environmental sustainability and economic viability.</li></ul>
<ul style="list-style-type: none"><li>• It was largely unconcerned with poverty alleviation, social health and welfare.</li></ul>
<ul style="list-style-type: none"><li>• It neglected the facilitation of economic development.</li></ul>

During the 1990s, the concept of integrated planning was adapted in South Africa from strengthening international trends towards holistic and more sustainable development, and was seen locally as an appropriate method of beginning to address the deficiencies and injustices of apartheid planning.

It was stressed early on that a new system of municipal planning should:

<ul style="list-style-type: none"><li>• ensure the participation of communities</li></ul>
<ul style="list-style-type: none"><li>• address most urgently the citizens' basic needs</li></ul>
<ul style="list-style-type: none"><li>• aim to disintegrate unjust spatial or institutional patterns of privilege</li></ul>
<ul style="list-style-type: none"><li>• aim to ensure integrated and sustainable development, and</li></ul>
<ul style="list-style-type: none"><li>• be focused on delivery.</li></ul>

These ideas gradually crystallised into the new concept of Integrated Development Planning, which was defined by the intergovernmental Forum for Effective Planning and Development (FEPD) as:

A participatory planning process aimed at integrating sectoral strategies in order to support the optimal allocation of scarce resources between sectors and geographic areas and across the population in a manner that promotes sustainable growth equity and the empowerment of the poor and the marginalized.

This concept was subsequently enshrined in a variety of documents such as the White Paper on Local Government, the Constitution of 1996, the Development Facilitation Act (1995), the Local Government Transition Act - Second Amendment Act (1996), the Municipal Structures Act (1999) and the Municipal Systems Act (2000).

Integrated development planning is a process through which municipalities prepare a strategic development plan which extends over a five-year period. The Integrated Development Plan (IDP) is a product of the IDP process. The IDP is the principal strategic planning instrument which guides and informs all planning, budgeting, management and decision-making processes in a municipality.

Through Integrated development planning, which necessitates the involvement of all relevant stakeholders, a municipality can:

<ul style="list-style-type: none"><li>• Identify its key development priorities;</li></ul>
<ul style="list-style-type: none"><li>• Formulate a clear vision, mission and values;</li></ul>
<ul style="list-style-type: none"><li>• Formulate appropriate strategies;</li></ul>

- Develop the appropriate organizational structure and systems to realise the vision and mission; and align resources with the development priorities

In terms of the Municipal Systems Act (Act 32 of 2000) all municipalities have to undertake an integrated development planning process to produce IDP's. As the IDP is a legislative requirement it has a legal status and it supersedes all other plans that guide development at local government level.

### 1.2. GUIDING PARAMETERS

#### 1.2.1. National Development Plan

In 2010/11 the national government initiated a series of dialogue sessions which were aimed at understanding the challenges that the country faced. This was a step towards understanding the country towards the development of a long term vision that is not only aspirational but responds to some of the challenges of the country as well. As a result of this process, a diagnostic report on the state of the country was developed and published and it highlighted the following:

- Too few people work;
- Corruption levels are high;
- South Africa remains a divided society;
- Spatial divides hobble inclusive development;
- Public services are uneven and often of poor quality;
- The public health system cannot meet the demand or sustain quality;
- The economy is unsustainably resources intensive; and
- Infrastructure is poorly located, inadequate and under-maintained.

This report emphasized the need to reduce poverty and eliminate inequality to address the challenges highlighted above. These two elements – poverty reduction and poverty elimination are a focus on the National Development Plan (NDP) that was approved by Cabinet in November 2012 following a Diagnostic Report. The NDP provided a vision for the society that South Africa aspires for in 2030. Central to the NDP are the following areas of intervention:

- Bringing about faster economic growth, higher investment and greater labour absorption;
- Promoting active citizenry to strengthen development, democracy and accountability;
- Focus on key capabilities of people and the state;
- Building a capable and developmental state;
- Encouraging strong leadership throughout society to work together to solve problems; and
- Uniting all South Africans around common programme to achieve prosperity and equality.

The National Development Plan is what guides the interventions of all spheres of government.

The Municipality recognises that there are still a number of challenges that it faces, which characterizes the development phase through which most South African municipalities are undergoing. It is for this reason that in compiling this IDP review, attention is paid towards accelerating some of the Municipality's interventions to improve the social and economic state of the citizens while pursuing a sustainable path towards development.

#### 1.2.2. Mpumalanga Vision 2030 (Provincial Development Plan)

Mpumalanga Vision 2030 provides a provincial expression of the key priorities, objectives and targets enumerated in the NDP. It is a focused and strategic implementation framework that provides a direct

## CHAPTER 1: EXECUTIVE SUMMARY

---

implementation response to the National Development Plan. The framework describes the Province's approach to realising the objectives of the NDP in the provincial context. It builds on and informs past & existing sectoral and related planning interventions in Mpumalanga.

Mpumalanga Vision 2030 informs and is linked to the Municipal IDP through the following sector plans:

- Mpumalanga Economic Growth & Development Path
- Infrastructure Master Plan
- Mpumalanga Spatial Framework
- Human Settlement Master Plan
- Human Resources Development Strategy
- Comprehensive Rural Development Programme

In line with the principles of the NDP, Vision 2030 highlights the following socio economic outcomes as priorities:

- Employment & Economic Growth
- Education and Training
- Health care for all
- Social Protection

These priorities do not imply that the normal business of government should be deferred, but rather aims to focus the activities and decisions of the Province on key areas leveraging high impact for improved and sustainable long term socio-economic development in Mpumalanga.

### 1.2.3. The 2016 Local Government Manifesto

The 2017-2022 IDP is developed in line with the national and local government manifesto of 2016. In recognition of the role of local government in the implementation of these key areas, the local government manifesto of 2016 outlined areas of focus for local government in line with the powers and functions of municipalities and their role towards contributing to the national objectives. The following are the key focus areas for local government as articulated in the manifesto:

#### Access to municipal services and reducing outsourcing

*Together with our communities we will broaden access to municipal services and reduce outsourcing through access to municipal services.*

#### Water and Sanitation

- Increasing bulk water supply by sourcing water and augmenting the current supply through the following projects over the next five years:
  - Upgrading of existing infrastructure from agricultural project to augment borehole water supply in Bundu.
  - New Reservoir and Pipeline at Kwa-Mhlanga and surrounding areas
  - Upgrading of Kwaggafontein Water Scheme and surrounding areas
- Conducting feasibility and implementing the Western Highveld (Rust da Winter) bulk water scheme project in Thembisile working in collaboration with the Department of Water and Sanitation
- Conducting feasibility and implementing the new Thembisile Water Scheme (Loskop dam) project working together with the department of water and sanitation.
- Refurbishing of water infrastructure and drilling of boreholes within Thembisile Hani through the WSIG.
- Upgrading and maintaining all existing water infrastructure in KwaMhlanga, Kwaggafontein and Vlaklaagte and eliminating all water losses by refurbishing existing and old water pipelines.
- Providing a water borne sanitation system in Luthuli and surrounding areas with the following project over the next five years:
  - Luthuli Waste Water Treatment Works.
- Ensuring that the Moloto RDP settlement is provided with a water borne sewer system during the next five years.

### Integrated Human Settlements

- Accelerating the establishment of Townships in Vlaklaagte (Buhlebesizwe extension 1), Gemsbokfontein (Emlanjeni), Tweefontein F and Kameelpoornek (Clearview).
- Formalisation of Townships in Moloto, Kameelportnek/Sun City, KwaMhlanga/Phola Park, Tweefontein/Enkeldoornoog, Vlaklaagte/Gemsbokspruit, Vlaklaagte/Kwaggafontein, Mathys-Zyn-Loop, Boekenhoutoek, Goederede, Verena / Wolvenkop as part of the National Upgrading Support Programme.
- Sourcing funding with the assistance of Nkangala district, and Cogta for the formalisation of Verena South-West, Verena North-West, Verena South-East, KwaMhlanga South-West, Wolvenkop Extension, KwaMhlanga South, KwaMhlanga South-East, KwaMhlanga West, Tweefontein North, KwaMhlanga East, KwaSilamba, Kwaggafontein Ext. 2, Kwaggafontein West, Buhlebesizwe South, and Buhlebesizwe East.
- Building at least 6 Community halls over the next five years around Thembisile and in areas such as Moloto working together with Nkangala District Municipality.
- Providing together with the Department of Human Settlements over 100 rural housing units in Tweefontein and KwaMhlanga areas.
- Resisting and preventing the illegal occupation of land and enlightening traditional authorities and communities on land development and land use management issues.
- Optimising the development of strategically development areas as part of our spatial development framework.
- Identifying and reserving land for human settlements and formalising existing settlements in line with national norms and standards.
- Strengthening the working relationship with traditional authorities to curb land invasion

### Electricity

- Ensuring that all households have access to electricity together with Eskom.
- Intensifying the installation of high mast lights in all villages and streetlights in strategic road intersections where none exist.

### Environment and waste management

- Progressively extending waste collection to all households within the municipality for a clean and healthy environment.
- Accelerating the acquisition of a licensed land fill site within the next five years.
- Working with the department of environmental affairs to assist with research on climate change.
- Establishing and developing municipal capacity to manage disaster risks that may be presented by a changing climate.
- Undertaking youth initiatives as part of municipal efforts to adapt to changing climatic conditions.
- Conducting annual cleaning campaigns throughout the Municipality for a healthy and clean environment.

## CHAPTER 1: EXECUTIVE SUMMARY

### Roads and Stormwater

- Developing a road grading programme for all main gravel roads within Thembisile at least twice per annum.
- Working together with Nkangala District Municipality identify busy access roads for block paving

### Transportation

- Facilitating, together with SANRAL the upgrading of Moloto (National Road R573) with an anticipated investment of R3.7 billion.

### Outsourcing

- Increasing municipal internal capacity in order to reduce the outsourcing of services and skills from external consultants.
- Ensuring that all infrastructure projects that are implemented are of a high quality standard by establishing infrastructure project monitoring and evaluation committees within the municipality.

### Good Governance

#### ***Together we shall improve municipal governance by:***

- Ensuring that the Municipal Council, the mayoral committee, section 80 committees and section 79 committees are established and sit as scheduled.
- Ensuring that ward committees are formed within 3 months to serve as interactive and development oriented forums are between the elected municipal representatives and stakeholders at the community level on a continuous basis.
- Establishing Audit and risk committees.
- Intensifying the functioning of war rooms in order to bridge the service delivery gaps.
- Conducting regular audits of ward committees to ensure functionality and awareness.
- Aligning all municipal resources, programmes and projects with the Integrated Development Plan.

#### ***Together we shall intensify the fight against fraud and corruption through:***

- Ensuring that governance structure, namely MPAC, Audit and Risk Management Committees are established.
- Creating a fraud and corruption reporting hotline for municipal residence.
- Following up on issues raised on the presidential hotline.
- Developing a practical Audit Recovery Plan and ensure implementation, together with the implementation of the Risk management Plan.
- Establishing municipal oversight committees, Mayors and Premiers hotline.
- Implementing recommendations emanating from forensic investigations conducted within the Municipality.

## CHAPTER 1: EXECUTIVE SUMMARY

### Public Participation

*Together we shall continue to put people first by improving public participation and accountability through:*

- Ensuring that all ward committees sit monthly and that ward councillor hold the 6 mandatory meetings per annum.
- Holding at least 12 Zonal Izimbizo meetings twice per annum within the municipal area.
- Ensuring ward councillors convene 6 meetings per ward per annum in order to provide communities with feedback about developments in the municipality.
- Continually engaging forums with regards to Integrated Development Planning and municipal budgeting processes.
- Creating an enabling environment for public participation by utilising a variety of mechanisms to communicate with the community.
- Ensuring that ward councillors hold atleast 4 meetings with Amakhosana annually.
- Implementing educational awareness campaigns on liquor trading, anti-stock theft awareness and anti-stolen goods awareness campaign working together with the South African Police Service in areas such as Moloto, Buhlebuzile and Sheldon.
- Encourage communities to participate in Community Policing Forums.
- Promote the reduction of drug abuse, fight against corruption and reduce crime.
- Conducting campaigns and working with communities to report criminal activity without fear or favour.
- Working together with traditional authorities in combating crime in villages.

### Sound Financial Management

*Together with our people we shall ensure sound financial management by:*

- Preventing wasteful, fruitless, unauthorised and irregular expenditure.
- Compelling residents to pay for municipal services and increasing revenue collection from 5% to 60% progressively over the next five years.
- Installing smart meters at all government institutions including, schools and offices to monitor the usage of water and correct billing.
- Ensuring that all creditors are paid within 30 days after receipt of an invoice for goods and services rendered.
- Improve the efficiency and functionality of supply chain management.
- Improve the municipal audit opinion from qualified to unqualified and ultimately clean audit progressively over the next five years.
- Ensure that the municipal billing system is accurate in order to improve collection.
- Build internal financial capacity to eliminate outsourcing of consultants for AFS and asset management.
- Embarking on intensive awareness campaigns to educate communities about the importance of paying for municipal services.

### **Building a Capable Institution and Administration**

#### ***Together we shall improve and enhance the institutional capacity of the municipality by:***

- Filling key positions within 3 months from the date of the vacancy.
- Appointing competent and qualified people in all positions.
- Providing municipal employees and councillors with regular training in order to improve service delivery.
- Prioritising the training of councillors, management and key officials on financial management.
- Ensuring the progressive cascading of performance management to all staff members over the next five years.

### **Local Economy and Job Creation**

#### ***Together we shall develop and strengthen local economies, create jobs and promote job placements, especially for the youth through:***

- Actively participating in the expanded public works programme of the National, provincial and local government in order to promote job creation and skill transfer.
- Reserving 40% of all procurement opportunities for youth owned enterprises and companies.
- Annually targeting the recruitment of more than 2500 local people through the community works programme, and expanded public works programme.
- Intensifying support for rural smallholder farmers and expanding community food gardens and establish markets for fresh produce.
- Accelerating the formalisation of business sites in close proximity to the R573 and shopping complexes.
- Continuing to support emerging and existing Sme's and cooperatives in order to contribute to job creation.
- Actively participating in the Moloto road corridor development initiative and capitalise on LED opportunities that stem from the programme
- Advocating for the realisation of the Moloto Rail corridor within the next five years.
- Constructing animal handling facilities in Tweefontein C and Upgrading of the Kwaggafontein farm working in conjunction with the Department of Cooperative Governance and Traditional Affairs and Agriculture as part of the fortune 40 initiative.
- Empowering communities with business opportunities, especially historically underprivileged groups such as youth, woman and persons with disabilities

## CHAPTER 1: EXECUTIVE SUMMARY

### Education and Health in Communities

#### *Working together to promote health and education as apex priorities in local communities through:*

- Providing a sustainable water supply service to all schools, Kwamhlanga Hospital and clinics within the municipality.
- Identify strategic land parcels for the building of health and educational facilities together with the department of basic education, Health and Public Works.
- Awarding 5 mayoral bursaries annually to deserving learners for higher education and training, working in collaboration with local industry and businesses.
- Improving access to the public library services in villages by providing mobile libraries.
- The THLM will focus on encouraging adult education in the Municipal area and expand Early Childhood development centres to other villages.
- Constructing health care clinics in Tweefontein A and Vezubuhle with the assistance of the Department of Health.
- Upgrading the Kwamhlanga hospital and accommodation for staff in conjunction with the Department of Health over the next five years.
- Constructing two new libraries in Boekenhouthoek and Verena with the assistance from the department of culture, sport and recreation during the next five years.
- Ensuring the establishment of a Technical and Vocational Education and Training centre.

### Social Cohesion and Nation Building

#### *Together we shall promote social cohesion and nation building in municipalities through:*

- Promoting municipal heritage and cultural sites in order to market the municipality as a heritage and tourism destination
- Encouraging the local youth to participate in sport and recreation activities aimed at promoting nation building.
- Promoting a culture of dialogue as part of efforts to build a social compact for local growth and development.
- Organising a cultural and heritage indaba where local culture and heritage can be celebrated and expressed.

### Transversal

#### *Together we shall promote the transversal and Gender issues*

- Policies, Legislation and guidelines that regulate the promotion of women empowerment across the spectrum
- vision 2014, seek to address Medium Term Strategic Framework (MTSF) on women empowerment together with National Spatial Development Planning and (PGDS)
- In this policies and guide line offices of women are more paramount and person living with Disability, the right of Childrens and ELDERY
- High level of illiteracy, shortage of skills to people with disabilities
- single parent hood and sign languages personnel

- shortage of staff in the office were it does not have assistant manager and other co-ordinator who would be dealing with Disability and elderly and the other co-ordinator would be in charge of women and Children issues
- reduction of violence against women, children and elderly
- support victim empowerment and poverty alleviation
- children and childhood early development
- sport, leisure, recreation care and culture should be envisaged all the time

### 1.2.4. Government Outcomes

In January 2010, Cabinet adopted 12 Outcomes to frame public-service delivery priorities. Cabinet Ministers accordingly signed Performance Agreements linked to these Outcomes. All Municipalities are expected to consider the 12 Outcomes when reviewing their IDPs and developing their annual programmes and budgets for the MTEF period. Below are the 12 Outcomes where Municipalities have a role to play in either contributing directly to the realisation of the Outcomes or facilitating the work of National and Provincial Departments in realising them.

- Outcome: 1 Improve the quality of basic education
- Outcome: 2 Improved health and life expectancy
- Outcome: 3 All people in South Africa to be protected and feel safe
- Outcome: 4 Decent employment through inclusive economic growth
- Outcome: 5 Skilled and capable workforces to support inclusive growth
- Outcome: 6 An efficient, competitive and responsive economic infrastructure network
- Outcome: 7 Vibrant, equitable and sustainable rural communities and food security
- Outcome: 8 Sustainable human settlements and improved quality of household life
- ***Outcome: 9 A response and, accountable, effective and efficient local government system***
- Outcome: 11 A better South Africa, a better and safer Africa and world
- Outcome: 12 A development-orientated public service and inclusive citizenship

### 1.2.5. Integrated Support Plan for accelerated Municipal Services Delivery

The Integrated Support Plan for Local Government is developed to ensure that all 20 municipalities in the Mpumalanga Province are Functional and provide services to communities in a sustainable manner both now and in the future.

Mpumalanga Province consists of 17 Local Municipalities and 3 District Municipalities that have a myriad of challenges ranging from:

- None provision of democratic and accountable Government for Local communities
- Erratic provision of basic services to communities in a sustainable manner
- Promotion of social and economic development not adequate
- Inadequate Promotion of a safe and healthy environment
- Lack of encouragement of involvement of communities and community organisations in the matters of local Government
- Sound and sustainable financial management inadequate

The Executive council instructed CoGTA to prepare an integrated support plan which had to include all relevant stakeholders including Local Government. On the 10th of September the Integrated Municipal support plan (IMSP) was tabled to the executive council and approved. The Key output of the ISP is 21

Functional Municipalities that provide services to local communities in a sustainable manner both now and in the future.

This implementation plan seeks to give guidance to all the stakeholders who are involved in the IMSP in terms of the actions to be taken and the timelines. This implementation plan is guided in the main by the National Development Plan (NDP), the Medium Term Strategic Framework (MTSF 2014-2019) and Local Government Legislation.

### **1.2.5.1. Task for the next phase of transformation**

- Back to Basics: Setting clear benchmarks of performance in our efforts to ensure that all municipalities perform their basic responsibilities, every day, without fail;
- Responding vigorously to the immediate crises;
- Understanding and responding to the structural challenges;
- Continuing to build resilient local government institutions; and
- Collectively constructing more rigorous systems of intergovernmental relations/ planning and delivery

### **1.2.5.2. Back to basics**

#### **Governance**

- All municipal council structures must be functional - meet regularly;
- Clear delineation of roles and responsibilities between key leadership structures of the municipality (Mayor, Chief Whip, Speaker and MM)
- Oversight committees must be in place and perform their responsibilities, without any interference, e.g. Audit Committee and MPAC's; and
- Transparency, accountability and regular engagements with communities. e.g. MTSF Action 7

#### **Administration**

- All municipalities enforce competency standards for managers and appoint persons with the requisite skills, expertise and qualifications;
- All managers sign performance agreements; and
- Implement and manage performance management systems.

#### **Sound Financial Management**

- All municipalities have a functional financial management system;
- Rigorous Internal controls;
- Cut wasteful expenditure;
- SCM structures and controls with appropriate oversight;
- Cash-backed budgets;
- Post Audit Action Plans are addressed; and
- Act decisively against fraud and corruption.

### **Community engagements and participation**

- All councillors report regularly to their wards;
- Municipalities have clear engagement platforms with communities, e.g. ward level service delivery plans, IDPs and budget report backs; and
- Transparent, responsive and accountable processes to communities, etc.

### **Basic Service Delivery**

- To ensure that municipalities develop new infrastructure at a faster pace whilst adhering to the relevant standards, and to enable them to improve operations and maintenance of existing infrastructure to ensure continuity of service provision.

### **1.3. MUNICIPAL VISION AND MISSION**

The municipal vision and mission that were refined by the Mayoral Committee during the strategic planning engagement held in January 2017. The proposed municipal vision and mission statements are as follows:

#### **1.3.1. Vision Statement**

***“To better the lives of our people through equitable and sustainable service delivery and economic development”***

#### **1.3.2. Mission Statement**

***Thembisile Hani local municipality aims to work towards achieving its vision by:***

- Participatory integrated development planning
- Sustainable, accountable and accelerated service delivery
- Promoting socio-economic development
- Intensifying community participation
- Shared economic growth
- Allocating resources within budgetary constraints
- Ensuring effective and efficient financial governance
- Applying good and transparent corporate governance and Batho pele principles in order to create a high performing municipality

**1.3.3. Municipal Values and Principles**

*The municipality will continue to be driven by and observe the following service delivery principles:*

- Showing compassion and care to all municipal customers
- Treating all residents equality and with integrity and respect
- Attending to and responding to all queries efficiently
- Conducting the municipal business processes in an ethical and professional manner

**1.4. SWOT ANALYSIS**

The following table represents a SWOT Analysis in terms of the development issues arising from situational analysis of the Municipality. The SWOT analysis provides a configuration of the social, economic, physical, infrastructural, financial, institutional and environmental factors to be considered when planning is undertaken. The analysis also serves as a basis for the municipality’s state of development.

**Table 1.4: SWOT Analysis**

<b>Strengths</b>	<b>Weakness</b>
<ul style="list-style-type: none"> <li>• Political will and stability</li> <li>• Good relationship with key stakeholders</li> <li>• Filled organisational structure (low vacancy rate)</li> <li>• Land availability</li> <li>• Adopted communication and public participation strategy</li> <li>• Predominance of agriculture</li> <li>• Established and fully fledged Internal Audit Unit</li> <li>• Inter-departmental Support</li> <li>• Training support to staff</li> </ul>	<ul style="list-style-type: none"> <li>• Inadequate Financial Management</li> <li>• Political interference in administration</li> <li>• Single personnel units</li> <li>• Poor revenue collection</li> <li>• Poor internal road infrastructure</li> <li>• Water supply interruptions</li> <li>• Insignificant sanitation infrastructure</li> <li>• Lack of a municipal call centre</li> <li>• Low skills base</li> <li>• No property rates collection</li> <li>• Non-compliance to approved policies</li> <li>• Lack of proper financial planning</li> <li>• Poor enforcement of the Land Use Management Systems</li> <li>• Insufficient working tools (Vehicles)</li> <li>• Shortage of staff to manage waste and facilities</li> </ul>
<b>Opportunities</b>	<b>Threats</b>
<ul style="list-style-type: none"> <li>• Land availability</li> <li>• Mining opportunities</li> <li>• Indigenous knowledge</li> <li>• Municipal proximity to Gauteng Province</li> <li>• Moloto rail corridor</li> <li>• Mining opportunities</li> <li>• Potential for agricultural growth and development</li> <li>• Tourism opportunities</li> <li>• Potential for payment of rates and taxes from government institutions</li> <li>• Potential for revenue generation</li> <li>• Potential for recycling</li> <li>• Availability of a Spatial Development Framework</li> </ul>	<ul style="list-style-type: none"> <li>• High unemployment rate</li> <li>• High dependency conditional grants</li> <li>• Land invasion</li> <li>• Lack of water resource</li> <li>• Poor industrial development</li> <li>• Vandalism of municipal property</li> <li>• Non-qualifying consumers registered as indigent debtors</li> <li>• Land ownership (Most farms are state owned)</li> <li>• Poorly developed infrastructure</li> </ul>

**1.5. KEY DEVELOPMENT CHALLENGES**

The following table represents the key Development Challenges of Thembisile Hani Local Municipality identified as part of the strategy development phase of the Integrated Development Planning process.

**Table 1.5: Key Development Challenges**

SERO Report , 2016	Strategic Planning Report 2017
<ul style="list-style-type: none"> <li>• Low economic growth</li> <li>• Household services challenges</li> <li>• High poverty</li> <li>• High inequality</li> <li>• Low HDI</li> <li>• High unemployment</li> <li>• Educational challenges</li> <li>• High HIV prevalence</li> <li>• Inflation</li> <li>• Unequal economic distribution</li> <li>• Sectoral dependency</li> </ul>	<ul style="list-style-type: none"> <li>• Lack of water source</li> <li>• Land invasion</li> <li>• Lack of own revenue</li> <li>• High unemployment rate</li> <li>• High dependency on conditional grants</li> <li>• Poor industrial development</li> <li>• Vandalism of municipal property (water valves)</li> <li>• Land ownership (Most farms are state owned)</li> </ul>

**1.6. KEY DEVELOPMENT PRIORITIES**

This section provides a summary of key service delivery priorities for the 2017-2022 Integrated Development Plan. These priorities form the basis for strategy formulation and project identification.

The Key Service Delivery Priorities identified are summarised below as follows:

**Table 1.6: Key Development Priorities**

Issue 1	Water
Issue 2	Sanitation
Issue 3	Public lighting
Issue 4	Roads and Storm water
Issue 5	Environment and Waste management
Issue 6	Municipal facilities, Sport, Recreation, Art & Culture
Issue 7	Spatial Planning and Land Use Management
Issue 8	Financial management and sustainability
Issue 9	Local Economic Development and Job Creation
Issue 10	Institutional development
Issue 11	Good Governance and Public Participation
Issue 12	Youth Development

**• None municipal co ordinated issues**

Issue 13	Public transport
Issue 14	Education
Issue 15	Health and welfare
Issue 16	Post telecommunication
Issue 17	Public safety, security and emergency service
Issue 18	Human settlements( housing)
Issue 19	Land use management
Issue 20	transversal

### 1.7. STRATEGIC OBJECTIVES

The Municipality remains committed to the Strategic Objectives as was approved by Council in 2011-2016 IDP. The amendments made in this document is on the basis that certain elements out of the objectives have been emphasised for implementation in the medium term to respond to the emerging developments and to accelerate delivery on key areas of performance for the Municipality. The following are the Municipal Strategic Objectives:

**SO 1: To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads**

**SO 2: To create integrated and sustainable human settlements through the proactive planning and development of land**

**SO 3: To create a safe, clean and healthy environment conducive for social development and recreation**

**SO 4: To improve the financial status of the municipality through prudent budget planning, stringent financial management and improved revenue collection**

**SO 5: To create a conducive environment for economic development, investment attraction and job creation.**

**SO 6: To improve organizational efficiency and promote a culture of professional conduct in order to render quality services**

**SO 7: To deepen democracy and promote active community participation in the affairs of the institution**

### 2.1. LEGAL FRAMEWORK

In terms of the Constitution of the Republic of South Africa (Act 108 of 1996), local government is in charge of its own development and planning processes. This Constitutional mandate to relate management, budgeting and planning functions to objectives, clearly indicates the intended purpose of the municipal IDP as to:

- To ensure sustainable provision of services;
- To promote social and economic development;
- To promote a safe and healthy environment;
- To give priority to the basic needs of communities; and
- To encourage community involvement.

It is crucial that the relevant legislation and policies regulating integrated development planning be thoroughly analysed to ensure that the process and its outputs address the principles outlined in the legal framework.

#### 2.1.1. Constitution of the Republic of South Africa (Act 108 of 1996)

Section 151 of the Constitution, states that developmental local government should make provision for a democratic and accountable government for communities. It also encourages municipalities to ensure the provision of services to communities in a sustained manner in order to promote social and economic development. Local government must promote a safe and healthy environment and encourage community involvement in matters of local government such as municipal transport, municipal health services, municipal roads, and municipal parks and recreation.

Section 152 of the Constitution says that local government should provide democratic and accountable government for local communities. It should ensure the provision of services to communities in a sustainable manner, promote a safe and healthy environment as well as encourage the involvement of communities and community organizations in matters of local government.

Section 153 of the Constitution states that “each municipality should structure and manage its administration, budgeting, and planning processes to give priority to the basic needs of the community and to promote the social and economic development of those communities.” Municipalities should participate in national and provincial programmes and infrastructure development programmes. Section 153 of the Constitution also encourages municipalities to involve communities in their affairs.

#### 2.1.2. Municipal Systems Act (Act 32 of 2000)

The Municipal Systems Act regulates Integrated Development Planning. It requires municipalities to undertake developmentally oriented planning so as to ensure that it strives to achieve the objectives of local government as set out in Section 152 and 153 of the Constitution. Section 34 of the Municipal System Act 32 of 2000, requires the Municipal Council to review its integrated development plan annually in accordance with an assessment of its performance measurements in terms of section 41; and the extent that changing circumstances so demand; and may amend its integrated development plan in accordance with a prescribed process.

Section 26 of the Act further outlines the core components of the integrated development plan of a municipality. It requires the Integrated Development Plan of a municipality to reflect:

- The municipal council's vision for the long term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs;
- An assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services;
- The council's development priorities and objectives for its elected term;
- The council's development strategies which must be aligned with any national or provincial sector plans and planning requirements binding on the municipality in terms of the legislations;
- The council's development strategies which must be aligned with any national or provincial sector plans and planning requirements binding on the municipality in terms of the legislations;
- A spatial development framework which must include the provision of basic guidelines for a land use management system of the municipality;
- The council's operational strategies;
- Applicable disaster management plan;
- A financial plan, which must include budgeted projects for at least the next three years, and;
- The key performance indicators and performance targets determined in terms of the Act.

### **2.1.3. Municipal Finance Management Act (Act 56 of 2003)**

The Municipal Finance Management Act was promulgated to secure sound and sustainable management of the financial affairs of municipalities and other institutions in the local sphere of government. The Act provides a mandatory provision that relate to financial and performance management. Section 2 of the Act stipulates that the objective is to secure sound and sustainable management of the financial affairs of local government institutions to which this Act applies by establishing norms and standards for:

- Ensuring transparency, accountability and appropriate lines of responsibility in the fiscal and financial affairs of municipalities and municipal entities;
- The management of revenues, expenditures, assets and liabilities and the handling of financial dealings, budgetary and financial planning processes;
- The coordination of those processes with those of the other spheres of government,
- Borrowing;
- Supply chain management; and
- Other financial matters.

### **2.1.4. White Paper on Local Government (1998)**

The White Paper on Local Government (1998) views that Integrated Development Planning as a way of achieving developmental local government. It provides that the Integrated Development Planning intends to:

- Align scarce resources around agreed policy objectives;
- Ensure integration between sectors with local government;
- Enable alignment between provincial and local government and
- Ensure transparent interaction between municipalities and residents, making local government accountable.

The paper establishes a basis for developmental local government, where, “local government is committed to working with citizens and groups within the community to find sustainable ways to meet their social, economic and material needs and improve the quality of their lives”. It also encourages public consultation on policy formulation and in the monitoring and evaluation of decisions and implementation.

### **2.1.5. Performance Management Systems**

A municipality’s Performance Management System entails a framework that describes and represents how the municipality’s cycle and processes of performance, planning, measurement, review, reporting and improvement will be conducted, organized and managed, including determining the roles of the different role – players. It is critical that political leadership, managers and staff be involved to ensure that the municipality embraces the IDP and its implementation (which is performance management in practice). Implementing the processes and systems needed to operationalise the IDP will determine the ultimate success of the municipality. The following needs to be taken into consideration when starting to implement the IDP:

- Plan for performance by clarifying objectives and outputs to be achieved;
- Clarify performance expectations by setting standards and targets for each indicator to assess and evaluate performance in practice;
- Monitor, measure, assess and evaluate performance, and
- Link strategic priorities, goals and objectives agreed in the IDP by:
- Enabling staff to understand how their job contributes to the aforementioned;
- Ensuring resources are directed and used in efficient, effective and economic ways by each person in the municipality;
- Including communities and other stakeholders; decision – making, monitoring and evaluation;
- Learning from experience and using it to continuously to improve what is achieved, and maintaining transparency and accountability and promoting good governance as articulated in the Batho Pele principles.

### **2.2. ESTABLISHMENT IN TERMS OF LEGISLATION**

Thembisile Hani Local Municipality is a Category B Municipality established in terms of the provisions of the Local Government Municipal Structures Act 117 of 1998 which provides for the establishment of municipalities in accordance with the requirements relating to the categories and types of municipalities, the division of functions and powers between municipalities and the appropriate electoral systems.

The Municipality is furthermore an Executive Council Municipality as contemplated in the Mpumalanga Further Determination of Types of Municipality Act 04 of 2000.

### **2.3. POWERS AND FUNCTIONS**

Section 156 (a) of the Constitution of the Republic of South Africa states that a municipality has executive authority in respect of, and has the right to administer the local government matters listed in Part B of Schedule 4 and Part B of Schedule 5. Therefore the powers and functions of Thembisile local Municipality in so far as the Constitution is concerned are listed hereunder as follows:

## CHAPTER 2: PLANNING FRAMEWORK

### **Local Government matters listed under Schedule 4 Part B**

Local Government Matters	Functions currently with THLM		
	Yes	No	Responsible authority if function is not run by THLM
Air pollution	√		
Building regulations	√		
Child care facilities	√		
Electricity and gas reticulation		√	Eskom
Fire fighting services		√	Nkangala District Municipality
Local tourism	√		
Municipal airports	√		
Municipal planning	√		
Municipal health services	√		
Municipal public transport	√		
Municipal public works	√		
Storm water management systems in built-up areas	√		
Trading regulations	√		
Water and sanitation services	√		

### **Local Government matters listed under Schedule 5 Part B**

Local Government Matters	Functions currently with THLM		
	Yes	No	Responsible authority, if function is not run by THLM
Beaches and amusement facilities	N/A		
Billboards and the display of advertisements in public places	√		
Cemeteries, funeral parlours and crematoria	√		
Cleansing	√		
Control of public nuisances	√		
Control of undertakings that sell liquor to the public	√		
Facilities for the accommodation and burial of animals	√		
Fencing and fences	√		
Licensing of dogs	√		
Licensing and control of undertakings that sell food to the public	√		
Local amenities	√		
Local sport facilities	√		
Markets	√		
Municipal abattoirs	√

Municipal roads	√		
Noise pollution	√		
Pounds	√		
Public places	√		
Refuse removal, refuse dumps and solid waste disposal	√		
Street trading	√		
Street lighting	√		

### 2.4. IDP PROCESS OVERVIEW

In terms of section 34 of the Municipal System Act 32 of 2000, a Municipal Council must review its Integrated Development Plan annually in accordance with an assessment of its performance measurements in terms of section 41; and the extent that changing circumstances so demand; and may amend its integrated development plan in accordance with a prescribed process.

This Integrated Development Plan (IDP) is a product of the IDP process and represents the 2017/2022 IDP for the Thembisile Hani Local Municipality.

#### 2.4.1. IDP Organisational Arrangements

The IDP preparation process involves intensive consultation and the participation of communities, all role players and key stakeholders in order to achieve a shared understanding of the municipal development trajectory and alignment. In terms of the Municipal Systems Act, the chairperson of the executive committee or executive mayor or the chairperson of the committee of appointed councillors has the responsibility to manage the drafting of the IDP or to assign this responsibility to the municipal manager. The municipal manager is responsible for the implementation and monitoring of the IDP process.

The following IDP and LED consultative structures are utilised for the development and review of the IDP, namely:

- Mayoral Imbizo
- LED Forum and
- IDP Steering Committee
- IDP Technical Committees
- IDP and Budget Indaba
- Other specialised forums

#### 2.4.2. IDP and Budget Time Table

The following table represents the IDP/Budget Timetable with key planning milestones and phases for the development of the 2017/2022 Integrated Development Plan and Budget. The IDP/ Budget Timetable was complied with in Drafting the IDP and Budget.

## CHAPTER 2: PLANNING FRAMEWORK

Table 2.4.3: IDP and Budget Timetable.

IDP Phase	Activity	IDP Steering committee	Mayoral IDP/Budget Steering Committee	Strategic Planning Workshop	IDP/Budget Indaba	Mayoral Comm. Sitting	Council Sitting	Community Meetings	Public Notice Date	Due date for Completion of Process

## 2.5. STRATEGIC OVERVIEW

### 2.5.1. Key Statistics

Thembelesile Hani Local Municipality has an estimated population of 333 331 based on the community survey that was conducted in 2016 by Statistic South Africa and around 109 282 households as of 2015. The tables below provides a high level overview of the population demographics, unemployment rate, poverty rate and the local tourism spend within the municipality.

Table 2.5a: Demographics

Population 2011 Census	Population 2016 CS	Average annual population growth: 2011 - 2016	Projected 2030 Number
310 458	333 331	1.6%	416 282

Source: Mpumalanga Department of Finance, Mpumalanga Socio-Economic Report, 2016

Table 2.5b: Unemployment rate

Local Area	Unemployment rate: 2011 Census	Unemployment rate; 2015	Trend
THLM	37%	33,3%	Reduction in unemployment

### 2.5.2. Key Service Delivery Gaps and Backlogs

Thembelesile Hani Local Municipality has about 20 056 households without access to piped water, this is caused by the creation of informal settlements exacerbated by the allocation of stands by headmen (legitimate/ illegitimate). The municipality has not provided sanitation in terms of VIP toilets since 2013 as the community rejected pit toilets and requested the Municipality to provide a waterborne sanitation system. There are steady improvements in solid waste collection but however this is also still a challenges.

Based on the estimates that the municipality has derived using Technical reports as well as GIS information, the number of households within the municipality has increased from 75 634 in 2011 to about 109 282 in 2015. The figure provided under THLM in the table below is higher than that of Stats SA, but however the Municipality acknowledges that the official figures are those provided by Stats SA.

## CHAPTER 2: PLANNING FRAMEWORK

Table 2.5.2a: Service Delivery backlogs

Services	2011 StatsSA	2011 (SERO)	2016 (THLM)	2016 (SERO)
No of households without access to piped water	3 459	3 459	20 966	4 768
No of household without access to sanitation	52 385	1 963	81 093	2 117
No of households without electricity	5 822	5 673	29 620	1 636
Number of households in informal dwellings	7 678	7 678	6 915	6 915

Source: Stats SA 2011, Mpumalanga Department of Finance 2016, Thembisile Hani Local Municipality 2016.

Table 2.5.2b: Service deliver backlogs per service deliver area.

Services	Total No of HH	No of HH with Access	%	No of HH without Access	%
<b>2011 Statistics</b>					
Water	75 634	72 175	95.4%	3 459	4.6%
Sanitation	75 634	23 249	31.0%	52 385	69.0%
Electricity	75 634	69 812	92.3%	5 822	7.70%
Solid Waste	75 634	3 462	4.58%	72 172	94.42%
<b>New additional households that emanated after 2011 statistics and from 2014 general households survey</b>					
Water	109 282	88 316	80.81%	20 966	19.19%
Sanitation	109 282	28 189	25.79%	81 093	74.21%
Electricity	109 282	79 122	73.23%	29 620	26.77%
Solid Waste	109 282	32 675	29.90%	76 607	70.10%
Roads	967.37	97.59	10.09%	869.78	89.91%
<b>Additional households are 33 648</b>					

### 2.5.3. Audit Outcomes

This section provides an overview of the Municipality's audit outcome and actions taken to respond to findings that lead to the Auditor General's opinion. The Auditor General expressed a **qualified audit opinion** for the 2012/2013, 2013/201, 2014/2015 and 2015/2016 financial years. The findings leading to the opinion mostly relate to financial matters and the lack of adequate internal controls. The list of actions responding to these findings are listed in the Audit Action Plan (Annexure 2).

### 2.5.4. Achievements of the last 5 years

*In the last five years the municipality has built the local economy to create more employment, decent work and sustainable livelihoods in that:*

- About 3400 jobs were created at a total cost of R15 000 000 through the Extended Public Works Programme (EPWP).
- A total of 5,064 job opportunities were created through the Community Works Programme (CWP).
- 4169 jobs were created through the CRDP programme between 2011 and 2016
- We have together with the National Department of Rural Development and Land Reform facilitated the purchase of a farm at Hertzog, where 3 cooperatives were farming in cattle and food production until June 2015.
- The ANC led government in Thembisile Hani Local Municipality together with the Nkangala District Municipality has facilitated the construction of market stalls for hawkers at Vlaklaagte 2. The Municipality further has a continuing programme to register all businesses in order to comply with the Mpumalanga Businesses Act.
- The municipality has established a Local Economic Development forum in 2014 which focuses on the promotion of mining amongst other things and the role mining has on community beneficiation. Currently two mining houses are implementing projects in the municipality and employing local people. There are several mining companies that have applied for prospecting rights.
- We have facilitated the official handing over of the Moloto road (R573) to Sanral in preparation for the Moloto rail corridor development and Sanral has allocated R 3.7 billion towards the upgrade of the road.
- 15 cooperatives were supported through our empowerment policies, with skills training and the aptitude to create more jobs through participation in the following projects:

5 cooperatives participated in roads and storm water projects in Mathyzensloop, Bundu, Machipe, Tweefontein C2, and Vlaklaagte 1.

3 cooperatives participated in the programme to energize and commission highmast lights in Vezubuhle; Phumula B1 & B2; Vlaklaagte 1 (Malekelekeni); Mandela Extension; Zakheni Extension; Sun City AA; Kwamhlanga BA; Verena A, B, C & D.

- 8 learner contractors participated in water reticulation projects in Luthuli; Mandela; Kwaggafontein A (Khalanyoni); Phola Park

## CHAPTER 2: PLANNING FRAMEWORK

- 277 young MRTT learners were capacitated with skills such as bricklaying, plumbing and carpentry as part of their development programme.
- 158 SMME's were given training and supported on business skills.

***In the past five years the municipality has improved local public services and broadened access to them in that:***

### Water and Sanitation

- Over 87 345 households were provided with access to potable water at household level, which is an increase of about 23% more households with access to potable water at household level, as compared to 2011. This figure surpassed the targeted 75 634 households recorded in 2011 and amounts to 116% achievement for water supply.

- Our 38% backlog of households without access to piped water inside dwelling water was eradicated between 2011 and 2016 by the supply of water to all our households and an additional 11 980 new households.
- 20 496 new households have access to water at household level for the first time additional to the 66 849 households receiving access to water at household level in 2011.
- 28 boreholes were drilled to provide water in areas such as Wolvenkop, Rietfontein and Doornek and 8687 households have benefited from water reticulation projects since 2011 in various villages.
- We have provided a sustainable sanitation service to the communities of Tweefontein K, Kwamhlanga and other nearby areas to about 5145 households through the waste water treatment works and oxidation ponds in Kwamhlanga and Tweefontein K.
- We have provided all the residents of Thembisile with free basic services irrespective of their income status. The municipality has developed an indigent register to target particularly those households that receive income that is below R1100 per month.

## CHAPTER 2: PLANNING FRAMEWORK

- 40% of the equitable share allocation was spent on bulk water purchases in order to provide communities with a sustainable water service.

- The municipality has over the past five years implemented strategic infrastructure projects to improve water supply and to ensure storage capacity to meet consumption demands resulting from increases in the population size, particularly in the western parts and extreme eastern parts of the municipal area.

### **Roads and Storm Water**

- 96 Kilometres of new surfaced roads and the associated infrastructure such as culvert bridges and storm water drainage systems were constructed in the following areas:

Mzimuhle 1km, Sun City B 2.7km, Thokoza 2.5km, Phola Park 3km, Tweefontein J 1km, Mandela 2km, Langkloof 3.7km, Kwamhlanga B 6.3km, Kwaggafontein B 3.4km, Zakheni 1.1km, Mountainview 4km, Buhlebesizwe 2.6km, Tweefontein F 1.7km, Kwamhlanga BA 0.9km, Tweefontein A 3km, Tweefontein B2 1.3km, Tweefontein N 2km, Kwaggafontein C 0.8km, Buhlebusile (Belfast) 0.8km, Boekenhouthoek 0.3km, Vezubuhle 0.8km, Mathys-Zen-Loop 0.5km, Tweefontein G 0.5km, Kwaggafontein A 0.5km, Tweefontein E 0.5km, Thembaletu 0.3km, Luthuli 0.2km **Electricity**

- Together with ESKOM the ANC led government in Thembisile Hani Local Municipality has facilitated the electrification of 13 455 new households between 2011 and 2016. The percentage of households that are electrified increased from 69 822 (92%) in 2011 to 83 277 (110%) in 2016.
- 98 new high mast lights were constructed throughout the municipality.
- 256 new street lights were erected at major intersections in Moloto, KwaMhlanga, Tweefontein, Kwaggafontein, Buhlebesizwe, and Mathyzensloop, along the R 573.

### **Refuse Removal**

- We have increased efforts in waste collection through the appointment of more than 197 EPWP workers annually to work on the waste collection programme.
- 46% of our households have access to refuse removal collected by the local authority fortnightly compared to the 14% in 2011.

### **Build more united, non-racial, integrated and safer communities.**

***Thembisile Hani Local Municipality, has made progress in addressing the apartheid spatial planning, in that:***

- 94ha of land on portions 1, 4 and 5 of the farm Vlaklaagte 221JR for development of commercial facilities for retail trading, dwelling and other related amenities in 2014.
- We have put up a number of residential and business sites in formal townships such as Tweefontein K and Kwamhlanga A, B and C for sale, to keep up with the demands for land from our communities.
- The municipality in conjunction with the department of human settlements has distributed about 1659 RDP houses throughout the municipality in the past five years.
- The Municipality has conducted 17 awareness campaigns on the HIV/Aids pandemic in order educate the community on the issue.
- The ANC led government has facilitated the supply of mobile clinics in Langkloof and the surrounding farm areas.
- The municipality working together with the Department of Education has continuously ensured that there is a consistent water supply and the associated infrastructure around all schools within the municipality.
- Working together with the department of social development, the municipality has conducted speech contests for early childhood development and has an updated database of ECD centres. The Municipality also encouraged continued learning and adult education through its work skills plan.

## CHAPTER 2: PLANNING FRAMEWORK

---

- The municipality is continuously engaging with social partners such as mines and local business to support students with bursaries through the youth desk.
- The municipality encourages established contractors that are awarded with contracts to sub-contract at least 25% of their work to contractors comprising of youth, woman and people with disabilities.
- The municipality continuously maintains existing centres such as the Solomon Mahlangu and the Verena cluster to ensure that the youth has sufficient access to these facilities.
- The municipality has established a regional cemetery at Buhlebesizwe which covers, Buhlebesizwe and Tweefontein in 2013 and has fenced around 31 cemeteries between 2011 and 2016.
- We have through working with other Organs of the State, upgraded the Solomon Mahlangu Stadium in 2011, constructed libraries in Boekenhouthoek and Verena, and upgraded the fire station in Tweefontein industrial area.
- The municipality has a 24 hour emergency ambulance centre in Tweefontein Industrial Area to respond to emergencies at the hospital, clinics and accident scenes.
- The ANC led government has ensured that the municipality develops and approves 14 by-laws which are being implemented and monitored through the service delivery and budget implementation plan.
- There are 7 police stations in the Municipality. Five of these police stations are located or clustered in the Moloto, KwaMhlanga, Vlaklaagte and Enkeldoornoog area. The other two police stations are in Verena and Kwaggafontein.
- The municipality supports initiatives for community policing through assisting with the dissemination of information to educate communities about crime and drug abuse.

### **Promote more active community participation in local government.**

***Accordingly in the last five years Thembisile Hani Local Municipality has established a strong, accountable, resilient and transparent local government in that:***

- We established 32 functional ward committee who met regularly during the 5 past years.
- Following the directive of the office of the premier the municipality has established 32 ward war rooms to deal with service delivery issues on a daily basis.
- 12 Ward committee meetings were successfully held per ward per annum in all 32 wards.
- 384 Ward Committee meetings were held per annum.
- 128 Mayoral Izimbizo meetings were held per annum.
- 576 Mayoral outreach meetings were held between 2011 and 2018.
- Reporting formats were provided to ward committees to produce monthly reports.
- Each ward has a schedule of ward community meetings.
- The office of the Speaker monitors adherence to the schedule.
- The municipality holds annual IDP/Budget Indaba meetings to engage stakeholders and forums on development issues.
- 5 IDP and Budget Indaba's were held annually since 2011/2018.
- A total of 56 zonal IDP/Budget consultative meetings were held annually to consult on the IDP/Budget since 2011/2018.
- The municipality produces quarterly newsletters and monthly internal newsletters
- Quarterly radio slots on Ikwekwezi FM and on local radio stations.

## CHAPTER 2: PLANNING FRAMEWORK

---

- Media Statements issued as and when the need arises.
- The municipality actively participates in the Nkangala district IDP/LED forum and also sits on the technical committee meetings where alignment is discussed and monitored.

### **Ensure more effective, accountable and clean local government that works together with national and provincial government.**

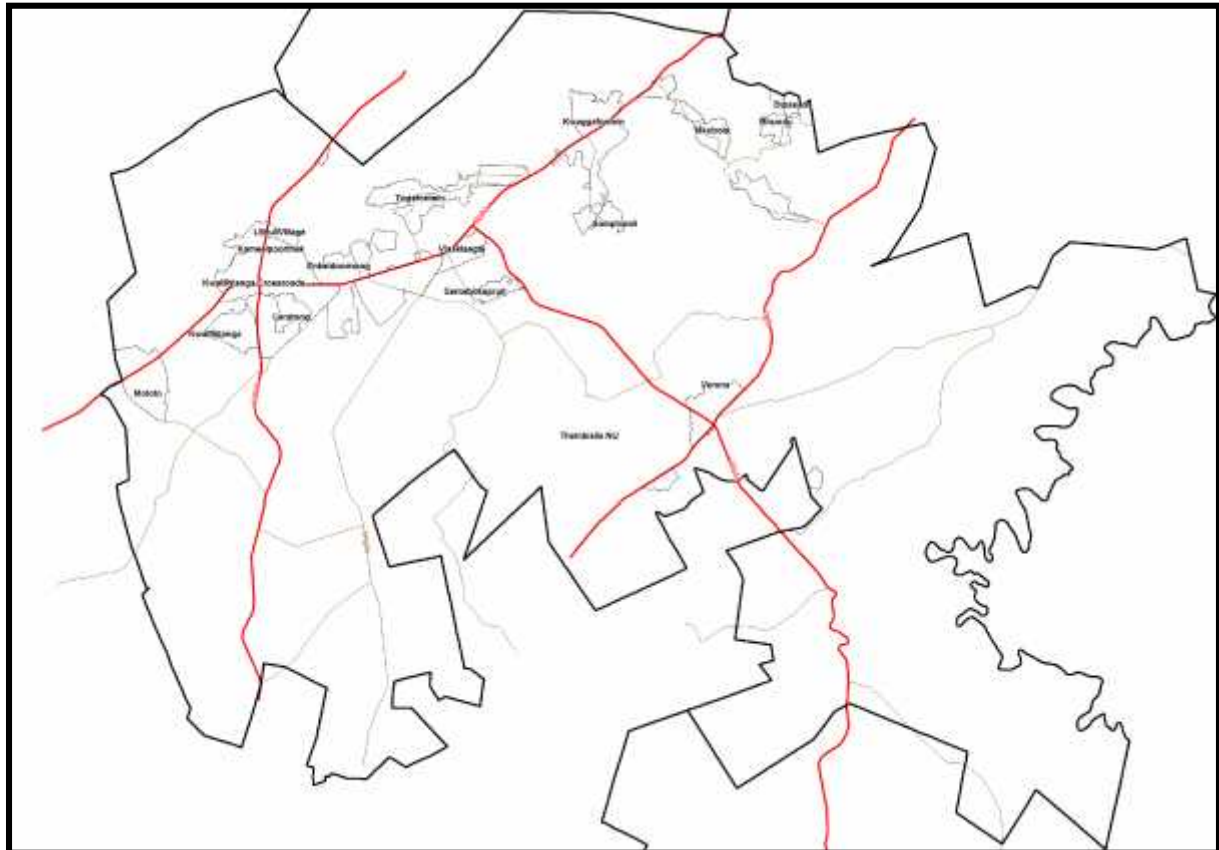

***In the past five years Thembisile Hani Local Municipality has ensured more effective, accountable and clean local government that works together with national and provincial government in that:***

- Section 79 and 80 committees sit according to the approved schedule of meetings.
- We have conducted 2 media breakfast sessions and 3 media conferences in 2012/2018.
- Issued external newsletter that are published quarterly.
- The municipality also has an active facebook page which is updated regularly and as and when required.
- Our website is functional and is updated on a regular basis.
- Each ward has a schedule of ward community meetings and the office of the Speaker monitors adherence to the schedule.
- 576 Mayoral outreach meetings were held between 2011 and 2018.
- We have filled 6 critical positions during the 2014/2015 and 2015/2016 financial years. The Municipality has a recruitment policy, work skills plan, employment equity plan and an organisational performance management system in place.
- The municipality has a low vacancy rate of about 4%. The municipality also provides training to staff and councillors annually through programmes aimed at enhancing work competency and performance.
- 128 mayoral outreach meetings were held annually to educate communities amongst other things about the importance of paying for municipal services.

3.1. MUNICIPAL LOCATION AND DESCRIPTION

Thembisile Hani Local Municipality forms part of the Nkangala District Municipality. The municipality is bordered by Dr JS Moroka in the north, Elias Motsoaledi in the north-east, Steve Tshwete in the east, Emalahleni and Kungwini in the south, and Dinokeng Tsa Taemane, now Tshwane Metro, in the west. The municipality covers an area of approximately 2 384 km<sup>2</sup> in the Nkangala district and has a population size of 310 458 people. The Municipality is predominately rural in nature and its main economic sectors include public services, retail, business services and agriculture.

**Figure 1: Spatial location of Thembisile Hani LocalMunicipality from a provincial perspective.**

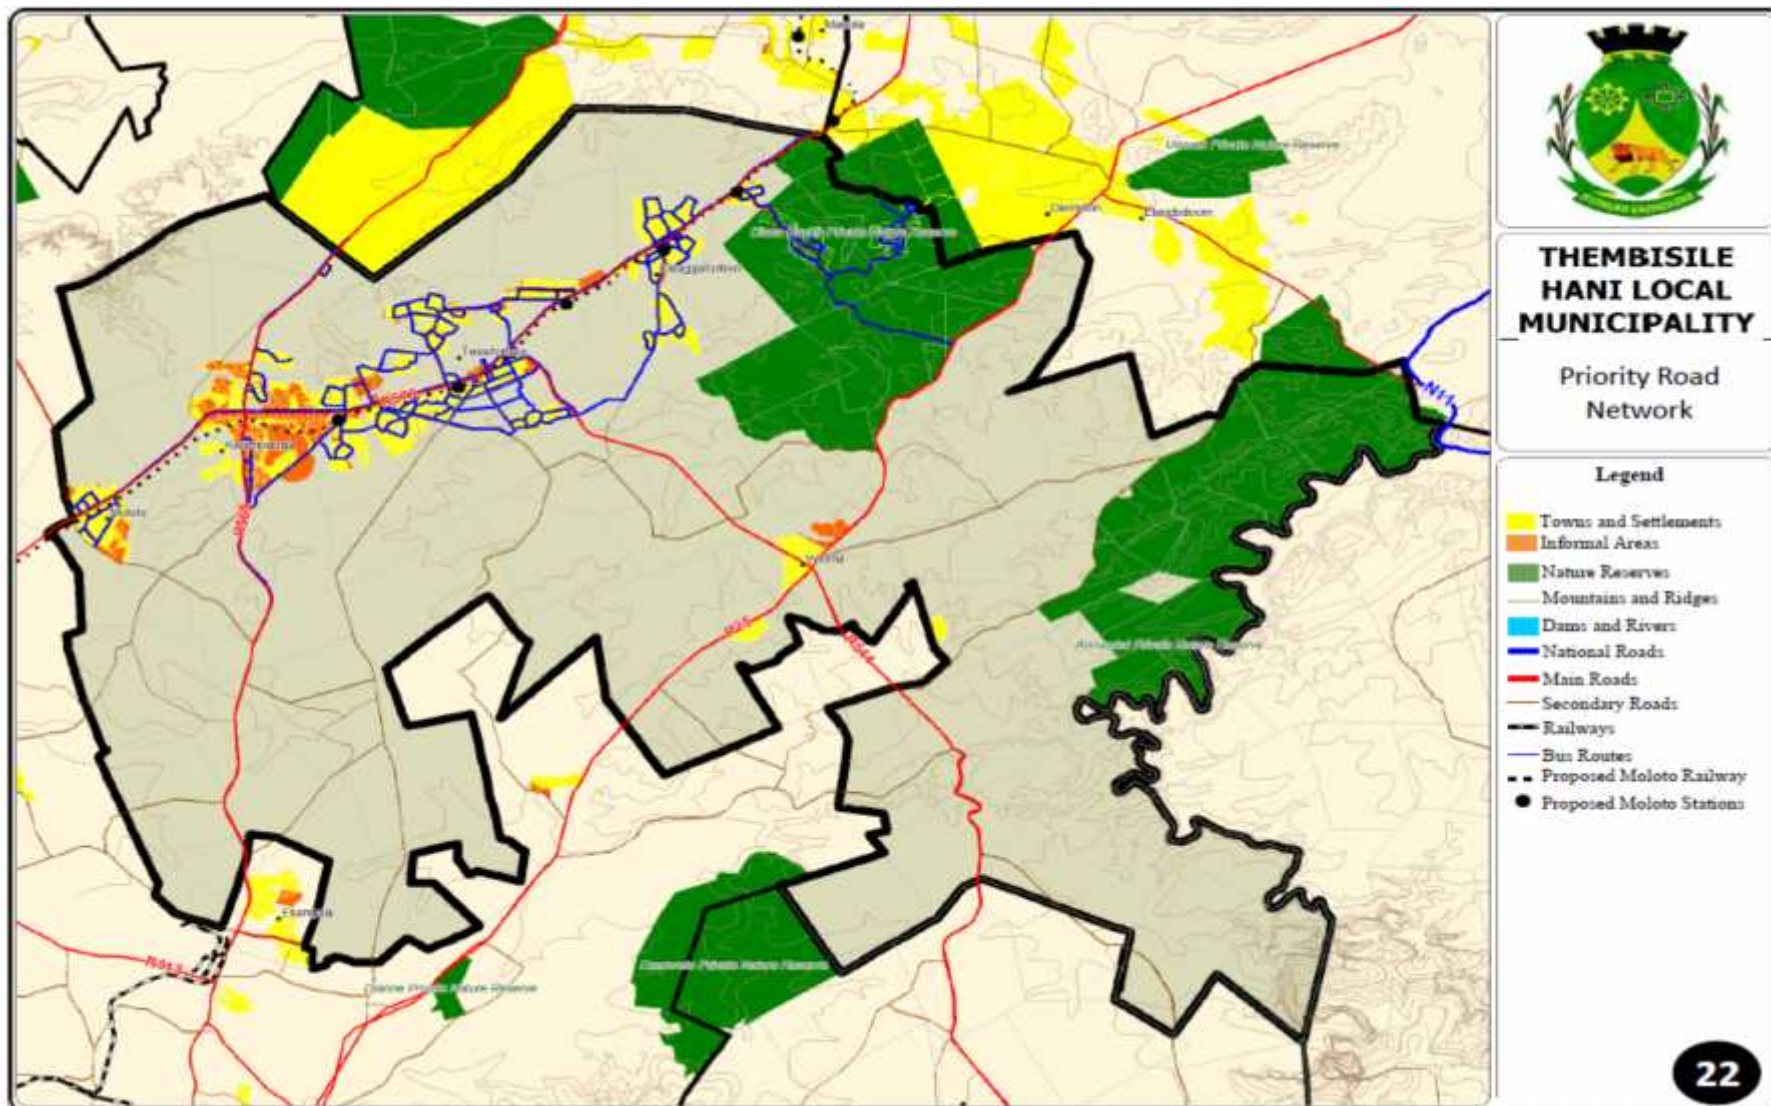

**Source: Own Diagram**

3.1.1. Main Roads

The Thembisile Hani Local Municipality is linked to the surrounding regions via several major road links. To the north is Route R568 which links KwaMhlanga to Dr JS Moroka Local Municipality and specifically to Siyabuswa town and Marble Hall; Route R573 (the Moloto road) which runs from Tshwane through Thembisile Hani towards Siyabuswa, and Route P95/1 (R25) which runs from Bronkhorstspuit past Verena northwards towards Groblersdal. To the south there are two main linkages to adjacent areas: Route R544 which links Thembisile Hani southwards past Verena to Emalahleni Local Municipality, and Route R568 which links KwaMhlanga southwards to Ekangala and Bronkhorstspuit. (Figure 3.1.1 shows the main roads in Thembisile)

### CHAPTER 3: MUNICIPAL PROFILE

Source: Thembisile Hani LM, Draft Spatial Development, 2014.

### 3.1.2. Main Areas

The five primary settlement clusters within the municipal boundaries are namely Moloto, KwaMhlanga, Kwaggafontein, Tweefontein and Verena. Other settlements include, Boekenhouthoek, Bundu, Ekangala, Ekandustria, Enkeldoornoog, Goederede, Phola Park, Seringkop, Sybrandskraal, Vlakfontein, and Witnek.

#### **Moloto Settlement**

Moloto is located in the most western part of the Municipality and is the gateway into Thembisile Hani Municipality from Gauteng. The town serves as a residential area with easy linkage to Gauteng Province. The town is divided into Moloto North and South with the R573 traversing the settlement. The settlement mostly consists of residential uses with a few scattered business uses. The largest economic centre in the area is the Big Tree Mall that located west of Moloto in Gauteng Province. The main economic activities are located in the western section of the town at the intersection of the R567 and the R 573 towards Gauteng Province.

#### **Kwamhlanga Settlement**

The KwaMhlanga nodal point is the highest order node in the Thembisile Hani municipal area that lies to the north-east of the City of Tshwane, along the Moloto Road. The spatial structure is characterised with a business core branching out along the main roads surrounded by a strong residential component. The node also enjoys very good access and visibility from two provincial roads, namely the R 573 and R568. The majority of the energy of the node is centred on the intersection of the R 573 and R568 including Crossroads Plaza with linear development taking place along the two roads. The land uses range from retail, business and service industry.

#### **Tweefontein / Enkeldoorn Areas**

The Tweefontein / Enkeldoorn area consist of Enkeldoornoog, Tweefontein and Vaklaagte and Gembokspruit. The area consists of a strong residential base and an industrial township at Tweefontein IA. The area does not have any significant shopping centres as opposed to Kwaggafontein and KwaMhlanga. It can be noted that the majority of land invasion have taken place in close proximity to the R 573 emphasising the important role of the road in the area.

#### **Kwaggafontein Areas**

Kwaggafontein is the second largest nodal point with KwaMhlanga the biggest and is situated in the western area of the municipality and is developed around the R573 with well-developed residential structure and a limited number of informal settlements. The main attractions in Kwaggafontein are, the Kwagga Plaza, which was developed in 1994, Thembisile Hani Municipal Offices, library Magistrates Court and Police Station. The smaller settlements to the east of Kwaggafontein include Mathys Zyn Loop, Boekenhouthoek, Bundu and Matshipe form part of the functional area of Kwaggafonten. The focal point of the area is Kwagga Plaza and the government facilities.

#### **Verena Areas**

Verena and is the most southern node in the Municipality and is classified as a tertiary node. The node is located at the intersection of the R25 which is an eastwest route connecting Bronkhorstspuit and Groblersdal and the R544 which connects Verena to Emalahlen. Verena is one of the focal CRDP sites with crop farming initiatives taking place in the area. The node has a limited amount of economic activities at the

intersection of the R 25 and R544 and a MPCC is also located at this intersection. Wolvenkop is located west of Verena along the R25 and consist of a small residential component and two school sites.

**3.2. DEMOGRAPHIC PROFILE**

**3.2.1. Population Size**

According to Stats SA (2011 Census), 310 458 people were recorded in 2011 which accounts for 23.7% of Nkangala's population. The population grew by 1.9% pa between 2001 & 2011. The population number is estimated to be in the area of 445 939 people by 2030 given the historic population growth rate per annum. Of the total population 52.4% are female and 47.6% are male and approximately 99.2% are Africans. Youth up to 34 years of age is estimated at 68.7% of the population and the number of households is 75 634 which amounts to 4.1 people per household and 21.2% of the total households in Nkangala. Female headed households are estimated at 46.1% and child headed (10-17 years) households at 0.9 % in 2011.

**Table: 3.2.1: Population Size**

DEMOGRAPHIC INDICATORS	Stats SA Census	Stats SACensus	Share of Nkangala's figure	Share of Mpumalanga's figure	Ranking: highest (1) - lowest (18)
	2001	2011	2011	2011	
Population number	258 871	310 458	23.7%	7.7%	5
Number of households	58 797	75 634	21.2%	7.0%	6
Area size - km <sup>2</sup>		2 385	14.2%	3.1%	15
Population per km <sup>2</sup>		130			

Source: Statistic South Africa, 2011.

**3.2.2. Population Composition**

**3.2.2.1. The gender composition**

The gender composition of the municipality indicates that 47.6 % of the population is male and 52.4 % is female. The dominance of the female population is evident over the whole age spectrum. Figure 3.2.2a below shows that there is an increased distortion in gender composition in the age groups ranging between 15 and 54 where there are noticeably less males as compared to females. This can be attributed to the migration of the male populace to the Gauteng Region to seek better employment opportunities.

**Table 3.2.2.1a: Geography by gender**

Geography	Year	Male	Female	Total
Thembisile	2001	119 928	138 944	258 872
	2011	147 659	162 775	310 434

### 3.2.2.2. The age structure

The age structure of the municipality shows a youthful population distribution. In 2001, there was strong evidence of declining fertility, which is indicated by a steady decline in the population groups 10-14, 5-9 and 0-4, this is also evident in 2011. It is also evident that the population of the municipality is concentrated in the younger age groups, with the population group between 10 and 19 being the largest. The distribution is similar for both males and females, except for the notable larger female population at all age groups. It is further evident from the graph that there is a noticeable decline in both men and women in the age category 15 – 20 years. The economically active population is standing at 62, 9%, and these are people between the ages of 15 and 64. The municipality also has a dependency ratio of 58, 9% because the rest of the population is either too young or too old to generate income. (See figure 3.2.2c below)

**Table 3.2.2.2: Age Structure**

Geography	Year	00 - 04	05 - 09	10 - 14	15 - 19	20 - 24	25-64	65+	Total

**Figure: 3.2.2.2: Age structure**

### 3.2.3. Socio-Economic Development

#### 3.2.3.1. Employment and unemployment indicators

About 97 744 people are economically active (employed or unemployed but looking for work), and of these, 37% are unemployed. Of the 48 741 economically active youth (15 – 34 years) in the area, almost half (49, 4%) are unemployed. The unemployment rate in the municipality is currently standing at 37% with the

## CHAPTER 3: MUNICIPAL PROFILE

female population accounting for most of the unemployment status. The loss of jobs and the decline in new job opportunities in neighbouring urban areas such as Witbank, Middelburg and Pretoria exacerbate the unemployment rate. The SERO further indicates the following about the Municipality:

- Unemployment rate of 37.0% (strict definition) in 2011 amounted 36 139 unemployed as a percentage of the EAP of 97 744 - decreasing trend (estimated 2013 unemployment figure by IHS Global Insight 36.4%).
- Unemployment rate for females 39.9% and males 34.1% - youth unemployment rate of 49.4% in 2011.
- Highest unemployment in Ward 30 (50.1%) & lowest unemployment in Ward 1 (29.0%).
- Employment number 17.3% of Nkangala's employed.
- Employment increased by 27 468 between 2001 & 2011 according to the Census – almost 3 000 new jobs per annum – 4% of provincial job creation target.
- Formal employment 54.3% & informal employment 22.5%.

Table 3.2.3.1: Thembisile Hani labour indicators

LABOUR INDICATORS	Census	Census	Share of Nkangala's figure	Ranking: best (1) - worst (18)
	2001	2011	2011

Unemployment rate (%)	51.2%	37.0%		15

Source: Socio-Economic Report and Outlook for Mpumalanga, 2014

The SERO report further illustrated that the leading employment industries within the municipality are community services at 30.2% and trade at 29.2%. Prevailing trends have also shown a decreasing role/share of manufacturing and trade and increasing role/share of community services & finance as the main employers.

Figure 3.2.3.1: Thembisile Hani labour indicators

## CHAPTER 3: MUNICIPAL PROFILE

### 3.2.3.2. Poverty rate

Thembisile's poverty rate is estimated at around 40% or 128 890 poor people and this makes the Municipality the poorest in the district and fourth poorest in the entire province, this is however a declining trend. The bottom 40% of households shared 12.2% of the total income in 2013. StatsSA's multidimensional poverty index (SAMPI) in Thembisile Hani has improved from 0.07 in 2001 to 0.02 in 2011.

Table 3.2.3a Poverty and inequality

Source: Statistic South Africa, 2011.

### 3.2.3.4. Education Indicators

In the Municipality citizens that are 20 years of age and older with no schooling account for 18.0% (31 711) total population of the Municipality (34.4% of Nkangala's district), and this is one of the highest in the province. The total population that are 20 years of age and older with matric & higher qualification account for the 31.6% of the total population and this has shown an improvement but is still however lower than both district and provincial averages (third lowest in the province). The functional literacy rate (15+ with grade 7+) is also improving but is still lower than the district and provincial averages. The Matric pass rate was sitting at 73.0 % in 2013 and the University/degree admission rate was only 18.0% in 2013. Thembisile Hani municipal area has 72 government funded ECD (Early Childhood Development) centres in 2014/15 financial year.

## CHAPTER 3: MUNICIPAL PROFILE

Table 3.2.3.4: Education Indicators

EDUCATION INDICATORS	Trend	Latest figure	Better (+) or worse (-) than Nkangala	Better (+) or worse (-) than province	Ranking: best (1) - worst (18)
	2001	2011			
Number of people 20+ with no schooling	43 736	31 711			15
Population 20+ with no schooling (%)	33.9%	18.0%	(-) (11.5%)	(-) (14.0%)	13
Population 20+ with matric & higher (%)	19.6%	31.6%	(-) (40.2%)	(-) (38.8%)	16
Functional literacy rate (%)	57.5%	71.8%	(-) (79.0%)	(-) (76.9%)	14

### 4.1. SPATIAL RATIONALE AND DEVELOPMENT

The Spatial Development Framework forms one of the core component of a municipality's IDP as prescribed in Section 26(e) of the Municipal Systems Act, 2000 (Act 32 of 2000). The SDF is therefore the principal planning document, which should inform all decisions pertaining to spatial planning, development and land use within the municipal area.

The main objective of the spatial rationale is to provide an overview of the municipality's spatial structure and pattern in order to effectively guide all decisions that involve the use and development of land or planning for the future use and development of land. These decisions include:

- Land use management decisions on applications for the change in land use, such as rezoning or subdivision applications
- Decisions on where and how public funds (municipal and other government agencies) are invested, such as extension of bulk service networks, or provision of community facilities
- Guide developers and investors to appropriate locations and forms of development.

#### 4.1.1. Legislative and Policy Context

The major legislative, policy and planning documents with direct impact on spatial planning and the spatial economy which need to be highlighted in this part of the IDP include:

##### **Spatial Planning and Land Use Management Act 16 of 2013**

The Spatial Planning and Land Use Management Act is a legislative framework for spatial planning and land use management legislation in South Africa. It seeks to promote consistency and uniformity in procedures and decision-making in area. The other objects include addressing historical spatial imbalances and the integration of the principles of sustainable development into land use and planning regulatory tools and legislative instruments. The Act further prescribes development principles, norms and standards which must be adhered to in order to have spatial planning, land development and land use management that promote:

- Spatial justice
- Spatial sustainability
- Efficiency
- Spatial resilience
- Good administration

### National Development Plan (NDP)

The National Development Plan aims to eliminate poverty and reduce inequality by 2030. South Africa can realise these goals by drawing on the energies of its people, growing an inclusive economy, building capabilities, enhancing the capacity of the state, and promoting leadership and partnerships throughout society. It is a plan for South Africa and it provides a broad strategic framework to guide key choices and actions. Given the complexity of national development, the plan sets out six interlinked priorities:

- Uniting all South Africans around a common programme to achieve prosperity and equity.
- Promoting active citizenry to strengthen development, democracy and accountability.
- Bringing about faster economic growth,
- Higher investment and greater labour absorption. Focusing on key capabilities of people and the state.
- Building a capable and developmental state.
- Encouraging strong leadership throughout society to work together to solve

### The National Spatial Development Perspective (NSDP)

The NSDP puts forward five principles to spatially guide development decisions and investment priorities throughout the country. A brief summary of these principles is given below:

- **Economic growth** is a prerequisite for the achievement of other policy objectives, key among which would be poverty alleviation.
- **Government spending on fixed investment**, beyond the constitutional obligation to provide basic services to all citizens (such as water, electricity as well as health and educational facilities), would therefore be focused on localities of economic growth and/or economic potential in order to attract private-sector investment, stimulate sustainable economic activities and/or create long-term employment opportunities.
- **Efforts** to address past and current social inequalities **should focus on people, not places**. In localities where there are both high levels of poverty and development potential, this could include fixed capital investment beyond basic services to exploit the potential of those localities.
- **In localities with low development potential, government spending, beyond basic services, should focus on providing social transfers, human resource development and labour market intelligence**. This will enable people to become more mobile and migrate, if they choose to, to localities that are more likely to provide sustainable employment or other economic opportunities.
- In order to overcome the spatial distortions of apartheid, **future settlement and economic development opportunities should be channelled into activity corridors and nodes that are adjacent to or link the main growth centres**. Infrastructure investment and development spending should primarily support localities that will become major growth nodes in South Africa and the Southern African Development Community region to create regional gateways to the global economy.

***Essentially then, to align its self with the directives provided by the NSDP, a Spatial Planning for the Thembisile LM should ensure that:***

- *Areas displaying significant economic development potential (like Verena and KwaMhlanga) become the focus of more extensive infrastructure spending.*
- *Areas displaying little or no potential for economic development are targeted for receiving the constitutionally mandated minimum levels of services; and*
- *Development opportunities are channelled into activity corridors and nodes that are adjacent to, or link main growth centres. (See SDF for comprehensive analysis)*

### **The Comprehensive Rural Development Programme (2009)**

The goal of the CRDP is to achieve social cohesion and development by ensuring improved access to basic services, enterprise development and village industrialisation. The CRDP implements broad based-agrarian transformation focussing on community organisation and mobilisation as well as strategic investment in economic and social infrastructure. The CRDP proposes an approach that addresses the needs of the person, household, community and space. It is built on the premise that rural areas in the country have the potential to be developed in a way that generates jobs and economic opportunities, thus providing an alternative to the urban centres, and contributing to the reduction in rural-urban migration. Furthermore, although agriculture plays a significant role in rural development, the CRDP proposes diversification of the rural economy, according to conditions prevailing in different areas.

The ultimate vision of the CRDP of “creating **vibrant, equitable and sustainable rural communities**” was to be achieved through a three-pronged strategy process based on:

- Coordinated and integrated broad-based agrarian transformation;
- Strategically increasing rural development; and
- An improved land reform programme.

***Essentially then, to align its self with the directives provided by the CRDP, Spatial Planning for the municipal area of Thembisile should help to ensure:***

- *Increased access to land, especially by previously disadvantaged people.*
- *Economic growth and housing development by providing government and private agents with essential land information – for example the delineation of Strategic Development Areas (SDA's).*
- *The sustainable development and provision of infrastructure conducive to economic and social development.*
- *The sustainable use of natural resources.*
- *The provision of up-to-date spatial information, especially information pertaining to land claims.*

### **The Mpumalanga Provincial Growth and Development Strategy (PGDS 2004-2014)**

The aim of the Mpumalanga PGDS is to promote integrated planning, which will enable development to be delivered in an efficient and co-ordinated manner in the Province. The PGDS is considered a strategic document in as far as it ties in with National, Provincial and Local level policies, while it spells out broad strategies on a sectoral level, which should serve as a guideline to all sectors and their initiatives.

The Province has identified six priority areas of intervention. These priority areas have been identified primarily based on the social, economic and developmental needs of the Province, namely;

- Economic Development.
- Social Development Infrastructure.
- Social Development.
- Sustainable Environmental Development.
- Good Governance.
- Human Resource Development.

***In order to align its self with the directives provided by the Mpumalanga PGDS, Spatial Planning and development in Thembelesile must consider the following key priorities:***

- *Maximising the provincial benefits from the mining and energy sectors while mitigating any environmental impacts*
- *Using indigenous resources to create jobs*
- *Supporting the industrial and service sectors to create jobs*
- *Reducing impact of poverty through social services*
- *Strengthening sustainable development*
- *Governance and Spatial Integration*

### **Thembelesile Hani Spatial Development Framework (2014)**

The focus of the Spatial Development Framework for the Thembelesile Hani Local Municipality is primarily to deal with the spatial restructuring. The Spatial Development Framework (SDF) will assist the municipality to carry out planning effectively and efficiently. The SDF forms part of the municipal IDP as prescribed by legislation, and serves as a guiding tool for the overall spatial distribution of current and desirable land uses and land development projects in order to give effect to the vision, goals and objectives of the Municipality, the District, the Province and the country as a whole.

***In line with national and provincial policies and strategies, the following development principles and objectives should be considered for effective spatial development within the municipality:***

- *Government investment should be focused on areas with the potential for sustainable economic development;*
- *Areas with high development potential should receive investment beyond basic services to promote the development potential;*
- *Areas with low development potential should receive investment to provide basic services as well as social transfers, human resource development and labour market information;*
- *Future settlement and economic development opportunities should be focused on activity corridors and nodes that are adjacent to or linked the main growth centres;*
- *Increase and/or consolidate the existing urban footprints in the Municipality by way of infill development and densification;*
- *Importance of re-integrating previously segregated areas with areas of opportunity;*
- *Exploit the development potential along the Moloto Corridor by way of investment beyond basic services (social, technical, and transportation); and*
- *Importance of rail for commuting and transporting goods;*
- *Ensure that all future development is environmentally sustainable and promotes biodiversity conservation; and*
- *Importance of equipping rural populations (through skills and education, and by providing infrastructure) with a choice and opportunity to uplift themselves.*

### **4.1.2. Spatial Location and Description**

Thembisile Hani local municipality is located in the western region of the Nkangala District Municipality, in the vicinity of Siyabuswa, and covers a geographical area of approximately 2,384 square kilometres. Townships and settlements within the municipal boundaries include: Boekenhouthoek, Bundu, Ekangala, Ekandustria, Enkeldoornoog, Goederede, KwaMhlanga, Kwaggafontein, Moloto Phola Park, Seringkop, Sybrandskraal, Tweefontein, Vlakfontein, Verena, and Witnek (see Figure 4.1.2).

The Municipality, together with Dr JS Moroka LM, are home to the majority of settlements in the former Kwandebele homeland, created by apartheid removals. Most of the urban, peri-urban and agricultural settlements are situated along the R573 Provincial road also known as the Moloto Road. The road serves as a major transportation route in the municipality, linking it with Marble Hall and Groblersdal to the east and Gauteng to the south-west. Many future residential and economic developments in the region are planned along the Moloto Corridor. Consequently, Thembisile Hani Local Municipality offices and settlements along the Moloto Corridor are strategically located in terms of providing local population.

The District and Local SDF places strong emphasis on the Moloto Development Corridor, considering its strategic linkage to Tshwane and Sekhukhune/ Burgersfort. According to the District SDF, the majority of future residential and economic development in the region should be promoted along the Moloto Rail Corridor, seeing as there is already a conglomeration of settlements in the north-western extents of the District. The intention is that the Moloto Road and the proposed future Moloto railway line should serve as a Local activity spine promoting development in and around all the major townships and settlements in these areas.

Currently, the settlements along the Moloto Road are mainly residential areas and communities in these areas rely on the City of Tshwane/ Gauteng Region for employment opportunities and economic activities. These former homeland areas are now in need to be integrated into the regional spatial structure and regional economy. By improving the regional linkages through these areas, regional traffic can be promoted to move through the area. This could consequently improve the exposure of the area and thereby stimulating economic growth and development through generating economic activities (including industries) and stimulating a viable local economy. Functionally, this corridor would also link communities in Greater Sekhukhune as well as the Platinum activities along the Dilokong Corridor in Burgersfort, to Tshwane. The upgrading and maintenance of Moloto Road and/ or the construction of the Moloto railway line, together with the concentration of activities are essential for the success of this initiative.

The Moloto Rail Corridor Project identified 24 potential railway stations along this corridor of which several are within the Thembisile Hani Municipal jurisdiction. The Moloto Corridor Development Study furthermore suggested that future urban development be consolidated around these railway stations by way of Transit Orientated Development.

Having said that, the area of Thembisile Hani is characterised by a large rural component and high unemployment; the area is isolated and has a very narrow economic base. The north-western regions of the District are characterised by subsistence farming and rural residential uses. According to the District IDP, the initiation of community farming projects is necessary to enhance the agricultural sector in this area and to address the high poverty levels. The IDP also states that the mining activities in the south of the region and especially in the Thembisile Hani Municipality should be enhanced, to contribute to job creation for poor and unskilled workers and communities.

Development of nodes at Kwaggafontein and KwaMhlanga in Thembisile Hani Municipality are also proposed through the concentration of economic activities and social facilities.

### **4.1.3. Settlement Pattern**

Thembisile is a semi-urban local municipality with 32 wards and consists of 64 villages and within which there are 5 established townships. The spatial distribution of settlements throughout the Municipality is linear and converges along the Moloto/Groblersdal road (Road R573) which runs from southwest to northeast through the northern part of the municipal area. These settlements comprise Moloto which is the first settlement along the Moloto Road as you enter Thembisile Hani Municipality from the east, followed by KwaMhlanga, Enkeldoornoog and Phola Park further to the east, then the Tweefontein complex to the north and south of route R573, followed by Vlaklaagte 1 and Buhlebesizwe around it. It is then followed by the Kwaggafontein settlement further towards the northeast and then the Zithabiseni, Goederede and Bundu settlements further towards the east.

Apart from this settlements towards the northern part of the municipal area, there is also a smaller concentration of settlements in the Verena vicinity to the southeast.

### **4.1.4. Land Ownership and Land Use Composition**

The majority of the population reside in rural areas. The rural areas are the most underdeveloped with large open spaces. Most of the areas in-between settlements are utilised for grazing and ploughing purposes resulting in these areas being under constant threat of environmental degradation. The physical development in these areas largely takes place in reaction to new needs that develop over time. Large disparities exist between the different communities with regard to their respective levels of development. The size of the Municipality has brought about a situation where there are villages that are fairly well developed in contrast with other rural areas, which have developed very slowly. In addition to this, there

are villages which have over time proven themselves as natural growth centres (villages that have larger populations with better infrastructure but not proclaimed). Due to continued population growths, there is an urgent need to provide housing in order to avert uncontrolled settlements.

Land in the rural areas is held in trust by government for the traditional authorities. The current arrangements with National and Provincial government make private land ownership difficult. In such cases, the individual has to get the necessary approval from the traditional council, the site has to be properly surveyed, and the diagram submitted to the offices of the Land Surveyor General in Pretoria for approval. In practice there are few examples of people getting private land ownership in this manner, as traditional councils are in general very hesitant to part with their land. At present there are no clear land ownership titles.

The Municipality has Spatial Planning and Land Use Management bylaw which operates throughout the Municipality. Apart from the newly approved bylaws, a number of stakeholders are also involved in the allocation and use of land without having entered into a memorandum of understanding with the Municipality. These are Traditional councils, the Municipality and other government departments; this situation further contributes to a slow development, specifically in the rural areas.

On a macro scale the majority of prevailing land uses within the Municipality include, commercial, conservation, cultivated land, residential, subsistence farming and large pockets of unspecified land parcels, fundamentally zoned agricultural. Currently, the Municipality has a Land Use Management Scheme (2010) to regulate land development and land use in the entire municipal area.

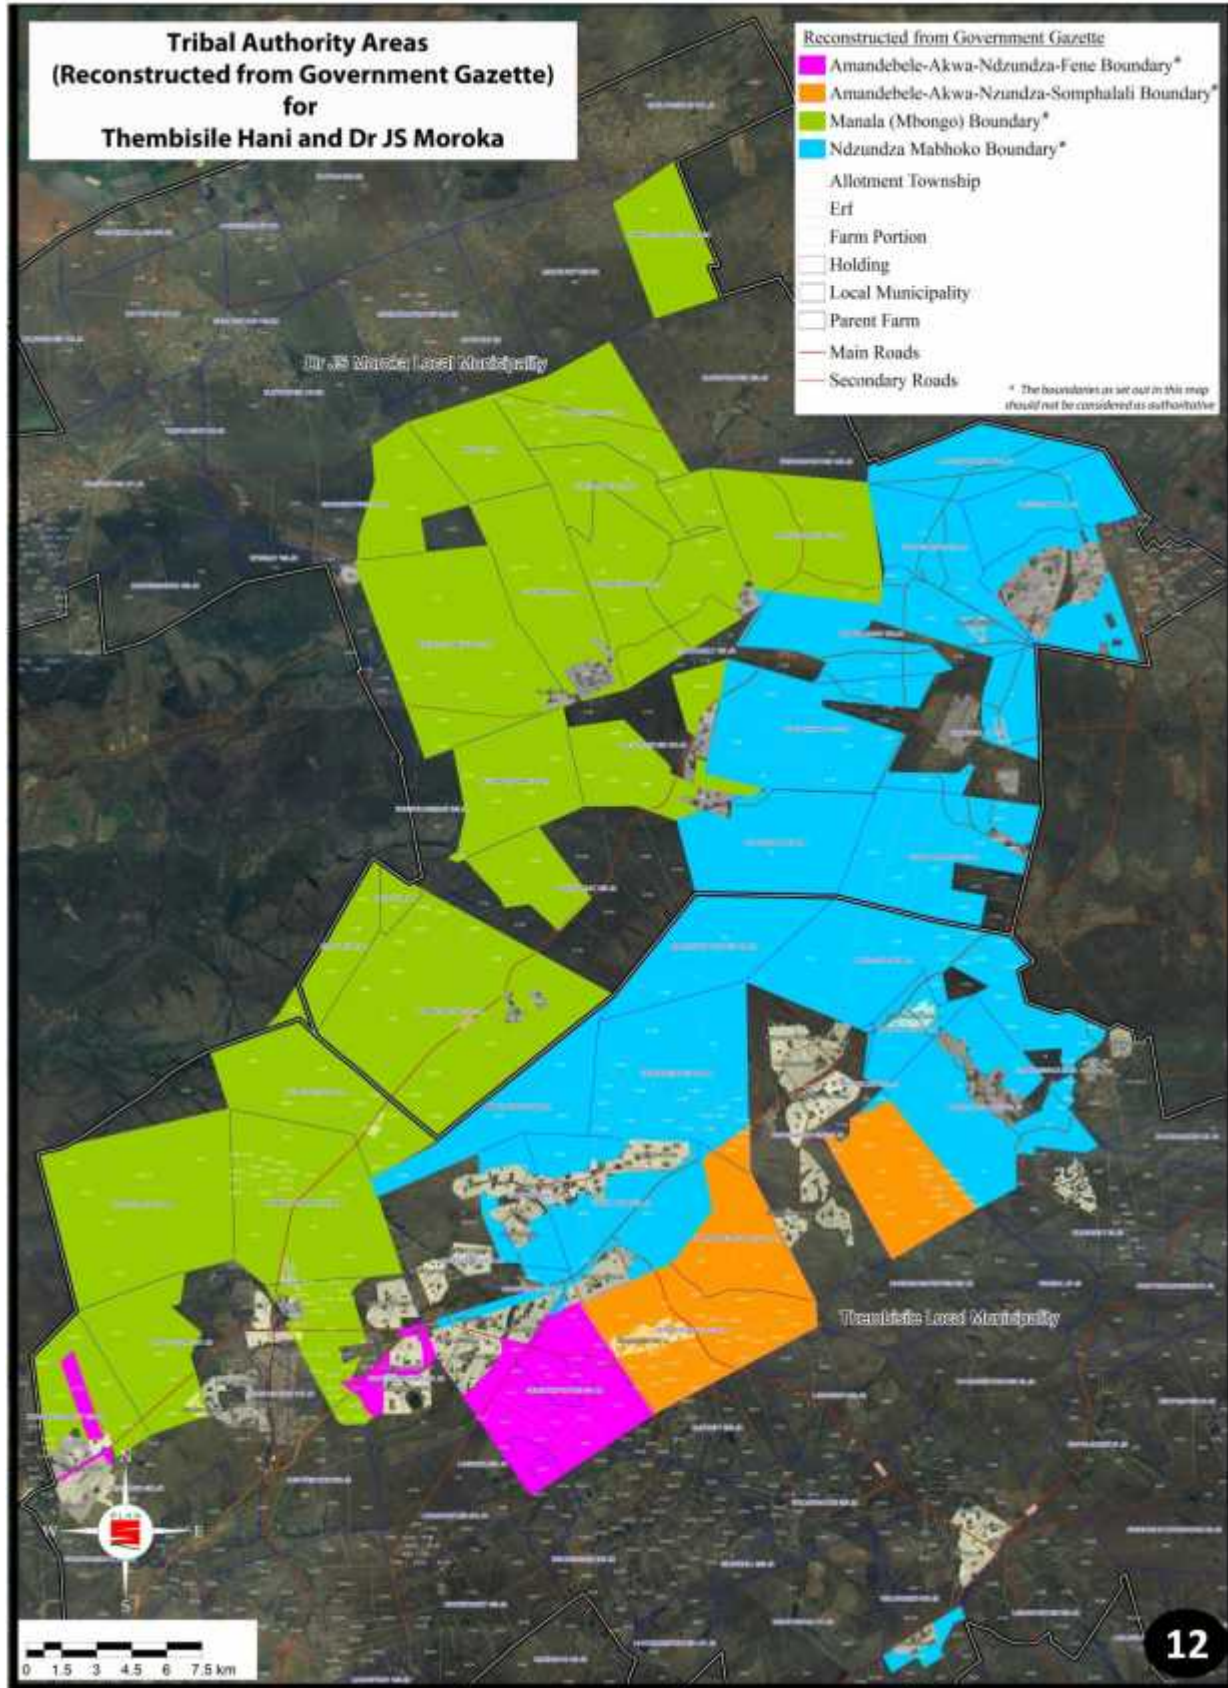

### 4.1.5. Land Ownership in Traditional Areas

The majority of land in the Municipality belongs to the State and falls under Tribal Authority. The Municipality does not own significant land within the municipality. The six main Tribal authorities who are present in Thembisile Hani Local Municipality are as follows:

- Ndzundza Fene Tribal Authority,
- Ndzundza Somphalali Tribal Authority,
- Ndzundza Mabhoko Tribal Authority
- Manala Mbongo Tribal Authority,
- Manala Mgibe Tribal Authority and
- Manala Makerana Tribal Authority and
- Machipe Tribal Authority.

The boundaries of the Tribal Authority areas were reconstructed by Government Gazette Notices. It can be noted from the figures that the proclaimed townships within the municipal area are excluded from the Traditional Authority areas. Land invasion is a major problem within the Municipality with Traditional Leaders allocating land to individuals without proper planning processes being followed. Road and power line servitudes are disregarded in the process which then causes further challenges when the areas need to be formalized. A further challenge, which is being experienced between the Traditional Authority and the Local Municipality, is the lack of integration and cooperation.

Figure 4.1.5 below represents the jurisdiction area for traditional authorities

Source: Thembisile Hani Spatial Development Framework 2014.

**4.1.6. Land Claims**

Almost the entire Thembisile Hani municipal area is subject to land claims. Most of this land is also currently state owned. The total number of land claims within the Municipality amount to 133 and they are located on 60 individual properties. Most of these claims are located in the KwaMhlanga area, which has a total of 82 claimants on 29 properties. (See Municipal SDF for detailed information on land claims)

### 4.1.7. Illegal Land Occupation and Informal Settlements

There are several incidences of informal settlements in the Municipality. This represents areas that have been informally or illegally developed, (informal to suggest that they are not proclaimed) but which have not been formalised yet.

The allocation of land for development and residential purposes is not regulated correctly. Land is usually allocated by traditional authorities and the municipality. Traditional authorities allocate land without due consideration for the long term impact the development will have on the environment and service infrastructure, and vice versa, the impact the environment will have on development and consequently people. Proper planning and the related studies are not conducted by these authorities before land can be subdivided and allocated. This results in the allocation of land in environmentally sensitive areas such as stream and wetlands. People also have the inclination of building structures along road reserves, particularly along the R573 (Moloto) road. The Municipality also has a number of un-proclaimed

## CHAPTER 4: SPATIAL, ENVIRONMENTAL AND SOCIO-ECONOMIC ANALYSIS

settlements without survey diagrams and the formalisation process for these settlements has not been concluded.

### 4.1.8. Transport Networks

Thembisile Hani Local Municipality is linked to the surrounding regions via several major road links. The Municipality is linked in the north (KwaMhlanga to Siyabuswa town and Marble Hall) via the R573 route, which runs from Tshwane through Thembisile Hani towards Siyabuswa, and Route R25 which runs from Bronkhorstspuit through Verena and northwards towards Groblersdal. In the the south there are two main linkages to adjacent areas, Route R544 links the Municipality to Emalahleni Local Municipality, and Route R568 also links KwaMlanga southwards to Ekangala and Bronkhorstspuit.

The most prominent linkage between Thembisile Hani and the surrounding municipal areas is along route R573 (the Moloto Road) in a south-westerly direction towards Tshwane. It is estimated that in excess of 25,000 people commute along this road to Tshwane on a daily basis. The main mode of transport in this regard is by bus. This route also carries the highest number of vehicles in the municipality, and as a result, has developed into an “activity spine” around which the majority of residential, industrial and business development of the Municipality has established during the past few years.

There are, however, also many negative aspects associated with this commuter route. First and foremost is the high number of serious vehicle accidents on this road. Secondly, commuters spend a large amount of time and money daily to reach their place of work, which makes the system highly inefficient. It also implies that commuters remain dependant on retail and community facilities in and around their place of work, while the Thembisile Hani and Dr JS Moroka Municipality’s lack the critical mass required to viably support facilities of this kind. The area also lacks a local public transport feeder system.

Apart from the bus service which serves the community along R573 as well as a secondary public transport road network which runs through the different settlements, there is also an extensive taxi service in the Thembisile Hani Municipal area. The taxi service is especially concentrated around six different taxi ranks, namely KwaMhlanga (Phola Park), Vlaklaagte 2, Enkeldoornoog B, Kwaggafontein, Mathys Zyn Loop and Verena.

### 4.1.9. Strategic Development Areas

The existing spatial pattern and trends in Thembisile Hani must be consolidated as far as possible, and infill development must be done on vacant portions of land between different settlements in order to create one consolidated urban structure around the Moloto Corridor. In future, the bulk of residential and economic development in the municipal area must be promoted along the Moloto corridor seeing as the road is strategically located and there is a trend for people to settle in this area rather than further towards the east. The intention is that the Moloto corridor (which includes the Moloto road and railway line) should serve as a local activity spine for Thembisile Hani Municipality.

Furthermore the majority of growth and development initiatives should be focused towards the western portion of the Moloto route, which includes the settlements of Moloto, KwaMhlanga, Enkeldoornoog, Vlaklaagte and Tweefontein. The main reason for this is that, these parts of Thembisile Hani are the nearest to the economic activities of Gauteng and in so doing the travelling time and costs will be reduced for residents. The eastern conglomerate of settlements which includes Kwaggafontein, Mathysenloop, Boekenhouthoek and Goederede should also be promoted, but these areas are unlikely to grow as rapidly and extensively as the western half of the Municipality, which functionally interacts much stronger with Gauteng Province. The National Department (NDoT) and Public Rail Agency of South Africa (PRASA) have since submitted the report to the National Treasury as part of expending and securing funding to the projects through the medium term funding. The National Department of Transport and Public has since secure funding from India and it was announce in the SOPA by president of South Africa and the tune of 30 billion.

**The Municipal SDF has a set of priority expansion areas/direction of expansion for the various urban complexes of Municipality. These Strategic Development Areas include the following:**

- SDA 1:** *The area around the Moloto route between Moloto and KwaMhlanga (The Moloto settlement should thus expand in an easterly direction along the Moloto road and the proposed Moloto rail alignment).*
- SDA 2:** *The area between KwaMhlanga and Enkeldoornoog which will represent infill development close to the KwaMhlanga Business Node and proposed railway station.*
- SDA 3:** *The eastern expansion areas around Kameelpoortnek towards the north of the KwaMhlanga intersection.*
- SDA 4:** *The vacant area between route R573 (Moloto Road) and the northern extensions of Tweefontein (A, B, C, D, K, N and M).*
- SDA 5:** *The vacant area between Vlaklaagte 2 and Vlaklaagte 1 to the south of the Moloto road and rail.*
- SDA 6:** *The area adjacent to route R573 (north and south) towards the west of Kwaggafontein, and surrounding the Kwaggafontein industrial area.*
- SDA 7:** *The area to the south of Verena (towards Wolvenkop) and towards the north (Wellas) where informal settlement is already taking place.*

Source: Thembisile Hani Municipality Spatial Development Framework 2014

#### **4.1.10. Areas of Consolidation and In-suite Development**

The Municipality currently has 7 Strategic development areas earmarked for future expansions and new township establishment/ development projects. It is the municipality's intention to promote and consolidate future township establishment projects within the identified SDA's. The Municipality's Spatial Development Framework proposes that the existing spatial pattern and trends in the municipal area be consolidated as far as possible, and that infill development be done on vacant portions of land between different settlements in order to create one consolidated urban structure around the Moloto Corridor.

It is proposed that the bulk of future residential and economic development in the municipal area be promoted along the Moloto corridor. The intention is that the Moloto corridor (which includes the Moloto road and railway line) should serve as a local activity spine to Thembisile Hani Municipality.

Furthermore the majority of growth and development initiatives should be focused towards the western portion of the Moloto route, which includes the settlements of Moloto, KwaMhlanga, Enkeldoornoog, Vlaklaagte and Tweefontein. The housing counts conducted indicated that there is a trend for people to settle in this area rather than further towards the east. The main reason for this being the fact that this part of Thembisile Hani is the nearest to the economic activities of Gauteng which limits the travelling time and costs for residents from these areas.

The eastern conglomerate of settlements which includes Kwaggafontein, Mathyzyn Loop, Boekenhouthoek and Goederede should also be promoted, but it is believed that this area will never grow as rapidly and extensively as the western half of the Thembisile Hani area which functionally interacts much stronger with Gauteng Province.

Thembisile Local Municipality also experienced a significant population growth and the resulting needs for land, municipal services and infrastructure and housing. The municipality's planning functioning are currently vested with Nkangala District Municipality, however the municipality is the first point of entry in receiving application and planning enquiries. The municipality has prioritised the following consolidation and new township development projects that will be implemented in partnership with Nkangala District Municipality and the Provincial Department of Cooperative Governance and Traditional Affairs.

### 4.2. ENVIRONMENTAL ANALYSIS

#### 4.2.1. Topography, Hydrology and Climate

The northern part of the Municipality is mountainous and forms part of a number of existing nature reserves. The Dikwale/ Dithaba mountain range that extends in a north-south direction, separating the Thembisile Hani and Steve Tshwete Local Municipalities, is the most significant topographical landform in the area.

Apart from the undulating topography, several rivers and streams run through the municipal area. The majority of these form part of the Olifants River system. In total 80% of Thembisile Hani falls within the Middle Olifants sub-WMA, while the remaining southern portion (20%) falls within the Upper Olifants sub-WMA. The northern area of the district is drained by the Elands River, which flows in an easterly direction to join the Olifants River. The general direction of drainage is towards the northeast.

#### 4.2.2. Vegetation

The Sourish Mixed Bushveld is the dominant vegetation type in the region, and covers most of the south-western parts of the Municipality. The eastern mountainous areas are covered with Mixed Bushveld Veld Types. As far as Soil Types are concerned, the mountainous areas comprise of rock areas with intermittent occurrences of Glenrosa and/or Mispah forms, while the central and western parts are predominantly covered with Plinthic Cantena and Margalitic soils.

#### 4.2.3. Geology and Mineral Potential

The occurrence of minerals in Thembisile Hani is very high in comparison to the other local municipalities within the Nkangala District. Very large deposits of refractory (flint) are present in the south-western regions. Apart from these large deposits, various smaller deposits of Gold, Tin, Copper, Lead, Manganese, Uranium, Nickel, Cobalt and Silver occur throughout the municipal area. Active mines in Thembisile Hani include Boekenhoutskloofdrift, Roodepoort, Loopspruit, Nooitgedacht and Blesbokfontein.

Generally, the soil and geological formations are fairly stable and do not pose significant development constraints to the region.

#### 4.2.4. Biodiversity, Conservation Areas and Nature Reserves

The Municipality boasts two rather large nature reserves, namely the Mabusa Nature Reserve and the Loskop Dam Nature Reserve; as well as the smaller SS Skosana Nature Reserve in the north.

In terms of conservation, the Municipality is a very important area in the District for threatened species, second only to Emakhazeni. In total, the Municipality supports 70 threatened species, and four Red Data species of urgent threat status. All four Red Data species occur within the confines of the Loskop Dam Nature Reserve, which is managed by the Mpumalanga Parks Board. The only Red Data frog species occurring within NDM is the Giant Bullfrog (*Pyxicephalus Adspersus*) (Near-threatened), and this species has been recorded in the Municipality.

***The most critical areas in respect of biodiversity and environmental sensitivity are:***

- *The Loskop Dam Nature Reserve (mammals, birds, reptiles); and*
- *The ecological corridors connecting the numerous nature reserves and conservancies in the south-eastern and north-eastern extents of the municipal area.*

Existing nature reserves in the region include the SS Skosana Nature Reserve between Goederede and Mathys Zijn Loop; the Mabusa Nature Reserve between the R573 and R25; and the Loskop Dam Nature Reserve. At regional level there is potential to link all these nature reserves to one another, as well as to the Mukhombi Nature Reserve in the Dr JS Moroka LM, to form one continuous macro nature reserve.

### **4.3. SOCIO-ECONOMIC ANALYSIS**

#### **4.3.1. Integrated and Sustainable Human Settlements and Housing**

The lack of housing has been highlighted as one of the key challenges facing communities during many community outreach meetings. A housing survey conducted in 2009 indicated a huge backlog in housing delivery. Many people within the municipality live in informal houses (mud houses and shacks) which are either too old to be inhabited or a structurally weak and are thus vulnerable to being destroyed by bad weather (storm/rain during the summer). The housing survey revealed that there was a housing backlog of about 9764 units, and there are currently no recent statics to gauge whether or not this backlog has increased or subsided.

- *The municipality needs to identify and reserve land for integrated human settlements*
- *Fast-track the completion of existing housing projects*
- *Formalise existing human settlements and areas*

The unavailability of an Integrated Human Settlements plan and the retention of land for integrated human settlements have over time resulted in the eruption of informal settlements in almost all the municipal areas. This is exacerbated by the allocation of land by some traditional authorities without having considered the necessary impacts.

The Municipality has also participated in housing delivery programmes with National and Provincial Departments of Human Settlements over the years. The programs that were used to fund some of the housing development projects in the municipality include:

- Projects link programme (Greenfields programme)
- Peoples Housing Process
- Community Based Rural Subsidy Programme
- Disaster/Emergency Programme
- Community Based Individual Subsidy

**4.3.2. Health**

Thembisile is served with health care facilities such as clinics and visiting points. The following health facilities are provided within the Municipality:

Facility Name	Location	Number
<b>Kwamhlanga Hospital</b>	Kwamhlanga	1
<b>Community Health Center (24 Hour Service)</b>	Buhlebesizwe / Vlaklaagte 2, Kwaggafontein, Moloto, Verena, Kwamhlanga, Thembaletu	6
<b>Clinics (8 Hour Service)</b>	Empilweni, Gemsbokspruit / Mzimuhle, Goederede, Vlaklaagte 1, Kameelpoortnek, Tweefontein C, Tweefontein D, Tweefontein A, Tweefontein M, Vriesgewacht,, Tweefontein H, Boekenhouthoek/ Zithabiseni and Kwagga A, Tweefontein G	15
<b>Mobile Clinics</b>	Verena CHC Mobile, Thembaletu CHC Mobile, Kwaggafontein CHC Mobile, Moloto CHC Mobile, Machipe Mobile and Langkloof CHC Mobile	6

Both primary and secondary health care facilities are problematic in certain areas due to limited resources, which make it difficult to ensure that all the communities are provided with the minimum acceptable levels of health services. Most of the clinics do not provide a 24-hour service due to lack of staff and resources, but the municipality is fairly well served with health facilities.

**4.3.3. Educational Facilities**

Educational facilities within the municipality are well distributed, even in informal locations. The provincial department of Education also compiled an extensive database on each of the schools in the municipal area, highlighting the priority needs per school. There are **77 primary schools, 22 combined schools, 46 secondary schools, 21 pre-schools** and **7 tertiary institutions**. It would seem that all communities in the Municipality have access to primary and secondary school facilities. The physical quality of the structures, the quality of service, number of pupils per class, and the range of subjects provided can, however, not be verified. It is also clear that there is a surplus of schools in terms of national standards in the municipal area. This indicates that more efforts should rather be put into improving and maintaining the existing facilities than to create new ones.

To adequately address the skills shortage and literacy, the municipality needs to undertake an audit of skills or lack thereof in the municipality as identified skills needs within its communities, the municipality would stock of what direction it wants to follow in terms of technology and economic development the municipality would influence learners in pursuit particular field that are in line with its plan. Currently the issues raised by communities are

- lack of skill agencies around schools
- limited skill among educators to implement new curriculum
- in adequate support for ABET

Ward councillors and their ward committees can assist in identifying this shortage. Once these skills or lack thereof have been audited, the municipality would therefore need to approach the relevant government institutions to assist addressing problem areas.

**4.3.4. Safety and Security**

There are **4 police stations** in the Municipality, located in KwaMhlanga, Tweefontein, Kwaggafontein and Verena. Areas such as Goederede, Moloto and Langkloof and farm areas are not in close proximity to a police station. amongst other thing innovating ideas such as multi sectoral respond this includes ensuring sffective running of security cluster forum, joint cluster forum and multi agency mechanism, community police forum ,sector plicing and crime offices as part of the National crime prevention strategies we

challenged the coparative plan with SAPS to work together with the police in Provincial crime preventing frame work and iot should be led by municipality promote the reduction of drugs such as Nyaopes and other drugs also encourage communities to participate in CPF and enforced law that are strict the sale alcohol adjacent the school facilitiесе and to children under the aged

### 4.3.5. Sports, Arts and Culture

Thembisile Hani Local Municipality has two stadiums namely, Solomom Mahlangu Stadium and the Kwaggafontein Stadium, located in Kwamhlanga and Kwaggafontein respectively. The two stadiums are utilized but are however undermaintained. The Solomon Mahlangu Stadium has an array of facilities to support different sporting codes including Netball, Tennis, Basketball and Boxing. In order to fortify the potential of the sporting hub, all sporting facilities in the vicinity of the stadium should be upgraded, maintained and integrated to the existing hub. The Regional Sport and Recreation Master Plan conducted for the Nkangala District in 2003 provides an assessment of the type of facilities currently in the municipal area (e.g. soccer, netball, athletics etc.), together with their location and condition. (See Municipal SDF for further detail).

#### ***Some of the challenges relating to Sport, Arts and Culture include:***

- *Lack of a funding model for the naming, renaming and signage of geographical features, streets, heritage sites and settlements;*
- *Heritage sites and tourist attraction sites in the municipality are not formalised and promoted;*
- *Sport committees at ward level exist but are dysfunctional;*
- *There is a need for community gymnasium to encourage the wellness of community;*
- *Poor promotion of heritage sites, iconic structures and monuments.*

### 4.3.6. Municipal Libraries

There are five libraries in the Municipality in Kwaggafontein, Tweefontein, Verena, Boekenhouthoek and Loopspruit. The Main library in Kwaggafontein requires upgrades to the structure as the current building is dilapidated. The municipal library in Tweefontein requires maintenance on a regular basis and a service provider was appointed to construct libraries in Verena and Boekenhouthoek. The library in Loopspruit is still a mobile container.

### 4.3.7. Telecommunication and Postal Services

There are five post offices within the Municipality. These are located at Kwaggafontein (Empumalanga), Verena, KwaMhlanga, Boekenhouthoek (Msindo) and Tweefontein (Somarobogo). The street delivery system might be effective but might be hindered by the lack of street names and proper house numbering. The Post Office must develop the mechanism of ensuring that farm communities have access to this service. On average the Municipality is well serviced with telecommunication services including cellphone networks. Approximately 68, 2% of the households reported that they had access to telephone facilities at home or nearby, while 27, 8% had access to a cell phone only. Only 1, 4% of the population had no access to any form of telecommunication. (Verify with stats)

#### ***The following problems have been raised by the community:***

- *The delivery of letters is delayed due to contradicting stand numbers*
- *The post office lacks a strategy on how to compel people to pay for the post boxes*
- *projects conducted by post office should be implemented and be communicated to municipality*

#### 4.3.7.1. Public Transport and Traffic Services

Most of the residence of the Municipality work in Gauteng and commute to Tshwane and the surrounding areas on a daily basis. Buses and taxis are used as a staple mode of transport to work. This makes the R573 (Moloto Road) very busy during peak hours and poses a higher risk of motor car accidents. Taxi operations are informal and are not properly regulated. Transport infrastructure in the form of bus/taxi terminals are also not adequately provided to cater for the business. Existing infrastructure is dilapidated and needs to be restored or upgraded. The public transport traffic volumes put considerable strain on the road infrastructure.

According to schedule 4 Part B and schedule 5 Part B of the Constitution municipal public transport and traffic policing is the competency of the municipality. The Traffic department operates with 18 Traffic Officers – namely; 2 senior superintendents, 2 assistant superintendents, 2 superintendents, 12 traffic officers. The roll out of the Administrative Adjudication of the Road Traffic Offences Act has been approved by the council.

The municipality does not have a chief traffic officer and lacks law enforcement vehicles and equipment. There are also ineffective mechanisms to follow up on traffic fines issued.

Appointment of joint venture companies with the traffic units tries to uplift the work of traffic officers in their activeness and they should develop programmes on how they are going to collect in this Easter holidays

NB! They must always all the time use municipal roads to monitor the municipality

**4.3.7.2. Moloto Development Corridor**

The Moloto Rail Corridor Development Initiative was launched at national and provincial government level and enjoys the full support of the Nkangala District Municipality and local municipalities in the District. The main focus of the initiative is to replace the bus commuter system along the Moloto road with a rail commuter system. The objective is to provide safer, faster and more efficient rail transport, while buses and taxis will be used as part of a feeder system to the railway stations along the Moloto Rail Corridor.

The railway line and stations will form the basis for the nodal system, which will be used as a tool to promote the development of retail and community facilities at stations. Stations will be developed in accordance with the concept of Transit Orientated Development, which promotes high density, mixed land use within walking distance from stations. These TODs will create the critical mass required to stimulate viable economic activity. Through careful planning, a range of community services can be provided along the railway line, ensuring that the community has access to a full range of community services via use of the railway system.

**4.3.7.3. Moloto rail corridor proposed route**

The Moloto Rail Corridor will serve two municipalities in the Nkangala District Municipality, namely Thembisile Hani and Dr. JS Moroka. To the east it could be extended through the Elias Motsoaledi Municipal Area which is part of the Sekhukhune District Municipality and Tshwane Metropolitan Area. The planned rail corridor will comprise approximately 198 km of railway line linking 24 railway stations in total.

**4.3.7.4. Moloto Road upgrading**

The Moloto road or R573 was officially handed over to the Department of Transport and its entity Sanral in 2015. The South African Roads Agency Limited has budgeted approximately R1 billion for the upgrade of portions of the roads phased out over a period of five years. The upgrades are expected to create a number of job opportunities in and outside Thembisile Hani Local Municipality. The president of the Republic of South Africa his Excellency President JG Zuma has announced that government has planned to spend about R 3.7 Billion for the upgrade of the road.

Project Name	Location	Budget					Project Timeframe	Project Start Date	Estimated Completion Date
		15/16 R'000	16/17 R'000	17/18 R'000	18/19 R'000	19/20 R'000			
<b>R.573-020-2016 (Upgrading of National Road R573)</b>	From Gauteng/Mpumalanga provincial border (km 0) to Mpumalanga/Limpopo provincial border (km 48.8)	R45 755	R204 820	R195 960	R353 466 000	R200 000 000	5 years	2016	2020

### 5.1. BASIC SERVICE DELIVERY AND INFRASTRUCTURE DEVELOPMENT

#### 5.1.1. Water

##### 5.1.1.1. Bulk Water Supply

The Municipality does not have a water source and mainly depends on other Water Service Authorities for the supply of bulk water. Approximately 55 Ml/day is sourced from various sources namely: 15 Ml/day by City of Tshwane Metropolitan Municipality, 5 Ml/day by Dr J S Moroka Local Municipality and 35 Ml/day by Rand Water Board. The supply of water is not always consistent and does not always reach the 55Ml/day average, this is mainly due to, operation failures of pumps and vandalism. In cases of water supply shortages from City of Tshwane, most of the settlements in the Municipality are affected as most of the bulk supply is sourced from the city. These areas mainly include, KwaMhlanga, Moloto, and Sun City as a whole. The bulk supply from Dr J S Moroka is also inconsistent at times and affects areas such as Kwaggafontein, Bundu, Mathyzensloop and Boekenhouthoek. Major water supply shortages occur during the summer season where higher water demands and usages are experienced. Also the majority of the bulk water supply pipelines are made from asbestos and have reached their lifespan as is evident of the pipeline supplying KwaMhlanga and various other communities including Phola Park, Zakheni and Mountain View to name a few. Other supply challenges range from vandalism of water infrastructure, air valve leakages, theft of manhole chamber covers and the lack of awareness on water usage/conservation. The finalisation of the Service Level Agreement between Thembisile Hani and City of Tshwane Municipality for bulk water supply is in progress.

According to Statistics South Africa there are about 2269 households without access to water. The Municipality has consequently connected about 10 482 households between 2010/2011 and 2013/2014 financial years. The number of households connected are as follows:

- 2010/2011 Financial Year, 4064 households provided with water.
- 2011/2012 Financial Year, 2180 households provided with water.
- 2012/2013 Financial Year, 3590 households provided with water.
- 2013/2014 Financial Year, 2917 households provided with water.

The total number of households with access to water over and above 75 634 is 86 116 households. THLM is still continuing with the provision of this services and most of the areas are land invaded. The current backlog on the approved technical report is 10 022 households. To date the total number of households in Thembisile is 109 282.

##### 5.1.1.2. Current Water Service Backlogs

There are currently three water service levels found within the Municipality, namely, house connections, house/yard connections and standpipes. Most of the townships and settlements receive water within RDP standards and water is mainly supplied through house and yard connections or within 200m of a water pipeline. Currently Thembisile has identified the following backlogs in terms of water provision.

**CHAPTER 5: ANALYSIS OF MUNICIPAL KEY PERFORMANCE AREAS**

Table 5.1.1.2: Water Backlogs per ward.

Ward No	Total No of HH un-serviced	Intervention		Number of HH to benefit from the intervention	Shortfall on beneficiaries	Intervention Implementation Cost (R)
		Short-term	Long-term			
Ward1	0	Marikana water reticulation	Water reservoir and changing of asbestos pipe	0	0	0

Source: Thembisile Hani Municipality, Department of Technical Services, 2015

### 5.1.1.3. Ground Water

Currently the municipality's own ground water (boreholes) source is 4 ml per day. The Langkloof water Scheme is the largest and the settlement is serviced by 4 boreholes, pumping water into a reservoir. The municipality also has the Boekenhouthoek borehole scheme which supplies water through stand pipes. There are also a number of boreholes within the municipality that supplement the current supply.

It is concluded that the local groundwater sources may only be used for additional local domestic demands and will not be sufficient for the development of large schemes. There are some rural communities that are solely dependent on groundwater resources; these communities include those at Langkloof, due to insufficient bulk water supply in Thembisile.

### 5.1.2. Sanitation

#### 5.1.2.1. Current Sanitation Service Levels

Currently, a substantial quantity of the population is without adequate sanitation infrastructure and serviced below RDP standards. Most areas in the municipal area are served with pit latrines. Only KwaMhlanga and Tweefontein K have water borne sewerage systems. The remainder of the population is provided with VIP toilets. In the past there were considerations to provide a number of settlements with flush toilets. These settlements include Vlakraagte 1, Buhlebesizwe, Mzimuhle, Tweefontein IA and Tweefontein RDP. These settlements could share the oxidation ponds serving Tweefontein K; and Kameelpoortnek A, B, C, Zakheni, Mandela, Luthuli and Sun City, and utilise the unused sewerage pipe running through this area. Other areas such as Kwaggafontein, Bundu, Machipe, Mathysenloop, Boekenhouthoek, Moloto and Verena also do not have a waterborne sanitation system, however the municipality intends on initiating plans to progressively address the challenge.

Farm areas do not have a water reticulation network and must be provided with rural sanitation (e.g VIP toilets) at RDP standard. Sanitation still remains a challenge and of great concern in the farming areas. These challenges range from a complete lack of service to none accessible infrastructure.

The existing line between Tweefontein K waste water treatment works and Tweefontein IA has been completed, while the other three available lines are to be extended. These lines are found in the vicinity of Vlaklaagte1 and 2 and Mzimuhle. There are a few demanding challenges faced regarding the existing oxidation ponds. The Sanitation in the Municipality is primarily constituted of pit latrines.

From the table above, it can be calculated that the LOH for sanitation services is Priority 4 (High) with 74.21% of the population below RDP standard. Only 25.89% of the population is served with sanitation services either above or at RDP standard.

### **5.1.2.2. Waste Water Treatment Plants**

There are two waste water treatment plants in Thembisile Hani Local Municipality. One is located in Tweefontein and the other is located Kwamhlanga. The Kwamhlanga water treatment plant is in the form of oxidation ponds and releases poorly treated water into the environment. The municipality is currently implementing the Luthuli Waste Water treatment works to benefit Kwamhlanga A, B, C, Leratong, Zakheni, Leratong SP, Phola Park, Luthuli Village SP, Kameelpoortnek A and C, Enkeldoornoog A and Sheldon.

The majority of communities within the Municipality use pit toilets, 20% have septic tanks and only 4% are serviced by water borne system. The 4% is largely made up of Kwamhlanga (serviced by 2 x 0.5 ML/day Oxidation Ponds) and Tweefontein K (serviced by 0.75 ML/day Waste Water Treatment Plant). The Tweefontein K treatment plant was designed to purify domestic waste but industrial waste is received from businesses. The remaining 20% of septic tanks are offloaded in both the Oxidation Ponds and the Tweefontein treatment plant.

## CHAPTER 5: ANALYSIS OF MUNICIPAL KEY PERFORMANCE AREAS

The community rejected the VIP toilet technology as approved by Department of Human Settlements as a basic sanitation service and opted for a waterborne sewage system. There are various existing bulk sewer lines

- Line from Tweefontein RDP connecting to the Tweefontein K treatment plant pump station
- An outfall line from Mzimuhle until the pump house which still needs to be completed up to Tweefontein K treatment plant
- An outfall line from Traffic in Sun City through Mandela
- An outfall through Luthuli

New development will be linked to these existing lines, and the construction of Water treatment Plant is necessary to accommodate the lines through Mandela and Luthuli. The water borne system will be the best option for transporting sewer waste.

### 5.1.2.3. Current Sanitation Service Backlogs

Table 5.1.2.3: Current Sanitation Service Backlogs per ward

### 5.1.3. Electricity

The Municipal area is well served with electricity with more than 95% of the community having access to electricity. The municipality does not have an electricity license to distribute electricity. Eskom is both the electricity service authority for electricity infrastructure and house connections while the Municipality is responsible for street lighting and public lighting.

Public lighting is one of the strategies used to reduce crime and is a responsibility of the municipality. The municipality has high mast lights, midblock lights and street lights at different villages. These have proven to be insufficient as there is still a huge backlog in different villages. There is a huge backlog for the repair and maintenance of existing high mast lights and street lights, but this is nonetheless manageable and there is continuous improvement.

Currently about 4230 households need to be connected around the KwamHlanga substation. The municipality requires an energy efficiency plan for energy saving measure.

**5.1.3.1. Household Electrification Backlog**

Table 5.1.3.1a: Electricity reticulation backlogs within the Municipality

**5.1.4. Roads and Storm Water**

The Municipality recently compiled a database on the state of all routes in the municipality as part of the Pavement Management System funded by the NDM. This is a very powerful decision-making tool which should be used to determine the location, nature and extent of road maintenance and construction projects that should be conducted in the municipal area in future. Road maintenance problems occur throughout the

entire municipal area and it is virtually impossible to address all of these simultaneously. There is also poor maintenance of existing surfaced roads due to the lack of a maintenance budget.

Poor storm water management is a key contributor to the bad state of Municipal roads and streets. This therefore implies that storm water management should be given priority in order for the constructed roads to be sustainable. Apart from the Municipality, the Nkangala District Municipality and the Provincial Department of Roads and Transport also have responsibilities regarding the provision and maintenance of road infrastructure in the municipal area. The Municipality will upgrade and maintain roads and storm water management systems in their area of jurisdiction, to improve accessibility and road safety, including routine maintenance of internal streets and the intensification of the programme. The municipality does not have a roads and storm water master plan and pavement management system to address the backlogs.

***On average the main issues raised by communities with regards to roads and storm water include:***

- *The storm water master plan has not taken effect.*
- *Storm water drainage systems are blocked.*
- *Road surfaces have deteriorated to an extreme extent.*
- *Insufficient road signs and faded road markings is of major concern.*
- *Poor maintenance of roads is a major concern.*

This situation is further exacerbated by the lack of storm water management systems in the re-gravelled and tarred streets. It is therefore essential to ensure that all incomplete streets and storm water projects must be completed prior commencing with new projects.

In terms of the R573 road, pedestrian crossings, stray animals, vehicle accidents and illegal access roads remain a challenge within the municipality. These need the attention of all the relevant stakeholders including the Municipality and the Provincial Department of Roads and Transport. The municipality is has a challenge with the implementation of the regravelling programme due to aged yellow plant and machinery.

The following are backlogs in terms of Roads and Storm Water Management Systems within the Municipality.

**Table 5.1.4: Road and storm water management backlogs.**

Description	Estimated Length
Total Bus Routes	400 KM
Total Internal Streets	8000KM

**5.1.5. Waste Management and Environmental Health**

The municipality currently has a record of decision on the establishment of the Kwaggafontein landfill site however there are still a number of illegal dumping sites that pose a challenge. Waste collection is also a challenge because of the lack of human capacity and equipment to collect waste weekly in every village.

**Integrated Waste Management Plan (IWMP)**

IWMP is a document describes the Integrated Waste Management Plans (IWMPs) as an efficient and cost-effective way to reduce open dumping, effectively manage solid waste, and protect human health and the environment.

- a) In terms of the 1999 National Waste Management Strategy (DEAT, 1999), local municipalities are required to develop first generation Integrated Waste Management Plans (IWMPs) and to submit such plans to their respective provincial environmental departments.
- b) National Environmental Management: Waste Act, 2008 (Act 59 of 2008), the development of IWMPs became a statutory requirement. Section 4(a) of this Act states that each municipality should prepare and submit an IWMP to the relevant MEC for approval (RSA, 2008). The approved IWMP should then be incorporated into the municipal Integrated Development Plan (IDP) which is contemplated in Chapter 5 of the Municipal Systems Act, 2000 (Act 32 of 2000).
- c) In turn, paragraph 5.2.3 of the White Paper on Integrated Pollution and Waste Management (IP&WM) sets as one of its primary goals the development of mechanisms to ensure that integrated pollution and waste management considerations are effectively integrated into the development of inter alia all spatial and economic development planning processes.

The municipality developed the IWMP in 2013 and was adopted by council 2016/2017 financial year

### **Establishment of legal landfill site**

The National Environmental Management Waste Act (Act No. 59 of 2008) establishes institutional arrangements and planning matters, provides for national norms and standards for regulating the management of waste by all spheres of government, makes provision for specific waste management measures, establishes the procedures for the licensing and control of waste management activities provides for the remediation of contaminated land, provides for the establishment of the national waste information system, and provides for compliance and enforcement of waste management activities.

#### **5.1.5.1. Cemeteries**

The municipality has 40 cemeteries in 32 Wards. It is very difficult to manage and maintain such a large number of cemeteries and as a result, all 40 cemeteries do not have a proper burial register being kept. Out of the 40 cemeteries, only 31 cemeteries are fenced but do not have lighting, water and maintenance.

Bylaws and policies are in place to regulate the utilization of cemeteries, tariff charges and burial registers. At present the council has established one regional cemetery at Buhlebesizwe. The existing regional cemetery needs further development that includes ablution facilities, lighting, pegging and the provision of water. The council intends to establish six sub-regional cemeteries one in each zone. The feasibility study to fence the 9 remaining should be made with the aim of avoiding further expansion and encourage the use of regional and sub-regional cemeteries.

**5.1.6. Service Delivery and Infrastructure Development**

Water Table 5.1.7a

**5.2. LOCAL ECONOMIC DEVELOPMENT**

**5.2.1. Economic Analysis**

The city of Pretoria and areas such as Bronkhorstspuit and Witbank provide a regional function to areas in Thembisile (e.g. trade services, banking, manufacturing, storage, transport, etc), because of its size and level of sophistication. The economy is unable to generate a significant number of direct employment opportunities for the local communities. The economies of surrounding townships and rural areas comprise mostly of informal activities and largely serve the immediate consumption needs of local people.

The Municipality is further characterised by limited job opportunities and high levels of unemployment and illiteracy. As a result, there are very limited industrial activities and high levels of dependency and poverty. The dependency on neighboring towns and cities to provide job opportunities has necessitated a culture where a significant amount of the population commutes on a daily or regular basis to areas such as Tshwane, Ekurhuleni, Johannesburg and Emalaheni.

Economic activities within the municipality are dominated by public services and informal trade particularly those found at main intersections in Moloto, Kwamhlanga, Tweefontein, Verena and Kwaggafontein. The Municipality also has potential for mining, agriculture and eco-tourism. The municipal area is largely an agriculture suitable area, both for ploughing and stock farming. The indigenous knowledge of communities within the Municipality should also be sustained. These include knowledge and skills in bead work, traditional painting, weaving, and grass work.

The small industrial parks that were developed by the KwaNdebele government are now in disuse. There is a need for the municipality to resuscitate these small industrial parks in order to contribute to sustainable employment within the municipal area.

The SERO report indicates that the historic economic growth rate was relatively low at 2.4% per annum in the period 1996-2013 and the Municipality is expected to record a GDP growth of 3.3% per annum over the period 2013-2018. Finance, community services & trade will contribute the most to the municipal area's economy between 2013 and 2018. GVA in 2013 amounted to some R5.0 billion at current prices and R2.5 billion at constant 2005 prices. Thembisile recorded a contribution of 2.2% to the Mpumalanga economy in 2013.

Table 5.2.1a: Economic Indicators

ECONOMIC INDICATORS	Trend 1996-2013		Forecast 2013-2018		Better (+) or worse (-) than Nkangala	Better (+) or worse (-) than province	Ranking: best (1) - worst (18)
GDP growth (%)	2.4%		3.3%		(+) (3.1%)	(+) (3.1%)	8
	Trend			Latest figure		Ranking: best (1) - worst (18)	
	2001	2004	2009	2013			
Contribution to Mpumalanga GVA (%)	2.2%	2.2%	2.2%	2.2%		10	

Source: Source: Socio-Economic Report and Outlook for Mpumalanga, 2014

**5.2.2. Employment Status**

According to the Census 2011 statistics a total number 36 141 people are unemployed in Thembisile and only 61 611 are employed.

About 97 744 people are economically active (employed or unemployed but looking for work), and of these, 37% are unemployed. Of the 48 741 economically active youth (15 – 34 years) in the area, almost half (49, 4%) are unemployed. The unemployment rate in the municipality is currently standing at 37% with the female population accounting for most of the unemployment status. The loss of jobs and the decline in new job opportunities in neighbouring urban areas such as Witbank, Middelburg and Pretoria exacerbate the unemployment rate.

**Table 5.2.2.: Employment Status comparison with district and province**

Area	Employed	Unemployed	Discouraged Work seekers
Thembisile	61611	36141	13476
Nkangala	355478	152250	42554
Mpumalanga	969771	448126	150844

**5.2.3. Economic Sectors and Activities**

The Municipality contributed 5.9% to the economy of the Nkangala District. Trade (15.8%) and community services (15.3 %) had some significant contributions to the district industries in 2012.

Table 5.2.3: Historic and forecasted GDP at basic prices (constant 2005 prices) growth rates for Mpumalanga’s economic industries, 1995-2018

Economic Sector	1995-2012	1995-1999	1999-2004	2004-2009	2009-2012	2013-2018

Source: Socio-Economic Report and Outlook for Mpumalanga, 2014

Leading industries in terms of % contribution to Thembisile Hani’s economy include community services (35.0%), trade (24.2%) & finance (17.3%). Finance increased its contribution to the local economy between 2001 and 2012.

Figure 5.2.3: Economic Indicators

Source: Socio-Economic Report and Outlook for Mpumalanga, 2014

**5.2.3.1. Industrial Activities**

There are four industrial areas within the Municipality, one in the vicinity of KwaMhlanga, a second in the vicinity of Vlaklaagte 2 and the third industrial area in the vicinity of Kwaggafontein B. The fourth, the Ekandustria development, is situated further to the south in the Kungwini Municipality. Of the four the Ekandustria development is the largest and most advanced despite being relatively dormant at the moment. The KwaMhlanga and Vlaklaagte industrial areas are also not actively utilised at present, but the Kwaggafontein industrial area currently holds a few small and medium enterprises. None of these industrial areas can, however, be classified as a major source of job opportunity or income at the moment in the region.

**5.2.3.2. Agriculture**

Apart from the urban settlements highlighted above, the rural parts of the Thembisile Hani Local Municipality are predominantly utilised for agricultural purposes. The agricultural land towards the east of Verena is predominantly utilised by large scale farmers while the agricultural land to the west of Verena in the Thembisile Hani area is utilised by local and emerging farmers. Extensive agriculture, particularly cattle and game farming is the predominant form of farming.

**5.2.3.3. Mining**

There are currently limited mining activities occurring in the southern portions of the municipality along the R568 road. A number of external stakeholders have shown interest in developing mining opportunities within the Municipality.

## CHAPTER 5: SITUATIONAL ANALYSIS: MUNICIPAL KEY PERFORMANCE AREAS

### 5.2.3.4. Tourism

Tourism has the biggest potential to contribute to the Municipality's local economy. Thembisile Hani Local Municipality contributed about 6.4% of the tourism spend as a percentage of the GDP in 2013. This is equivalent to about R350 million of the total tourism spend in the province. The major tourism attraction sites in the Municipality include the Zithabiseni Holiday Resort in the Mabusa Nature Reserve (to be restored to its former glory) and the main tourism node: the Kgodwana Village and Loopspruit Winery at Schoongezicht, just east of the R568 between KwaMhlanga and Ekangala in the south.

Table: 5.2.3.4a: Tourism indicators

TOURISM INDICATORS	Trend			Latest	Percentage share of Nkangala	Percentage share of Mpumalanga	Ranking: highest (1) - lowest (18)
	2001	2004	2009	2013

### 5.2.3.5. Trade and local Business

The economic activity around the intersection of routes R568 and R573 in the vicinity of KwaMhlanga represents the highest order activity node in the Municipality. This is probably the most strategic intersection in the entire municipal area, and it is surrounded by a fairly large number of households (formal and informal). The result is a fairly high concentration of economic activity with a variety of shopping facilities (formal and informal), a taxi rank, and community facilities which include, amongst others, the Solomon Mahlangu stadium and the former KwaNdebele government offices.

The second most significant activity node in the Thembisile Hani area is found in Kwaggafontein B at the intersection between route R573 and the link road between Kwaggafontein and Verena where a large shopping centre (Kwagga Plaza) exists. The Thembisile Hani Local Municipality offices are also located in this precinct.

There are about five other emerging/secondary activity nodes can be distinguished in the Thembisile Hani area: the first is in the vicinity of Moloto, the second at Enkeldoornoo B, the third one at Vlakraagte 2, the fourth at Mathys Zyn Loop to the north, and the fifth at Verena around the intersection between routes R25 and R544 in the southern parts of the Thembisile Municipality. These are all smaller nodes (second order) that are still in the process of development, and comprise a mixture of formal and informal retail, commercial and service industry activities.

### 5.2.4. Job Creation Initiatives

The municipality must focus on maximising its contribution to job creation, by ensuring that service delivery and capital projects implementation use labour intensive methods wherever appropriate. The Municipality furthermore supports job creation initiatives through the various initiatives from the public and private sector. The following initiatives are key in addressing the unemployment challenge in Thembisile:

Development Intervention/Programme	Opportunities
Local textile manufacturing project being considered	40 Full time Jobs
Identify, organize, encourage and formalize of local farming cooperatives to supply department of Education for nutrition programs	30 full time jobs
Community Works Programme	1000 jobs per annum
Extend Public Works Programme	200 jobs per annum
Resuscitating small industrial parks	60 projected jobs
Moloto Road and Rail Construction	10 000 projected jobs over duration of project
Construction of a 600MW Coal Baseload Power Station	500 potential jobs over duration of project
Resuscitating SS Skosana nature reserve Bundu Inn and other nature reserves and cultural heritage sites	20 full time jobs
Renovation & upgrade of Kgodwana cultural centre into a proper cultural village	12 fulltime jobs
Upgrading of Loopspruit winery for Agriculture and Tourism purposes	35 jobs
Coordination of the compilation of feasibility studies for Zithabiseni Resort and Loskop Tourism belt	30 jobs

### **GOOD GOVERNANCE AND PUBLIC PARTICIPATION**

#### **5.2.5. Background**

Thembisile Hani Local Municipality has a three legged structure and these legs are namely, council, administration and the community. The cohesion of these three components underpins a successful and developmental local government. The Municipality further has a formal consultative, participation and communication strategy which is used for the establishment of mutual trust between council and the community, particularly in areas of active community participation and in improving the payment of services.

#### **5.2.6. Governance Structures**

##### **5.2.6.1. Internal Audit Function**

The Internal Audit Unit of Thembisile Hani is an independent unit, and is a significant contributor to governance within the organisation. It is established in terms of the requirements of the Municipal Finance Management Act (Act 56 of 2003), and it is largely directed by the standards for professional practice in internal auditing as bestowed by the International Institute of Internal Auditors.

The Unit is mandated, through its charter, to provide independent, objective assurance and consulting services geared towards adding value and improving the Municipality's operations. It assists the organisation to accomplish its objectives through a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes. Internal Audit plans, which are aligned with Municipal strategies and most pertinent risks, are supported by senior management and approved by the independent Audit Committee. It communicates audit results to the various levels of management, including Senior Management, the Municipal Manager, as well as to other assurance providers and the Audit Committee.

##### **5.2.6.2. Audit Committee**

An Audit Committee should be established to guide the internal audit function with a primary objective of enhancing governance matters within the municipality. The role of the Audit Committee is to assist the Council in discharging its duties relating to the safeguarding of Council assets, functionality of internal controls and processes, risk management, financial reporting and compliance and corporate accounting standards. As such, the Municipality has an Audit Committee appointed in line with section 166 of the Municipal Finance Management Act. The Audit Committee meetings are held on a quarterly basis to execute the functions as stipulated in the MFMA and the Audit Committee Charter. The Audit Committee has been functional since its establishment.

##### **5.2.6.3. Oversight Committees**

The council has appointed an oversight committee (Municipal Public Accounts Committee) to interrogate the annual report and to provide an oversight function.

##### **5.2.6.4. Ward Committees**

In terms of the Municipal Structures Act, (Act 117 of 1998) municipalities are required to establish ward committees to enhance community participation in municipal development processes. In compliance with this legislative requirement the Municipality has established 32 Ward Committees which are functional. The ward committee has since their establishment added much value to municipal processes by providing inputs from a community perspective. They play a major role in the IDP process both in terms of highlighting community priorities but also in maintaining constant communication between the Council

and the communities. A number of training opportunities have also been made available for ward committee members to augment their capacity. Proportional Representative Councillors are deployed in wards to strengthen participation and communication.

### **5.2.6.5. Supply Chain Committees**

The Municipality has an established supply chain management unit. A number of Supply Chain Management policies have been developed and adopted in order to give guidance to the unit. However the unit still needs to be reinforced in order adequately deal with Supply Chain Management issues effectively.

### **5.2.7. Participation Structures**

#### **5.2.7.1. Communication and Public Participation Strategy**

*The following are central to the Commutation and Participation strategy:*

- *Municipal Izimbizo and Executive Mayoral Outreach Programmes, which afford local leaders the opportunity to interact with communities on issues of service delivery.*
- *Engaging sector departments and utilities in the various processes and forums for Integrated Development Planning (IDP).*
- *Utilizing various mechanisms such as local newspapers, local radio stations, and flyers, Ward Councillors, Community Development Workers, billing statements and loud hailing to communicate information to the public.*
- *Ongoing negotiation with provincial departments that no project will be implemented in the municipal area prior to consultation with the council.*
- *Ongoing bi or multi-lateral processes around a number of development challenges and initiatives such as the youth agricultural projects.*
- *Regular auditing of ward committees to ensure full functionality.*
- *The municipality shall convene no less than two municipal imbizos to report on progress and interact with communities*

#### **5.2.7.2. Mayoral Outreach Programme and IDP Participation**

During the months of October, November and December the Executive Mayor of the Municipality, conducts mayoral outreach meetings in all the areas of the municipality. The objective of these meetings is to deepen democracy through public participation. All concerns at meetings are recorded including the needs and aspirations of the communities. All the collected needs are prioritized together with those gathered from other consultation processes. These are further incorporated into a comprehensive analysis report, aimed at responding to the expressed needs.

The intention is to use the aforementioned information to guide strategy setting and this information also constitutes a very thorough and comprehensive assessment of the quality of life in Thembisile Hani Local Municipality. The information further provides a valuable baseline by which the quality of life in the Municipality can be improved.

### 5.2.7.3. 2017-2022 Draft IDP and 2018/2019 Budget Consultation

In terms of Chapter 4 of the Local Government Municipal Systems Act, 32 of 2000:

A municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance, and must for this purpose:

- i) Encourage, and create conditions for, the local community to participate in the affairs of the municipality, including, the preparation, implementation and review of its integrated development plan in terms of Chapter 5;
- ii) the establishment, implementation and review of its performance management system in terms of Chapter 6
- iii) the monitoring and review of its performance, including the outcomes and impact of such performance
- iv) the preparation of its budget; and strategic decisions relating to the provision of municipal services

Therefore consultation on the draft IDP and Budget is scheduled as follows:

Date	Time	Cluster	Wards/Structures	Venue
10 April 2018	09H00-12H00	All	All councillors/ ward committeesecretaries/CDW	Municipal Council Chamber
12 April 2018	09H00-12H00	All	Traditional Leaders	Municipal Council Chamber
12 April 2018	14H00-16H00	All	Traditional Healers	Municipal Council Chamber
13 April 2018	09H00-12H00	All	Faith Based Organisations	Municipal council chamber
13 April 2018	14H00-16H00	All	Businesses	Municipal council chamber
17 April 2018	09H00-12H00	Cluster 01	07,24	Bundu open sapace
17 April 2018	09H00-12H00	Cluster 02	25, 26; 27; 28; 29, 30	Kwa Magodongo tribal office
18 April 2018	14H00- 16H00	Cluster 03	01, 02, 03	Moloto old age centre

25 April 2018	09h00-12h00	Cluster 09	32 farms	Bronx mine open space

Mayoral outreach report on the issues raised by different communities is contained under table 5.3.3.2 above.

### ANALYSIS REPORT

This report provides a high level analysis of community and stakeholder submissions made at the 2017/2018 mayoral outreach meetings held during the month of April 2018. Based on the submissions, it was found that water is still a key challenge, followed by roads, storm water management, public lighting, community facilities; youth and local economic development including job creation. There were also a number of other issues raised at the meetings, although not as prevalent as those mentioned above. These matters relate to access to sport grounds, waste collection, sanitation and the fencing of graveyards. Other matters raised relate to the competencies of the other spheres of government and they include, access to electricity, RDP house, clinics and schools.

The issues raised at mayoral outreach meetings should serve as a guide assessing the general level of development within the municipality including its service delivery gaps and challenges. It is therefore essential that ward priorities and projects at ward level be confirmed by ward councillors in consultation with ward committees as structured ward and community participation forums. Furthermore, in order to determine priority and confirm ward projects for budget purposes, the municipality must assess project viability against a number of prioritisation indicators such as policy considerations, impact analysis (social, economic, environmental and political) visibility, cost/benefit, urgency, essential services and employment output to mention a few.

The findings and analysis of the above mentioned issued is provides here under as follows:

### WATER SERVICES

**The key issues raised relating to water are as follows:**

*Water reticulation; Dissatisfaction with the water tanker scheme (modus operandi); Water tankers to visit each street; Lack of responses to water reports and challenges*

#### High level findings and analysis

Most wards in the municipality generally understand the water supply challenge. The municipality's efforts and the intervention to supply water through water tankers seems to be visible and reasonably effective, however a number of people are still either not satisfied with the distribution of the water tankers and/or the manner in which the water tanker system/schedule is operated. It is recommended that the municipality revisit the water tanker programme with the aim of making it more effective and efficient. There were sparse compliments noted regarding the usefulness of the programme.

Few wards indicated that they require water reticulation and water at household level, however this request should be approached with care and thorough research. Areas requiring water reticulation should be identified through a structured process (through communication and confirmation with ward councillors) and also taking into account the availability of bulk water supply and cost implications amongst other things. There was also dissatisfaction regarding the lack of communication on the part of the municipality regarding the availability or unavailability of water. Communication with regard to water shortages/availability should be communicated more effectively. Also there were submissions made regarding the lack of acknowledgement and responses to water issues such as leakages reported to the municipality.

### 1. ROADS AND STORM WATER

#### 1.1. The key issues raised relating to roads are as follows:

*Regravelling of roads; Lack of road maintenance; Paving of internal streets; Completion of incomplete road projects; Traffic lights at major intersections*

#### 1.2. High level findings and analysis

The majority of the wards indicated that internal roads are not accessible and requested that the municipality should regravell internal streets. The maintenance of tarred roads was also of concern to the community and community stakeholders. There were also submissions made regarding the completion of incomplete road projects. The Municipality must identify key routes to be targeted for the road regravelling programme. Incomplete roads should be verified and prioritised according to need, urgency and the availability of funds. There were no major challenges and/or issues cited regarding the R573, however there was some dissatisfaction regarding employment opportunities relating to the upgrading of the road.

Most wards also raised dissatisfaction with storm water management. It was cited during the meetings that storm water management was a challenge and runoff was poorly managed with the result that some households are flooded during the rainy season and roads become unusable. The municipality must develop a storm water management plan for key routes and attend to roads that are flooded and as a result become unusable during rainy seasons.

### 2. PUBLIC LIGHTING

#### 2.1. The key issues raised relating to public lighting are as follows:

*Street lights and High mast lights (Apolo); Maintenance of street lights*

#### 2.2. High level findings and analysis

A number of wards raised concerns regarding the crime rate and indicated that there was a need to increase public lighting in villages. The wards requested that the municipality must provide high mast lights (Apollo) and street lights. The municipality should develop a public lighting master plan to develop an equitable approach to the provision of public lighting looking at factors such as catchment and illumination radius by use of GIS technology. Public lighting should also be provided in key areas to ensure adequate illumination of crime hotspots and public areas.

### 3. COMMUNITY FACILITIES

#### 3.1. They key issues raised relating to community facilities are as follows

*Community parks; Multi-purpose centres; Community halls, Schools; Clinics*

#### 3.2. High level findings and analysis

A few wards indicated that they require multipurpose centres and community halls. It was indicated that these facilities are essential for community meetings, as pension pay points for the elderly and for recreational purposes. A number of issues were also raised regarding services offered by sector department including dissatisfaction regarding clinics and insufficient schools in wards. The municipality has a number of community halls identified in the IDP and these should be reviewed in line with the submissions made by the community and confirmed by ward structures (ward committees). Sector departments should be informed and advised to carryout outreach meetings at least once per annum to identify service delivery challenges and gaps faced by communities in relation to the services offered by the departments. There were also requests made relating to the need for a drug rehabilitation centre and a technical college within the municipality.

### 4. YOUTH AND LOCAL ECONOMIC DEVELOPMENT

#### 4.1. The key issues raised relating to youth and LED are as follows:

*Lack of employment opportunities; Unemployment; Poor support for the youth; Skills development; Local economic development*

#### 4.2. High level findings and analysis

There were concerns raised regarding the state of unemployment and the lack of opportunities and skills amongst the youth. Some of the recommendations made were that the municipality should establish a youth desk and create opportunities and skills training in farming and agriculture. Youth development and local economic development require detailed research, strategies and plans to effectively address some of the challenges raised by the community particularly. There was also dissatisfaction regarding the price of tender documents and that the current rates/prices could potentially deny small business the opportunity to participate in municipal supply chain processes at tender level. Access to land was also cited as a key challenge. It was also cited that there is a need to promote and support the development cooperatives particularly in the agriculture sector.

### 5. OTHER MATTERS

*Payment of services; RDP Houses; electricity, Police Stations; Fencing of graveyards; Sports grounds.*

Some wards indicated that the tariff structure was unreasonable and requested the municipality to review the rates. The matters relating to RDP houses, electricity, police stations, sports grounds and the fencing of graveyards were cited by some community stakeholders and were not of general concern. It is recommended that all requests for electricity and RDP housing should be forwarded to Eskom through the Technical and Social Development Departments in consultation with ward councillors. All those issues relating to the functions of the municipality should be assessed to determine priority, urgency and funding requirements.

### **5.2.7.4. Other Public Communication and Participation Mechanisms**

Print and Electronic Medias are used to inform the community of the processes and the progress of the IDP review process. Dates and schedules of IDP Working Groups, IDP Joint Forums, IDP Management Committees, IDP Technical Committees, and all other IDP related structures, including Community Outreach Meetings, are contained in the Municipality's IDP Process Plan, which may be obtained from the Municipal offices on request.

The municipality also provides information and communicates with the public through national radio stations such as Ikwewezi FM in addition to other mechanisms such as loud-hailing, for advertising meetings, workshops, conferences and summits and other functions that the municipality holds. Notice boards are also used for such purpose, in order to reinforce the flow and dissemination of information. Promotional materials are also developed, availed and widely distributed from time to time and these range from brochures, t-shirts, caps, pens, posters, backdrops, banners and others.

5.3. INSTITUTIONAL TRANSFORMATION AND ORGANISATIONAL DEVELOPMENT

5.3.1. Organisational Structure

The organisational structure of the Municipality comprises of a political component and an administrative component. These are depicted hereunder as follows. Figure 5.4.1: Municipal Organisational Structure.

### 5.3.2. Institutional Capacity

#### 5.3.2.1. Council

The political component in terms of ward delimitations is made out of 64 members of council, including the members of Mayoral Committee, the Speaker, the Chief Whip and Executive Mayor. Section 79 Committees are established and allocated a portfolio to manage. The following are the Council Committees established in terms of enabling legislation (Municipal Structures Act 117 of 1998)

- **Mayoral Committee**
  
- **Section 80 Committees**
  - Section 80 Committee on Admin and Governance
  - Section 80 Committee on Local Economic Development
  - Section 80 Committee on Social Development, Housing, Land Administration and Public Safety
  - Section 80 Committee on Finance
  - Section 80 Committee on Planning and Infrastructure Development
  
- **Section 79 Portfolio Committees**
  - Section 79 Portfolio Committee on Admin and Governance
  - Section 79 Portfolio Committee on Local Economic Development
  - Section 79 Portfolio Committee on Social Development, Housing, Land Administration & Public Safety
  - Section 79 Portfolio Committee on Finance
  - Section 79 Portfolio Committee on Planning and Infrastructure Development
  
- **Municipal Public Accounts Committee (MPAC)**

#### 5.3.2.2. Administration

The Municipality's Administration Head is the Municipal Manager. The Council Administration comprises of five departments, four are headed by managers appointed by Council and the last one headed by Municipal Manager.

*The Municipality's administrative branch has six (5) senior management positions in its organisational structure. These positions are in accordance with section 56 management positions as referred to in the Municipal Systems Act, 32 of 2000. These Senior Managers Head the following Departments:*

- *Office of the Municipal Manager*
- *Department of Financial Services*
- *Department of Corporate Services*
- *Department of Technical Services*
- *Department of Social Development Services*

**The office of the Municipal Manager is composed of eight strategic divisions namely,**

- Internal Audit,
- Performance Management,
- Youth Development,
- Public Participation,
- Research and Monitoring and
- Risk Management.

**Department Functions:**

- Office of the Municipal Manager
- Manage youth development programmes.
- Manage performance management system.
- Render internal audit management in the municipality.
- Render risk management services in the municipality.
- Coordinate public participation
- General Municipal Management

**The Department of Development and Town Planning Services is composed of three divisions, namely,**

- Integrated Development Planning
- Local Economic Development
- Town Planning Services

**Department Functions:**

- Promote local economic development, rural development and tourism.
- Coordinate the development and implementation of integrated development plan (IDP)
- Manage Town Planning services
- Manage business administration services.

**The Department of Budget and Treasury is composed of five divisions namely,**

- Revenue
- Expenditure,
- Supply Chain Management,
- Budgetand,
- Assets management

**Department function:**

- Manage municipal budget and financial planning services.
- Render revenue management services.
- Render financial accounting services.
- Render supply chain management services.
- Manage municipal assets

**The Department of Corporate Services is composed of five divisions, namely**

- Human Resource Management,
- Information and Communication Technology
- Records Management,
- Legal and Secretariat Services and,
- Fleet Management.

**Department function:**

- Render human resource management and development services.
- Render legal services.
- Render secretariat, records management and auxiliary services.
- Manage information communication and technology services.
- Render fleet management services.

**The Department of Technical Services is composed of five divisions, namely**

- Water and Sanitation,
- Technical services,
- Roads and Storm Water Management
- Electricity
- Project Management Unit

**Department function:**

- Manage municipal development projects and engineering services.
- Manage the maintenance of roads and storm water systems.
- Manage the provision of water and sanitation.

**The Department of Social Development Services is composed of six divisions namely,**

- Human Settlements
- Disaster Management,
- Public safety and Emergency Services,
- Traffic Services,
- Environmental Management.

**Departmental Functions:**

- Manage the provision of human settlements and town planning services.
- Manage public safety and transport services.
- Coordinate waste management and environmental services.
- Coordinate arts, culture, sports and recreation services.
- Coordinate health, transversal and disaster management services.

The following table depicts the Senior Management capacity of the Municipality.

**Table 3.4.3.2b: Management Capacity.**

<b>POSITION</b>	<b>STATUS</b>
Municipal Manager	Filled
Chief Financial Officer	Filled
Manager Social Development Services	Filled
Manager Corporate Services	Filled
Manager Technical Services	Filled
Total number of senior manager post including Municipal Manager	5
Total number of senior managers who signed employment contract	5

Source: Thembisile Hani Municipality, Department of Corporate Services, 2017.

### **5.3.3. Human Resources Management**

#### **5.3.3.1. Employment Equity**

The Municipality has an approved five year employment equity plan. The plan sets out employment equity targets that the municipality must meet and report on annually. One of the challenges faced by the municipality in terms of employment equity is its ability to effectively recruit appropriately qualified persons who are either living with disabilities or are women in strategic positions and generally.

#### **5.3.3.2. Capacity Building and Skills Development**

There is a continuous need for the municipality to pursue capacity building and the training of both councillors and municipal employees in order to equip them with the necessary skills that will enable them to deliver a reputable service to the community. A number of employees, particularly those working under the technical department perform functions while they do not possess the required academic training for that work. Such skills should be developed upon and formalized.

#### **5.3.3.3. Recruitment and Filling of Vacancies**

The filling of vacant positions is of priority to the municipality. The local government summit resolved that certain critical positions within the Municipality be filled in order for the municipality to be able to fulfill its mandate. Municipalities were further directed to give heed to the 35% salary bill principle when filling vacancies. The municipality will develop and adopt its Human Resources Management Plan to provide direction with the filling of strategic positions as well as none strategic positions.

#### **5.3.3.4. Occupational Health and Safety**

The Occupational Health and Safety Act provides for the safety and health of employees at work. The Municipality as the employer is responsible for ensuring that the working environment of employee's is safe and conducive, by providing the necessary tools and working conditions that will ensure the safety of workers. It is therefore necessary that the municipality a conducive working environment that will ensure compliance with this legislation.

#### **5.3.4. Information Technology**

The municipality has an established and functional ICT unit. In today's fast paced information age, it is critical that the ICT unit is able to render support to Council and all the departments of the municipality.

The ICT unit must be able to give competitive advantage in terms of making it easier for all departments to execute their work much more efficiently and effectively through the use of ICT. During the forthcoming financial year an ICT Framework and a Business Continuity Plan will be implemented as well as the ongoing, needs basis purchase of software licenses, purchase of a backup server, and maintaining measures that will protect the ICT infrastructure both internally and externally.

### **5.3.5. Council Secretariat**

The goals and objectives of Council can be achieved if the administration service provides secretariat support services to Council. The administration commits to ensuring that Council and its committees receive the necessary support to ensure that Council, together with its committees sit as required and that resolutions are not only recorded but also implemented by administration.

### **5.3.6. Performance Management**

Performance management within the municipality is twofold, organisational performance management is under the office of the Municipal Manager while individual Performance Management should be done under the Department of Corporate Services. The Municipality currently has one system in operation. Each senior manager is assigned a department to head as per their employment contract and in each instance, a full set of KPIs, and Targets with measurable outcomes are developed and approved by Council for execution. Annual Performance, Mid-year and Quarterly reports on the progress of execution are presented to council at scheduled council meetings. Performance Assessments of all individual employees within the municipality should be conducted on quarterly basis and reports thereof submitted to council.

The Section 56 managers have signed employment contracts and Performance Agreements are reviewed and signed annually within 30 days after the start of every financial year. The provisions of the Performance Management Policy are aligned to the IDP and these are reviewed annually. Projects listed as per the Key Performance Indicators for each section 56 Manager and other managers are derived from the strategic objectives and developmental strategies as contained in the IDP.

**5.4. FINANCIAL VIABILITY**

**5.4.1. Background**

The purpose of this analysis is to determine the financial soundness of the institution in order to improve financial management capacity and revenue collection.

**5.4.2. Financial Management System**

The financial management system comprises of policies, procedures, personnel and equipment. The municipality has financial management policies and procedures that have been adopted by Council for the purpose of providing a sound environment to manage the financial affairs of the municipality.

***These are the key financial Management policies of the Municipality***

- *Cash Management and Investment Management policy*
- *Budget policy*
- *Virement Policy*
- *Indigent Policy*
- *Credit control policy*
- *Customer Care Policy*
- *Property Rates policy*
- *Assets Management Policy*
- *Supply Chain Management Policy*
- *Unauthorized, irregular, fruitless and wasteful expenditure policy*

**5.4.3. Municipal Revenue Sources**

The actual Revenue projected for 2017/2018 financial year is as follows:

<b>Description</b>	<b>Budget 2017/2018</b>	<b>Percentage</b>
Equitable share	R 338 477 000	60.58%
Financial Management Grant	R 1 700 000	0.30%
EPWP	R 2 560 000	0.46%
MIG	R 131 562 000	23.63%
WSIG	R 45 000 000	8.05%
total grants and subsidies	R 519 299 000	
Own Revenue	R 26 390 594	4.40%
Cash in Hand as at 28 March 2017 received from SARS returns	R 14 408 406	2.58%
<b>TOTAL BUDGET</b>	<b>R 558 695 057</b>	<b>100%</b>

Source: Thembisile Hani Municipality, Department of Finance, 2017.

**5.4.4. Budget and Treasury Management**

The Municipality’s budget preparation process is linked to the IDP Process and Performance Management System. Treasury management entails the management of cash flows, bank accounts and investments. Monthly and quarterly reconciliations and reporting are done to comply with the provisions of the MFMA. **The Municipality uses Munsoft and VIP Payroll as key financial systems.**

### 5.4.5. Revenue Management

The Municipality has an established a revenue unit that drives all activities pertaining to revenue generation, including the implementation of the property rates policy as a mechanism to ensure revenue collection. However, due to the challenges relating to the implementation of the property rates policy, new revenue collection streams have to be identified and pursued.

A revised revenue enhancement strategy which includes all sub projects pertaining to the collection of revenue has been adopted by council and already at the implementation phase.

### 5.4.6. Expenditure Management

Payments to creditors are done in terms of the procedure manuals for payments of creditors and the MFMA. Creditors are paid within 30 days from date of submission of invoices. The critical challenge for late payment is due to cash flow difficulties.

### 5.4.7. Revenue Enhancement

The municipality has developed the revenue enhancement strategy and the strategy has been approved by council. (See also detail under financial plan chapter 9)

#### ***The following were also identified as some of the strategies necessary for revenue enhancement:***

- *Businesses must be informed about the importance of paying for Municipal services and their relationship with the Municipality needs to be fast tracked.*
- *The community must be educated about the importance of paying for services*
- *A list of all businesses must be developed and the payment of services must be monitored*
- *A mechanism must be developed to compel all non-indigents including all government officials and councillors to pay for services.*
- *A communique must be forwarded to all government institutions to advice and consequently encourage them to pay for services.*
- *Meters must be installed at all government institutions including, schools and offices to monitor the usage of water and correct billing.*
- *The Municipal Manager must establish a Indigents Committee to assess the credibilty of people identified as indigents*

### 5.4.8. Supply Chain Management and Procurment process

Unauthorized and irregular expenditure has increased due to none compliance with SCM policy and procurement processes. The Bid specification, Bid Evaluation and Bid adjudication committees are in place and are functional. The SCM unit is established and fully functional. The supply chain management policy is reviewed, however there are still gaps that must be filled such as the managing of contracts on a daily basis.

### Summary Financial Viability

The Municipality had serious cash flow challenges between 2013 and June 2015, which severely affected the delivery of basic services. As of 2015 the Municipality had accruals that were above R80 Million. The Municipality has since stabilised and as a result cash flow is managed daily and weekly at management level and monthly budget statements are given to the mayor for monitoring. At the end of the 2015/2016 financial year the municipality ended the year with about R24 million accruals and the intention is to end the 2016/2017 financial year without any accruals. The Municipality has a major challenge relating to own revenue collection. The current collection rate is currently at 4%. This matter requires urgent intervention. Some of the key challenges relating to the performance are include:

- Unrealistic budgets and cash-flow challenges
- Qualified Audit Opinion over the past five years.
- Very low payment rate of about 5%
- Infrastructure Assets
- Reluctance by residents to pay for services in dispute to the quality of services provided.
- Inaccuracies in billing. E.g. Consumers billed for services not provided.
- Inability to implement debt collection policies
- High level of indigents in the Municipality

### 6.1. DISASTER MANAGEMENT

#### 6.1.1. Background

The Municipal Systems Act requires that a Municipality must develop an applicable disaster management plan as one of the core components of that IDP. This plan is designed to establish the framework for the implementation of the provisions of the Disaster Management Act, as well as the related provisions of the Municipal Systems Act, 2000 (Act 32 of 2000). The purpose of this plan is to outline policy and procedures for both pro-active disaster prevention and reactive disaster response and mitigation phases of Disaster Management. The plan is further developed to facilitate multi-agency & multi-jurisdictional coordination in both pro-active and reactive programmes

***According to the Disaster Management Act, 2002, disaster management is a continuous and integrated multi-sectoral and multi-disciplinary process of the planning and implementation of measures aimed at:***

- *Disaster prevention*
- *Mitigation*
- *Preparedness*
- *Response*
- *Recovery and*
- *Rehabilitation.*

***The Disaster Management Act also requires Municipalities to:***

- *Prepare a disaster management plan for its area according to the circumstances prevailing within that area;*
- *Co-ordinate and align the implementation of its plan with those of other organs of state and institutional role players; and*

- Regularly review and update its plan

**The plan should further:**

- Form an integral part of the Municipality's Integrated Development Plan;
- Anticipate the likely types of disaster that might occur in the municipal area and their possible effects;
- Identify the communities at risk;
- Provide for appropriate prevention and mitigation strategies;
- Identify and address weaknesses in capacity to deal with possible disasters;
- Facilitate maximum emergency preparedness;
- Establish the emergency management policy framework and organisation that will be utilized to mitigate any significant emergency or disaster affecting the municipality.
- Establish the operational concepts and procedures associated with the day-to-day operational response to emergencies.
- Contain contingency plans and emergency procedures in the event of a disaster

### **6.1.2. Disaster Management Policy Framework**

Thembisile Hani Local Municipality developed its disaster management based on the Disaster Management Plan of the Nkangala District Municipality. The Disaster Management Policy Framework is comprised of four key performance areas and three supportive enablers required to be achieved in order to meet the objectives of the key performance areas. These key performance areas are discussed hereunder as follows:

#### **6.1.2.1. Integrated Institutional Capacity**

The objective of this KPA is to establish integrated institutional capacity in order to effectively implement the disaster risk management policy and legislation. This includes institutional arrangements to ensure the integrated and coordinated implementation of disaster risk management policies and legislation by applying the principles of cooperative governance and putting the appropriate emphasis on arrangements that will ensure the involvement of all the stakeholders in disaster risk management.

#### **6.1.2.2. Disaster Risk Assessment**

The objective of this KPA is to establish a uniform approach to assessing and monitoring disaster risk. This will inform disaster risk management planning and disaster risk reduction actions undertaken by organs of state and other role players. This KPA further addresses the need for conducting ongoing disaster risk assessments and monitoring to:

- Inform disaster risk management planning and priority setting,
- Guide disaster risk reduction efforts and monitor the effectiveness of such efforts.

The KPA also outlines the requirements for implementing disaster risk assessment and monitoring by organs of state within all spheres of government.

***The purpose of disaster risk assessment is to:***

- *Identify the risks that present the greatest threat to the municipal development planning.*
- *Develop an understanding of the development initiatives that may cause vulnerability, when there are hazards.*
- *Develop an understanding of how best to manage existing, residual, and future risks.*
- *Assign levels of risk of the identified risks.*

The following table represents the physical hazards found to pose the highest risk within the Municipality.

**Table 6.1.2.2: Physical hazards found to pose the highest risk within the municipality.**

<b>Hazard</b>	<b>Element at Risk</b>	<b>Effects</b>	<b>Causes</b>
<b>Floods/Severe storm or rainfall</b>	Communities building houses near river banks and within flood lines.	Loss of life, loss of homes, loss of stocks, increased risk of disease	<ul style="list-style-type: none"> <li>• Lack of proper maintenance of storm water drainage where these are available.</li> <li>• The lack of storm water drainage systems in most villages.</li> <li>• The lack of proper planning</li> </ul>
<b>Fires (Veld/Structural)</b>	Farming areas, Industrial areas.	Loss of life, loss of homes, loss of stocks, loss of grazing land, severe injury	<ul style="list-style-type: none"> <li>• Lack of information about open fires by households.</li> <li>• No fire protection association within farming communities.</li> </ul>
<b>Severe Storms</b>	Communities Animals	Infrastructure damaged	<ul style="list-style-type: none"> <li>• Lack of proper planning for development.</li> <li>• Poorly maintained storm water drainage system</li> <li>• Poor development of infrastructure</li> </ul>
<b>Road Accidents</b>	Pedestrians, animals and houses	Loss of lives	<ul style="list-style-type: none"> <li>• Congested R573 road.</li> <li>• Inadequate patrol by traffic police at night.</li> <li>• Liquor outlets along R573 road.</li> </ul>
<b>Drought</b>	Communities living in farming areas, animals	Loss of life, livestock, increase of diseases	
<b>Epidemics</b>	Communities	Loss of life, loss of employment due to absenteeism	
<b>Major infrastructure failure</b>	Communities	Loss of electrical power causing lack of heating, refrigeration, loss of communication	

**6.1.2.3. Disaster Risk Reduction**

The objective of this KPA is to ensure all risk management stakeholders develop and implement Integrated Disaster Risk Management Plans and risk reduction programmes in accordance with approved frameworks.

The following table represents disaster risk prevention, reduction and mitigation strategies.

**Table 6.1.2.3: Disaster risk reduction strategies**

<b>Hazard</b>	<b>Element at Risk</b>	<b>Effects</b>	<b>Prevention and mitigation strategies</b>
<b>Floods/Severe storm or rainfall</b>	Communities building houses near river banks	Loss of life, loss of homes, loss of stocks, increase risk of disease	<ul style="list-style-type: none"> <li>• Establish proper maintenance programme.</li> <li>• Conduct feasibility studies on mechanisms that can be applied to drain flood prone residential areas.</li> <li>• Conduct awareness campaigns.</li> <li>• Establish maintenance programmes for storm water drainage system</li> </ul>
<b>Fires (Veld/Structural)</b>	Farming areas, Industrial areas.	Loss of life, loss of homes, loss of stocks, loss of grazing land, severe injury	<ul style="list-style-type: none"> <li>• Conduct awareness campaigns to reduce fire breakouts.</li> <li>• Establish fire protection associations.</li> </ul>
<b>Road accidents</b>	Pedestrians, animals and houses	Loss of lives	<ul style="list-style-type: none"> <li>• Conduct road accident awareness campaigns</li> <li>• Increase the number of traffic police to patrol roads.</li> <li>• Develop By-laws to regulate trading hours along roads</li> </ul>
<b>Drought</b>	Communities living in farming areas, animals	Loss of life, livestock, increase of diseases	<ul style="list-style-type: none"> <li>• Improve farming practices</li> <li>• Storage of potable water</li> <li>• Irrigation scheme</li> </ul>
<b>Epidemics</b>	Communities	Loss of life, loss of employment due to absenteeism	<ul style="list-style-type: none"> <li>• Conduct awareness campaigns</li> </ul>
<b>Major infrastructure failure</b>	Communities	Loss of electrical power causing lack of heating, refrigeration, loss of communication	<ul style="list-style-type: none"> <li>• Upgrade the power supply systems</li> </ul>

**6.1.2.4. Disaster Response and Recovery**

The objective of this KPA is to ensure effective and appropriate disaster response and recovery. The Disaster Management Act requires an integrated and coordinated policy that focuses on rapid and effective response to disasters and post-disaster recovery and rehabilitation. When a significant disaster event occurs or is likely to occur, it is important that there be no confusion in terms of the roles, responsibilities and procedures to be followed in such instances. This KPA further requires the municipality to ensure that planning for disaster response and recovery as well as for rehabilitation and reconstruction is consolidated.

- **Disaster Response and Relief**

The Municipal Disaster Management Team in consultation with the Nkangala District Municipality is responsible for handling and providing relief services and material in case of any disaster that may occur in the municipality.

The following table gives a summary of the most critical response teams within the municipality

**Table 6.1.2.4: Disaster Response teams within the Municipality**

<b>Hazards</b>	<b>Response Team</b>	<b>Primary Responder</b>	<b>Relief</b>	<b>Funding</b>
<b>Structural Fires</b>	Fire and rescue division, Disaster Management Housing, Traffic division, FPAs, Social services, Water and Forestry	Fire and Rescue, Medical Services and Disaster Management	Shelter, Blankets, food and parcels	The Municipality has set aside the budget for relief
<b>Veld Fires</b>	Fire and rescue division, Disaster Management Traffic division, FPAs, Social services, Water and Forestry, Department \of Agriculture and Rural Land Form	Fire and Rescue, Medical Services and Working for Fire		
<b>Flooding/Severe Storm</b>	Social services, Housing, Water and Forestry, Disaster Management	Fire and Rescue, Medical services and Disaster Management	Shelter, Blankets and food parcels	
<b>Infrastructure Failure</b>	Fire and Rescue division, Social services, Disaster Management and Housing	Fire and Rescue, Medical services and Disaster Management	Shelter, Blankets, food and parcels	

- **Declaration of a Local State of Disaster**

The Disaster Management stipulates that a Municipal Council may by notice in the provincial gazette declare a local state of disaster, if the municipality cannot deal with the disaster. Furthermore, the municipal Council must authorise the utilisation of the municipal resources and personnel. The main issue during the disaster is to protect the public and property, provide relief, prevent disruption, and deal with other effects of the disaster.

- **Responsibilities in the event of the disaster**

Regardless of whether a disaster has been declared or not the municipality is responsible for the coordination and management of disasters occurring in the area.

- **Funding**

The Municipality does not have funds set aside for response and rehabilitation. However, the municipality has stockpiles of sponges and blankets, which are distributed to disaster victims when there are minor events. When a severe disaster strikes, the municipal Council will assign the responsibility for repairing or replacing of infrastructure affected by a disaster. The finance department will play a huge role in allocating necessary funds for disaster management activities. The municipality further has a responsibility of funding its own disaster management activities. Funding and financial assistance from the district can only be provided in the event when the Municipality is unable to adequately deal with the disaster. Funding from the provincial government would be provided only in instance where the district municipality has exhausted its funds. The national centre will only assist when the province has depleted its funds. External donors may also be approached to assist in some instances. These arrangements can also be made prior to an emergency and disaster situation.

- **Capacity**

The municipality has a strong emphasis on prevention, mitigation, and preparedness for disasters. The objective is to address and reduce risks. In terms of the capacity, the municipality does not have adequate capacity and the necessary technical equipment to conduct disaster management activities such as: risk assessment, public awareness campaigns, response, and establishing an information management system. It is recommended that the disaster management capacity should be strengthened in the municipality. The municipality usually has to find alternative, creative and collaborative ways to obtain the necessary funds to fully implement the disaster management plan.

- **Identification of Critical Facilities**

The general goal of disaster management is to promote safety during a disaster. Certain public and private facilities are crucial to this goal. These facilities include schools, libraries, churches, and public buildings appropriate for supporting disaster affected populations. These have to be identified and made known to the public for use in case of disaster situations.

- **Growth of informal settlements in the municipality**

The substantial growth in the number of informal settlement in the municipality has been observed. The influence of poverty, rapid population growth, unsafe building practices, the lack of infrastructure and accessibility, puts communities at a greater risk. Disaster awareness campaigns are necessary in order to address such challenges.

**The following have been identified as critical Disaster Management issues and should receive priority in the IDP:**

- *Aligning risk management programs with the IDP;*
- *Maintaining risk specific safety infrastructure and plans e.g. Aircraft, railway and major road accidents;*
- *Establishing of a fully functional and equipped Disaster Management Centre for the municipality*
- *Establishing a disaster prevention programmes that focus on the most vulnerable communities and endeavour to support sustainable livelihoods.*
- *Designing a program in support of fire protection;*
- *Establishing and maintaining multi-disciplinary, co-operation and co-operative partnerships;*
- *Establishing pro-active media liaison and rapid response to media inquiries.*
- *Contributing to preventive and reactive management strategies for the HIV/AIDS pandemic.*
- *Education and awareness programmes*

## 6.2. SECTOR PLANS

Beyond the core components of an IDP, as legislated, the Municipality recognises the need to develop further strategies, policies and plans that seek to deal with specific issues that will facilitate the progressive realisation of the desired development trajectory. A close examination of all these strategies and plans will show a greater degree of alignment with all the developmental guidelines.

**Table 6.2: Key Sector Plans**

Item	Name of sector plan	Status
1	Community Participation Strategy	Available
2	Disaster Management Plan	Available
3	Employment Equity Plan	Available

22	Preferential Procurement Policy	Available
23	Tariff policy	Available
24	Customer care, indigent, credit control, debt collection policies	Available
25	Protestprevention and management strategy	Available

**7.1. ELOPMENT STRATEGY**

The purpose of this section is to provide a synthesised strategy for the 2017-2022 Integrated Development Plan in line with the requirements of the Municipal Systems Act 32 of 2000 which requires all municipal councils to adopt a single and inclusive strategic plan for the development of the municipality. The draft strategy is also a product of the municipality's on going engagements with its stakeholders, including traditional leaders, businesses, traditional healers, religious organisations and the broader community of Thembisile Hani local Municipality.

The strategy further takes lineage from the ANC manifesto and a number of strategic instruments adopted nationally and provincially including the National Development Plan and Mpumalanga Vision 2030 to name a few. The strategy further aims to address key service delivery challenges faced by the residents of Thembisile Hani Local Municipality. These challenges are fully outlined in the analysis report of the IDP above Lastly this report is a product of the strategic planning session that was held by the Mayoral Committee and the Management of Thembisile Hani Local Municipality as required by the Municipal Structures Act.

**7.1.1. Strategic Planning Observations**

As part of the strategic planning session that was held on the 18th to the 20th of January 2017 by the Mayoral Committee, a number of key external and internal institutional and developmental issues were discussed and resolutions were taken on how to address some of the key development challenges identified through the analysis phase of the IDP and challenges identified by departments. The following observations were noted from the presentations made by the different commissions at the strategic planning session:

Presentation	Observations
Nkangala District Municipality	<ul style="list-style-type: none"> <li>• NDM resolution to align the adoption of IDPs with MSA which is what THLM has been doing over the past 5 years</li> <li>• Township establishment challenges with regard to obtaining community resolution</li> <li>• Motivation for state land release for free</li> <li>• Letter to NDM to redirect Moloto Township Establishment to Verena</li> <li>• Appointment of GIS specialist</li> <li>• Prioritising development Along R573 in terms of SDF</li> <li>• Investment Framework of NDM has prioritized THLM and Dr JS Moroka</li> <li>• State Land Ownership is still a challenge for billing purposes</li> <li>• Municipality to form part of the planning and monitoring meetings on GIS at NDM</li> <li>• The District has prioritized roads projects and the municipality mainly has water challenges and the Province has prioritized water</li> <li>• Projects for the next 5 years not reflected, NDM needs to give indicative figures of budgets for the next 5 years</li> <li>• The municipality needs to deal with the issue of sub-contracting and supply of plant and equipment.</li> <li>• Issue of Standardizing Projects Steering Committees</li> </ul>
Technical Services Department	<ul style="list-style-type: none"> <li>• Inclusion of the Senior Technician post for Bulk Services in the new financial year</li> <li>• The creation of the operations team for the operations of Bundu Weir, expected to be operational by December 2018.</li> <li>• An operations model needs to be considered and this may include appointing a full operations team as proposed or the municipality must consider appointing a service provider to operate the scheme for the 1<sup>st</sup> 12 months and start the process of identifying and training the internal team</li> <li>• Budget for either of the two options needs to be set aside immediately</li> <li>• Speed up the process of purchasing of new fleet so that the fleet can be delivered at the beginning of the new financial year.</li> <li>• Prioritise the development of the master plan for development of roads and storm water.</li> <li>• Prioritise the construction of storm water channels and graveling.</li> <li>• There is a need to completely recapitalise new yellow and white plant purely because the current fleet has long reached its useful life.</li> <li>• Deal with the policy on 30% sub-contracting since it is a real problem on the ground. The proposed supply chain management policy amendments be presented to Council for adoption and implementation in the new financial year.</li> <li>• The issue of requesting of municipal account be clarified once and for all in relation to those households that cannot produce municipal accounts.</li> <li>• Management must commit to the development and monitoring of the PMU implementation plan that includes the procurement plan,</li> </ul>

## CHAPTER 7: DEVELOPMENT STRATEGY

Presentation	Observations
	<p>monitoring and evaluation plan, quality management plan, contract management plan and the adherence to an interdepartmental SOP manual that must ensure an accurate WIP register and a complete FAR.</p>
Budget and Treasurer office	<ul style="list-style-type: none"> <li>• Elevation of revenue collection</li> <li>• The draft detailed program needs to be popularised via all the communication platforms that the municipality has with immediate effect.</li> <li>• MOU sign off has become more than urgent now</li> <li>• Affirm the proposal on the reduction of tariffs to 100 per household that receives all the basket of services</li> <li>• Reversal of the MPRA charge</li> <li>• Indigent amount threshold has been decreased( is this figure not mandatory)</li> <li>• Capacitating the office of SCM with Chief Accountant and two personnel at clerk level.</li> <li>• Development and submission of a procurement plan by departments</li> <li>• Procuring of the relevant system to produce own AFS's</li> <li>• Skills transfer to form part of SLA and contract management, it must be monitored on a monthly basis</li> <li>• Payroll issues needs to be dealt with</li> <li>• It is important to understand the cash and accrual basis budgeting</li> <li>• Understanding of Igraap standards</li> <li>• We have not budgeted for grade 4 in relation to general staff</li> <li>• Budget will have a shortfall of 200 million (Accrual Budget)</li> <li>• Taking on of new owners on the billing system</li> <li>• Issue of Councillors and officials that owe the municipality must be dealt with in terms amnesty etc</li> <li>• Consider the sale of Proof of Residence(65 rands)complete the total placement of current staff before we employ more people</li> <li>• Data cleansing in terms of stand numbers, names of owners and bills per household (greatest risk in terms of AG's focus this year.</li> <li>• Place the current officials and make sure that they perform their tasks appropriately</li> <li>• Conduct a thorough audit in this regards</li> </ul>
Department of Corporate Services	<ul style="list-style-type: none"> <li>• Council to resolve that the 3.5 set aside for FML be converted to Capital Expenditure</li> <li>• Budget in relation to Municipal Grading</li> <li>• Implications of rejection of the Facilitators proposal.</li> <li>• Work of managers and supervisors</li> <li>• Job descriptions from requesting departments</li> <li>• Answer the question in relation to putting unfunded posts to the Organogram</li> <li>• Participation of Senior</li> </ul>
Local Economic Development/Town Planing	<ul style="list-style-type: none"> <li>• Establishment of an incubation program for the development of youth companies</li> <li>• The 60/40 supply chain local beneficiation model should include youth companies and co-operatives</li> <li>• Decisive and prompt action in regard to the Klipfontein farm</li> <li>• Prioritise the budget of the youth unit</li> <li>• Resuscitation of the Mayoral cup</li> </ul>

## CHAPTER 7: DEVELOPMENT STRATEGY

Presentation	Observations
	<ul style="list-style-type: none"> <li>• Mayoral Bursary scheme to be juxtaposed against the Free Tertiary Education Program of Government</li> <li>• Submit the social enterprise plan</li> <li>• The municipality to start driving the program of SANRAL as it is a ticking time bomb</li> </ul>
Social development services	<ul style="list-style-type: none"> <li>• Top up 600k for EPWP( allowance scale in relation to minimum wage decision)</li> <li>• Manage the issue of interruption of services during the lapsing of EPWP contract</li> <li>• Yellow Plant Capitalization</li> <li>• Increasing of Community Halls Tariffs</li> <li>• Grounds man responsible for plumbing</li> <li>• Billing people for waste collection where the municipality provides such a service</li> <li>• Issue of management of traffic fines(AG's focus)</li> <li>• Maintenance of key facilities( Tweefontein K Waste water treatment works)</li> <li>• Additional machinery is required to cut grass</li> <li>• Critical post of Chief Traffic officer to be re-instated</li> <li>• Management of Physical Security Service Provider</li> <li>• Contract Management Program</li> <li>• Biometry System</li> <li>• Are the social programs presented, supported by Budget</li> </ul>
Office of the Municipal Managers	<ul style="list-style-type: none"> <li>• Ward committee coordinators needed, Public Participation to look at distributing work amongst available staff, e.g. Events coordinator</li> <li>• Performance Management Unit</li> <li>• Two co-ordinators required for PMS</li> <li>• Too much work load</li> <li>• Electronic performance management system needed</li> <li>• Insufficient budget and shortage of staff for communications unit</li> </ul>
Audit Committee Presentation	<ul style="list-style-type: none"> <li>• Development of Standard Operations Procedures and practical steps to monitor them</li> <li>• Simplifying Risk Management processes on a daily basis</li> </ul>

### 7.1.2. Key Resolutions and Actions

As part of the strategic planning session a number of key external and internal institutional and developmental issues were discussed and resolutions were taken on how to address some of the key development challenges identified through the analysis phase of the IDP and challenges identified by departments immediately. The following key resolutions were taken:

## CHAPTER 7: DEVELOPMENT STRATEGY

Item	Resolutions	Responsibility
1.	Thembisile Hani Local Municipality must draft a letter to NDM to redirect Moloto Township Establishment to Verena	Nkangala District Municipality and THLM
2.	Social Development Services/ Technical Services must urgently appoint a GIS specialist	Thembisile/HR/SDS
3.	The Municipality must prioritize development Along R573 in terms of Spatial Development Framework	THLM
4.	The Municipality must form part of the planning and monitoring meetings on GIS	SDS
5.	Municipality to look into challenges with regards to a group called NETA demanding that their plant be used by the contractors of NDM	THLM Technical Services
6.	Technical services to develop strategies for the implementation of By-laws through enforcement	THLM Technical Services
7.	Corporate Services to conduct a cost benefit analysis on maintenance lease or outright purchases of new fleet given the frequent breakdown of white and yellow plant.	THLM Corporate Services
8.	Shortage of personnel must be looked at in order to determine if it's not about appropriate resource allocation and monitoring.	THLM Corporate Services
9.	Local ward councillors to continue with awareness campaigns around the issue of damages to valves by community members( issue of security Alison needs to be looked at albeit it will have huge financial operational implications)	THLM
10.	Upgrading of Enkeldooring B infrastructure to allow for the distribution of the rand water supply as it is currently more reliable.	Technical Services
11.	Licensing of borrow pits	Technical Services
12.	The municipality to develop a Standard Operations Procedures and practical steps to monitor them.	Corporate Services
13.	The municipality must ensure data cleansing in line with the applicable legislation in order to improve revenue collection.	THLM Finance
14.	Finance to ensure that the municipality complies with MSCOA implementation	THLM Finance
15.	Corporate Services to standardise external and internal correspondence	THLM Corporate Services
16.	Feasibility studies on the implementation of an electronic clocking system for all staff	THLM Corporate Services
17.	Councillors skills development needed	THLM Corporate Services
18.	Challenge of over expenditure on Fleet must be looked at and managed accordingly	THLM corporate Services
19.	Management to decide training priorities for staff, Human Resource department to present training priorities to management prior to implementation	THLM Corporate Services
20.	The municipality must prepare local co-operatives to supply schools with food as part of the school nutrition programmes, the municipality must engage the department of Education in this regard	THLM local Economic Development
21.	Municipality to investigate the feasibility of establishing a central material supply and manufacturing centre for building materials	THLM local Economic Development
22.	THLM to coordinate activities to ensure maximum benefits out of the Moloto road development	THLM local Economic Development

## CHAPTER 7: DEVELOPMENT STRATEGY

23.	Feasibility for resuscitation of tourism products such as Loopspruit wine farm, Ben Marie and Zithabiseni, Kgodwana Cultural village.	THLM local Economic Development
24.	SDS to manage the development of Malls and other commercial centers	SDS
25.	Public participation to look at workload distribution to officials within the public participation unit (events management)	Public Participation
26.	Feasibility study for an electronic Performance management system	PMS
27.	The position of PMS coordinator to be filled	PMS
28.	Planning, LED and Business services be joined together to form one department for purposes of synergies and the municipality to appoint a senior manager for Economic Development and Town Planning Services.	Municipal Manager

### 7.1.3. Service Delivery Priorities

This section provides a summary of key service delivery priorities for the 2017-2022 Integrated Development Plan. These priorities form the basis for strategy formulation and project identification.

The Key Service Delivery Priorities identified are summarised below as follows:

<b>Issue 1</b>	Water
<b>Issue 2</b>	Sanitation
<b>Issue 3</b>	Public lighting
<b>Issue 4</b>	Roads and Storm water
<b>Issue 5</b>	Environment and Waste management
<b>Issue 6</b>	Municipal facilities, Sport, Recreation, Art & Culture
<b>Issue 7</b>	Spatial Planning and Land Use Management
<b>Issue 8</b>	Financial management and sustainability
<b>Issue 9</b>	Local Economic Development and Job Creation
<b>Issue 10</b>	Institutional development
<b>Issue 11</b>	Good Governance and Public Participation
<b>Issue 12</b>	Youth Development
<b>Issue 13</b>	HIV/Aids

- **None municipal co ordinated issues**

Issue 13	Public transport
Issue 14	Education
Issue 15	Health and welfare
Issue 16	Post telecommunication
Issue 17	Public safety, security and emergency service
Issue 18	Human settlements( housing)
Issue 19	Land use management
Issue 20	transversal

### 7.1.4. Strategic Framework

In drafting the strategy and proposals for the development of the municipality the following key issues were discussed and form the framework for the 2017-2022 IDP:

- Community Issues (To be considered)
- Problem Statements (Where are we?)
- Vision (Where do we want to be?)
- Mission (What is it that we do?)
- Key priorities
- Strategies
- Objectives
- Organisational Structure
- Projects/Programmes
- Resource allocations

#### Vision

***“To better the lives of our people through equitable and sustainable service delivery and economic development”***

#### Mission

***Thembisile Hani local municipality aims to work towards achieving its vision by:***

- Participatory integrated development planning
- Sustainable, accountable and accelerated service delivery
- Promoting socio-economic development
- Intensifying community participation
- Shared economic growth
- Allocating resources within budgetary constraints
- Ensuring effective and efficient financial governance
- Applying good and transparent corporate governance and Batho pele principles in order to create a high performing municipality

#### Value System

***The municipality will continue to be driven by and observe the following service delivery principles:***

- Showing compassion and care to all municipal customers
- Treating all residents equality and with integrity and respect
- Attending to and responding to all queries efficiently
- Conducting the municipal business processes in an ethical and professional manner

### Strategic Objectives

#### SO 1: To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads

**Objective 1.1:** Increase the current bulk water supply by sourcing 39 ML of water from new potential sources and supply 109 282 households with potable water.

**Objective 1.2:** Provide water reticulation networks in villages to connect 10 000 new households to piped water inside yard.

**Objective 1.3:** Upgrade and maintain existing bulk water infrastructure assets and eliminate all water losses.

**Objective 1.4:** Improve the green drop rating by ensuring compliance with green drop requirements.

**Objective 1.5:** Provide 20 000 households with access to adequate sanitation.

**Objective 1.6:** Provide public lighting to the community by installing highmast lights and streetlights

**Objective 1.7:** Provide accessible roads by re-gravelling 40 km of gravel roads, grading 50 km's and maintaining 20 km's of surfaced roads.

**Objective 1.8:** Provide 20kms of new surfaced roads and complete all incomplete road projects.

#### SO 2: To create integrated and sustainable human settlements through the proactive planning and development of land

**Objective 2.1:** Establish and formalise priority settlements in line with national norms and standards.

**Objective 2.2:** Prevent the illegal occupation of land and enlighten traditional authorities and communities on land development and land use management issues.

**Objective 2.3:** Create a uniform approach to land development by adopting a uniform land use management scheme

## CHAPTER 7: DEVELOPMENT STRATEGY

### SO 3: To create a safe, clean and healthy environment conducive for social development and recreation

**Objective 3.1:** Establish a fully functional regional land fill site

**Objective 3.2:** Extend the refuse removal service to 109 282 households within the municipality.

**Objective 3.3:** Upgrade and install infrastructure in municipal cemeteries

**Objective 3.4:** Refurbish and maintain existing community amenities, including stadiums and community halls

**Objective 3.5:** Construct 6 community halls in key areas for optimal public access

### SO 4: To improve the financial status of the municipality through prudent budget planning, stringent financial management and improved revenue collection

**Objective 4.1:** Approve annual budgets that are compliant with the MFMA and Treasury standards annually

**Objective 4.2:** Progressively improve the Audit opinion of the municipality from qualified to unqualified and ultimately clean audit

**Objective 4.3:** Increase revenue collection from 5% to 60%

**Objective 4.4:** Hold 12 zonal community meetings annually to educate communities about the importance of paying for municipal Services

**Objective 4.5:** Decrease the number of inaccuracies in the billing system by 100%

**Objective 4.6:** Register new indigents annually in line with the indigents policy

**Objective 4.7:** Ensure that the municipality complies with financial legislation, policies, accounting principles and best practices

### SO 5: To create a conducive environment for economic development, investment attraction and job creation.

**Objective 5.1:** Reduce unemployment by 5% annually

**Objective 5.2:** Provide investors with sound investment incentives and opportunities

**Objective 5.3:** Facilitate the resuscitation of nature reserves and key tourist destination sites

**Objective 5.4:** Enhance the agricultural output of the municipality through local economic development initiatives

**Objective 5.5:** Enhance the participation of the youth in the economy through targeted programmes initiated by public, civic and private sector organisations and institutions.

## CHAPTER 7: DEVELOPMENT STRATEGY

---

**SO 6: To improve organizational efficiency and promote a culture of professional conduct in order to render quality services**

**Objective 6.1:** Improve human resource capacity and efficiency in order to achieve value for money

**Objective 6.2:** Manage municipal resources optimally for effective service delivery

**SO 7: To deepen democracy and promote active community participation in the affairs of the institution**

**Objective 7.1:** Hold 24 mayoral outreach meetings per annum

**Objective 7.2:** Ensure that 32 ward committee meetings are convened monthly

**Objective 7.3:** Ensure effective communication with the public and community through the various communication platforms

**Objective 7.4:** Ensure that ward councillors convene 6 mandatory community meetings annually

**Objective 7.5:** Promote good governance through compliance with legislation and adhering to universal local government best practices

## CHAPTER 7: DEVELOPMENT STRATEGY

### Five year strategic Framework

<b>SO 1: To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/Projects</b>
<p><b>Lack of water source and inconsistent water supply to households within THLM</b></p> <p><b>Only 5 wards (5, 13, 15, 17 and 23) out of 32 receive a consistent supply of water, which is 15.6%. The rest of the 27 (84.4%) wards receive water on a rationed basis, in many instance only once per week.</b></p>	Water (issue1)	Basic Service Delivery and Infrastructure Development	To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads	Increase the current bulk water supply by sourcing 39 ML of water from new potential sources and supply 109 282 households with potable water.	Upgrading of existing infrastructure from agricultural project to augment borehole water supply in Bundu	Abstraction of 4 Ml/day from Bundu Weir (Moses River)(6480 h/h to benefit) – Bulk supply
					Conducting feasibility and implementing the new Thembisile Water Scheme (Loskop dam) project working together with the department of water and sanitation.	Abstraction of 20 Ml/day from Loskop Dam. (29 496 h/h to benefit) – Bulk supply
					Conducting feasibility and implementing the Western Highveld (Rust da Winter) bulk water scheme project in Thembisile working in collaboration with the Department of Water and Sanitation	Abstraction of 15 Ml/day from Rust de Winter Dam Scheme – Bulk supply
					Construction of reservoirs for bulk water storage	Reservoir and storage for Moloto Reservoir and Storage for Kameelpoortnek (Engwenyameni) Reservoir and Storage for Tweefontein D
<p><b>Based on the SERO 4 768 h/h do not have access to water and according to</b></p>	Water (issue1)	Basic Service Delivery and Infrastructure Development	To provide households with basic services including water, adequate sanitation, adequate	Provide water reticulation networks in villages to connect 10 000 new households	Reticulation of villages that are currently without a water reticulation network	Construction of Water Reticulation in Kwaggafontein A, Ward 29-(300 h/h)

**CHAPTER 7: DEVELOPMENT STRATEGY**

<b>SO 1: To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/Projects</b>
<b>calculations conducted by THLM 20 966 currently have no access to piped water.</b>			public lighting and accessible roads	to piped water inside yard.	and connecting new households to yard taps	Construction of Water Reticulation in Sheldon, Ward 9- (400 h/h)
						Construction of Water Reticulation in Zenzele- (200 h/h)
						Construction of Water Reticulation in Tweefontein G (New Stands)- (200 h/h)
						Construction of Water Reticulation in Phumula Village (Next to Police Station- 300 h/h)
						Construction of Water Reticulation in Mahlabathini Village (300 h/h)
						Construction of Water Reticulation in Tweefontein C and DK (300 h/h)
<b>Ageing Bulk Infra-Structure that causes water leaks which the municipality cannot afford to have at all given the current supply challenges.</b>  <b>Losses are currently recorded to be at</b>	Water (issue1)	Basic Service Delivery and Infrastructure Development	To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads	Upgrade and maintain existing bulk water infrastructure assets and eliminate all water losses.	Upgrading and maintaining all existing water infrastructure assets in KwaMhlanga, Kwaggafontein and Vlaklaagte.	Upgrading of Kwaggafontein Water Scheme  (8 638 h/h to benefit) – Bulk pipeline
						New Reservoir and pipeline at KwaMhlanga (Multiyear project)

**CHAPTER 7: DEVELOPMENT STRATEGY**

<b>SO 1: To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/Projects</b>
<b>20% of the 41Ml supplied</b>						Phase 2 ( 19 225 h/h to benefit) – Bulk storage
						Upgrading of Verena A Water Infrastructure
						Upgrading of Vlaklaagte and Kwaggafontein Water Infrastructure
						Upgrading of Vrischgewaagd Reservoir Storage
						Upgrading of Tweefontein A Reservoir Storage
						Upgrading of Mathysensloop Water Infrastructure
					Changing of the bulk pipelines so that the 500mm diameter pipeline is only supplied from the 1000mm and improving the hydraulics and ensuring sufficient water can be supplied into the relevant supply zones	Upgrading of Enkeldoornoog B Water Infrastructure
					Installation of water monitoring systems and water meters to quantify water	Installation of telemetric system in 22 reservoirs Installation of bulk water meters from receiving source

**CHAPTER 7: DEVELOPMENT STRATEGY**

<b>SO 1: To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/Projects</b>
						Water conservation and demand management Plan Water service development plan Refurbishment and/ or installation of household water meters
<b>High green drop risk rating of 84.3%, which increased from 68.6% in 2013 which poses serious health hazards.</b>	Sanitation (issue2)	Basic Service Delivery and Infrastructure Development	To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads	Improve the green drop rating by ensuring compliance with green drop requirements.	Development of Waste Water Risk Abatement Plan	Green drop programme
					The uploading of data to the Green Drop System which is up to keep it up to date on a monthly basis	Green drop programme
					Upgrading of Tweefontein K Waste Water Treatment Plant from 1.5 Ml/ day to 20 Ml/day	Upgrading of Tweefontein K WWTW from 1.5 Ml/ day to 20 Ml/day
					Application for a Water Use License for Tweefontein K WWTW,	Green drop programme
					Appointment of three additional process controllers	Green drop programme
<b>A substantial quantity of the population is without adequate sanitation infrastructure and serviced below RDP standards.</b>	Sanitation (issue2)	Basic Service Delivery and Infrastructure Development	To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads	Provide 20 000 households with access to adequate sanitation. +	Tweefontein K WWTW Plant to be upgraded to a 16 Ml/ day module over a period of 13 years	Upgrading of Tweefontein K WWTW (22 366 HH to benefit)
					Conduct feasibility studies to provide a water bourne sanitation system in Luthuli and surrounding areas	Luthuli Waste Water Treatment Works (20 Year Project)

**CHAPTER 7: DEVELOPMENT STRATEGY**

<b>SO 1: To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/Projects</b>
<b>Backlog 2 117</b>					Conduct feasibility studies for the construction of water bourne sanitation system in Kwaggafontein, Bundu, Machipe, Mathysenloop, Boekenhouhoek, Moloto and Verena	Feasibility study for water borne sanitation system
					Conduct feasibility studies to provide Rural sanitation to households in farm areas without water reticulation	Feasibility study for rural sanitation in farms
<b>The municipality has high mast lights, midblock lights and street lights at different villages. These are insufficient as there is still a need to provide more.</b>	Public lighting(Issue 3)	Basic Service Delivery and Infrastructure Development	To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads	Provide public lighting to the community by installing highmast lights and streetlights	Development of public lighting master plan to rationalise the allocation of highmast and street lights throughout the municipality	Public lighting master plan
<b>Road maintenance problems occur throughout the entire municipal area and it is virtually impossible to address all of these simultaneously.</b>	Roads and Storm water(Issue4)	Basic Service Delivery and Infrastructure Development	To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads	Provide accessible roads by re-gravelling 40 km of gravel roads, grading 50 km's and maintaining 20 km's of surfaced roads.	Develop a road grading and regravelling programme for priority gravel roads within the municipality	Routine Road Maintenance programme
					Construct culverts (small bridges) and side drains	Routine Road Maintenance programme
					Carryout preventative maintenance to surfaced roads in conjunction with Nkangala District and the Department of Public Works	Routine Road Maintenance programme

## CHAPTER 7: DEVELOPMENT STRATEGY

<b>SO 1: To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/Projects</b>
<b>The current backlog in terms of unpaved roads is 1 893.7 km</b>	Roads and Storm water(Issue4)	Basic Service Delivery and Infrastructure Development	To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads	Provide 20kms of new surfaced roads and complete all incomplete road projects.	Working together with Nkangala District Municipality identify busy access roads for block paving	Kwa-Mhlanga Bank view construction of internal roads (1.2km)
						Construction of link roads in Ward 9
						Belfast bus road (200m)
						Langkloof Bus Route (1.5 km)
						Verena D Bus Road (2 km)
						Verena C Bus Road (2.7 km)
						Zakheni Bus Road Paving (1.8 km)
						Zakheni Link route
					Sourcing of funds to complete incomplete road projects	Bus route Vezubuhle (0.3 km)
						Link route Luthuli (0.3 km)
						Kwaggafontein A taxi and bus route (0.3 km)
						Bus route Buhlebesizwe (0.3 km)
						Bus route Tweefontein B2 (0.3 km)
						Bus route Tweefontein E (0.35km)
						Bus route Thembalethu (0.3 km)
Bus and taxi route Sun City AA (0.3 km)						
Bus route Mathysenloop (0.3 km)						

## CHAPTER 7: DEVELOPMENT STRATEGY

<b>SO 1: To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/Projects</b>
						Construction of box culvert at Boekenhouhoek
						Completion of bus route Sun City B (0.3 km)
<b>Obe 2: To create integrated and sustainable human settlements through the proactive planning and development of land</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/Projects</b>
The Municipality also has a number of un-proclaimed settlements with survey diagrams and the formalization process for these settlements has not been concluded.	Spatial Planning and Land Use Management (Issue 7)	Spatial Rationale and Development	To create integrated and sustainable human settlements through the proactive planning and development of land	Establish and formalise priority settlements in line with national norms and standards.	<p>Source funding with the assistance of Nkangala District Municipality and the department of Cooperative Governance and Traditional Affairs for the establishment of townships.</p> <p>Source funding from the Department of Human Settlements to fund 10 key priority settlements identified as part of the National Upgrading Support Programme.</p>	<p>Establishment of townships in Verena South-West, Verena North-West, Verena South-East, KwaMhlanga South-West, Wolvenkop Extension, KwaMhlanga South, KwaMhlanga South-East, KwaMhlanga West, Tweefontein North, KwaMhlanga East, KwaSilamba, Kwaggafontein Ext. 2, Kwaggafontein West, Buhlebesizwe South, Buhlebesizwe East</p> <p>Formalisation of Townships in Moloto, Kameelportnek/Sun City, KwaMhlanga/Phola Park, Tweefontein/Enkeldoornoog, Vlaklaagte/Gemsbokspruit, Vlaklaagte/Kwaggafontein, Mathys-Zyn-Loop, Boekenhoutoek, Goederede, Verena / Wolvenkop</p>

## CHAPTER 7: DEVELOPMENT STRATEGY

<b>Obe 2: To create integrated and sustainable human settlements through the proactive planning and development of land</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/Projects</b>
					Accelerating the finalisation of all existing township establishment processes by Nkangala District Municipality and request Nkangala to fund the opening of Township Registers	Establishment of Townships in Vlaklaagte (Buhlebesizwe extension 1), Gemsbokfontein (Emlanjeni), Tweefontein F and Kameelpoornek (Clearview).
Land invasion on state owned land	Spatial Planning and Land Use Management (issue 7)	Spatial Rationale and Development	To create integrated and sustainable human settlements through the proactive planning and development of land	Prevent the illegal occupation of land and enlighten traditional authorities and communities on land development and land use management issues.	Engage Nkangala District Municipality and the Department of Rural development and Land Reform (DRDLR) on the establishment of a Land Invasion Committee	Land Invasion action plan
					Fast track the signing of a memorandum of understanding with traditional councils on land issues	Land Invasion action plan
					Apply a comprehensive approach in obtaining court orders for all strategically located land	Land Invasion action plan
					Implement land invasion policies optimally	Land Invasion action plan
					Appoint of an additional Town and Regional Planner	Land Invasion action plan
	Spatial Planning and Land Use Management (issue 7)	Spatial Rationale and Development	To create integrated and sustainable human settlements through the proactive planning and development of land	Create a uniform approach to land development by adopting a uniform land use management scheme	Engage Nkangala district municipality to assist Thembisile with the development of a Land Use Management Scheme in line with SPLUMA	Thembisile Hani Land Use Management Scheme

## CHAPTER 7: DEVELOPMENT STRATEGY

<b>SO 3: To create a safe, clean and healthy environment conducive for social development and recreation</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/Projects</b>
There is no landfill site for waste disposal  There are two illegal dumping not in compliance with NEMA	Environment and Waste management (Issue 5)	Basic Service Delivery and Infrastructure Development	To create a safe, clean and healthy environment conducive for social development and recreation	Establish a fully functional regional land fill site	Development and construction of Kwaggafontein landfill site	Construction of Kwaggafontein Land fill site
Waste Management Out of 109 282 HH, 55 798 (51.01%) HH have access to waste collection on a monthly basis. 53 484 HH (48.99%) do not have access to waste collection On a monthly basis	Environment and Waste management (Issue 5)	Basic Service Delivery and Infrastructure Development	To create a safe, clean and healthy environment conducive for social development and recreation	Extend the refuse removal service to 109 282 households within the municipality.	Repair waste collection tractors and trucks	Waste Collection Programme
					Develop a waste collection operational business plan for an effective waste removal programme	Waste collection Programme
					Clearing of illegal dumping sites	Waste collection Programme
					Increase the resources of the municipality in order to effectively collect waste in every household	Waste collection Programme
Out of the 40 cemeteries, only 31 cemeteries are fenced but do not have lighting, water and maintenance.	Environment and Waste management (Issue 5)	Basic Service Delivery and Infrastructure Development	To create a safe, clean and healthy environment conducive for social development and recreation	Upgrade and install infrastructure in municipal cemeteries	Development of a master plan for all municipal cemeteries	Cemetery Master Plan
					Fencing, lighting, providing water and maintenance cemeteries in line with the cemetery by-laws	Fencing of graveyards
The two stadiums are utilized but are however under maintained.  Dilapidated Community Halls	Municipal facilities, Sport, Recreation, Art & Culture (Issue 6)	Basic Service Delivery and Infrastructure Development	To create a safe, clean and healthy environment conducive for social development and recreation	Refurbish and maintain existing community facilities, including stadiums and community halls.	Development of programme for the routine maintenance of existing facilities in Kwamhlanga, Kwaggafontein, Vezubuhle, Phola Park, Mandela, and Verena.	Routine Maintenance Programme
				Construct 6 community halls in key areas for optimal public access.	Conduct feasibility studies and obtain funding for the construction of community	Construction of Community Hall in Moloto

**CHAPTER 7: DEVELOPMENT STRATEGY**

Development of Parks Support for Art and Culture					halls/ Multipurpose centers in Moloto, Phumula, Tweefontein F, Zenzele and Boekenhouthoek working together with Nkangala District Municipality.	Construction of Moloto North Multipurpose center
						Construction of Phumula Multipurpose center
					Engage the department of Rural Development and Land Reform on the 1RW 1IDC (1 Rural Ward 1 Integrated Development Center) programme	Construction of Community Hall in Tweefontein F
						Construction of Community Hall in Boekenhouthoek
						Construction of Community Hall in Tweefontein K

## CHAPTER 7: DEVELOPMENT STRATEGY

<b>SO 4: To improve the financial status of the municipality through prudent budget planning, stringent financial management and improved revenue collection</b>							
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/ Projects</b>	
Unrealistic budgets and cash-flow challenges	Financial management and sustainability (Issue 8)	Financial Viability	To improve the financial status of the municipality through prudent budget planning, stringent financial management and improved revenue collection	Approve annual budgets that are compliant with the MFMA and Treasury standards annually	Adopt a programme and establish a budget planning committee	Development of Annual Budgets	
Qualified Audit Opinion over the past five years.	Financial management and sustainability (Issue 8)	Financial Viability	To improve the financial status of the municipality through prudent budget planning, stringent financial management and improved revenue collection	Progressively improve the Audit opinion of the municipality from qualified to unqualified and ultimately clean audit	Adopt a credible audit action Plan	Audit Recovery Plan	
					Establish and implement internal controls as guided by the Auditor General	Audit Recovery Plan	
					Build internal financial capacity to eliminate outsourcing of consultants for Annual Financial Statements and Asset Registers	Audit Recovery Plan	
					Prevent wasteful, fruitless, unauthorized and irregular expenditure through implementing stringent SCM processes.	Audit Recovery Plan	
					Implement Internal Audit recommendations and monitor progress.	Audit Recovery Plan	

## CHAPTER 7: DEVELOPMENT STRATEGY

<b>SO 4: To improve the financial status of the municipality through prudent budget planning, stringent financial management and improved revenue collection</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/ Projects</b>
Very low payment rate of about 5% Infrastructure Assets	Financial management and sustainability (Issue 8)	Financial Viability	To improve the financial status of the municipality through prudent budget planning, stringent financial management and improved revenue collection	Increase revenue collection from 5% to 60%	Install smart meters at all government institutions including, schools and offices to monitor the usage of water and correct billing.	Installation of smart meters
Reluctance by residents to pay for services in dispute to the quality of services provided.	Financial management and sustainability (Issue 8)	Financial Viability	To improve the financial status of the municipality through prudent budget planning, stringent financial management and improved revenue collection	Hold 12 zonal community meetings annually to educate communities about the importance of paying for municipal Services	Engage with stakeholders such as Amakhosi, Businesses, Religious Organisations, Traditional Healers and the broader community.	Community Engagements meetings
Inaccuracies in billing. (Currently at 35%)	Financial management and sustainability (Issue 8)	Financial Viability	To improve the financial status of the municipality through prudent budget planning, stringent financial management and improved revenue collection	Decrease the number of inaccuracies in the billing system by 100%	Obtain a list of property owners within the municipality from the Deeds office	Municipal Billing database
					Consult with relevant stakeholders (National Treasury, Provincial Treasury and Audit Committee) in order to correct the issue of charging consumers who are not property owners	
					Compile a credible valuation roll	
					Reverse charges in relation to Rates and Taxes billed incorrectly.	Municipal Billing database
High level of indigents in the Municipality	Financial management and	Financial Viability	To improve the financial status of the	Register new indigents annually in	Establish the indigent committee for the	Indigent Register

## CHAPTER 7: DEVELOPMENT STRATEGY

<b>SO 4: To improve the financial status of the municipality through prudent budget planning, stringent financial management and improved revenue collection</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/ Projects</b>
	sustainability (Issue 8)		municipality through prudent budget planning, stringent financial management and improved revenue collection	line with the indigents policy	<p>compilation of the indigent roll</p> <p>Communicate the opening of the registration process and facilitate all the registration process.</p> <p>Monitor the Indigent Register and implement the rebates in terms of the indigent register.</p> <p>Review the indigent register annually</p>	<p>Indigent Register</p> <p>Indigent Register</p> <p>Indigent Register</p>
The Fixed asset register is not fully compliant with Grap 17.	Financial management and sustainability (Issue 8)	Financial Viability	To improve the financial status of the municipality through prudent budget planning, stringent financial management and improved revenue collection	Ensure that the municipality complies with financial legislation, policies, accounting principles and best practices	<p>Ensure that all progress certificates/reports, practical completion certificates, final completion certificates are shared between the Project Management Unit and Asset Management Unit to ensure the commitments are updated with supporting documents</p> <p>Updating of Commitments register on a daily basis</p> <p>Ensure that all payments processed by PMU unit are shared with the Asset Management Unit by holding weekly information sharing meetings with PMU</p>	<p>Fixed Asset Register</p> <p>Fixed Asset Register</p> <p>Fixed Asset Register</p>

**CHAPTER 7: DEVELOPMENT STRATEGY**

<b>SO 4: To improve the financial status of the municipality through prudent budget planning, stringent financial management and improved revenue collection</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/ Projects</b>
					Expenditures incurred on MIG projects are updated as and when payments are made on the WIP Register	Fixed Asset Register
					Ensure that all completed projects are capitalized and added to the FAR, and depreciated.	Fixed Asset Register

## CHAPTER 7: DEVELOPMENT STRATEGY

<i>SO 5: To create a conducive environment for economic development, investment attraction and job creation.</i>						
Problem statement	Priority	KPA	Strategic Objective	Objective	Strategies	Programmes/ Projects
High unemployment rate of 33.3% as per SERO 2016 report (Rising levels of frustrations and impatience with government promises)	Local Economic Development and Job Creation(Issue 8)	Local Economic Development	To create a conducive environment for economic development, investment attraction and job creation.	Reduce unemployment by 5% annually	Recruitment of 1200 local people through CWP and EPWP programme annually	CWP EPWP (1200 jobs)
					Identify, organize, encourage and formalize of local farming cooperatives to supply department of Education for nutrition programs	Cooperatives Development (30 jobs)
					Resuscitate small industrial parks	Small industrial park Project (60 jobs)
					Participate in the Moloto Road and Rail Construction	Moloto Road and Rail Construction (10 000 jobs)
					Support HCI holdings for the Construction of a 600MW Coal Baseload Power Station	Construction of a 600MW Coal Baseload Power Station (500 jobs)
					Resuscitating SS Skosana nature reserve Bundu Inn and other nature reserves and cultural heritage sites	Resuscitate SS Skosana nature reserve (20 jobs)
						Resuscitate Bundu Inn (20 jobs)
					Renovate & upgrade Kgodwana cultural centre into a proper tourist attraction site	Kgodwana cultural centre (12 jobs)
					Upgrade Loopspruit winery for Agriculture and Tourism purposes	Upgrading of Loopspruit (35 jobs)
Coordination of the compilation of feasibility studies for Zithabiseni	Zithabeseneni and Loskop Tourism belt (30 jobs)					

## CHAPTER 7: DEVELOPMENT STRATEGY

<i>SO 5: To create a conducive environment for economic development, investment attraction and job creation.</i>						
Problem statement	Priority	KPA	Strategic Objective	Objective	Strategies	Programmes/ Projects
					Resort and Loskop Tourism belt	
					Engage the Department of Economic Development and Nkangala District Municipality to assist with funding for local textile and brick manufacturing plants	Textile and brick manufacturing Plants
					Conduct feasibility studies for textile and brick manufacturing plants	Brick manufacturing Plants
						Local Textile manufacturing
					Align the social and labour plans of mining companies with the needs of the Municipality through formally engaging with mining houses twice per annum	
Limited Investment opportunities	Local Economic Development and Job Creation(Issue 8)	Local Economic Development	To create a conducive environment for economic development, investment attraction and job creation.	Provide investors with sound investment incentives and opportunities	Develop a municipal investment strategy	Investment strategy
					Hold regular local stakeholder meetings with Smme's and cooperatives	Investment strategy

## CHAPTER 7: DEVELOPMENT STRATEGY

<i>SO 5: To create a conducive environment for economic development, investment attraction and job creation.</i>						
Problem statement	Priority	KPA	Strategic Objective	Objective	Strategies	Programmes/ Projects
					Engage the Department of Rural Development and Land reform, together with the Mpumalanga Department of Agriculture, Rural Development and Land Reform on land release matters for strategic development	Investment strategy
					Identify and support strategic development partners	Construction of a 600MW Coal Baseload Power Station
						Industrial development Zone
						Moloto Road Development
					Development of an investment policy to guide external investors	Investment strategy
Non-functioning Nature Reserves and lack of well-developed tourist attraction sites	Local Economic Development and Job Creation (Issue 8)	Local Economic Development	To create a conducive environment for economic development, investment attraction and job creation.	Facilitate the resuscitation of nature reserves and key tourist destination sites	Conduct feasibility studies to resuscitate SS Skosana nature reserve, Bundu Inn and other nature reserves and cultural heritage sites within the Municipality	Feasibility studies for Tourism
					Engage the Department of Economic Development and Tourism and the Mpumalanga Economic Development Agency to assist with funding.	Feasibility studies for Tourism

## CHAPTER 7: DEVELOPMENT STRATEGY

<i>SO 5: To create a conducive environment for economic development, investment attraction and job creation.</i>						
Problem statement	Priority	KPA	Strategic Objective	Objective	Strategies	Programmes/ Projects
					Packaging of Tourism product offerings within the Municipality with the assistance from the Mpumalanga Tourism and Parks Agency	Feasibility studies for Tourism
					Hold quarterly meetings with stakeholders	Feasibility studies for Tourism
Limited agricultural output to create jobs and enhance economic development	Local Economic Development and Job Creation(Issue 8)	Local Economic Development	To create a conducive environment for economic development, investment attraction and job creation.	Enhance the agricultural output of the municipality through local economic development initiatives	Training and registration of Smme's and cooperatives on the Municipal database	Smme's and cooperatives development
					Holding annual engagement meetings with the agricultural sector to create awareness and information dissemination	Agricultural Development
					Support rural smallholder farmers and expand community food gardens	Agricultural development
					Conduct feasibility studies for a local fresh produce market and local agro-processing plant	Fresh Produce Market (LED Strategy)
Youth unemployment rate of 49.4%	Youth Development (Issue 12)	Local Economic Development	To create a conducive environment for economic development, investment attraction and job creation.	Enhance the participation of the youth in the economy through targeted programmes initiated by public, civic and private sector organisations and institutions.	Appointment of youth as part of the EPWP and CWP initiatives	CWP and EPWP
					Establish a central youth information desk linked to the various agencies and private sector organisations such as the IDC, NYDI, MEGA, MTP, DSB for easy access to information and	Central Youth Desk

## CHAPTER 7: DEVELOPMENT STRATEGY

<i>SO 5: To create a conducive environment for economic development, investment attraction and job creation.</i>						
Problem statement	Priority	KPA	Strategic Objective	Objective	Strategies	Programmes/ Projects
					opportunities relating to youth programmes	
					Reserve 40% of all procurement opportunities for youth owned enterprises and companies were possible.	Procurement Opportunities
					Identify and collaborate with local industry and businesses to award 5 mayoral bursaries annually to deserving learners for higher education and training.	Mayoral Bursaries Scheme
					Train and skill learners falling within the youth category in collaboration with MRTT and other SETA's	Training programmes for the youth
					Identify funding support models for youth and facilitate the enrolment of youth and woman owned enterprises on the funding models.	Funding for youth development

**CHAPTER 7: DEVELOPMENT STRATEGY**

<b>SO 6: To improve organizational efficiency and promote a culture of professional conduct in order to render quality services</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/Projects</b>
<p>Non availability of notch progression policies, procedure manuals and non-submission of Job descriptions</p> <p>Improper monitoring of attendance and punctuality</p> <p>Insufficient training budget to capacitate both employees and councillors</p>	<p>Institutional development (Issue 9)</p>	<p>Institutional Transformation and Organisational Development</p>	<p>To improve organizational efficiency and promote a culture of professional conduct in order to render quality services</p>	<p>Improve human resource capacity and efficiency in order to achieve value for money</p>	<p>Development of a policy and a procedure manual to evaluate the municipal staff for notch progression and enforce submission of job descriptions by departments</p>	<p>Human Resource Policy</p>
					<p>Monitoring the attendance and punctuality of all staff members</p>	<p>Procurement of an Electronic clocking system</p>
					<p>Development of an IPMS policy framework and cascading of Performance Management to all staff levels</p>	<p>Individual Performance Management System</p>
					<p>Filling key positions within 3 months from the date of the vacancy</p>	<p>Filling of Vacancies</p>
					<p>Review organisational structure in line with organizational re-engineering and appoint competent and qualified people in positions</p>	<p>Filling of Vacancies</p>
					<p>Identify training needs through the Skills Audit Programme and compile a Work Skills Plan</p>	<p>Training</p>
					<p>Over expenditure incurred as a result of Aging Fleet</p> <p>Aging ICT Equipment (server) and</p>	<p>Institutional development (Issue 9)</p>
<p>Auctioning of aging fleet and finance leasing</p>	<p>Fleet Management</p>					

## CHAPTER 7: DEVELOPMENT STRATEGY

<b>SO 6: To improve organizational efficiency and promote a culture of professional conduct in order to render quality services</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/Projects</b>
formulation of Business Continuity Plan			order to render quality services		Upgrade the current ICT system and formulate a Business Continuity Plan	Upgrading of Information systems

## CHAPTER 7: DEVELOPMENT STRATEGY

<b>SO 7: To deepen democracy and promote active community participation in the affairs of the institution</b>						
<b>Problem statement</b>	<b>Priority</b>	<b>KPA</b>	<b>Strategic Objective</b>	<b>Performance Objective</b>	<b>Strategies</b>	<b>Programmes/Projects</b>
Community protests and dissatisfaction with regard to service delivery	Good Governance and Public Participation (Issue 10)	Good Governance and Public Participation	To deepen democracy and promote active community participation in the affairs of the institution	Hold 24 mayoral outreach meetings per annum	Provide technical support to Mayoral outreach meetings	Mayoral outreach programmes
				Ensure that 32 ward committee meetings are convened monthly	Provide technical support to ward committees	Ward committees
				Ensure effective communication with the public and community through the various communication platforms	Develop an internal and external Institutional Communication Plan	Communication Plan
					Disseminate information to the community and the public through social media (Facebook), radio slots and newsletters as and when required	Stakeholder communication
	Good Governance and Public Participation (Issue 10)	Good Governance and Public Participation	To deepen democracy and promote active community participation in the affairs of the institution	Promote good governance through compliance with legislation and adhering to universal local government best practices	Ensure compilation of compliance registers and the implementation thereof	None
					Implementaion of resolutions and recommendations made by governance structures such as Council Committees, MPAC, AC, RMC , Planning and Performance Management Systems	None
					Provide a service delivery report to communities to keep them abreast with the business of the municipality	None
					Conduct customer satisfaction surveys	None
					Ensure that service delivery is conducted efficiently	None
					Ensure that municipal stakeholders informed	None

**CHAPTER 7: DEVELOPMENT STRATEGY**

---

					about the affairs of the municipality for transparency and accountability	
					Strive towards achieving a clean audit outcome thorough achieving through stringent financial management and compliance with legislation	None

## CHAPTER 7: DEVELOPMENT STRATEGY

### 5 Year Performance Indicators and Performance Targets

SO 1 To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads						
Key Performance Area	Objective Number	Performance Objectives	Indicator Number	Key Performance Indicator	5 Year Performance Target	Explanatory Note
Basic Service Delivery and Infrastructure Development	1.1	Increase the current bulk water supply by sourcing 39 ML of water from new potential sources and supply 109 282 households with potable water.	1.1a	Number (#) of ml of water sourced from potential water sources.	39 ML by 30 June 2022	<p>The purpose of the objective is to augment the current supply by sourcing 39ml of water from potential new sources and excludes the existing sources.</p> <p>The target is largely dependant on the implementation of projects by the department of Water and Sanitation and Human Settlements. However the municipality has the responsibility to lead these interventions. The target is specifically included and captured in the performance plans of the institution to ensure that the objective is given the necessary attention.</p>
			1.1b	Number (#) of households supplied with potable water.	109 282 households annually by 30 June 2022	The indicator and target take into account the current water supply from the existing sources.
	1.2	Provide water reticulation networks in villages to connect 10 000 new households to piped water inside yard.	1.2a	Number (#) of new households connected to a water reticulation network.	10 000 households by 30 June 2022	None

## CHAPTER 7: DEVELOPMENT STRATEGY

SO 1 To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads						
Key Performance Area	Objective Number	Performance Objectives	Indicator Number	Key Performance Indicator	5 Year Performance Target	Explanatory Note
	1.3	Upgrade and maintain existing bulk water infrastructure assets and eliminate all water losses.	1.3a	Number (#) of bulk water infrastructure assets upgraded and maintained	10 bulk water infrastructure assets upgraded and maintained by 30 June 2022	See strategic framework below for further details.
			1.3b	Percentage (%) of water losses eliminated	100% water losses eliminated	See strategic framework below for further details.
	1.4	Improve the green drop rating by ensuring compliance with green drop requirements.	1.4a	Green drop ranking achieved	Rank 1 achieved annually by 30 June 2022	See strategic framework below for further details.
			1.4b	Percentage (#) of green drop rating achieved	100% by 30 June 2022	See strategic framework below for further details.
	1.5	Provide 20 000 households with access to adequate sanitation.	1.5a	Number (#) of households provided with access to adequate sanitation	20 000 households by 30 June 2022	The indicator and target relate to existing households, potential new households and rural sanitation systems under consideration by the Municipality.
	1.6	Provide public lighting to the community by installing highmast lights and streetlights	1.6a	Number (#) of public lighting master plans developed	1 public lighting master plan developed by June 2019	See strategic framework below for further details.
			1.6b	Number (#) highmast lights installed, energised and are functional	As per public lighting master plan	The target will be informed by the public lighting master plan.
			1.6c	Number (#) streets lights installed, energised and are functional	As per public lighting master plan	Target will be informed by the public lighting master plan.
	1.7	Provide accessible roads by re-gravelling 40 km of gravel roads, grading 50 km's and maintaining 20 km's of surfaced roads.	1.7a	Kilometers (km) of gravel roads regravelled	40 kilometres of roads regraveld by 30 June 2022	See strategic framework below for further details.
			1.7b	Kilometers (km) of gravel roads graded	50 kilometres of roads graded by 30 June 2022	See strategic framework below for further details.

## CHAPTER 7: DEVELOPMENT STRATEGY

SO 1 To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible roads						
Key Performance Area	Objective Number	Performance Objectives	Indicator Number	Key Performance Indicator	5 Year Performance Target	Explanatory Note
			1.7c	Kilometers (km) of preventative maintenance conducted on surfaced roads	20 kilometres of surfaced roads maintained by 30 June 2022	See strategic framework below for further details.
	1.8	Provide 20kms of new surfaced roads and complete incomplete road projects.	1.8a	Kilometers (km) of new surfaced roads constructed	20 kilometres of new surfaced roads constructed by June 2017.	See strategic framework below for further details.
			1.8b	Percentage (%) incomplete roads projects completed	100% of incomplete roads projectd completed by June 2022	Incomplete projects relate to projects suspended due to reprioritisation of projects in 2015.

## CHAPTER 7: DEVELOPMENT STRATEGY

SO 2: To create integrated and sustainable human settlements through the proactive planning and development of land						
Key Performance Area	Objective Number	Performance Objectives	Indicator Number	Key Performance Indicator	5 Year Performance Target	Explanatory Note
Spatial Rational and Development	2.1	Establish and formalise priority settlements in line with national norms and standards.	2.1a	Number (#) of priority townships established in line with national norms and standards	18 priority settlements established by 30 June 2022	See strategic framework below for further details.
			2.1b	Number (#) of priority settlements formalised in line with the National Upgrading Support Programme	10 priority settlements upgraded by 30 June 2022	See strategic framework below for further details.
			2.1c	Number (#) of new township establishment processes completed	4 Townships established by 30 June 2018	See strategic framework below for further details.
	2.2	Prevent the illegal occupation of land and enlighten traditional authorities and communities on land development and land use management issues.	2.2a	Number (#) of land development committees established	1 land development committees established by June 2018	The land invasion committee to be chaired by the MMC responsible for land development and attended by permanent delegates from the DRDLR, DARDLEA, AND Nkangala District Municipality and traditional leaders
			2.2b	Number (#) of land development committee sittings held	2 land development committee sittings held annually until June 2022	See strategic framework below for further details.
			2.2c	Percentage (%) of land development committee resolutions implemented by the municipality	100% land development committee resolutions periodically by June 2017	See strategic framework below for further details.
			2.2d	Number (#) of memorandums of understanding entered into with traditional councils on land development principles.	5 MOU's signed with each traditional council by June 2019.	See strategic framework below for further details.

## CHAPTER 7: DEVELOPMENT STRATEGY

SO 2: To create integrated and sustainable human settlements through the proactive planning and development of land						
Key Performance Area	Objective Number	Performance Objectives	Indicator Number	Key Performance Indicator	5 Year Performance Target	Explanatory Note
			2.2e	Court orders obtained and implemented in reaction to the illegal occupation of land in the municipality	All court orders obtained implemented.	The target and indicator are reactive and should operate as and when there is a dire need to institute action against the illegal occupation of land and therefore cannot be measured using numbers.
			2.2f	Number (#) of land invasion policies adopted, implemented and annual reports tabled before council	1 land invasion policy adopted implemented annually and annual reports tabled before Council annually by June	See strategic framework below for further details.
	2.3	Create a uniform approach to land development by adopting a uniform land use management scheme	2.3a	Number (#) of wall to wall land use management schemes adopted by Council	1 wall-to-wall land use management scheme adopted by June 2019	See strategic framework below for further details.
			2.3b	Percentage (%) of land development applications processed in line with the approved land use scheme	100% land development applications approved in line with the approved land use scheme by June 2022	See strategic framework below for further details.

## CHAPTER 7: DEVELOPMENT STRATEGY

<b>SO 3: To create a safe, clean and healthy environment conducive for social development and recreation</b>						
<b>Key Performance Area</b>	<b>Objective Number</b>	<b>Performance Objectives</b>	<b>Indicator Number</b>	<b>Key Performance Indicator</b>	<b>5 Year Performance Target</b>	<b>Explanatory Note</b>
Basic Service Delivery and Infrastructure Development	3.1	Establish a fully functional regional land fill site	3.1a	Number (#) of land fill sites established and are fully operational.	1 landfill site established and is fully operational by 30 June 2022	See strategic framework below for further details.
			3.1b	Proportion of illegal dumping	All forms of illegal dumping discontinued by June 2022	
	3.2	Extend the refuse removal service to 109 282 households within the municipality.	3.2a	Number(#) of households provided with access to refuse removal at household level fortnightly	As per the refuse removal programme (SeeSDBIP for annual targets)	See strategic framework below for further details.
			3.2b	Number(#) of households provided with refuse removal at least once per month	As per the refuse removal programme (SeeSDBIP for annual targets)	See strategic framework below for further details.
	3.3	Upgrade and install infrastructure in municipal cemeteries	3.3a	Percentage (%) of cemeteries upgraded in line with municipal cemetery standards	100% by June 2022	See strategic framework below for further details.
	3.4	Refurbish and maintain existing community facilities, including stadiums and community halls.	3.4a	Number (#) of community halls refurbished	6 Community halls	See strategic framework below for further details.
			3.4b	Number (#) of stadiums upgraded	2 stadiums in Kwamhlanga and Kwaggafontein	See strategic framework below for further details.
			3.4c	Number of public spaces including municipal facilities provided with landscaping and beautification	Municipal facilities to be provided with landscaping periodically in accordance with a landscaping programme by June 2022	See strategic framework below for further details.
			3.4d	Number of sport fields graded	32 sport fields annually	See strategic framework below for further details.
	3.5	Construct 6 community halls in key areas for optimal public access.	3.5a	Number of community halls constructed	6 public hall constructed by June 2022	Public halls include multipurpose centers

## CHAPTER 7: DEVELOPMENT STRATEGY

<b>SO 4: To improve the financial status of the municipality through prudent budget planning, stringent financial management and improved revenue collection</b>						
Key Performance Area	Objective Number	Performance Objectives	Indicator Number	Key Performance Indicator	5 Year Performance Target	Explanatory Note
Financial Viability	4.1	Approve annual budgets that are compliant with the MFMA and Treasury standards annually	4.1a	Approved annual budget in line with MFMA and treasury standards	5 annual budgets	See strategic framework below for further details.
			4.1b	Number of budgets adjusted in line with MFMA and treasury standards	5 adjustment budgets	See strategic framework below for further details.
	4.2	Progressively improve the Audit opinion of the municipality from qualified to unqualified and ultimately clean audit	4.2a	Unqualified audit outcome achieved	Unqualified audit opinion achieved and maintained for the period 2017/2018 by June 2019	See strategic framework below for further details.
			4.2b	Clean audit opinion outcome achieved	Clean audit outcome achieved by June 2022	See strategic framework below for further details.
	4.3	Increase revenue collection from 5% to 60%	4.3a	Percentage (%) increase in revenue collection	60% increase in revenue collection by June 2022	See strategic framework below for further details.
			4.3b	Amount of total revenue generated annually	In line with the percentage of revenue targeted annually	None
	4.4	Hold 12 zonal community meetings annually to educate communities about the importance of paying for municipal Services	4.4a	Number (#) of community meetings held annually as part of the revenue enhancement strategy	12 zonal community meeting annually	See strategic framework below for further details.
	4.5	Decrease the number of inaccuracies in the billing system by 100%	4.5a	Percentage(%) decrease in the number of inaccuracies in the billing system	100% decrease in the number of inaccuracies	See strategic framework below for further details.
	4.6	Register new indigents annually in line with the indigents policy	4.6a	Number(#) of new indigents registered annually in accordance with the indigents policy	A minimum 1000 annually	See strategic framework below for further details.
	4.7	Ensure that the municipality complies with financial legislation, policies, accounting principles and best practices	4.7a	Number (#) of GRAP compliant FAR	1 GRAP compliant FAR	See strategic framework below for further details.

## CHAPTER 7: DEVELOPMENT STRATEGY

SO 5: To create a conducive environment for economic development, investment attraction and job creation.						
Key Performance Area	Objective Number	Performance Objectives	Indicator Number	Key Performance Indicator	5 Year Performance Target	Explanatory Note
Local Economic Development	5.1	Reduce unemployment by 5% annually	5.1a	Overall percentage (%) reduction in unemployment	5% per annum	Overall percentage reduction in unemployment as influenced by all employment sectors
			5.1b	Number (#) of jobs created through the extended public works programme annually	120 jobs annually	See strategy Framework
			5.1c	Number (#) of jobs created through Community Works Programme annually	1000 jobs annually	See strategy Framework
			5.1d	Number (#) of employment opportunities created through local economic development initiatives	40 full time jobs by June 2022	Local textile manufacturing project being considered
					10 full time jobs By June 2022	Identify, organize, encourage and formalize of local farming cooperatives to supply department of Education for nutrition programs
					60 jobs projected	Resuscitating small industrial parks
					10 000 projected jobs over duration of project	Moloto Road and Rail Construction
					500 potential jobs over duration of project	Construction of a 600MW Coal Baseload Power Station
					20 full time jobs by June 2022	Resuscitating SS Skosana nature reserve Bundu Inn and other nature reserves and cultural heritage sites
					12 fulltime jobs by June 2022	Renovation & upgrading of Kgodwana cultural

## CHAPTER 7: DEVELOPMENT STRATEGY

SO 5: To create a conducive environment for economic development, investment attraction and job creation.						
Key Performance Area	Objective Number	Performance Objectives	Indicator Number	Key Performance Indicator	5 Year Performance Target	Explanatory Note
						centre into a proper cultural village
					35 jobs by June 2022	Upgrading of Loopspruit winery for Agriculture and Tourism purposes
					30 jobs June 2022	Coordination of the compilation of feasibility studies for Zithabiseni Resort and Loskop Tourism belt
			5.1e	Number (#) of meetings organised on economic development initiatives for Small, Medium and Macro Enterprises and Cooperatives	4 meeting per annum	See strategic framework
	5.2	Provide investors with sound investment incentives and opportunities	5.2a	Number (#) of business startups and expansions	Based on the overall impact of the investment strategy	The targets for this indicator cannot be quantified but however achievements will be measured in line with positive performance results
			5.2b	Increase in overall business productivity	Based on the overall impact of the investment strategy	The targets for this indicator cannot be quantified but however achievements will be measured in line with positive performance results
			5.2c	Number (#) of full time jobs created	Based on the overall impact of the investment strategy	The targets for this indicator cannot be quantified but however achievements will be measured in line with positive performance results

SO 7: To deepen democracy and promote active community participation in the affairs of the institution						
Key Performance Area	Objective Number	Performance Objectives	Indicator Number	Key Performance Indicator	5 Year Performance Target	Explanatory Note
Good Governance and Public participation	7.1	Hold 24 mayoral outreach meetings per annum	7.1a	Number (#)of mayoral oureach meetings held	24 meetings per annually	None
	7.2	Ensure that 32 ward committee meetings are convened monthly	7.2a	Number of ward (#) committee meetings held	32 ward committee meetings monthly for the next five years	None
	7.3	Ensure effective communication with the public and community through the various communication platforms	7.3a	Rate of publication of external newsletters	Quarterly publication of municipal newsletter	None
			7.3b	Number (#) of media engagement sessions and media statements issued	Minimum of 2 media sessions and 4 media statements annually	None
			7.3c	Rate of municipal social media and website updates conducted	Monthly and as and when required	None
	7.4	Ensure that ward councillors covene 6 mandatory community meetings annually	7.4a	Number (#) of community meetings held by ward councilors	6 mandatory ward meetings per annum	None
	7.5	Promote good governance through compliance with legislation and adhering to universal local government best practices	7.5a	Compliance with legislation	100%	Lag indicator
			7.5b	Implementaion of resolutions and recommendations made by governance structures	100%	This is an outcome based indicator
			7.5c	Rate of community protests	0 Community protests	This is an outcome based indicator
			7.5d	Overall customer satisfaction with municipal services	None	This is an outcome based indicator
			7.5e	Efficient service delivery programmes	None	This is an outcome based indicator
			7.5f	Active community participation	None	This is an outcome based indicator
			7.5g	Clean audit outcome	Clean audit outcome achieved	This is an outcome based indicator

## CHAPTER 8: PROJECTS AND PROGRAMMES

---

### 8.1. CAPITAL AND OPERATIONAL ACTION PLANS

The purpose of this section is to outline annual capital and operational implementation plans aimed at achieving the identified performance objectives. These implementation plans are aimed at aligning strategy with operations and annual budgets. The implementation plans are divided according to the key performance areas and are further aligned to the 7 municipal strategic goals as identified and approved by Council.

In terms of linking Service Delivery and Budget Implementation Plan of the municipality to the Integrated Development Plan, operational plans, capital plans, budget implementation plans, institutional plans were developed take the IDP forward. The budget allocated for the various functional areas of the Municipality together with measurable key performance indicators and targets are identified for annual implementation and these will be further divided into quarterly and monthly indicators, targets and budgets in the SDBIP. The operational planning process undertaken at department levels yields objectives with indicators, targets and resource allocation (includes budgets) at these various levels.

The following table provides an explanation of the abbreviations and annotations used in the capital and operational action plans below:

Annotation/ Abbreviation	Explanantion
X	(In house) For activities that are to be undertaken but do not require capital funding or procurement of goods and services.
R0.00	No budget allocated for a particular financial year (No target)
None	No indicator and target for a particular financial year
OPEX	Operational Expinditure
MIG	Municipal Infrastructure Grant
WSIG	Water Service Improvement Grant
NDM	Nkangala District Muncipality

Thembisile Hani	CCIFSA	Doing support with sit funding	In progress	20 000	20 000	
Thembisile Hani		Supporting Isiyalu writers: 1. Author literature in disadvantaged IsiNdebele Language 2. Development and promotion of disadvantaged language 3. Conserve and preserve our cultural heritage 4. Write and preserve our cultural heritage 5. write and produce our own stories in our language	In progress	100 000	100 000	
Thembisile Hani		Coordinate the activities of local Geographical Name committee	In progress			
Thembisile Hani		Starndardization of the KwaMhlangacomplex and 16 buildings housing different department	In progress			
Thembisile Hani		Repair the roof and electricity damage by the storm				
Thembisile Hani	7 days	Support Indoni	In progress	150 000		

## CHAPTER 8: PROJECTS AND PROGRAMMES

Thembisile Hani		Support king Silamba commemoration	In progress	100 000		
Thembisile Hani		Construction of the renovation of the Thembisile in Mthombomuhle( Kwaggafontein C)	Planning phase			
Thembisile Hani		Procurement of six libraries materials and libraries serve the community with free internet, WIFI and photo copiers, and other programme: - application for admission to institution of higher learning 2. Application for employment through internet 3. Submission of assignment electronically 4. Research for learner in primary, secondary and tertiary institutions 4. Computer classes 5. service for the blind to young users	In progress			
Thembisile Hani	MIG	Monitoring sport grants on sport facility	In progress			
Thembisile Hani	Phumula sport complex	Implement	In progress	5.9 million	5.9 million	
Thembisile Hani	20 learners	Participate in annual youth camp ( 2 school)	In progress			
Thembisile Hani	20 District	Supported with sport equipment and sport attire and support players qualified for Regional, Provincial and National indigenous games	In progress			
Thembisile Hani		Sport council event	In progress	55 000	55 000	
Thembisile Hani	1	I Hub Coordinator appointed on a three year contract				
Thembisile Hani		2) support school participating in the regional ,provincial and national games 3) schools supported with sport equipment and sport attire 4) educator trained in softball, chess and volleyball accredited coaching course 5) four learners and five athletes participate in Loskop marathon 6) 1 special school supported- Wolwenkop special school	In progress			

## CHAPTER 8: PROJECTS AND PROGRAMMES

### Department of Health Projects

Project/Programme Name/Description	Project Beneficiary/Ward/Location	2018/19 Target	2018/19 Budget Allocation (Annual) R'000	2019/20 Target	2020/21 Target	Total Project Cost R'000
KwaMhlanga hospital (Masterplanning, Re-location of Psychiatric [Mental] Ward, Maternity Ward and Sub-Soil water investigation)	Thembisile Hani	5% construction	15 100	50% construction	70% construction	604 316
Various Clinics in Thembisile Hani Local Municipality (Repair of storm damages)	Thembisile Hani	100% construction	90	-	-	1 923
Thembaletu Clinic (construction of guardhouse, refuse area and upgrading of existing fence)	Thembisile Hani	Final account	320	-	-	320

### Department of Public Works

Project Description	Project Beneficiary/Ward/Location	Start Date	Projected Completion Date	Project Cost R'000
Rehabilitation: Road P95/1 between Verena and Gauteng boundary (13.5 km) Phase 2	Verena	1-Aug-17	30-Jan-19	189 750
Construction of Zakheni foot bridge	Zakheni			6000
Construction of Mathyzensloop foot bridge	mathyzensloop			1000
Bridge maintenance				24000
Culvert maintenance				5890
gabions				4153
grading				31384
Grass cutting				3315
guardrails				6230
Municipal support- towns				6178
Municipal support- local street				9884-10983
Reseal- preventative (coalhaul- non coal haul)				259605
Roads markings and road studs				17032

## CHAPTER 8: PROJECTS AND PROGRAMMES

---

Roads signs				11 461
Shoulder maintenance				2815
Side drain maintenance				3914
Patching				68221
Regravelling of gravel roads- preventative(small contractor development:head office)				30000
Regravelling of gravel roads- preventative( all project: district)				30000

## CHAPTER 8: PROJECTS AND PROGRAMMES

### Department of Department of Community Safety, Safety and Liaison

Name of Project	Municipality/Location benefiting from the project	2017/18 Target	2017/18 Budget Allocation (Annual) R
Monitoring of Police Stations	Twefontein	04 Police Stations monitored on policy compliance	Operational
	Kwaggafontein		
	Vaalbank		
	Kwamhlanga		
Audits on the implementation of Domestic Violence Act (DVA)	Vaalbank	02 Audits conducted on the implementation of Domestic Violence Act (DVA)	Operational
	Kwamhlanga		
<b>Promotion of Safety</b>			
Educational awareness campaigns		04 Educational awareness campaigns implemented	R200 000
Community outreach programme (01)	Mloto		
(01) Stock theft awareness	Langkloof		
(01) sports against crime campaigns	Kwamhlanga		
Gender based violence campaign	kwaggafontein		
<b>Crime Prevention initiatives</b>			
School Safety initiative	Rorobhani	School Safety initiative implemented	R100 000
<ul style="list-style-type: none"> <li>Anti-crime awareness campaign</li> </ul>			
Prison tour	Zakheni Sec schools		
<b>Vulnerable groups initiative</b>			
Handling of blankets to destitute families	Thembisile Hani Local Municipality	Vulnerable groups initiative implemented	R250 000
<b>Community Police Relations</b>			
Assess community police forum	Kwamhlanga	01 functional Community Safety Forum Supported	Operational
Support functional Community Police forums	Valbank	04 functional Community Police forums supported	Operational
	Twefontein		
	kwaggafontein		
<b>Transport Regulation</b>			
Safety Engineering	Thembisile Hani Local Municipality	05 traffic law enforcement programmes implemented	Operational
Traffic Law Enforcement			
Road Safety Education			
Transport Administration and Licensing			
Overload Control			

## CHAPTER 8: PROJECTS AND PROGRAMMES

### Department of Agriculture, Rural Development, Environment and Land Administration

Project/Programme Name/Description	Project Beneficiary/Ward/Location	2017/18 Target	2017/18 Budget Allocation (Annual) R`000	2018/19 Target	2019/20 Target	Total Project Cost R`000
Sinenhlanhla Ethembisile	Kwaggafontein	Center pivots and 75kw tractor shed, storeroom, parkhouse, highmast, parkhouse furnishing, production inputs, bakkies	R 2 317	0	0	R 13 17
Zamelani Ukusebenza	Vlaklaagte 1	Installation of irrigation system (centre pivots) and boreholes	R 1 500	0	0	R 1 500
Ekunyana Farming Cooperative Limited	Tweefonteic C	Demarcation of grazing camps 88km stand fencing	R 1 500	0	0	R 4 800
Animal Clinics	Sybraandskraal and Tweefontein	Refurbishment of animal health centres (animal clinics)	R 375	0	0	R 2 750
Letolo Poultry	Vanduikspruit	Installation of Bonox Fencing and paving	R 900	0	0	R 2 700
Fundani Mlimi	Gembokspruit	Refurbishment of Funda Mlimi research and training building	R 500	0	0	R 500
Maggy poultry	Sybranskraal	Refurbishment of poultry units				R 1000

### DEPARTMENT OF WATER AND SANITATION

Project/Programme Name/Description	Project Beneficiary/Ward/Location	2018/19 Target	2018/19 Budget Allocation (Annual) R`000	Total Project Cost R`000
To be advised	Thembisile Hani LM	Construction	50 000 000.00	50 000 000 .00
Thembisile Water Schemes( Loskop)	Thembisile Hani LM	Construction	75 000 000. 00	75 000 000.00

## CHAPTER 8: PROJECTS AND PROGRAMMES

**9.1. MUNICIPAL FINANCIAL PLAN**

**9.1.1. Municipal Budgets**

In terms of section 16 (1) of the MFMA the council of a municipality must for each financial year approve an annual budget for the municipality before the start of that financial year. In order for a municipality to comply with subsection (1), the mayor of the municipality must table the annual budget at a council at least 90 days before the start of budget year. Subsection (1) does not preclude the appropriation of money for capital expenditure for a period not exceeding three financial years, provided a separate appropriation is made for each of those financial years. The accounting officer of a municipality must submit the approved annual budget to the National Treasury and the relevant provincial treasury.

The National Treasury issue circular No 85 and 86 which give directives of how the 2017/18 -19/20 budget should be prepared.

**9.1.2. Summary Of Own Revenue & Grants and Subsidies**

The actual Revenue Projected for 2017/2018 financial year amounts to R 556 858 260 which include the following grants:

Description	Budget 2017/2018	Percentage
Equitable share	R 338 477 000	60.58%
Financial Management Grant	R 1 700 000	0.30%
EPWP	R 2 560 000	0.46%
MIG	R 131 562 000	23.63%
WSIG	R 45 000 000	8.05%
<b>TOTAL GRANTS AND SUBSIDIES</b>	<b>R 519 299 000</b>	
Own Revenue	R 26 390 594	4.40%
Cash in Hand as at 28 March 2017 received from SARS returns	R 14 408 406	2.58%
<b>TOTAL BUDGET</b>	<b>R 558 695 057</b>	<b>100%</b>

## CHAPTER 9: MUNICIPAL FINACIAL PLAN

### 9.1.3. Summary of Operational and Capital Expenditure

The operational expenditure committed to the projected revenue for 2017/2018 amounts to R 411 539 600. The capital expenditure amounts to R 145 678 400. The total expenditure of OPEX and Capital amounts to R 557 218 000

Description	Budget	Percentage
Staff benefits	R 124 577 076	30.27%
Councillors allowances	R 23 049 069	5.60%
Ward Committee	R 3 840 000	0.93%
Bulk Purchase	R 137 234 880	33.35%
Free Basic Electricity	R 3 531 821	0.86%
Sub – Total opex	R 288 701 025	
Repairs and Maintenance Expenditure	R 38 174 978	9.28%
Other Operational Expenditure	R 81 131 776	19.71%
Total – Operational Budget	R 411 539 600	
Capital Expenditure – MIG/ WSIG	R 144 698 400	
Construction of Parking	R 100 000	
Furniture	R 200 000	
Computer Equipment	R 680 000	
Total Capital Budget	R 145 678 400	26.14%
Total Opex and Capex Budget	R 557 218 000

Total Capital Expenditure	150 483 899	126 259 863	131 414 426

### 9.1.5. Revenue Enhancement Strategies

The revenue collection challenges faced by THLM will be addressed through the implementation of the following revenue enhancement strategy. To ensure proper financial management there is a need to identify the critical areas within which the municipality's finances must perform. The Municipal Finance Management Act (MFMA) identifies some of these major competencies and from these functions a clear role definition can be established. Critical to implementing a Revenue Enhancement Strategy is the development of a robust revenue management and debt collection strategy. Our revenue enhancement process is divided into short, medium and long-term activities as set out in this Revenue Enhancement Strategy.

Short-Term activities (to be completed within three to six months) will include focus on the following:

- Confirm the completeness of revenue - Improved billing processes;
- Implement a targeted approach on debt collection of Organs of State;
- Implement a targeted approach on debt collection of businesses;
- Implement a targeted approach on debt collection of municipal officials;
- Protect and grow the revenue base – Through sale of new stands;
- Update the indigent register for purpose of an increased equitable share;
- Review credit policy;
- High level data cleansing;
- Resolve issues relating to current valuation roll and property ownership.

Medium to Long Term (to be completed within seven to twelve months) will focus on:

- Improve data integrity in the transaction processing environment;
- Metering previously unmetered areas;
- Implementing bulk meters for big users;
- Improve customer service - Improve communication with consumers;
- Establish internal controls and proper costing of services.

The Municipality's revenue enhancement strategy provides more detail on in relation to the activities required to enhance revenue generation.
