Definition of terms

1	Key Performance Area (KPA)	<i>It is the performance area in which the municipality must perform to achieve its mission and vision.</i>
2	Strategic Objective	<i>It translates the Key Performance Area (KPA) into an outcome statement.</i>
3	Key Focus Area (KFA)	<i>It is those areas in which the municipality must perform to ensure that the Key Performance Areas are achieved.</i>
4	Predetermined Objective (PDO)	<i>It translates the Key Focus Area (KFA) into a Predetermined outcome in the form of an outcome statement.</i>
5	Key Performance Indicator (KPI)	<i>It defines how performance will be measured along a scale or dimension (e.g. number of houses, km of road, percentage increase, etc.) to achieve the KPAs, KFAs and PDOs.</i>
6	Inputs	<i>The resources that contribute to the production delivery of outputs</i>
7	Outputs	<i>The final products, or goods and services produced for Delivery</i>
8	Activities	<i>The processes or actions that use a range of inputs to produce the desired outputs and ultimately outcomes</i>
9	Outcomes	<i>medium-term results for specific beneficiaries that are the consequence of achieving specific output</i>
10	Impact	<i>The developmental results of achieving specific outcome</i>
11	Project	<i>It is an initiative that is executed over a specific period of time with a defined beginning and end with the intension of achieving the Key Focus Areas (KFAs). (It can be capital intensive or any other project)</i>
12	Programme	<i>A sequence of scheduled activities and / or Projects executed with the intension of achieving the Key Focus Areas (KFAs).</i>
13	Activity	<i>It is an action or task that is performed with the intension of achieving the Key Focus Areas (KFAs).</i>
14	Baseline	<i>It is the actual results of a project, programme or activity achieved during the previous financial year(s).</i>
15	Target	<i>It completes the performance indicator with actual numbers, percentages, rand values, etc. To be achieved over a specific period of time.</i>
16	Driver	<i>It is the person who takes ownership to execute project, programme or activity</i>
17	Portfolio of Evidence (PoE)	<i>It is file with a clear “paper trail” that serves as proof of the execution of a specific project, programme or activity. (It can include documents, pictures or any other form of evidence.)</i>
18	National Key Performance Area (NKPA)	<i>This is a key area of focus determined at national level and is mandatory to all municipalities in South Africa.</i>
19	National Key Performance Indicator (NKPI)	<i>This is a key indicator determined at national level and is mandatory for all municipalities in South Africa to regularly report on.</i>
20	National Outcomes	<i>This refers to the 12 Outcomes determined by National Government of which Outcome 9 is focusing specifically on Local Government</i>

Executive Mayor Foreword

The Integrated Development Plan of the Dr JS Moroka Local Municipality covers the five-year period of 2017-2022 as adopted by the Council in 2017, of which the second IDP for 2018/2019 is being reviewed in order to prepare for the 2019/2020 IDP based on the fundamental needs raised after extensive stakeholder engagements was done with communities, civil society, labour, business, government, state-owned enterprises and political parties. This process has to be done in view of the social and economic challenges facing the municipality with the need for an accelerated service delivery program in mind to achieve the goals of the National Development Plan. This should be done not losing sight of the long vision of the municipality of **“striving to become the best economically developing town mostly admired for taking care of its people”**.

Chapter 4 of the Municipal Systems Act 32 of 2000 makes community participation in the affairs, programs and activities of the municipality a legal obligation.

This IDP as required by Chapter 4 of the Municipal Systems Act 32 of 2000 that community participate in the affairs of identification of programs and activities of the municipality as is a legal obligation, therefore the culmination of a lengthy process of consultation with the key stakeholders across the municipality. Consequently, this IDP carries the aspirations of the masses of our people which the 2019/20 budget seeks to finance. Therefore, this IDP must be seen as a beacon of hope that will continue to guide us over the next financial year in our collective endeavors of building a better life for all our communities. This IDP review also comes at the conclusion of twenty (25) years of democracy and will show that we are continuing to make a significant cavity on the triple challenges of poverty, unemployment and inequality in Dr. JS Moroka Local Municipality on a sustainable basis.

The Municipality continues to make substantial infrastructure investments to build an environment conducive for business to get-about their daily operations and improve life's of ordinary citizen of Dr. JS Moroka Local Municipality. This is with specific emphasis on Youth cooperatives that will be engaged on opportunities on improvements in road infrastructure. This report will show that our investor-friendly approach in terms of infrastructure development and connection with business will yields over time the results we aspired.

The IDP is a vehicle with which we will ensure that our people get basic services, access job opportunities by creating a conducive environment for economic growth and improve their quality of life. Together let us create a better future for our communities

Introduction by Municipal Manager

South Africa local government has solid constitutional and legal basis for its functioning. It is adequately provided for in the plethora of Legislative Acts of Parliament. It is through this Acts of Parliament that municipalities have established mechanisms, rules and systems to guide their processes and communication strategies to identify citizen demands.

An integrated development plan (IDP) is a five year Plan which the local municipality is required to compile to determine the developmental needs of the municipality. It gives an overall framework for development which aims to coordinate the work of local, provincial and other spheres of government in a coherent plan to improve the quality of life for people in that particular area.

It is a Constitutional mandate enshrined in Chapter 7 of the Constitution of the Republic of South Africa Act 108, of 1996. Apart from being a Constitutional mandate and legal document, there are other advantages towards developing an IDP.

These Includes but not limited to the following:

- I. Prioritisation and allocation of scarce resources.
- II. Achieving sustainable development and growth.
- III. Democratising local government by ensuring full public participation in its planning, implementation, monitoring and evaluation
- IV. Promoting social and economic development.

The nature of public government continuously presents challenges because of its ever-changing environment brought in by socio political and economic changes in the global scale. Similarly, the needs of people change continuously which then gives us the basis to review the IDP annually in terms of prescribed legislation. This will assist in giving us an indication of whether we are still on the relevant path towards addressing real needs of the local community. The annual review of the IDP will give us a platform to reflect on our past successes, failures and assist in formulating best mechanisms in achieving our vision and mission.

Dr JS Moroka LM as a rural municipality is faced with an array of socio-economic issues which sometimes may hamper progress towards fulfilment of our constitutional mandate. We are faced with economic problems like poor economic growth, high unemployment rate, and scarce resources and high levels of illiteracy. We are highly dependent on Municipal Infrastructure Grant (MIG) to keep the municipality afloat, however this does not mean that we will never be able to reach our goals and achieve our vision and mission. This is a continuous process of improving on ways to enhance revenue collection and explore the economic activities at our disposal to improve the quality of life of our residents by improving on basic service delivery.

Through sound and proficient administration we will deliver on commitment made by council to community of Dr JS Moroka Local Municipality during the IDP review that give priority to basic services, such as water, sanitation, roads and electricity. This IDP review will also be used as a guideline towards informing budgetary processes which will give direction towards projects implementation.

Municipal Vision & Mission Statement

VISION

"Striving to become the best economically developing town mostly admired for taking care of its people".

VALUES

- Fostering a climate which encourages customer focus and service oriented workforce
- Upholding good work ethics
- Inculcating a sense of accountability in all dealings with the community in-line with Batho Pele Principles
- Cultivating a high performance culture with an aim to retain a motivated team of employees
- Maintain integrity in all relationships with customers and the community
- Thriving on excellence
- Offering high quality standards when providing sustainable services

MISSION

"With commitment, and resilience, we will deliver services in an effective, efficient, accountable and sustainable manner"

"Working together with communities and strategic partners, we will create a conducive environment for economic growth"

dr.jsmlm

Dr JS Moroka Local Municipality

1.1 LEGISLATIVE FRAMEWORK

Powers and Functions

Object of Local Government

Section 152 of the Constitution of the Republic Mandates local government to perform the following functions –

- a) To provide democratic and accountable government for local communities
- b) To ensure the provision of services to communities in a sustainable manner
- c) To promote social and economic development
- d) To promote safe and healthy environment, and
- e) To encourage the involvement of communities and community organizations in the matters of local government

The table below provides a list of allocated powers and functions of the municipality in accordance with Schedule 4 B and 5 B of the Constitution and Sections 83, 84, 85 and 86 of the Municipal Structures Act.

The table below gives an indication of how the municipality has fared in the performance of the allocated functions

Function		Authorization	Performance Analysis
1	Air Pollution	Yes	Not performed
2	Building Regulation	Yes	Performed
3	Child Care Facilities	Yes	Not performed

37	<i>Street Lighting</i>	<i>Yes</i>	<i>Performed</i>
38	<i>Traffic and Parking</i>	<i>Yes</i>	<i>Performed</i>

Legislation / Policy	Key Directive	
The Constitution of the Republic of South Africa (1996)	<p>Section 152 requires local government to –</p> <ul style="list-style-type: none"> • Provide democratic and accountable government for local communities • Ensure the provision of services to communities in a sustainable manner • To promote social and economic development • Promote safe and healthy environment • Encourage the involvement of communities and community organizations on matters of local government 	<p>Further section 153 requires that municipalities must –</p> <ul style="list-style-type: none"> • Structure and manage its administration, and budgeting, and planning processes to give priority to basic needs of the community and to promote social and economic development of the community, and • Participate in national and provincial development programmes
Municipal Systems Act (2000)	<ul style="list-style-type: none"> • Section 25(1) stipulates that municipal council's must within a prescribed period after the start of its elected term, adopt a single, inclusive and strategic plan for the development of the municipality. • Section 30 of the Municipal Systems Act empowers the Executive Committee and 	<ul style="list-style-type: none"> • The council's development strategies which must be aligned with any national or provincial sectoral plans and planning requirements binding on the municipality in terms of legislation

	<p>or a Committee of councillors appointed by Council to –</p> <ul style="list-style-type: none"> • Manage the drafting of the municipality’s integrated Development Plan • Assign responsibilities in this regard to the municipal Manager, and • Submit the draft plan to municipal council for adoption by council • Section 26 articulates what should constitute the core components of the municipal IDP which are as follows – • The municipal council’s vision for the long term development of the municipality with special emphasis on the municipality’s most critical development and internal transformation needs • An assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services • The council’s development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs 	<ul style="list-style-type: none"> • A spatial development framework which must include the provision of basic guidelines for a land use management system for the municipality • The council’s operational strategies o Applicable disaster management plans • A financial plan, which must include a budget projection for at least the next three years, and • The key performance indicators and performance targets. • Section 29 requires that the process followed to draft the IDP must be in accordance with a predetermined programme specifying time frames for the different steps and through appropriate steps allow community consultation and participation including organs of state. • Section 34 requires that municipalities reviews their Integrated Development Plans • Annually in accordance with the assessment of its performance measurements, and
--	---	--

		<ul style="list-style-type: none"> • To the extent that changing circumstances so demand.
--	--	--

A number of other legislations and policies impact on the IDP development process. This include the following –

- The White Paper on Local Government, 1998
- The Municipal Structures Act, 1998
- The Municipal Property Rates Act, 2004
- The Demarcation Act, 1998
- The Housing Act, 1997
- The National Water Act, 1998
- The Traditional Leadership and Governance Framework Act, 2003
- The Municipal Performance Planning and Regulations of 2006

1.2 Strategic planning framework & approach

The strategic planning followed by Dr. JS Moroka Local Municipality happen within the broader national planning frameworks and the local integrated development planning processes as articulated under the legislative context above. Below is a schematic framework that informed Dr. JS Moroka Local Municipality formulation of its Strategic Plan and ultimately the entire Integrated Development Plan document.

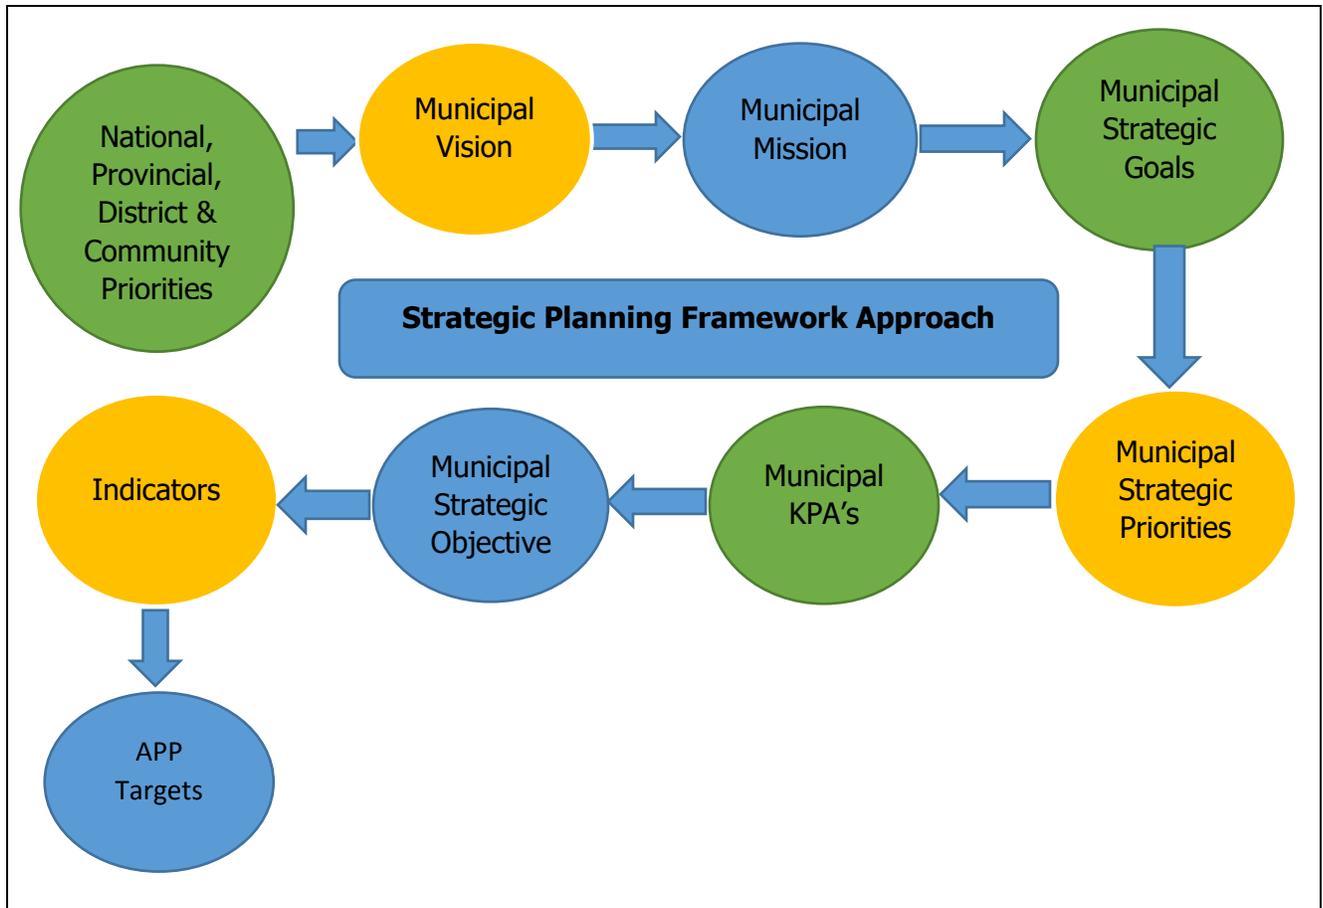

Figure 1 Strategic Planning Framework

The Integrated Development Plan is a municipal plan that last for the term of office of the council. Therefore, Dr JS Moroka Local Municipality process of developing the strategic plan that is a bedrock of the Integrated Development Plan always involves intense consultation. It began with prior interactions between Executive Mayor, Mayoral Committee, the Municipal Manager and other senior managers. This culminates into a strategic planning session of 2018/18 IDP with the mayoral committee and senior management facilitated by an independent party with expert knowledge in strategic planning environment.

The strategic planning session follows more or less the strategic planning process below. The diagram below provides a sense of how the process unfolded beginning with the vision, mission and the moved on to the priorities and, finally the strategies.

Figure 2 Strategic Planning Processes

IDP Context

The context of the 2019/20 IDP is a process that consists of sub-activities that culminate in to the adoption of the IDP by the Council of Dr. JS Moroka Local Municipality which includes the following;

IDP Process Plan

In terms of the Council approved IDP and Budget process plan, Council should approve the final IDP before the start of the new financial year, that is, no later than 30 June 2019. In order for DR JS Moroka Local Municipality to prepare a credible IDP document, several stakeholders had to be engaged to provide inputs and guide the final IDP plan. The IDP process involves the following consultation process:

MEC comments on the 2018/19 IDP

In terms of Local Government: Municipal Systems Act, no. 32 of 2000, a municipality should submit a copy of the Council approved IDP to the MEC for Local Government. The MEC comments will be taken into consideration on the preparations of the review of IDP 2019/20. All the MEC comments on the 2018/19 IDP were noted and will be considered in compiling the new IDP.

Content of the IDP

The IDP document consists of the following content:

Methodology Analysis Phase

IDP Process Plan

Outlines the methodology of preparing the IDP. It further provides for the timelines and framework, role players and the adoption process

Analysis Phase

This section analyses the demographic, institutional, and socio-economic issues of the municipality. The section also discusses service delivery backlogs.

Strategic Phase

It expresses Dr. JS MLM vision and mission as well as the strategic development in order to address the service delivery backlogs and community priorities.

Projects Phase

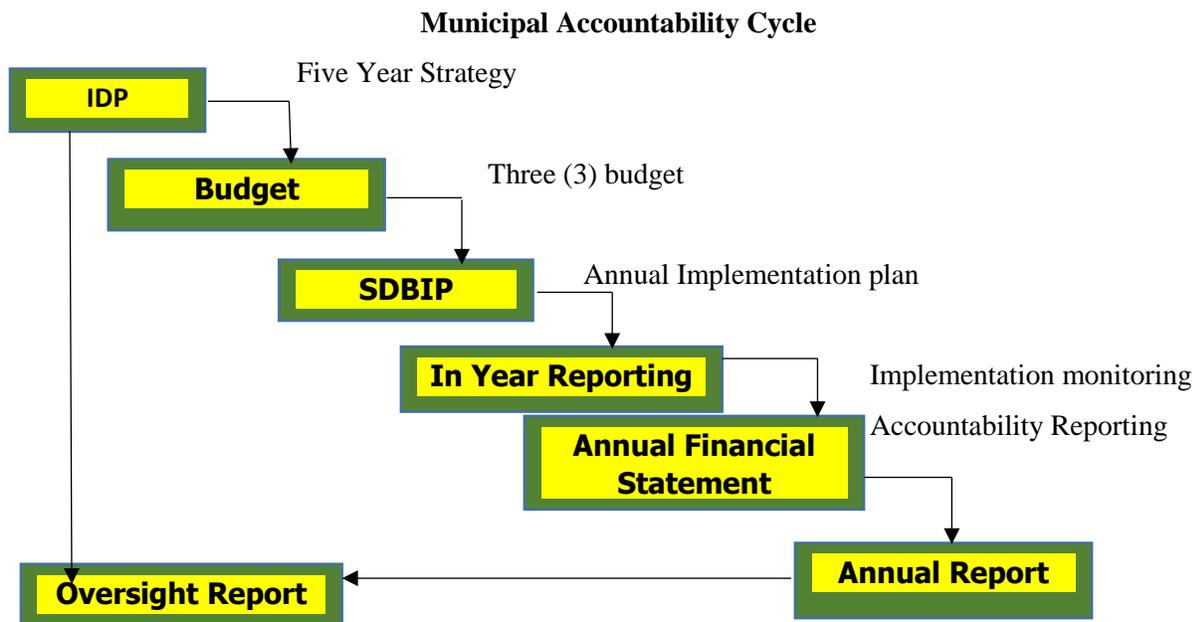

It stresses the role of community outreach, which includes public consultation. During this process the local community provides Dr. JS MLM with the inputs and priorities that inform IDPs. 2019/20 Revised IDP, of the 5 years 2017-2022 Integrated Development Plan

Integration Phase

It explains the IDP prioritization model and projects to be undertaken for the next three financial year and in the Medium Expenditure Framework.

Adoption Phase

It provides all annexures which are essential part of the inclusive nature of the IDP.

1. SECTION 1: IDP Process Plan

1.1 INTRODUCTION

The 2019/20 IDP and Budget Process heralds the third review of the municipality’s adopted 2017-2022 five year IDPs. The Integrated Development Plan (IDP) is a single and inclusive strategic planning instrument that is intended to promote Local Economic Development, Spatial Development, Infrastructure Development, Institutional Transformation and Budget Alignment of a municipality.

1.2 LEGISLATION

The Municipal Systems Act (Act 32 of 2000) hereinafter referred to as the Act, prescribes that municipalities must adopt and follow a process to draft, consider and adopt an Integrated Development Plan. Parallel to the Act, the Local Government: Municipal Finance Management Act (Act 56 of 2003) states in section 21;

- (a) that a “the mayor of a municipality must co-ordinate the processes for preparing the annual budget and for reviewing the municipality's integrated development plan and budget -related policies to ensure that the tabled budget and any revisions of the integrated development plan and budget-related policies are mutually consistent and credible;
- (b) At least 10 months before the start of the budget year, table in the municipal Council a time schedule outlining key deadlines for

1.3 BACKGROUND

This plan therefore seeks to provide the timeframes, mechanisms and procedures that must be followed by Dr. JS Moroka Local Municipality in the IDP review for the 2019/20 as well as the approval of annual budget for the financial year in question.

Elements of the IDP Process Plan

The IDP process plan entails the following elements;

- ❖ Time frame
- ❖ Mechanisms and procedures for alignment;
- ❖ Mechanisms for Public Participation.
- ❖ Binding plans and Planning requirements at Provincial and National level
- ❖ Procedures and principles for monitoring the planning process and amendments

1.4 TIMEFRAMES FOR IDP PROCESS PLAN

Dates: July 2018- May 2019: IDP Technical Committee	Time	Venue	Co-ordination Department

<i>Needs analysis report</i>	<i>Projects identified</i>
<i>Final IDP/Budget</i>	<i>To be tabled by March 2019</i>

Institutional Arrangements

1.5 ISSUES OF ROLES AND RESPONSIBILITIES

Section 30 of the Act charges the Executive Mayor with the responsibility to manage the drafting of the municipality’s integrated development plan in a manner that is in concert with section 29 of the Act. Furthermore, the Executive Mayor is empowered to assign responsibilities to the Municipal Manager relating to the drafting and tabling of the IDP before the municipal council for approval. The Municipal Manager in turn is supported by the IDP unit in managing the preparation of the IDP.

In the spirit of promoting the objects of section 29 of Act, the municipality has created an enabling environment for different stakeholders to be involved in developing a people driven IDP. Forums necessitating the achievement of the aforementioned principles are listed below.

IDP Technical Committee

This forum is constituted by the municipal manager and all managers from various unit within the municipality. This forum provides these representatives with an opportunity to discuss issues of mutual interest and IDP process plan for alignment.

IDP Management Committee

This is constituted by the Executive Mayor, members of the Mayoral Committee, the Municipal Manager and all managers reporting to the accounting officer. This forum chaired by the mayor discuss the report from IDP technical committee and make recommendations for IDP Rep forum.

IDP Rep Forum

Thus is constituted by the executive Mayor, members of the mayoral committee, councilors, managers led by the accounting officer, sector departments, Traditional council, CDW's, private sector and NGO's. This discusses the report from IDP management committee and make inputs, comments and recommendation to council for public consultation.

Public Consultation- Mayoral Road Shows

The Mayoral road shows are an outreach consultative programme meant for communities across the municipality who are not organised in any formal structure. This programme which is organised in clustered ward fashion, provides the municipality and communities to engage on the municipality' IDP needs inputs, performance, identification of priority needs for the year ahead and any other matters relating to service delivery issues.

The Mayoral Committee/Budget Committee

The plays an oversight role in preparation and drafting of the IDP and it further approves the IDP process plan, community needs register and public participation plans.

The Municipal Council

According to section 25 of the Municipal Systems Act, the municipal council is the body that has the competence to adopt the draft and the final IDP.

Procedures for Alignment

Section 31(c) of the Act, requires the municipality to align its IDP with the IDP's of municipalities within the area of jurisdiction of the district municipality where such a municipality is located. Furthermore, this

section provides that the integrated development plan of a municipality must be aligned to national and provincial plans of organs of the state.

Adoption by Council

The process plan outlined above has been tabled by the Executive Mayor for approval the municipal council by end of August 2016, amended by Council on Thursday, 09 March 2017 in compliance with legislative requirements.

District Integrated Development Framework

Section 27 of the Municipal Systems Act requires each district municipality, within a prescribed period after the start of its elected term and after following a consultative process with the local municipalities within its area, must adopt a framework for integrated development planning in the area as a whole.

A framework referred above to binds both the district municipality and the local municipalities in the area of the district municipality, and must at least—

- Identify the plans and planning requirements binding in terms of national and provincial legislation on the district municipality and the local municipalities or on any specific municipality
- Identify the matters to be included in the integrated development plans of the district municipality and the local municipalities that require alignment
- Specify the principles to be applied and co-ordinate the approach to be adopted in respect of those matters and determine procedures
- For consultation between the district municipality and the local municipalities during the process of drafting their respective integrated development plans, and
- Or to effect essential amendments to the framework

As required by the section referred to above the Bojanala Platinum District Municipality prepared and adopted the framework for the development and review of the IDP which all the constituent local municipalities in the District had to approve and align to.

Stakeholder Participation

Mechanisms and Procedures for Stakeholder Participation

Legislative Framework	Mechanism	Procedures
<p>Section 16(1) of the Municipal Systems Act requires that municipalities must develop a culture of municipal governance that complements formal representative government with a system of participatory governance and must for this purpose –</p> <ul style="list-style-type: none"> • Encourage and create conditions for the local community to participate in the affairs of the municipality, including in – • The preparation, implementation and review of its integrated development plan • The establishment, implementation and the review of its performance management system • Preparation of the budget 	<p>The process plan made provision for Media as a mechanisms for participation which included –</p> <ul style="list-style-type: none"> • National, local newspapers • Municipal newsletter 	<p>The following procedures for participation will be utilized:</p> <ul style="list-style-type: none"> • IDP Representative Forum • Public Consultation Meetings
<p>Further section 17 (2) of the Municipal Systems Act, 2000 stipulates that a municipality must establish</p> <ul style="list-style-type: none"> o appropriate mechanisms, processes o Procedures to enable the local community to participate in the affairs of the municipality. 	<ul style="list-style-type: none"> • Local community radio 	

Spatial Economy and Development Rationale

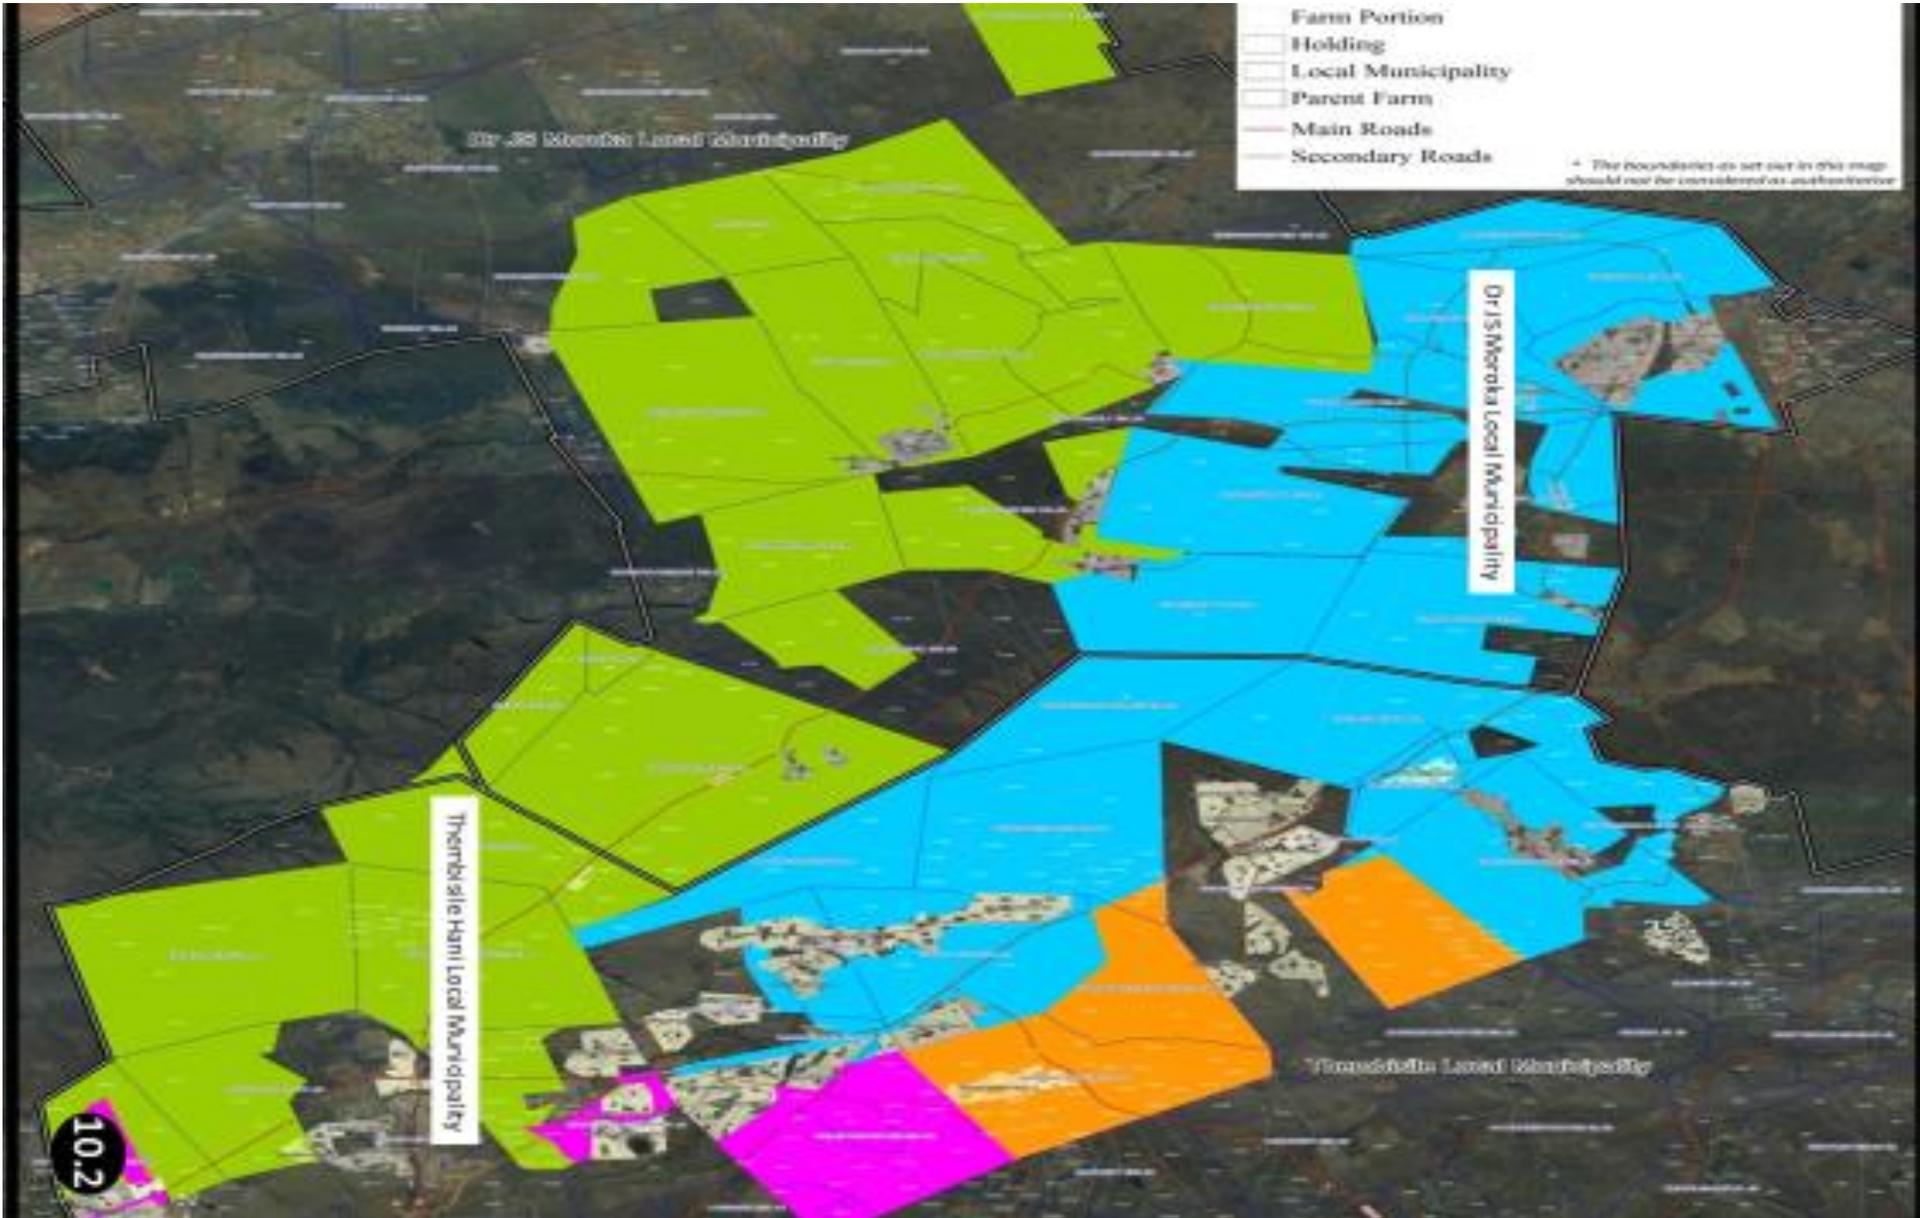

Location

The Dr J.S. Moroka Local Municipality is located in the north-western corner of the Nkangala District and Mpumalanga Province. It is 1416, 49 km² in extent, representing 8.45% of the District land mass. The Municipality is approximately 1,416 square kilometres in extent and is bounded by the following entities; City of Johannesburg and Tshwane Metropolitan Council on the South and West; Thembisile-Hani LM on the South; Modimolle, Mookgopong and Bela- Bela LMs on the North; and Ephraim Mogale and Elias Motsoaledi LMs on the North East and Steve Tshwete and Emalahleni LM’s on the East

Traditional Leadership

A vast majority of land in Dr JS Moroka Local Municipality is predominantly rural and is under the custodianship of traditional councils. There are seven (7) Traditional Councils found in the Municipal area under the following traditional councils;

Traditional Council	Traditional Leader	Seat of Council	
1	Bakgatla ba Moloka	Chief N.J Maloka	Masobye
2	Bakgatla ba Mmakau	Chief JB Mokgoko	Mmamethlake
3	Bakgatla ba Chaane	Chief Chaane	Seabe
4	Barolong ba Lefifi	Chief Getrude Lefifi	Nokaneng
5	Bakgatla ba Mocha	Chief Moepi	Marapyane
6	Ndzundza Mabusa	S.S Mahlangu	Watervaal B
7	Ndzundza Phungutsha	Ikosi CN Mahlangu	Katjibane
8	King Mabhoko III		Weldevrede Royal Kraal
9	King Makhosonke II		Klipfontein Ingwenyameng

Land Audit

In 2016/2017 audit period, Auditor General raised, in the Annual Audit report, a number of issues regarding the Consolidated Fixed Asset and Infrastructure Register. And in responds to Audit outcome the municipality appointed Datamule to conduct a Land Audit for all Municipal Owned properties and an Infrastructure Audit for Dr JS Moroka Local Municipality.

The Land Audit included an on-site visit to Residential, Non-residential Municipal Owned Properties and Municipal Infrastructure. The Land Audit Report is subdivided into;

1. An Occupancy Audit and,
2. An Infrastructure Audit Report

This report covers only the Occupancy Audit Report.

- Registered Stands (15461) (updated 16 July 2018)
- Registered Farms (313) (updated 16 July 2018)
- Formalization Pending: Formalization activities in process (7 towns) Proclamation Pending: the opening of Township Registers are in process (14 towns)

The relevant Municipal Boundaries was obtained from the demarcation board. Datamule geo-referenced the municipal boundaries and incorporated it into the GIS database. The scope of rk was presented to the municipality and approved by Dr JS Moroka Local Municipality

The outcome of the above is that a total of 2148 stands are registered in the name of JS Moroka Local Municipality:

Stands Registered In DR JS MLM Name	Farms registered In Dr JS MLM Name

The report gives an account of the land ownership in the municipal area of jurisdiction. For the benefit of making land available for development purposes.

- That the correct land value owned by the municipality correctly determined by June 2016

Challenges

The challenges with regard to land audit and ownership, is that all portion of land in audit land ownership still registered under the ownership of the municipality. The municipality need to decisively deal with the issues of title deeds in order to speed-up the process of land ownership.

SECTION 2: SITUATIONAL ANALYSIS

2.1 MUNICIPAL PROFILE

2.1.1 Historical background

Pre-Bantustan History

Kwa-Ndebele, former non-independent Bantustan and enclave in central Transvaal province, South Africa, that was a self-governing “national state” for Transvaal Ndebele people from 1981 to 1994. Kwa-Ndebele was located in a 3,500-foot- (1,060-metre-) high dry savanna area about 100 miles (160 km) northeast of Johannesburg. It was established in 1979, when many Transvaal Ndebele were expelled from the nearby Bophuthatswana Bantustan. A massive resettlement program led to the creation of 12 camps in Kwa-Ndebele, housing about 40 percent of the Transvaal Ndebele population in South Africa by the end of 1982. The capital was Kwa-Mhlanga. Under the South African constitution that abolished the apartheid system, Kwa-Ndebele was reincorporated into South Africa and became part of the new province of Eastern Transvaal (now Mpumalanga) in 1994.

2.1.2 Modern History

Current Status Quo: Locality

The Dr J.S. Moroka Local Municipality is located in the north-western corner of the Nkangala District and Mpumalanga Province. It is 1416, 49 km² in extent, representing 8.45% of the District land mass. The Municipality is approximately 1,416 square kilometres in extent and is bounded by the following entities;

- City of Johannesburg and Tshwane Metropolitan Council on the South and West;
- Thembisile-Hani LM on the South;
- Modimolle, Mookgopong and Bela- Bela LMs on the North; and
- Ephraim Mogale and Elias Motsoaledi LMs on the North East.
- Steve Tshwete and Emalahleni LM’s on the East

Functionally, the Municipality forms part of a larger economic sub-region of the City of Tshwane and City of Johannesburg Metropolitan Municipalities

The Thembisile-Hani and Dr. JS Moroka Local Municipalities represent the highest concentrations of informal dwellings, and are characterised by high poverty levels in the Nkangala District context.

The DRJSMLM was established in 2000 as a result of an amalgamation of the former Mdutjana TLC, Mathanjana TLC and Mbibane TLC is category B municipality as determined in terms Municipal

Structures Act 1998 and is a municipality with a Collective Executive System and with 62 Councilors. The municipality has 60 villages, 31 wards with total population of 246 016 and 64 027 household. The Municipality is predominantly rural with no much economic activities which result to high unemployment rate at 46.6% and high poverty levels. The Tshwane and Johannesburg Metropolitan areas are the most important employment centers and large numbers of people commute daily to these areas. The Community of Dr J.S. Moroka Municipality and Thembisile Municipality compete in Gauteng Province for employment opportunities. The municipality is one of the six municipalities forming the Nkangala District Municipality and is situated in the western part of Mpumalanga Province border. It borders Gauteng Province to the south-west and Limpopo Province to the north.

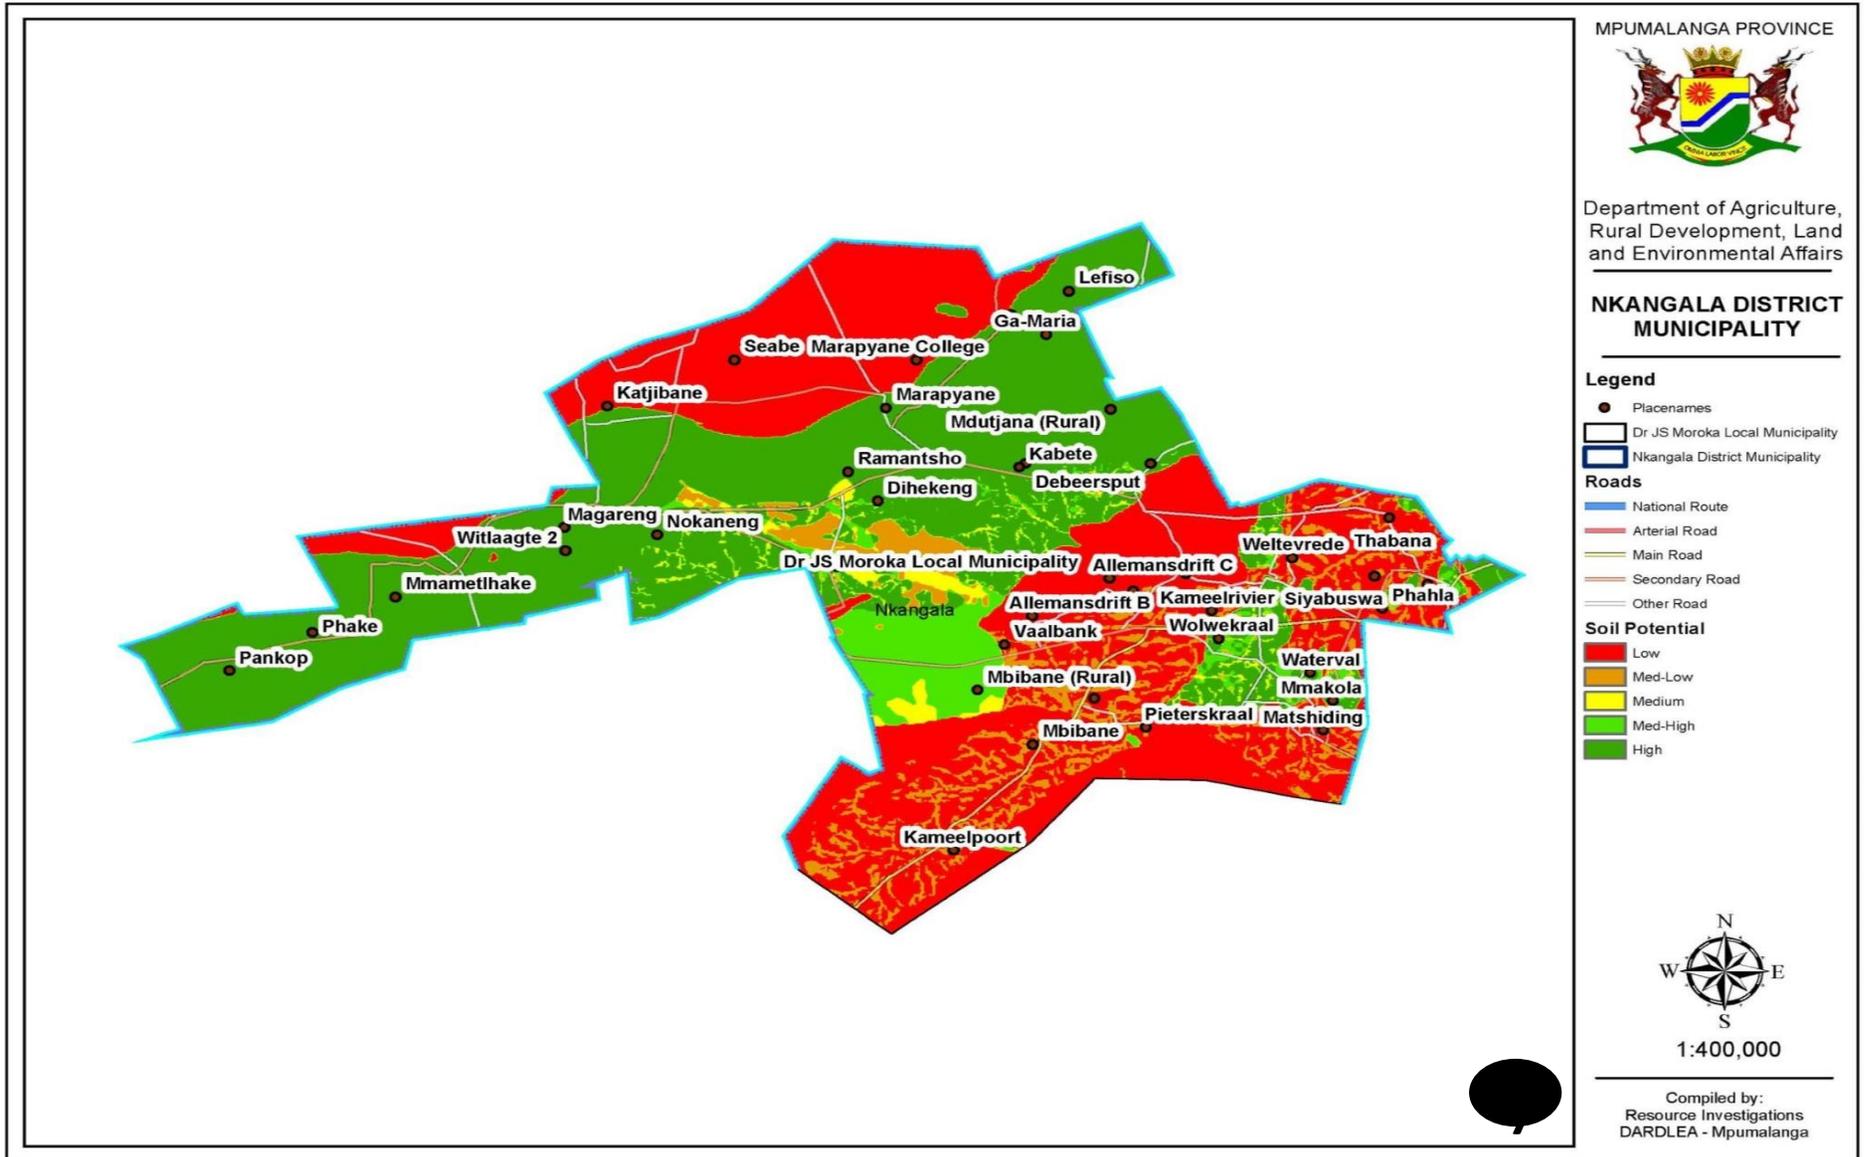

2.1.3 Opportunities in the municipal area

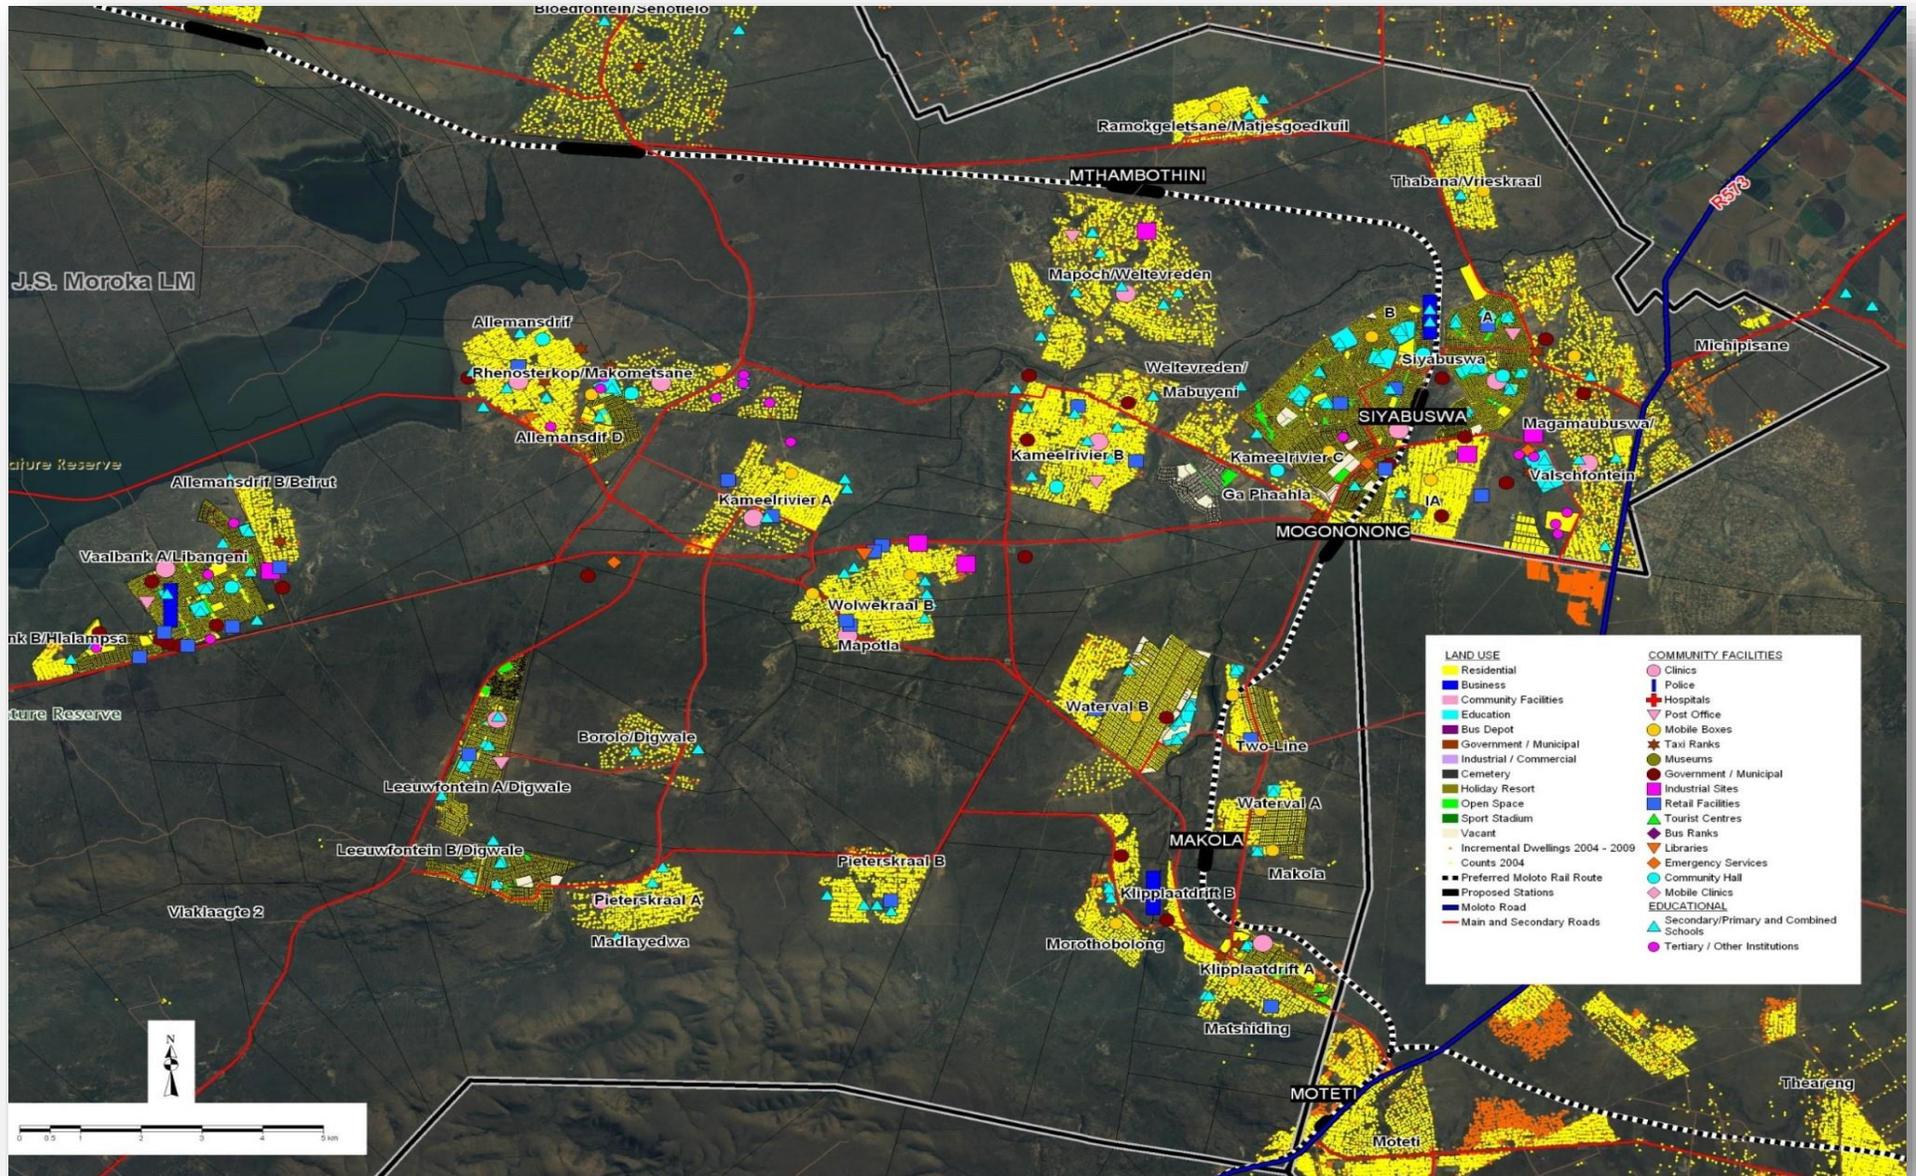

The Dr. JS Moroka Local Municipality is located close to Gauteng and within easy reach of Emalahleni, Groblersdal, Bela Bela and Marble hall. This serve as an opportunity for investors to invest in the municipal area especially at 35000m2 fully services Siyabuswa Industrial Park .Other opportunities are: Agriculture, Tourism, Manufacturing, Retail and construction.

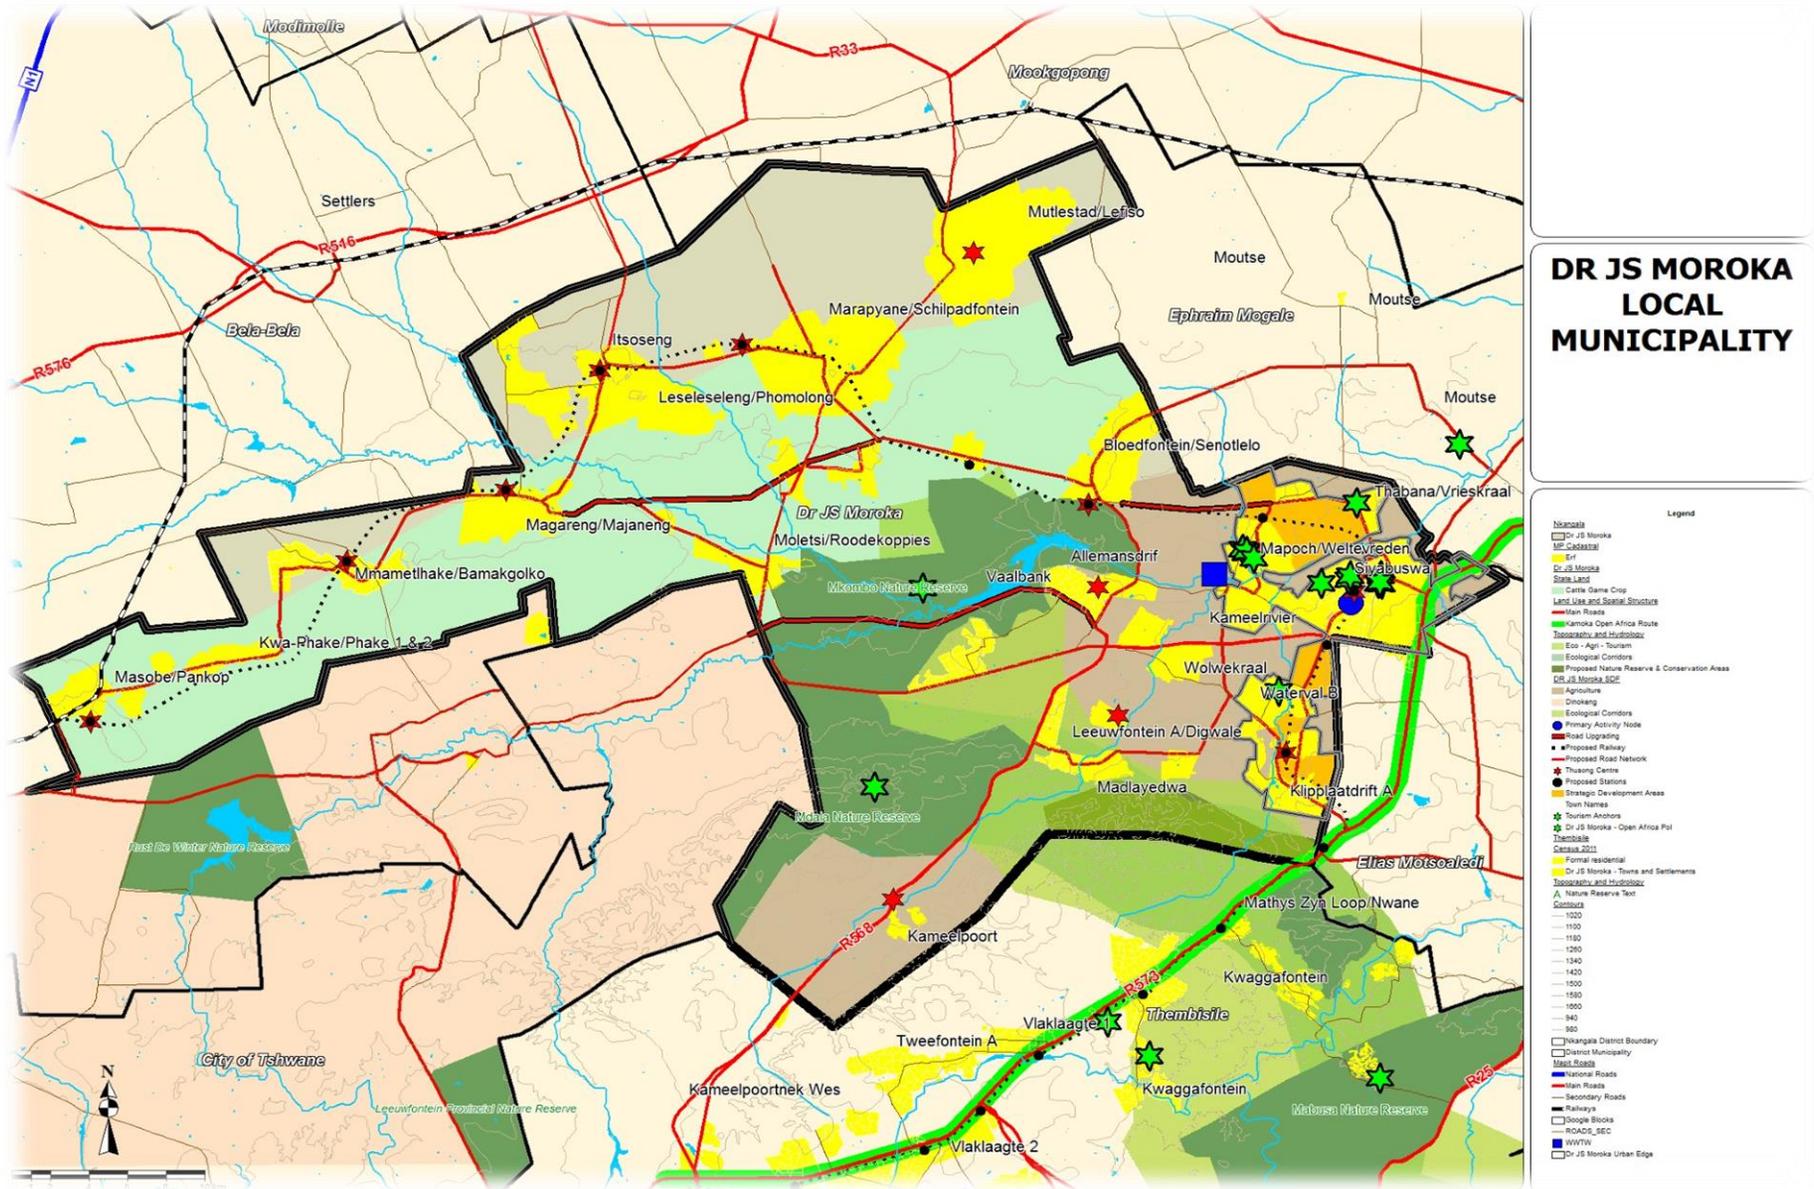

2.1.4 Locality

Geographic Area

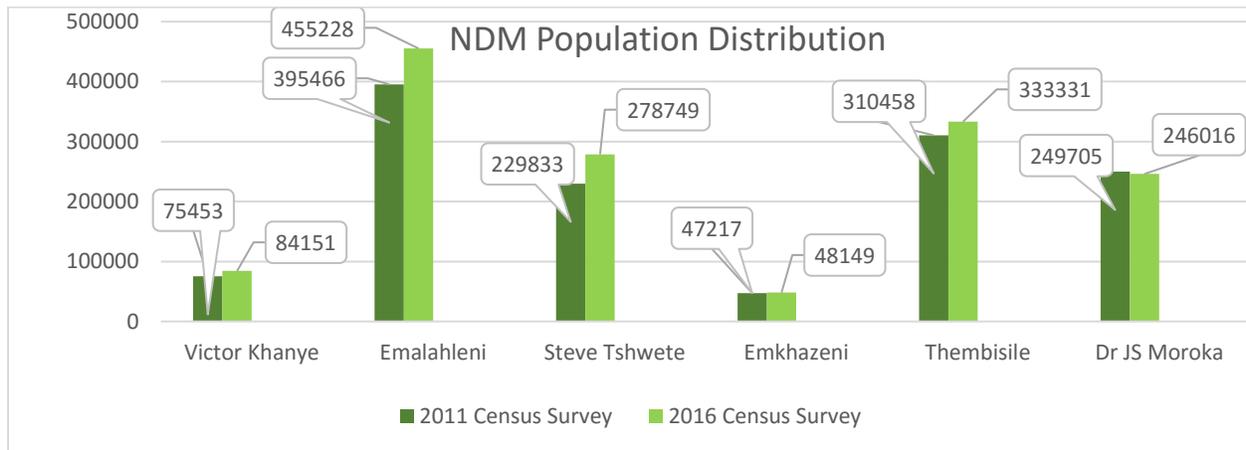

Map1, below, shows Dr. JS MLM. Dr. JS MLM covers an area of approximately 100 000 hectares, with Siyabuswa as the major CBD. It is accessible from all the major centres of Gauteng, Mpumalanga and Limpopo, namely Johannesburg, Pretoria (Gauteng), Middelburg, Witbank (Mpumalanga), Marble Hall, Groblersdal and Bela – Bela to name but a few plans

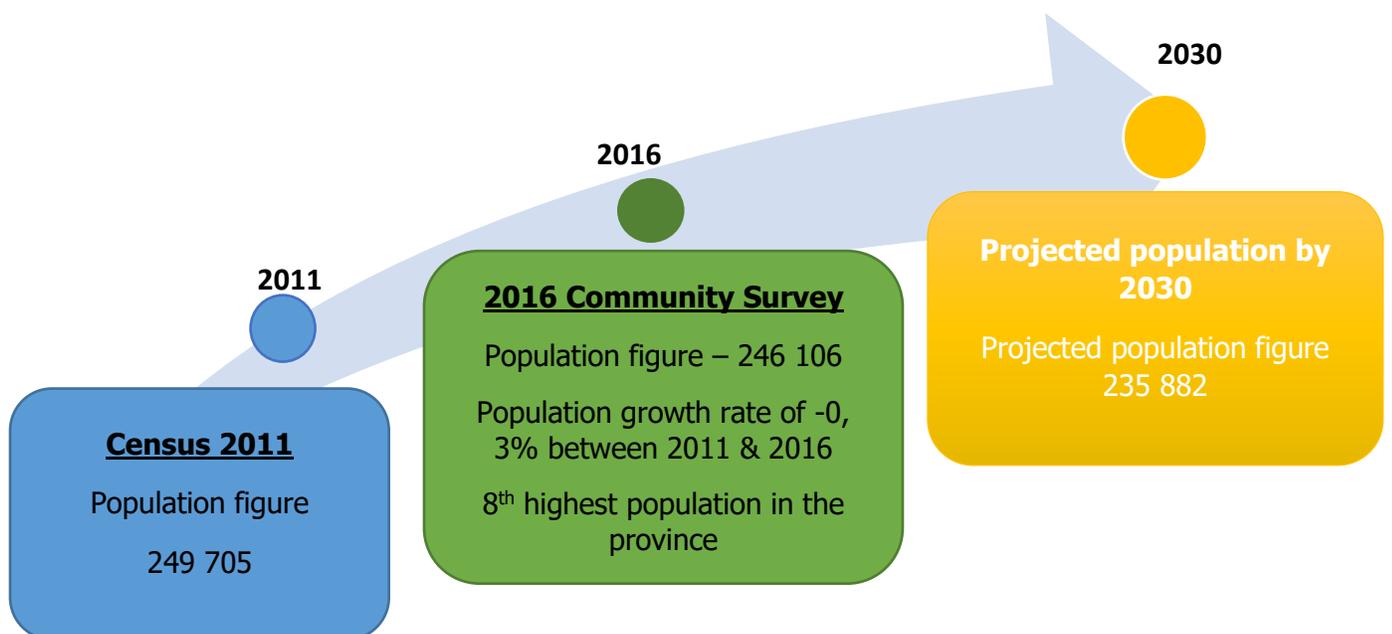

Population Distribution

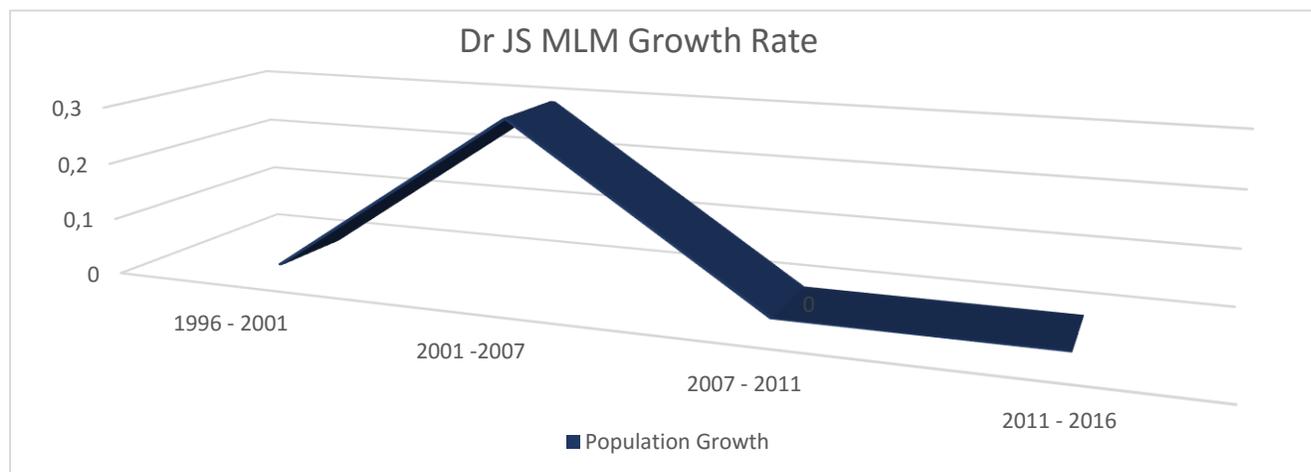

Source: Stats SA – Community Survey

Figure shows Nkangala District Municipalities population distribution from 2011 to 2016. There has been a growth of **137 492** persons in the past 5 years, from **1 308 132** persons in 2011 to **1 445 624** persons in 2016. This indicates that Emalahleni Local Municipality is the most populated municipality of all NDM local municipalities. Only Dr. JS Moroka Local Municipality experience the decline from period 2011-to-2016, with the population dropping from 249 705 to 246 016. The picture indicates that people are from Dr. JS Moroka Local Municipality to neighboring municipalities, district and provinces, mainly in search of employment since the economy of Dr. JS Moroka Local Municipality is small and not growing at a pace expected.

Population Data and Projections

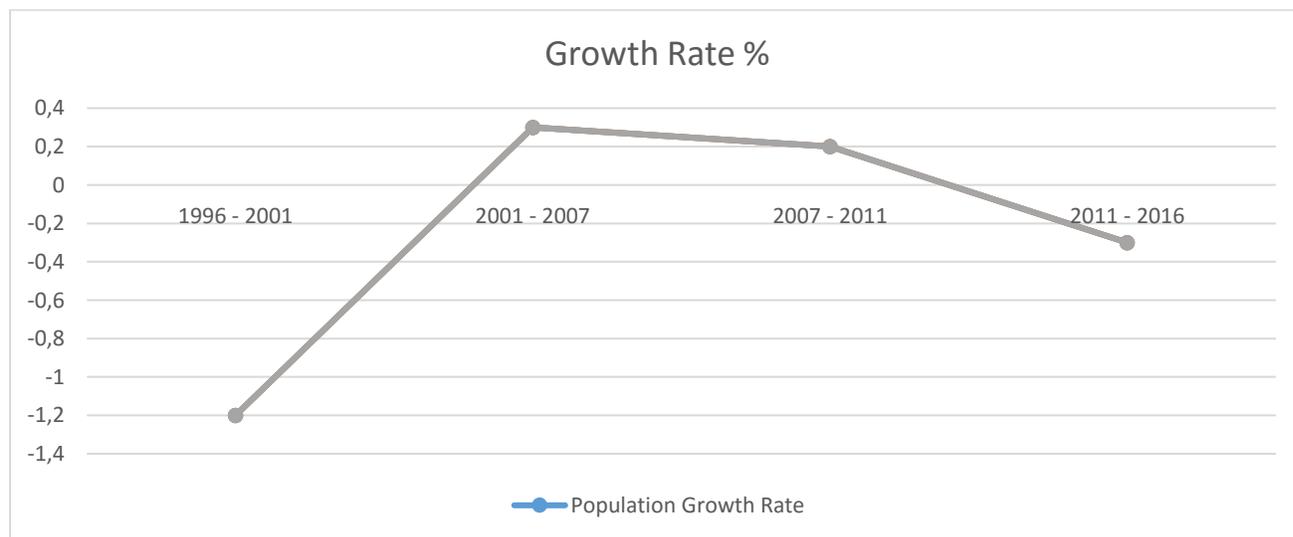

Dr JS MLM Growth Rate

Stats SA Community Survey 2016

The figure above indicates Dr. JS Moroka Municipality average population change from year to year. The population average growth had experience decrease and increases rate. For instance, between 1996 to 2001, the rate was -1.2% and between year 2001 to 2007 it is estimated that average growth was 0.3%, that shows slightly increase, and from 2007 to 2016 the municipality experience the average decreases of -0.5% in population growth.

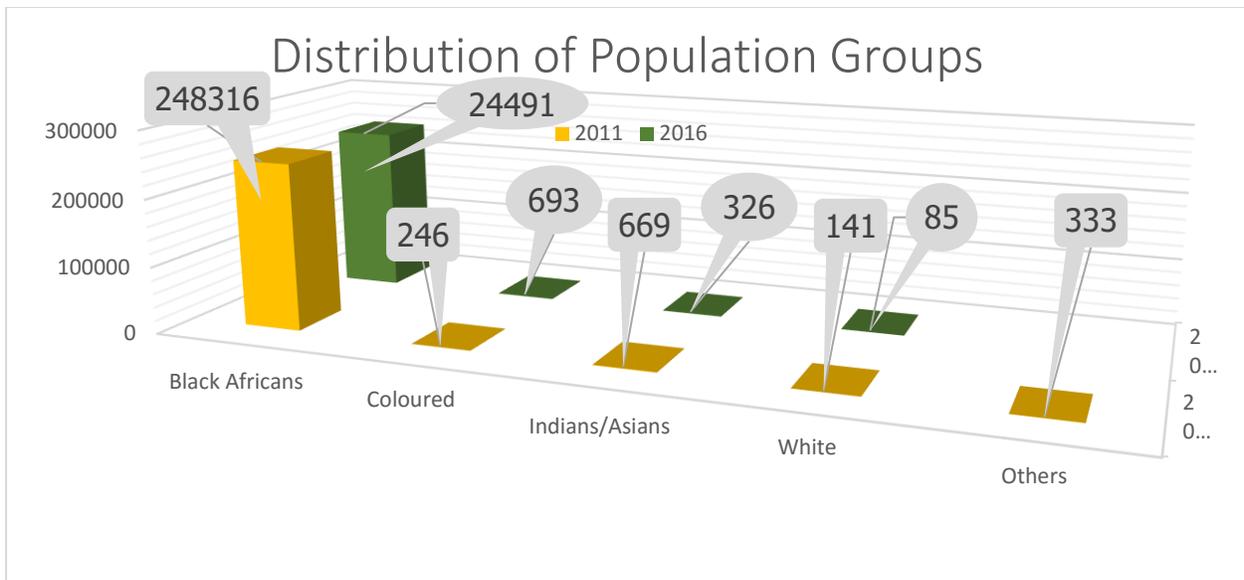

Population growth Rate (%)

Stats SA Community Survey 2016

Status Quo Assessment, Basic Service Delivery & Infrastructure

Dr JS MLM proportional distribution of population groups

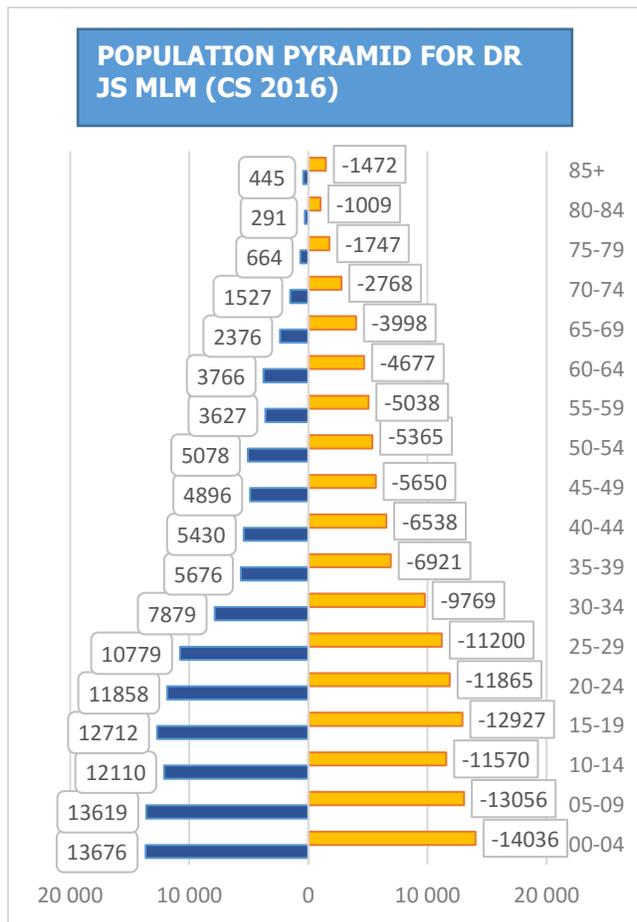

Stats SA 2016 Community Survey

Figure above indicates, the proportional population groups of Dr. JS Moroka Local Municipality. Since 2011-2016, population of Dr. JS MLM has increase and decrease across all race groups. The African people decrease by 7.2%, which is 3 405 persons, from 248 316 persons in 2011 to 244 911 persons in 2016. The coloured community has increased by 64% which is 447 persons, from 246 persons in 2011 to 693 persons in 2016. Indian/ Asian community experienced the decrease of 51%, which is 326 persons from 669 persons in 2011 and 2016 respectively. The third decrease was in the White groups, which experience a 40% decrease, which is 85 persons in 2016, from 141 persons in 2011.

Figure shows how the population structure has changed between 2011 and 2016 for Dr JS Moroka Local Municipality. The structure shows that Dr JS Moroka Local Municipality has a youth population bulge which is similar to that of Mpumalanga province and that of the country. The figure indicates that a major proportion of the municipal population are people of working age.

Population Pyramid,

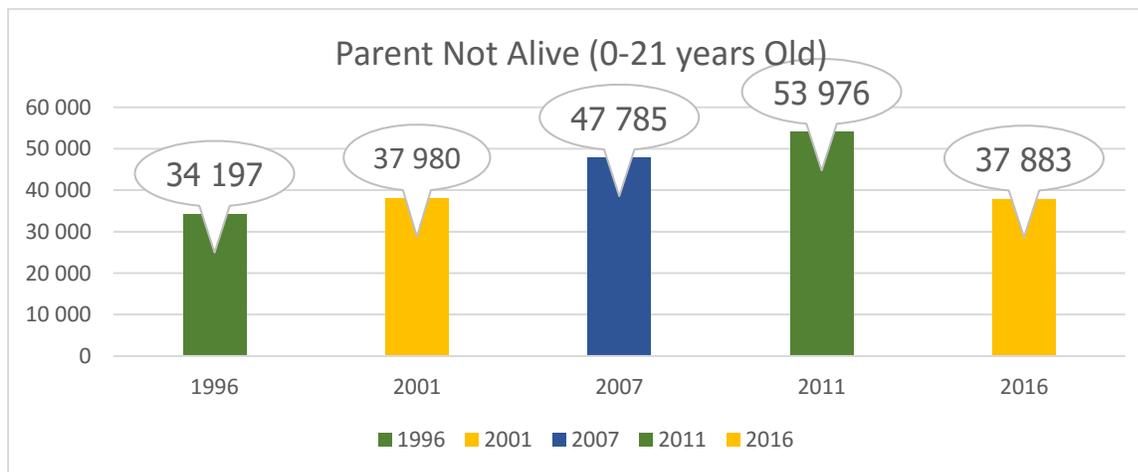

It should be noted from the figure above, the youth age population is a bulge, and on both side of the pyramid, this shows a population group decline between the ages of 20-24 as well as age group 30-34 as per the 2016 community survey. On average the margins on both youth population 20-24 and 30-34 on both male and females are slightly differed. These age groups are transition to adulthood which consist mainly of child bearing people and newly established families.

Dr JS Moroka Local Municipality population indicates a decline from age group 30-34 years until age group +80 years in line with 2016 community survey. There are less people in 2016 than 2011 in these age groups. These ages are the essential economically active population

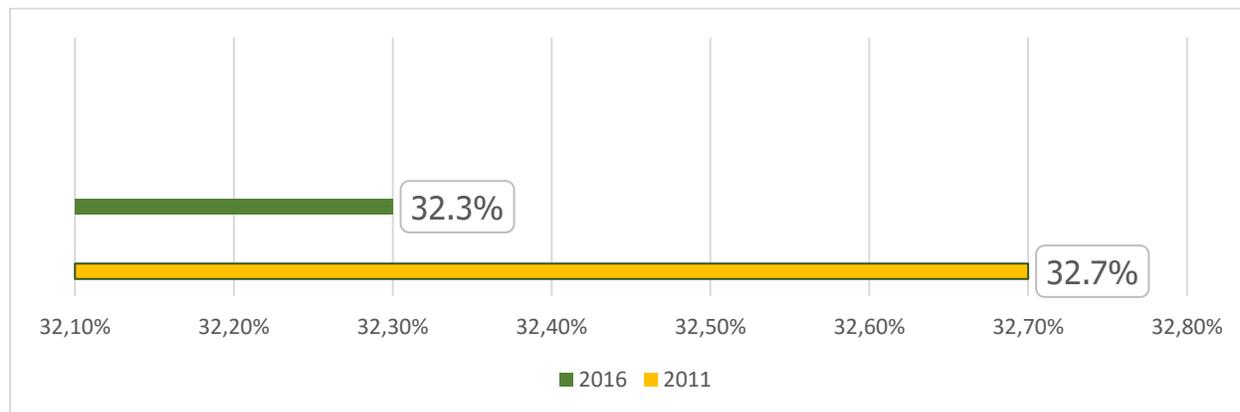

for the municipality. Thus, population decline of this age group does not assist in the economic prospects of the municipality and the province.

Population by Geography Type (Rural & Urban)

Population Dependency

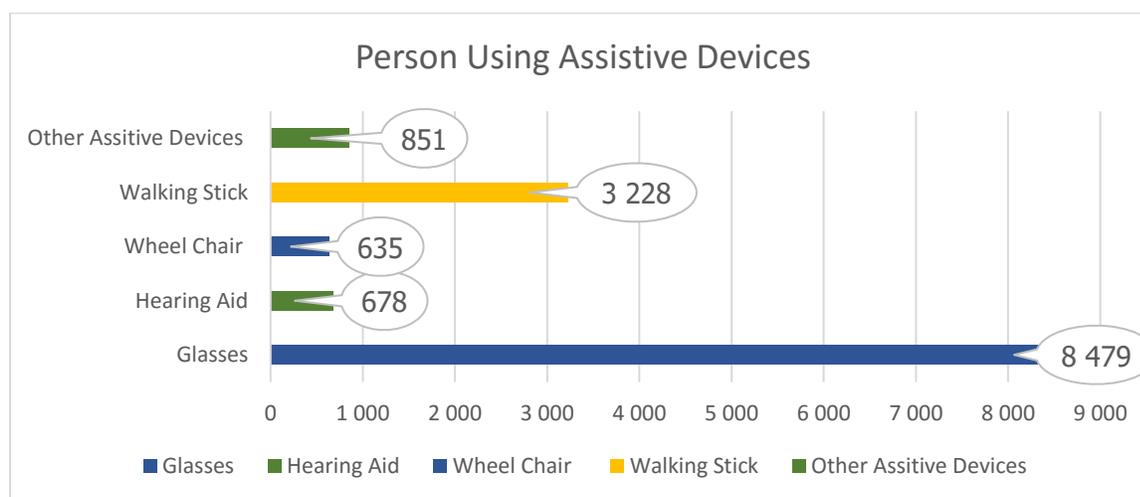

Population dependency refers to the percentage of a population that depends on others for their well-being and survival. It is expressed by means of a dependency ratio. In the case of the dependency ratios of children/youth or of older people, these ratios are calculated based on the number of children (0-14 years old) and older persons (65 years or over) who depend on the working-age population (15-64 years old). They also indicate the implications for social and economic development of changes in a population’s age structure, and point to broad trends in social support needs.

Stats SA 2016 Community Survey

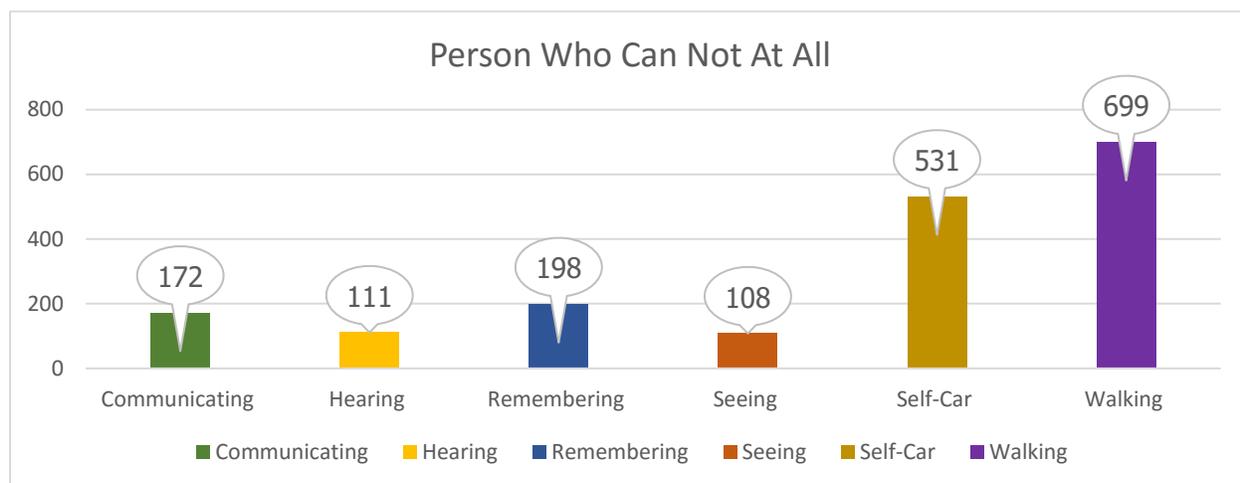

The figure above illustrate youth dependency ratio focusing on 2011 stats and 2016 community survey. In 2011 youth dependency ratio was at 32.7%, and by 2016 community survey, the ratio was reduce to 32.3%.

Disability

Households Living In RDP Houses

Source: Stats SA Community Profile

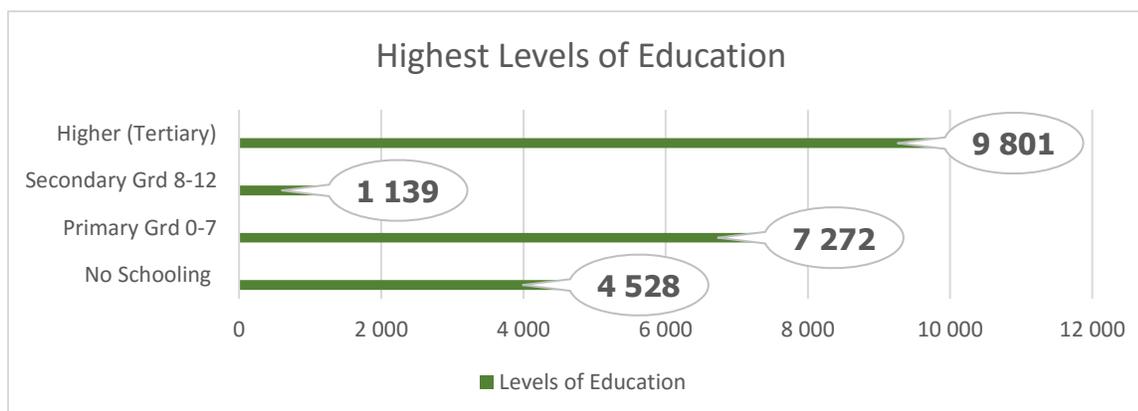

The above illustrates the number of households living in RDP houses across the Nkangala District Municipality. Emalahleni Local Municipality has the highest number of households living in RDP standards, and this is due to the fact that people move to Emalahleni in search of employment opportunities as a result of mining activities. It is followed by Steve Tshwete and Victor Khanye respectively. Due to slow economic growth, Dr JS Moroka has a small number of households living in an RDP houses as compared to Emalahleni and Steve Tshwete Local Municipalities.

Access to Basic Sanitation

Stats SA 2016 Community Profile

The figure above indicate that the municipality was able to provide basic access to sanitation to 49,072 of households against 64 027 of total number of househols in Dr JS Moroka Local Municipality. The municipality is still having a backlock with the pit latrine toilets which are off ventilation, this is a challenge since pit latrine toilet are a source of ground water pollution, hence some of areas are consisting of unconfined aquifer and from the chart above is clearly that over 80 % of households Dr JS Moroka Local Municipality are stil using pit latrines toilets.

Difficulties Facing the Municipality

Source: 2016 Community Profile

ENVIRONMENTAL ANALYSIS

Waste Management

Section 152 (1) (d) of the Constitution provides that local government is required to promote a safe and healthy environment. Protection of the environment is of critical importance. A number of legislations have been enacted to support, regulate and promote environmental management. Waste Management is one critical aspect of environmental management.

Refuse Removal Expansion

The National Environmental Management Waste Act 59 of 2008 requires all municipalities to remove, control, and manage waste through recycling, minimization and reduction methods. The expansion of refuse collection to other areas is possible. The recent expansion was to Moripe gardens where refuse collection bins had been provided and the municipality will continue to expand waste collection to other villages/areas.

Illegal dumping control:

The municipality is presently carrying out educational campaigns to the community, this is to educate the community to avoid illegal dumping on open spaces, parks and streets corners. Schools are also visited to

educate the children during clean-up campaigns to avoid illegal dumping within the school premises and to the communities. The EPWP & CWP PROJECTS are also assisting to eradicate and clean waste in public places, open spaces, street corners and parks.

Landfill management

The land fill is managed in according to Nema (National environmental management Act of 107 of1998). The Libangeni landfill site is a licensed facility operated and managed by Dr JS Moroka local municipality.

Parks and cemeteries

The parks and cemeteries project, is a project funded annually through national grant for EPWP beneficiaries that work for three days a week and receive monthly stipend. Presently they assist in cleaning open space, parks, street corners and collection of waste from households.

Community parks

The municipality have thirty-one (31) children parks in all wards, and the parks are part of municipal assets within the community that need to be taken care off. The parks plays a very important role in the lives’ of the children.

SOCIAL ANALYSIS

Social Up-liftment

In the past years there were approximately **1800** destitute children who have received school uniform and **980** elderly persons received social relieve of distress from the municipal budget, SASSA assisted with **98** school uniforms targeting primary schools, and Nkangala District have assisted with **100** school shoes, and **240** sanitary towels from ABSA bank on areas where the municipality was unable to reach due to budget constrains

There are four offices that are responsible for administering SASSA grants namely;

Offices	Number of Recipients	Total
Siyabuswa	51 292	117 731
Mbibane	21 651	
Marapyane	23 664	
Mmametlhake	21 124	

Local Program of Action for Children

Children between the age of **0-6 years** falls under the programme of Early Childhood Development. Children from **2-6** years must all be registered in the Early Childhood Development centers. Department of Education responsible for registration of ECD centers and its curriculum and Social Development Department is responsible for funding.

The municipality is responsible for **MONITORING** of centers and allocation of land when there is a need. Dr J.S Moroka Local Municipality is working closely with the departments of Social Development, Department of Education, SASSA, Home Affairs & Health in ensuring that children's need are taken care off.

Dr J.S Moroka local Municipality we have **28** fully registered ECD's with **1517** children and **106** conditionally registered ECD's with **3543** children, the total number of children that are registered with ECDs are **5060** in **134** ECDs in 2018. Isibindi programs for orphans and vulnerable children wherein the care workers assist this children with their school work and other after school programs.

Orphans and Vulnerable Children

The program that is targeting orphans and vulnerable children do not have parental guidance and support as well as child headed families. Dr. JS Moroka Local Municipality utilizes data from the Department of Education, Department of Social Development and individual information from ward councilors, Community Development Workers and children's forum. The children are linked to programs that will assist them with school uniform and register in indigent database.

Dr J.S Moroka have a place of safety in Mmamethlake where children are taken to from their homes due to abuse and they are kept in the place of safety until their cases are handled accordingly by Social Workers and South African Police Services. These Kids attend schools from place of safety until their cases are solved and they are taken back home. All these programs are funded and monitored by Department of Social Development. The other program is HIV for children whereby these children are taken care of in dropping centers, within the municipality there are 6 dropping centers.

Women Based Programme

Women forum consists of 31 women that are from all 31 wards, to address social and health issues such as gender based violence, and they are being workshopped on how to address social issues by working with relevant stakeholders.

Dr J.S Moroka Local Municipality is a CRDP Municipality that need to encourage the utilization of cooperative for service delivery. Most women are engage in community programmes like home based care, farming, tailoring, art, and others other activities through NGOs or unregistered groups. This women are trying to create income in many ways, as the Municipality has extremely limited economic activities. The Municipality awarded women in the following categories Business cooperatives, Health (HIV/Aids), Disability, Art & Culture.

In Dr J.S Moroka Local Municipality we have one Victim Support Centers in Mmamethake for victimized women whereby they get counselling.

Programme for Elderly

There is an Elderly Forum that consists of 31 members from 31wards, to address social and health issues such as elderly abuse, chronic illnesses, elders' visas grandchildren and management of pension grant. In Dr J.S Moroka Local Municipality there are 6 service centers for elders, and they are also funded by DSD. The other programme for elders is Active Aging Program where these elders participate in sports and compete with other Provinces. All these programs are fully operational, DSD and the Municipality are monitoring.

Dr J.S Moroka Local Municipality is giving away food parcels to **155 families** during Mandela month as a Mandela Day programme, and **74 families** were given vouchers parcels as a donation from Nkangala District Municipality via ESKOM, and **16** from Libangeni PICK and PAY for Christmas.

Programme for Person with Disabilities

The person with disability have representatives from 31 wards and it addresses socio-economic issues for person with disability, such as education, employment, sports. In Dr J.S Moroka have three Stimulation Centers for Disabled Persons where children are kept and taken care of, have protective workshops especially for those above 18 years of age. Again there are three Disability Centers for educational purposes. The municipality is giving away wheelchairs to persons with disability during Moral Regeneration event every year.

Dr JS Moroka has 09 centers for person with disability that includes; protective workshop, stimulation center and residential facility.

Uniliver Company appointed 43 persons with disability for learnership of contact center and administration work, and they are based in the municipality offices.

Hiv/Aids and Moral Regeneration

Dr JS Moroka Local Municipality has a Local Aids Council that is chaired by the Executive Mayor. Its composition is members of civil society, sector departments and Municipal departments to address socio economic issues that will be able to address HIV/Aids drivers. The LAC sits once every quarter wherein all stakeholders presents their reports on their quarterly programmes. The consolidated report is then presented to District Aids Council by the Executive Mayor.

There are **11 NGO** registered and funded by Social Development Department for 2019/2021.

Dr J.S Moroka Local Municipality is commemorating World Aids Day every year in December since 2009.

The Municipality is engaging in the following programmes for the community:

- TB screening
- HIV testing & counselling
- Diabetic testing
- HIV & AIDS awareness
- Drug Abuse
- Pap Smear

The following is the record received from the Department of Health:

The total number of patients on ART = **95023**

Children under age of 15 = 3801

		availability of drugs for chronic ailments, provision of id and birth certificates	2

Thusong Service Centres

In collaboration with the Office of the Premier, the year 1999 saw the unicipality launching Thusong Service Centres in marapyane, to enable the communities’ easy access to government services. The following government services are catered for at Marapyane Thusong Service Centre;

Service Provider	People Serviced on Monthly Basis
1. Department of Cooperative Government and Traditional Affairs (COGTA)	Coordination Department
2. Department of Home Affairs (DHA)	350 people serviced on average
3. South African Social Security Agency (SASSA)	1 500 people serviced on average
4. Department of Social Development (DSD)	200 people serviced on average
5. Library	1 600 people serviced on average
6. Telecentre	1 200 people serviced on average
7. Department of Labour (DoL)	600 people serviced on average
8. Legal Aid SA	30 people serviced on average
TOTAL	5 480 people serviced on average on Monthly Basis

The following Service are situated within 500m radius from the Centre

- ❖ South African Post Office
- ❖ South African Police Service Satellite Office
- ❖ Community Health Centre (Clinic)
- ❖ Parliamentary Constituency Office

The following Services come to the centre on ad-hoc basis

- ❖ Road Accident Fund (RAF)
- ❖ National Youth Development Agency (NYDA)

- ❖ Small Enterprise Development Agency (SEDA)
- ❖ South African Revenue Services (SARS)

Mobile Unit Outreach Programme

Given the fact that government cannot afford to establish TSCs in all villages within the municipal area of jurisdiction

The TSC on Ad-Hoc basis coordinate Mobile Unit Outreach Programme where all service providers in the centre and others go out using their respective mobile trucks and vehicles to provide services to other areas that are also secluded from government information and services

Future Plan

There is a strong view by sector departments that a TSC be established at Matjhiding to avoid citizens from wards 10, 11, 12, 13, 14, 15 and 16 traveling from their respective area's of resident via Matjhiding Taxi Rank to Siyabuswa to access services. Service Providers in Siyabuswa also raised concerns about the influx in their respective offices, to an extend that the situation dictates that some people are forced to return without getting the services they so dearly need. The Matjhiding TSC will help bridge the gap between service providers and services beneficiaries and also assist in saving transport cost by citizens as well.

Library Facilities

The municipality, within its 60 villages, has five (5) public libraries. The libraries are at Siyabuswa, Maphotla, Libangeni, Marapyane and Masobe. The Masobe library which was under construction in the last financial year is now completed. The municipality undertakes certain functions in library operations as per Service Level Agreement between itself and the Department of Culture, Sports and Recreation. The objective of these libraries is to promote a culture of reading and research in communities within the municipality.

Sports, Arts, Culture & Recreation

Powers and functions

Constitution Competence Schedule 4b	Definition	The division of powers and functions in terms of section 84(1) and 85 of the Municipal Structures Act, 117 of 1998		
		Nkangala District Municipality	Dr JS Moroka Municipality	Allocated, adjusted or 84 (2)
Local sport facilities	The provision, management and/or control of any sport facility within the municipal area		Yes	

Municipal parks and recreations	The provision, management, control and maintenance of any land, gardens or facility set aside for recreation, sightseeing and/or tourism and includes playgrounds but excludes sport facilities		Yes	
---------------------------------	---	--	-----	--

Challenges

- Other facilities not in good conditions
- Ga-phaahla, Libangeni, Lefiso and Nokaneng stadiums requires funding for completion
- Limited / lack of funding for the up keep of existing facilities
- Lack of external investment to promote sports

Sports, Arts and Recreation

The municipality has over the years focused more on, in terms of MIG allocation, water, roads and sanitation at the expense of other critical community needs like sports. This will create a situation with other unintended consequences due the fact that there will be scarcity of facilities for recreation. Sports allocation within the MIG funding must receive its fair share in ensuring that facilities are created in the municipal area. Sports and Recreation projects will be registered with MIG as per the submission made for 2019/20 IDP review which will ensure that the 15% allocated for Sports and Recreation is fully utilised.

The distribution of community halls is another challenge. Currently the municipality together with Nkangala District Municipality was able to distribute 14 community halls in Dr JS Moroka Local Municipality. But other areas are still without community halls which remains a challenge for the municipality.

Sports and recreation activities have always proved to be an effective vehicle for social cohesion and a way of promoting sound and healthy lifestyles. The municipality prides itself with sports facilities that are in exceptional standard that are recognized by national bodies of sports. The partnership between the municipality and TS Galaxy Football Club that participates in the ABC Motsepe league continues from 2018/19 financial year into 2019/20 financial year. The team (TS Galaxy) had moved their home games from Libangeni stadium to Ga-Morwe stadium. This relationship between the municipality and TS Galaxy has revived the spirit of sports in the municipality as communities find pleasure of watching professional football in their backyards, also the team conducting its trials targeting local talent.

Objectives	Strategies
<ul style="list-style-type: none"> • To ensure access for all communities to basic sport and recreation facilities. • To maintain all existing sports and recreation facilities. • To encourage broad based participation in sport and the development of local talent • To encourage private sector investment/ sponsorship for sports and recreation development 	<ul style="list-style-type: none"> • Identify priority areas for the development of basic sports and recreation facilities. • Improve accessibility to existing sports and recreation across the municipality • Develop a rehabilitation and maintenance programme for existing facilities. • To develop and maintain parks and open spaces • Conservation of green areas, wetlands and eco systems

Sports Summit

The Sports Council saw the need to have a sport summit event where the delegates will discuss sports issues such as:

- The establishment of a functional sports forum with representation from all sporting codes
- The deriving of sports development plan/programme for the Municipal area
- The conducting of a comprehensive audit of all sports facilities

Ward Games

The municipality annually hosts local Mayors cup tournament, which is open for all local teams in all municipal wards. The objectives of having ward sports are to promote healthy lifestyles through sport and recreation and address overall levels of crime, to promote nation building and to achieve high levels of social cohesions

Youth Development

“Young people are a major human resource for development, often acting as key agents for social change, economic expansion and innovation. Their imagination, ideals, energy and vision are essential for the continuous development of society”.

Youth Development programmes seeks to respond to the need of putting young people in the centre of development. The programmes will be looking at encouraging economic participation, capacitating young people with regard to job search capabilities, creating platforms where there are engagements, where challenges are discussed while in the process suggestions of mitigations are sought. Youth development programmes will look at encouraging young people to also consider their responsibilities with regard to their own development. The address of social ills will be at the centre of youth development as they are considered to be the most barriers of development. Lastly but not least, youth development programmes will be addressing issues of promotion of education amongst young people.

The following are the planned programmes for youth development;

- Youth Enterprise Development Programme
- **Career Guidance**
 - School going youth
 - Out of school youth
- **Health and life skills**
 - Substance Abuse Awareness
 - Teenage Pregnancy Awareness
- Skills Development Programmes
- Work Readiness programme
- Youth Summit
- Job Summit

Youth Unemployment and Socio-Economic Development Programme

The youth unemployment rate between the age of 15 and 34 is 61,7% as per stats SA community survey 2016. The municipality works in partnership with the National Youth Development Agency (NYDA), which specializes in economic programmes, such as offering business skills and funding to the young people who are interested in starting and owning businesses. They also assist the young people with services such as opening and registering of businesses. The services offered by NYDA do not have a time frame, they are ongoing and they have offices in all magisterial districts of Mdotjana, Mbibane & Mathanjana.

The skills offered by the National Youth Development Agency (NYDA) includes the following;

Training Skills Presented	Number benefited
Life Skills	605

Business Management training	147
Job Preparedness	958
Co-operative Governance	40
In total 1750 young benefited from NYDA entrepreneurship initiative	

The partnership between the National Youth Development Agency and the Municipality resulted in 7 local companies receiving funding in the form of a grant and voucher to the value of R210 143, 02. The partnership is to continue assisting young people in the current and future years to come

Executive Mayor Bursary Scheme

The Executive Mayor Bursary Scheme was first issued in 2009 for qualifying matriculates from historically disadvantaged families within the areas of jurisdiction of Dr JS Moroka Municipality to study on the following fields with the aim of addressing the issue of scarce and critical skills within the Municipality;

- a) Civil Engineering
- b) Town Planning
- c) Property valuation
- d) Hydrology / Waste Management
- e) Economic Management
- f) Diesel Mechanic
- g) Petrol Mechanic
- h) Water Care Treatment
- i) Records and Archives Management

The Council has awarded thirty-eight (38) Bursaries since 2009 to 2018. Of the total number of 38 bursaries awarded, Council absorbed 26 bursars which 18 of them are employed as Technicians on full time basis, 06 of them employed as trainee Technicians and 2 employed as Trainee accountants.

Learnership and Internship Programmes

Currently the Municipality is working with different SETA's to execute the following Learnership and Internship Programmes for unemployed youth of Dr JS Moroka Local Municipality:

NO.	NUMBER OF LEARNERS AS PER ATTACHMENT	TRAINING INTERVENTION	INSTITUTION	AMOUNT	PROGRESS
1.	43	Call-Center Learnership for Youth living with disability	Training Force	Funded by Uniliver	On progress
2.	15	Internship for unemployed graduates	Collaborate Business Solution	Funded by PSETA	On progress
3.	25	Electrical, Bricklaying, Plumbing Fitting and Turning Apprentices	Municipal Infrastructure Support Agent	Funded by MISA	On progress
4.	5	Finance Internship	National Treasury	National Treasury	On progress
5.	The initial appointments was 500 and current status quoi is 323	War on Leaks: Water and Waste Water Reticulation	Entsika Training Institution	Funded by Rand Water	On progress

Public Safety

Public Safety is the function of governments that ensures the protection of citizens, organizations, and institutions against threats to their well-being and to the prosperity of their communities. To meet the increasing challenges of road accidents in the public security area, responsible public institutions (SAPS, EMS, FIRE and Provincial Transport Board) and organizations can tap into their own intelligence to successfully address possible threats in advance. The municipal traffic has ongoing joint operations with the above mentioned stake holders on quarterly basis to combat crime, which address issues of drunk and driving, unlicensed drivers, vehicle roadworthiness, illegal activities and inconsiderate drivers. This has minimize chances of criminals transporting stolen goods from one place to the other.

Visible Policing

Crime prevention in Dr JS Moroka local municipality is most likely to succeed when it is tackled by a range of role players, including government departments such as the Departments of Health, Education and Social Development, Local Government, non-governmental organizations. The roadblocks, vehicle patrol, school safety programs and substance abuse awareness campaigns will help in crime reduction. Visible policing activities are day to day operations includes: attending of complains and search operations, special operations (this operations are being conducted fourthnightly and to enforce complaiance certain legislative such as Liour Act and Road Traffic Act and also to address some problematic crimes at hotspot areas and this are crime intelligent driven operations.)

Road Safety Awareness

In according to the NRTA 93-1996, NLTA 5 of 2009- and Criminal procedure Act 51 of 1977, they advocate for road safety and create broader awareness among our communities, the magnitude of the road traffic injury problem and the main factors which place people at risk. This is because road traffic trauma affects individuals, friends and families. Two safety campaigns takes place in the municipality yearly

namely scholar patrol and annual road safety campaigns. Twenty-six (26) schools participate in the programme of scholar patrols with twelve (12) participants per school including 2 teachers each school.

Social Crime Prevention

The White Paper for Safety and Security of 1998 defines social crime prevention as all efforts “to reduce the social, economic and environmental factors conducive to particular types of crime”. The Social Crime Prevention Strategy is based on the assertion that the causes of crime are complex and therefore successful prevention will require a range of appropriate approaches that are tailor made to address specific conditions e.g vehicle patrols, stop and search, substance abuse and road safety campaigns. Social crime activities are domestic violence campaigns, drug awareness campaign, school visits to address learners, visit to clinics to address child pregnancy.

Community Police Forum

The revival of community policing forum both at stations and village level will be done across the length and breath of the municipality as part of crime prevention initiative through community participation

By-law Enforces

As stated above, the by law exists to ensure that certain kinds of behavior or/and acts are prohibited and punished if the prohibitions are not observed. Most of municipal By-Laws are under review to ensure that by-laws are kept up to date in the present day requirements.

Development of new by-laws as required within Dr JS Moroka Municipality, the municipality is in the process of establishing By-law enforcement unit which will in turn on daily bases do inspections and conduct enforcement in all areas, to pro-actively act in case of offenders not adhering.

Motor Vehicle and Driver Licensing and Registration

Dr. JS Moroka Local Municipality performs licensing function in the administration of drivers and vehicle licenses as an agent to the Provincial Government (Mpumalanga Department of Community Safety, Security and Liaison) in terms of the service level agreement signed between both parties. The function is performed according to the National Road Traffic Act no 93 of 1996 and the S.A.B.S (S.A.N.S) Act.

The e-NaTIS system is used to administer the licensing function and all licensing transactions are computerized on the system.

Fees for the function are determined by the MEC of the Department of Community Safety, Security and liaison (DCSSL) as stipulated in the Mpumalanga Provincial Road Traffic Regulation, 1998 Act No. 4 of 1998.

The Municipality has three registering authorities, one per Magisterial District namely Mdutjana in Siyabuswa, Libangeni and Mathanjana.

Libangeni Registering Authority (RA) has Driver’s License Testing Center (DLTC) grade “A” and Vehicle Testing Station (VTS) grade “A” which is currently operational, Siyabuswa registering authorities (RA) has Driver’s License Testing Centre Grade “E” and Moretele operates a registering authority only.

The registering authorities performs the following functions;

Libangeni Registering Authority Grade “A”	Siyabuswa Registering Authority Grade “E”	Moretele Registering Authority

Health Services

Background and Policy Framework

The Policy on Quality Health Care in South Africa (2007) released by the National Department of Health says achieving the goal of a quality health care system requires a national commitment to measure, improve and maintain high-quality health care for all its citizens. The policy further says that this involves measuring the gap between standards and actual practice, and working out ways to close the gap.

National aims for health care improvement

- Addressing access to health care
- Increasing patients' participation and the dignity afforded to them
- Reducing underlying causes of illness, injury, and disability through preventive and health promotion activities
- Expanding research on evidence of effectiveness;
- Ensuring the appropriate use of health care services; and
- Reducing health care errors (adverse events)

Challenges

- Only one district hospital responsible for 246 016 population

- Distance from villages in Mdutjana eastern of the municipality to hospital in Mathanjana western side of the municipality
- Some of community health centers (clinics) not operating 24hrs
- Shortages of nurses in other clinics
- Shortage of medication in other clinics

Health Services Provided

- Child care
- STI's, HIV and Aids testing
- Councelling
- TB screening and treatment
- Infant PCR testing
- Refferals for treatment
- Medical male circumcision
- Condoms distribution
- Compresive sexuality education
- Reduce mortality and morality by providing treatment
- Multi Drug Resistant TB treatment

Objectives	Strategies
<ul style="list-style-type: none"> • To ensure the provision of health services and accessibility to all community of Dr JS Moroka • To ensure provision of human resource to enable health services to operate at optimum level • Ensure that clinics operates 24hrs in order to assist community with medical care 	<ul style="list-style-type: none"> • Ensure the availability of medication and resources at all clinics • Ensuring that all communities have access to health facilities in accordance with applicable norms and standards

Disaster and Emergecy Services

Municipal Administration

Section of the Municipal Systems Act requires a municipality must within its administrative and financial capacity to establish and organize its municipal administration and for that purpose the municipality shall appoint a municipal manager who is expected to establish the municipal administration that is –

- Effective
- Economical, and
- Accountable

Mr Thammy Kubheka was appointed as the Municipal Manager in accordance with the provision of the municipal Systems Act as amended. The Organisational structure has been established and reviewed comprising of Four Directorates additional to the Municipal Manager’s post. Mr t Letsoalo (Chief Financial Officer is suspended and **Ms. Thandiwe Lengwate** was seconded by Nkangala District Municipality in acting capacity as Chief Financial Officer.

The employment contracts of other directorates – Community development Services, Technical services and Admin and Corporate Services remained on course. The Municipal Planning Lekgotla is planned for March 2019.

Employee Development

In an effective organization, employee developmental needs are evaluated and addressed. Developing in this instance means increasing the capacity to perform through training, giving assignments that introduce new skills or higher levels of responsibility, improving work processes, or other methods. Providing employees with training and developmental opportunities encourages good performance, strengthens job-related skills and competencies, and helps employees keep up with changes in the workplace.

Carrying out the processes of performance management provides an excellent opportunity to identify developmental needs. During planning and monitoring of work, deficiencies in performance become evident and can be addressed. Areas for improving good performance also stand out, and action can be taken to help successful employees improve on their performance.

The Workplace skills plan for 2018/2019 has been approved and implemented which takes into account the skills development gaps of all employees in the municipality including that of Councillors. Municipal

Bursary Policy has been approved to support employee development in terms of long term training programmes. This is coupled with the approval of the Capacity and Training Policy.

Training undertaken in the current financial year – 2018/2019

Training Programme	Number of Employees Taking Part
CPMD	07
Certificate in Municipal Governance	11
Public Management Certificate	27
Fleet Management Programme2	02
Municipal Financial Management Programme	12
Traffic and Metropolitan Police 1	01
Municipal Leadership Development	01
Municipal Financial Management for Non-Financial Managers	02

Supply Chain Management

The Municipal Finance Management Act requires the Accounting Officer of a Municipality to establish a separate Supply Chain Management unit. Municipal Supply Chain Management entails three interwoven critical processes. That is –

- Demand Management
- Acquisition management and
- Logistics Management

The Municipal Council has approved the Municipal Supply Chain Policy which gives guidance and regulates how supply chain processes are to be handled in the municipality. All three Bid Committees have established as required by the MFMA and applicable regulations. The Assets Management Register has been established and maintained. Staffing in the Supply Chain Unit is adequate; measures though are being implemented to address gaps in supply chain policy.

Customer Management

The Customer Management is a critical element in measuring responsiveness to internal and external customers, stakeholders, and the public. The activities and qualities of this element include:

- Responsiveness to customer objectives and needs to the extent permitted by law and regulation;
- Being accessible and timely in dealing with customers;
- Handling customer requests promptly and effectively;
- Communicating with customers to identify needs and expectations; and
- Demonstrating customer focus as a critical part of the achieving organization's vision.

Fraud Prevention and Anti- corruption

The Local Government Anti-corruption strategy published by Department of Cooperative Government and Traditional Affairs provides a very clear framework for Local Government to fight fraud and corruption in municipalities. The strategy lists the following critical in dealing with the problem;

Focus on the Organization

- Effective implementation of the Code of Conduct for employees as prescribed in the Municipal Systems Act and the Municipal Structures Act to which all municipal staff are expected to abide by
- Effective implementation of the Code of Conduct for Councillors as prescribed in the Municipal Systems Act, the Municipal Structures Act, and the Municipal Finance Management Act to which all councillors are expected to abide by
- The systems, policies and procedures applicable to the local sphere of government
- Human Resources Policies and Procedures applicable to the local sphere of government
- Finance Policies and Procedures applicable to the local sphere of government
- Sound internal controls to prevent and detect unethical conduct, fraud and corruption
- Ongoing risk assessment and management, which includes systems relating to unethical conduct, fraud and corruption detection
- Internal and External Audit; and
- Physical and information security management.
- Vetting

Enforcement

- Reporting and monitoring of allegations of unethical conduct, fraud and corruption.

- Whistle-blowing which is intended to provide assurance to employees that Local Government is committed to protecting employees who report unethical conduct, fraud and corruption in good faith, from victimization or other forms of intimidation.
- Feedback to be given to whistle-blowers to provide assurance to whistle-blowers that all allegations of unethical conduct, fraud and corruption will be investigated.

The municipality has neither introduced the Anti-corruption forum nor the Anti-corruption hotline. However, the municipality has taken note of importance in establishing both the anti-corruption forum and the hotline, and the processes are in-place to that effect.

The Municipal Public Accounts Committee has since established strengthened the municipal resolve to fight fraud and corruption in any form.

The municipality has in the past lost valuable information through the torching of municipal server in the finance department where some records and files could not be traced, which constitute fraud and corruption in itself. However, there have been improvements with sourcing of external service provider in the ICT unit to provide ICT support. Vetting of employees and declarations of interests must be maintained at all material times and administered by the Accounting Officer as a measure to promote ethical conduct and practice in the municipality.

Risk Management

A risk is any factor that may potentially interfere with successful completion of the project. Risk management recognizes that a problem might occur. When a problem develops, the risk of it happening is 100%. By recognizing potential problems, the municipality can attempt to avoid a problem through proper actions.

Risk management involves the following stages –

- Risk identification
- Risk analysis, quantification and prioritization
- Risk mitigation planning
- Risk response

The Municipality has undertaken a Risk Review in 2018/19 with focus on operational risk and identification of the new risk. The whole exercise was intended to determine risk environment in the municipality in order

to develop the Risk Plan of the municipality that includes contingency measures in terms of different risks identified. All Municipal Directorates are expected to review their risks profiles aimed at ensuring that risks that might undermine services provision. By July 2019 the process has to be implemented.

Communications Strategy

In terms of the Local Government: Municipal Systems Act, No. 32 of 2003, Chapter 4 Sections 18-21, the Municipality is required to keep in contact with its stakeholders, by communicating information to the local community, through different channels.

The strategy will provide a framework to ensure that the Municipality manages communication in a planned and coordinated way and maintains the commitment to effective and timely communication.

In order to be responsive to the community needs, establish a clear relationships, facilitate cooperation and communication with its communities, the Municipality should develop a communication strategy. The strategy is currently due for review, its implementation will enable the municipality to deliver the information through an effective and efficient communication.

The following platforms are currently used to communicate with the stakeholders

(both internal and external):

Website

Emails

Noticeboards

SMSs

Radio

Newspapers

Social media platforms

Laud-hailing

Brochures, pamphlets & posters

Promotional material

Outreaches and/or community meetings

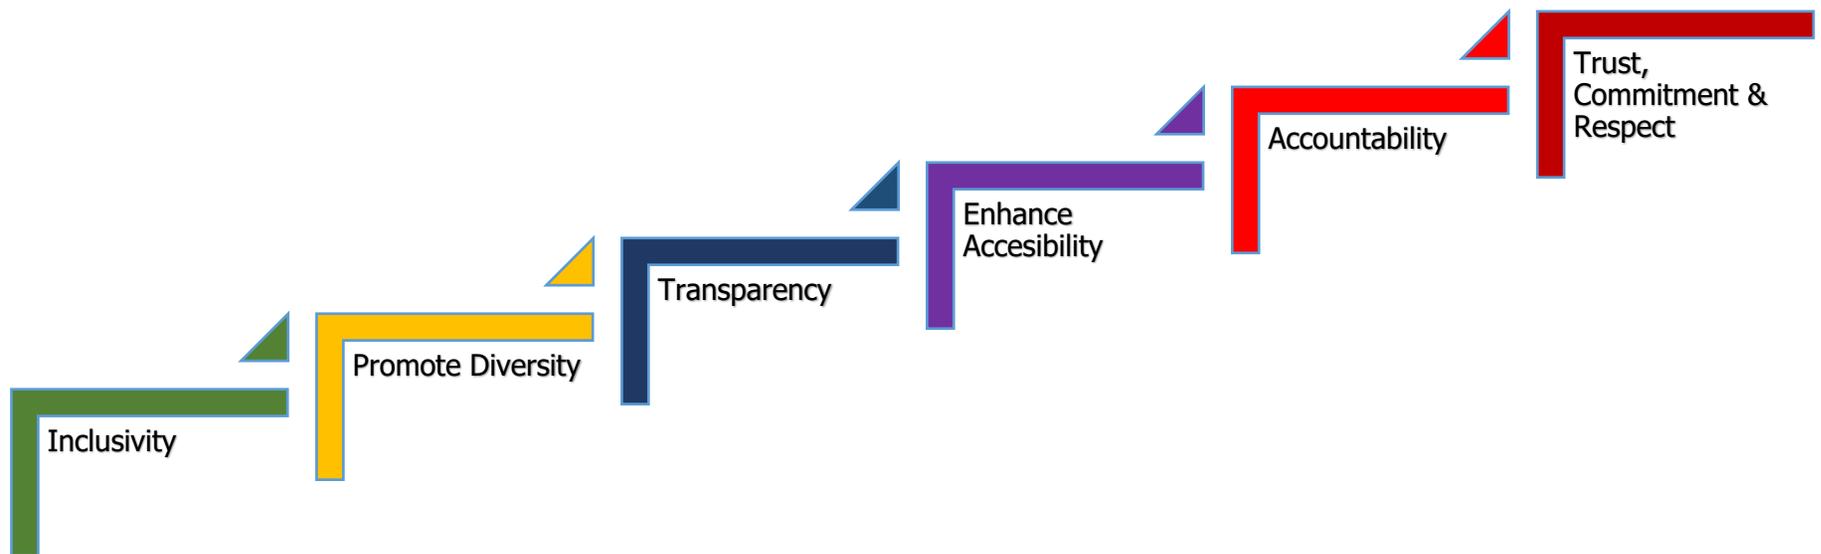

The Promotion of Access to Information Act of 2000 which aims to foster a culture of transparency and accountability and to promote effective access to information is a critical component of municipal communication.

The municipality has for a number of years failed to review and adopt Municipal Communication Strategy which will serve to embrace the above requirement in championing both internal and external communication. Although internal the municipality does have communication unit with functional website and all communication techniques are explored greatly.

Public Participation Strategy

Public participation is a key characteristic of a developmental local government, communities and community organizations are required by the Constitution to be involved on matters of local government. Section 4 (c) (e) of the Municipal Systems Act stipulates that a municipal council has a duty to encourage the involvement of the local community and to consult with the community about the municipal services provided by the municipality. Ward Committees have been established in all 31 wards and trained to understand and function effectively and within their delegated mandate.

The Public Participation Strategy is in a draft stage and the process will be finalized by June 2019 to effect implementation by July 2019. Public Participation Strategy once finalized will embody the principles as indicated below –

Institutional Development and Transformation

The human resources function of the municipality involves the following key processes.

- Human resources provision – human resource planning, recruitment, induction
- Human resources maintenance - conditions of service, records management, maintaining discipline
- Human resources development – involves training and development

The municipality has developed and implemented systems that assist in the provision human resource function. Policies have been developed and some reviewed to give effect to the human resource function, human resource development and human capacity allocated for effective functioning. However there are number of areas that require more emphasis and planning. This include the following;

- Effective succession planning
- Electronic Records Management System
- Equity Planning – clear achievable targets
- Review of Job descriptions
- Policy implementation and review
- Cascading individual performance to all management levels
- Redesigning the corporate culture of the municipality

Human Resource Development Strategy

The human resource function positions itself as a strategic partner to the organization that continuously strives to promote municipal strategic objectives (IDP) through alignment of human resources planning processes, procedures, programmes and providing sound advice on related matters.

Furthermore, to ensure the municipality is well capacitated through the recruitment of suitably qualified persons, filling of critical vacancies and continuous development and up skilling of the workforce towards service excellence.

HRD Objectives and Goals

HR Strategic Goals	HR Strategic Objective
HR Strategic Alignment	<p>Develop human resources strategy through a comprehensive programme that includes human resources planning, collaboration with line function etc.</p> <p>Annual alignment of the organisational structure to the newly reviewed IDP and SDBIPs</p> <p>Implement a workforce planning processes, techniques and tools to proactively identify the human resources required to meet IDP objectives</p> <p>Revamp the HR service delivery model and business processes for the municipality and introduce the Strategic Partnership Service Model</p>
Effective HR planning	<p>Ensure job descriptions are developed for all positions and are evaluated using recognised job evaluation instruments.</p> <p>develop and reinforce the need for competitive compensation to attract and retain top talent</p> <p>A recruitment plan in place</p> <p>Cost effective management of employee related costs, including council related costs</p> <p>Review and implement EE plan and annual submission of EE reports to the DoL</p>
Organisational capacity building	<p>Annually conduct skills audit to assess training and developmental needs of employees and councilors</p> <p>Annual development of WSP and submissions to the LGSETA</p> <p>Sufficient training funds allocated and training budget secured</p>

	<p>Promote skills development and career opportunities for the young indigents in the locality through the executive mayor’s bursary scheme</p> <p>Prioritise women empowerment through special designed programmes targeted only at women in the workplace</p>
Organisational culture and development	<p>Continuously assess employee satisfaction to ensure a productive and effective workforce that translates to high staff morale and provision of satisfactory service delivery</p> <p>Promote an inclusive culture that all employees share in the vision and mission of the organisation to meet the IDP objectives</p>
Performance management and reward	<p>Develop a performance management policy for the municipality</p> <p>Cascading of performance management to all employees of the municipality</p> <p>Linking performance management outcomes to remuneration and reward</p>
Employer and employee sound relations	<p>Continuous employee wellness programmes that promotes the well-being of the workforce to ensure effective service delivery</p> <p>Promote sound and compliant occupational health and safety programmes to ensure employees’ and the public safety at all times</p> <p>Promote and encourage labour peace within the work place</p> <p>Establish platforms to educate and up skill employees on labour related matters</p>

Information Communication and Technology

The municipality has invested millions into the Information, Communication Technology system and the return on investment has been satisfactory. The servers are working and able to support functions of communication internally and externally. The Municipal Website is up and functional.

Occupational Health and Safety

The role of the Occupational Health and safety Unit has to be expanded consistent with the Occupational Health and Safety act. The Act places particular responsibility to employers to provide and maintain a safe and healthy environment for its employees that without risk. The Health and Safety Committee was established in terms of Section 19 of Occupational Health and Safety Act. The current Safety Committee term of office has lapsed in November 2018, and we will appoint the new Committee members once the newly appointed Municipal Manager is appointed.

Once established, the committee is mandated to champion the following;

- General Hygiene issues
- Safety at all municipal sites
- Monitoring of safety compliance at various projects implemented within the municipal space

Public Participation and Good Governance

Developmental Local Government requires the full participation and involvement of local community and community organisations on matters of local government. The municipal Council was established as a collective executive system with ward participatory system. Good governance and accountability are the cornerstone of an efficient and effective local government system.

Ward Committees

The municipality consists of 31 wards spread over 1416,4240 km² square of the municipal area. Ward Committees have been established in all 31 wards and are fully functional. The Office of the Speaker is the champion of public participation and has ensured that –

- There are meetings at all wards
- Support is provided to ward committees
- Training is provided
- Various forums are established

However there are areas that requires improvement in further ensuring that the ward committees are able to continue in their role unhindered –

- Lack of response from ward committee issues
- Co-operatives establishment not assisted
- Lack of implementation of public participation strategy.

Community Development Workers

The occasion of the State of the Nation Address in 2003, the then President, Mr Thabo Mbeki announced that Community Development Workers will be appointed in municipalities across the country. The initiative was intended to result in the following outcomes-

- Assisting in the removal of development deadlocks.
- Strengthening the democratic social contract.
- Advocating an organized voice for the poor.
- Improved government community network.

The 35 Community Development Workers have been appointed and are placed in the Office of the speaker (public participation) except for ward 8, 13 and 25. There has been seamless integration of the role of community Development Workers and those of Ward Councilors and their committees to an extent where there is closer working together on a number of initiatives. Further the Community Development Workers are placed at various portfolio committees of Council.

The initiative has greatly benefitted and strengthened the interface between Council and various stakeholders particularly those who are most vulnerable.

Governance Processes

Audit Functions

The Municipality has in the past established the Internal Audit unit with chief internal audit, and the unit is supported by audit committee which sit quarterly.

External Audit

The role of the audit committee

- The Audit Committee provides advice to Management and remains accountable to the Municipal council.

- The role of the Audit Committee is to consider the internal audit plans and activities of the Municipality and management's plans and processes with regard to risk management, control and good governance.
- The Committee takes a special interest in all matters that affect how a Municipality is audited and will therefore also take note of the external audit plans and activities. It provides one of the channels for communication between customers, management, Internal Auditors and the Auditor-General.
- Control by the Audit Committee of the Internal Audit Function positively influences good governance within the organizational and strengthens the Internal Auditing Component and fosters an independent climate for their operation.
- Management continuously strives to adopt and implement best practice in relation to practices and corporate governance.
- Consequently, the Code of Corporate Practices and Conduct published in the King II Report requires management to publicly confirm that they have reviewed the effectiveness of the internal control of their organization.
- The implementation of control and information systems is essential to the effective discharge of the management's responsibilities.

Purpose

- To assist the Audit Committee (AC) in fulfilling its oversight responsibilities for the financial reporting process, the system of internal control, the audit process, and the company's process for monitoring compliance with laws and regulations and the code of conduct.

Authority

- In terms of the Municipal Finance Management ACT, No. 56 OF 2003 and National Treasury Regulations, Accounting Officers have to comply with the compulsory establishing of an effective internal audit function.

- Audit Committee control and direct the Internal Audit function in the municipality.
- Section 166(2) An audit committee is an independent advisory body which must:-

(a) advise the municipal council, the political office-bearers, the accounting officer and the management staff of the municipality, or the board of directors and the accounting officer on matters relating to:-

- (i) Internal financial control and internal audits;
- (ii) Risk management;
- (iii) Accounting policies;
- (iv) The adequacy, reliability and accuracy of financial reporting and information;
- (v) Performance management;
- (vi) Effective governance;
- (vii) Compliance with this Act, the annual Division of Revenue Act and any other applicable legislation;
- (viii) Performance evaluation; and
- (ix) Any other issues referred to it by the municipality;

(b) review the annual financial statements to provide the council of the municipality and the board of directors, with an authoritative and credible view of the financial position of the municipality, its efficiency and effectiveness and its overall level of compliance with this Act, the annual Division of Revenue Act and any other applicable legislation;

(c) Respond to the council on any issues raised by the Auditor-General in the audit report;

(d) Carry out such investigations into the financials affairs of the municipality as the council of the municipality.

Section 166 (3) In performing its functions, an audit committee:-

(a) Has access to the financial records and other relevant information of the municipality; and

(b) Must liaise with:-

- (i) The internal audit unit of the municipality; and
- (ii) The person designated by the Auditor-General to audit the financial statements of the municipality.

Section 166 (4) An audit committee must:-

(a) Consist of at least three persons with appropriate experience, of whom the majority may not be in the employ of the municipality, as the case may be; and

(b) Meet as often as is required to perform its functions, but at least four times a year.

Section 166 (5) The members of an audit committee must be appointed by the council of the municipality. One of the members who is not in the employ of the municipality, must be appointed as the chairperson of the committee. No councilor may be a member of an audit committee.

Section 166 (6) A single audit committee may be established for:-

(a) A district municipality and the local municipalities within that district municipality.

The Council authorizes the Audit Committee within the scope of its responsibility to:

- (a) Seek any information it requires from any employee and all employees are directed to co-operate with any request made by the Audit Committee.
- (b) Obtain outside legal or other independent professional advice and to secure the attendance of outsiders with relevant experience and expertise if it considers this necessary. Any such appointments should be made subject to the approval of the Accounting Officer and Supply Chain Management Policy/State Tender procedures.

The Audit Committee is also empowered to, but not limited to the following:

- (a) Resolve any disagreements between management ,internal auditors and external auditors regarding financial reporting;
- (b) Pre-approve all auditing and non-audit services conducted by Internal Audit;
- (c) Retain independent with the Accounting Officer, to advise the committee or assist in the conduct of an investigation;
- (d) Seek any information it requires from all employees; and
- (e) Meeting with management external auditors, or outside Council, as necessary.

In terms of paragraph 14(2) (a) of the local government Municipal planning and Performance Management Regulations, 2001, the Municipality must annually appoint and budget for a Performance Audit Committee. Paragraph 14(2) (c) and (i) states that:

- (a) A Municipality may utilize any audit committee established in terms of other applicable legislation as the performance audit committee envisaged in paragraph (a), in which case the provisions of this sub-regulation, read with the necessary changes, apply to such an audit committee..
- (i) A member of the performance audit committee who is not a councilor or an employee of the municipality concerned, may be remunerated taking into account the tariffs determined by the Council in consultation with the Auditor General.

Structure/Composition of the Audit Committee

- The Audit Committee will comprise of at least three persons with appropriate experience, of whom the majority may not be in the employ of the municipality One of the members who is not in the employ of the municipality,
- The non-officials members shall serve the Audit Committee for a period of a maximum of three years from the date on which the non-official member actually assumes duty on the terms and conditions that will be mentioned in the contract.
- The Internal Audit provide a Secretariat services to the Audit Committee. The CAE shall ensure that draft minutes are verified by the chairperson of the committee and circulate the minutes of the Audit Committee to all members within two weeks of the Audit Committee meeting

Findings by the Office of the Auditor General for 2017/18

The Report by the AG on the Audit Report for the Dr JS Moroka Local Municipality, 2017/2018, the Auditor General indicates the following as critical to be attended by the municipality towards the clean audit. Only Dr JS Moroka Local Municipality achieve a adverse audit opinion for 2017/2018 financial year. Six matters were raised in the audit report.

The finding includes;

- Property Plant and Equipment.
- Commitments
- Payables
- Receivables
- Unauthorized, Irregular, Fruitless and wasteful expenditure
- Cash Flow Statement

Municipal Public Accounts Services

The Municipality has established the Municipal Public Accounts Committee as section 79 Committee.

Functions of the MPAC

- The MPAC will assist council to hold the executive and municipal entities to account, and ensure the efficient and effective use of municipal resources.
 - The MPAC as the Municipal Structures Act section 79 Committee perform an oversight function on behalf of council and is not a duplication of other committee or that of the independent Audit Committee.
 - The MPAC reports directly to council through the speaker of the council and interfaces with other committees of council through the speaker, where relevant.
 - The MPAC will be entitled to request for documents or evidence from accounting officer of a municipality or municipal entity, and can request the support of both the internal and external auditors (advisory) when necessary.
- Primary function of MPAC**
- To recommend or undertake any investigation in its area of responsibility, after reviewing any investigation report already undertaken by the municipality or the Audit Committee.
 - To review and evaluate the content of the annual report and to make recommendations to Council when adopting an oversight, report on the annual report.
 - To examine the financial statements and audit reports of the municipality and also assess the extent to which the Audit Committee and the AG recommendations have been implemented and seek explanation when no or ineffective actions have followed.
 - To promote good governance, transparency and accountability and value for money in the use of municipal resources.

Financial Management & Viability

Financial Plan

The purpose of this document is to outline the plan the Municipality will be striving for sound financial management and viability. The time horizon of the plan is 3 years and the plan consists of a number of strategies to achieve the desired sustainability outcome within this period.

A long term financial plan is essential to ensure that the Dr. JS Moroka Local Municipality continues to implement its mandate effectively without impairing its capital base. Furthermore it will assist the municipality to move towards self-sufficiency in meeting the growing demands of Service Delivery.

The overall goal of the financial plan is to ensure financial sustainability within the constraints of the available resources. The objectives that will be pursued to achieve this goal are:

- Ensure transparency and accountability
- Maintain liquidity within acceptable norms
- Manage revenue, expenditure, assets and liabilities in a responsible manner
- Set appropriate tariffs
- effectively manage the supply chain
- Use appropriate technology to eliminate inefficiencies
- effectively manage cash flow
- Implement effective credit control and debt collection processes
- Seek alternative sources of funding
- Maintain external gearing at responsible levels
- Ensure compliance with the prescripts governing the local government sphere
- Provide excellent and responsive services

Background

Financial Management is the cornerstone of any organization. Controls and policies should be in place to achieve sound financial management. Financial regulations and policies must be reviewed regularly to ensure all legal, internal control and social requirements are met. Implementing the projects included in the multi-year plan will require large capital investment, which in turn requires effective management and control.

Dr. JS Moroka Local Municipality has also recognized that to be successful, the integrated Development Plan must be linked to a prudent multi-year financial plan, which identifies and prioritizes expected needs, as well as includes estimated amounts of funding from various sources.

The Long Term Financial Plan includes the following divisions:

- Financial Strategies overview;
- Financial Strategy Framework;
- Policies to support Financial Management Strategy;
- Revenue Framework and Strategy;
- Expenditure Framework; and
- Capital Requirements;

Financial Framework

The Municipality will implement its Financial Plan within the following framework:

Revenue Adequacy and Certainty

To carry out its functions the Municipality needs to generate adequate sources of revenue from its own operations and intergovernmental transfers. It is furthermore necessary that there is a reasonable degree of certainty with regard to the source, amount and timing of revenue. The DORA provides an indication of the level of transfers that the Municipality can expect from National Government. Revenue forecasts require regular reviews in the light of population

It is important to track the respective sources of revenue received by the municipality as they can be quite different and can vary substantially depending upon the phase that the municipality is in. Knowledge of the sources of funds will illustrate the municipality's position more accurately, its ability to secure loans relative to its income and its borrowing capacity.

Growth rates, especially of indigents that have exceeded economic growth rates in the recent past. This plan is based on the premise that the Municipality's own revenues are a function of the economic activity and the population

The Municipality's efforts in promoting economic development and increasing the number of households that can afford and pay for services is therefore paramount in safeguarding and increasing revenues.

Liquidity position

Cash and cash management is vital for the financial sustainability and good management of the Municipality. In addition to holding a sufficient liquidity reserve to cover working capital and all regulatory provisions, the Municipality will strive towards achieving at least:

The current ratio, which expresses the current assets as a proportion to current liabilities. A current ratio in excess of two to (2:1) is considered to be very healthy

Debtor's turnover ratio, which have a great impact on the liquidity of the municipality. In this case the municipality will have to significantly reduce the period to recover outstanding debts. The reduction of the debtor turn over ration is critical to our improved liquidity. We aim and project to reduce the debtor's turnover ratio (with provisions for bad debt) to less than 50 days in

the short term 2019/20 financial year. Over the medium and long term the Municipality will attempt to decrease it to 45 days. The acceptable norm is 45 days

The collection rate, determines if the Municipality remains a going concern We need to turn the tide and realize an average of 95% collection rate over the medium to long term, whilst exploring other innovative ways to optimize our revenue sources such as, revising the current tariff structures to be cost-reflective:

- Charging other services that have been under-charged or not charged at all such as the usage of municipal facilities
- Investing in new revenue collection technologies such as pre-paid , automated meter management systems and other web based methods, management of losses (water and electricity) etc

Sustainability

- The Municipality will ensure that its operating budget is balanced and cash-funded, it will only allocate realistically collected revenue towards budgeted expenditure.
- Services will be provided at affordable service levels and the full costs of service delivery will be recovered. However, to ensure that poor households have access to basic services; these households will be subsidized through an indigent support subsidy.
- The operating budget will be prepared to generate reasonable and sustainable cash surpluses to assist with the funding of a Capital Replacement Reserve (“CRR”) to finance capex in future.
- The Municipality will endeavor that Net Financial Liabilities (total liabilities less current assets) as a percentage of Total Operating Revenue (capital items excluded) will be on acceptable target levels to ensure long-term financial sustainability

Financial Strategies Overview

The following set out general financial strategies that should guide the municipality, now and in future, in practicing sound financial management. In drafting these strategies, some general considerations need to be taken into account.

- Social responsibilities: All aspects of matters relating to financial matters will take cognizance of Council’s social responsibilities, including transformation and empowerment such as in

Council's Procurement policy.

- **Investor attraction:** Council's main aim is to create a revenue base through the attraction of investors to the Dr. JS Moroka Local Municipality. A very important aspect considered by investors in relocating to an area is the ability of the authorities to demonstrate financial discipline; this includes adherence to statutory requirements, timeous preparation and production of financial statements, adherence to generally accepted accounting practices, and unqualified audit reports. In order for the Finance department to deliver on these strategies, it is Council's intention to clearly define accounting policies and strategies.
- **Financial resources:** The main sources of revenue of the municipality are from grants, property rates, and municipal services such as sewerage, water and electricity. For the financing of Capital expenditure, external loans are envisaged, as well as Public/Private partnerships, whenever the opportunity arises.
- **Operational financing:** Council's policy is to fund operating expenses from normal revenue streams, with short term funding being used as a last resort. Council recognizes the need to maintain a positive cash flow at all times and will be investigating various avenues to improve cash flow. Strong positive cash flow will furthermore result in additional revenue in the form of interest earned.
- **Cost effectiveness:** In any organization, it is necessary to strive for cost effectiveness and municipalities are no different. It is Council's intention to pursue the shared services concept wherever possible. The sharing of services will enable the municipality to minimize total costs on these services.

Financial Strategy Framework

Dr. JS Moroka Local Municipality is a developing and growing municipality striving for service delivery excellence. Therefore many challenges are faced with regards to financial planning, and are ever changing due to the dynamic setting of Local Government.

The priority for the Municipality, from the financial perspective, is to ensure viability and sustainability of the Municipality. The Multi-year financial plan and related strategies will therefore need to address a number of key areas in order to achieve this priority. The key performance arrears required to achieve sound financial management and viability are reflected in the figure below:

Financial Management Strategies

The sustainability and financial wellbeing of the Municipality is linked directly to sound financial management. In this regard the Municipality will continuously:

- Maintain an effective system of expenditure control including procedures for the approval,

authorization and payment of funds;

- Preparation of a risk register and application of risk management and control
- Implement controls, procedures and policies to regulate fair, just and transparent transactions;
- Ensure training and development of Senior Financial employees to comply with the prescribed minimum competency level;
- Implementation of GRAP Standards as gazette by National Treasury
- Prepare Annual Financial Statements timeously and review performance and achievements for past financial years.

Asset Management Strategy

Municipality will ensure that its assets are properly accounted for and safeguarded. Leveraging on the municipal assets will drive the economic growth and sustainable development of the Municipality. In particular:

- The implementation and annual maintenance of an integrated asset management system. This programme will involve the investigation, identification and implementation of a suitable integrated asset management system, the maintenance of this system and the production of a complete asset register in terms of the GRAP 17 (property, plant and equipment), GRAP 102 (intangible assets) and any other GRAP Accounting Standards requirements
- Maintain a system of internal control of assets, and safeguard assets;
- Make budget provision for asset maintenance over their economic life span; and
- Ensure all assets owned and/or controlled by Dr JS Moroka Municipality are covered by Insurance. The review and update of asset and risk insurance procedures and the renewal of the insurance portfolio to cover all the assets. This programme will involve the identification of risks in conjunction with insurers and all heads of departments. It will also include the review of the existing insurance portfolio and the renewal of the insurance policy as per renewal terms.

Operational Financing Strategies

Operational efficiency will be improved by maximizing the collection rates, the following activities are crucial to achieve this strategy:

- Effective cash flow management to ensure continuously a sufficient and sustainable cash position;

- Enhance budgetary controls and financial reporting;
- Improve Supply Chain Management processes to be in line with regulations and legislation at all times; and
- Direct available financial resources towards meeting the projects as identified in the IDP.

Revenue Enhancement Strategy

Revenue enhancement and maintaining of existing revenue sources are essential for sustainable service delivery. Municipal budgets must be appropriately funded to ensure a financial going concern which is capable of providing and extending service delivery. The following actions are considered:

- Foster and enhance supplier relationship management with private and government accounts holders (debtors) and promote culture of payment with these institutions
- Invest surplus cash (including Grant monies) not immediately required at the best available interest rates in approved financial institutions as regulated by MFMA;
- Facilitating a transaction advisors to conduct feasibility study to arrange for public private partnership (PPP) for instance selling of land for commercial development
- Tighten Credit Control measures and Debt Collection targets
- Expanding revenue base through implementation of valuation roll, correcting and restructuring billing system to issue accurate statement of accounts to gain trust in our community, this will encourage consumer willingness to pay. And conduct supplementary valuation roll every year to update or cover the changes or any renovations and additions to properties on our general valuation roll
- Create an environment which enhances growth, development and service delivery, in pursuant of increment of government grants
- Targeting realistic revenue estimates and going back to basics to ensure MTREF are appropriately funded
- Formalisation of informal settlement, which will help the municipality to charge more consumers on property rates

Cost-effective Strategy

The Municipality will align the expenditure budget not only to anticipated revenue growth, but very specifically to anticipated cash collections in an attempt to generate both accounting and cash surpluses. Stringent expenditure management remains an important aim. The municipality will apply the following strategies:

- Strengthen the implementation of circular 82 on austerity measures
- Review all current contracts to determine which services may be insourced
- Put on hold all internal (council) funded projects until there are funds to unleash them
- Demand management to be implemented for all projects prior procurement
- Minimize all overtime and pre-approval should be requirement prior commencement
- To pay creditors within the prescribed 30 days lead time to avoid payment of interests leading wasteful expenditures

Capital Financing Strategy

The following are some of the more significant programmes that have been identified:

- The development and implementation of a debt capacity policy. This policy will take into consideration the down-grading of the country to junk status and ensure that any borrowings taken by the municipality will be done in a responsible manner and that the repayment and servicing of such debt will be affordable.

Policies to Support the Financial Management Strategy

The purpose of Financial Policies is to provide a sound environment to manage the financial affairs of Dr. JS Moroka Local Municipality. The following are key budget related policies:

Tariff Policy

The policy prescribes the procedures for calculating tariffs. This policy is required in terms of Section 74 of the Local Government Municipal Systems Act, Act 32 of 2000;

Rates Policy

The policy provides the framework for the determination of rates, and is required by the Municipal Property Rates Act, Act 6 of 2004;

Municipal Supply Chain Management Policy

This policy is developed in terms of Section 112 of the Municipal Finance Management Act, Act 56 of 2003. The principles of this policy is to give effect to a fair, equitable, transparent, competitive and cost effective system for the procurement of goods and services, the disposing of goods, and the selecting of contractors in the provision of Municipal Services.

Indigent Policy

To provide access to, as well as regulate free basic services to all indigents (Indigents being those households who are unable to access or pay for basic services due to various socio-economic factors).

Budget policy

This policy set out the principles which must be followed in preparing Medium Term Revenue and Expenditure Framework Budgets. It furthermore ensures that the Budgets reflect the strategic outcomes embodied in the IDP, and other related strategies.

Asset Management Policy

The objective of this policy is to prescribe the accounting as well as administrative procedures fixed assets, i.e. property, plant and equipment.

Credit Control and Debt Collection Policy

This policy provides for Credit Control and Debt Collection Procedures and mechanisms to ensure that all consumers pay for the services that are supplied to them.

6.8 Investment Policy

The purpose of this policy is to ensure that cash resources are managed in the most efficient and effective manner possible, and was compiled in accordance with the Municipal Invest Regulation

Revenue Framework and Strategy

In order to serve the Community and to render the services needed, revenue generation is fundamental to financial sustainability of every municipality.

The reality is that we are faced with developmental backlogs and poverty, challenging our revenue generation capacity. The requests always exceed the available funds. This aspect becomes more obvious when compiling the municipality's Annual Budgets.

Municipalities are obliged to table a balanced and credible Budget, based on realistic estimation of revenue that is consistent with their budgetary resources and collection level experienced. Cash flows are expected to remain under pressure for the 2019/20

Financial Year, due to the state of the South Africa's economy, and thus a conservative approach is followed to project expected revenues and cash receipts. The revenue strategy is a function of key components such as:

- Economic development and growth in Siyabuswa
- Ensuring ability to extend new services, and the recovery of costs thereof;
- Revenue enhancement;
- Achievement of above 90% collection level for consumer revenue;
- Electricity tariff increase within the NERSA (National Electrification Regulator of SA) approval
- National Treasury Guidelines; and
- Determining tariff escalation rate by establishing/calculating revenue requirements (i.e. to cover the envisaged expenditure.

Tariff setting

Dr. JS Moroka Local Municipality derives most of its revenue from the provision of services such as electricity, water, refuse removal, and sanitation. A considerable portion of the Revenue is also derived from Property Rates, as well as Government Grants, as well as other minor charges such as traffic fines.

As in the past, increase cost primarily driven by the Consumer Price Index (CPIX), dictates an increase in the tariffs charged to the consumers and the ratepayers. It therefore follows that all the tariffs will have to be increased by a percentage in line with the forecasted CPIX estimated at 5.2% for the 2019/20 Financial year, and respectively for the 2020/21 and 2021/22 year.

It is realized that the ability of the community to pay for services rendered is also under tremendous pressure and that the economic outlook for the near future requires everybody to make sacrifices.

By drastically increasing tariffs on essential commodities, more strain will be added for the already cash-stripped resident households, and an increase beyond the CPIX will only add to bad debt, and a decline in the cash flow.

Strategic financial management

Improve overall financial management of the municipality by developing and implementing appropriate sound and effective financial management controls in order to gain business

confidence for investors and sustainability. The management and the chief financial officer shall improve the audit opinion reflected in the table below:

Strategic Priorities	Baseline FY 2019/20	Timeframe			official
		FY 19/20	FY 20/21	FY 21/22	
Improve Financial Position of the municipality	Review & implement revenue enhancement strategy	Implement	Implement	Implement	CFO
Improve Audit Opinion	Qualified Audit Opinion for the past 4 years	Improve Audit opinion	Improve Audit opinion	Improve Audit opinion	MM CFO All Directors

Linking Budget with IDP

For any organization to succeed in the delivery of its mandate it must have the financial capacity to finance its development objectives. Municipalities are expected to prepare and table a budget which will give effect to its development mandate. Equally a municipality must maintain a fiscal discipline which will serve to ensure that the municipality becomes very stable in terms of its finances. The Mid Term Financial Performance report indicates that the financial performance of the municipality has been unfavorable. The municipality continues to rely on grant funding. Payments level was around 15% by January 2019 due to weak cost recovery systems. Summary of operating result as of February 2019, council ended with a surplus of R 56 712.00 for mid-term year budget performance and assessment ended 28 February 2019. The estimate budget for capital projects are reflected in the tables below:

	2018/19 ADJUSTED BUDGET	2019/2020 DRAFT BUDGET	2020/2021 BUDGET	2021/2022 BUDGET
WATER	70,875,041	54,837,500	58,372,325	63,563,931

Economic Analysis

Local Economic Development

Local Economic Development (LED) is an approach which involves the participation of all role-players this includes inter alia, government, the private sector and local communities to work together to stimulate economic growth within a specific locality. The main objective of LED in the Dr JS Moroka Local Municipality is to ensure sustainable (rural) economic growth within the municipality. In order to achieve this objective the Nkangala District Municipality provided a support to review and develop the LED strategy for Dr JS MLM.

RSA Constitution, Act 108 of 1996	4th Industrial Revolution	Provincial Growth and Development strategy (Objectives)
Sections 152 (c) and 153 (a) of the South African Constitution mandates Local Government to “promote social and economic development” as well as “to structure and manage its administration and budgeting and planning processes to give priority	The fourth industrial revolution, a term coined by Klaus Schwab, founder and executive chairman of the World Economic Forum, describes a world where individuals move between digital domains and offline reality with the use of connected technology to enable and manage their lives. The first industrial revolution changed our lives and economy from an agrarian and handicraft economy to one dominated by industry and machine manufacturing. Oil and electricity facilitated mass production in the second industrial revolution. In the third industrial revolution, information technology was used to automate production. Although each	<ul style="list-style-type: none"> • To redress the injustices created by apartheid which marginalized non-whites from economic mainstream • To grow the Economy of the Province • To bridge the gap that creates economic dualism • To balance growth and development • To improve socio economic conditions of people of Mpumalanga • To accelerate the shift from mineral based to knowledge economy

<p>to the basic needs of the community, and to promote the social and economic development of the community.”</p>	<p>industrial revolution is often considered a separate event, together they can be better understood as a series of events building upon innovations of the previous revolution and leading to more advanced forms of production.</p> <p>Now a Fourth Industrial Revolution is building on the Third, the digital revolution that has been occurring since the middle of the last century. It is characterized by a fusion of technologies that is blurring the lines between the physical, digital, and biological spheres.</p> <p>Leading researchers argue that the fourth industrial revolution will shape the future through its impacts on government and business. People have no control over either technology or the disruption that comes with the fourth industrial revolution. However, we can predict the opportunities that comes with the fourth industrial revolution:</p> <ul style="list-style-type: none"> • Lower barriers between inventors and markets, • More active role for the artificial intelligence (AI), • Integration of different technics and domains (fusion), improved quality of our lives (robotics) and • The connected life (Internet) 	<p>Pillars</p> <ul style="list-style-type: none"> • Job creation • Inclusive and shared growth of a diversified economy • Spatial distribution • Integration of regional economies • Sustainable human development • Environmental sustainability

Economic Development Indicators

	Community Development	Local Economic Development (LED)	Community Economic Development
Market Orientation	No Market orientation-social orientation in marginalised communities	Firs economy orientation (e.g. mainstream, formal markets)	Second economy orientation(e.g. isolated, marginalised & informal markets)
Project ownership	Ownership lies with the founder of the project (e.g. private, state donor, service provider)	Ownership lies with individual businesses that are beneficiaries for the project & with government body applying funds to the project (e.g. Local Government)	Ownership lies with the community with mobilisation through partnerships with NPOs and government bodies)
	Infrastructure and capacity building (e.g. skills development and basic infrastructural development)	Increase competitiveness of and support business environment within the local economy	Increase retention and reinvestment in the local market and to transition and transform second economy with the first.

National Development Plan – 2030 (2010)

South Africa’s first National Planning Commission was set by President Jacob Zuma and inaugurated in May 2010. The objective posed to the National Planning Commission was to take an independent view of South Africa, and from that, derive a Vision and a Plan that is focused on enabling a much better quality of life for all South Africans by 2030. The NDP has identified nine specific and predominant challenges;

The strategic objectives may be summarized as follows:

- Attempt, as far as possible, to reduce economic disparities between regions, address the needs of both the first and second economies, and narrow the gap between them.
- Pay particular attention to the needs of those regions which are lagging behind the national norms.
- Enhance current regional strengths and lead sectors of the economy.
- Promote sustainable economic growth and employment in provinces and municipalities.

- Build regional competitive capabilities and firm-level support measures.
- Enhance regional performance in attracting foreign direct investment.

Nkangala District Municipality LED Strategy, 2015

The principal goal of this Strategy is to improve the quality of life in the district through pro-poor economic growth that creates high quality jobs, generates wealth and investment, and helps ensure the district's long term fiscal health. The proposed strategic direction and actions will enhance the competitive advantage of individuals, households, business and the district as whole in an ever changing global economic landscape.

Nkangala District Municipality Spatial Development Framework, 2015

The NDM SDF provides the spatial framework for development in the District. The objectives of the SDF are as follows:

- Manage and use the district's natural and build environment in a sustainable manner
- Accommodate and promote sustainable economic development
- Ensure sustainable human settlements
- Ensure accessibility through the promotion and support of a multi-modal transportation system and network
- Promote and support viable and efficient infrastructure provision and management

In achieving these objectives, strategies were determined. These are:

- To consolidate the development in peri-urban development areas
- To enhance the development potential in the urban development areas
- To promote rural development
- To manage and protect district level open spaces and conservation areas

Nkangala Agri-Park Master Plan

The goal of the project is to develop a Master Agri-Park Business Plan that aligns with the Agri-Park Model that was developed by the Department of Rural Development and Land Reform and the dominant Commodity Value Chains within the District

- To identify the existing agro-processing facilities and farmers within each district municipality and to establish possible linkages.
- To identify three possible agro-processing business opportunities for each Agri-Park.

- To develop an institutional/operational plan for each Agri-Park that indicated how existing farmers will be linked with the Agri-park.
- Review all existing documentation, maps and information.
- To work with the representative of the districts and the CSIR.
- SWOT analysis that includes a legal, environmental, financial and technical analysis.
- Identify current agro-processing initiatives and possible synergies, linkages, and opportunities to buy into existing businesses.
- Do a financial analysis of the proposed agro-business opportunities.
- To conduct a feasibility and viability assessment of the proposed agro-processing facilities.
- Develop an operational plan for the business park.
- Determine the costing of the Agri-park.
- The Agri-Park must maximize the use of existing agro-processing, bulk and logistics infrastructure, including the availability of water, energy and roads.
- The Agri-Park must support growing towns and revitalisation of rural towns in terms of high economic growth, high population growth, and promote rural urban linkages

Challenges to Local economic development

- The scarcity of land for agricultural activities poses a serious threat to the future of emerging farmers and food security.
- Lack of implementation of LED projects due financial constrain
- Land claims and state land which are not yet release
- Water shortage is a critical challenge for local farmers

Structures that represents SMMEs, NGOs, Cooperatives and other external stakeholders within the Municipality

- **LED Forum** which was launched in 2017 and seats once in quarter 4 times a years, chairperson is the Executive mayor and Mr Mashiloane their both co-sharing the forum
 - The forum is constituted by all stakeholders e.g government departments, business forums, NGOs, NPOs, Mines ect

- **LTO** is the other platform for external stakeholder within the municipality that's addresses issues of Tourism development within Dr JS Moroka Municipality
 - Local Tourism Organization also form part of the Nkangala Region Tourism Organising
- **Mining forum** it's also a platform for local people to address issues of Local Economic Development and SLP matters
- **Cooperative committee** gives opportunity to local farmers, SMMEs, manufacturing coops to meet and exchange ideas.
- **Business Forum** looks after the interest of all the businesses within the municipality e.g how SMMEs benefits within the Municipality and private sector.

The municipality is also working with SEDA, Mines, DEDET, and Department of Agriculture, SANRAL for SMMEs and Cooperative development and addressing unemployment facing by the municipality

LED Projects

Community Works Programme (CWP)

- The CWP is an opportunity for unemployed and destitute families who are actively looking for employment, and poverty alleviation opportunities. The programme is implemented by COGTA, and it has given opportunity to 1572 people. The programme also offers skills development to the beneficiaries.
- The programme was introduced in 2010 and it's currently covering 20 Wards within the Municipality.
- The current budget R18 279, 080 for stipends, skills development and equipment's.

Expanded Public Works Programme

- The EPWP is nationwide programme covering all spheres of government , within the Municipality we have EPWP unit that handles all matters of EPWP

SMMEs development

- The programme is been offered by DTI, NDM and Department of Economic Development.
- SANRAL offers opportunities to SMMEs in a form of skill development and training were needed.

SANRAL Projects

- Construction and Maintenance of R573 Road
- Skills development and SMMEs support through PLC

SLP Projects

- SMMEs development
- Skills development
- Social cohesion

Long- term proposed investment plan

- The municipality is a process of formulating investment strategy which will incorporate LED strategy and unlock potential investors and create conducive economy, job opportunities and attract private investment.
- Municipality has reviewed approved and adopted its five year LED strategy with resolution no **R140.06.2017ND** it was done with the assistant of NDM

Sector and Opportunity Analysis

Dr JS Moroka local Municipality ability to develop the local economy and improve the socio-economic conditions of residents within the municipality.

Economic Sectors

Agriculture

The agricultural sector was estimated to have contributed approximately 1.7% to the total GVA for Dr JS Moroka Local Municipality whilst contributing 4.0% to the total formal employment for the local municipality. This was mainly attributed to the fact that many of the residents in Dr JS Moroka Local Municipality view agriculture as one of the main economic sector in the local municipality, although majority famers are subsistence farmers and small scale farmers. This means that whilst visually or on the ground agriculture may appear to be significant, the monetary contribution made by this sector has been less significant. It should also be noted that the necessary enabling environment to support agricultural activities such as an abattoir, crop faming, etc are not found within the boundaries of the Dr. JS Moroka Local Municipality. However project such as Fresh produce market, Agri-hub and Agri-Park will go long in addressing the backlog in Agri sector of Dr JS Moroka Local Municipality.

Manufacturing

The manufacturing sector within the Dr JSMLM is estimated to have contributed only 5.0% towards Dr JS Moroka LM's GDP and 4.0% towards total employment. Given the high level of potential for mining within the local municipality and the number of products required by this sector, it is disappointing to note that the manufacturing sector contributes insignificantly towards the local economy. The opportunity exist to explore the sector and maximise on job opportunities in order to reduce unemployment experienced by young people of Dr JS MLM.

Construction

The construction sector contributed approximately 10.0% towards the local economy and 4. % towards the local employment within Dr JS Moroka LM. The construction sector experienced significant economic growth within the local municipality given the fact that the local municipality experienced significant infrastructural spending, support by the infrastructure projects from Nkangala District Municipality including Expanded Public Works Programmes.

Trade

The trade sector for the Dr JS Moroka LM contributed approximately 23.4% towards the local economy and 17.8% towards total employment within the local municipality. This sector has experience a decline in comparing with 2011 survey wherein the trade sector experience 27.7% growth. The trade sector is a demand derived sector and is influenced mainly by the levels of income of households as well as the success of other economic sectors within the local economy

Transport and Communication

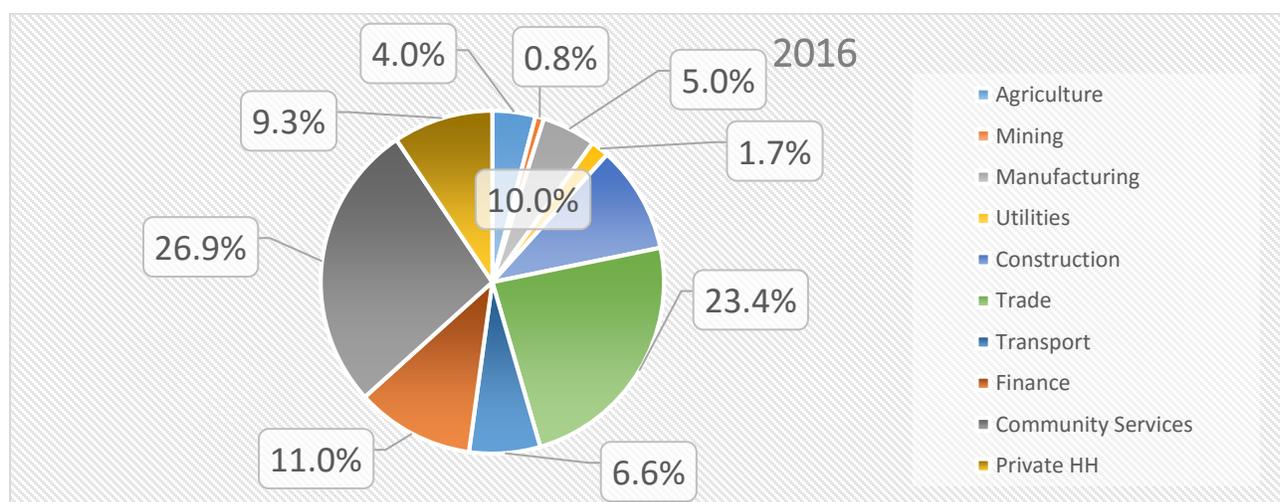

The transport sector contributed an estimated 6.6% towards the local economy whilst contributing only 1.3% towards total employment within the local municipality. This sector has seen significant increases within this sector over the 2011– 2016 period. Besides transportation, communication is also a very important component to enable economic development within the Dr JS Moroka LM. It is believed that most areas have access to communication. The 2017 project of laying of high capacity cables to increase the internet capacity will go long way in addressing communication challenges experience in the ICT sector.

Finance

The finance sector plays a significant role within the local municipality as it contributes an estimated 11.0% towards the local economy and 7.4% towards total employment within the local municipality.

Community Service

The services sector contributed most significantly towards the local municipality GVA and employment with 26.6%. Majority of population in Dr. JS Moroka Local municipality are employed by government either National, Provincial or Local government.

Source: 2016 Community Survey

Tourism

The tourism sector in the Dr JS Moroka Local Municipality is not completely developed. It is also a home of Dr Esther Mahlangu who is world known for her Ndebele Art painting and craft. From Mkhomo and Mdala feasibility study and Mdala Integrated Master Plan which was developed by IDC and Mpumalanga Tourism and Parks – the focus is only on Mkhombo and Mdala Nature Reserves notwithstanding the fact that Dr JS Moroka Local Municipality has abundant cultural heritage, artifacts and history that can be shared with the outside world. Whilst the tourism facilities in Dr. JS Moroka Local Municipality are limited and it should be noted that the local municipality presents beautiful landscape to established facilities such as Game parks and

recreational amenities that can be used as a leverage to further develop the tourism facilities in Dr JS Moroka Local Municipality.

Dr JS Moroka Local Municipality had a total tourism spending of R 134 million in 2014 with an average annual growth rate of 3.6% since 2004 (R 94.6 million). Nkangala District Municipality had a total tourism spending of R 3.81 billion in 2014 and an average annual growth rate of 11.5% over the period. Total spending in Mpumalanga Province increased from R 7.21 billion in 2004 to R 19.2 billion in 2014 at an average annual rate of 10.3%. South Africa as whole had an average annual rate of 8.6% and increased from R 105 billion in 2004 to R 239 billion in 2014.

Given the existence of a number of well-established tourism facilities in areas surrounding the Dr JS Moroka LM, it is believed that the potential markets that the Dr JS Moroka LM should focus upon are:

- Business tourism
- Gateway development
- Historical and cultural tourism
- Domestic tourism (middle to low income domestic tourists)

Summary of opportunities identified for the tourism sector

- Investigate the feasibility of routes and anchor projects identified previously
- Promote and support arts and culture
- Establish franchise programme
- Improve information dissemination
- Recreational Park
- Tap into domestic market
- Develop breakaway packages
- Establish tourism facilities along the Moloto Corridor
- Assist in grading tourism facilities
- Increase prominence of mining tours
- Decrease regulatory constraints on tourism development where possible
- Venues for events
- Marketing and promoting real villages as tourism attractions
- Optimise usage of stadiums.

FINAL IDP REVIEW 2019/2020 FY

National, Provincial and district alignment	Baseline	Performance Objective	strategies	Proposed project and activities
Skills development to empower previously disadvantaged local community	Revamp industrial park with the assistant of MEGA	To develop and create conducive environment for economic growth	Revamp existing industrial parks and developing skills to manage and market it	Monitor the rehabilitation process
SMMEs development Provide comprehensive support to cooperative and SMMEs	Job opportunities	To develop and create conducive environment for economic growth	Develop strong SMMEs sector	Monitor the implementation of all SLP from mines and SANRAL PLC guideline
Strengthen local economies, create jobs and promote placements	Municipal has MOU with SEDA, ABSA, Sepflour mine, and working relationship with DEDT, NYDA, Vergenoeg mine, department of Agriculture and other stakeholders	To develop and create conducive environment for economic growth	Facilitate investment in our various nodal points	Facilitate the development of emerging farmers
Programme of the National provincial and Local government in order to promote job creation	Mpumalanga vision 2030 formulated a development rationale for future economic growth revolving around key drivers	To develop and create conducive environment for economic growth	Promote agriculture within the municipality	Facilitate implementation of community works programme and EPWP
Implement enterprise development in partnership with private sector		To develop and create conducive environment for economic growth	Promote	Facilitate the development of academy with existing FETs and Universities
Support to emerging and existing SMMEs and cooperatives in order to contribute to job creation		To develop and create conducive environment for economic growth	Market Agri hub and cooperatives	Partner sector departments and development agencies to improve the capacity of SMMEs Business development show
Upgrade tourism infrastructure and route	Enterprise development	To develop and create conducive environment for economic growth	Promote strong tourism sector	Work with MTPA, DEDT, LTO to promote local tourism products
Establish strong Agriculture	Market local products Promote strong tourism sector,	To develop and create conducive environment for economic growth	Use the Agri-hub to market local farmers	Promote agriculture with Department of Agriculture and mines
Biogas	Green energy	To develop and create conducive environment for economic growth	Create strong SMMEs sector	Municipality has MOU with Ibert for build construction of Biogas plant

Road Infrastructure

Introduction

Roads Infrastructure is an essential prerequisite of social and economic growth in any country as it serves as a mode of travel between any two destinations, The main modes of travel within the jurisdiction of Dr J.S Moroka local municipality which can accelerate the aforementioned factors are R568 (Kwa-Mhlanga to Mkhombo dam road) and R573 (Moloto road) which link DRJSMLM to two provinces namely Gauteng and Limpopo, the road is currently being upgraded by the South African National Roads Agency Limited (SANRAL) as it best known for its high accidents rate.

The municipality considers the ITP (Integrated Transport Plan) which was prepared in terms of the provisions of the National Land Transport Act (NLTA) Act5 of 2009, for a period of five years 2014/15 to 2018/2019. The ITP serves to provide overall guidance on transport service delivery in the municipality through identifying gaps in the transport systems and formulating systematic interventions to address the gaps. The ITP will also provide the transport-related inputs into the municipality's Integrated Development Plan (IDP) which is the primary planning and budgeting tool to realize the municipality's vision.

Background

There is currently no road network asset management system in the municipality, which is essential for guiding the municipality on the prioritization of road network development and maintenance. The road network asset management system would also help to ensure efficient use of resources, especially in the case of the Dr JS Moroka municipality where resource limitations are one of the primary concerns. In the absence of a road network asset management system, therefore, the municipality does not have a systematic method to help to develop and maintain its road network.

The Municipality has a total length of approximately 2720Km of internal gravel roads. 125 km is bus and taxi roads which belong to the municipality and 85km belongs to the Department of Public Works Roads & Transport (DPWRT). Approximately 500Km is maintained annually (Includes Gravelling and Blading). The municipality is however unable to maintain all of its gravel roads due to insufficient resources.

102.4 km of the total 210 km of bus and taxi road is paved which leaves 51.2% backlog. The Municipality has thus far been able to increase number of paved bus and taxi routes from 36% to 48.8% since 2011 which is 12.8% backlog reduction to-date. Total surfaced road inclusive of bus routes and other internal roads stands at 189.1 Km. Contributing factors in terms of backlog include inter alia projects implemented till 2017/18 financial year in the following villages most of which have their first phases complete while others have a full project completed:

- Marapyane bus and taxi route
- Marapyane Clinic route (First phase)
- Katjibane bus and taxi route
- Makometsane
- Siyabuswa C
- Maphotla

The following projects are anticipated to be implemented within the 5 year period ending in 2020/21:

- Upgrading of Lefisoane bus and taxi routes
- Upgrading of Masobe internal route
- Upgrading of Digwale bus and taxi routes
- Upgrading of Maphanga internal route
- Construction of pedestrian walk at Mogononong bridge
- Rehabilitation of a river bridge at Ga-Makola
- Upgrading of Ramonanabela internal route
- Upgrading of Leseleseleng Bus route

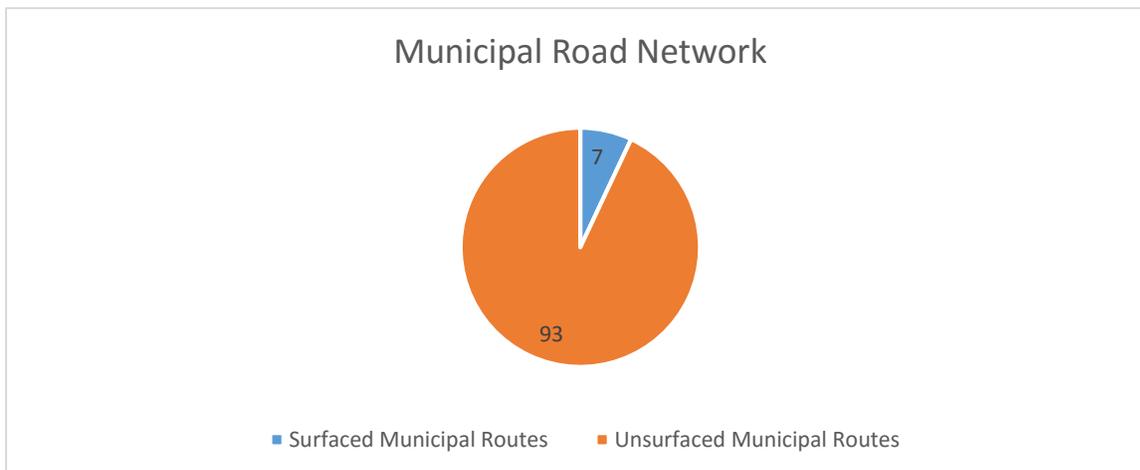

The maintenance of roads and storm-water infrastructures is necessary in order to facilitate economic growth, social development, promote traffic safety, improve traffic flow and alleviate/minimize the extent of the damage that is normally caused by heavy rain especially in the summer and spring season.

Maintenance of surfaced roads is done through internal municipal resource by patching of potholes and manual booming. A network of stone pitched, concrete and earth channels are mostly situated in Mbibane and Mdutjana unit area since the areas are sloppy while Mathanjana

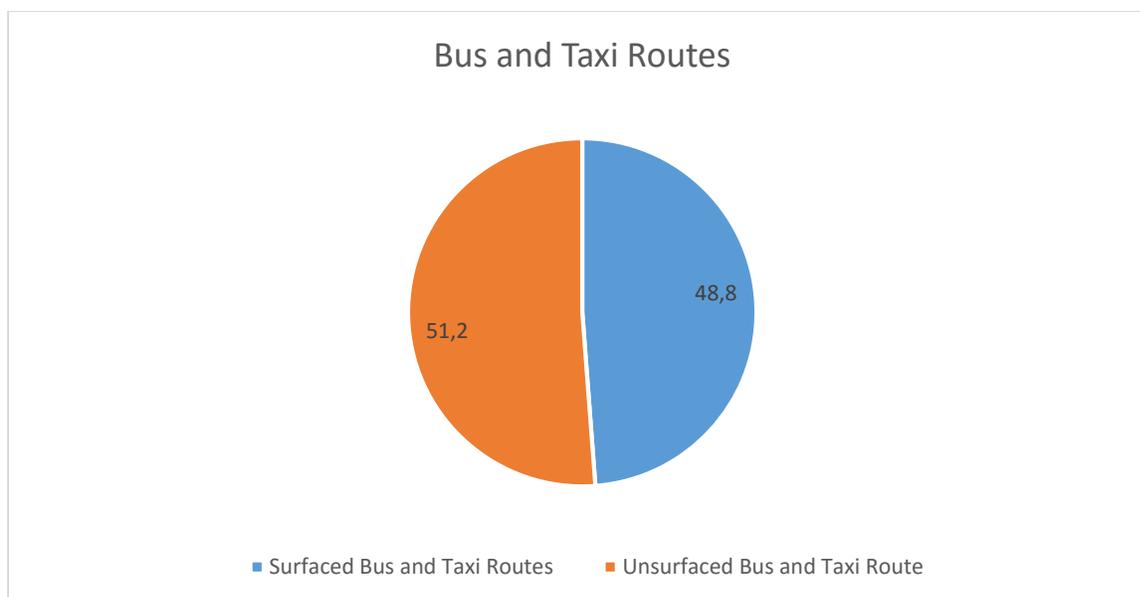

unit area is mostly flat; soil types within each magisterial unit take precedence. These infrastructures are maintained through municipal general workers who still need to be beefed up. Training and skills transfers are required to effectively maintain the municipal roads and stormwater infrastructure.

Surfaced Municipal Routes	Unsurfaced Municipal Routes	Total Municipal Network
189.1 km	2530.9 km	2720 km
7%	93%	100%

Surfaced Bus and Taxi routes	Unsurfaced Bus and Taxi routes	Total Bus and Taxi routes
102.4 km	107.6 km	210 km
48.8%	51.2%	100%

District and Provincial Roads

District and Provincial roads are those roads that fall under the jurisdiction of the Mpumalanga Provincial Department of Roads, Transport and Public Works (“the Department”). The Department is therefore expected to undertake all roads related construction and routine maintenance on these roads. Some of these roads are regarded as linking roads that are so critical that they require undivided attention. These include inter alia the following:

- Ga-Morwe to Makometsane
- Ramokgeletsane to Senotlelo
- Nokaneng to Katjibane connecting Chester(Limpopo)
- Seabe connecting Bingley (Limpopo)
- Marapyane connecting Tuinplaas (Limpopo)
- Ramokgeletsane connecting Matlerekeng (Limpopo)
- Senotlelo to Lefisoane
- Mamethlake connecting Rusteenter (Gauteng)

The Municipality has constantly engaged the Department of Public Works and Transport on these roads about their urgent need for upgrading to surface. The challenge remains in the borders of

the neighbouring province which need engagement with the Limpopo province (Seabe to Bingley, Katjibane to Chester, Mametlhake to Rust de Venter and Marapyane to Tuinplaas).

The Municipality has approached the Public Works to partner with a view to reduce the roads backlog, by combining resources to gradually move away from road re-gravelling to road surfacing and also assist each other with potholes patching and roads gravelling. The combination of resources has managed the municipality to upgrade 300m, 600 m and 1km of gravel roads at Libangeni, Loding and Marapyane respectively.

Storm-water Drainage Systems and Sub-Surface Water

Storm water management in the Dr JS Moroka municipality is largely inadequate. While some provincial roads are equipped with storm-water drainage system, this is not the case for most of the road network in Dr JS Moroka. This has over time led to the erosion of the road shoulders and reduction of the life span of the roads. The storm-water drainage system, where available within the villages, are substandard. This is especially evident during rainy seasons wherein the municipality experience water pools in many parts of the municipality, and in turn impeding travel.

Over and above, the Municipality has a responsibility to maintain storm water channels and eradicate sub-surface water affecting residents in a negative way. There has been tremendous challenge in roads with regard to underground water control and eradication which was completed in some villages either in full or in part.

Though the division assists villages which are affected by sub surface water year after year, it has since been established that there is more work to be done in this regard as more residents start to report the problem having seen the success of its remedy by the division.

There is a need to have a proper network to link the storm-water channels to the streams. A detailed **storm-water master plan** need to be compiled to enable the municipality to plan accordingly and realistically.

Some of the under mentioned villages have been assisted partially and still need to be attended to eradicate sub surface water completely.

Underground water

- Makopanong
- Ramokgeletsane
- Maphotla
- Mbhongo
- Mthambothini.
- Gamorwe
- Ga-Phahla

The following Villages have been identified as having storm water drainage systems challenges and thus needing critical and urgent attention:

Storm-water

- Seabe
- Mmaduma
- Matshiding
- Leseleseleng
- Siyabuswa B, C&D
- Ga Morwe
- Loding

There is also a necessity of Pedestrian walkways and scholar bridges along some surfaced roads in various villages of the Municipality to enable residents and scholars to walk safely and parallel to the roads and in crossing rivers during and after heavy storms.

Borrow Pits

Borrow pits are essentially used to obtain various types of soils for use in the construction of new roads or maintaining the existing ones. Roads construction for various layer works in relation to pavement design and construction requires material to be imported from borrow pits having relatively suitable material for those roads. Various villages within the Municipality have various materials from borrow pits which are either still in use or use thereof has been discontinued.

Borrow pits are very hazardous if not properly rehabilitated after use thereof and need to be legislated and/or regulated. The roads construction and routine roads maintenance in the Municipality's area of jurisdiction is done by the Nkangala District Municipality, Dr JS Moroka Municipality and Mpumalanga Provincial Department of Roads, Transport and Public Works. Where borrow pits have not been properly utilized or rehabilitated on completion, it becomes a serious challenge as to where the responsibility lies in terms of non-compliance. This is also due to the fact that there is no specific schedule in terms of borrow pits use including compliance and monitoring. There is a serious need for development of by-laws to control these borrows pits and the need to rehabilitate them to conserve and preserve nature and the environment.

The following tables give an overview of the total kilometres of roads maintained and new roads tarred.

Financial year	Total km tarred roads (Internal and Bus Routes)	Km of new tar roads	Km of existing tar roads reselling	Km tar roads maintained (Patching)
2013/14	178.9 km	0 km	0 km	1316.8 m ²
2014/15	178.9 km	0 km	0 km	900.8 m ²
2015/16	180 km	1.1 km	0 km	792.8 m ²
2016/17	180.8 km	0.8 km	1.0 km	824 m ²
2017/18	189.1 km	8.3 km	1.1 km	1224m ²

The table below shows the costs involved for the maintenance and construction of roads within the municipal area:

Financial year	New & Replacements	Resealed	Maintained
2013/14	R 0	R0	R 6 000 000
2014/15	R 0	R0	R 6 800 000
2015/16	R 4 400 000.00	R 2 206 454.04	R 7 000 000
2016/17	R 7 481 688.00	R 601 954.75	R 13 500 000
2017/18	R 11 851 832.00	R 1 717 713.00	R 13 500 000

The table below shows the total kilometres of storm-water maintained and upgraded as well as the kilometres of new storm-water pipes installed.

Financial year	Total km Storm-water measures	Km new storm-water measures	Km storm-water Measures upgraded	Km storm-water Measures maintained
2013/14	90 km	0 km	0 km	4.2 km
2014/15	94.6 km	4.6 km	0 km	6.5 km
2015/16	99.5 km	8.4 km	0 km	7.0 km

2016/17	99.5 km	0	0 km	6.2 km
2017/18	100.35 km	0.85 km	0 km	6.3 km

Objective	Strategies
<ul style="list-style-type: none"> • To provide accessible, reliable and safe surfaced roads with adequate storm-water drainage • To provide road signage on all roads in the Municipal area • construct walkways along major surfaced roads • Provision of routine roads maintenance on all internal gravel streets and bus & taxi routes • Provision of clean, healthy and safe roads for road users, pedestrians and the communities • To ensure implementation of action plans agreed upon between the Municipality and other stake holders such as the Provincial Department of roads and Transport is adhered to. • To maintain storm-water infrastructure 	<ul style="list-style-type: none"> • Continuous maintenance of gravelled roads using municipal machineries. • Control of storm-water by shifting focus from surfacing of roads to construction of storm-water drainage systems. • Using of SMME's to reduce storm-water drainage systems backlogs. • Maintaining of Storm-water drainage systems using municipal maintenance team. • Patching of surfaced roads using internal resources. • Road markings for visibility on our roads. • Installation & maintenance of road signage for road safety. • Controlling of sub surface water using general assistants • Implementation of Roads and Storm-water Master Plan for the whole of Dr JS Moroka Municipality. • Provision of training for operators to enhance their skills. • Upgrading of gravel roads into surfaced roads using internal municipal resources only.

Spatial Development Framework

In terms of Section 20 of SPLUMA, the SDF is still recognised as part of the IDP, which in terms of the MSA has a varied set of criteria for what an SDF should entail. There is also a relationship to other aspects of municipal development planning (e.g. infrastructure planning and investment, capital investment, budget alignment) that should be considered when developing an SDF in a municipality.

The SDF is the lever which has the greatest potential as a planning tool to realize spatial transformation. It is the SDF that interprets the principles into a spatial future/s for the Municipality. In terms of municipal planning, stronger spatial guidance as part of the IDP process could lead to more strategic investment and implementation in the municipal space. In order for the potential role of the SDF to be realised, the process issues and institutional arrangement of the planning process must not be disregarded.

The SDF is a multidimensional tool that requires constant checks and balances to actively ensure that issues of spatial transformation are being addressed.

Development Objectives/ Principles

It is conceded that in the analysis of the space economy of Dr. JS Moroka Local Municipality, there are no significant economic activities at this stage, and a plethora of people living below the minimum living level. The limited access to the municipal area contributes to the rural character of, and limits the economic potential of the study area.

However, there are areas that are developing naturally along movement lines, and major intersections along these lines need to be prioritized for economic development. Furthermore, the high agricultural potential in the area could be used as leverage for economic development. Emphasis in the study area should thus be given to the provision of basic services and more focused economic development/ nodal development.

The main objective of the reviewed Dr JS Moroka SDF is to direct, organize and manage investment, development and growth in the municipal area. The next section will provide the policy and guidelines for achieving the objectives and strategies as indicated in Chapter 2, and in line with the SPLUMA development principles of:

- Spatial Justice
- Spatial Sustainability
- Spatial Efficiency
- Spatial Resilience, and
- Good Administration

These guidelines and policies provide the point of departure for the day to day decision-making within the LM, and the basis for the management of public spending. The final section of this

report will also address the required institutional arrangement of the Local Municipality to affect the interventions mentioned in this document.

a) Movement (Facilitating local and regional linkages)

The movement system is one of the most important structuring elements within the Municipality. The movement system must directly link strong high-intensity mixed use nodes and high density developments within the LM with one another, as well as facilitate linkages with nearby higher order nodes, especially the City of Tshwane to the west. In this way, local communities are linked to areas of economic opportunity, employment opportunities, and also higher order goods and services not available locally [*Spatial Justice*].

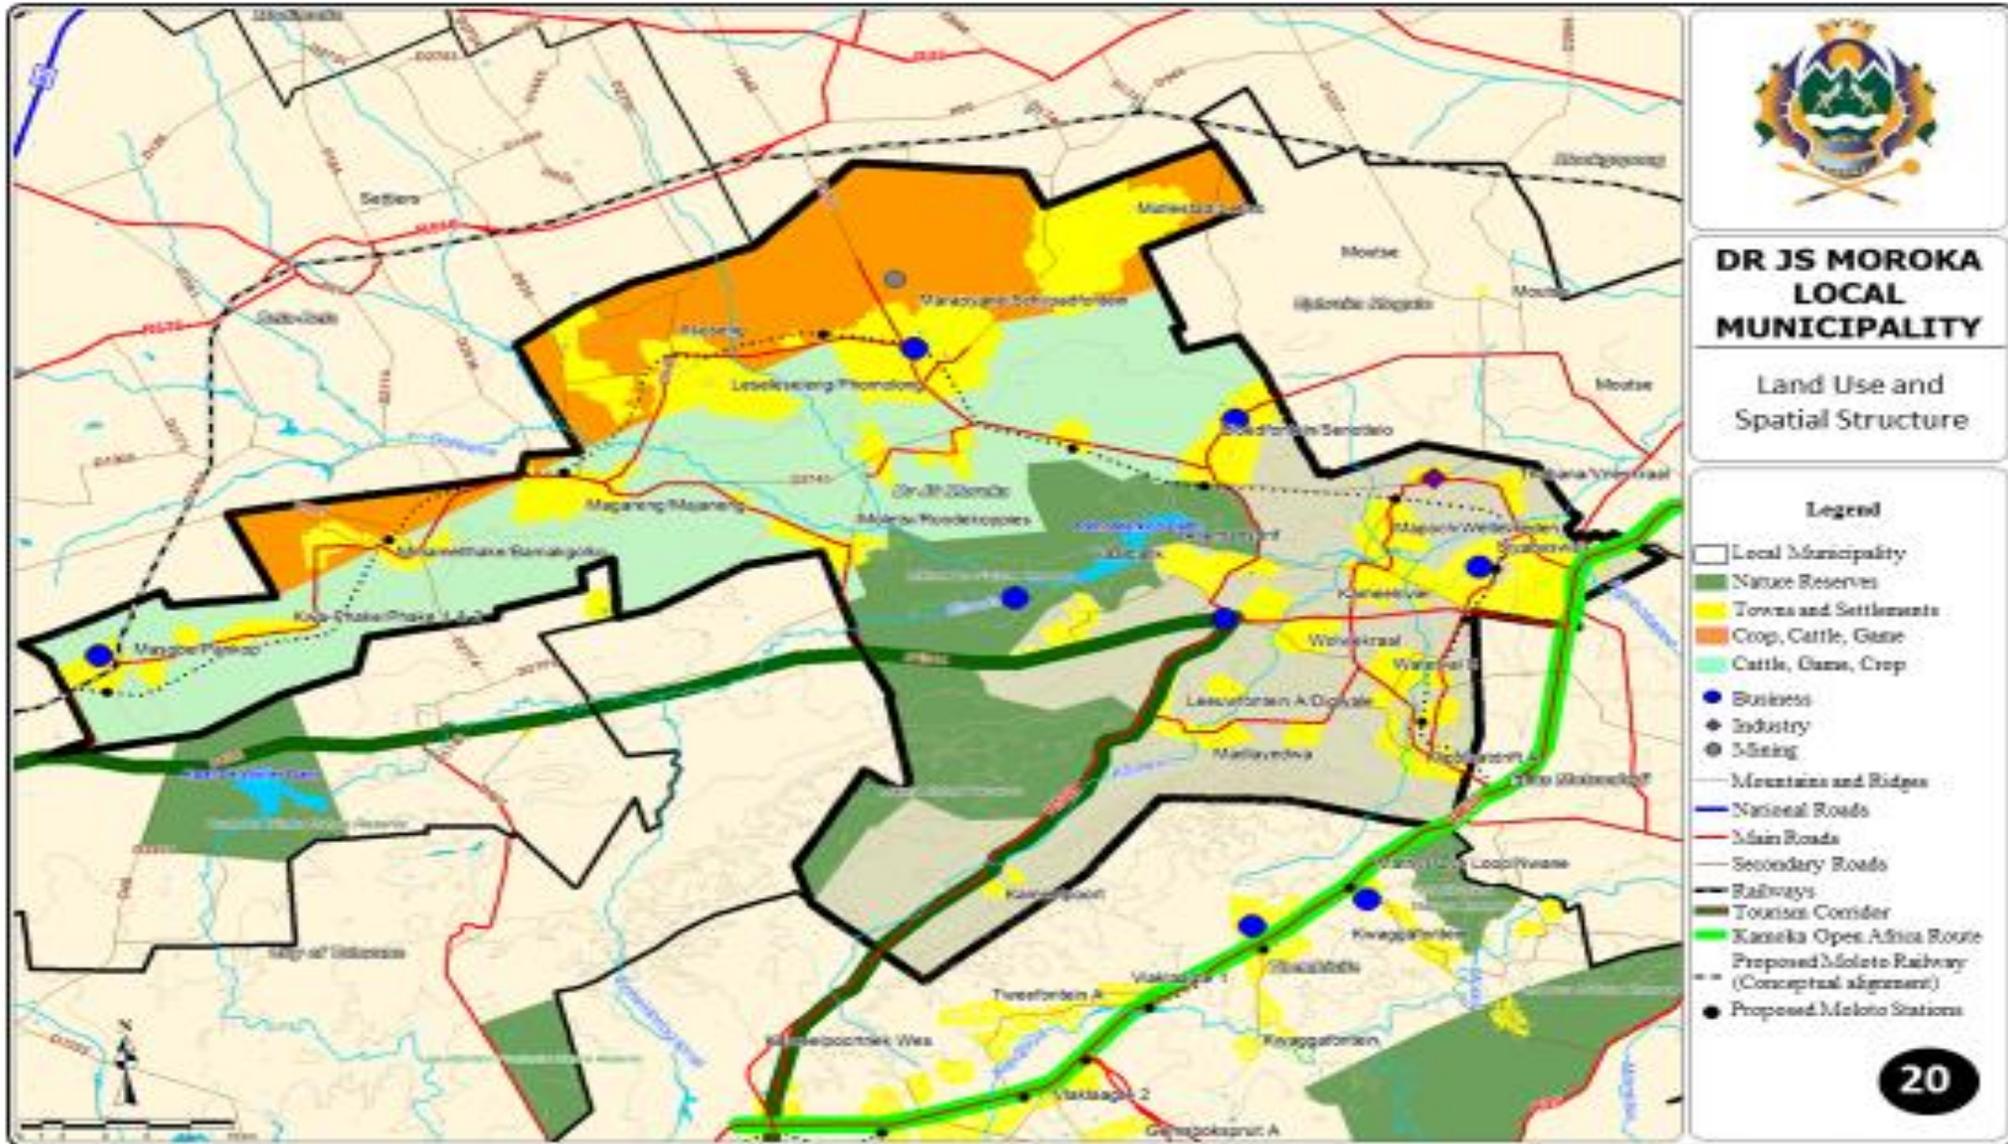

b) Nodal Development (Ensure viable strong activity nodes)

Nodal development (the intensification of uses), together with the consolidation of residential settlements (see principle(c))will ensure that the municipal spatial structure is sufficiently robust to allow opportunity areas to adapt to market and demographic changes [*Spatial Resilience*]. In general, nodes have the following characteristics:

- Clustering of business activities;
- Accommodates a mix of land uses including community facilities;
- High accessibility.

Activity nodes should ideally be established at highly accessible locations, including higher order road intersections within larger settlements, as well as adjacent to public transport stations (including the proposed Moloto rail stations within the DRJSMLM).

In managing and even developing new nodes, it needs to be kept in mind that the catchment areas and the income levels of an area determine the necessary/ ideal size of the node, and that the density and intensity of the node is a function of the mixture of land use activities, and the available transport infrastructure.

c) Settlements (Create sustainable human settlements)

Increased residential densities support the vibrancy of nodes and the viability of public transport, while protecting surrounding high potential agricultural land. Residential development should thus be consolidated around activity nodes, contributing towards an efficient municipal spatial structure. Also, settlements should offer residents a high quality of life by also including social facilities, business activities, open space and adequate engineering infrastructure [*Spatial Sustainability*].

The benefits of increased residential density are:

- Make more efficient use of existing infrastructure and serviced land;
- A reduced need for the development of Greenfields sites/reduced urban sprawl;
- Reduced need for investment in new infrastructure;
- Better access to existing services and facilities; and
- More sustainable commuting patterns.

As part of this objective/ principle, land claims and the challenges related to land tenure have to be addressed as a matter of urgency.

d) Environment (Support environmental management, tourism and recreational activities)

Conserve and enhance the Municipality's existing physical and natural resources, and link them with the regional open space system. Part of this principle is the development of an open space system that will complement nodal development in settlements. In many cases this will require the rehabilitation of degraded vacant land into public amenities. The open space system in Dr JS Moroka should be:

- Able to meet local recreational needs;
- Safe;
- Accessible to all; and
- Versatile.

[*Spatial Justice*]

e) Corridor Development

Development corridors are linear tracts of land that contain a variety of transportation modes, especially public transport, and a variety of dense land uses. The development of corridors is one of the structuring elements to be used in structuring the Dr JS Moroka Municipality into a robust and efficient growth area [*Spatial Efficiency and –Resilience*].

The development of corridors should realize the following:

- Access to opportunities to large number of communities;
- Support more efficient service provision;
- Availability of adequate infrastructure;
- Realize economies of scale; and
- Contribute to growth and development of the Municipality.

The Dr J.S. Moroka LM SDF, in essence, promotes the growth of settlements towards identified corridors.

f) Infrastructure Provision (Support efficient infrastructure provision)

The provision of bulk infrastructure should address the basic needs of all communities [*Spatial Justice*]. Also, the ability of the availability of bulk infrastructure to influence private investment should be optimally utilised by servicing activity nodes and SDAs as a priority [*Spatial Efficiency*].

In the assessment of proposed development applications, bulk capacity should be assessed in relation to the proposal, and if the capacity is exceeded then the proposal should not be approved by the Municipality.

i) Agriculture and Agro-Industries (Support local economic development)

The agricultural potential of the municipal area and its proximity to major markets in Gauteng offer opportunities for the export of value-added goods. Formal and informal small, micro and medium enterprises should be supported [*Good Administration*].

g) Community Facilities (Establish Thusong Centres)

Social infrastructure such as clinics, sports facilities, pay-points, police stations etc should be provided at close proximity in strategic locations (preferably at Multi Purpose Community Centres/ Thusong Centres). This will ensure higher accessibility and more efficient service, and facilitate more efficient and optimum use of existing infrastructure [*Spatial Resilience*].

h) Holistic Planning

A holistic integrated approach in the overall development of Dr. JS Moroka should be followed. This will allow the Local Municipality to better service its residents and those who come to visit [*Good Administration*].

Land Use Schemes

The amendment of the Land Use Management Scheme which is proposed in the section above to align it with SPLUMA should include the following provisions:

- Applications that fall within the detail precinct plan areas should be fast tracked by the municipality;
- Applications that fall within the Strategic Development Areas should be fast tracked by the municipality
- The Register of Land Use Rights of the existing LUMS should be reviewed to include all obtainable PTO's and any other land rights which have been issued;
- The Scheme Maps should further be amended to reflect the data contained within the Register of Land Use Rights.
- The Scheme Maps should also outline the boundaries of the precinct plan areas and SDA's where shortened land use procedures area applicable.

Alignment with SPLUMA Principles

The Spatial Development Framework for the Dr JS Moroka Local Municipality translates the Integrated Development Plan (IDP) of the Municipality into spatial principles and strategies and thus constitutes the spatial implementation of the IDP. The SDF focuses on consolidating the fragmented spatial structure of the Municipality around the Moloto Rail Corridor and the provincial road network (Spatial Efficiency).

It also promotes the establishment of a clear nodal hierarchy, ensuring that all communities have equitable access to economic, cultural, recreational and educational activities and opportunities (Spatial Justice).

It also creates a spatially based policy framework whereby change, needs and growth in the municipal area is to be managed positively to the benefit of everyone (Spatial Resilience). It focuses on how land should be used within the broader context of protecting the existing values of the broader Nkangala District area i.e. ecological corridor, tourism destination, rich historical and cultural area.

It also aims to improve the functioning of the rural and natural environmental systems and assists in the identification of local opportunities for future urban/ rural development, and natural environmental conservation, and makes recommendations as to where and how development of the open space system should be managed and enhanced (Spatial and Environmental Sustainability).

Apart from the above it also establishes strategies and policies to achieve the desired spatial form i.e. movement and linkage systems, open space system, activity system, overall land use pattern etc.

The reviewed DRJSMLM Spatial Development Framework also guides and informs the following:

- Direction of growth;
- Major movement routes;
- Special Development Areas for targeted investment;
- Conservation of the natural and built environment;
- Areas in which the intensity of land development could either be increased or decreased;
- Areas in which particular types of land use should be encouraged and others where it should be discouraged;
- Is a strategic, indicative and flexible tool to guide planning and decisions on land development;
- Develops an approach to the development of the area which is clear enough to allow decision-makers to deal with the unexpected;
- Develops a spatial logic which could guide private sector investments;
- Ensures the social, economic and environmental sustainability of the area; and
- Identifies spatial priorities and places that must be prioritised in the development and upgrading process.

The plan involves and impacts on the activities of a wide range of development disciplines and associated sectoral policies and plans. These include the following:

- Environmentalists to oversee the protection of the regional open space system and monitoring trends in terms of mining activity;
- Transport planners which have to ensure that services and infrastructure link all the major origins and destinations in the area to one another;
- Civil engineers need to oversee the incremental upgrading of engineering services in priority areas; the servicing of Strategic Development Areas to facilitate new housing development; and the provision of economic infrastructure to ensure economic development;
- Social Services representations need to ensure that sufficient social services are provided, but also that these facilities be efficiently clustered to stimulate the creation of critical mass;
- Economists need to ensure that all the development potential that can be derived from the economic footprint for the area be properly exploited;
- Housing specialists need to ensure that housing projects are developed at the optimum locations as determined from the SDF and that the composition of such projects serves the full spectrum of needs in terms of affordability and tenure requirements.

The successful implementation of the SDF will require the commitment from all the above sections which is in line with the fifth SPLUMA principle: Good Administration.

SDF compliance and sector planning/implementation

- Alignment of sector plans at different stages in the planning process is critical to ensure that spatial visions are aligned and acted upon, but SPLUMA only contains broad provisions regarding alignment between SDFs and sector plans
- SPLUMA has not clarified or simplified the planning process by explicitly stating that municipal planning is a local function and needs to drive the sector plans of all spheres of government. Mutual alignment is required which implies a “back and forth” consultation and negotiation process during all planning stages
- Concern has been expressed regarding SPLUMA not obliging national and provincial spheres to share information and align to the municipal SDF process, thus limiting the ability to achieve truly integrated planning between the three spheres of government.

s conceded that in the analysis of the space economy of Dr. JS Moroka Local Municipality, there are no significant economic activities at this stage, and a plethora of people living below the minimum living level. The limited access to the municipal area contributes to the rural character of, and limits the economic potential of the study area.

However, there are areas that are developing naturally along movement lines, and major intersections along these lines need to be prioritized for economic development. Furthermore, the high agricultural potential in the area could be used as leverage for economic development. Emphasis in the study area should thus be given to the provision of basic services and more focused economic development/ nodal development.

Strategic Development Areas (desired spatial form of the municipality)

A Spatial Development Framework (SDF) is not just a spatial plan, but also a tool that should ensure integration of sectoral initiatives. It should construct a new management of infrastructure for existing and future development; ensure policy and institutional instruments to achieve the desired spatial structure, and help to align relevant sectors.

Essentially, Dr. JS Moroka as a whole represents a large “**services priority upgrading area**”, and so development spending should primarily be aimed at providing inhabitants with the constitutionally mandated minimum levels of services and community infrastructure.

Development spending is envisioned to gravitate towards, and along the proposed Moloto Rail Corridor, and other prominent roads within the Municipality towards the core functional urban area at **Siyabuswa**.

With regards to consolidating the short to medium term growth, focusing on nodal development, and the upgrading of engineering services the following towns/ settlements in the LM should especially receive attention:

- Libangeni/
- Siyabuswa/
- Makometsane Four-way Crossing,
- Meetsemadiba/ GaMorwe
- Siyabuswa Four-way crossing and

- Siyabuswa/ Matshiding/
- Ga Phaahlamohlaka Four-way crossing,
- Nokaneng/ Seabe/ Mmametlhake Y-junction.

In essence, the proposed **Moloto Rail Corridor forms the central structuring element** of the SDF for three reasons:

- The corridor holds significant opportunities for both the Nkangala District and Dr. JS Moroka in terms of economic spin-offs from the corridor and tourism potential;
- The Moloto rail offers a means by which to consolidate and integrate existing and new urban developments into a functional whole, capable of stimulating economic development around key selected primary and secondary nodes; and
- If all environmental, technical, and social factors are taken into consideration, the current alignment of the Moloto rail connects the identified nodes in the most direct and shortest possible manner to one another.

Consistent with the SDF for the Nkangala District, the Moloto railway line should thus serve as a Local Activity Spine to the identified nodes and existing settlements. As such, all new growth should be channelled towards and alongside the Moloto Rail Corridor, and other **functionally important roads (R568 and R573)** in the Dr JS Moroka Local Municipality. Applying this approach will also ensure that all the “service priority upgrading areas” as identified by the Nkangala District SDF are functionally integrated.

As **Figure 27.1** indicates, vacant land between Matshiding and Mthambothini and adjoining the proposed Moloto rail corridor (Phase 1) and the R568 and R573, constitute **Strategic Development Areas 1, 2 and 3**. New developments in the LM should firstly be consolidated within these areas to further promote the desired spatial form of the municipal area, and to enhance the viability of the four proposed future railway stations along this strip i.e. Makola, Mogononong, Siyabuswa and Mthambothini.

This approach of consolidated development along the Moloto Rail Corridor also seeks the structural integration of the dispersed urban form via a U-shaped development corridor of connected settlements and activity nodes, with the short to medium term priority area being the eastern extents of the municipal area (SDA1, 2 and 3).

Apart from consolidating the short to medium term growth in the Dr JS Moroka area in these three Strategic Development Areas and focusing on strengthening the first four railway stations in the LM (Makola to Mthambothini), the towns/settlements in the other parts of the Municipality should also receive attention in terms of the consolidation and densification of land uses, provision of community facilities in line with the concept of Thusong Centres and the upgrading of engineering services.

It is furthermore advised that land claims, particularly those that fall within the Urban Development Boundaries of the respective LMs, be resolved as a priority. This is in order to unlock land within the respective Strategic Development Areas for planning and development.

Furthermore, government (national, provincial and local) and parastatal owned land could be used as a growth management tool, because it presents Council with opportunities to implement strategic and catalytic projects. It is thus vital that the identification of such land pockets be prioritised, and that a Plan of Action be tabled for each.

The relationship between an SDF and IDP

The SDF becomes a road map for all infrastructural development; this means that the SDF must inform all infrastructure projects that must be implemented on space. The IDP is the short to medium term implementation tool for the SDF objectives; the relationship is that the SDF portrays all spatial opportunities and areas ear-marked for various developments (including current existing land-uses) wherein stakeholder's participation should occur to give direction to development proposals.

Participation of stakeholders need to take place to determine the need and desirability of projects proposals including the benefits (social and economic) of projects in order to be prioritized in the IDP/Budget participatory processes during the annual reviews of the five year council term. The processes of IDP public participation create a platform where community/public and private projects proposals are drawn in and this must happen at the presence and guidance of the SDF maps/frameworks (development directives maps) i.e. Local spatial frameworks or ward spatial framework which should indicate the current land use and future spatial plans for that specific locality.

Land Use Management (basic guidelines for a land use management system in the municipality)

The DR JS Moroka Municipality adopted its Land Use Management Scheme (LUMS) in 2010. Essentially the LUMS covers the entire municipal area (wall-to-wall) and is mainly used to perform the following functions:

- Assess and verify existing development rights on individual properties in the municipal area;
- Compare existing rights as recorded in the LUMS to potential rights as earmarked in the Spatial Development Framework for any given property under investigation;
- Determine the most appropriate procedure to follow to obtain the rights to be applied for, based on the directives contained in the LUMS.

All areas within DRJSMLM are governed by a wall to wall Land Use Management scheme 2010 prepared in terms of section 18 of the Town planning and Township ordinance 15 of 1986. The Land Use Management Scheme 2010 is used by the municipality as a tool to regulate land uses of the current and proposed development within the jurisdiction of the municipality. A Register of Land Use Rights (REGLUR) further compliments the Land Use Scheme, which is a register of all land use rights on surveyed and some un-surveyed erven.

The Land Use Management Scheme also consists of scheme maps which should be read together with a land use matrix. The land use matrix provides a comparison of the land uses that are permitted in the zones which are illustrated on the scheme maps. The matrix indicates what type of application may be required should the intended or future use not be aligned to the scheme maps.

The Municipality has also embarked in adopting the e-LUMS which is an initiative by the Department of Rural Development and Land Reform and is implemented by Nkangala District Municipality. The e-LUMS allows applicants to submit applications on-line without having to go to the municipality. The program is however, still experiencing challenges that need to be addressed.

Importantly, the planning function for Dr Moroka Local Municipality is vested with the Nkangala District Municipality (as published in the Province of Mpumalanga Provincial Gazette Volume 10 No. 959 date 26 May 2003).

The municipality furthermore, experiences great difficulty in implementing the land use management scheme. This can be attributed to the traditional nature of the former homeland system that needs to be addressed through workshops and community involvement. The current land use management system and its regulations also make the change of land use rights a cumbersome process with a lot of people being stopped at the point of land ownership. The current LUMS only allows the registered owner to apply for a change of land use rights and as stated in the previous section the majority of the land in the municipality is vested with the national or provincial government. Therefore, the occupants of the land cannot apply for a change in land use because they do not have a title deed or deed of grant.

Future Vision for Dr J.S. Moroka

The spatial vision for the Dr JS Moroka Local Municipality evolves around the following key elements:

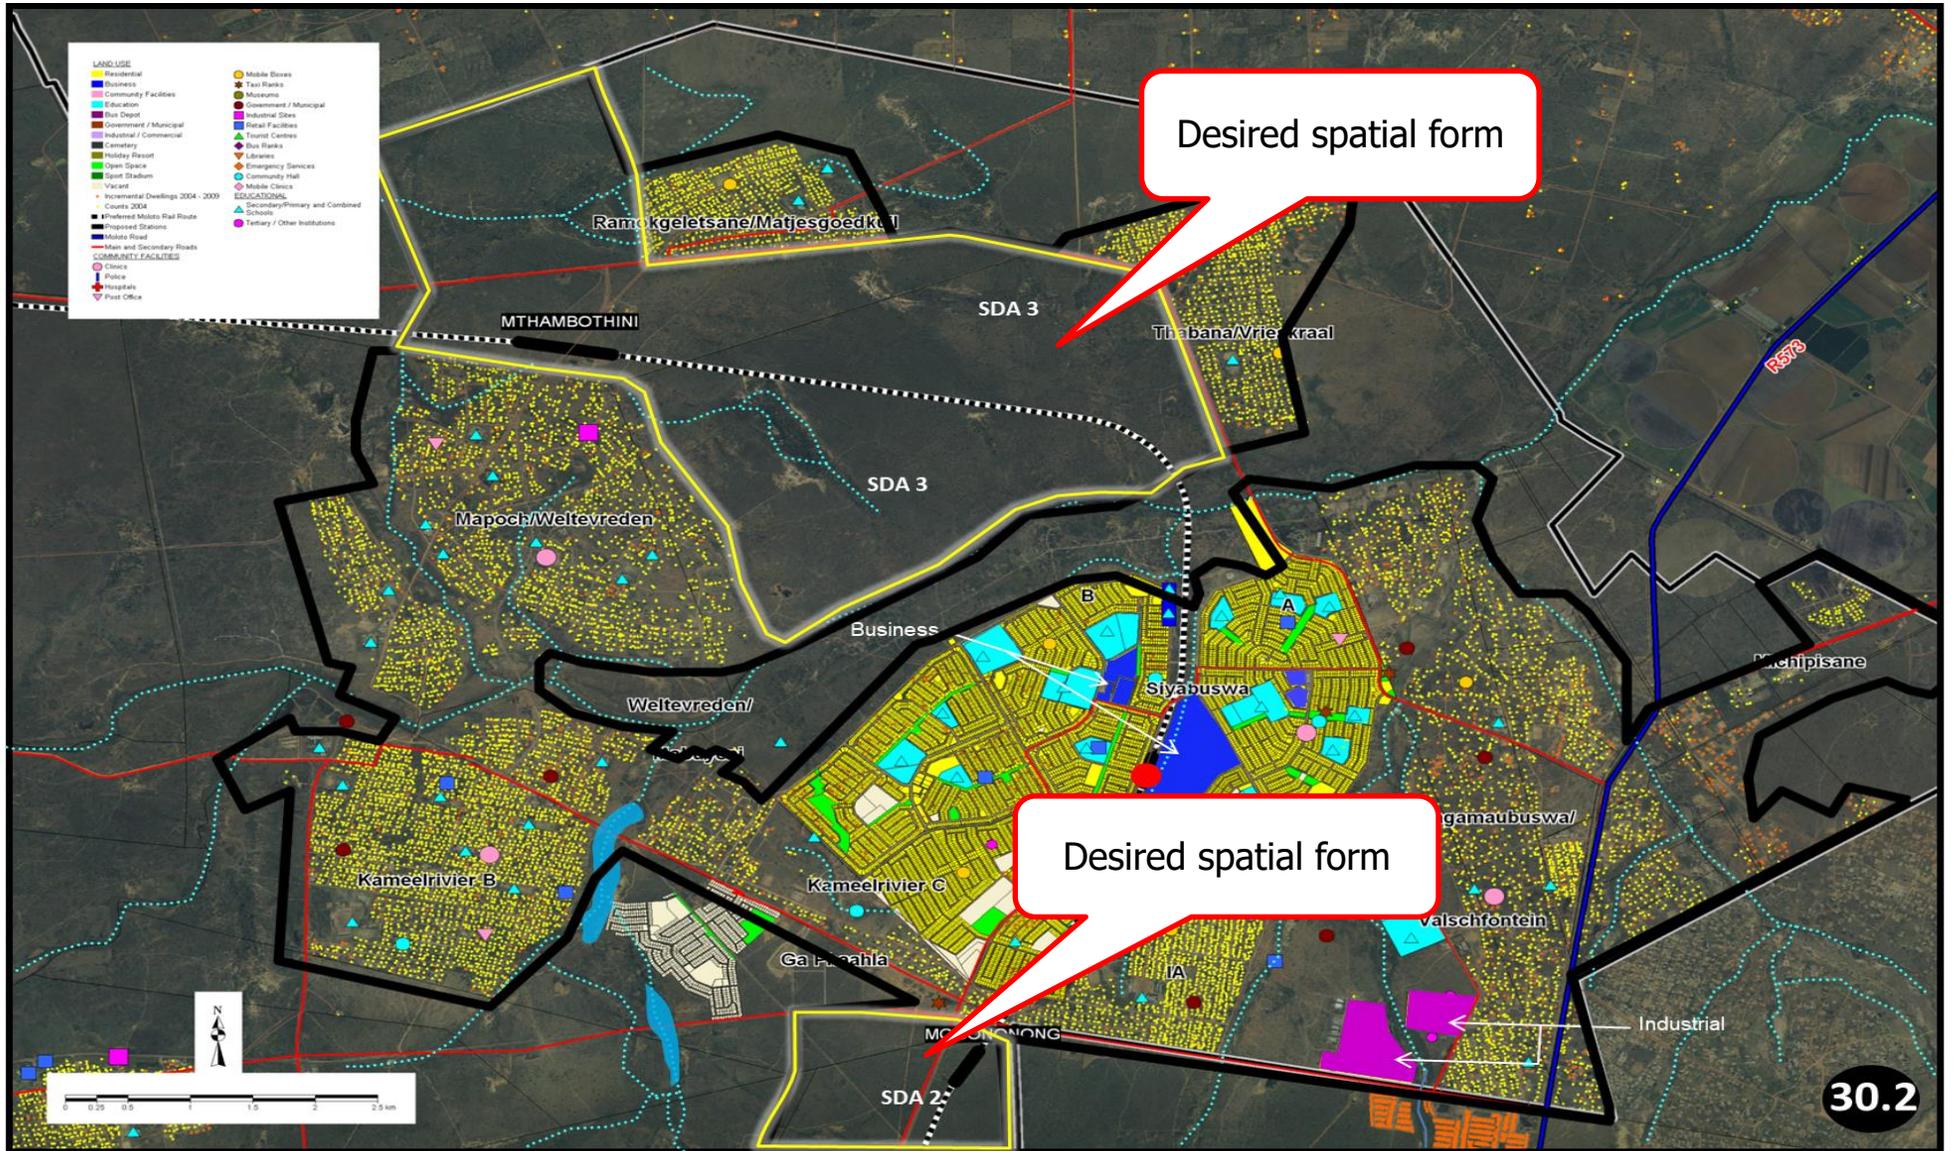

- Consolidated settlement structure for viable human settlements;
- Communities connected to centres of employment via public transport;
- Efficient provision of engineering and social services/ infrastructure;
- Growth of agricultural sector and local cooperatives;
- Maximise potential of local tourism attractions including the Mdala and Mkhombo Nature Reserves, and link with regional tourist attractions.

SECTION 4: COMMUNITY OUTREACH

4.1 INTRODUCTION

Community involvement, especially soliciting the community priorities and inputs, is a critical part of the IDP. In terms of the provisions of Chapter 4 of the Local Government: Municipal Systems Act, 2000, municipality should encourage and create conditions for the local community to participate in the affairs of the municipality.

The Dr JS MLM public participation program has 4 major pillars, namely, public Mayoral Outreach, Sector Meetings (IDP Rep Forum), Ward Committees with Ward councillor and Public Participation office as platforms for community outreach.

As indicated previously, the major components of the IDP Community outreach is undertaken through the IDP Mayoral Outreach. The IDP Outreach have assisted the Dr JS MLM to develop a community input database. In the first around of the cluster based Mayoral Outreach undertaken by Dr JS MLM, October 2017, the objective was to address the following;

- ❖ Request community inputs for the review of IDP 2018/19 – to- 2019/20
- ❖ Solicit input for the draft IDP review for 2019/20 FY including the budget
- ❖ Report on the progress made in the 2018/19 FY
- ❖ Lastly understanding the issues that still affect the community of Dr JS MLM on daily basis.

4.2 COMMUNITY OUTREACH PROGRAMME

4.2.1 Communication Programme

Notices were sent prior to the commencement date of the IDP Mayoral Outreach or Izimbizo sessions. Letters and notices to the office of the Executive Mayor and the Speaker were communicated to inform the councilors about the Outreach. The municipality utilized the following means of communication:

- ❖ IDP Technical and Management committee
- ❖ Loud-hailing and mobilization through Ward based ward committees
- ❖ Public Izimbizo sessions of all IDP meetings were placed in the IDP process plan, which was placed on municipal website.

4.2.2 Venues

All venues were selected in a manner that ensured and enhanced easy access for all community members to attend. All the wards clustered according to the magisterial district of Mdutjana, Mbibane and Mathanjana. Time chosen for the meetings also ensured maximum attendance by the community. In addition, the Municipality made transport arrangements to the venue for people in the adjacent wards including the catering for all in attendance.

Presentations The Executive Mayor together with the mayoral committee and the entire council supported by management of the municipality, lead by the accounting officer (Municipal Manager) presented the IDP report to all members of the community in all three

PUBLIC REVIEW MEETINGS				
DATE	VENUE	TIME	WARDS	VILLAGES
28 August 2018	Masobye Community Hall	14H00	,28,29,30,31	Mmametlhake, Phake(Thabeng, Rankaile, Rebone, Ratlhagane), Masobe, Nokaneng, Dierfeng
29 August 2018	Lefiso Community Hall	14H00	20, 21, 22 ,26	Senotlelo, Ga Maria, Dithagane Kabete, Ramonanabela, Dihekeng, Lefiso, Lefisoane, Ramantsho, Loding, Sehoko, Moletji, Semothhase and part of Nokaneng
30 August 2018	Marapyane Community Hall	14H00	23, 24,25 ,27	Marapyane, Mmaduma, Seabe, Katjibane
31 August 2018	Digwale Community Hall	14H00	14,15, 16, 17, 18 ,19	Digwale , Molapoamogale, Libangeni, Mbongo, Maphanga, Ukukhanya, Madubaduba, Makometsane and Mapotla
06 September 2018	Thabana Community Hall	14H00	1, 2, 3, 4, 5, 6, 7,	Kwa-Phaahla, Siyabuswa A, B, C, D & E, Makopanong, Toitskraal, Mrhononweni, Mabuyeni, Thabana & Ramokgeletsane
07 September 2018	Matshiding Community Hall	14H00	8, 9, 10, 11, 12, 13	Mthambohini, Ga-Morwe, Meetsemadiba, Mabusabesale, Mmakola, Matshiding, Marothobolong, Manyebethwane, Kwa Dithabaneng, Madlayedwa, Borolo

community engagement meetings.

The presentation focused on the following areas:

- ❖ Report on the progress made from the previous year IDP document and the achievements.
- ❖ Confirmation from the community members on the projects the municipality has implemented

Overview of the Presentation

Language

A presentation was prepared in English. The Executive Mayor would translate the presentation into a unanimously acceptable local languages of Setswana, Sepedi and IZindebele to cater for those who need translation.

Inputs Form

For people that may not be able to submit the verbal inputs during the IDP mayoral outreach, they were encourage to write inputs and forward them to the IDP unit through the office of the speaker

4.3 ISSUES IDENTIFIED AS PRIORITIES

The issues noted were identified in terms of their frequency in most proceedings:

- ❖ Provision of water for households remain a challenge
- ❖ Housing and provision of sustainable human settlements throughout the municipality still a challenge.
- ❖ Township establishment in almost all the traditional land
- ❖ Allocation of stands in municipal land for development.
- ❖ Infrastructure maintenance, repairs and installations water meters, storm water drainage, and roads (potholes and street humps) sewer systems).
- ❖ Provision of high-mast lights
- ❖ Request for CWB toilets
- ❖ Good Governance
- ❖ Economic development and job creation
- ❖ Consider the building of multipurpose, youth and ECD centers, pension payout.
- ❖ Provision of clinics in some part of the municipality and 24hrs clinics services.
- ❖ Improve on provision of facilities for disabled persons.
- ❖ Consider creating economic development initiatives and programmes to ensure creation of economically sustainable employment opportunities
- ❖ Community safety as a number priority for community of Dr JS Moroka Local Municipality

COMMUNITY PARTICIPATION AND STAKEHOLDER PRIORITY ISSUES:

ISSUES RAISED DURING THE IDP IMBIZO AT MASOBYE ON 28 AUGUST 2018: MMAMETLHAKE, PHAKE (THABENG, RANKAILE, REBONE, RATLHAGANE), MASOBE, NOKANENG, DIEREFENG

IDP PRIORITY	WARD	ISSUES RAISED
WATER	W31	Request for water and jojo tanks
	W28	Request for water
SANITATION	W31	Request for CWP toilets at school
	W30	Request for CWP toilets
ROADS & STORM WATER	W29	Request for gravelling of roads
ADMIN	W28	Request to be notified about the posts
PMU	W28	Request for upgrading of stadium
YOUTH	W28	Request Youth Manager to organize Youth Summit

MATTERS CONCERNING NATIONAL/PROVINCIAL DEPARTMENT

RESPONSIBLE DEPARTMENT	WARD	ISSUE RAISED
HUMAN SETTLEMENT	W29	Request for PHP houses

ISSUES RAISED DURING THE IDP IMBIZO HELD ON 29 AUGUST 2018 AT LEFISO COMMUNITY HALL: SEHOKO, MOLETJI, SEMOTLHASE AND PART OF NOKANENG, SENOTLELO, GA MARIA, KABETE, RAMONANABELA, DIHEKENG, LEFISO, LEFISOANE, RAMANTSHO AND LODING.

IDP PRIORITY	WARD	ISSUES RAISED
WATER	W20	Request for water pipe repair
	W21	Request for water Request for repair of bore holes

	W21	Request to remove water tap on the street be put in side the yard.
	W22	Request for installation of the water pipes
	W26	Request for water
SANITATION	W20,W22	Request for CWP toilets
	W26	Request for additional CWP toilets
ROADS & STORM WATER	W20	Request for tarred road from Senotlelo to Ramokgeletsane
	W21	Request for tarred road from Lefiso's cemetery to Marapyane Request also road from the crossing to Kome Primary School Request tarred road from Lefiso clinic to Senotlelo
	W22	Request for tarred road and speed humps.
ELECTRICITY	W20,W21,W22,W26	Request for high mast light
	W22	Request for electricity at the office
	W26	Maintenance of high mast light, not working properly
LAND & HOUSING	W20	Request for clearing of the bushes at Ramokgeletsane
ADMIN	W21	Request to be informed about learnership/posts
LED & PLANNING	W20	Request skills training
	W20	Request hospitality training
CEMETERY	W20	Request for fencing cemetery
PMU	W26	Projects are not accommodating people living with disability

MATTERS CONCERNING NATIONAL/PROVINCIAL DEPARTMENT

RESPONSIBLE DEPARTMENT	WARD	ISSUE RAISED
HEALTH	W20,W21	Request for 24hr clinic
	W21	Request for renovation of the clinic Request for staff (nurses)
HUMAN SETTLEMENT	W20,W22	Request additional PHP
HOME AFFAIRS	W21	Request for department to visit each village for ID document.
SASSA	W21	Request SASSA to revisit their dates for changing cards.
	W22	Elders are complaining about their safety at Post Offices.

SAPS	W22	Request for police station
EDUCATION	W26	School children around ward 26 do not have transport to ferry them.
	W26	Makhosonke primary school was damaged by rain they need assistance in renovation.

**ISSUES RAISED DURING THE IDP IMBIZO AT MARAPYANE ON 30 AUGUST 2018;
MARAPYANE, MMADUMA, SEABE, KATJIBANE**

IDP PRIORITY	WARD	ISSUES RAISED
WATER	W23	Request borehole.
	W24	Ward 24 taps not working
	W 25	Shortage of water: addition of water tankers
	W27	Request for jojo tanks
SANITATION	W23 ,W 24	Shortage of CWB
ROADS AND STORM WATER	W 23	Request for storm water
	W24	Regravelling of streets
	W24	Request for tarred road
	W27	Leseleseleng road regravelling
	W25	Street from Phomolong need regravelling of roads
	W25	Request for regravelling of roads Roads not in good condition
	W27	Regravelling of streets Leseleseleng
ELECTRICITY	W23,	Request for high mast light and maintenance
	W25,W27	Request for high mast light

MATTERS CONCERNING NATIONAL/PROVINCIAL DEPARTMENT

RESPONSIBLE DEPARTMENT	WARD	ISSUE RAISED
HEALTH	W23	Request for clinic
HUMAN SETTLEMENT	W23,24	Request for PHP houses
DEPARTMENT OF SAFTEY & SECURITY	W23	Request for Police station

ISSUES RAISED DURING THE IDP IMBIZO HELD ON 31 AUGUST AT DIGWALE 2018; MOLAPOAMOGALE, LIBANGENI, MBONGO, MAPHANGA, UKUKHANYA, MADUBADUBA, MAKOMETSANE AND MAPOTLA

IDP PRIORITY	WARD	ISSUES RAISED
WATER	W16	Addition of water tankers
	W19	Water programme not honoured ,ward have two weeks not receiving water
	W19	Water shortage at Madubaduba, water tankers to be added.
ROADS & STORM WATER	W17	Storm water or at house 1270 opposite stadium.
	W19	Speed humps
	W19	Bridge at Makometsane need rails on the sides
	W16	Bore hole not working, increase number of water tankers
	W16	Storm water at paradise Mfundweni route
COMMUNICATION	W15	Municipal website to be updated, capturing number of bursaries, learnership and internship given to people.
PMU	W18	Monitoring of projects
CDS	W18	Damping site needed
	W17	Landfill site to be revamped.

MATTERS CONCERNING NATIONAL/PROVINCIAL DEPARTMENT

RESPONSIBLE DEPARTMENT	WARD	ISSUE RAISED
PPP	W19	Requesting Mkhombo mall

ISSUES RAISED DURING THE IDP IMBIZO HELD ON THE 06 SEPTEMBER 2018 AT THABANA OPEN SPACE KWA DITHABANENG, MADLAYEDWA, BOROLO, MTHAMBOTINI,GA-MORWE,MABUSABESALA,MATSHIDING,MAROTHOBOLONG,MANYEBETHWANE.

IDP PRIORITY	WARD	ISSUES RAISED
WATER	Ward 2	Shortage of water
SANITATION	W1	Request for sewer system

	Borolo 13	Request for community hall
DEPARTMENT OF HEALTH	Matshiding (Ward 12)	Request for hospital

5. SECTION: PROJECT PHASE

In terms of Section 26(i) the Local Government: Municipal Systems Act (Act 32 of 2000), municipalities must ensure that an IDP reflects the Key Performance Indicators and Performance Targets. Municipalities must allow the community to participate in the setting of appropriate Key Performance Indicators and Performance Targets for the municipality. Since there are limited resources at Dr JS MLM disposal and the low revenue collection, the municipality cannot satisfy all the identified needs.

The table below lists the identified community needs in order of priority. These projects are a process of the strategic goals set by the Municipality. The projects are linked to the strategic goals as follows;

Urgent Needs		Important Needs		Less Pressing Needs	
1	Water provision for HH	8	Request for title deeds	15	Fixing of potholes
2	Road and storm water development and maintenance	9	Request for community halls	16	Development of community parks and recreational facilities
3	Sanitation provision for HH	10	Convertible Water Borne (CWB) toilets	17	HIV and awareness Programmes
4	Highmast Installation	11	Request for Hospital	18	Old Age home for elderly
5	Economic Development and Job creation	12	Request for all clinics to operate 24hrs	19	Youth advisory centers
6	Request for tarred roads	13	Request for Drugs Rehabilitation centre	20	Shelter for pensioners
7	Request for PHP	14	Townships establishment	21	Re-gravelling of all sports grounds

ROADS AND STORMWATER CAPITAL PROJECTS

Project Name, Programme & Activity	Ward	Location	Key Performance Indicator	Medium Term Budget Framework (Achievable at end of the year: 19/20 – 20/22 (000))
