## NKOMAZI LOCAL MUNICIPALITY

2014/2015 -2016 / 2017

IDP

**FINAL DRAFT** 

# INTEGRATED DEVELOPMENT PLAN

Nkomazi Local Municipality's IDP is developed to enhance the quality of life of all the communities in the Nkomazi Local Municipality area through rendering basic services in an efficient and cost-effective manner that adheres to the principles of sustainable development

## Vision

"A leading local municipality that empowers its communities through excellent service delivery" Mission

"To enhance the quality of life of all the communities in the Nkomazi Local Alunicipality area through rendering basic services in an efficient and cost effective manner that adheres to the principles of sustainable development"

Municipality's Core Values

The Nkomazi Local Municipality subscribes to the following core values:

Accountability; Good Gobernance; Transparency; Integrity; and Responsibeness

BETTER LIFE

Vkomazi Nunicibalitu

#### NKOMAZI EXECUTIVE MAYOR'S FOREWORD

Whilst celebrating 20 years of Freedom and Democracy, the IDP document remains the basic planning instrument available not only for the implementation of the municipal strategic objectives but it critically forms the basis of intergovernmental coordination and programmes implementation. It is necessary that on an on-going basis our people and institutions of democratic local governance continue to review and improve this plan in order to ensure that over the period of its implementation, we continue to improve our performance as we mark the critical milestones that we have aimed to achieve during the relevant period as a direct result of cooperative governance and democratic community participation.

We can mention in that context that the application of the IDP document in the preceding financial year has seen marked improvements in various community infrastructure and programme implementation processes that we have rolled-out as a municipality. We are proud in that respect to report that our communities continue to benefit immensely from the implementation of the various projects and programmes as outlined in our annual report for the relevant period. But it has to be emphasized that the biggest benefit for our communities has been the knowledge that the implemented initiatives have come about as a direct result of their participation and contributions. We are however conscious of the fact that not all of the aspirations that were outlined in the previous IDP document have been implemented. Accordingly this 2015/16 IDP document represents by and large most of the on-going programmes and

projects that are carried-over from the previous document. We are particularly emboldened in our drive by the fact that most of the community aspirations that are reflected in the document were also addressed in our election manifesto. This makes it even more relevant to the goals that we seek to advance as a local authority.

In a nutshell this IDP document embodies our resolute commitment to the development mandate that our people have entrusted upon us. We are particularly encouraged by the support that we are noticing from sector partners' especially rural development (CRPD), public works (EPWP), Water Affairs, CoGTA, EDM, our traditional leaders and many other sector formations who remain critical players in the attainment of the goals that we have set-out to achieve through this document.

It is in the main the cooperation and support of our sector partners and communities that continue to encourage us to work with added speed to ensure that everything necessary is done to secure the attainment of the goals that we have been mandated to achieve.

Thank you.

#### Cllr. T.S Khoza

#### **Executive Mayor**

#### NKOMAZI MUNICIPAL MANAGER'S OVERVIEW

Integrated Development planning is the process through which the municipality prepares a strategic developmental plan, which is the principal strategic instrument guiding all planning, management, investment, development and implementation decisions, taking into account input from all stakeholders. By so doing we believe we will realize the goals set by the President of the Republic of South Africa.

This IDP serves as a consolidated instrument that departmental divisions are linked physically, socially, institutionally and economic components of planning and development with management and development structure. It also integrated and aligned planning in different spheres of government and therefore enforcing and upholding the spirit of co-operative governance in the public sector though we still have challenges in realizing that due to lack of resources and of course failure to integrate our services of which we cannot point fingers but try our utmost best.

As we celebrate our hard earned 20 Years of Democracy and getting geared to the 5<sup>th</sup> National and Provincial Cabinet we must always revert to the constitution of the Republic of South Africa (1996), which commits government to take reasonable measures, within its available resources, to ensure that all South Africans have access to adequate housing, health care, education, food, water and social security. It is also worth pointing out that the geographical location of our municipality poses a great challenge in terms of neighbouring states (Swaziland and Mozambique). We tend to be found unprepared for the influx of people coming to reside within our municipality.

This document serves as a planning instrument which manages and guides all planning, development and decision making in the municipality. That is to consolidate all various plans and actions of the municipality in order to achieve our vision and mission which can be loosely said "*a better life, impilo lencono".* Prior to coming-up with this document public consultation has been made through the existing forums or platforms deemed to be workable within Nkomazi. Community participation processes have been exhausted.

This will be our bible which ensures that we plan short and long term future developments within our jurisdiction and we believe that it will provide the guidelines as to how to use the land within the municipality, which resources to use, and how to protect the environment. All strategic planning within the municipality has taken place within the framework of the IDP.

Mr. Dan Ngwenya Municipal Manager Nkomazi Local Municipality

## **DEFINITIONS AND KEY TERMS**

**Integrated development planning** \_ The Integrated Development Plan (IDP) of the local municipality is a strategic tool designed to bring together and to harmonize individual plans of the municipal departments. The plan should guide all future development of the municipality by setting priorities, allocating resources and defining time frames and indicators.

IDP is a process by which municipalities prepare 5-year strategic plans that are reviewed annually in consultation with communities and stakeholders. These plans adopt an implementation approach and seek to promote integration by balancing social, economic and ecological pillars of sustainability without compromising the institutional capacity required in the implementation, and by coordinating actions across sectors and spheres of government.

**Municipality** \_ A municipality is defined in the Municipal Systems Act 32 of 2000 as an organ of state within the local sphere of government. It exercises legislative and executive authority within boundaries as determined by the Demarcation Board (Demarcation Act 1998)

**Sustainable development** \_ Sustainable development is development that "... meets the needs of the present without compromising the ability of future generations to meet their own needs." (Beckenstein et al, 1996:9.)

**District municipality** \_ means a municipality that has municipal executive and legislative authority in an area that includes more than one municipality, and which is described in section 155(1) of the Constitution as a category C municipality.

Financial year \_ means the period starting from 1 July in a year to 30 June the next year;

**Local community** \_ in relation to a municipality— (*a*) means that body of persons comprising— (i) the residents of the municipality; (ii) the ratepayers of the municipality; (iii) any civic organisations and non-governmental, private sector or labour organisations or bodies which are involved in local affairs within the municipality; and (iv) visitors and other people residing outside the municipality who, because of their presence in the municipality, make use of services or facilities provided by the municipality; and (*b*) includes, more specifically, the poor and other disadvantaged sections of such body of persons

**Municipal council** \_ or **"council"** means a municipal council referred to in section 18 of the Municipal Structures Act;

"municipal manager" means a person appointed in terms of section 82 of the Municipal Structures Act.

**Councillor** \_ means a member of a municipal council:

**MEC for local government** \_ means the member of the Executive Council of a province responsible for local government in the province:

**Basic municipal services** \_ means a municipal service that is necessary m ensure an acceptable and reason~ble quality of life and, if not provided, would endanger public health or safety or [he environment;

**Service authority** \_ means the power of a municipality to regulate the provision of a municipal service by a service provider;

**Budget-related policy** \_ means a policy of a municipality affecting or affected by the annual budget of the municipality, including— (*a*) the tariffs policy which the municipality must adopt in terms of section 74 of the Municipal Systems Act; (*b*) the rates policy which the municipality must adopt in terms of legislation regulating municipal property rates; or (*c*) the credit control and debt collection policy which the municipality must adopt in terms of section 96 of the Municipal Systems Act;

**Mayor** \_ in relation to— (*a*) a municipality with an executive mayor, means the councillor elected as the executive mayor of the municipality in terms of section 55 of the Municipal Structures Act; or (*b*) a municipality with an executive committee, means the councillor elected as the mayor of the municipality in terms of section 48 of that Act;

**Official** \_ in relation to a municipality or municipal entity, means— (*a*) an employee of a municipality or municipal entity; (*b*) a person seconded to a municipality or municipal entity to work as a member of the staff of the municipality or municipal entity; or (*c*) a person contracted by a municipality or municipal entity to work as a member of the staff of the municipality or municipal entity otherwise than as an employee;

## **SECTION A**

#### **EXECUTIVE SUMMARY**

In terms of the Local Government: Municipal Systems Act (Act 32 of 2000), Section 25(1) each Municipal council must, within a prescribed period after the start of its elected term, adopt a single, inclusive and strategic plan for the development of the municipality which, inter alia, links, integrates and co-ordinates plans and takes into account proposals for the development of the municipality and aligns the resources and capacity of the municipality. As far as the status of the IDP is concerned, section 35 of the act clearly states that an integrated development plan adopted by the council of a municipality is the principal strategic planning instrument, which guides and informs all planning and development, and all decisions with regard to planning, management and development in the municipality. It binds the municipality is integrated development plan and national or provincial legislation, in which case such legislation prevails. Section 36 furthermore stipulates that a municipality must give effect to its integrated development plan.

Section 34 of the act provides for the annual review of the IDP in accordance with an assessment of its performance measurements and to the extent that changing circumstances so demands. This document is a 2013/2014 IDP for the Nkomazi local municipality. The strategic objectives and targets contained in this document were reached subsequent to extensive systematic and structured internal and external consultation through various public participation mechanisms with the community and stakeholders within the Nkomazi Local Municipal area of jurisdiction.

An IDP is one of the key tools for Local Government to cope with its new developmental role. Furthermore it seeks to facilitate strategic decisions on issues of Municipal Budgets for the following Key Performance Areas: Basic Service Delivery – (Infrastructure and Community Services), Local Economic Development, Municipal Transformation and Organizan ational Development, Municipal Financial Viability and Management, Spatial Development Framework and Good Governance and public participation. The Municipal Systems Act which provides a framework for the preparation of IDPs recommends that once in place, each IDP must be reviewed annually to re-assess and re-evaluate Municipal's development priorities and challenges and to accommodate new developments in local government processes.

The Nkomazi Local Municipality has drafted its IDP in consideration of the ten [10] critical services which include the following:-

• Municipal roads and storm water management; Electricity reticulation; Portable water; Sanitation; Cemeteries; Refuse removal, refuse dumps and solid waste; Traffic and parking, Local sports and recreational facilities; Fire fighting

#### Outline

Section 153 of the Republic of South Africa Constitution [Act 108 of 1996] makes provision with regards to developmental duties of municipalities that a Municipality must:

- (a) Structure and manage its administration and budgeting and planning processes to give priority to the basic needs of the community, and to promote the social and economic development of the community; and
- (b) Participate in national and provincial development programmes.

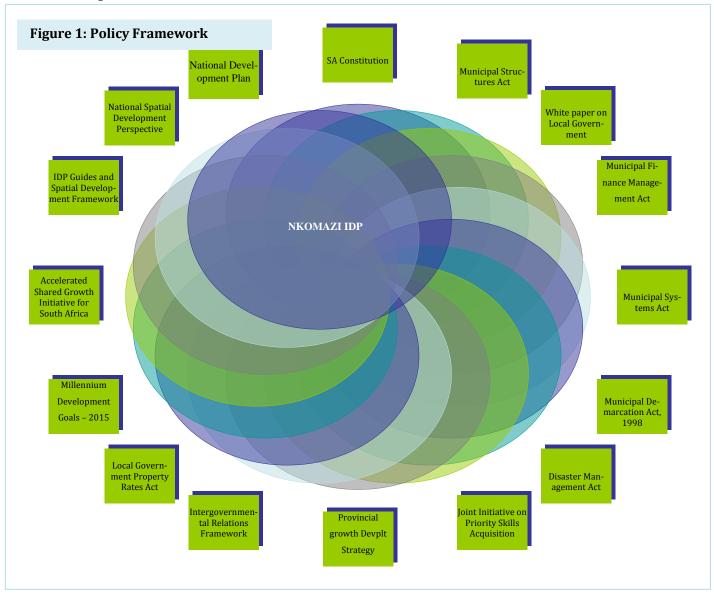

The following sets out the Integrated Development Planning of the Nkomazi Local Municipality which governs all planning as obligated by Section 153 of Act No. 108 of 1996.

## SECTION B

## 1. IDP DEVELOPMENT PROCESS

## **1.1 POLICY FRAMEWORK**

The IDP process is predominantly guided by various legislations, policies and guides which were carefully considered when the document is compiled. These policies, guides and legislative frameworks include amongst others as outlined in the figure below.

## **1.2 DISTRICT, PROVINCIAL, NATIONAL AND GLOBAL STRATEGIES**

In term of Section 24(1) of the Municipal Systems Act, Act 32 of 2000, the planning undertaken by a municipality must be aligned with, and complement the development plans and strategies of other affected municipalities and other organs of state so as to give effect to the principles of co-operative governance contained in Section 41 of the Constitution. The following are some of the key policies and strategies that provide a framework and context in the compilation of the Nkomazi IDP

## 1.2.1 Ehlanzeni District IDP

The Ehlanzeni District Municipality's IDP follows the planning requirements which is binding in terms of local, provincial and national legislation, and therefore provided matters that were included in the Nkomazi IDP to ensure alignment and harmonisation of strategies and programmes.

## 1.2.2 Mpumalanga Integrated Spatial Framework (2005)

The Mpumalanga Integrated Spatial Framework (2005) was developed within the broader national context of the spatial development vision and objectives defined in the National Spatial Development Perspective (NSDP). The Nkomazi Local Municipality has successfully completed its Spatial Development Framework and finalizing its Land Use Management System.

## 1.2.3 Ehlanzeni District Integrated Spatial Framework

To ensure that development in Ehlanzeni happens in a focused and integrated the district spatial development framework (SDF), a requirement of the Municipal Systems Act, provides the basis in which socio-economic development should take place. The SDF of the district is instrumental for integrated planning processes as a whole because alignment and harmonization of strategies and developmental needs and priorities across the spheres of government, that is national, provincial and local, can only be achieved through synergy among the three spheres of government. The aim of the Spatial Development Framework is:-

• To influence local spatial strategies to work towards attainment of regional (district) and provincial development goals and vice versa.

• To utilize best practices in development planning that will support regional development by pooling resources of all five local municipalities to develop a standard set of guidelines for use in town and regional planning and land use management.

• To influence the development of a regional character/brand that boosts development ensuring equitable investment through coordinated marketing strategies.

• To allow infrastructure planning for projects of regional significance through joint efforts of all municipalities in the district.

The EDM Spatial Development Framework was last reviewed in 2010. The processes followed included the analysis of national and regional issues to ensure integration within a holistic developmental framework. These issues were thereafter considered and formed part of the reviewed spatial framework of the district. The national and regional issues were as follows:-

NATIONAL 1) Millennium Development Goals (2014 Vision)

2) Accelerated and Shared Growth Initiative for South Africa (ASGISA)

## 1.2.4 Millennium Development Goals

South Africa is guided by international protocols and agreements as it has adopted the Millennium Declaration, which equally guides planning across the three spheres of government. The Nkomazi IDP, through its various programmes has attempted to comply with the following eight Millennium Development Goals:

Goal 1: Eradicate extreme poverty and hunger,

Goal 2: Achieve universal primary education;

Goal 3: Promote gender equity and empower women;

Goal 4: Reduce child mortality;

Goal 5: Improve mental health;

Goal 6: Combat HIV/AIDS, malaria and other diseases;

Goal 7: Ensure environmental sustainability;

Goal 8: Develop a global partnership for development.

## **1.3 IDP ALIGNMENT WITH NATIONAL, PROVINCIAL AND DISTRICT PRIORITIES**

Table 1: NATIONAL PRIORITIES	OUTCOMES	NATIONAL PLANNING PLAN PRI- ORITIES	PROVIN- CIAL PRIORI- TIES	DIS- TRICT PRIORI- TIES	COMMUNI- TY PRIORI- TIES	IDP PRIORITIES

## 1.4 THE MAIN AIM AND OBJECTIVE OF THE INTEGRATED DEVELOPMENT PLAN

Nkomazi Local Municipality strives to continue to develop the IDP as an effective management tool for the Municipality, this include:

• Creating a greater level of focus and thereby improving on the strategic nature of the document;

• Aligning this strategic document with the realities of the resources, both financial and human, available;

 $\circ~$  Alignment of the IDP with the activities of the sector departments and other service providers (and vice versa i.e. influencing their planning); and

• Alignment of the IDP with the various sector plans.

## 1.4.1 Nkomazi Role Players

The participation of a diverse range of stakeholders in the formulation of the IDP forms the integral part of the entire process and the programme for this exercise was captured in the IDP Process Plan. The following are the role players in the IDP process:

#### Figure 2:\_ Nkomazi IDP role players

## **1.4.3 IDP Structural Arrangements**

Table 2 portrays the structures/stakeholders, composition, and the roles and responsibilities in respect of the Integrated Development Planning Process of the Nkomazi Local Municipality

Table 2:\_\_IDP structural arrangement

STRUCTURE	ROLES & RESPONSIBILITIES	CURRENT STATUS
Municipal Manager	<ul> <li>Strategic management of and operational re- sponsibility of the whole IDP Process.</li> </ul>	<ul> <li>IDP processes are fairly managed though there's still a need seriously en- gage in strategic planning sessions to strengthen the strategic direction of the Municipality</li> </ul>
Executive Mayor Mayoral Com- mittee	<ul> <li>Political co-ordination of the IDP and assessment of impact of implementation</li> <li>Deal with political implementation of IDP;</li> <li>Ensures developmental business plans and budgets;</li> </ul>	<ul> <li>There is meaningful participation by the leadership in the IDP processes</li> <li>The Mayoral Committee is actively invilved in the day to day running of the IDP and is supportive towards the IDP</li> </ul>
	<ul> <li>Deal with day-to-day political inputs to the IDP process</li> </ul>	processes
Municipal Council	<ul> <li>Approve the IDP;</li> <li>Monitor the implementation of IDP;</li> <li>Monitor Service Delivery Plan of the Municipality</li> </ul>	<ul> <li>The Municipal Council has always ensured that the IDP is approved timeously</li> <li>There is however room for improvement in its implementation inline with the SDBIP</li> </ul>
Ward Commit- tees	<ul> <li>Link the planning process to their constituencies and/or wards;</li> <li>Responsible for organising public consultation and participation;</li> <li>Input on needs prioritisation and project designs;</li> <li>Monitor projects at delivery in their localities;</li> <li>Act as a mouthpiece of the community in the implementation of projects.</li> </ul>	<ul> <li>Ward committees do participate in the IDP processes however issues around allowances have partially affected their active participation as they are aware that other Municipalities within Ehlanzeni make provisions for cell- phones and travelling</li> </ul>
IDP Steering Committee	<ul> <li>Provide terms of reference for the various planning activities</li> <li>Commission of research studies</li> <li>Consider and comment on inputs of sub-committees, study teams, consultants and provincial sector departments</li> </ul>	• The IDP Steering committee has been struggling to meet regularly as ex- pected, there are plans to revive this committee in the next financial year

	• process, summarize and document outputs.	
	• Prepare, facilitate and document meetings	
	<ul> <li>Make recommendations to council</li> </ul>	
	<ul> <li>Liase with Municipal departments in matters</li> </ul>	
	related to IDP	
IDP Repre-	<ul> <li>Inform interest groups, communities and or-</li> </ul>	$\circ$ The IDP REP Forum has been aligned

IDD Managar	-	- · ·
IDP Manager	ing and compilation of the IDP	the IDP processes however adherence
	• Prepare, monitor and evaluate progress in	to the specified timeframes remains a
	terms of the Process Plan,	challenge as there are external factors
	• Undertake the overall management and co	which contribute to such challenges.
	ordination of the planning process;	
	• Ensure that all relevant actors are appropri-	
	ately involved;	
	• Ensure that the time frames are being ad-	
	hered to;	
	<ul> <li>Nominate persons in charge of different</li> </ul>	
	roles;	
	• Be responsible for the day-to-day manage-	
	ment of the drafting process;	
	• Ensure that planning process is participa-	
	tory, strategic and implementation oriented	
	and is aligned and satisfy sector planning re-	
	quirements	

## **1.5 INTEGRATED DEVELOPMENT PLANNING PROCESS**

## **Phase 0: Preparatory Phase**

The Ehlanzeni District Municipality developed the IDP Frame Work Plan which informed the IDP Process Plan for all the local municipalities within the district. The Nkomazi municipality has developed its municipal Process Plan in line with the district frame work plan. The process plan was adopted by council on the 30<sup>th</sup> of August 2013 under Council Resolution Number NKM:S-GCM:A068/2013

## Phase 1: Analysis

This phase is comprised of keystakeholders engagement wherein the 33 wards committees were trained on the 2013/2014 IDP review process. Traditional Leaders and other key stakeholders were engaged during this IDP phase. The first two sessions were made up of all ward committees from the 33 wards. A detailed IDP review process was presented to the members with all the documents required during the review process. Ward committees were in turn afforded an opportunity to conduct meetings in their wards giving feedback on projects implementation and future plans. Key to this phase was to report on the progress made in the implementation of the 2012/2013 IDP and Budget. A situational analysis was conducted to determine whether the Municipal Departments are executing their mandates as per the legislation.

## Phase 2: Strategies

This phase comprised of strategies associated with each of the priority issues as identified in phase 1. A broad inter-departmental dialogue was employed with regard to the most appropriate ways and means of tackling priority issues under consideration of policy guidelines and principles, available resources, inter linkages, competing requirements. This phase was completed in March 2014

#### Phase 3: Projects

In this phase Departmental project task team members were given a responsibility of working out project proposals in line with the strategies and priority issues and where necessary additional information on project details was obtained. This phase ensured a smooth planning/ delivery link by providing an opportunity for a detailed and concrete project planning process done by relevant stakeholders who provide proposal with tentative target figures, technical standards, locations, time frames and cost estimates. This phase was completed in March 2014

#### **Phase 4: Integration**

This phase ensured that the results of project planning phase were properly conducted and speaks to the vision; objectives, strategies and resources. The 1<sup>st</sup> draft of the 2014/2015 IDP document of the municipality was tabled on the 28th March 2014. A public notice was issued for inputs and comments by the general public into the draft document. A program for public consultation was also developed and implemented. Projects and programs from sector Departments and other stakeholders were incorporated into the Draft IDP through the CRDP Business Plan.

## Phase 5: Approval

The IDP to be tabled to council for final approval by the end of May 2014

BASIC SERVICES	PRIORITIES	PROBLEM STATEMENT
Water	Bulk supply	This is mainly attributed to the ever increasing number of households, of which the current bulk supplies are unable to cope with water de- mand.
	Reservoir	Reservoirs in the identified areas are either ageing and need refurbishment or non-existent and need construction. In other instances they are there but too small to meet the water demand they supply.
	Booster pump	The identified areas have the water infrastructure readily available, but due to the layout of such areas water supply cannot reach all house- holds as a result of low pressure in elevated areas.
	Reticulation	Some of the identified areas experience ageing reticulation infrastructure as a result of poor quality pipes which were installed ages ago, e.g. asbestos pipes. There is a need to replace such pipes. In other cases there are new extensions in the existing areas where network pipes have not been installed.
	24 hours water supply	The identified areas do have water but have to be shared with other neighbouring areas and this calls for the supply to be distributed equally at different times. This is used as control measure as these areas do not pay for water services, which results in the misuse of water.
	Boreholes	Some areas do have boreholes which do not provide water because they are not maintained. The ever increasing water demand exceeds the supply by the boreholes.
	Purification	These areas receive water direct from the river which is only chlorinated and cannot be used especially during rainy seasons as a result of poor quality.
	Repairing of infra- structure	The identified areas require the rehabilitation of the existing water infrastructure which is no more able to supply water. Some of these areas experience severe water linkages due to the infrastructure which is damaged and require repairing or replacement.
Roads and Storm wa-	Tarring	Though most of the areas in Nkomazi have access to roads, some areas still need bus roads, tarring of streets and road which connect them to other areas.
ter	Re-Gravelling	Due to the number of kilometres which need to be tarred in Nkomazi, it is currently not possible to cover all these areas. Re-gravelling of streets becomes an alternative, however it is still not possible to re-gravel all the streets which have not been gravelled before or all those that need to be gravelled because they are in bad condition.
	Footbridges and access roads	Some villages experience challenges in connection with community facilities and neighbouring areas which cannot be accessed during rainy seasons.
	Vehicle bridges	Other areas which are within close proximity cannot be accessed as a result of unsafe links with those areas and have to travel long distances which can be shortened by constructing bridges
	Storm water drainage	Most of the roads that were constructed some time ago did not make provision for storm water drainage, which reduces the quality of the roads; some of the roads direct water to the nearby households which cause damage to the houses during rainy seasons
	Repairing of roads	Most of the roads in the area are not being repaired and tend to wear easily and cannot be used by the general public and even pose danger to the road users
Electricity	New infrastruc- ture	Electricity bulk infrastructure has become a challenge in some section of Nkomazi Municipal area. The existing bulk infrastructure is unable to cope with the high demand for electricity which results in power interruptions and low voltage. Due to the ever increasing unplanned new households bulk infrastructure become a challenge, as these new households necessitate the upgrading of the existing infrastructure.

	House connections	In other instances electricity infrastructure is available but there is a need for house connections. In other existing establishments households within electrified existing areas requires infields.
	Solar energy	Due to the poverty levels in these areas where households members do not have any source of income paying for electricity become a chal- lenge, this therefore calls for the use of solar energy as the most affordable source.
	High mass and streets lights	The listed areas require the installation of high mast lights and street lights as a result of high crime levels experienced at night, some of the people living in these areas are commuters. They live for work very early in the morning and come back late at night as a result they are being marked on their way to and from work
Sanitation	Sewer	The current sewer infrastructure in areas such as Komatipoort do not meet the ever increasing number of households which result in over- flows. Some of these areas have high densely populated households which require the use of sewer system than pit latrines which tend to overflow within a short space of time and become a health hazard to the household within close proximity.
	Pit Latrines	These areas in the municipality are experiencing sanitation backlogs in the form of pit latrines. The sanitation backlog in Nkomazi stands at 56 717. In some other areas communities are still using the unhygienic form of sanitation.
	VIP toilets	Some of the households in these areas do not have toilet facilities; there is a need to provide infields as a form of eradication of sanitation backlog.
Health and Social Ser- vices	Clinics	The identified areas do not have health care facilities within close proximity; they are forced to walk/travel over long distances to access such facilities. Some people in these areas even loose lives because they cannot afford transport costs to the nearby clinics or hospitals.
	Mobile clinics	Some of the listed areas are serviced by mobile clinics which visits these areas on specific days. This also causes a problem because some peo- ple may require medical attention when the mobile clinics are not there. Some of these areas need mobile clinics because of the distance to the nearby health facilities.
	Additional Staff	Due to the big numbers of patients visiting the health facilities, the current staff does not cope which such big numbers and this lead to poor or low service
	24 hours service	The identified health care facilities operate within a limited number of hours of the day and cannot be accessed after hours. Any person who needs medical attention after hours has to be transported to the nearby facilities for medical attention. Those who cannot afford transport are left helpless.
	Crèches	The identified areas do not have access to crèches or child care facilities and this poses a challenge to parents who cannot afford transport costs to the nearby facilities. Such children are deprived the opportunity of accessing early childhood education.
	HIV/AIDS centres	Most of the areas in Nkomazi have community members who volunteer to provide assistance in giving care to sick members of community. Home base care facilities remain a challenge in these areas as the care givers do not have a decent place to store or care equipments and care for patients.
	Home based care	No community facility
Housing and Land ownership	RDP Houses	The identified areas are experiencing housing shortages as a result of housing backlog within the municipal area. Housing units have been allocated to these areas in the past and could not meet housing demand. There is a need to provide additional houses to these areas in order to close the housing backlog.
-	Renovation	Some of the RDP houses in these areas do not meet basic standards for housing. This is due to poor workmanship which results in cracks and

		other housing related problems there is a need for the department of human settlement to intervene.
	Formalization	Due to the nature of the housing settlements in these areas, land allocation is the primary responsibility of the traditional authorities. These results in the areas not formalised and make it difficult for people to acquire title deeds and for the municipality to rollout services, as there is no proper planning in the establishment of these townships.
Communi- ty facilities	Community halls	The identified areas either do not have community halls or some do have but cannot access them due to various reasons. This requires an in- tervention in the construction, renovation and easily of access to these facilities as they are community facilities. Some of the areas do have community halls but the problem is people have to walk over long distances to access halls.
	Libraries	Very few areas in Nkomazi have access to libraries. There is a huge backlog in the provision of community libraries.
	Recreation facili- ties, Sports facili- ties	The identified areas do not have recreational facilities. The problem is that they are not maintained. Some of those who have require renova- tion or upgrading.
	Post offices	Some of the identified areas do have post offices but the available post office does not accommodate the huge number of households. This re- quires an intervention of adding more post offices in these areas. The services that are available in the stations are limited and as such people have to travel over long distances to access the unavailable service.
	Pension payout points	These communities experience problems during pension pay dates as there are no shelters against the son or rain. Other pensioners even lose their lives due to long queues and excessive heat.
	Multi-purpose centres	The areas identified have no access or do not have multipurpose centres as a result they are deprived the opportunity to engage in various community activities which can be effectively be accommodated in the multipurpose centre
	Cemeteries	The identified areas need the installation of water taps or water tanks in the cemeteries for the communities to use when they are in the cemeteries. These areas do not have toilets in the cemeteries and becomes problematic when people are burring their loved ones and have to either use
	Fencing of ceme-	the bush or leave the funeral services before time.Graves and tombstones are being destroyed by livestock as there is no fence to protect them. There is a need to fence these areas for access
	teries	control by both human beings and animals.
		The identified areas experience challenges to access cemeteries as a result of bad roads.
		The following areas need land to establish new grave yards.
		The following areas need electrical points in their graveyards in order to use equipment and machinery.
		Due to the high number of deaths the area and the soil types of the area it becomes difficult for the members of the community to dig grave, and therefore require the TLB for such purpose.
Transpor- tation	Public transport [Bus& Taxis]	The identified areas have a serious problem with public transport as they have to walk over long distances to access public transport. There is a need to intervene and ensure that public transport is accessible to them and can be found within close proximity.
	Bus shelters	Some of the identified areas do have shelters, but they are limited. People that use public transport cannot stand against stressing environ- ment especially during bad weather conditions so there is need to add more shelters in these areas.
	Taxi ranks	The following areas have identified taxi ranks as their priority areas. This is due to the fact that a taxi rank provides transport to different des-

		tinations without having to connect in other areas.
	Overhead bridge	Congestion is mainly a problem as a result of shortage of road space, and lack of such facilities to satisfy the needs of passengers and travel- lers. The problem not just remains the same but also increases other external problems such as "accidents, noise annoyance and environmen- tal pollution, which all together contribute to an excessive social pressure. Overhead bridges will also assists in averting accidents to pedestri- ans as they normally compete for space with vehicles.
	Signage	No signage and inadequate signage for tourists. No drawings such as pedestrian crossing Stops etcetera
	Speed humps	High speed driving in these areas have resulted in many fatalities in the identified areas, this necessitates the construction of speed humps to assist in the reduction of accidents caused by speeding vehicles.
Education	Primary schools	Some of the areas identified do have primary schools but there is a problem of overcrowding whereas some of them do not have primary schools within close proximity and children have to walk over long distances.
	Secondary schools	Most of these areas do have secondary schools but overcrowding remains a challenge, therefore there is a need to upgrade the existing schools or to construct new schools to accommodate the learners. Some of the areas do not have secondary schools and need construction of new schools.
	Scholar transport [primary]	Peoples from these areas have to walk over long distances to the nearby schools which affects their education as there are no schools within close proximity of the areas where they live, therefore there is a need to provide scholar transport for them
	Administration blocks	Some of the schools do have administration blocks but are in a state which require attention and some do not have school admin blocks at all
	Renovations of schools	The following schools are experiencing ageing infrastructure as they were built years ago, and are no more providing safe environment for learning and teaching.
	School furniture	Some of the schools have furniture which is not enough for all kids and require additional furniture.
Waste manage-	Trucks for Waste removal	Waste removal in these areas is very minimal and to an extent none existence, there is a need to expand the service.
ment /removal	Dumping sites	There is a long distance between these areas and the land fill sites, provision has to be made for transfer stations so that there can be waste disposal control.
	Recycle centres	These areas have recycle centres but are not fully utilised due to their poor conditions.
	Dust bins	These areas need dust bins to assist in the collection and control of waste.
Safety and security	Satellite police stations	These areas are experiencing high crime levels while they are far from the police stations and the response from the police usually comes after the criminals have flatted the area. These communities either need a police station or a satellite police station for prompt response when there is a crime reported in the areas.
	Police station	This police station is fairly small and needs upgrading in terms of human resources and infrastructure as is services quite a number of com- munities.
	Fire stations	These areas are far from the Nkomazi fire stations where in terms of response it takes a while for the fire rescue department to act and com- bat the fire before it causes major damage.
	Police officers	This is a nature conservation residential area or holiday township which attracts criminals and poachers, therefore there is an influx of crimi- nals to the area, there is a need for police visibility and additional rangers.
	SAPS and CPF pa-	Policing forum structure in these areas need to be strengthened as some are in active and in other instances have collapsed. Police visibility is

	trol	also a challenge which gives criminals a free role to torment these communities.
	Parking space	This police station is experiencing a serious parking problem for the public vehicles as it is found within the residential area of Malelane where there is no parking space.
LED	Job opportunities	These areas experience high unemployment rate as a result of lack of job opportunities which results in high levels of poverty. There is a need to enable the environment in developing local economy in these areas.
	Shopping com- plexes	These areas are far from the main shopping complexes in the municipal area. Therefore are in need of shopping complexes which are within close location.
	Market stalls/ Vendor stalls	These communities have a potential to produce or manufacture goods which can be sold to the general public and alleviate poverty. Due to the lack of market stall and vendor stalls there is no space to sell their products. T
	Skills development and training	The following areas require skill development and training in a number of market related fields which can assists in job creation and alleviat- ing poverty by creating employment to the communities.
	Farming projects	No or insufficient communal land for farming or grazing and no fencing. Dams, funding, projects , equipment

# 2. GEOGRAPHIC PROFILE OF THE MUNICIPALITY

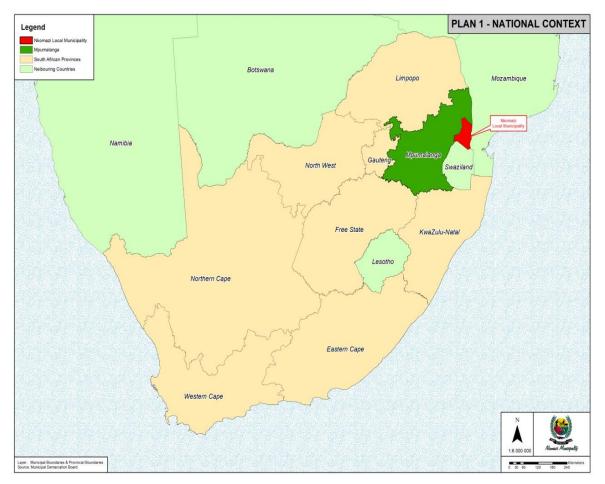

The demographic profile of the Nkomazi Local Municipality is discussed in terms of the Institutional and demographic analysis

## 2.1 Institutional Analysis

The Nkomazi Local Municipality is located in the eastern part of the Ehlanzeni District Municipality of the Mpumalanga Province. The municipality is strategically placed between Swaziland (North of Swaziland) and Mozambique (east of Mozambique). It is linked with Swaziland by two provincial roads the R570 and R571 and with Mozambique by a railway line and the main national road (N4), which forms the Maputo Corridor

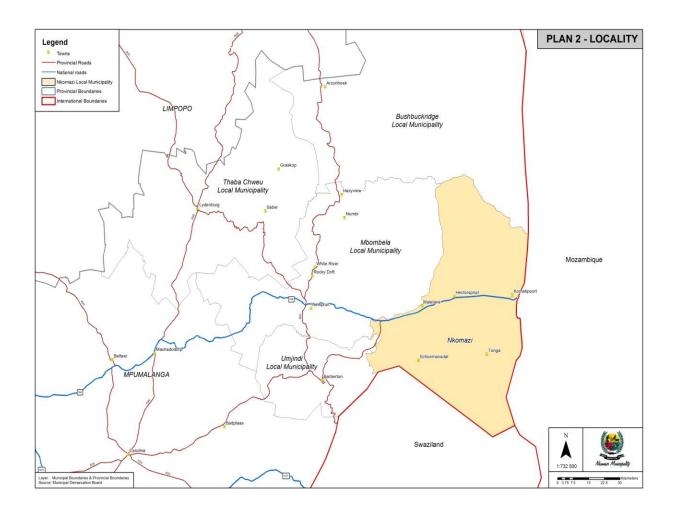

## 2.1.1 Plan1: National and provincial context

Nkomazi Local Municipality is located in Mpumalanga Province which is situated in the north-east of South Africa (**Refer to Plan 1**)

# 2.1.2 Plan2 : Locality

Nkomazi Local Municipality is one of the five local municipalities within the Ehlanzeni District Municipality. The Municipality is located in the eastern part of the Mpumalanga Province (Refer **to PLAN 2: Locality**). It is bordered to the north by the south-eastern section of the Sabie River in the Kruger National Park, Mozambique to the east, Swaziland to the south and Mbombela to the west and Umjindi Local Municipalities to the south-west. The geographical area measures **478 754.28 Ha** in extent (*Source: Municipal Demarcation Board*).

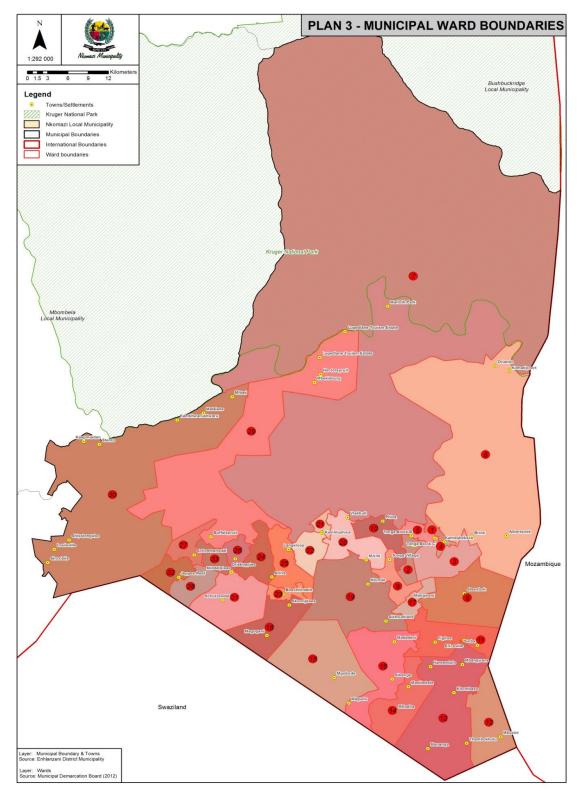

# 2.1.3 Municipal wards

Nkomazi Local Municipality is divided into 33 (thirty three) municipal wards as determined by the Municipal Demarcation Board (Refer to **Plan 3: Municipal Ward Boundaries**). Table 6 below outlines all the 33 wards and their respective settlements.

Table 6: Wa	rds and their respective settlements
Ward Nr	Settlement Area
Ward 1	Part of Tonga Block C; Part of KaMaqhekeza
Ward 2	Tonga Block A; Part of Tonga B; Part of Mangweni
Ward 3	Part of KaMaqhekeza; Part of Block C
Ward 4	Naas Township; Part of KaMaqhekeza
Ward 5	Part of Tonga Block B; Part of Block C
Ward 6	Komatipoort and Farms; Orlando; Brink (Dludluma); Albertsnek (Ngwenyeni)
Ward 7	South-eastern part of the Kruger National Park, Marloth Park; Part of Vlakbult (KaMdladla) and farms
Ward 8	Steenbok
Ward 9	Part of Mangweni; Tonga Village
Ward 10	Phiva; Part of Tonga Block A
Ward 11	Goba;Eric'sville, Figtree (Hhoyi)
Ward 12	Mbangwane;Tsambokhulu;Khombaso; Mananga; Mandulo
Ward 13	Mbuzini,Bhaca,Ndindindi,Nkungwini,Mpanganeni,Durban,Mabidozini,Samora Park,Emacambeni
Ward 14	Masibekela; Mthatha; Hlahleya
Ward 15	Mgobodzi; Part of Magudu

Table 6: Wai	ds and their respective settlements
Ward Nr	Settlement Area
Ward 16	Madadeni;Sibangeand Part of Magudu
Ward 17	Part of Mangweni
Ward 18	Magogeni; Skoonplaas (Gomora)
Ward 19	Ntunda; Sikhwahlane; Part of Mzinti

Ward 27	Part of Schoemansdal; Part of Buffelspruit
Ward 28	Part of Schoemansdal; Jeppes Reef
Ward 29	Part of Buffelspruit; Mbekisburg; Hectorspruit; Lugedlane Tourism Estate; farms
Ward 30	Mhlati; Malelane; Kamkwarukwaru; Stento, Kaapmuiden; Shiyalongubo; Sincobile; Louieville;farms,
Ward 31	Schulzendal: Part of Middelplaas
Ward 32	Part of Jeppes Reef
Ward 33	Part of schoemansdal

## 2.1.4 Plan3: Municipal Ward Boundaries

# 2.1.5 Traditional Authorities

Nkomazi Local Municipality consists of 8 (eight) Traditional Authorities situated in the southern section of the municipal area (Refer to **Plan 4: Traditional Authorities and Plan 5: Settlement Boundaries).** Table 2 below outlines the different traditional authorities and their respective settlements or villages under their control.

	Traditional Authority	Settlement Area
1	Mlambo Tribal Authority	pzini, Samora Park, Emacambeni, Mbangwane; Ekusulukeni, Khombaso; Tsambokhulu; Mananga; Masibekela; Mandulo; Mthatha, New Village, and Hlahleya.
2	Hhoyi Tribal Authority	Eric'sville and Goba.
3	Siboshwa Tribal Authority	Part of kaMaqhekeza; Block A (KwaZibukwane); Block B (KwaSibhejane); Block C (Esibayeni); Tonga and Los My Cherry.
4	Kwa-Lugedlane Tribal Authority	Mangweni and Steenbok
5	Mawewe Tribal Authority	Magudu; Mgobodzi; Madadeni; Sibange; Phakama.

## 2.1.6 Urban Areas

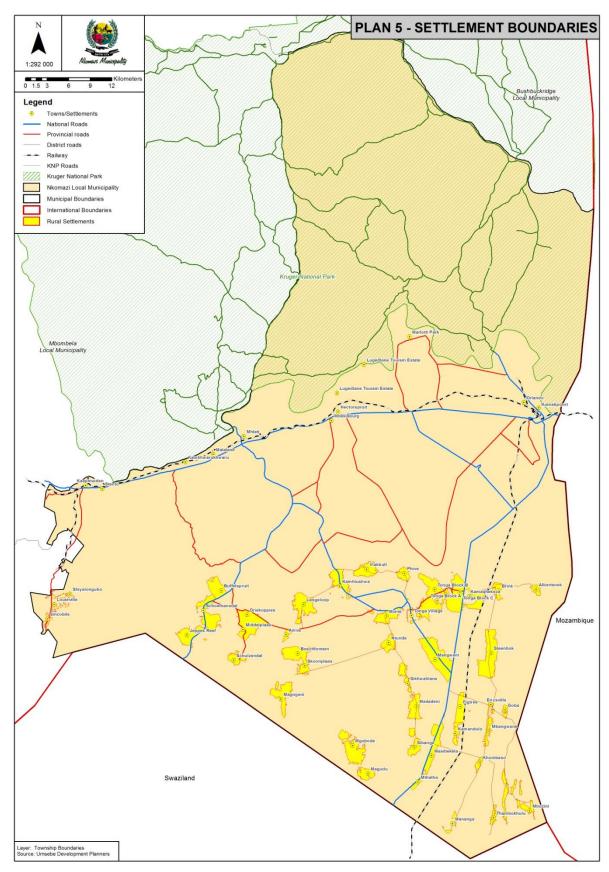

# The urban areas for Nkomazi Local Municipality are:

- Malelane •
- Kaapmuiden
- Hectorspruit
- Komatipoort •
- KaMaqhekeza •
- Tonga; and
- KaMhlushwa •

#### 2.1.7 Plan4: Traditional Authorities

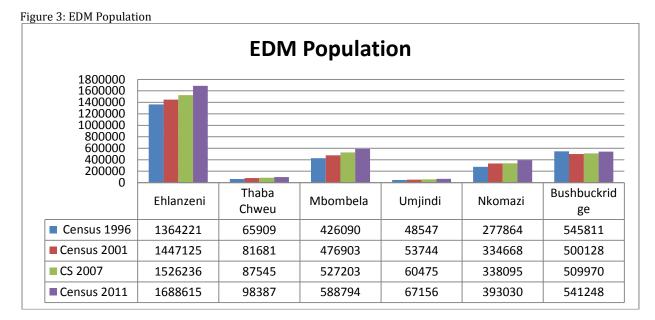

## 2.1.8 Plan: Settlement Boundaries

## 3. DEMOGRAPHIC ANALYSIS

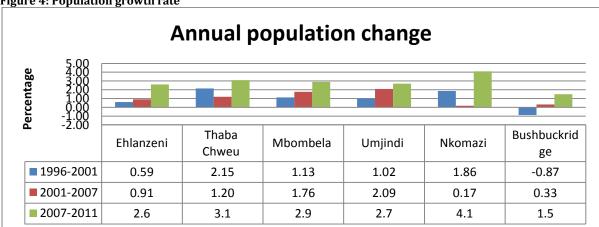

## 3.1 Nkomazi Population In Relation To EDM

#### Source: Stats SA Census 1996, 2001 and 2011

According to Census 1996, the population for Nkomazi municipality was sitting at 277 864. According to census 2001 the population of Nkomazi was at **334668**. From 2001 to 2011 the population has grown up to 393 030. Between 1996 and 2001 the population has increased by 56 804 over a periode of five years. Between 2001 and 2011 the population has increase by 58 362 over a period of ten years.

## **3.2 Population Growth**

#### Figure 4: Population growth rate

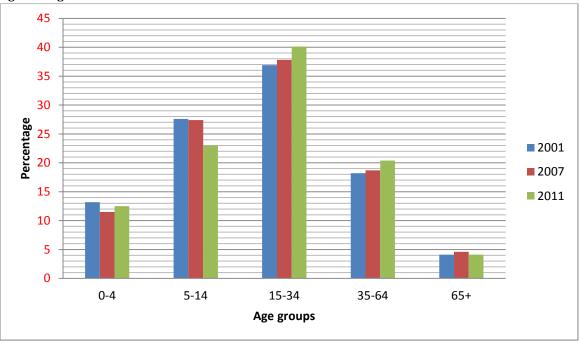

In 1996 to 2001, Nkomazi municipality has recorded an annual growth rate of 1,86%. A significante increase has been observed between 2001 and 2011 on the annual population growth rate .

## 3.3 Population Age Profile and Population Dependency Ratio

Source: Statistics South Africa: 2011 Census Data

#### Figure 5: Age distribution

Source: Statistics South Africa: 2011 Census Data

Figure 5 shows that about 40% of the population of the municipality is still dominated by the younger age structure, the15-34 year age group, which is the child-bearing group. The younger age structure implies a population explosion, which places additional strain on the provision of the necessary services (i.e. health care and education), infrastructure (roads, sanitation, water) and housing as well as land for housing purposes.

Table 7 and Figure 5 further indicate that since 2001 Nkomazi Municipality is experiencing a decline in the number of youth under 15 years from 40.8% in 2001 to 35.4% in 2011. There is a slight increase in the number of the economically active people or working class (15-59 years) from 53 % in 2001 to 58.8% in 2011. The number of pensioners remains unchanged since 2001 to 2011.

Table 7 also illustrates that the municipality's dependency ratio, (which is the % of economically inactive people depending on the economically active people) has since 2001 declined from 87.6% to 70% in 2011. This figure is still high as it reflects a high number of people that needed to be looked after and depended on the State's social grants and pensions.

## 3.4 Population Groups

#### Table 9:

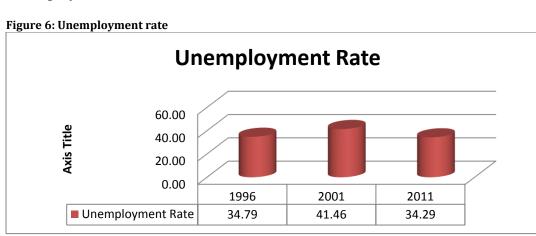

Population Group	1996	2001	2011
African/Black	98.71	98.55	97.72
Coloured	0.16	0.18	0.23
Indian/Asian	0.06	0.06	0.33
White	1.08	1.20	1.60

Source: Statistics Census 2011

Between 2001 and 2011 there has been a noticeable increase in the Indian /Asian and white population in Nkomazi.

## 3.5 SOCIO ECONOMIC PROFILE/INDICATORS

## unemployment rate

Source: Statistics Census 2011

In 1996 the unemployment rate in Nkomazi was at 34.79. In 2001 it went up to 41.46. Between 2001 and 2011 it has gone down to 34.29

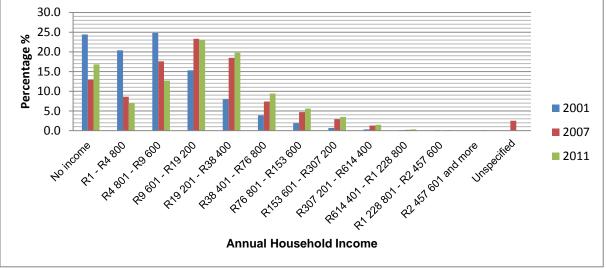

# 3.6 Income and employment Profile

Table 8 and Figure 9 below illustrate the annual household income for the Nkomazi Local Municipality. In 2001 about 24% of the households had no formal income while about 60% of the households earned an annual household income of less than R20 000. In 2007 the number of households with no income decreased to 13% while the number of households earning an income of less than R20 000 remained at 60%. This trend stayed almost the same in 2011and this is indicative of a persistent high poverty level in this municipality. In addition, Table 9 illustrates the municipality employment profile since 2007 up to date. The percentage of employed head of households remained at 44% and that of unemployed declined to 18% while the number of not economically active individuals increases to 38%. This high poverty level directly affects the municipality's financial ability to provide and maintain services.

Source: Stats SA 2011

## 3.8 Employment Sector

As shown in figure 10, in 2011 almost 27% of the people were involved in the community services, which may be anything from self-employed to elementary work. The low education level of the majority of the people in Nkomazi is the reason why people cannot enter sectors that require technical expertise.

Ranking		No of People
1	Tuberculosis (A15-A19)	710
2	Cerebrovascular diseases (I60-I69)	480
3	Intestinal infectious diseases (A00-A09)	363
4	Influenza and pneumonia (J09-J18)	266
5	Human immune deficiency virus [HIV] disease (B20-B24)	129
6	Other viral diseases (B25-B34)	111

#### **3.9 Education**

Figure 9: Education attainment

Source: Statistics Census 2011

Educationa is a key indicator of development in a population. There are several ways in which one can evaluate access to educational services in a population. To evaluate long term provision of education, it is important to disaggregate education. The graph above represents people who have completed matric and a post matric qualification. Statistics South Africa generated this measure both in Census 2001 and the Community Survey 2011, providing a comparison of completed level of education over the 5.3 year period.

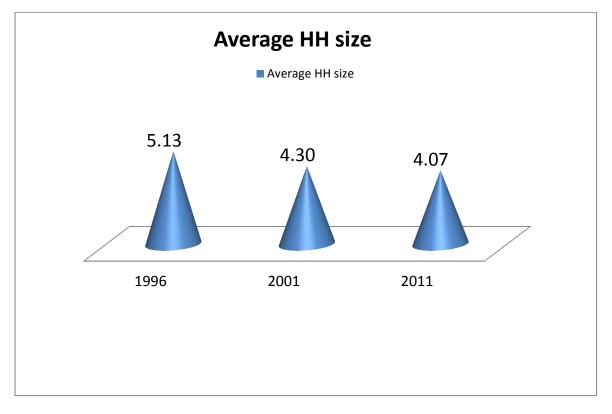

The figure 9 represents the educational attainment of males older than 20 years in Nkomazi local municipality and the females. There were major improvements in educational attainment within the municipality between 2001 and 2011. About 17.6 % of males and 26.7% females over 20 years had no schooling in 2001. This was reduced to 8.6% and 17.6%, for males and females, respectively by 2007, which indicate favourable improvements in educational attainment over a period of 6 years. There was an increase in educational attainment at each level of education,

Educational attainment is a key indicator of development in a population. There are several ways in which one can evaluate aess to educational services in a population. To evaluate long term provision of education, it is important to disaggregate educational attainment for persons older than 20 years. This group represents people who have completed matric and a post matric qualification. Statistics South Africa generated this measure both in Census 2001 and the Community Survey 2011, providing a comparison of completed level of education over the 5.3 year period.

Figure 9 represents the educational attainment of males older than 20 years in Nkomazi local municipality and the females. There were major improvements in educational attainment within the municipality between 2007 and 2007. About 17.6 % of males and 26.7% females over 20 years had no schooling in 2001. This was reduced to 8.6% and 17.6%, for males and females, respectively by 2011, which indicate favourable improvements in educational attainment over a period of 6 years. There was an increase in educational attainment at each level of education.

#### 3.10 Household Size

Figure 10: Average Household size

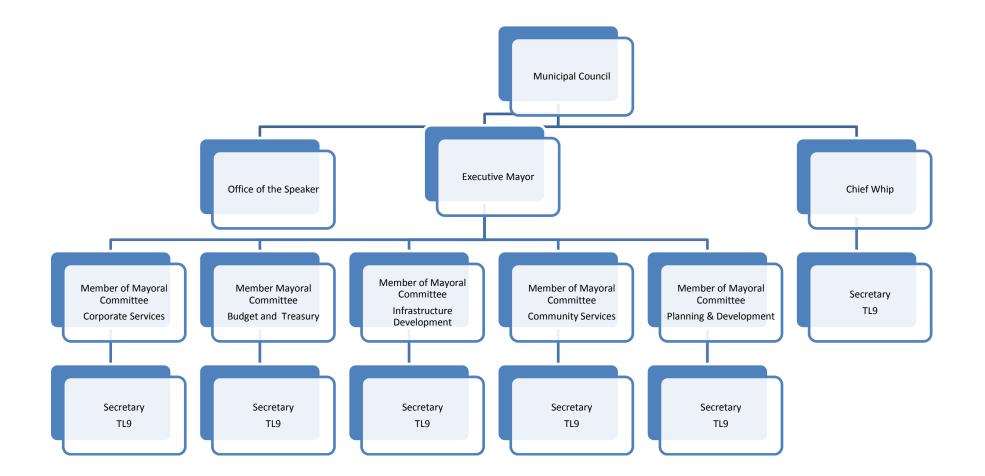

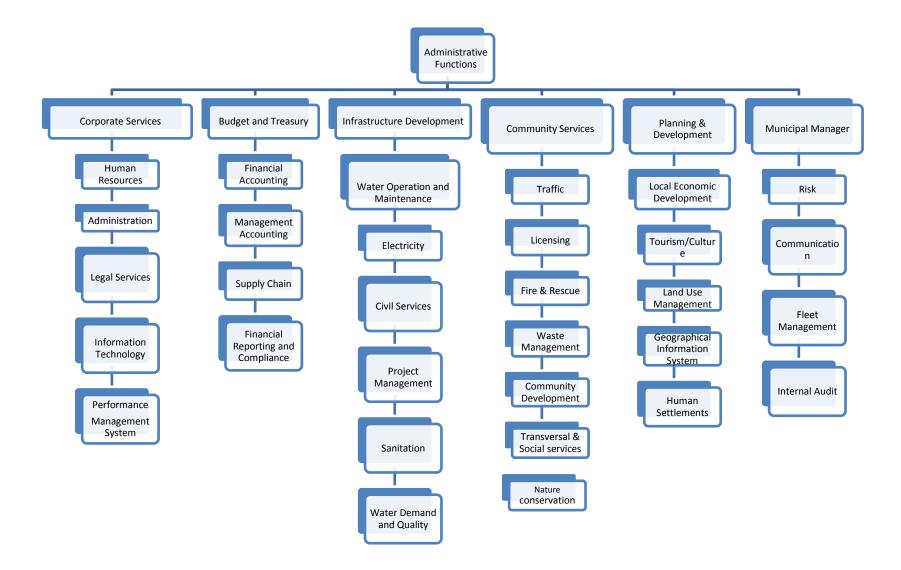

#### Source: Stats SA Census 2011

In 1996 the average household size in Nkomazi was 5.13 while in 2001 it dropped to 4.30. Between 2001 and 2011 the average household size has further dropped to 4.07.

## 5 Vision

"A leading local Municipality that empowers its communities through excellent service delivery"

## 6 Mission

The Nkomazi Local Municipality is committed to:-

"Enhance the quality of life of all the communities in the Nkomazi Local Municipality area through rendering basic services in an efficient and cost-effective manner that adheres to the principles of sustainable development"

## 7 Municipality's Core Values

The Nkomazi Local Municipality subscribes to the following core values:

- Accountability;
- Good Governance;
- Transparency;
- Integrity; and
- Responsiveness.

## 8. Nkomazi Municipality Service Standards

In achieving the vision and mission of the Nkomazi Municipality, the officials in the Municipality commit and pledge themselves to the following:

# Observe and practice all the "batho Pele" principles.

#### **Consultation**

*Citizens should be consulted about the level and quality of the public services they receive and, wherever possible, should be given a choice about the services that are offered* 

#### **Access**

All citizens should have equal access to the services to which they are entitled

*Courtesy* 

Citizens should be treated with courtesy and consideration.

#### Information

Citizens should be given full, accurate information about the public services they are entitled to receive.

#### **Openness and transparency**

*Citizens should be told how national and provincial departments are run, how much they cost, and who is in charge. Redress* 

If the promised starndard of service is not delivered, citizens should be offered an apology, a full explanation and a

speedy and effective remedy; and when complaints are made, citizens should receive a sympathec, positive response. **Value for money** 

Public service should provided economically and efficiently in order to give citizens the best possible value for money **Encouraging innovation and rewarding excellence** 

*Citizens should be provided excellent services. Efforts of staff that perform in providing customer services should be recognised and be rewarded appropriately.* 

#### **Customer** impact

Public servants should involve wide community in discussion about future developments of public service **Integrated and coordinated approach** 

Public service should involve all relevant stakeholders within and outside government to ensure well-focused, coordinated and integrated public service.

- Commit ourselves to ensuring that we render good and excellent service to the clients and community we serve, thereby ensuring that we contribute towards the alleviation of poverty.
- Respond to all correspondence within 7 working days from the date of receipt
- Service delivery related complaints will be attended to within 24 hours.
- Answer telephones in a professional manner and within three rings.
- Promote, protect and uphold the image of the institution in a royal manner.
- Work within the parameters of the Constitution of the Republic of South Africa, and other legislation related to local.

#### Municipal Goal

#### Improve local public services and broaden access to them

- Improve access to quality, sustainable and reliable refuse removal, sanitation, Electricity, Water
- Improve the municipal road network
- Provide a secure natural habitat for flora and fauna of the nature reserve/s
- Maintain community facilities in terms of quality and reliability
- Provide secure land tenure rights and formalisation of informal settlements
- Reduce the turnaround/response time to disasters
- Ensure that driving licenses are processed timeously
- Develop an implementation plan for the Municipal Office Complex

#### Build local economies to create more employment, decent work and sustainable livelihood

- Facilitate job creation and access to business opportunities
- Compile a database of Small, Micro and Medium Enterprises (SMME)
- Create an investor friendly environment

# Build more united, non racial and integrated communities

- Mainstream issues of special groups and HIV/AIDS into municipal business
- Develop an implementation plan for the Municipal Office Complex

Develop an implementation plan for the Municipal Office Complex

Develop and review LED related by-laws and policies

Develop and review municipal by-laws and policies

# **11 Spatial Development Framework**

The Nkomazi Local Municipality is reviewing its Spatial Development Framework which was presented to council on the 31<sup>st</sup> of March 2010 under Council Resolution Number NKM S-GCM: A016/2010. The Municipality has also developed its Land Use Management System as part of the SDF and is yet to be presented to Council for approval.

The Mpumalanga Provincial Growth and Development Strategy (PGDS) is a strategy developed by the Mpumalanga Provincial Cabinet and it is based on national policies and strategies. The PGDS typically contain an indication of the development potential in the rovince broken down to a district level, the province's proposed economic growth trajectory and an indication of the sectors and the areas of comparative advantage in which the province plans to invest.

In order to achieve growth and development in the province the MPGDS identifies key intervention areas that need urgent attention:

- Economic Development;
- Development Infrastructure
- Social Development;
- Sustainable Environmental Development;
- Good Governance; and
- Human Resource Development.

The Nkomazi SDF seeks to clarify on factors that influence where and how people settle and organize themselves in space. In South Africa and in particular the Limpopo and Mpumalanga Provinces, the following structuring elements impact directly on the formation and development of settlements.

- Environmental factors such as natural resources, climate, landforms (topography) and water features.
- Spatial characteristics and location of, for example the distance between activities, i.e. where people stay and where they work.
- o Distance, which is the spatial dimension of separation and is measured in terms of time, cost and effort.
- Other factors including cultural factors, economies of scale, political and economic systems.

# 11.1 Strategic Development Concept [see page 76 of the SDF as annexure 2]

In order to overcome the spatial distortions of apartheid, future settlements, economic development opportunities and infrastructure investments should be channelled to activity corridors and nodes that link with major growth centres or that have a potential to become major growth centres. The strategic development concept is based on nodes, corridors and precincts, which aim is to reconstruct and integrate the urban and rural landscape of Nkomazi into a more rational, cost effective and manageable structure. [See the Full Spatial Development framework as Annexure 2]

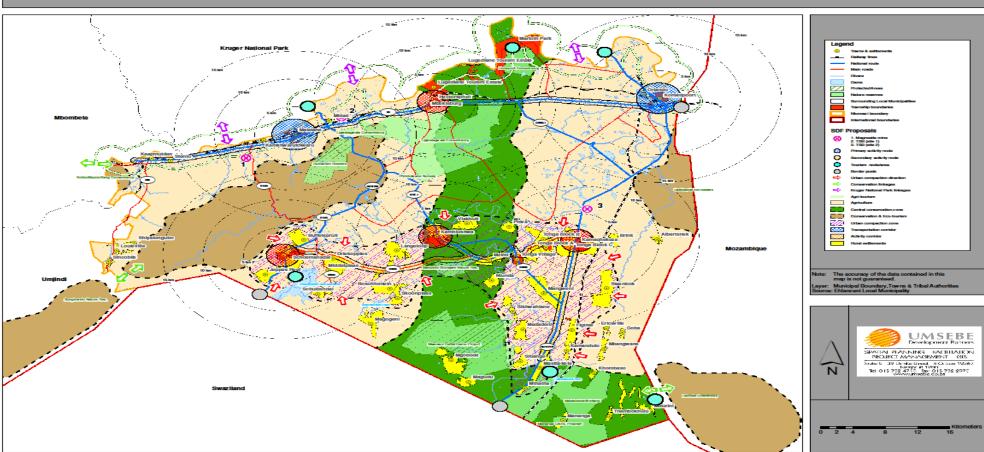

# **11.2 Compaction of the rural south**

The settlements of Schoemansdal, Driekoppies, Langeloop, Kamhlushwa, Mzinti, Tonga, Steenbok, Mangweni and Masibekela are situated in the form of an arch. Development must have as goal the compaction of urban settlement into this arch. Settlements should extend to each other along main roads without compromising prime agricultural land and environmental sensitive areas. Remote lying settlements must in principle not be allowed to extend any further, sufficient provision for the need of extension must be made within the compaction area.

# **11.3 Central Conservation Zone**

The exiting conservation developments of Marloth Park, Lionspruit Game Reserve, Ligwalagwala Conservancy, Dumaneni Reserve, Mahushe-Shonge Nature Reserve, Mawewe Cattle/Game Project as well as the proposed Vlakbult, Ntunda, Madadeni-Sikwahlane and

Masibekela-Mananga Cattle Game projects create the opportunity for an uninterrupted conservation zone in the centre of Nkomazi. This forms one large ecological unit that stretches from Kruger National Park in the north to Lubombo Conservancy in the south-east. Associated land uses may include nature conservation, cattle ranching, game breeding, tourist facilities and hunting.

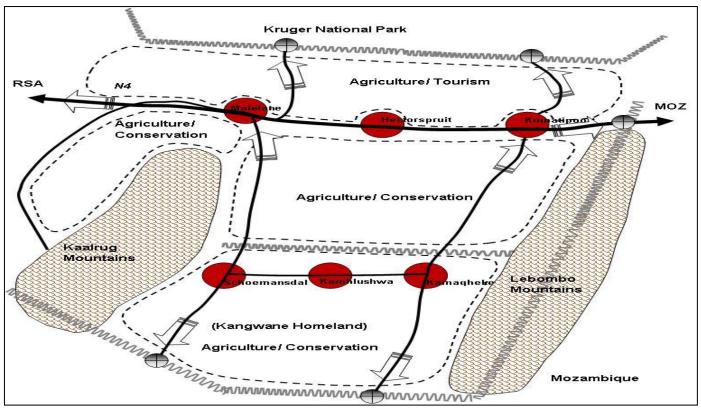

# MUNICIPALITY SPATIAL DEVELOPMENT FRAMEWORK CONCEPT

# **11.4** The following main structuring elements influenced the spatial form of Nkomazi Municipality as it exists today:

- **Past Political Ideologies** Apartheid planning resulted in the separation and isolation of the southern part of Nkomazi, which used to be Kangwane homeland, from the more developed northern part. This created a distorted spatial structure and lead to inefficiencies and backlogs in service provision.
- **Tribal Authority Areas** Dispersed settlements developed with no order. Ad hoc and unsustainable service and infrastructure development occurred.
- **International Borders** the borders of Swaziland and Mozambique act as physical barriers limiting the movement of people, goods and services to Swaziland through Jeppes Reef and Mananga Border Posts and to Mozambique through the Lebombo Border Post. Continuous influx of illegal immigrants from these countries contributes further to the mushrooming of informal settlements.
- **N4 Maputo Development Corridor** the alignments of the N4 highway and railway line have played a vital role in the development of the main urban centes in the northern part of the municipality i.e. Malelane, Hector-spruit and Komatipoort.
- **Major Roads** the two main provincial roads R570 (P80) and R571 (P179), linking the N4 highway to the south, have played a significant part in the development of urban settlements along its alignments.
- Topography the topography of the area determined its physical linkages in regional and national context. The Kaalrug Mountains limits linkages to the west and the Lebombo Mountains limits linkages to the east. The N4 remains the only link between Maputo and the economic hub of South Africa, i.e. Gauteng.
- **Kruger National Park** the Kruger National Park dictates the type of land uses to be found adjacent to its border, including agriculture, tourism related developments i.e. eco areas, conservancies and uses focusing on nature conservation.

#### Figure 11:\_ proposed illustration structural elements

(Source: Nkomazi Spatial Development Framework, 2010)

The purpose of this section is to assess Nkomazi Local Municipality (NLM) with regard to its natural resources, physical, socio-economic and institutional environments. The analysis is discussed under the following headings.

- o Natural Resource Base
- Demographic Profile
- o Urban and Rural Development
- Economic Analysis
- Engineering Infrastructure
- o Social Infrastructure
- o Institutional Arrangements

The outcome of the analysis will assist in the formulation of development strategies in order to optimally manage existing resources and to ultimately achieve long-term sustainable development.

#### 11.5 Natural Resource Base

#### 11.5.1 Climate

Nkomazi Local Municipality falls within the summer rainfall region with the rainy season normally lasting from October to March. The average mean annual precipitation for the municipal area varies between approximately 750 and 860mm with averages varying from approximately 450 to 550mm in the eastern areas to 1500mm on the higher lying western areas.

# 11.5.2 Topography

# **Table 13: Elevation**

Range (m)	Area (ha)	%
101 - 200	25 412	7.9
201 - 300	193 936	59.9
301 - 400	86 937	26.9
401 - 500	9 362	2.9
501 - 600	6 687	2.1
601 - 700	1 337	0.4

Source: Mpumalanga Provincial Government: Integrated Resource Information Report - 2005

# 11.5.3 Slope

#### Table 14: Slope Analysis

Class	Area (ha)	%
Level (0-3%)	158 511	49
Moderate (4-15%)	111 955	34.6
Steep (16-25%)	22 169	6.8
Very Steep (25+)	31 037	9.6

Source: Mpumalanga Provincial Government: Integrated Resource Information Report Nkomazi

In terms of topography, the following is concluded:

- Steep slopes and mountainous areas are to be found in the western part and along the eastern boundary of the municipality. The Kaalrug Mountain range is to be found to the west forming part of the Barberton Mountain-lands and the Lebombo Mountain range is located along the eastern boundary.
- The Lebombo Plains, located between the Komati River and the Lebombo Mountains to the east, are characterized by flat to undulating landscapes.
- The central part between the Komati River and the mountainous western areas is fairly flat however steeper slopes occur to the south towards Swaziland border.

# 11.5.4 Geology

Geology Type	Area (ha)	%	%	
Arenite	34 730.01	10.73		
Basalt	50 784.14	15.69		
Dolorite	6 732.38	2,08		
Gabbro	388.41	0.12		
Gneiss	14 209.20	4.39		
Granite	12 234.80	3.78		
Granophyre	2 492.27	0.77		
Lava	38 970.11	12.04		
Lutaceous Arenite	15 018.38	4.64		
Quartz Monzonite	94 609.33	29.23		
Rhyolite	18 449.30	5.70		
Shale	32 529.04	10.05		
Ultramafic Rocks	2 492.27	0.77		

Source: Strategic Environmental Focus

A large proportion of Nkomazi is underlain with quartz monzonite (30.7%) to the south and central region. Basalt is the second most dominant (16.5%) geology type, located to the east. The north-western part is predominantly underlain with arenite and lava. The least occurring geology types are ultramafic rocks, granophyre, gabbro and dolorite.

#### **11.5.5 Agriculture Potential**

#### Soil Potential

In response to the increasing development pressure and request for information on agricultural land a **Soil Potential Layer** was developed by the Department of Agriculture based in Ermelo, as part of a process to develop an **Agricultural Potential Map** for Mpumalanga.

Soil Form Associations, Soil Depth and Clay Contents layers of the Mpumalanga Soil Mapping Project (Van den Berg) were used to create a preliminary Soil Potential Layer that shows the location of the different soil potential classes (Low, Low-Medium, Medium, Med-High, High) for Mpumalanga.

The soil potential layer was superimposed on Nkomazi municipal area and the results are indicated in table 16.

Table 16: soil potential

Class	Area (ha)	%	
Low	171147	53	
Low-Medium	133327.8	41.3	
Medium	1459.62	0.5	
Medium-High	13666.48	4.2	
High	3433.68	1.1	

The soil potential layer is still a preliminary data set, which need to be verified by field surveys and observations. It should be further verified and refined before it can be used in the modeling of the Agricultural Potential Layer.

# 11.5.6 Agricultural Land Capability

In additional to the Soil Potential Layer the Agricultural Land Capability of Nkomazi is illustrated in table 17.

Class	Area (ha)	%	
Very Low	49400.2	15.3	
Low	30475.9	9.4	
Medium	243105.2	75.3	
High	0	0	

Table 16: Agricultural Land Capability

Accordingly, 0% of the municipal area is regarded as high potential agricultural soils, 75.3% as medium potential agricultural soils and 15.3% as very low potential soils. Most of the agriculture activities (grazing and irrigation) take place on medium potential land.

# 11.5.7 High Potential Agricultural Land

"High potential agricultural land" means the best available land, best suited to, and capable of consistently producing acceptable yields of a wide range of crops with acceptable expenditure of energy and economic resources and minimal damage to the environment". (Source: www.agis.agric.za)

Criteria for identifying prime and unique agricultural land:

- Absence of restrictions on cultivation (e.g. slopes and distance from watercourses)
- Present irrigation (land under permanent or seasonal irrigation is deemed to qualify as prime agricultural land)
- o Moisture availability
- $\circ \quad \text{The scarcity factor} \quad$
- Soil type, soil depth and soil texture.

Topsoil depth plays a significant role in determining the agricultural potential of land. Soil depths deeper than 750mm within access of a water source need to be regarded as worthy of protection as a scarce resource.

These criteria are used as guidelines when evaluating an area. Areas that don't meet the criteria are not automatically available for development or change in land use i.e. areas with a low potential for crop production, might have a high potential for grazing, making it an area of high agricultural value. The specific situation or scenario of each application is also considered, i.e. size of area, availability of water, economic viability and sustainable agricultural use and external factors such as political influences, development trends etc.

#### **11.5.8 State of the Environment**

# 11.5.8.1 General

The mountainous areas and the river systems form the backbone of the natural environmental system, providing the major water source needed for development and the scenic environment essential for tourism.

Areas of pristine natural environment in the northern part of Nkomazi include the Kaalrug Mountain range to the west, the Lebombo Mountain range to the east and the whole length of the Crocodile River. These areas have excellent potential for eco-tourism uses.

The southern part contains large areas of pristine natural environment with conservational value. Important to mention are the banks of the Mlumati River, naturally occurring cycads at Mbuzini, the Mananga Wetland, the areas surrounding Lake Matsamo and the Mananga Whaleback, this forms part of the Lebombo Mountain range on the far eastern side.

#### **11.5.8.2** Conservation Areas

Nkomazi municipal area boasts a number of nature reserves and conservancies as indicated in table 18:

Reserve/Conservancy	Location	Area (ha)
Lionspruit	Adjacent south of Marloth Park.	1615.27
Dumaneni Reserve	South of Malelane along the R570 road.	2664.63
Mahushe Shongwe	Adjacent west of Mzinti settlement.	1139.73
Ligwalagwala Conservancy	South of the N4	12639.98
Mawewe Cattle/Game Project	In the vicinity of Mgobode, Magudu, Sibange and	9190.24
	Madadeni Settlements.	
Masibekela Wetland	East of the Mananga Border Gate to Swaziland	987.46
	and surrounded by Mananga, Thambokhulu,	
	Mbuzini, Khombaso and Masibekela Settle-	
	ments.	
Mananga Care Program	In Mananga settlement.	244.13

#### Table 17 :Conservation Areas

#### Other:

- The Kruger National Park borders Nkomazi to the north,
- Krokodilpoortberg Conservancy borders Nkomazi to the north-west, where the N4 exits the municipality,
- Songimvelo Nature Reserve borders Nkomazi to the south-west, where the R38 exits the municipality.

# **11.5.8.3 Biodiversity Assets**

The 2007 Mpumalanga Biodiversity Conservation Plan (MBCP) is a spatial plan that groups the province's biodiversity assets into six conservation categories based on the measured distribution of hundreds of biodiversity and ecological features throughout the province.

The MBCP for Mpumalanga was superimposed on the municipal area. The categories and areas covered by each category are indicated in table 19. Refer to Chapter 7 for Land Use Guidelines for biodiversity conservation.

Nr	Category	Area in NLM (ha)
1	Protected areas – currently under formal biodiversity protection	14070
2	Irreplaceable areas – in urgent need of Protected Area status	17175
3	Highly Significant areas - requiring strict land use controls	11458
4	Important and Necessary areas – requiring special care	10692
5	Areas of Least Concern – providing sites for development	155845
6	Areas with No Natural Habitat remaining - providing preferred sites	114369
	for all forms of development	

Table 18 : Terrestrial & Biodiversity Assessment

#### Source: Mpumalanga Biodiversity Conservation Plan

Furthermore, the *Barberton Bio-Diversity Corridor Initiative* has identified Nkomazi to have good potential for consumptive conservation, including game breeding and hunting.

# **11.5.8.4 Natural Ecology**

There are six Biomes in South Africa namely the Fynbos Biome, Ticket Biome, Forest Biome, Succulent Karoo Biome, Grassveld Biome and Savannah Biome. The municipality forms part of the Savannah Biome, which covers approximately 33% of the area of South Africa. Generally, the Savannah Biome is characterised by a grassy ground layer and a distinct upper layer of woody plants. Some sub-categories of the Savannah Biome form part of the municipality as follows (Source: Department Environmental Affairs and Tourism 2009).

- *Sweet Lowveld Bushveld* located from the eastern parts of the Kruger National Park, southwards through Swaziland and into the northern parts of KwaZulu-Natal. In terms of climate, rainfall varies from 550 to 600 mm per year, falling in summer. Temperatures range between -2°C and 43°C, with an average of 22°C.
- *Mixed Lowveld Bushveld* located on flat to undulating landscapes between 350 and 500m cutting across the municipality from the north to the south. In terms of climate, the annual summer rainfall for the area varies from 450mm to 600mm. Temperatures vary between -4°C and 45°C, with an average of 22°C.
- Lebombo Arid Mountain Bushveld located on undulating rocky terrain on the eastern border of the Kruger National Park, extending through Swaziland into the northern part of KwaZulu-Natal. In terms of climate, the annual rainfall ranges from 450mm to 700mm. Temperatures vary between -1°C and 46°C, with an average of 23°C.
- Sour Lowveld Bushveld located on the lower eastern slopes and foothills of the Drankensberg, from the Soutpansberg in Limpompo, through Mpumalanga and into Swaziland cutting across NLM. In terms of climate, the summer rainfall varies from 600mm to 1000mm per year. Temperatures range between 2°C and 43°C with an average of 22°C.

# **12. KEY PERFORMANCE AREAS- STATUS QUO ANALYSIS**

The status quo assessment details the situation of the municipality with regards to the provision of services in relations to the identified critical services. It also presents the state of interaction in the municipality in relation to the five key performance areas; namely:

- I. Service delivery and infrastructure development
  - o Water
  - Sanitation
  - Waste management
  - Electricity
  - o Roads
  - o Storm water

#### II. Public participation and good governance

- Governance structures
- o Management and operational systems

#### III. Institutional development and transformation

- Information technology
- Availability of skilled staff
- Organizational structure
- Vacancy rate
- o Skills development plan
- Human resource management strategy/plan
- $\circ \quad \mbox{Individual performance and organizational management systems}$
- Monitoring, evaluation and reporting processes and systems

# IV. Financial viability

- Tariff policy
- Rates policy
- SCM policy staffing
- Payment of creditors
- Auditor General findings
- Financial management systems
- Revenue enhancement strategy

#### V. Local economic development

- Local economic development strategy
- Unemployment rate
- Level of current economic acticity
- Job creation initiatives

The 2014/2015 Nkomazi local Municipality's IDP highlights challenges that the municipality is confronted with. Latest acceptable information and data that informs the analysis has been duly utilised.

#### **12.2 BASIC SERVICE DELIVERY AND INFRASTRUCTURE DEVELOPMENT**

# i. Water

Nkomazi local municipality is a Water Services Authority and has a license to supply water in all areas within the jurisdiction of the municipality. The municipality is currectly developing a Water and Sanitation Master Plan through the MISA program. Currently the procurement processes are underway and a service provider will soon be appointed.

The table below illustrates how water is accessed by households in Nkomazi as outlined by the census conducted in 2011.

	PIPED WATER

#### SANITATION

Due to its rural character the provision of basic sanitation has been one of the major challenges faced by the Nkomazi Local Municipality. Since 2004 the municipality has been engaged in various projects to provide basic sanitation systems in the form of VIP toilets mostly in the rural villages where the need is highest. As outlined in the Table below, in 2011, out of 96 201 households 14 873 households do not have access to decent sanitation. The table illustrates the various forms of sanitation and its accessibility in Nkomazi.

Table no: Source: Stats SA census 2011

# Free basic sanitation

The municipality provides free basic sanitation in a form of VIP toilets and the Department of Human Settlement provides financial support and the required skills for the programme.

				Oitatia	_				
Municipality	None	Flush toilet (connected to sewer- age sys- tem)	Flush toilet (with septic tank)	Sanitatio Chemical toilet	n Pit toilet with venti- lation (VIP)	Pit toilet without ventilation	Bucket toilet	Other	Total

Ehlanzeni	45287	95856	12848	7749	63479	210984	2654	6229	445086

#### Level of services

Sewer outflow upgrading projects are being carried out in the urban areas such as Malalane and Komatipoort.

#### Associated services

In schools and clinics the Municipality do sustain sanitation facilities by emptying pit toilets and septic tanks.

#### **12.3 ELECTRIFICATION OF HOUSEHOLDS**

The Municipality's Electricity Master Plan was developed in 2007 and reviewed in 2010. The Master Plan will have to be reviewed again as Municipalities are required to include all current and future electrification projects as well as ESKOM's electrification plans. This will also include capacity and infrastructure constraints.

It was requested that the MISA program assists with the review of the Master Plan. Financial constraints have temporarily halted this exercise. Most of the areas in Nkomazi are having access to electricity; however there are extensions to areas (new and old) and infields that are without electricity due to several reasons such as sparsely populated settlements, poor spatial planning etc.

ESKOM is the major role player and service provider in the rural areas and are well aware of the shortcomings in capacity and unreliable supplies. One new substation and one substation upgrade was recently completed.

The table below reflects how the Municipality has been providing electricity within the municipal area of jurisdiction. Electricity still still remains the major source of energy when compared to other forms or sources of energy.

Table 36: Energy so	ources					
ELECTRICITY						
Municipality	Electricity	Gas	Paraffin	Candles (not a valid option)	Solar	None

# 12.4 Roads and Storm Water(PROBLEM STATEMENT)

Most of the roads in the municipal area are gravel and those are tarred are severely damaged and need rehabilitation. Certain rural villages are without access bridges and there is in general a lack of road maintenance in most of the rural and urban areas. Currently the municipality has prioritised the development of the Roads and Storm Water master plan through the MISA programe. Due to lack of funds the municipality is unable to review the current plan which was developed in 2007 and is outdated.

Table 37:

#### **12.5 Waste Management**

The municipality developed an Integrated Waste Management plan which was approved by council in 2009. The municipality is presently seeking for assistance to review the IWMP.

Due to the rural character of the biggest part of the municipality, no organised waste management and disposal sites that exist outside the existing urban areas. The Municipality is currently establishing a Landfill site at Steenbok which will service most of the areas in Nkomazi. The table below indicates how waste is currently managed in Nkomazi.

Table 39:

# 12.5.1 Nkomazi Landfill sites

There are six landfill sites in Nkomazi local of which two of those are permitted or approved[approved land fill sites are TSB and Steenbok landfill sites] The steenbok landfill site is licensed but not operational due to insufficient resources. The other remaining landfill sites are in the process of obtaining landfill utilization rights.

# 13 KPA 2: PUBLIC PARTICIPATION AND GOOD GOVERNANCE

# **13.1 PUBLIC PARTICIPATION STRATEGY**

Nkomazi local municipality has developed a public participation strategy which is still a draft.the main objectives of the strategy include amougst other things

- Provision of adequade information about services rendered by the municipalities
- Projects programmes implemented by the municipality
- o Participation of stakeholders and communities in policy development and management
- Communication amongst all parties concerned

The stragey is awaiting approval by council by the end of July 2014

#### **13.2 COUNCIL COMMITTEES**

The Nkomazi local municipality has succesfully establish the following council committees

# 1. Portfolio committees

Planning and Development	Active
Corporate Services	Active
Infrastructure Development	Active
Community Services	Active
Budget and Treasury	Active

# 2. Municipal Public Accounts Committee

The MPAC was established in 2012 in line with the new term of office of the current council cycle. It is made up of 10 appointed council members the members have undergone training to assist them to perform their responsibilities efficiently. The key responsibility of this committee is to oversee the overall municipal performance which includes amongst other things:

- Annual performance reports
- Midterm reports
- Conducting sites visits on municipal projects

The committee has currently submitted three oversight reports to council. An itinerary for the current financial year has been developed and is implemented.

In executing its responsibilities, the MPAC still face challenges on the following

- Staffing
- Office space

#### 3. Geographic names change committee

The LGNC was established in 2011. It is made up of six(6) members, three councilours and three officials. They have adopted a program which details on how often do they meet. It was formed to perform the following functions:

- o To oversee the naming and re-naming of identified features in the communities
- To facilitate communication with the affected communities.
- $\circ$   $\quad$  To conduct public hearings in the identified areas
- $\circ$  ~ To make recommendations to council on the outcomes of their activities

The LGNC has further established ward based geographical names committees in March 2013. Priority has been given to areas where the municipality is entending the revenue enhancement strategy.awareness campaigns have planned for July 2014.

# 4. Town Planning tribunal

The **Town Planning Tribunal** was enacted on the 20<sup>th</sup> of January 2004, In terms of the Municipal Structures Act 117 of 1998, in order to handle all Town Planning matters.

The members that are serving currently in the committee were appointed in terms of Council resolution **NKM A070**/**2011.** 

The following members were nominated to serve on the committee:

- Clr. Gugu Nkambule(chairperson)
- Clr. Lizzie Mkhatshwa;
- Clr. Enock Mahlalela;
- Clr. Lindiwe Ngomane;
- Clr. Given Ngomane; and
- Clr. Luke Makhubela.

The following matters be functions and or duties and powers of the Town Planning Tribunal in line with Section 79 [2] (a)-(b):

- Consider, and approve or reject land use applications brought about in terms of the Town-planning and Townships Ordinance, 1986 [Ordinance 15 of 1986];
- Consider and adjudicate on objections in terms of Section 131 of the Town-planning and Townships Ordinance, 1986 in respect of applications made in terms of the Town-planning and Townships Ordinance 1986, Ordinance 15 of 1986;
- Consider, resolve to recommend to Mayoral Committee and Council applications or objections in respect of the selling, renting and or exchanging of municipal land or any fixed assets in terms of the Local Government Ordinance, 1939 [Ordinance 17 of 1939];
- Resolve to recommend to the Mayoral Committee and Council any planning matters which are of strategic and controversial nature requiring full Council Resolution; and
- Resolve to recommend to the Mayoral Committee any applications contrary to the SDF but recommended for approval on the basis of its merits.

The Section 79 meets as and when it is necessary, and they give reports to the Mayoral committee of all findings and recommendations.

# 13.3 Ward committees

The Municipality is made up of 33 wards. All the 33 wards have functional ward committees which have been officially launched.they have monthly meetings and report to the office of the speaker on monthly basis.the municipality has developed an operational plan which guides all the activities of ward committees. Ward committees are responsible for extending council functions. They further develop ward operational plans which guide all the activities taking place within the ward. Sub-committees have been established and represent all the five municipal departments.

# 13.4 Internal Audit

Nkomazi Local Municipality has a functional internal audit unit which was established in terms of section 165 of the Municipal Finance Management Act, 56 of 2003 in 2007.

The internal audit is required in terms of the Municipal Finance Management Act, No. 56 of 2003, section 165 (2)(a)-(c), i.e.:

(1) The internal audit unit of a municipality must-

- a) Prepare a risk-based audit plan and an internal audit program for each financial year,
- b) Advise the accounting officer and report to the audit committee on the implementation of the internal audit plan and matters relating to-

(i) Internal audit;

(ii) Internal controls,
(iii) Accounting procedures and practices;
(iv) Risk and risk management;
(v) Performance management;
(vi) Loss control; and
(vii) Compliance with this Act, the Annual DoRA and any applicable legislation, and

© perform such other duties as may be assigned to it by the accounting officer.

# 13.4.1 Staffing:

- Internal Auditor
- Assistant Internal Auditor
- Internal Audit Clerk

# 13.4.2 Reporting

• Internal audit unit reports administratively to the accounting officer and functionally to the audit committee

# 13.4.3 Documents approved and implemented by the unit

- Internal Audit Charter;
- Three Year Strategic Internal Audit Plan and One Year Internal Operational Plan; and
- Internal Audit Methodology

# 13.4.4 Audit committee

Audit Committee has been established in terms of **Section 166** of the Municipal Finance Management Act, no 56 of 2003.

- a) The role of the audit committee is to advise council, the political office-bearers, the accounting officer and the management staff of the municipality on matters relating to:
  - i. Internal financial control and internal audits;
  - ii. Risk management;
  - iii. Accounting policies;
  - iv. The adequacy, reliability and accuracy of financial reporting and information;
  - v. Performance management;
  - vi. Effective governance;
  - vii. Compliance with this act, the annual division of revenue act and any
  - viii. Other applicable legislation;
  - ix. Performance evaluation; and
  - x. Any other issues referred to it by the municipality or municipal entity;
- b) review the annual financial statements to provide the council of the municipality with an authoritative and credible view of the financial position of the municipality, its efficiency and effectiveness and its overall level of compliance with this Act, the annual Division of Revenue Act and any other applicable legislation;
- c) respond to the council on any issues raised by the Auditor-General in the audit report;
- d) carry out such investigations into the financial affairs of the municipality, and
- e) Perform such other functions as may be prescribed.

# In performing its functions, an audit committee-

- a) has access to the financial records and other relevant information of the municipality or municipal entity; andb) must liaise with
  - i. the internal audit unit of the municipality; and
  - ii. the person designated by the Auditor-General to audit the financial statements of the municipality

## 13.4.5 Composition and Meeting

- a) Nkomazi Local Municipality audit committee consists of four (4) persons with appropriate experience and all are external.
- b) The audit committee meets as often as is required to perform its functions, but meet at least four times a year.

## 13.4.6 Audit Committee Charter

The committee has an audit committee charter which was approved by the Audit committee.

#### 13.5 Supply Chain Management

#### 13.5.1 Supply chain committee [scm]

The following are the committees and their functions that exist in the Nkomazi Local Municipality:

•	Bid Specification Committee	-	designs specifications and advertisements of what has to be procured Compiles tender documents
•	Bid Evaluation Committee	-	Evaluates tender documents received
•	Bid Adjudication Committee	-	Recommends a deserving bidder to the accounting officer

## Supply Chain Management policy

The Nkomazi Local Municipality has a supply chain management policy which was approved by the Municipal council on the 05<sup>th</sup> of May 2011.

## 13.6 Customer care and complaints management systems

Nkomazi Local Municipality recently established a customer care call centre (Tel : 013 790 0990) and it started working in April 2013 . This call centre is used by community members to report services delivery related complaints. A complaint register was developed and is used to record all received complains. Immediately after receiving the complaint, SMSs are sent to the municipal Councillors, Municipal Manager, directors and all sectional managers notifying them that a complaint has been received. The complaint is thereafter attended to by the relevant unit and the call centre is notified when the problem is resolved. The complainant is thereafter contacted by the call centre to confirm if the problem was resolved. Once a confirmation is received, SMSs are again sent to everyone informing them that the reported problem was resolved.

## **13.7** Fraud prevention policy

This policy is intended to set down NKLM's stance to fraud and corruption and to reinforce existing systems, policies and procedures aimed at deterring, preventing, detecting, reacting to and reducing the impact of fraud and corruption. Furthermore, the purpose of this document is to confirm that NKLM supports and fosters a culture of zero tolerance to fraud and corruption in all its activities.

## **13.7.1** Scope of the policy

This policy applies to all allegations, attempts and incidents of fraud and corruption impacting or having the potential to impact NKLM. All employees and management of NKLM must comply with the spirit and content of the Policy.

## **13.7.2** Fraud prevention plan

Given the nature of NKLM's mandate, the municipality must execute its responsibilities with integrity especially in its interaction with its employees, ratepayers, the public, suppliers, and partners and in the management of its resources. The Plan is premised on the organisation's core ethical values driving the business of NKLM, the development of its systems, policies and procedures, interactions with ratepayers, the public and other stakeholders, and even decision-making by individual managers representing the organisation. This means that in practice all NKLM's departments and

other business units and even external stakeholders must be guided by the Plan as the point of reference for their conduct in relation of NKLM.

In addition to promoting ethical conduct within NKLM, the Plan is also intended to assist in preventing, detecting, investigating and sanctioning fraud and corruption. This dynamic document details the steps, which will be continually taken by NKLM to promote ethical conduct and address fraud and corruption. The Plan takes into account the risks of fraud and corruption as identified in business risk assessments initiated by NKLM and the outcome of interviews held with NKLM's senior management. The Plan addresses strategic fraud and corruption risks that must be addressed and which could jeopardise the successful implementation of each component of the Plan.

## 13.7.3 Whistle blowing policy

NKLM recognises the fact that-

- Unethical conduct, fraud and corruption within NKLM is detrimental to good, effective, accountable and transparent governance and can endanger the economic stability of the municipality and have the potential to cause social damage;
- There is a need for procedures in terms of which employees and the public at large may, without fear of reprisals, disclose information relating to suspected or alleged unethical conduct, fraud and corruption affecting NKLM;
- Every employer and employee has a responsibility to disclose unethical conduct, fraud and corruption in the workplace; and
- Every employer has a responsibility to take all necessary steps to ensure that employees and members of the public who disclose such information are protected from any reprisals as a result of such disclosure.

## **13.7.3.1** Objectives of the policy

The Protected Disclosure Act 26 of 2000 came into effect on 16 February 2001. In order to remain in compliance with the Act, NKLM will-

- Strive to create a culture which will facilitate the disclosure of information by employees and members of the public relating to unethical conduct, fraud and corruption in the workplace in a responsible manner by providing clear guidelines for the disclosure of such information and protection against reprisals as a result of such disclosure; and
- Promote the eradication of unethical conduct, fraud and corruption within NKLM.

The Policy is intended to encourage and enable employees and the public at large to raise concerns within NKLM rather than overlooking a problem or blowing the whistle to inappropriate channels.

Furthermore the policy aims to-

- Provide avenues for employees and members of the public to raise concerns and receive feedback on any action taken;
- Inform employees and members of the public on how to take the matter further if they are dissatisfied with the response; and
- Reassure employees and members of the public that they will be protected from reprisals or victimisation for whistle blowing in good faith.

## **13.7.3.1.1** Scope of the policy

There are grievance procedures in place to enable employees of NKLM to raise grievances relating to their employment. This Policy is intended to cover concerns that fall outside the scope of grievance procedures. These concerns are indicated in the Act as follows:

- a) That a criminal offence has been committed, is being committed or is likely to be committed;
- b) That a person has failed, is failing or is likely to fail to comply with any legal obligation to which that person is subject;
- c) That a miscarriage of justice has occurred, is occurring or is likely to occur;
- d) That the health or safety of an individual has been, is being or likely to be endangered;
- e) That the environment has been, is being or is likely to be damaged;
- f) Unfair discrimination as contemplated in the Promotion of Equality and Prevention of Unfair Discrimination Act 4 of 2000; or That any matter referred to in paragraphs 3.1 (a) to (f) has been, is being or likely to be deliberately concealed

## 13.8 Transversal and Social Services

Most people in the rural and farm areas have limited or no access to proper health and social welfare services. In most cases where such services exist, the quality is poor. Most of the rural farming communities are isolated and sparsely located and health services are provided through mobile services, which are mostly unreliable and follow up remains a challenge.

## Objectives

To ensure that issues of targeted groups or marginalised groups are mainstreamed in all processes and programmes of the municipality and that the issues are considered and prioritised in planning and budgeting.

- The transversal programmes unit has the responsibility to achieve the targets that government has set to ensure that all targeted groups receive a better life for all.
- To ensure that the municipality implement the employment equity plan and also give priority to the targeted groups.
- To ensure that all sections and departments within the municipality put more emphasis and budget measures for special groups

## 13.8.1 HIV/AIDS

Globally and nationally and at Local level, as Nkomazi Municipality we recognized and realized that the developmental and political gains will be reversed unless efforts are increased and intensified to combat HIV and AIDS. The seriousness of this challenge has forced the international community to embrace the MDG targets specifically MDG target 6. MDG Declaration states that the International community pledges to "spare no efforts to free our fellowmen, women and children from the abject &dehumanizing conditions of extreme poverty" The National Government (SA) developed mitigating measures in the form of a National Strategic plan 2007-2011. It is Government commitment and policy to confront the HIV/AIDS pandemic. It is not only binding Government but all stakeholders to be involved and deal with HIV/AIDS.

Nkomazi HIV/AIDS Strategy has been developed on the basis of this National Strategy and the MDG targets, where all sectors, stakeholders and formations were involved in the exersice. The strategy serves as a tool to guide the Nkomazi Municipality (Local Government) and its stakeholders in coordinating efforts and programmes, time, energy and resources in the fight against the pandemic and reduce its impending impact.

## Why should Nkomazi address the issue of HIV and AIDS?

- HIV/AIDS reverses all developmental and political gains.
- It reduces life expectancy and the quality of life.
- Increasing the mortality and morbidity rates.

## The reality is that Nkomazi is moving towards a mature phase of the HIV/AIDS epidemic meaning:

- We are observing increasing numbers of AIDS deaths, AIDS Orphans and AIDS related illnesses.
- Care issues have become a priority for the infected, affected with palliative care and Home Based Care and access to treatment.
- Prevention issues are also a priority to reduce new infections.

Nkomazi is one Municipality that is also affected by HIV/AIDS, Nkomazi has 33 wards and certain wards are worse in terms of HIV/AIDS infections namely: Langeloop, Buffelspruit, Schoemansdal, Block B, Tonga, Jeppes Reef, Komatipport, Ngwenyeni and Dludluma.

# The Results from the Antenatal survey commissioned annually by the National Department of Health indicate:

- In 2006 Nkomazi HIV/AIDS prevalence was 38, 8%.
- In 2007 it was reduced to 37, 5%.
- In 2008 it was reduced to 35, 5%.

- 2009 went up to 41,3%
- 2010 it went up again to 47,3%

## What has been done in responding to the pandemic?

- Nkomazi local AIDS Council established, which includes, sectors, key Stakeholders involved in the fight against the pandemic, individuals living with HIV/AIDS, NGOs, business people, traditional leaders and healers, Faith Based Organizations.
- Home Based care forum established and members sits in the AIDS Council.

## **Initiated programmes and activities**

- HIV Counseling and Testing services available within Municipal offices, blood for CD4 count is taken to all clients tested HIV positive and they are telephonically called back to the facility to further discuss the meaning of the results and for furthet management.
- Home Based HIV Counseling Testing services initiated. Traditional healer's clients are tested at home after being encouraged by their traditional healers, the AIDS Council respond to such calls daily with a very good response from these clients.
- Traditional healers workshops focusing on the importance of HIV testing and HIV related conditions is ongoing.
- HCT services made available in all Traditional healers' graduation ceremony.
- Medical Male Circumcision with HCT included in the Men's Indaba project, men are mobilized for HIV testing and circumcision daily as part of HIV/AIDS prevention programme.
- Sex workers /peer education programme at the Lebombo border post continues, targeting the mobile population on HIV/AIDS prevention and condom distribution in the sex workers industry.

#### Vision of Nkomazi Local AIDS Council

Nkomazi seeks to reduce the scourge of HIV/AIDS through the integrated multisectoral approach.

#### Mission

Strives to provide comprehensive, integrated response on HIV/AIDS prevention, access to treatment, Care and support programmes

#### Achievements

- Nkomazi Local Municipality has an AIDS unit, manager HIV/AIDS appointed at a decision making level.
- $\circ$  ~ There is a fully functional AIDS Council with HIV/AIDS programmes running.
- o Budget allocated for HIV/AIDS programmes which also covers AIDS Council Activities.
- The unit has two vehicles for HIV/AIDS pogrammes procured.
- GIZ awards receives (certificates and a small trophy)
- HIV/AIDS programmes cut across to all developmental programmes as part of mainstreaming.
- Men's indaba project successfully launched to be a sustainable programme that will look at the role of men in trying to reduce HIV/AIDS new infections.
- The Municipality recognized by COGTA, SALGA and Ehlanzeni District Municipalities to have the best HIV/AIDS programme and also recommended to assist other Municipalities in establishing fully fledged AIDS Council.

## Strengths

- The Municipality has a committed political and Administrative leadership who fully support HIV/AIDS programmes, always visible and champion the programmes, advocate for the needs of communities, and make provision for the budget.
- AIDS Council has 98% committed members.

## Challenges

- The increasing HIV/AIDS prevalence is a threat to the community of Nkomazi and to Government.
- Insufficient budget to respond to the needs/problems of the Community of Nkomazi.
- Shortage of personnel remains a challenge.
- Nkomazi still have communities that do not have clinics, therefore HIV Counseling and testing remains a challenge to these communities, such communities still travel more than 10km to access treatment and chances of defaulting treatment are 99% due to transport un affordability and failure to cope with travelled long distances on foot.
- Defaulter rate of clients on ARV is increasing because a majority of patients are living below the poverty line and access to good nutritious food is a challenge.
- Lack of Funding for Home Based Care Organizations is still a challenge.
- Increasing number of Orphans and Vulnerable children who do not have birth certificates because their parents are illegal immigrants, therefore unavailability of necessary documents as per the requirements of home affairs remains a challenge.
- Child headed families who need housing, food, school uniform increases daily.
- HIV/AIDS strategy not approved by Council because it needs to be aligned with the (PSP & NSP) Provincial Strategic plan and National Strategic Plan to integrate TB. Nkomazi HIV/AIDS Strategy in the future will be HIV/AIDS and TB strategic plan.

## **Future plans**

- Establish a place of safety that will take care of HIV positive clients who are discharged from hospital for home care (still sick, unable to feed or bath themselves) and do not have people to look after them at home.
- Establish 24hr Voluntary counseling and Testing Centre.
- Establish a place of safety for children (Orphans and Vulnerable children.
- Establish food on wheels programme that will help clients who are taking ARVs but do not have food and they are unemployed.

## Goals

- To reduce HIV/AIDS new infections through intensive educational programmes focusing on behavior change, promotion of consistent condom usage, interdenominal programmes, through an integrated service delivery mechanism.
- To ensure that all clients who test HIV positive are encouraged for positive living and those eligible for treatment (ARVs) access all Primary Heath Care and social support.
- To provide social support services for all Orphans in Nkomazi through provision and advocating for foster care services and ongoing counseling.
- To provide family support services to all vulnerable children in Nkomazi through ongoing family counseling programmes, life skills programmes for parents and children, and poverty alleviation programmes.

## What do we need?

- Financial support to assist in developing a comprehensive response to the needs/problems of the community of Nkomazi.
- Financial assistance in establishing the places of safety (HIV/AIDS clients and for Orphans and Vulnerable children).
- Transport (Kombis) to transport clients who are very far to their ARV site at least one a month for the monthly supply treatment and to be used for AIDS Council outreach programme.
- $\circ$   $\;$  Home Based care kits, Uniform and stipend for Home Based Care.
- Financial support to establish a local HIV/AIDS call centre (24rhs).
- Kombis for VCT (mobile HIV Counseling and testing services)

## Progress

- RTOs (Right To Occupy the land) for the two places of safety obtained for the Municipality to establish these places.
- The place of safety for children is now fenced.
- AIDS Council secretariat office established.

## Exchange learning programme

- Nkomazi Municipality requested by SALGA to share the HIV/AIDS best practice model with all Municipalities in the province.
- Msukaligwa requested Nkomazi to visit and help in establishing a functional AIDS Council.

#### **13.8.2 Youth Development**

The municipality has considered Youth Development as the most important aspect of development. Young people or youth comprises a majority amongst the other population groups; therefore youth development should be prioritised. The Municipality is involved in a number of initiatives and projects in order to advance the Youth Development Agenda namely,

- o Learner/Student Tertiary Education Financial Support
- Learnerships
- Internships
- Skills Development Programmes
- Career Exhibition Programme
- Youth Summit for Economic Empowerment

## 13.8.3 Disability Issues

The Municipality has adopted a Disability Policy that ensures that issues of persons with disabilities are coordinated and implemented. A disability Forum was established to assist or advise the municipality in implementing relevant programmes that will benefit persons with disabilities. The municipality always ensures that all Learnership and internship programmes accommodate persons with disabilities.

## 14 KPA 3: INSTITUTIONAL DEVELOPMENT AND TRANSFORMATION

## 14.1 Information Technology [IT]

The Nkomazi local Municipality has a unit that deals with information technology. The Municipality has developed an IT policy that was presented to council for approval in 2009.

The policy includes amongst other policies

- Internet browsing
- Password changes
- Disaster recovery plan
- o Back-up
- Security of data

#### **Composition of staff**

The IT unit has a shortage of staff. According to the approved organogram, there is a provision of four(4) posts. Out of the four posts, only two have been filled.

#### **Co-function of the unit**

- Ensure proper communication in the municipality both internally and externally
- Proper functionality of the systems in the instituation
- Updating of security softwares

## 15 KPA 4: FINANCIAL VIABILITY

## 15.1 Financial Management System

Nkomazi Local Municipality uses E-venus as a financial management system. Transactions are captured daily by Nkomazi staff to the system and the accounting entries are supported by appropriate documentation. The transactions are captured into a vote number of the relevant department and cost centre (e.g. Infrastructure & Development – Electricity Supply). The financial system has budgetary controls in effect as comparison of the budget and actual expenditure is done on a daily to monthly basis. The financial system can produce various reports including the general ledger and the trial balance. The E-venus system prohibits transactions to be processed in vote numbers that does not have budget. Only the senior manager can override the transactions processed in vote numbers that does not have sufficient budget.

Nkomazi Local Municipality uses CaseWare to prepare financial statements. The municipality export the trial balance from E-venus system and import it into the CaseWare for preparation of financial statements. CaseWare produces a full set of up to date GRAP compliant financial statements for Municipalities. CaseWare reduces the risk of errors and discrepancies allied with using immense spreadsheets as built-in validation immediately brings any discrepancies to your attention.

## **15.2 Financial Management System**

Functionality of the financial management system

Some of the reporting functionality that E-venus financial system has is as follows;

GG580 for overspent accounts	GG590 for Budgets and balances				
• GS560 for Posting register (Trial Balance)	• GS630 for Transactions per period (General Ledger)				
E-venus financial system uses GJ015 for capturing current year journals and GJ051 for capturing Audit journals. Enquir-					
ies on the E-venus financial system can be done usin	g function GO040 for financial information (Summary and detail). E-				

115

venus financial system also uses the following functions for daily processing;

<ul> <li>HI110 for capturing orders</li> </ul>	<ul> <li>HI210 for capturing delivery notes</li> </ul>
<ul> <li>HI310 for capturing invoices</li> </ul>	<ul> <li>HI720 for capturing sundry payments</li> </ul>

Challenges encountered using the system

- No procedures and training to revenue staff for month end balancing and processing
- Receipts numbers are not printing on accounts
- Not all accounts are printing
- Revenue staff still struggling to do registration of properties and processing of journals on the system due to inadequate training
- Manual for consolidation of new properties is not user friendly
- Sundry payment captured only reflect on the general ledger when the payment is done on the system of which is not in line with accrual basis of accounting.

#### 15.3 Evidence of billing system

Nkomazi Local Municipality uses E-venus as a financial management system to bill its consumers. The following functions are used to bill consumers.

- o BP404 for printing of meter book before meter readings takes place
- BG205 for capturing of meter readings
- BP421 for printing of exception report and deviations on readings
- BK200 for updating of all receipts
- o BJ for updating of all journals
- BF300 for updating of all interim valuations
- Suspends all functions on ZA100 until debtors (BP101) and integration balance (BP641)
- BM06 for locking the billing cycle
- BM10 for raising interest after a dummy billing (BM06) has been run.
- BM25 for raising instalments after a dummy billing (BM25) has been run
- o BM305 for departmental accounts after a dummy billing (BM305) has been run
- o Then a dummy billing is run using function BM30, deviations are checked and corrected
- A final billing is run by using function BM30 after running a dummy billing (BM30) that has no deviations.

The municipality has not yet taken a data cleansing exercise to produce accurate billing.

#### 15.4 SCM staffing

The unit is made up of seven (7) members, who do segregated duties as per their job descriptions. The unit is however short of at least four (4) people who will be manning the four warehouses in the following satellite offices: -

Malelane (Infrastructure Development) Komatipoort Kamhlushwa & Driekoppies

#### 16 KPA 5: LOCAL ECONOMIC DEVELOPMENT

The Nkomazi Local Municipality has an LED Strategy that was approved by council in 2009 with council resolution Number NKM; GCM A 109/2009. The strategy defines the LED Vision of the municipality as 'quality life for all through sustainable economic development' and the mission is 'to create and sustain economic growth and development that addresses the challenges of joblessness, poverty and wealth inequality in an environmentally sustainable manner'. This vision and mission is based on the following challenges that are to be addressed by the municipality and its key social and economic partners:

- 1. Economic growth and development
- 2. Employment creation (job)
- 3. Poverty eradication (alleviation) and equitable distribution of wealth

4. Sustainable utilisation of resources.

The following five (5) key pillars, as building blocks for economic development and competitiveness within the municipality, have been identified by the strategy. These are

- 1. SMME development and support;
- 2. Targeted infrastructure development
- 3. Investment planning and promotion
- 4. Institutional arrangements and capacity development
- 5. Targeted economic development and support
  - i. Agriculture
  - ii. Tourism
  - iii. Mining
  - iv. Construction

## 16.1 Unemployment Rate

Due to the fact that Nkomazi municipality is mostly a rural municipality, the municipality suffers from a high rate of unemployment as it is struggling to attract investments. Other factors contributing to the high employment rate is the shortage of skills and illiteracy rates. As it is generally applicable throughout the country, unemployment is at the heart of poverty within the municipality and the fight against poverty should begin with addressing the unemployment challenges as well as the manner in which local citizens relate to the economy.

The latest official statistical information suggests that unemployment rate has been on a downward trend. In 2007 the total unemployment rate of Nkomazi was approximately 34.2% which can be attributed to the 26% and 43% of males and females respectively. According to the 2011 STATS SA Census the total unemployment rate in the municipality is 34% with 26.8% being males and 42.5 being females. This trend in unemployment can be attributed to the following:

- Growth of the informal sector in the trade sector
- The possible outmigration
- As well as programmes favourable to females (women empowerment)

It can thus be deduced that 34% of the 71% poverty rate can be attributed to unemployment. Thus by putting in place strategies that will fight unemployment Nkomazi would have halved the fight against poverty, thereby coinciding with the national targets of halving poverty by 2014. Implication brought by this deduction is that the unemployed population is an untapped resource in the fight against poverty, thus this should be the basis of Nkomazi's poverty strategy thereby promoting self-employment and small business development.

## **16.2 Economic Activities**

## The following economic opportunities and constraints identified within Nkomazi by Sector

#### Table 40 \_ Economic opportunities

Agriculture	Mining	Tourism, Arts	Other opportu-	SMME Development	
		and Culture	nities		
-Sugar cane production	-Coal mining at	-Eco-tourism	-Development of	-Salt production and quar-	
and molasses	Mangweni	-Accommodation	shopping malls	rying

		tional Part		-Skills and entrepreneur-	

-Tour operations	ship development
	-Emergency, safety and
	security.

## 16.3 Constraints to Economic Development within Nkomazi

## Agriculture

- Uncoordinated approach to farmer development and support by the district, local Municipality and sector sup-0 port departments
- Unresolved land claims and land ownership wrangling 0
- Lack of entrepreneurial, farming and marketing skills, especially among resettled farmers (to include mentor-0 ship)
- Lack of capital funding for machinery and stock 0
- Unwillingness by the youth to engage in agricultural activities 0
- Inadequate spatial framework for the municipality 0

## Mining

- Unresolved land claims and land ownership wrangling 0
- Lack of capital funding for equipment 0
- Lack of entrepreneurial and mining knowledge, especially among the previously disadvantaged 0
- Inadequate spatial framework for the municipality 0

#### Other constraints and challenges

- Poor relations between small-emerging and established businesses 0
- Lack of information on government programmes that promote and support economic development 0
- Lack of initiative and good attitude towards economic development among community members 0
- Lack or absence of incubation houses and business parks for nurturing and growing small businesses 0
- High crime levels and security concerns among visitors, residents and businesses 0

## 16.4 Job creation Initiatives

#### EPWP

The Expanded Public Works Programme, aimed at providing poverty and income relief through temporary work for the unemployed to carry out socially useful activities, is being implemented in the municipality through with the support and assistance of the Department of Public Works and Ehlanzeni District Municipality (EDM). The number of EPWP participants is in excess of 1500.

## **Community Works Programme**

The Community Works Programme is being implemented in the municipality with a total number of participants with in excess of 1500. CWP intervene provision of labourers for useful jobs within Education, Agriculture, Health, Environmental Management and Infrastructure.

## **Local procurements**

The Supply Chain Management Policy in the municipality promotes the prioritisation of local service providers in the procurement of goods and services.

## **Comprehensive Rural Development Programme (CRDP)**

Comprehensive Rural Development is one of the key priorities of government, aimed at creating sustainable rural communities throughout the country. The programme will seek to achieve social cohesion and development in rural communities and is based on three key pillars namely:

- o coordinated and integrated broad-based agrarian transformation
- o an improved land reform programme
- Strategic investments in economic and social infrastructure in rural areas.

The programme is focused on enabling rural people to take control of their destiny, with the support from government, and thereby dealing effectively with rural poverty through the optimal use and management of natural resources. It is envisaged that the objective of this programme will best be achieved through a co-ordinated and integrated broadbased agrarian transformation as well as the strategic investment in economic and social infrastructure that will benefit the entire rural communities. The programme will be successful when it becomes apparent that "sustainable and vibrant rural communities" are succeeding.

The programme is currently being implemented in all 33 wards of the municipality.

Key to the implementation of CRDP is the realisation of goals in relation to skills development, job creation, reduction of poverty, sustainable infrastructure development and human settlements as well as the facilitation of social cohesion in rural areas. The CRDP requires active participation by all stakeholders; rural people must take the centre stage in the improvement of their own quality of life. Accordingly the municipality has established a CRDP Council of Stakeholders (CoS) as both a coordinating and a decision making structure for the implementation of CRDP. CRDP is championed by the Executive Mayor who is the chairperson of the Council of Stakeholders, the MMC for Planning and Development preside over CRDP CoS meetings in the absence of the Executive Mayor. A CRDP Technical Task Team, jointly chaired by the Municipal Manager and the Agricultural Municipal manager, has been established in line with the provincial CRDP Strategy.

The 2014/15 CRDP Business Plan has been integrated into the municipal IDP.

## **17. HUMAN SETTLEMENT**

The Municipality is predominately rural and faces a number of challenges with regard to land ownership as most land is either under the authority of traditional leaders or belongs to farm owners. Further challenges to the land issue are the finalisation of Land claim that hinders developments across the entire municipal area. Land Control is only enforced in the formerly white urban areas. There is no enforcement of land use controls in the predominantly rural and tribal areas. Consequently the development of informal settlements and uncontrolled rural sprawl has become a major challenge to the Municipality. The municipality requires implementing a proper land use management for the whole Municipal area to resolve informal settlement mushrooming in all the urban and rural areas. Traditional Leaders need to be effectively consulted and engaged in addressing the land use management issue.

## **17.1 Institutional Arrangement**

The Human Settlement section is institutionally placed within the Department of Planning and Development. It currently has two housing officers.

## **17.2 Housing Sector Plans**

The Housing Chapters was developed and tabled to Council in 2009 for adoption. It is reviewed yearly simultaneously with the IDP. Presently the Housing chapter for the year 2014/2015 is under review. Land Acquisition is key in order to address the backlog, and also address future demands for housing and land.

## 17.3 Programmes/ interventions to address housing demand

The Department of Human Settlement has purchased a portion of land for the Municipality, portion 91 and 120 of the farm Malelane 389 JU, for the purpose of an integrated Sustainable Human Settlement (low cost housing, gap market, rental stock and empty stands.)

## 17.4 Housing demand and Housing Backlog

The Municipality has embarked on an exercise to collect data from all the 33 wards in order to determine the Housing Demand of the residents of Nkomazi and also to measure if the backlog is met on a yearly basis. Currently the first stage which is the completing of forms for all the beneficiaries has already been done, what is left is just the capturing of the data to the system.

## **18. EDUCATION**

The provision of education facilities in the form of buildings is still a challenge is some rural villages. Most of the educational facilities need to be renovated, upgraded and good maintenance. In most cases there is a need to increase or add buildings in the form of classrooms in order to cope with the increasing school going population. Since 2000 the Provincial Department of Education has been engaged in various projects to address these needs.

## **19 SAFETY AND SECURITY**

Although the Nkomazi area is experiencing a relatively low crime rate, the safety and security services delivered by the South African Police Service (SAPS) is insufficient. The two neighbouring countries which boarders with South Africa are a great security threat to the municipality. The Nkomazi municipal area is so vast but it has only eight permanent police stations. There is a need on the part of the SAPS to investigate the possibility of establishing more permanent police stations in strategic areas within the municipal area, so as to improve the accessibility of the service to all communities.

The Municipality is represented in the MAM meetings which are held bi-monthly with the following key stakeholders;

- o SAPS
- o Business
- Security Companies
- o Provincial departments
- Municipal departments
- o TRAC
- o SARS
- Immigration
- CPF chairpersons
- Station Commissioners

## Purpose

The purpose of such meetings was to raise security concerns encountered within the Municipal area for the relevant stakeholders to provide the necessary assistance that they could provide in ensuring that crime is combated. Amongst other issues that are discussed include actions which require Municipal departments to provide particular services as may be required.

- Debushing of dense areas
- Provision of street lights in hot crime sports
- o Demolishing of unsafe structures used by criminals to conduct their activities
- The provision of cattle pound to reduce road accidents

National and Provincial Departments are also expected to contribute towards the reduction of crime in competencies which are beyond the Municipal function. This include;

- Border patrols
- Smuggling of goods into and outside the Country.

Though community policing remains the function of SAPS, in case where there is a need for Law enforcement in combating crime, the Municipality has a direct contact with the neighbouring police stations which provide the necessary actions as required.

The Municipality has also established a 24 hour emergency number in Hectorspruit which is open to the public to report any incident or accident which may require law enforcement.

The Municipality has developed a Safety Plan with the assistance of the Provincial Department of Safety, Security and Liaison. The plan was tabled to council in 2012.

## **20 SOCIAL COHESION**

The Municipality is currently using the SDF and the LUMS which identify land parcels earmarked for future developments which bridge the social gaps which were created by the past social segregation.

A budget has been set aside for 201/2014 financial year to develop a social cohesion plan. The Municipality is currently developing a Social Cohesion Plan which is due for approval before the end of the 2013/2014 Financial year.

## **21 AUDIT REPORT**

#### Comments on the Auditor General's opinion for 2012/2013 financial year

- The Municipality's 2011/2012 Audit Report shows that the Municipality regressed in terms of the overall performance due to a number of reasons and had a disclaimer.
- In the 2012/2013 Auditor General's Report, the overall Municipal performance has shown an improvement and got a qualified opinion. This shows a shift from the previous performance and provides room for improvement.
- The Action plan to address the raised issues for 2012/2013 financial year Audit has been developed and is being implemented. Progress has been made in this regard as some of the issues have been resolved.

Item	Summary of Audit finding	Status	Action plan	Responsible	Progress as at 14	Implementation					
number	Table 41:Action plan on issues raised b	y Auditor g	eneral	person	March 2014	date

1	CUT-OFF The municipality did not have adequate sys- tems to ensure that invoices were recorded in corrected accounting period, consequently those transactions related to repairs and maintenance, bulk purchases, Contract services and General expenses	••	Management will check all pay- ments vouchers to determine if they were cor- rectly captured.	Chief Financial Officer	Management has checked most of the payment vouchers and the process is still in progress. A sum- mary of all transactions incorrectly captured is be- ing prepared and once fi- nalised, a prior period journal will be done during the preparation of the an- nual financial statements for the period ending 30 June 2014	30 June 2014					
2	<ul> <li>VAT Transactions relating to the previous year were recorded in the current accounting period and some of the transactions were recorded inclu- sive of value-added-tax, consequently the fol- lowing line items on the annual financial statements were misstated:</li> <li>Repairs and maintenance- R 22 069 963</li> <li>Bulk purchases- R 54 728 082</li> <li>Contract services- R 23 582 084</li> <li>General-expenses-R122 417 714</li> </ul>	•••	VAT consultant has been ap- pointed to assist the municipality with all VAT is- sues.	Chief Financial Officer	Most of payment vouchers has been checked and the process is still in progress. A summary of all VAT transactions incorrectly treated is being prepared and once finalised, a prior period journal will be done during the preparation of the annual financial state- ments for the period end- ing 30 June 2014	30 June 2014					

## 22 MEC's COMMENTS ON THE SUBMITTED 2013/2014 IDP

MEC's Comments	Action taken
The Municipality should conduct strategic planning session with top manangement	The Municipality was able to conduct a Man- agement Strategic planning session in March 2014 with the support of EDM and Cogta
No indication of measures or plans to overcome or ad- dress the issues highlighted in the Municipal SWOT analysis and to take advantage of the opportunities	The Municipality is currently working on plans to conduct a full strategic planning session wherein such issues will be carefully consid- ered and measures put in place for future con- siderations
The IDP planning process aligned to the amended timeframes as outlined in the approved IDP Process Plan	The proposed amendments in the approved IDP Process Plan will be tabled to Council when when the Fina Draft IDP for 2014/2015 is ta- bled to Council for approval.
Sector plans statusquo to indicate adoption date, reso- lution and review dates No mention of Individual performance management	Provision has been made in the summary of all sector plans to accommodate these inputs Plans are at an advance stage to introduce indi-
for all employees	vidual performance management in the 2014/2015 Financial Year.
No clear indication of progress on programmes im- plemented and developed through MISA.	Progress report is included in the 2014/2015 IDP
The municipality must indicate performance targets per year for the five year IDP cycle with permance indicators	The matter is addressed in the 2013/2014-2015/2016 IDP

## 23. ORGANISATIONAL PERFOMANCE MAGEMENT SYSTEM

Performance Management System Policy/ Framework was adopted by Council on the **27 May 2010(Council Resolution no. NKM: GCM: A039/2010),** this was the first review since 2006. The performance management system is implemented to section 57 managers but the municipality has a plan of cascading to all employees in the near future.

## • Performance Management Model

The Nkomazi Local Municipality has adopted the balanced scorecard as its performance management model. The Balanced scorecard fully integrates with the IDP as the IDP provides the basic framework of performance expectations. It is a proven tool that creates synergy and enables alignment of priorities and coherent reporting.

## • Performance Agreement 2013/14

Nkomazi Local Municipality section 57 managers have entered into Performance Agreement with the municipality for the financial year 2013/14. This is in line with the MSA of 2000 and performance regulations. Adjusted Performance Agreements for 2013/2014 and SDBIP 2013/2014 adopted by council on the **28 February 2013(Council Resolution no.NKM: S-GCM: B001/2013)** 

## • Schedule for performance reporting and reviewing

The performance reporting is conducted on the monthly basis and which informs a quarterly reporting. The performance reporting is conducted on the following intervals:-

First quarter	:	July –September
Second quarter	:	October – December
Third quarter	:	January –March
Fourth quarter	:	April –June

The annual performance report for 2012/2013 financial year and mid-year report for the financial year 2013/2014 adopted by council on the 25<sup>th</sup> January 2013(S-GCM: A001/2013) and 24 January 2014(NKM S-GCM: A002/2013)

## **SECTION G**

## **24. FINANCIAL PLANNING**

## Executive Summary

In terms of section 16 (1) of the Municipal Finance Management Act, 56 of 2003 the council of a municipality must for each financial year approve an annual budget for the municipality before the start of that financial year.

Section 16(2) further stipulates that in order for a municipality to comply with subsection (1), the mayor of the municipality must table the annual budget at a council meeting at least 90 days before the start of the budget year.

The 2014 National budget review reflected that South Africa's economy has expanded over the past years, the rate of growth has steadily decline from 2.5 per cent of GDP in 2012 to 1.8 per cent in 2013; it is however projected to increase to 2.7 per cent in 2014, and gradually increase to 3.5 per cent by 2016. This trend reflects a confluence of unfavourable global and domestic circumstances which impact on all spheres of government.

The cost containment measures as set out in MFMA Circular No.70 to ensure savings on the focus areas namely, consultancy fees, travel and related costs, advertising, catering and event costs as well as previous MFMA Circulars was adopted in compilation of this budget. With the municipality's limited financial resources and also taking into account the factors of the National budget review the 2014/15 draft budget has further prioritised funds to ensure key objectives are achieved and well-performing programmes are supported.

The main challenges experienced during the compilation of the 2014/15 MTREF can be summarised as follows:

- The ongoing difficulties in the national and local economy;
- Aging and poorly maintained water, roads and electricity infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope given the cash flow realities and declining cash position of the municipality;
- The increased cost of bulk electricity (due to tariff increases from Eskom), which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable
   as there will be point where services will no-longer be affordable;
- Wage increases for municipal staff that continue to exceed consumer inflation, as well as the need to fill critical vacancies.

The following budget principles and guidelines directly informed the compilation of the 2014/15 MTREF:

• Tariff and property rate increases should be affordable and should generally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality, for instance the cost of bulk water and electricity. In addition, tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure backlogs;

- There will be no budget allocated to national and provincial funded projects unless the necessary grants to the municipality are reflected in the national and provincial budget and have been gazetted as required by the annual Division of Revenue Act;
- The draft budget herewith presented provides the appropriation of funds in the MTREF as follows:

	BUDGET	BUDGET	BUDGET
Description	2014/2015	2015/2016	2016/2017
	R	R	R
Total operating expenditure	570 107 271	591 078 994	622 587 057
Total capital expenditure	227 639 306	251 001 351	263 345 081
Tota budget (operating plus capital expenditure)	797 746 577	842 080 345	885 932 138
Total operating revenue	577 893 520	674 378 490	719 741 102

- ✓ Total operating revenue of R577.9 million for 2014/2015 financial year, R674.4 million for the 2015/2016 financial year and R719.7 million for the 2015/2016 financial year.
- ✓ Total operating expenditure of R570.1 million for 2014/2015 financial year, R591.1 million for the 2015/2016 financial year and R622.6 million for the2016/2017 financial year.
- ✓ Total capital expenditure of R227.6 million for 2014/2015 financial year, R251 million for the 2015/2016 financial year and R263.3 million for the 2016/2017 financial year.

In view of the aforementioned, the following table is a consolidated overview of the proposed 2014/15 Medium-Term Revenue and Expenditure Framework:

Description	2013/14		2014/15 Medium Term Revenue & Expenditure Framework					
R thousand	Adjusted	%	Budget Year 2014/15	%	Budget Year1 2015/16	%	Budget Year2 2015/16	%

Gains on disposal of PPE								
Total Revenue (excluding capital transfers and								
contributions)	484 564	100%	577 894	100%	674 378	100%	719 741	100%

Summary of revenue classified by main revenue source

In the 2013/14 financial year, projected revenue from rates and services charges totals R137.9 million or 28 per cent of total revenue. Revenue is expected to increase to R179.4 million, R192.2 million and R205million in the respective financial years of the MTREF 2014/15, 2015/16 and 2016/17 respectively. The above table excludes revenue foregone arising from discounts and rebates associated with the tariff policies of the Municipality.

The increment on tariffs for the 2014/15 budget is **6%** on property rates, **7.39%** on electricity and **10%** for water, sanitation, refuse and other services. The overall impact of tariff increase on household is reflected in annexure **A** 71 on page 82.

Operating grants and transfers totals R311.9 million in the 2014/15 financial year and steadily increases to R436.3 million by 2015/16. The following t able reflect the breakdown of the operational grants:

Description	2014/15 Medium Term Revenue &		
R thousand	Budget Year 2014/15	Budget Year 1 2015/16	Budget Year 2 2016/17

Total Expenditure	558 111	100%	570 107	100%	591 079	100%	622 587	100%

The budgeted allocation for employee related costs for the 2014/15 financial year totals R215.8 million, which equals **38%** of the total operating expenditure. Based on the three year collective SALGBC agreement, salary increases have been factored into this budget at a percentage increase of **7%** for the 2014/15 financial year. An annual increase of **5.4%** has been included in the two outer years of the MTREF. However the 7% is not reflective on the figures above due to the following reasons:

• The 2014/15 salary budget is based on the actual amounts of the 2013/14 which are lower than the budgeted amount and also the municipality was gazetted an EPWP grant for the 2014/15 which is not gazetted for the 2015/16 and 2016/17 financial years.

Bulk purchases on electricity increased by **8.06%** which is in line with the guidelines of the National Energy Regulator of South Africa (NERSA).

### **Summary of Capital Expenditure and Sources**

Description	2013/14	2014/15 Medium Term Revenue &			
R thousand	Adjusted Budget	Budget Year 2014/15	Budget Year1 2015/16	Budget Year 2 2016/17	
Capital expenditure & funds sources					
Capital expenditure	240 891 272	227 639 306	251 001 351	263 345 081	
Transfers recognised - capital	222 682 773	218 954 306	241 346 351	257 595 081	
Public contributions & donations					
Borrowing					
Internally generated funds	18 208 500	8 685 000	9 655 000	5 750 000	
Total sources of capital funds	240 891 272	227 639 306	251 001 351	263 345 081	

The draft capital budget of R227.6 million for 2014/15 is 5.5 per cent below when compared to the 2013/14 Adjustment Budget. The decrease is due to less capital conditional grants allocated to the municipality. The capital programme increases to R251 million in the 2015/16 financial year and R263.3 million 2016/17. The capital budget funded by the municipality's revenue has been decreased from R18.2 million in 2013/2014 to R8.7 million in 2014/2015 due to cash flow constrains.

Capital grants and transfers totals R218.9 million in the 2014/15 financial year and steadily increases to R257.6 million by 2016/17. The following table reflects the breakdown of the capital grants:

Description	2013/14 Medium Term Revenue &		
R thousand	Budget Year	Budget Year	Budget Year
	2013/14	+1 2014/15	+2 2015/16
Capital Transfers and Grants			
Municipal Infrastructure Grant (MIG)	205 454	217 346	227 595
Intergrated National Electrification Programmee	9 000	20 000	30 000
Rural Household Infrastructure Grant	4 500	4 000	
Total Capital Transfers and Grants	218 954	241 346	257 595

The 2014 DoRB introduces a new grant namely; the Rural Household Infrastructure Grant to be administered by the Department of Rural Development. The detailed capital items for the MTREF is set out on page 68-69.

Departmental capital allocations for 2014/2015 as per the basic service delivery are as follows:

- ✓ R14.6 million for electricity services, R5.6 million funded from internal sources and
- ✓ R9 million funded from INEG
- ✓ R132.2 million for water services,R1 million funded from internal sources and
- ✓ R131.2 million from MIG
- ✓ R22.5 million for sanitation services R18 million funded from MIG and R4.5 million from Rural Household Infrastructure Grant (RHIG)
- ✓ 2R55.2 million for roads services funded from MIG
- ✓ 2 R1 million for refuse removal services funded from MIG

# 27. MUNICIPAL INFRASTRUCTURE SUPPORT AGENCY

## Table : Deliverable and Problem Statement

Deliverable	Problem Statement
Priorit	ised Options
1. PMU Support	<ul> <li>Low MIG expenditure</li> <li>Insufficient funding to complete some projects</li> <li>Poor IDP coordination (no planning unit)</li> <li>3 x incomplete bus routes (no wayleaves)</li> </ul>
<ol> <li>Infrastructure Asset Register</li> <li>Water Conservation / Water Demand Management (WCWDM)</li> </ol>	<ul> <li>Lack of GRAP 17 compliant Asset Register</li> <li>No WCWDM plan</li> <li>High water losses</li> <li>Poor cost recovery</li> </ul>
4. Water and Sanitation Master Plans	<ul> <li>Inadequate water resources and high level of backlog in rural areas</li> <li>CoGTA aspires for improved LOS above VIP's when addressing current sanitation backlogs</li> </ul>
5. Operations and Maintenance (O&M) Plans	<ul> <li>Lack of O&amp;M plans</li> <li>Unknown condition and functional status of infrastructure</li> </ul>
6. Infrastructure Asset Management Plan (IAMP)	Lack of IAMP for compiling capital and operating budgets
7. Integrated Waste Management Plan (IWMP)	Lack of IWMP and Strategy
8. Comprehensive Infrastructure Plan (CIP)	Infrastructure not provided in a sustainable and coordinated man- ner
9. WSDP Update / Review	Existing WSDP lacking in completeness

It is noted here that as per the terms of reference, the focus of the Resident Civil Engineers in this assignment will mainly be on water and sanitation services.

Several water and sanitation projects are already at planning or implementation stage in Nkomazi. These projects are either funded via MIG or MWIG. Due to lack of technical and project implementation capacity in Nkomazi major bulk water supply projects were shifted over to MEGA to manage and implement on behalf of the municipality. The mandate of MEGA as a bulk services provider and the extent of its involvement in the municipalities would need to be clearly understood as the support of the Resident Civil Engineer unfolds.

## SUMMARY OF PROJECT SCOPE AND OBJECTIVES

# Table 2:Scope and Objectives

Number	Deliverable	Scope	Objectives
		Prioritised Options	
1.	PMU Support	<ul> <li>Establish status of water and sanitation projects and make recommendations</li> <li>Review Infrastructure CAPEX Budgets</li> <li>Provide inputs to the IDP process</li> <li>Assist with registration of MIG Projects</li> <li>Assist with monitoring implementation of infrastruc- ture programmes</li> <li>Assist with application for wayleaves to SANRAL to properly terminate 3 x bus routes</li> </ul>	<ul> <li>To improve MIG expenditure</li> <li>To promote quality driven implementation of infrastructure projects</li> </ul>
2.	Infrastructure Asset Register	<ul> <li>Review and update existing asset register, to be spatially referenced</li> <li>Unbundle infrastructure assets to achieve GRAP 17 compliance</li> </ul>	Prepare GRAP 17 compliant infra- structure asset register
3.	Water Conservation / Water De- mand Management (WCWDM)	<ul> <li>Develop and plan water conservation and demand management strategies and projects</li> <li>Implement projects (WC/DM measures)</li> <li>Evaluate/assess impact of projects</li> <li>Investigate possibility of setting up WDM Unit</li> </ul>	<ul> <li>To reduce the current unaccounted for water by 10% in the next 18 months</li> <li>To improve cost recovery</li> </ul>
4.	Water & Sanitation Master Plans	<ul> <li>Situational analysis (i.e. assess existing sanitation and wastewater facilities, and assess current sanitation backlog)</li> <li>Carry out socio-economic survey</li> <li>Provide forecast on future sanitation needs and estimated budgets</li> <li>Provide future Water Supply estimates to support Sanitation and Hygiene (WASH)</li> <li>Provide forecast on O&amp;M needs and estimated budgets</li> <li>Review Institutional capacity to guide sanitation strategy</li> <li>Renewal of water use licenses</li> </ul>	<ul> <li>To prepare master plan per service</li> <li>Provide improved LOS above VIP's but using appropriate / acceptable technologies, to meet aspirations and requirements of the communities in the municipality (at ward level and overall)</li> <li>To address shortage of water resources in Mbuzini and backlogs in other rural areas (Langeloop, Magogeni, Thambokulu, Figtree, Dimponjeweni,</li> </ul>

Number	Deliverable	Scope	Objectives
			Joe Slovo) - Upgrade 2 WTW's (Malalane and Hectorspruit). - Improve sanitation in Kama- quekeza, Schoemansdal, Tonga, Kamhlushwa - Address high sanitation services backlogs
5.	Operations and Maintenance (O&M) Plans	<ul> <li>Follow up on status of draft O&amp;M plans prepared by outgoing MISA TC</li> <li>Finalise O&amp;M plans</li> </ul>	<ul> <li>To prepare O&amp;M plans per service</li> <li>Training of staff on O&amp;M</li> </ul>
6.	Infrastructure Asset Management Plan (IAMP)	<ul> <li>Follow up on status of draft IAMP prepared by out- going MISA TC</li> <li>Finalise IAMP</li> </ul>	<ul> <li>To prepare GIS-linked IAMP</li> <li>Replace ageing AC pipes and refurbish water meters</li> </ul>
7.	Integrated Waste Management Plan (IWMP)	<ul> <li>Consider option of using waste transfer stations to handle solid waste from municipal service centres, concept designs and cost estimates</li> <li>Assist on process to be followed i.t.o. minimum envi- ronmental requirements for waste disposal to landfill site</li> <li>Review compliance of landfill sites to minimum envi- ronmental requirements and secure operating license</li> <li>Compile multi-year capex budget</li> </ul>	<ul> <li>Development of IWMP</li> <li>To prepare a clear roll-out plan for solid waste management</li> <li>Set up waste management unit</li> </ul>
8.	Comprehensive Infrastructure Plan (CIP)	<ul> <li>Data collection</li> <li>Explore unique needs of communities and formulate plans for infrastructure to service identified needs</li> <li>Prepare CIP report to cover</li> <li>Housing projects</li> <li>water services</li> <li>sanitation and wastewater</li> <li>solid waste management</li> <li>roads and stormwater master plan</li> <li>electrical requirements</li> <li>institutional arrangements for infrastructure management</li> <li>action plan</li> </ul>	The CIP is aimed at enhancing prepa- ration of the IDP, and consolidates information from wide range of planning instruments (sector plans)

Number	Deliverable	Scope	Objectives
9.	WSDP Update / Review		To plug gaps in existing WSDP and produce more complete WSDP to
		<ul> <li>Develop water demand model</li> <li>Update WSDP Modules 1, 2 &amp; 3</li> </ul>	enhance IDP process

## 4. PROJECT COST AND CASHFLOW PROJECTION

The estimated costs, based on the current state of problem statements and proposed deliverables, are shown in Table 3. These amounts are mainly based on time inputs by the Resident Civil Engineer with very limited input from head office and are aligned with the contract amount.

## Table 3:Project Cost and Cashflow Projection

# 6. CAPACITY BUILDING APPROACH

# Table 5:Capacity Building

Deliverable	Capacity Building Approach				
1. PMU Support	<ul> <li>Improved MIG expenditure: create understanding of process to be followed for approval of technical reports and registration of MIG pro- jects</li> <li>Create an understanding of improved project delivery through con- tinuous review of procurement processes and monitoring of projects on site</li> </ul>				
2. Infrastructure Asset Register	<ul> <li>Will assist with GARP 17 compliance</li> <li>PMU and operational staff will be trained about the use and importance of the asset register</li> <li>New projects would be captured and asset register updated on ongoing basis</li> </ul>				
3. Water Conservation / Water Demand Management (WCWDM)	<ul> <li>Involvement of municipal operational teams in certain fieldwork exercises (e.g. zone logging, leak detection)</li> <li>Procure necessary equipment to undertake field measurements (e.g. meter logging)</li> <li>Establish and train staff to calculate and monitor water losses</li> </ul>				
4. Water and Sanitation Master Plans	• Involvement of municipal staff in development of the water and sani- tation master plans				
5. Operations and Maintenance (O&M) Plans	Involvement of municipal operational staff in development of O&M     plans				
6. Infrastructure Asset Management Plan (IAMP)	<ul> <li>Asset Register that is linked to existing asset management software (municipalities legally required to maintain an asset register of its in- frastructure, incl. water and sanitation systems)</li> <li>Create an understanding of information that is available to abstract for monitoring and reporting</li> <li>Extract information of prioritised projects and compile annual capital budgets</li> <li>Improved planning as master plans would provide information on the value and capacities/deficiencies of the existing systems as well</li> </ul>				

	<ul> <li>as costs for future upgrades to the system capacities.</li> <li>Tariff reviews: if water recovery implemented, historical water sales and payment performance data can be used to "design" water tariffs for the next financial year with a view to meeting certain targeted income</li> </ul>
7. Integrated Waste Management Plan (IWMP)	• Provide training on the processes to be followed in terms of the min- imum requirements for waste disposal by landfill
8. Comprehensive Infrastructure Plan (CIP)	<ul> <li>Involvement of sector departments during data collection and consolidation of information</li> <li>Prepare action plan together with municipal staff</li> <li>Interaction between different sector departments augers well to understanding of / enhancing IDP process</li> </ul>
9. WSDP Update / Review	<ul> <li>Skills transfer / knowledge of WSDP process</li> <li>Indicate what information could be readily abstracted to inform IDP process</li> </ul>

## 7. DEVELOPMENT IMPACT

#### 7.1 PMU Support

Provision of support to the PMU office is aimed at improving MIG expenditure to implement identified water and sanitation infrastructure projects. Implementation of these projects would reduce backlogs and at the same time improve quality of water and sanitation services provided to the communities. Proper management is needed to ensure that projects are implemented timeously and within budget. The slow procurement process by Nkomazi/MEGA would need to be reviewed to enhance service delivery.

#### 7.2 INFRASTRUCTURE ASSET REGISTER

The Asset Register will assist the municipality comply with GRAP 17 requirements and thus put it in good stead to avoid being qualified by AG office. PMU office will also be better placed to contribute to the IDP process as update information will now be available.

#### 7.3 WCWDM

Implementation of effective WC/DM measures should help bring reduction in demand for water and ensure equitable share of the scarce natural resource

in line with government and DWA drive towards increased water conservation across the whole country. In a way, proper attention to leaks in the water infrastructure should lead to reduction in bulk water purchases and less service interruptions and increased income from reduced metring losses and authorised water use.

## 7.4 WATER AND SANITATION MASTER PLANS

Water and Sanitation Master Plans would improve engineering planning and budgeting in the short, medium and long term. The plans are to be reviewed on an annual basis to make them relevant.

The water master plan would guide in addressing shortage of water resources in Mbuzini and backlogs in other rural areas such as Langeloop, Magogeni, Thambokulu, Figtree, Dimponjeweni, Joe Slovo, whilst the sanitation master plan would guide in provision of improved sanitation in Kamaquekeza, Schoemansdal, Tonga, Kamhlushwa as well as required upgrading of 2 x WTW's at Malalane and Hectorspruit and to address high sanitation services backlog in new developments.

## 7.5 O&M PLANS

Preparation of 0&M plans per service will help provide focussed but integrated budgeting not only for operation and maintenance but also identified needs for refurbishment or upgrading of ageing infrastructure (e.g. replacing old AC pipes). Operational staff will be trained to better manage the municipal infrastructure. Effective 0&M plans should help reduce service delivery backlogs and ensure continued sustenance of services and prolong life of infrastructure assets.

## **7.6 IAMP**

Implementation of a planning system to ensure the timeous provision of services, appropriate service levels and continuity of service provision in accordance with policy guidelines by the efficient and cost-effective determination of capital and operating budgets for (water and sanitation) infrastructure development and maintenance thereby facilitating the compilation of annual and multi-year budget estimates.

#### 7.7 IWMP

Implementation of a planning system to ensure compliance with legislation, including environmental and resource conservation through waste reduction initiatives such as source separation and recycling, extension of the life of existing waste disposal facilities and timeous upgrading.

## 7.8 CIP

The CIP is aimed at enhancing preparation of the IDP, and consolidates information from a wide range of sector plans. Involvement of the various sector departments from data collection to consolidation and preparation of the report will assist in promoting integrated infrastructure planning.

In the current assignment, the CIP report would serve to consolidate and report on infrastructure needs / backlogs, planned projects / initiatives, funding requirements and institutional challenges in terms of the water and sanitation services, including solid waste management.

#### 7.9 WSDP UPDATE / REVIEW

The updated / complete WSDP will enhance preparation of the IDP in that relevant water and sanitation projects as advised in the WSDP would be correctly carried forward into the 3-year planning process of the IDP.

#### 8. RESOURCES AND RESOURCE ALLOCATION

# Table 6:Staff Task Allocation and Hourly Rates

Name	Position	Qualification and Years of Experience	Task(s)	Hourly Rate (excl. VAT)
Keabeng Nkwada (Staff member)	Project Principal / Engi- neer (Team Leader)	BEng (Hons) Civil, PrEng., MSAICE, MBIE 20 years	Team Leader; project coordi- nation and reporting; quality assurance and project man- agement services (part time)	R 1 320
Adam J Botha (Subcontractor)	Water Resources / QA En- gineer	MEng (Water), PrEng. (ECSA), MSAICE, FWISA, MIWM, 37 years	H/Office Support (part time, as required)	R 1 265
Anthony Gates (Subcontractor)	Wastewater Engineer / Sanitation Expert	BSc (Civil), PrEng. (ECSA), FSAICE, FWISA, MIWM, 39 years	H/Office Support (part time, as required)	R 1 265
A Vermeulen (Subcontractor)	Water Engineer	BEng (Civil) PrEng (ECSA), MSAICE, MWISA. 21 years	H/Office Support (part time, as required)	R 1 265
A Laher (Subcontractor)	Water Scientist	BSc (Biological Life Sciences), MSc (Environmen- tal Science) 6 years	H/Office Support (part time, as required)	R 935
A Chmielowski (Staff member)	Resident Civil Engineer	BSc Eng (Water & Sewage) HSRC, 32 years	Direct support to municipality on water and sanitation ser- vices (full time)	R 1 100

Name	Position	Qualification and Years of Experience	Task(s)	Hourly Rate (excl. VAT)
Hangwani Makwarela (Subcontractor)	Mechanical Engineer	BSc (Mechanical), PrEng., MSAIME, MSABTACO 20 years	H/Office Support (part time, as required)	R 1 170
Thomas Mulaudzi (Staff member)	Design Engineer	BTech (Civil) 7 years	General technical support (full time)	R 770

## SECTION I

## 28. INTEGRATED SECTOR PLANS STATUS QUO

## The Municipal SDF, as part of the IDP

The purpose of the Nkomazi SDF is seen to be exactly what it was intended – a broad and indicative guide that spatially reflects the development vision and objectives of the municipality. Because the SDF does not contain detail proposals but broader objectives, it will not be revised annually, but will guide IDP decision-taking over a number of years. It is expected that revision thereof will only be necessary when there is a shift in the development vision and objectives of the Municipality.

#### The Municipal Land Use Management Scheme

The LUMS will provide a detailed, property-bound guideline to assist investment decisions by the Municipality. It will function through the development of zones that contain detail regulations with regards to compatible land uses and bulk of development in certain dermacated areas the scheme also incorporated policy statements with regards to certain developments such as home offices, Taverns and others.

Due to the fact that the scheme must give effect to the Municipal SDF and the SDF undergoes a major change, the change should reflect through to the scheme. Such an amendment is affected by the Municipality through the application procedures prescribed by the scheme it self.

Briefly, the scheme has the following purpose:

- It gives effect to the municipal SDF by translating the SDF on a detail level to assist decision taking and the interpretation of the SDF,
- $\circ~$  It develops and guides the implementation of large-scale public sector projects and investments,
- o It regulates the form and nature of development in a locality,
- It allocates and reserves land for municipal, public and social purposes,
- It promotes environmental conservation protection

#### Spatial Development Framework

The Nkomazi Local Municipality's SDF is a spatial representation of the municipality's general development objectives. It provides the basic guidelines that promote the application of development principles for spatial development and planning that encourages sustainability, integration, equality, efficiency and fair and good governance.

The Nkomazi Local Municipality's SDF does not discard existing land rights but intends to guide future land uses. The proposals in this SDF do not grant any land use right and does not exempt anyone from his or her obligation in terms of any other act that controls or regulates the use of land. This Spatial Development Framework for Nkomazi should not be seen as the definitive guide to development in the area, but rather as a document that guides decision-making, growth and development. The merits of all development proposals should still be considered and the need and desirability for any specific development has to be proven by the developer.

#### **Disaster Management Plan**

This plan has been formulated to:

- Set out institutional arrangements within the Municipality, within a disaster management con-• text.
- Define roles and responsibilities of key personnel.
- Clearly define lines of communication. •
- Set out the strategy for financial and administrative arrangements.
- Define and prioritize short to medium term disaster management aims and objectives of the municipality.

## **Financial Management Plan**

This Financial Plan is intended to provide a foundation for the development of new revised financial policies, practices and procedures as they are needed. It is intended to generate, document and evaluate issues and possible actions surrounding four key financial areas: Cost Recovery, Access to Capital, Financial Risk Metrics, Good/ Bad Year Financial Planning. Nkomazi Local Municipality expects that the breadth and depth of issues and actions considered in this Financial Plan will continue to evolve as conditions change and new ideas are developed and that the ideas described in this document will guide the implementation of specific, actionable proposals for implementing the financial policies future rates cases. Descriptions of current budget policies and Nkomazi Local Municipality's expectations about sustainability of financial viability and management are summarized below.

The Financial Plan reflects current policies and anticipates those for the future. The purpose is to design financial policies in line with National Treasury Guidelines and the Municipal Finance Management Act No.56 of 2003 that will ensure Nkomazi Local Municipality's ability to increase its revenue base by providing rate predictability during budget process planning.

This Financial Plan identifies long term financial issues and provides strategies or suggests alternative to address them. The purpose of the plan is to generate, document and evaluate selected issues within a financial framework that will help guide Nkomazi Local Municipality's financial direction. Nkomazi Local Municipality intends to review, revise and update the Financial Plan periodically on annual basis.

#### Local Economic Development Strategy

The strategy is based on identified development needs, opportunities and comparative advantages of the area, providing the Municipality with guidelines to create and facilitate economic development, realize the underlying economic development potential, and encourage private sector investment and job creation. The strategy should foster the exploitation of strengths and opportunities in order to minimize the weaknesses and threats of the municipality. The strategy should therefore be used as a tool by the municipality to ensure dedicated and effective utilization of available resources and to promote local economic development in a proactive and dynamic manner. The purpose of this study is to evaluate the region (on an economic basis) and to identify

trends and gaps within the economic base. The identification of opportunities and strategies follow this, in order to assist the municipality in addressing the creation of employment

## Water Services Development Plan

The Nkomazi Local Municipality is the authorized Water Services Authority and as such the relevant sections of the Water Services Act (No 108 of 1997) and the Municipal Systems Act (No 32 of 2000) must be adhered to.

# Section 11 of the Water Services Act states, that:

- 1) Every water services authority has a duty to all consumers or potential consumers in its area of jurisdiction to progressively ensure efficient, affordable, economical and sustainable access to water services.
- 2) This duty is subject to -
- a) the availability of resources;
  - b) the need for an equitable allocation of resources to all consumers and potential consumers within the authority's area of jurisdiction;
  - c) the need to regulate access to water services in an equitable way;
  - d) the duty of consumers to pay reasonable charges, which must be in accordance with any prescribed norms and standards for tariffs for water services; the duty to conserve water resources;
  - e) the nature, topography, zoning and situation of the land in question; and
  - f) The right of the relevant water services authority to limit or discontinue the provision of water services if there is a failure to comply with reasonable conditions set for the provision of such services.
- 3) In ensuring access to water services, a water services authority must take into account, among other factors
  - a) alternative ways of providing access to water services;
  - b) the need for regional efficiency;
  - c) the need to achieve benefit of scale;
  - d) the need for low costs;
  - e) the requirements of equity; and
  - f) The availability of resources from neighbouring water services authorities.
- 4) A water services authority may not unreasonably refuse or fail to give access to water services to a consumer or potential consumer in its area of jurisdiction.
- 5) In emergency situations a water services authority must take reasonable steps to provide basic water supply and basic sanitation services to any person within its area of jurisdiction and may do so at the cost of that authority.
- 6) A water services authority may impose reasonable limitations on the use of water services.

## Sanitation Master Plan

The Nkomazi Local Municipality, in response to the Millennium targets requirements, have prioritised planning for all their sanitation infrastructure provision to cater for all their citizens by the year 2014.

The municipality has resolved in the preparation of a Multi-year Business plan for the implementation of a Rural Sanitation Programme to eradicate all their rural backlogs by the provision of basic levels of sanitation.

This technical report is specifically for villages where sanitation projects have been implemented in the past, but the backlogs were not fully eradicated.

It is planned that the programme will for part of the Nkomazi Local Municipality's 2008/09 IDP and will implementation will hence commence.

The population to be covered is **11,032** households, which do not have adequate sanitation facilities.

The ISD survey carried out as part of preparing this SPTFS shows these communities to be typically poor rural communities. Not all the households have adequate sanitation facilities.

The implementation of the recommendations made on this SPTFS will be dependent on the outcomes of the groundwater protocol study currently been conducted. But based on observations made from previous sanitation projects, it is assumed that Ventilation Improved Pit (VIP) latrines will be provided as a basic level of services, with a proper groundwater monitoring and quality management.

VIP Toilets were constructed in the past with no groundwater problems, so it is safe to assume that the provision of VIPs in these villages will still be acceptable.

Local builders and local communities will be trained to carry out as much of the project work. Good sanitation, health and hygiene practices will be promoted by the programme. Activities to achieve this, will include a programme of house to house visits to follow-up, reinforce and monitor the effect of the health promotion

It is expected that the main construction phases of the programme will be completed in the year 2012, should all the funds required be made available.

#### **Roads and Storm Water Plan**

The Nkomazi Local Municipality (NLM) is responsible for the planning (in conjunction with Ehlanzeni District Municipality) and implementation of local roads in the area under its jurisdiction. At the inception of the roads planning process, NLM identified the development of a Roads Master Plan (RMP) as one of the strategic projects, and formulated its scope in accordance with the Provincial and National Government requirements, as well as the relevant Integrated Development and Transport Plans. The primary purpose of this report is to present the NLM with a Roads Master Plan to guide the basic planning and development of local and regional roads in the study area.

The following main aspects related to the road network planning system have been addressed in this report:

- Analyses of the current travel patterns in the NLM area
- Analyses of the provincial and regional road networks influencing the transport and road planning in the study area
- Consultation process with the officials and other relevant stakeholders
- Formulation of adequate road hierarchy and roads classification systems
- Formulation of the proposed roads implementation plan

It should be noted that due to the budget constraints not all the roads were assessed, therefore the study relied significantly technical assessment. The study focused on the low order roads, which are classes 4 and 5 road network. No traffic counts were done, but community engagement provided the team with the prevailing operations i.e. O-D

#### **Comprehensive Infrastructure Plan**

Every Municipality needs to compile an Integrated Development Plan that defines a framework for creating and sustaining integrated human settlements by providing the necessary infrastructure in a sustainable and coordinated manner.

The CIP's have been formulated to enhance the preparation of the IDP and consolidates the information from a wide range of planning instruments (SDF, existing IDP, Master Plans, Sector Plans, etc).

It summarises the data at ward level by exploring the unique needs of communities and then formulate plans and projects for providing housing and infrastructure to service these needs. It therefore creates the basis for confirming the alignment of the different sector plans.

It furthermore addresses the full life cycle management of those assets by considering the refurbishment and maintenance needs, and ensure that the necessary skills and financial resources are available to achieve the goal of sustainable service delivery is achieved in the medium to long term.

This information feeds back into the IDP process before December of each year for the revision of the IDP.

The purpose of this process is to determine the infrastructure projects required to achieve the 2014 goals, assist and support the planning framework, provide input in to the IDP process and provide input to the MTECH process.

This report serves as the first cycle of CIP's to consolidate and report on infrastructure needs/backlogs, planned projects/initiatives, funding requirements and institutional challenges in terms of the following categories of information:

- Housing
- o Water
- Sanitation and waste water
- First order roads
- Institutional interventions, and
- $\circ$  ~ Inform the reader on an Action Plan to implement the process.

Later CIP's will expand this first version in subsequent years to also address the following additional functions:

- $\circ$  Solid waste
- o Electricity, and
- Institutional development needs, and
- Financial sustainability.

#### **Electricity Master Plan**

- Nkomazi Local Municipality is the electricity distributor (licence holder) within areas of its service delivery. However, it be noted that Eskom is also a licensed holder and the service provider in areas which were previously serviced by TED. Those areas are within the jurisdiction of Nkomazi Local Municipality area of service delivery.
- Eskom is the license holder and the service provider for the villages previously supplied by the former KaNgwane Electricity Corporation lately known as TED (Transitional Electricity Distributor).
- Although according to the Municipal Systems Act, the Municipality is the service provider but could not exercise those rights when the business was auctioned and won by Eskom in 2004.
- The department of Minerals and Energy is giving electrification funds to the Municipality as the service provider.
- The infrastructure installed using the DME funds is being ring-fenced on Eskom books and shall be calculated in favour of the Municipality during the RED's implementation.
- The maintenance record/load studies and future network expansion can be obtained from Eskom.

#### Integrated Waste Management Plan

The main goal of integrated waste management (IWM) planning is to integrate and optimise waste Management in the region by maximizing efficiency and minimizing financial costs and environmental Impacts in order to improve the quality of life for its citizens.

The compilation of an IWMP by a local authority enables the authority to spell out what its intentions are and how it proposes to achieve these goals. It sets applicable but reasonable required milestones which it hopes to achieve and then submits its IWMP to the relevant provincial authority for approval and acceptance.

The Integrated Waste Management Planning process should incorporate all the major stages of the process, namely a review of the existing baseline situation (status quo) and legal environment, projections of future requirements; setting objectives; identifying system components (strategic planning); identifying and evaluating alternative methods/approaches for meeting requirements (systems analysis); and developing and implementing an integrated waste management plan (master planning).

The IWMP will then be implemented to the best of the local authority's ability, subject to financial constraints imposed by budget restrictions and sustainability of services rendered.

It is important that any plan, once implemented, is evaluated and reviewed to ensure that the respective objectives are met. Proper monitoring of the development and implementation process will be necessary to gauge successful milestone achievements. The IWMP could therefore be utilised to guide the Nkomazi Municipality in the way forward in respect of cost-effective waste management

#### **HIV/AIDS Strategy**

This Nkomazi AIDS Strategy has been developed on the basis of this National strategy and the MDG<sup>1</sup> targets as the road map to inform AIDS Council Planning and Interventions. This road will be the tool that will guide the Nkomazi Municipality (Local Government) and its stakeholders in coordinating efforts and programmes, time, energy and recourses in the fight against this disease and reducing its impending impact.

This documents is the product is the of an AIDS strategy supported and facilitated by the District Municipality, GTZ-MRDP and ETU involving a number of key role players in the fight against the pandemic, who included, among others, representatives from the Municipal Council, Government Departments, Municipal Staff, NGOs and CBO's and other structures involved in HIV & AIDS programmes within the Jurisdiction of Nkomazi Local Municipality.

#### **Policy for Disabled Persons**

Disability issues have been addressed casually and in a fragmented way. This has been one of the key factors contributing to the marginalizing of disabled persons and the dire poverty of the circumstances in which the majority find themselves. Commitment by the Municipality to take actions for the opening, lobbying and equalization of opportunities for persons with disabilities.

Ensure that all persons with disabilities exercise the same rights and obligations as other Citizens.

The standard rules on the equalization of opportunities for persons with disabilities, the World of Action Concerning Disabled Persons and the Disability Rights Charters will be the guiding documents in developing, implementation and monitoring the development policy framework for persons with disabilities.

In a society for all, the needs of all Citizens constitute the basis for planning and policy and the general systems and institutions of society should be accessible to all.

Persons with disabilities are an integral part of society, and should have an opportunity to have a contribution in respect of experience, talents and capabilities to Local, Provincial, National and International Development.

The concept of a society for all, encompassing human diversity and the development of all human potential, captures the spirit of the human rights instruments of the United Nations.

The policy should assist the Municipality in creating an enabling environment that will lead to the full participation and equalization of opportunities for persons with disabilities at all levels of society, currently and in the immediate future.

The facilitation of the integration of disability issues into government developmental strategies, planning and programs.

The development of an integrated management system for the coordination of disability planning and implementation in the various departments of the Municipality and other government departments as per the Integrated Development Plan

A program of public education and awareness aimed at changing fundamental prejudices in South African society.

The development of the strategy needs to take place within a coherent program of reconstruction and development and must be planned and implemented in terms of strategic guidelines.

The pursuit of goals of freedom from want, hunger, deprivation, ignorance, oppression and exclusion should underpin strategies for disability planning. All disability programs should be carried out with appropriate consultation with the Nkomazi Disabled Persons Council and facilitation should include the necessary provision of resources and monitoring mechanisms.

## **Challenges Faced By Disabled Persons**

- Poverty
- Persons with disabilities living in remote areas
- Youth with disabilities
- Unemployment

#### **Youth Policy**

Nkomazi Municipality is known as poverty and under developed are with the highest population located in the rural corner of Nkomazi. Nkomazi has been experiencing economic growth through Agriculture and Tourism. These growth results from the new initiatives on the Tourism Sector that is great potential competitive advantage through the Maputo Corridor as most of our roots are through the N4.

As Nkomazi, it is important to focus on the growth legislative framework mainstreaming youth development into development by implementing youth development policy.

Youth Development in Nkomazi must take place within a context that is informed by a shared normative framework.

- Development approach to ensure integrated and holistic youth development services informed by the Youth interests and needs.
- Participatory and Inclusive
- $\circ$  To ensure youth participation through organized formations
- o Self Reliance
- Youth Development must not concern only the immediate but about the future, within a longer term, holistic and integrated approach.
- o Sustainability
- $\circ~$  Youth development must be promoted based on the fundamental human rights through modest non racist approach within the Municipality.

#### **Recruitment and Retention Strategy**

This process places suitable individuals in vacant position where they contribute to the success of the Nkomazi Municipality and where they can grow and develop to the best of their abilities. The purpose of the Nkomazi Municipality Recruitment and Selection Policy is to provide guidance on the recruitment of staff so as to comply with the provision of our Constitution, the Labour Relations Act No. 66 of 1995 an the Employment Equity Act No 55 of 1998.

This further ensures standardization, transparency, consistency, fairness and best practice with regards to the recruitment process.

The critical issue is that the growing instability of the employment relationship has been the subject of intense scrutiny; schools have explored implications of the near employment models for organizational identification, employment practices and the patterns and status of managerial careers. However, prior work experience may include not only relevant knowledge and skill, but also routines and habits that do not fit in the new organizational context.

Skills define the way that human effort produces outputs; it can be defined as the quality aspect of human capital. That is the skills we posses determine the ability to convert physical and mental effort into productive outputs. As such skills are difficult to observe or measure, they relate to talent abilities that are only observable as an aspect of the residual between outputs and inputs.

#### **Employment Equity Plan**

The Municipality is committed to creating a workplace in which no one is denied employment opportunities or benefits for reasons unrelated to ability and where no one is discriminated against unfairly.

The Municipality recognizes that total commitment from all employees to the goals of its Employment Equity Policy and Procedures is necessary if it is to succeed. To this end, it has established the Employment Equity Committee (NEEF) which will be an <u>advisory</u> committee on Employment Equity to assist in devising equity goals and strategies. Employment equity issues will enjoy priority as key business objectives and will constitute an integral part of the performance assessments of all line managers and supervisors.

It is recognised that the goals of employment equity will require specific equity interventions in order that people from "designated groups" (blacks, women and people with disabilities), are represented at all levels in the workforce, and reflect the diversity of the economically active population in the region and sector in which the Municipality's workplace is situated.

The Municipality remains committed to the promotion, development and recognition of people on merit. To this end, it will neither make 'token' appointments, nor implement any practices or procedures which establish barriers to the appointment, promotion or advancement of nodesignated employees.

## Performance Management Service Plan

This document provides a framework which serves as the guiding policy for the establishment of a Performance Management System in Nkomazi Local Municipality. This is the first review since it was adopted by Council on 7 December 2006. The review process came as a result of changes taking place in the operating environment of the organization, and also to ensure that performance management in the municipality adapts to these changes that impact on the business of service delivery.

While some success has been achieved regarding performance, the policy remains to be effectively implemented over a period of time in order to improve performance management in the municipality. One of the most daunting tasks is to gain buy-in from all employees regarding the benefits of establishing a performance management system. A change management strategy, institutional structures and leadership remain very critical to the success of establishing a sound performance management system.

This review focused on all key aspects of performance management legislation and regulations and the implications thereof, the state of performance management system implementation in the context of a new vision of government which has placed development planning and monitoring and evaluation high on its agenda. This framework will continue to guide policy implementation regarding the legal requirements of the municipal performance management system that must be fulfilled.

## Housing Development Plan/Housing Chapter

The stated objectives of this Plan are:

- Identification of housing backlogs and needs in housing and the setting of delivery goals and priorities (multi- year plan)
- $\circ$   $\;$  Identification and designation of land for housing development
- Indication through a participatory process, housing supply objectives and strategies to respond to needs
- Recommendations on how to operationalise existing synergies with other sectional programmes impacting on housing (Integrated human settlements)
- Definition of specific interventions on a project level (list of housing projects)
- o Institutional arrangements at municipal level
- o Identification, surveying and prioritization of informal settlements
- o Identification of well located land
- o Identification of areas for densification
- Linkages between Rural densification and urban renewal
- Integration of housing, planning and transportation networks
- Linkages between housing and bulk services, social amenities, economic opportunities, etc.

#### **Indigent Policy**

The Nkomazi Local Municipality believes that an indigent policy should be adopted to promote social and economic development and to provide services to the poorest of the poor (Indigent Households).

The aim is to set clear guidelines how council will assist Indigent Households and what the roles of the different departments are.

This policy will further set broad principles, resulting in the adoption of a By-Law for the implementation and enforcement of a Tariff Policy.

To determine which households qualify as indigent Households according to laid down criteria;

To set clear guidelines on the level of services that will be supplied to Indigent Households;

To determine the role of the department of the Chief Financial Officer and the

Department of the Strategy and Development Manager respectively;

To lay down guidelines on the cross subsidization and funding of the Indigent;

#### **Tourism Strategy**

The development of this framework provides strategic direction for the Nkomazi Local Municipality (NLM) in moving tourism in the region forward. Specific frameworks that will be Developed focus on providing guidelines for the NLM in terms of marketing and research, product development, investment, infrastructure and institutional arrangements.

Prior to developing the framework however it is important to outline a vision for tourism in the NLM. The vision provides an ambitious focus for where the NLM wants to go as a destination in the long term and provides for the development of realistic and implementable tourism Framework.

#### **Environmental Management**

The Municipality has prioritized the development of a number of Environment related plans during the 2010/2011 financial year, i.e Air Quality Management Plan and the Environmental Management Framework with very strong links with the SDF.

#### **Social Cohesion Plan**

The Municipality does not have a social cohesion plan. There are however plans to engage with the Provincial Social Development Department to assist the Municipality with the development of such a plan. The municipality has set aside a budget to develop the in the 2013/2014 financial year.

#### **Integrated Water Resources Management Plan**

The purpose of this integrated Water Resource Management Plan (IWRMP) is to facilitate the implementation of Water Resource Management (IWRM) by the Nkomazi Local Municipality.

IWRM seeks to reach an appropriate balance between the need to protect and sustain water resources on the one hand, and the need to develop and use them on the other i.e. IWRM enables a Local Authority to provide service to all.
